CHAPTER XXI.

I LAY in prison until the 29th day of May, Royal Oak day. I know not quite how it came to pass, but none of my brother's efforts toward my release met with any success. I heard afterward some whispers as to the cause being that so many of high degree were concerned in the riots, and that if I, a poor devil of a convict tutor, were let off too cheaply, why, then the rest of them must be let loose only at a rope's end, and that it would never do to send me back to Drake Hill scot free while Sir Humphrey Hyde and Major Robert Beverly and my Lord Estes and others were in durance, and some high in office in great danger of discovery.

At all events, whatever may have been the reason, my release could not be effected, and in prison I lay for all those days, but with more comfort, since either Catherine or Mary—Mary I think it must have been—made a curtain for my window which kept out that burning eye of the western sun, and also fashioned a gnat veil to overspread my pallet, so the flies could not get at me. I knew there were others in prison, but knew not that three of them were led forth to be hung, which might have been my fate had I been a free man, nor knew that another was released on condition that he build a bridge over Dragon's swamp.

This last chance my friends had striven sorely to get for me, but had not succeeded, though they had offered large sums, my brother being willing to tax the estate heavily. Some covert will there was at work against me, and it may be I could mention it, but I like not mentioning covert wills, but only such as be downright and exercised openly in the faces of all men. I lay there not so uncomfortably, being aware of a great delight that the tobacco was cut, whether or no, as indeed it was on many plantations, and the king cheated out of great wealth.

This end of proceedings, with no Bacon to lead us, did not surprise nor disappoint me. Then, too, the fact that I was cleared of suspicion of theft in the eyes of her I loved and her family, at least, filled me with an ecstasy which sometimes awoke me from slumber like a pain. And though I was quite resolved not to let that beloved maid fling away herself upon me unless my innocence was proved world wide, and to shield her at all costs to myself, yet sometimes the hope that in after years I might be able to wed her and not injure her started up within me.

She came to see me whenever she could steal away, Madam Cavendish being still in that state of hatred against me for my participation in the riot, though otherwise disposed enough to give her consent to our marriage on the spot. And every day came my brother John and Catherine, and now and then Parson Downs. And the parson used to bring me choice spirits in his pocket, and tobacco, though I could touch only the latter for fear of inflaming my wounds, and he used to sit and read me some of Will Shakespeare's plays, which he bore under his cassock, and a prayer book openly in hand, that being the only touch of hypocrisy which ever I saw about Parson Downs.

"Lord, Harry, thou dost not want prayers," he would say, "but rather, being fallen as thou art, in an evil sink of human happenings, somewhat about them, and none hath so mastered the farthest roots of men's hearts as Will Shakespeare. 'Tis him and a pipe thou needst, lad." So saying, down he would sit himself betwixt me and the fiery western window, and I got to believe more in his Christianity than ever I had done when I had heard him hold forth from the pulpit.

'Twas from him I knew the sad penalty which they fixed upon for me for the 29th of May, that being Royal Oak day, when they celebrated the Restoration in England and more or less in the colonies and on which a great junketing had been arranged, with races and wrestling and various sports.

Parson Downs came to me the afternoon of the 28th and sat gazing at me with a melancholy air, nor offered to read Will Shakespeare, though he filled my pipe and pressed hard upon me a cup of Burgundy.

"'Twill give thee heart, Harry," he said, "and surely now thy wounds be so far healed 'twill not inflame them, and, in any case, why should good spirit inflame wounds? Smoke hard as thou canst, poor Harry, if thou will not drink, for I have something to tell thee, and there is that about our good tobacco of Virginia—now we have rescued it, betwixt you and me, from royal freebooters—which is soothing to the nerves and tending to allay evil anticipations."

Then, as I lay puffing away something feebly at my pipe, still with enjoyment, he unfolded his evil news to me. It seemed that my brother had commissioned him so to do.

"'Tis a shame, Harry," he said, "and I will assure thee that all that could be done hath been, and if now there were less on guard and a place where thou couldst hide with safety the fleetest horse in the colony is outside, if thou wert strong enough to sit him. And so thou escaped I would care not if never I saw him again, though I paid a pretty penny for him and love him better than ever I loved any woman, since he springs to order and stands without hitching and with never a word of nagging in my ears to make me pay penance for the service. What a man with a good horse and good wine and good tobacco wanteth a wife for passeth my understanding, but I know thou art young and the maid is a fair one. Faith, and she was in such sore affliction this morning because of thee, Harry, as might well console any man. Had she been Bacon's widow she had not wedded again, but gone widow to her death.

"Thou shouldst have seen her, lad, when I ventured to strive to comfort her with the reflection that her suffering in thy behalf was not so grievous as was Bacon's wife's for his death, for thou art to have thy life, my poor Harry, and no great hurt, though it may be somewhat wearisome if the sun be hot. But Mistress Mary Cavendish flew out at me in such wise, though she hath known all along to what fate thou wert probably destined, and said such harsh things of poor Madam Bacon that I was minded to retreat. Keep Mary Cavendish's love, when she be wedded to thee, Harry, for there is little compromise with her for faults, unless she loveth, and she hath found out that Cicely Hyde betrayed the plans of the plant cutters, and for her and Madam Bacon her sweet tongue was like a fiery lash, and Catherine was as bad, though silent. Catherine, unless I be greatly mistaken, will wed thy brother John, but unless I be more greatly mistaken, she loveth thee. And now, my poor Harry, wouldst know what they will do to thee tomorrow?"

I nodded my head.

"They will even set thee in the stocks, Harry, at the New field, before all the people at the sports," said Parson Downs.

I truly think that if Parson Downs had informed me that I was to be put to the rack or lose my head it would not have so cut me to the heart. Something there was about a gentleman of England being set in the stocks which detracted not only from the dignity of the punishment, but that of the offense. I would not have believed they would have done that to me, and can hardly believe it now. Such a punishment had never entered into my imagination, I being a gentleman born and bred and my crime being a grave one, whereas the stocks were commonly regarded for the common folk who had committed petty offenses, such as swearing or Sabbath breaking. I could not for some time realise it, and lay staring at Parson Downs, while he tried to force the Burgundy upon me and started in alarm at my paleness.

"Why, confound it, Harry," he cried, "I tell thee, lad, do not look so. Hadst thou killed Rob Waller instead of wounding him it would have been thy life instead of thy pride thou hadst forfeited."

"I wish to God I had!" I burst out, yet dully, for still I only half realised it all.

"Nay, Harry," declared the parson, "thy life is of more moment than thy pride, and as to that, what will it hurt thee to sit in the stocks an hour or so for such a cause? 'Twill be forgot in a week's time. I pray thee, have some Burgundy, Harry; 'twill put some life into thee."

"'Twill never be forgot by me," said I, and indeed it never has been, and I know not why it seemed then and seems now of a finer sting of bitterness than my transportation for theft.

Presently I, growing fully alive to the state of the matters, wrought up myself into such a fever of wrath and remonstrance that it was a wonder that my wounds did not open. I swore that submit to such an indignity I would not; that all the authorities in the colony should not force me to sit in the stocks; that I would have my life first, and I looked about wildly for my own sword or pistols and seeing them not, thought the parson for his. He strove in vain to comfort me. I was weakened by my wounds and there was, I suppose, something of fever still lingering in my veins for all the bleeding, and for a space I was like a madman at the thought of the ignominy to which they would put me. I besought that the lieutenant governor should be summoned and be petitioned to make my offense a capital one. I strove to rise from my couch, and the vague thought of finding a weapon and committing some crime so grave that the stocks would be out of the question as a punishment for it was in my fevered brain.

"As well go to a branch of a locust tree blown by the May wind with honey for all seeking noses as to Chichely," said Parson Downs. "And as for the burgesses, they are afraid of their own necks, and some of us there be would rather have thee sit in stocks than lose thy life, for we hold thy life dear, Harry, and some punishment it must be for thee, for thou didst shoot a king's officer, though with a poor aim, Harry."

Then I said again, with my heart like a drum in my ears, that I wished it had been better, though naught I had against Robert Waller, and as I learned afterward he had striven all he dared for my release, but the militia, being under some suspicion themselves, had to act with caution in those days.

Presently, while the parson was yet with me, my brother John came in, and verily, for the first time, I realised that we were of one blood. Down on his knees beside me he went.

"Oh, Harry," he cried, "I have done all that I could for thee, and vengeance I will have of some for this, and they shall suffer for it, that I promise thee. To fix such a penalty as this upon one of our blood!"

"John," I whispered, grasping his hand hard, "I pray thee"—

But he guessed my meaning. "Nay, Harry," he cried, "better this, for if I went back to our mother and told her that thou wert dead, after her long slight of thee and the long wrong we have all done thee, it would be a sorer fate for her than the stocks for thee."

But I pleaded with him by the common blood in our veins to save me from this ignominy, and my fever increased, and he knew not how to quiet me. Then in came Catherine Cavendish, and what she said had some weight with me.

"For shame!" she said, standing over me, with her face as white as death, but with resolution in her eyes. "For shame, Harry Wingfield! Full easy it is to be brave on the battlefield, but it takes a hero to quail not when his vanity be assailed. Have not as good men as thou, and better, sat in the stocks? And think you that it will make any difference to us, except as we suffer with you? And 'tis harder for my poor sister than for thee, but she makes no complaint, nor sheds a tear, but goes about with her face like the dead and such a look in her eyes as never I saw there before. And she told me to say to thee that she could not come today, but that she would make amends and that thou hadst no cause to overworry, and I know not what she meant, but this much I do know, a brave man is a brave man whether it be the scaffold or the stocks, and—and—thou hast gotten thyself into a fever, Harry."

With that she bade my brother John get some cold water from the jailer, and she bathed my head and arranged my bandages with that same skill which she had showed at the time when I was bruised by the mad horse, and my brother looked on as if only half pleased, yet full of pity. And Catherine, as she bathed my head, told me how Major Beverly and Sir Humphrey were yet confined on shipboard, and Dick Barry was in the prison not

Catherine interrupts an interview

far from me, and Nick and Ralph Drake were in hiding, but my Lord Estes was scot free on account of his relationship to Governor Culpeper, and had been to Drake Hill, but Mary would not see him.

And she said, furthermore, that her grandmother did not know that I was to be set in the stocks, and they dared not tell her, as she was grown so feeble since the riot—at one time inveighing against me for my disloyalty and saying that I should never have Mary, though I was cleared of my disgrace and no more a convict, and at another time weeping like a child over her poor Harry, who had already suffered so much and was now in prison.

Catherine in that way, which none but a woman hath, since it pertains both to love and authority, brought me to my senses, and I grew both brave and ashamed at the same time, and yet after she had gone never was anything like the sting of that ignominy which was prepared for me on the morrow. Many a time had I seen men in the stocks, and passed them by with no ridicule, for that, it seemed to me, belonged to the same class of folk as the culprits, but with a sort of contempt which held them as less than men and below pity even. The thought that some day I, too, was to sit there had never entered my head. I looked at my two feet upholding the coverlid and pictured to myself how they would look protruding from the boards of the stocks.

I recalled the faces of all I had ever seen therein and wondered whether I would look like this or that one. I remembered acting them pelted by mischievous boys, and all the dusk thickened it seemed alive with jeering faces and my ears rang with jibes. I said to myself that now Mary Cavendish was farther from me than ever before. Some dignity of wretchedness there might be in the fate of a convict condemned unjustly, but none in the fate of a man who sat in the stocks for all the people to gaze and laugh at.

I said to myself that that cruelest fate of any—to be made ridiculous in the eyes of love—was come to me, and love henceforth was, over and gone. And thinking so, those grinning and jibbering faces multiplied, and the air rang with laughter, and I knew I was in a high fever all night.

CHAPTER XXII.

THE sports and races of Royal Oak day were to be held on the New field (so called) adjoining the plantation of Barry Upper Branch. The stocks had been moved from their usual station to this place to remind the people in the midst of their gayety that the displeasure of the king was a thing to be dreaded, and that they were not their own masters even when they made merry.

On the morning of that day came my brother John's manservant to shave and dress me and the physician to attend to my wounds. It was a marvel that I was able to undergo the ordeal, and, indeed, my brother had striven hard to urge my wounds as a reason for my being released. But such a naturally strong constitution had I, or else so faithfully had the physician tended me, with such copious lettings of blood and purges, that except for exceeding weakness I was quite myself. Still I wondered, after I had been shaven and put into my clothes, which hung somewhat loosely upon me, as I sat on a bench by the window, how ever I was to reach the New field.

It was a hot day and close, with all the heaviness of sweetness of the spring settling upon the earth, and my knees had knocked together when my brother's manservant and the physician, one on each side of me, led me from the bed to the bench.

So very weak was I that morning, after my feverish night, that, although the physician had let a little more blood to counteract it, I verily seemed to forget the stocks and what I was to undergo of disgrace and ignominy, being principally glad that the window was to the west and that burning sun which had so fretted me shut out.

The physician, long since dead, and an old man at that date, was exceedingly silent, eying everybody with an anxious corrugation of brows over sharp eyes, and he had always a nervous clutch of his hands to accompany the glance, as if for lancets or the necks of medicine flasks, never leaving a patient unless he had killed or cured. He had visited me with as much faithfulness as if I had been the governor, and yet with no kindliness, and I know not to this day whether he was for or against the king, or liked both sides impartially. He looked at me with no compassion, and I might, from his manner, as well have been going to be set on a throne, as in the stocks, but he counted my pulse beats and then bled me.

My brother John's man, however, whom he had brought from England and whom I had known as a boy and sometimes stolen away to hunt with, he being one of the village lads, shaved me as if it had been for my execution, and often I, somewhat dazed by the loss of blood, looking at him, saw the great tears trickling down his cheeks. A soft-hearted man he was, who had met with sore troubles, having lost his family, a wife and three little lads, after which he returned to England and entered my brother's service, though he had been brought up independently, being the son of an innkeeper.

Something there was about this gentle, downcast man, adding the weight of my sorrow to his own, which would have aroused me to courage if, as I said before, I had not been in such a state of body that for the time my consciousness of what was to come was clouded.

There I sat on my bench, leaning stiffly back against the prison wall, a strange buzzing in my ears, and I scarcely knew nor sensed it when Parson Downs entered hurriedly and leant over me, whispering that if I would and could, my change in course was outside.

you feel the good that's done by Doctor Pierce's Golden Medical Discovery. It cleanses, regulates and invigorates Stomach, Liver and Bowels and so purifies the blood. And through the blood, it cleanses, repairs, and invigorates the whole system.

In recovering from "grippe," or in convalescence from pneumonia, fevers, or other exhausting diseases, nothing can equal it as an appetizing, restorative tonic to build up needed flesh and strength. It rouses every organ into natural action, promotes all the bodily functions, and restores health and vigor.

For every disease that comes from foul or Weak Stomach, a torpid Liver or impure Blood, Dyspepsia, Indigestion, Biliousness, and the most stubborn Skin, Scalp, or Scrofulous affections, the "Discovery" is a sovereign remedy. Don't be hypnotized, wheedled, or over persuaded into accepting a substitute only that some selfish medicine seller may make a greater profit on the inferior article. The "Discovery" has a great record of nearly forty years with thousands of cures behind it.

Parson Downs enfolds his evil news

Dear Sir—Several years ago my blood became impoverished and I became run down in health. I had no appetite, could not sleep, and was practically unfitted for work. Suffered from innumerable boils and was in bad shape. Dr. Pierce's Golden Medical Discovery relieved me of my wretched condition. The medicine built up my system and restored me to a normal condition of health. I can speak most highly also, of Dr. Pierce's Favorite Prescription, as it has been used in my family for years in cases of female trouble.

LIVE STOCK PRICES ARE HIGH

Steady Advances Reported for Both Hogs and Cattle.

Easter Beef is of an Excellent Quality—Many Notable Purchases.

The steady advance of prices during the past couple of weeks for almost all classes of live stock, has given rise to no little speculation amongst buyers and stock raisers.

The competition amongst local hog buyers has probably been to a certain extent responsible for the present attitude of the prices in Peterborough, the advance here having been greater than at some other points. The competition has been extraordinarily sharp and keen, especially during the past few weeks at the market. The receipts to-day were 65 hogs, most of which were purchased by Mr. W. A. Stabler. The latter has also been purchasing extensively in Toronto, owing to the scarcity in the local market, which however, is not unusual at this season of the year.

Fat cattle at present command high prices. The Easter beef purchased in town this week has been of an exceptionally fine quality—probably the best ever seen in Peterborough. Mr. White has this week purchased 18 steers and heifers and states that he is at present prepared to pay 5c for good steers. Some notable sales of export cattle have been recorded during the week. The excellent quality of the Easter beef received on the local market, which is away in advance of anything ever known in previous years is indeed satisfactory evidence of the steady growth and development of this branch of the live stock business.

MR. DOUGHTY LAID TO REST

Late Gentleman was Well Known in Peterborough.

Personal News From Norwood—Some Real Estate Changes.

(From Our Own Correspondent.)

Norwood, April 17.—S. P. Ford, M. D., is staying with Mr. J. Jory, M. D., St. Catherines.

Miss Eva Booth, of Warkworth, is staying at the home of Mrs. McCleary, Queen street.

Mrs. A. Birch and son, are the guests of her mother, Mrs. Rutherford.

The body of Mr. John Doughty, whose death occurred in Tweed on Thursday last was brought to Norwood, on afternoon express on Friday for interment in the Norwood Cemetery. The deceased was a resident of this place for a number of years. Those who accompanied the remains were, his sons, Mr. J. W. Doughty, Peterborough, and Joseph Doughty, of Tweed; three nephews, Frederick, Percy and Thomas, of Peterborough; his brother, Thos. Doughty, Toronto; and his nephew, Charles Doughty, also of Toronto. Rev. C. Parker, Methodist Minister, conducted the funeral service.

Mr. Thos. Fenner, real estate agent, sold Mr. J. B. McWilliams' of Peterborough double tenement frame house on Colborne street, to Mr. Daniel Oakley, proprietor of the Norwood cheese factory. Price paid, $900.

W. J. Patterson M.D., who has been practicing medicine here for about two years is demonstrating his practice. The doctor left for Peterborough on Monday, where he intends to remain for about two weeks, before taking up a practice in Hamilton.

Miss Mattie Parker, daughter of Rev. C. Parker, Methodist minister here, left on Tuesday morning on an extended visit to her brother, Mr. Parker, Somerset, Man.

Mrs. Robert Evans, of Teeswater, is the guest of his sister, Mrs. John Knox.

Mr. Fanny Pallen and Mr. Percy Pallen, of Jermyn, are the guests of Mrs. Ira Cummings.

The sittings of the second Division Court are to be held in the town hall, on Wednesday, April 19th. His Honour Judge Weller, of Peterborough, will preside.

Rev. J. G. Potter, of St. Andrew's Presbyterian Church, Peterborough preached a preparatory sermon to the Presbyterian congregation here on Friday night last.

GRAIN PRICES ARE UNCHANGED

Practically No Grain Arriving at Local Elevators.

Fears That Fall Wheat May be Damaged—The Late Prices.

There is practically no change in the grain prices this week, and there is no grain moving. The local buyers are not anticipating any great increase in business for at least two weeks, or until the farmers finish seeding.

Oats still remain the same price, and those in town who have horses to feed are paying from 45 to 50 cents per bushel for that cereal.

There is some fear expressed that the continued cold weather may have an injurious effect on the fall wheat. The frosty nights of the last few weeks, it is feared, will cause some of it to be killed.

The principal price quotations to-day are:

Wheat, white	$ 1 02	$ 1 02
do spring	1 00	1 00
Barley	45	48
Rye	67	68
Buckwheat	45	50

A NEW NORTH POLE CREATED ON RICE LAKE

The Wild Work of the Wild Wind and Wild Waves.

Another polar region as to ice has been created in Rice Lake. It is related that the high westerly gales of a day or two ago drove the ice with such force against the Alnwick shore that the icebergs are piled up to the height of a house, and huge boulders were flung up high on the land of the adjacent shore, illustrating the tremendous power of wind and wave of even a little inland sheet of water like Rice Lake.

"AND you're sure that you won't forget, Rody"—

"I'm sure that I will!" retorted Roderick Ferrol, his admirable patience worn to a frazzle by the repeated injunctions of his sister. "If you tell me once again that the basket with the bit of blue yarn tied to the handle is to be left at the doctor's on my way to the depot and the basket with the pink yarn on the handle is to be taken to the city and given to Cousin Susanna, I'll leave both of 'em at home!"

"That might be better than gettin' 'em mixed up!" commented Mrs. Spicer dryly. "I've had hard b'iled and colored eggs every Easter for Dr. Dobbs' babies ever since he had any babies to color 'em for, and I'm sure I don't know what Susanna would say if you was to go visitin' her to the city and never take her a fresh egg for her breakfast!"

"There's the team now," announced Ferrol, glancing out of the window. He picked up a basket in each hand.

His sister regarded him with frank admiration. "No one will ever take you for a farmer!" she declared. "When you get store clothes on and a white shirt and collar"—

"Aw, quit fooling!" advised the great, brawny individual whose height dwarfed her little kitchen. "It takes more than clothes to make a country chap look like a city man, and I don't know that I want to look like one either!" he supplemented stanchly.

"Rody," said Mrs. Spicer rather wistfully, "I wish you'd bring back a wife."

"Me!" His laugh was short—and bitter. "There ain't any city girl that's going to marry me! Though," he added, and his honest face darkened, "it's no trick at all for a city man to marry most any country girl he wants to!"

"You ain't got over that affair of Rose Curtis yet, then?" she asked gently.

"No," he replied, "and I'm not likely to!"

Then he said goodby, gripped his baskets tighter and was striding down the path from the farmhouse to where his hired man held the team at the gate.

HE LEANED FORWARD AND KISSED HER.

The latter drove in order to bring back the horses from the depot. His master ordered him to draw up as they reached a gabled frame house on the edge of town.

"I've got to leave these colored eggs for the Dobbs children," he explained. "Le's see! The basket with the pink yarn on the handle is the one that's got the hard 'iled in, Jean said. I told her I'd remember."

The doctor's wife opened the door for him.

"Oh!" she exclaimed. "How good of dear Mrs. Spicer to remember the children. I'll set these by for them till Easter morning."

Mrs. Spicer might not have maintained an unshaken conviction of her brother's metropolitan appearance if she could but have known how many seemed eager to take him to see the ruins of the big fire. But Roderick, if a countryman, was not gullible, and he kept straight on to the street cars. He found the place he sought, a tidy little frame house away out on Park avenue. And his Cousin Susanna, who resembled nothing so much as an overblown peony, gave him a boisterous welcome. He must stay with Tom and herself while in the city. And how were all the folks? And did Jean Spicer really send her some fresh eggs? Well, they would be a treat, sure enough, for 'twas only the millionaires who could be eating eggs the months past. The very sight of a fresh egg would be a cure for sore eyes, and she was going to boil one that very minute, and he might tell Jean she did that same.

She unfastened the cord around the basket and took out the hay that filled the top. Then she flung up her fat hands and fell backward a step. The next instant she was rocking in a paroxysm of laughter.

"Since when," she panted—"since when did Jean Spicer's hens begin to lay eggs the like of them?"

"Well, I'll be hanged!" ejaculated Ferrol. He was looking at the contents of the basket. There were eggs, to be sure, but eggs that were green, pink, carmine, yellow and a combination of all these colors. "Jean told me wrong, I bet! The basket with the pink yarn on the handle was to be left at the doctor's. The time she took coloring 'em too!"

"Tell you what," advised Susanna, suddenly struck with an inspiration, "you take 'em over to Rosie Ward. She don't live but four blocks from here. It's like as not it's all her children 'll get for Easter. The bit of sewing she can get to do don't more'n keep the life in 'em. You remember, she ran away from our town with that city chap."

"I remember," returned Roderick grimly. "Why, doesn't he support her?"

"Land, he's dead! 'Twas in the papers. He'd left her shyhow. He got killed holding a man up. She's supped sorrow, I tell you!"

Ferrol replaced the hay. "Tell me just how to find the place," he said.

Was that the plump, rosy, pretty girl he had loved—this worn, pale woman who opened the door of her two rooms to him? His heart went out to her in a great wave of pity, of tenderness. He set the basket on the table.

"Rose!" he said. "My poor girl!"

He took the heavy child gently from her trembling arms. She flushed scarlet as he leaned forward and kissed her on the forehead. The little girl clinging to her skirts looked up at him timidly.

"Roderick!" Rose said and broke down, sobbing. "That you should see us—like this!"

He sat down, set the baby on his knee and drew the little girl to his side. "Rose," he vowed huskily, "it's God's own mercy that lets me! I made a mistake about them eggs, and Cousin Susanna thought your children could play with 'em. She ain't got but Tom, you know." He looked around the wretched place. "Rose, this ain't a patch on the farm for comfort. Joan, she's crazy to go off and live with her daughter. I'll be in the city till Thursday. Can't you and the children be ready by then to go back with me?"

"Roderick," she faltered, "I'm not the girl you—you used to love!"

"You're the only one I ever did love," he declared stoutly, "or that I ever will!"

Her eyes shone. "Oh," she sighed softly, "it will be like—like heaven!"

LEGENDS OF THE LILY.

A Saint Among Flowers, an Angel in Every Bud.

Worldwide sentiment has decreed the lily to be a saint among flowers, and the reason lilies are so appropriately and extensively used in the decoration of churches is not only because of their symbolical meaning, but because they are the most perfect of floral types, especially the candidum and harrisii and the so called calla lily, which, by the way, is not a lily at all; but, as all agree that a rose by any other name is just as sweet, so the calla is the acknowledged type of absolute statuesqueness of form and purity of color, and the beauty of these white flowers holds solemn and lofty surroundings.

Legends in plenty cluster about the lily. One legend of very ancient date gives the supposed origin of "the lily, of all children of the spring the palest; fairest, too, where fair ones are." Long centuries ago angels coming as celestial visitants to earth found it bare and gloomy in comparison with the eternal bloom of their home in paradise. They entered rocky tombs and took the blinding mantles of the blessed dead and changed them to flowers. From this comes the beautiful and poetic superstition that on Easter morning in every lily bud is hidden an angel.

A beautiful ancient tradition, which is inserted in the Proto gospel of St. James and mentioned by St. Jerome, relates that the candidates for the Virgin Mary's hand after having invoked the Lord's blessing left each his own rod or staff in the temple on the evening and that next morning the dry rod of Joseph was found green and blossomed with lily flowers.

Another pretty legend is that Mary on her way to the temple plucked a lily, and upon pressing it to her breast it became white. "Lily of the Virgin," "Madonna flower" and several other mystical names were given to the lily, having reference to this legend. The flower has been for centuries regarded as an emblem of purity and innocence. As Percival says:

Innocence shines in the lily's bell
Pure as the heart in its native heaven.
—Designer.

LITTLE ONE ONE SOLID SORE

Covered With Scales and Scabs From Head to Feet—Doctors and All Other Remedies Had Failed—Skin Now Smooth and Clear.

ANOTHER WONDERFUL CURE BY CUTICURA

Mrs. Mattie Shaffer, of Cumberland, Miss., says: "Some time ago I used your Cuticura Remedies for my little afflicted babe with wonderful results. I had tried many other remedies without any benefit whatever, and Cuticura came to the rescue when my doctors and all other remedies had failed. One doctor pronounced it scrofula, the other eczema. The little one was one solid sore, with scales and scabs from head to foot, when I started using Cuticura Soap and Ointment. The result was wonderful, and now my baby's face and body are smooth and clear," (signed) Mrs. Mattie Shaffer.

THE DUTY OF MOTHERS

At the First Sign of Disfiguring Humours is to Use Cuticura the Great Skin Cure

Every child born into the world with an inherited tendency to torturing, disfiguring humours of the Skin and Scalp, becomes an object of the most tender solicitude, not only because of its suffering, but because of the dreadful fear that the disfiguration is to be lifelong and mar its future happiness and prosperity. Hence it becomes the duty of mothers of such afflicted children to acquaint themselves with the best, the purest, and most effective treatment available, viz.: the Cuticura Treatment, consisting of warm baths with Cuticura Soap, and gentle anointings with Cuticura Ointment, the great Skin Cure, and purest and sweetest of emollients. Cures made in childhood are speedy, permanent, and economical.

Cuticura Soap, Ointment, and Pills are sold throughout the world. Depots: London, 27 Charterhouse Sq.; Paris, 5 Rue de la Paix; Australia, R. Towns & Co., Sydney. Potter Drug & Chem. Corp., Boston, Sole Props.

Send for "How to Cure Disfiguring Humours."

GROWN IN AMERICA.

Palms For Palm Sunday Are No Longer Imported.

"The fact is not generally known," remarked a Washington florist, "that practically all the palms used on Palm Sunday in the churches of this city are grown in the United States. The common impression seems to be that the plants come from foreign climes. This, however, is a mistake. Years ago they did, but immense nurseries have been established in Philadelphia and about New York, where they are grown from seeds secured from Arabia and other tropical countries."

"How about the little sprigs of palms that are distributed to congregations?"

"Oh, they are native to this country," was the reply. "They are strippings from the palmetto trees found so plentifully in the gulf states. The process of gathering them is somewhat interesting, too," the florist continued after seeing an immense plant properly placed on the wagon. "The work of gathering the sprigs for Palm Sunday throughout the United States has grown to large proportions, and many hundreds of people are employed.

"The best palmetto plants are to be found in the dense swamps and bayous. Only the young leaves that are as yet curled up and not spread are selected and plucked. As there are not many on one plant it necessitates considerable work to gather a large quantity. These coiled up leaves are nearly white. They are packed in crates and shipped to New York, Philadelphia and western dealers, where the small sprigs to be given out to the congregations are selected."—Washington Post.

A Triple Problem.

"Yes," mused the fair young thing, "now that Lent is over the world, the flesh and the devil are awaiting us. It is a perplexing question, is it not?"

"Indeed, I should say so," replied the young man who always was saying the right thing in the wrong way. "It bothers one to decide which of the three to go to first."—Chicago Tribune.

God's Sparrows.

Only a bird on his crest of fir.
Look, you can see his feathers stir
And hear his wee notes soft and low
Like echoes of songs from the long ago.
"I am not bearing my cross, you see,
For the cross itself is bearing me!
We never are heard to murmur, 'I must,'
But always twitter, 'I trust! I trust!'
For not a fluttering sparrow can fall
But into his hand, who loveth all."

Lord, hear thy children when they pray;
Make us thy sparrows this Easter day!
—Willis Boyd Allen.

The Bermuda Lily.

This is the season of the Bermuda lily, the large and very beautiful variety of that flower which is used extensively for church decoration on Easter Sunday. Bermuda supplies all the large cities of the United States with this flower, and the trade has grown to large proportions and become recognized as one of the most lucrative in which residents of the islands can engage. The soil of Bermuda is a layer of mold on a rock foundation and is generally poor for agricultural purposes, aside from the growing of vegetables and the lilies. The trade with the United States in Bermuda onions and potatoes has always been good, but in recent years the lily has become even of more importance to many of the islanders.

WHY YOU CAN'T SLEEP.

It's just like this. Somewhere in the brain cells or blood vessels that supply the brain with blood, there is SOMETHING WRONG. That wrong must be righted or you'll go to smash.

Your physically exhausted body needs building up, needs more nutritious blood, needs tone and vigor. Your only hope is FERROZONE, which completely overcomes sleeplessness.

FERROZONE

IS GOOD FOR THE SLEEPLESS.

Every FERROZONE Tablet contains more concentrated goodness than you'll get in quarts of liquid medicine. It benefits instantly.

FERROZONE fairly fills the blood with nourishment. Feeds it with iron and oxygen, invigorates as nothing else can.

The refreshing sleep of a little babe, the restfulness and comfort of childhood's days will come every night of your life by using FERROZONE. Avoid substitutes!

Ferrozone is sold by all dealers in 50c boxes or six for $2.50. By mail from N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

One eye at a time

That's the way we test.
Usually the eyes differ in sight.
A glass which suits one injures the other, and ultimately both suffer.
We use modern appliances, and the greatest care to avoid a misfit.
A misfit would hurt your eyes and our reputation.

Beauty and Utility

Though worn as a necessity, a beautiful eye glass artistically fitted is a facial ornament.

We will fit you with a frame best adapted to your features.

FLEET LEAVES KAMRANH BAY

Then Heavy Cannonading Was Heard Out At Sea.

HAS NAVAL FIGHT BEGUN?

Vice-Admiral Rojestvensky is Suffering From Dysentery — Kamimura's Squadron Heard From — Vice-Admiral Togo's Squadron to Rendezvous South of Formosa— Japanese Warships Waiting Off Corregidor Island.

Saigon, French Cochin China, April 24.—The complete Russian fleet left Kamranh Bay on April 22 at midday. At night heavy cannonading was heard out at sea. It is supposed the Russian fleet was engaged with a portion of the Japanese squadron.

Paris, April 24.—A despatch from Saigon to The Temps reports the Russian fleet outside of Kamranh Bay opened a heavy cannonading, probably upon Japanese scouts.

To Gather at Formosa.

Manila, April 24.—Narata Goro, the Japanese Consul here, has received a telegram announcing that Admiral Togo's main squadron will assemble south of Formosa.

London, April 24.—A despatch from Manila, April 22, to The Daily Mail, says: "Vice-Admiral Togo's main fleet will assemble south of Formosa on April 26.

"The Japanese Consul here has received a long cipher message concerning Kamimura's squadron, which is expected to-morrow (Sunday). The Consul says the ships will not enter Manila harbor, but will cruise outside.

Japs at Manila.

Manila, April 24.—Three warships are now off Corregidor Island. It is supposed here that they are Japanese vessels.

British Men-o'-War Ready.

London, April 24.—A special despatch from Hong Kong says all short leave of the crews of the British warships has been stopped, and the dockyard employes on their Easter leave of absence have been recalled, so that the ships can be made ready for sea at the earliest possible moment.

Coaling Off Hainan.

London, April 24.—A despatch from Paris to The Central News says: Admiral Rojestvensky's fleet has sailed from Kamranh Bay, and is coaling off the Island of Hainan, which is in Chinese territory.

A news agency despatch from St. Petersburg says that a semi-official telegram announces that another Russian squadron, consisting of seven battleships and cruisers (Vice-Admiral Nebogatoff's), is expected to arrive there daily. It is thought this squadron will remain for two weeks on the Annam coast.

It is believed that one portion of the Russian fleet will meet the Japanese, while the other will make a detour and endeavor to reach Vladivostock.

Limited Coal Supply.

The chief of staff here, acting under orders from Governor-General Bean, Saturday inspected four Russian steamships which were about to load a large cargo of coal. The French authorities refused to permit the vessels to take on cargo, and only allowed them an amount of coal strictly necessary for the voyage to the nearest port.

Rojestvensky Has Dysentery.

Saigon, April 24.—The Russian transports Kiel, Jupiter, Kniaz Gortschakoff and Kital are still at Saigon. Vice Admiral Rojestvensky is suffering from dysentery, but otherwise the officers and men of the fleet are in the best of health. Before the departure of the squadron, Vice-Admiral Rojestvensky visited Admiral Janqueres. No Russian officer or sailor landed from the fleet in Kamranh Bay.

BRITAIN TO FRANCE.

Action Friendly to Japan in Neutrality Issue Taken.

London, April 24.—The Pall Mall Gazette Saturday afternoon announced in a despatch from Paris, that Sir F. P. Bertie (the British Ambassador to France) had presented Foreign Minister Delcasse with a note from the British Government, courteously supporting the representations of Japan in regard to the stay of the Russian squadron at Kamranh Bay.

United States May Hold Aloof.

Washington, April 24.—Japan has asked the United States Government to make representations to France regarding the alleged infraction of French neutrality, through the use of her ports in Indo-China by the Russian fleet. The note has been forwarded to President Roosevelt. It is the opinion of the officials that the request will be politely declined.

Czar Sends His Own Order.

Paris, April 24.—It is officially confirmed that Emperor Nicholas has personally sent an order to Admiral Rojestvensky to leave French waters.

Gone!

The French Government has been officially informed that Vice-Admiral Rojestvensky's squadron left Kamranh Bay Saturday. The destination of the squadron is unknown.

Takes Time to Transmit.

St. Petersburg, April 24.—No reply is expected from Vice-Admiral Rojestvensky for several days relative to the instructions to him to respect the neutrality of French waters. Admiral Wirenus stated Saturday night that Rojestvensky's telegram announcing his arrival at Kamranh Bay took four days in transmission.

They Do Not Know.

St. Petersburg, April 24.—Both the Admiralty and the Foreign Office affirm that they have no precise information as to whether Admiral Rojestvensky has violated French neutrality at Kamranh Bay. Nevertheless, the Russian authorities manifest the most sincere desire to relieve the ally of Russia of all possible embarrassment should it turn out that Rojestvensky has entered and remained in French territorial waters, and despatches have been forwarded to the admiral impressing him with the necessity of strict observance of France's neutrality.

Tokio Has Eye-Witnesses.

Tokio, April 24.—The Navy Department has issued the following statement of indisputable witnesses, who personally observed and report as follows about the Russian second Pacific squadron in Kamranh Bay.

"Two cruisers, one with three masts and two funnels, of the Dmitri Donskoi class, the other with two masts and three funnels, were seen cruising outside of the harbor. Two four-masted merchantmen and a one-funnel steamer were anchored outside the northern entrance of the harbor.

"Five vessels resembling battleships were anchored inside the harbor.

"Two battleships, with two masts and three funnels, flying admiral's flags, were anchored inside the harbor.

"Six warships, anchored in single formation, lay outside the harbor, off its southern entrance.

"Heavy smoke was seen rising inside the harbor."

Robert Fraser Accidentally Shot At Craik, N.W.T.

A GOWER FARMER KILLED

Toronto Merchant Has Both Legs Broken — Mrs. Wonderly's Miraculous Escape From Death by a Trolley Car — Sidney Webb's Death at Galt — His Neck Broken in Factory Hoist Accident.

Winnipeg, April 24.—At Craik, Assa., two brothers, Robert and Earl Fraser, were practicing with a revolver, when the weapon accidentally discharged, inflicting fatal wounds in Robert's stomach. The victim had just sold his farm, and intended to leave on Monday to join his mother on the old homestead at Chatham, Ont.

South Gower Farmer Killed.

Kemptville, April 24.—John McDonald, a prominent farmer of South Gower Township, met instant death at Kemptville Junction Friday evening. He was hauling potatoes to the Junction, and when the wagon went over a stone the jolt threw him out. Death was instantaneous. He was a school trustee and a director of the Agricultural Society.

Had Both Legs Broken.

Toronto, April 24.—Louis Bocquet, a King street merchant, was seriously injured at King and Bay streets Saturday noon. He was standing in King street waiting for a car, when the fire reels came along. He stepped aside and was knocked down by a brick wagon, which went over him, breaking one leg in two places and the other near the thigh.

Killed Getting Off Car.

Montreal, April 24.—Geo. A. Barnett, a well-known clerk in the C. P. R. head offices, was killed late Saturday evening while getting off a St. Denis street car. He jumped when the car was in motion. Barnett leaves a widow and three children.

PECULIAR TROLLEY ACCIDENT.

Mother of the Late Jockey Wonderly Run Down by Trolley.

London, April 24.—Mrs. Wonderly, mother of the late Otto Wonderly, the famous jockey, had a miraculous escape from death Saturday evening about 8 o'clock.

Mrs. Wonderly was walking on Clarence street, and when in the centre of the street car tracks, was taken with a fainting spell. Two men made an effort to drag her from the path of a fast approaching car, but were unable to get her to safety in time. One of the men managed to throw the unfortunate lady half on to the fender of the car.

A new motorman failed to stop his car quickly, dragging Mrs. Wonderly several rods, her head scraping the ground, half under the fender. On removal to the hospital it was found that the injuries were not fatal, but will confine Mrs. Wonderly to her room for probably months, as complications are feared.

The unfortunate lady was visiting here, having come from New Haven, Conn., to bury her son, Otto, who was killed at Memphis some weeks ago.

SIDNEY WEBB'S DEATH.

Neck Broken in Factory Hoist Accident at Galt.

Galt, April 24.—Sidney Webb, aged 28, one of a family of 11 children, lately out from England, met a frightful death Friday night at the MacGregor Gourlay Co.'s shops.

With his neck and arms caught in between the railing of the elevator shaft and the ceiling, his lifeless body was discovered by his father shortly before 7 o'clock Saturday morning.

No one will ever know just how the accident occurred, as the boy was last seen alive about 5.45 Friday night. In the shop is a hoist used for carrying heavy materials from one floor to another, and around this hoist on each floor is a railing to prevent anyone stepping into the shaft. The front of this railing is automatically raised as the hoist comes up to each floor, and it is supposed that the lad was on the top floor and had started the hoist up himself, intending to come down on it. Apparently, he was leaning on this railing, watching the ascent of the hoist, and when it reached the floor on which he was standing, and the railing commenced to move upwards, he became terrified, and hung on to this railing, and was carried up to the ceiling and to his death.

His father is employed in the same shop, and had sought in vain all night for trace of the missing boy. The police were notified, and the search was continued until 4 o'clock Saturday morning. Mr. Webb himself went down to the shops during the night and looked around a portion of the building, but was not able to get into the section in which the accident occurred. Then, when he went to his work Saturday morning, he found the lad's coat hanging in its place, and a few moments' search revealed the lifeless form of the boy, which had been hanging in the death grip all night.

The neck had been broken.

Powder Explosion Kills Four.

Mount Sterling, Ky., April 24.—By an explosion of a keg of powder in John Sturgill's store at Flatgap, Johnson & Co., four men were killed and two houses were damaged.

Twenty-Five Hurt in Trolley Runaway.

Chicago, April 24.—Twenty-five persons were injured in a wreck Saturday night on the Chicago & Milwaukee Electric Railway, fifteen miles from Chicago. Charles Franklin of Evanston, is expected to die as the result of his injuries. The wreck occurred through the overturning of a car. The car was broken and splintered, and it required nearly an hour's work to extricate the victims from the wreckage.

PLOT AGAINST CZAR OF RUSSIA

Imperial Guard and Men of Noble Birth Implicated—To Kill Him and Kinsmen—The Czar Unnerved—Many Officers Upon Whom Imperial Family Depends for Personal Safety, Involved—Internal State of Russia in a Fearful Condition--Prisoners Tortured With Fire.

New York, April 24.—The World in a St. Petersburg despatch says:

"A plot to kill the Czar and his kinsmen has been discovered among the troops of the Imperial Guard.

"Many officers are involved, the very men upon whom the Imperial family depends for personal safety.

"Governor-General Trepoff's secret agents unearthed the plot, and assert that several of the conspirators, of noble birth, were in possession of large quantities of dynamite.

"The discovery has unnerved the Czar at Tsarskoe-Selo.

"To insure prompt action in case of demonstrations the governors and other officials of all the Provinces have been directed to remain in their offices during the Easter holidays and be prepared for any emergency."

On Revolution's Verge.

St. Petersburg, April 24.—Not only the future of the war in the Far East, but the fate of the whole program of internal reform to which Emperor Nicholas is committed, appears to await the issue of the approaching sea battle between Rojestvensky and Togo. Practically the interior administration is being conducted through a police system conducted on Von Plehve methods.

Although disorders more or less serious are anticipated everywhere, Poland and the Baltic Provinces probably are the storm centre. Gen. Maximovitch, Governor-General of Warsaw, has just returned to his post after a conference here, clothed with almost dictatorial powers. All the Polish cities are now in a state of minor siege, but the Governor-General is authorised to declare martial law, and ample troops will be furnished to him.

There are very disquieting reports of disaffection of troops, and the names of regiments, even in the Imperial Guards, are given as having been won over to the cause of liberty. In the Caucasus, where, according to private advices just received, the troops are badly fed, they are on the verge of mutiny and ready to join the revolutionaries. These advices represent that the situation borders on anarchy, with the revolutionaries in practical control.

Tortured Prisoners With Fire.

Tashkand, Russian Turkestan, April 24.—Sergeant Ephimoff has been tried and condemned to three years' imprisonment at hard labor for torturing

Schooner Sinks at Sea.

London, April 24.—The French steamer Racine ran down an unknown schooner in Bristol Channel Sunday night. The schooner was cut in two and sank immediately without a trace as to her identity. It is supposed that the crew were all drowned.

THE EXAMINER'S LETTER-BOX

What Citizens Think of Some Live Subjects.

COULD PURCHASE FROM LOCAL FIRM

"Business Man" Expresses His Opinion on Fire Hose Controversy.

Town Council Should Set the Example by Buying Supplies from Peterborough Merchants.

To the Editor of the Examiner:

Dear Sir,—I have read the letters of Mr. Turner and Ald. Johnston in the Examiner, also what other comments have been made upon the purchasing of fire hose and other paraphernalia for the Fire Brigade from out of town. All I have to say as a citizen and a business man, is that Mr. Turner is correct and Ald. Johnston and Mr. Rutherford are wrong.

Every business man knows that every wholesale house, without exception, gives a discount or a commission on their goods to retailers. The Gutta-Percha and Rubber Co., are no exception. It is all nonsense for them to protect Ald. Johnston and Mr. Rutherford in going to Toronto to purchase what might just as well be purchased from a local house.

I am not writing in defence of Mr. Turner any more than of any other business man. What is the use of our press advocating the purchase of Peterborough requirements from Peterborough business men and the heads of the Corporation then sending delegations to buy what could just as well be bought at home. It is all nonsense for the Gutta-Percha and Rubber Co., to say they do not sell to local agents, if Mr. Turner could not have bought it somebody else could.

If the council would practice a little of what is preached by business men, it might be more advantageous all round.

Yours truly,
BUSINESS MAN.

Peterborough, April 22nd, 1905.

"TOWNSMAN" WANTS TO WAIT

Believes That Peterborough Should Grow Into City.

It Would be a Master-piece of Advertisment—An Unique Position.

To the Editor of the Examiner:

Dear Sir,—Mr. Patterson has done well to call attention even at this late date, to the mistake that is being made in securing incorporation as a city by Act of Parliament, instead of growing into that dignity. There is admittedly no object in being a city rather than a town except the additional prestige of the name. It is simply intended to call attention to Peterborough's growing importance, to serve as a sort of advertisement. But if advertisement is aimed at, why lose the unique advertisement of being the only town in Ontario that has not acquired a special Act of Parliament to erect it into a city before its time? Former councils considered this question and decided that Peterborough should have the distinction of growing into cityhood. Ten or a dozen years ago a special Act could have been obtained but the men of that day had faith in their town and looked to the ultimate advantage rather than the temporary gain. Now, that we have almost reached the goal, why do we need to take the short cut at the last moment, instead of finishing the course and gaining a record to be proud of?

When the first Municipal Act was passed in 1849, Toronto, Hamilton, and Kingston were the only cities recognized in Upper Canada. By the same act it was provided that when any town had over 15,000 inhabitants it might be erected into a city by Proclamation of the Governor. From that time to this no town has taken advantage of this provision. Even Ottawa and London obtained special Acts before they had the requisite population. Can we suppose that if there were any other town in our position—so close to the requisite number, with a certainty that it will be attained in a year or two—can we suppose that the people of that town would deliberately forego the tremendous advantage that they had in sight simply for the purpose of writing "City" a year or two sooner? Have our people seriously considered it, have they asked the council to give up the proud position that is before them? Have the members of the council weighed the question fully? If not is it too much to ask them to do so before this private Act is finally passed? I can only suppose that they are aiming at the best interests of Peterborough, and that if they see the matter in the proper light they will act accordingly.

It may be said that it is now too late. That it has gone so far that it would seem foolish to drop the "City" clause. The very fact that it is withdrawn for a purpose, and that the purpose is a wise one, will fully justify such action and the more it is commented upon the more it will be emphasized that Peterborough stands out for city incorporation by growth. It will in effect be a master-stroke in advertisement, if advertisement is wanted.

The erection of a town into a city under the Municipal Act is a comparatively simple matter. First a by-law authorizing a census. Then the census is taken under the by-law—not a formidable task when we consider that the Assessors take a census every year. Notice of the application to the Lieutenant Governor is published for three months and the result of the census is certified to him, debts to the County, if any, are adjusted (Peterborough is already separated from the County) and the Lieutenant Governor issues his proclamation erecting the town into a city.

Let us wait.

Yours truly,
TOWNSMAN.

HINT TO STREET COMMISSIONER

Stones on the Streets Which are a Source of Danger.

To the Editor of the Examiner:

Dear Sir,—I desire to call the attention of the council to the existence of one of the greatest nuisances which people driving our streets have to contend with. If one or two of the teamsters were brought before the Police Magistrate, they would be much more careful. Every day there seems to be large broken stones, that are being conveyed by waggons for the foundation of some building, dropped on the streets and no attention is paid to it unless some citizen jumps out of his rig and moves it off the street. There is certainly no Street Commissioner who gives these things the attention they deserve.

Two ladies were driving northward Good Friday evening after the George Street Methodist Sunday School concert, and their buggy struck a stone almost in front of Mr. Sullivan's grocery, with such force as to almost break the wheel and upset the rig. The jar was such as to make the horse almost uncontrollable. The stone had not been removed to-day when the writer was passing.

If these teamsters were made to learn that they have to respect the rights of other conveyances, it would be a great convenience to the people who have equal rights on our public highways.

Yours truly,
TAXPAYER.

THE BEST IS CHEAPEST

"Solution of Ozone (the coupon kind) is the purest and best form in which Ozone is put up. Each bottle of it contains a coupon entitling you to a package of "Celery King", the well known laxative which should always be used with Ozone.

By buying "Solution of Ozone (the coupon kind)" you get Ozone in its most efficient form and you get about twice as much of it for your money as of other brands. You also get the package of "Celery King" without charge.

No other brand of Ozone offers this advantage because no other firm can give you the "Celery King." This is the only way to procure the full value of your Ozone purchase

"Solution of Ozone (the coupon kind)" is fifty cents and one dollar at your druggists and if he hasn't it the Public Drug Co., Bridgeburg Ont., will see that you are supplied. Sold by W. B. WARNE. 12

KIDNEY TROUBLES

Increasing Among Women, But Sufferers Need Not Despair

THE BEST ADVICE IS FREE

Of all the diseases known, with which the female organism is afflicted, kidney disease is the most fatal, and statistics show that this disease is on the increase among women.

Mrs. Emma Sawyer.

Unless early and correct treatment is applied the patient seldom survives when once the disease is fastened upon her. Lydia E. Pinkham's Vegetable Compound is the most efficient treatment for kidney troubles of women, and is the only medicine especially prepared for this purpose.

When a woman is troubled with pain or weight in loins, backache, frequent, painful or scalding urination, swelling of limbs or feet, swelling under the eyes, an uneasy, tired feeling in the region of the kidneys or notices a brick-dust sediment in the urine, she should lose no time in commencing treatment with Lydia E. Pinkham's Vegetable Compound, as it may be the means of saving her life.

For proof, read what Lydia E. Pinkham's Vegetable Compound did for Mrs. Sawyer.

"I cannot express the terrible suffering I had to endure. A derangement of the female organs developed nervous prostration and a serious kidney trouble. The doctor attended me for a year, but I kept getting worse, until I was unable to do anything, and I made up my mind I could not live. I finally decided to try Lydia E. Pinkham's Vegetable Compound as a last resort, and I am to-day a well woman. I cannot praise it too highly, and I tell every suffering woman about my case." Mrs. Emma Sawyer, Conyers, Ga.

Mrs. Pinkham gives free advice to women; address in confidence, Lynn, Mass.

S. A. BAND CONCERT AT CAMPBELLFORD

About Thirty Took in the Trip and Report Good Time.

Bandmaster Packham's Cornet Solos the Feature—"God Save the King" in Five Octaves

The Band in connection with the Salvation Army Corps of Peterborough took a trip to Campbellford on Good Friday and gave concerts both afternoon and evening in the S. A. Hall of that place. They played before very large audiences on both occasions and in consequence the trip was a success financially as well as otherwise. About thirty members of the Band took in the trip and report a fine time.

Although the Band as a whole really excelled themselves in both concerts and man yexcellent numbers were rendered the features par excellence were the cornet solos by Bandmaster Packham, of the Dovercourt Corps of Toronto City. His playing of "God Save the King" in five octaves—from the octave above the G, above the staff, down to two octaves below the C below the staff and also of "Robin Adair" in three octaves—on one occasion the instrument sitting alone on the desk and Mr. Packham producing all the three entirely with his lips, not touching any of the valves with his fingers—was really marvellous. Bandmaster Packham is really a wonderful performer and can produce tremendously high or low tones from his instrument.

Special mention may be made of the recitations of Miss Eva Stevenson—both afternoon and evening—and an E b trumpet solo by Bandsman Ford of Peterborough. Bandsman Green and his sister, Miss Green, also contributed several mandolin and guitar duets, in the evening.

In concersation with Bandmaster Green this morning he stated that the Band, as a whole, played well and he was much pleased with their trip.

AN ACCIDENT AT LAKEFIELD

Bell Telephone Company Employee Fell From Ladder.

The Latest News From the Northern Village—Many Personal Items.

From Our Own Correspondent.

Lakefield, April 20. — Mrs. H. G. Fitzgerald left on Wednesday to visit friends in Toronto and other points.

Mr. W. Leonard of the News staff spent Sunday in Peterborough.

Mr. J. C. Grylls has been engaged for the coming season as engineer on the popular steamer, Empress.

Mr. I. Peck, foreman on the steam dredge is just about ready for the season's work and expects before long to be hard at it.

Mr. Joe Moffatt of the Traders' Bank here, spent Tuesday in Peterborough.

Mr. A. Chommord, an employee of the Bell Telephone Co., while at work rewiring Mr. F. J. Moore's planing mill on Monday last, met with a very painful accident by being knocked off a ladder on which he was working at the side of the building. Some men who were pushing a lumber truck on the siding did not notice the ladder was close to the truck, till the loaded truck was beyond their control, and it ran on, knocking down the ladder before it could be stopped. The injured man was taken to Dr. Fraser's surgery for attendance, where it was learned that his ankle was badly sprained and bruised.

Miss Cora Lighttoot is spending a couple of weeks holidays with her mother in Peterborough.

Miss Alice Sherin is spending a couple of weeks visiting friends in Trenton.

Mrs. (Rev.) Warren and Miss Mary are visiting in Bowmanville.

Mr. F. A. Kilbourn of the Cement Co., spent Sunday in Peterborough visiting friends.

Mr. Lorne Mason left on Monday for the back lakes to join Messrs Tait & Lillicrap's drive.

The many friends of Mrs. S. Sherin will learn with pleasure of the steady improvement in her health after her serious illness.

On Thursday evening last Mr. and Mrs. George Newberry celebrated their wooden wedding. An enjoyable evening was spent by the large number present.

Mrs. William Leonard is taking up residence this week at her new home on Queen street.

Lilly Montgomery who has been visiting with friends in Peterborough returned home on Wednesday.

Miss May Andrews of Norwood is the guest of Mrs. J. Richardson.

Mr. W. H. Casement was in Peterborough on Tuesday.

Miss Blomfield, after spending a couple of months in Toronto, has returned home.

Mr. Wm. Cox and Misses Ada and Ethel Cox, of Winnipeg, arrived home on Monday, where they were summoned owing to the illness of their sister, Miss Maud, who, we are very pleased to report, has much improved the past few days.

Rev. J. G. Lewis of Peterborough, gave a lecture under the auspices of the Epworth League in the Methodist church here on Tuesday evening, the subject being "A Trip to the Old Country."

Mr. Roland Johnston has been in Toronto for a few days picking up new goods to replenish his already well-assorted dry-goods store.

Mr. William Ratten, Massey-Harris bustling agent for Dummer, was in the village on Wednesday.

GOLD LOCKET AND CUFF LINKS

Presented to Messrs. Thirnbeck and A. Blade.

On Behalf of Directors of Peterboro' Hockey Club Held—In Appreciation of Services.

A very pleasant little affair took place on Saturday night, in the Examiner office, when on behalf of the directors of the Peterborough Hockey Club, Limited, Messrs. John Thirnbeck and A. Blade, were presented with souvenirs, in recognition of their faithful work during the past season at the Brock street rink.

The presentation was made by Mr. J. S. Knapman and the secretary, representing the directors, and to Mr. Thirnbeck was given a solid gold locket with the inscription, "Presented to Mr. John Thirnbeck by the directors of the P.H.C., Ltd.," while to Mr. Blade was given a pair of solid gold cuff links.

Both the recipients were taken completely by surprise but expressed their appreciation of the gift of the directors in brief addresses.

The work of these gentlemen at the rink during the past season has been most satisfactory, and the presentations were the result of the satisfaction of the directors at the manner in which they had fulfilled their duties. They were also very popular with the patrons of the rink.

Can Eat Anything Now.

How many Dyspeptics can say that?
Or perhaps you are dyspeptic and don't know it.

Have you any of these symptoms?

Variable appetite, a faint gnawing feeling at the pit of the stomach, unsatisfied hunger, a loathing of food, rising and souring of food, a painful load at the pit of the stomach, constipation, or are you gloomy and miserable? Then you are a dyspeptic. The cure is careful diet; avoid stimulants and narcotics, do not drink at meals, keep regular habits, and regulate the stomach and bowels with

BURDOCK BLOOD BITTERS,

Nature's specific for Dyspepsia.

Miss Laura Chicoine, Belle Anse, Que., says of its wonderful curative powers:—"Last winter I was very thin, and was fast losing flesh owing to the run-down state of my system. I suffered from Dyspepsia, loss of appetite and bad blood. I tried everything I could get, but to no purpose; then finally started to use Burdock Blood Bitters. From the first day I felt the good effect of the medicine, and am now feeling strong and well again. I can eat anything now without any ill after-effects. It gives me great pleasure to recommend Burdock Blood Bitters, for I feel it saved my life."

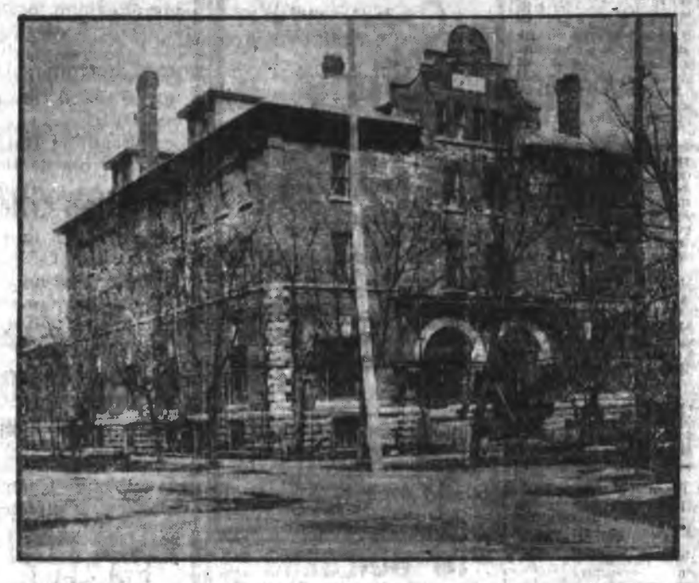
NEW Y.W.C.A. HOME. DEDICATORY SERVICE

Handsome Structure Formally Opened Yesterday and Consecrated by Members of Peterborough Ministerial Association—An Interesting Ceremony—Address by Miss Little, Dominion Secretary of the Association—Dedicatory Address By Rev. Dr. Crothers—New Building Stands for the Idea of the Worth of Womanhood.

Yesterday afternoon the first public meeting was held in the new Young Women's Christian Association Building, when it was dedicated to the work for which it has been erected, and the fact that this work is one of general interest, was attested to by the very large number who gathered to participate in the opening service, a service which was particularly appropriately planned, and carried out.

The gymnasium, in which the dedicatory service was held, was crowded to the doors, and equally as many as were inside, failed to gain admittance to the room in which the service of dedication was being conducted. Interest was lent to the occasion by the presence of Miss Little, B.A., General Secretary of the Dominion Council of the Y.W.C.A., who represented the Dominion Council at the dedication.



New Building Erected for the Peterborough Home of the Y. W. C. A., and Dedicated to That Work Yesterday, by Ministerial Association.

An evidence of the interdenominational character of the work done by this Association, was found in the fact that the dedication service was placed in the hands of the Ministerial Association, representing all the Protestant churches of the town, and by the members of that association the consecration of the structure to its work was made.

Mrs. Dr. Scott, president of the local Association, presided at the opening exercises, and with her on the platform were Miss Little, Dominion Secretary, Miss Lough, secretary of the city association, and Rev. J. C. Davidson, president of the Ministerial Association.

After the opening hymn Mrs. Scott gave a short address, in which, on behalf of the local Association, she welcomed all those present to the building, which was now practically completed. She wished to acknowledge the generosity of the friends, who had so willingly contributed to the erection of the building, which was a credit to the Association, and to the town.

There had been many difficulties in the way of the continuance of the work in Peterborough, and there were times when it almost looked as if the Association would have to suspend its work, but through it all the means of success had come, and now the new and beautiful building was being opened. With the increased possibilities made by the expansion of the work came also increased responsibilities, and she, hoped that this fact would always be borne in mind. Those in charge of the work here should be conscious of the fact that they depended upon God for success, and in this connection they should remember that He will support them and push the work forward.

Mrs. Scott welcomed to the town, and to the new building, Miss Little, the Dominion Secretary, whom she introduced.

Miss Little expressed her great pleasure at being present on this occasion, as representing the Dominion Council of the Y.W.C.A.. It was a fact of some significance that Peterborough should choose this, the Jubilee year of the Y.W.C.A., to erect their new building. It was just 50 years ago that the first Y.W.C.A. was started in London, England, and since that time it had spread nearly to all countries, until at present there are 7000 associations and more than 1,000,000 members. She suggested that the motto of the Peterborough Association, in view of the work which it was calculated to do, might very well be, "Thou shalt love the Lord with all they heart, and mind and strength, and thy neighbour as thyself." In its work, the Association helps young women to serve God with their hearts, and with their bodies.

The wave of revival, which has been sweeping over the country has been felt in the Y.W.C.A., for during the last few months seven city associations have been formed and three college institutions. Miss Little closed by again expressing her pleasure at being present on the occasion of the opening.

Miss Lough, the local General Secretary, who followed, read letters of regret from Rev. E. A. Langfeldt and Rev. Wm. Major, who were unable to be present, and also expressed the regret of Rev. J. G. Lewis, that duties prevented him from attending.

From this stage the service was conducted by the Ministerial Association, on behalf of which body Rev. J. C. Davidson addressed a few words to the audience. As a citizen, and as a Christian worker, Mr. Davidson said, that it was a great pleasure to him to see such a building erected in the town. The service which was then being held was a momentous one. It was not a time when man should speak to man, but when man should speak to God, and the three characteristics of the service should be Petition, Intercession and Praise and Thanksgiving. He said that while they were returning thanks they should remember that those within the walls of the building then were not the only ones who had been interested in this work, for in addition to these who could not get in, there were those whom God had called away into their rest.

Prayer was the offered by Rev. W. J. Jolliffe, of Charlotte street church, after which Rev. F. J. Scott read the 124th Psalm.

The dedicatory prayer was offered by Rev. Dr. Torrance, after which with these words, the building was solemnly dedicated to the work of the Y.W.C.A.:—"To the glory of God and to the work of God among His daughters, this building is hereby dedicated in the name of the Father, Son and Holy Ghost." After the hymn, "The Church's one Foundation," Rev. Dr. Crothers gave a short address, in which he referred to the fact in opening that the women were the last to leave the cross on the day of Christ's crucifixion, and the first to be at the tomb on the day of His resurrection, and it is not recorded in the Scriptures that throughout His life was Christ subjected to an unkind act or word from a woman. It was very fitting that on Easter Monday the new building should be dedicated to its noble work. The building, he said, stood for an idea, that of the worth of womanhood, which, unfortunately had not been always as highly respected as it was to-day, and if this nation is to reach its highest destiny, it will be because womanhood is honoured, and not so much to political influences or statecraft.

There was a reason in this building, the speaker declared, and that was that women should be helped. Sixty years ago, there were only seven occupations open to women, but now there were only about six which they could not enter.

The building stood for a home, and it also stood for culture, physical, intellectual and Christian. The Association was the handmaid of the church, and it was a beautiful thought that the Ministerial Association, a body representing the different Churches, should be asked to dedicate the new building. In conclusion the speaker offered words of encouragement to those engaged in the work, and thanked God for the institution of the Y.W.C.A.

After the Doxology the benediction was pronounced by Rev. J. G. Potter, which closed the service.

Miss Clara Belleghem, who was to have been present to sing a solo, was unable to attend through illness.

EASTER DAY IN PETERBOROUGH

How Easter Sunday Was Observed Here.

Special Church Services — Music a Special Feature.

Yesterday, in all the town churches special services in commemoration of the resurrection of our Lord, were held, and, as is usual, on Easter Sunday, the weather was bright, and in keeping with the spirit of the day.

The churches were all well attended, and the sermons were appropriate to the occasion, all the town pulpits being filled by local clergy. The music, too, was a special feature of the services, and was rendered with good effect. The programmes of music were those published in the Examiner of Saturday, and all the choirs acquitted themselves well, and did credit to their several instructors.

An interesting feature of the service at St. Luke's yesterday morning was the unveiling of a tablet presented to the church by Dr. Geo. Burnham, in memory of his parents. This tablet, which is more fully described in another column, was unveiled by Rev. E. A. Langfeldt.

The dedicatory service at the new Y.W.C.A. building in the afternoon was attended by a large number of persons, and was conducted by the members of the Ministerial Association.

Many homes were made glad yesterday by the presence in them of some one or more of the absent members of the family, who had returned to spend the day under the parental roof.

INK COMPANY SECURES LOCATION

Will Place Plant in Hamilton Vinegar Company's Building.

The Hamilton Times referring to the Examiner's confirmation of the contemplated removal of the Colonial Ink Company from Peterborough to that city says:—

"It will locate in the city on Wellington street north, in one of the vinegar company's buildings. A reduction in factory expenses will be brought about by the change, and a reduction in the cost of power will be rendered possible. The majority of the company's stock is held in Hamilton, and this city is also considered a more central point for the company's business. The change will of necessity cause the removal from Peterborough of Mr. G. W. Jones and Mr. E. B. Quackenbush, the superintendent. The business will be established in Hamilton in about three weeks."

SHOVEL COMPANY'S NEW BUILDINGS

Storehouse and Warehouses to be Erected at Once.

A meeting of the Board of Directors of the Peterborough Shovel Company was held this afternoon at 2 o'clock. It was decided to place under construction at once the erection of a storehouse and warehouse. Tenders will be asked in a few days for the erection of these buildings, which will be used in connection with the company's factory now rapidly nearing completion, and which will in the course of a short time be in operation.

BROKEN SLEEP
MORNING TIREDNESS

Unable to sleep indicates starved nerves and weak blood. You'll never be well till the system is better nourished—that's sure.

What you need is a nutritive tonic like FERROZONE, which vitalizes and enriches the blood, fortifies the nerves, instills new energy into worn-out organs. At once you feel better. Your spirits improve, and day by day you gain in strength and power.

FERROZONE
ALWAYS CURES.

No remedy removes that gone, exhausted feeling like FERROZONE. In every case it completely cures the cause of sleeplessness and restores the sufferer to robust health in a short time.

Use FERROZONE and your sleep will be as restful and sound as an infant's. In the morning you'll feel capable and ready for the day's toil. Don't lose the sound, vigorous health FERROZONE is sure to bring you. Get FERROZONE to-day and beware of substitutes.

Ferrozone is sold only in the boxes, or six boxes for $2.50, at all dealers or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

The Sunlight Maids are always through their wash at twelve o'clock.

SUNLIGHT SOAP

With ordinary soap a woman has to work so hard and so long on wash day she has no time for preparing any of the family meals. Wash day is a trial, and the good wife faces each with a sigh of despair.

Sunlight Soap makes all the difference in the world. No toiling—no rubbing—no boiling—less than half the labor with much better results. Most women are all through their wash by twelve o'clock when they wash with Sunlight Soap the Sunlight way. It makes child's play of work.

ASK FOR THE OCTAGON BAR.

Sunlight Soap washes the clothes white and won't injure the hands.

LEVER BROTHERS LIMITED, TORONTO. 2a

One eye at a time

That's the way we test.
Usually the eyes differ in sight.
A glass which suits one injures the other, and ultimately both suffer.
We use modern appliances, and the greatest care to avoid a misfit.
A misfit would hurt your eyes and our reputation.

Beauty and Utility

Though worn as a necessity, a beautiful eye glass artistically fitted is a facial ornament.

We will fit you with a frame best adapted to your features.

BUILDINGS FOR SALE BY TENDER

Sealed tenders will be received addressed to the undersigned and endorsed "Tender for Buildings" for the purchase of the Buildings upon the property of the late Elias Burnham, corner of Charlotte and Park streets, Peterborough, until noon of Monday the first day of May, in two parcels:—

Parcel I.—The Frame Dwelling House and Kitchen attached.

Parcel II.—The Stable, Sheds and other frame outbuildings.

Terms and Conditions.—(a) Separate sums must be placed on each parcel. (b) The highest or any tender not necessarily accepted. (c) The buildings must be removed from the premises within fifteen days after acceptance of tender. (d) Cash to be paid within one day after acceptance of tender, and before the buildings are disturbed.

The dwelling house is said to be a large two storey sound frame dwelling that could very easily be converted into two or three substantial dwellings and the outbuildings are heavily timbered buildings that might be moved in bulk.

The removal of the buildings is necessitated by the fact that the owners are placing the real estate upon the market for immediate sale.

Dated at Peterborough, the 17th day of April, 1905.

ROGER & BENNET.
Vendor's Solicitors.

THE NEW PROVINCES.

The new provinces, now under process of creation — Saskatchewan and Alberta are described as possessing within their bounds a larger proportion of good land than any equal area in the world. There is no doubt that they are capable of maintaining a large population, and that they can raise to an extent far beyond the needs of the producers or other inhabitants of the province, both the staple food of mankind and also most other vegetables products needed for human sustenance. It has been practically demonstrated that winter wheat can be grown in Alberta without irrigation and that two millions of winter wheat will be harvested this year. It is also stated on good authority that Alberta has 65,000 square miles of coal fields which, if this be correct, will permit of the addition of manufacturing to agricultural industries. Saskatchewan is chiefly agricultural, and it possesses an immense area suitable to the production of cereals and live stock. These new provinces are capable of absorbing as easily as a dry sponge drinks up water, millions of settlers, and they possess the element of solving the problem of disposing of the congested population of the Mother Land. For all who have the wit and, above all, will to work, the Northwest of Canada as well as many portions of the older provinces furnishes homes and a worldly competence of the most substantial character. But there is no room for drones in the hive. Lord Strathcona wisely advises young men who are struggling under semi-starvation conditions at "home" to go out to these new provinces, to learn farming by working upon farms and thus procure the requisite knowledge as well as a little of the necessary capital to set up on a farm of their own. We welcome all comers who have health, industry and thrift. When they become settlers in our northwest they at once become customers of the industrial and commercial regions of the older provinces.

EDITORIAL NOTES.

A smile is said to be the secret of Mr. Balfour's success. He is not, therefore likely to head a prohibition movement.

A newspaper article states that the froth is all blown off and that the French republic is a solid, stable thing. In the United States the froth is not all blown off, for we read that the Yankees are the greatest beer drinkers on the continent.

A scientist has discovered, what he says is the fact of the sudden weakening of the sun's power to send out heat. Be patient, and wait till July—we shall get some specimens of calorific emission which will show that old Sol has looked after the stoking department very thoroughly.

The London Free Press says Sandfield Macdonald's $3,600,000 surplus was disputed by Blake and his colleagues. The Free Press would spare itself the trouble if it would look up the record before making its assertions. Sandfield left charges against that surplus to the amount of $2,710,000, and committed the Legislature to a scheme of railway aid which under Mr. Blake absorbed more than the amount which descended to him.

It would appear that the unrest among the building trades in Toronto has subsided, and that there are no prospects of a strike this summer. This will be a fortunate thing for Toronto, as well as Peterborough. Building operations will go on briskly in the city, and there will be no influx of building mechanics into Peterborough, to upset the local labour market.

The city of Brantford has a tax rate of 21 mills on the dollar, and even at that figure will not get enough revenue to meet increasing expenditure, without crippling appropriations. It is very questionable if it is good financing, to fail to raise enough money to permit of effective performance of public service. A mill additional on the dollar is not a very serious matter, compared with paying interest on over-drafts. It comes out of the ratepayers some time or another, or the civic services and improvements which are necessary will have to be neglected. If a man does not take enough money with him to pay his way on a journey, he has to borrow it. Why not take enough money in the beginning?

Passover biscuits will be admitted free into Canada this year. When the first shipment arrived in Montreal last week, the customs authorities ruled that it was subject to a duty of 20 per cent. But on representations being made to headquarters the duty was remitted. There are two firms in Montreal which import the cakes for the Feast of the Passover. These cakes which are made in accordance with the ancient custom, are manufactured in the United States. Five carloads, valued at about $10,000, are brought into Montreal each year for use during the Feast, which began this year on the evening of April 19, and lasts for eight days.

Peterborough's dormant plumbing bylaw may yet get another opiate, when its jealous custodians find out what the Master Plumbers of the province are doing. One of the main features of the convention held in Guelph on Thursday, was the appointment of a sanitary committee to draft a sanitary bylaw to be adopted at the next semi-annual meeting, to be held six months hence, with a view of being presented to the various municipalities for adoption, to the end that there may be a uniform sanitary bylaw for the province. But that need not estop the council passing a plumbing bylaw. If one is passed now, when that of the master plumbers appears it can be used for purposes of amendment or improvement, if that is found necessary. There is need now for such a bylaw, for, it is claimed, private sewer connections are being made that are improperly put in, and not calculated to do the most effective work.

REV. W. M. MacKAY AT ST. PAUL'S

Large Congregation at Last Night's Service.

Rev. Mr. McKay Took Morning Service at Mission, and Evening at St. Paul's.

Rev. W. M. MacKay, the newly appointed assistant pastor of St. Paul's Presbyterian Church, entered upon his ministry yesterday, preaching twice, in the morning at the Mission, and in the evening at St. Paul's church.

Rev. Mr. MacKay is a forceful and able speaker, with a lucid and pleasing manner of delivery, and displays much elegance of diction.

A large congregation attended the evening service, at which he took as his text Amos iii, 3-4,—"Can two walk together, except they be agreed? Will a lion roar in the forest when he has no prey? Will a young lion cry out of his den, if he have taken nothing?"

REV. W. MacD. MacKAY,
The New Assistant Pastor of St. Paul's Church.

No prophet, nor son of a prophet, but a herdsman, and a pruner of sycamores, as Amos described himself, gave forth the warning in the context. He knew the countryside in which he resided, and was aware of the great dangers to those travelling over the plains. He also knew that it was as impossible for two travellers to meet while crossing the plains except by special appointment as it would be upon the high seas.

This simple introduction teaches us a simple, though important truth. Simple truths are invariably the most important. In the present easy and tolerant age, people are wont to look for the unusual. If we would but believe half the truths that we admit we would be of much greater service. The great truth intended to be taught by the text is the law of cause and effect—a Divine law of God, which governs all things. The simple truth Amos intended to teach is that God is a purposeful God, and does not work at random.

The preacher then briefly discussed three contracts which had been entered into between God and His people. When God created man, a contract was entered into, in which obedience was required of mankind. This was broken by man. The second contract was fulfilled by Christ's death upon the cross for the redemption of mankind. The third contract is still in a state of fulfillment. Have you entered into an agreement with Christ? the speaker asked. You know the relations existing: You have professed faith! Are you going to break the happy relationship which you have entered into with Christ?

In many places the Bible has said, "Come unto Me, all ye that labour and are heavy laden, and I will give you rest." Still another opportunity is given by Christ to those who wish to serve Him, when He said, "Go ye into all the world and preach the Gospel."

The preacher then returned to the original thought, making reference to the fact that Christ has provided a means of carrying out our contracts by giving us the church. God has entrusted the redemption of the world to a human agency — the church. It is the duty of every man and woman to do his and her share. To glorify God is to have won souls for Him. What are we doing? Are we going into the world to preach the Gospel? We may preach the Gospel to greatest effect in our homes and places of business.

Some are unwilling to fulfill the requirements of the contract. Are we giving the best part of our time, talents and wealth to the cause of Christ? This may not mean to the organized churches, but to the service of Christ, as we understand it?

The preacher then referred to the large number of people who are absent when the Gospel is preached. Do we expect that this immense throng beyond the sanctuary will be redeemed in some mysterious way? This is one feature of the work of the contract.

Let everyone consider his part, and lead an aggressive Christian life.

The latter part of the contract teaches us that God has spoken. He has supplied us with everything to make us contented and happy. We take all His good gifts and still do not live in his service. His all-seeing eye is always upon us. We cannot trangress his laws with impunity. Let us remember the vows we have taken and also remember that Christ's part of the contract remains firm and secure, and start upon this Easter Day to build up within us new desires and new hopes for better things than have existed in the past.

In addition to the usual Easter hymns, Miss Helen Davies sang in good voice and with splendid effect, "I know that My Redeemer Liveth," from the "Messiah." The male octette also sang in a pleasing manner. Allen's "Awake Thou that Sleepest" was rendered by the choir with splendid ensemble effect, the solo being taken by Miss Davies. The organ number from the "Hallelujah Chorus," "Messiah," was excellently rendered by Mr. Crane.

A PETERBOROUGH LADY WONDERFULLY CURED

The Roscoe Medicine Company:

Sirs,—My wife was in bed for about two months suffering severely with rheumatism. After trying doctor's medicines and all other remedies we could get, our druggist recommended Dr. Roscoe's Rheumatic Remedy and after taking less than one bottle she was perfectly cured. It is the best on the market and we cannot praise it too highly.

CHARLES W. BOYLER.

Peterborough, April 11th, 1905.

Your druggist has it—take no other. See Mr. Boyler. We will have a roll of testimonials like this in Peterborough. The Roscoe Medicine Company. 3d94

S. A. BAND MADE SUCCESSFUL TRIP

Five Hundred People Attended Open Air Meetings in Lindsay Yesterday.

The Salvation Army Band returned this morning from Lindsay, where they assisted yesterday at the successful Easter services held by the army in that place.

The band went to Campbellford on Friday, where successful services were held in the afternoon and evening, going from there to Lindsay on Saturday night.

The Lindsay meetings were conducted by Brig. Howell, of Toronto, and Adjt. Jennings of town, and were a great success in every respect, fully 500 people being in attendance at the open-air meetings, while the barracks was taxed to its utmost capacity.

Bandmaster Packham of Toronto, rendered several cornet solos in five octaves, which created a great impression. It may be stated in this connection that Mr. Packham has the distinction of being the only man in America, with the exception of Harris Chambers, who possesses this remarkable accomplishment.

The meetings in Peterborough yesterday were also very successful. Mr. Jos. Batten spoke at the afternoon meeting, the evening meeting being taken by Mr. Sager of town, and his brother from Buffalo.

Highly Spoken of.

The representative of the Dr. Roscoe's Medicine Company was in town on Thursday in the interests of his meritorious remedy. The town has been thoroughly billed with circulars giving full particulars, and already practical testimonials of its remarkable curative properties have been sent in by some of our well known citizens. One Peterborough lady's opinion of the remedy will be found on page four of today's Examiner. The rheumatic remedy is now on sale at the local drug stores.

Colorado, California, Portland and Yellowstone Park.

Specially conducted excursions are being arranged via the Grand Trunk Railway System, in charge of an experienced conductor. All expenses included. To leave Toronto early in July and August. Rate is not expected to be over $150 from Toronto. Do not join any other party before consulting E. M. Bowler, 201 Beverley street, Toronto. 6d63

THE SHAREHOLDERS' TO HOLD MEETING

Peterborough Lock Mfg. Company Stockholders Will Consider New Building.

A meeting of the Shareholders of the Peterborough Lock Manufacturing Company has been called for Saturday next to confer with the directors on the question of the erection of new buildings. Plans and specification have been prepared, which will be submitted to the shareholders for their consideration. at that meeting, when it is expected a decision on the matter will be arrived at.

DE PROFUNDIS RESURRECTUS

St. John's New Lecturn Was Submerged Beneath the Atlantic.

The memorial lectern set up in St. John's church yesterday had an eventful experience. If happenings to things inanimate can be called experiences. It came from England, by the steamer Parisian, and when the latter went to the bottom of Halifax Harbour it, of course, carried the lectern with it. While the freight contents of the steamer were very badly damaged by water, by remaining submerged for several days, fortunately the package containing the lectern was one of only two cases which reached Peterborough in an uninjured condition.

TENDERS WERE ALL TOO HIGH

No Contract Let For the Indian River Bridge.

The tenders for the construction of the bridge over the Indian River, which were asked for by Mr. D. Moloney, chairman of the Special Bridge Committee of the County Council, were opened on Friday last, but no contract was awarded.

Those who tendered on the work were:—Jas. Bogue, J. E. Hayes, Edward Wade, D. Conroy and Rich. Sheehy.

Mr. Conroy's tender was the lowest of the five, but all the figures quoted were considered too high, and as a result new tenders will be asked for.

These will be received up to Saturday next when they will be opened.

Taking Desperate Chances.

It is true that many contract colds and recover from them without taking any precaution of treatment, and a knowledge of this fact leads others to take their chances instead of giving their colds the needed attention. It should be borne in mind that every cold weakens the lungs, lowers the vitality, makes the system less able to withstand such succeeding cold and paves the way for more serious diseases. Can you afford to take such desperate chances when Chamberlain's Cough Remedy, famous for its cures of colds can be had for a trifle? For sale by all druggists.

Barber's Notice.

The regular meeting of the Barbers' Union will be held in J. W. Morgan's barber shop to-night at 8.30. All members are requested to attend. Archie Brandt, Secretary.

PETERBOROUGH COUNTY MAN'S SUCCESS

Mr. T. H. Crowley Has Discovered Deposit of Bessemer Ore Estimated at 2,800,000 Tons—A Valuable Mineral Discovery by Former Harvey Resident, Now a Citizen of Sault Ste. Marie—Rainy River District is the Location in Which This Rich Find Has Been Made—Great Prospects for the Development of This Part of of the Province.

Mr. T. H. Crowley, a former resident of Peterborough county, now living in Steelton, Ont., is a visitor in town to-day, and to an Examiner reporter he told an interesting story of the success with which he has met since he left Harvey township, his former home, about thirteen years ago.

After Mr. Crowley left this vicinity he lived for eleven years in the Canadian Soo, and two years ago went to the Rainy River and Thunder Bay Districts, where he has been engaged in prospecting work; though he considers Steelton, the new suburb of the Soo, as his home.

At the time of the collapse at the Soo a couple of years ago, Mr. Crowley transferred his scene of operations to the districts mentioned, where in his search for minerals he has been most successful. He has discovered what he considers to be one of the most valuable deposits of Bessemer iron ore in the province, and if Mr. Crowley's expectations are realized he should be made a wealthy man by reason of his discovery. There are in sight at the present time in this deposit 2,800,000 tons of ore, which assays 63 per cent pure Bessemer, and in its Bessemer qualities lies its peculiar value.

At the present time there is not in New Ontario a working mine of Bessemer ore, and the result is that for the steel rail mills at the Soo, ore has to be imported from the Minnesota ranges, the mines belonging to the Soo Company not producing an ore which will convert satisfactorily in the Bessemer furnaces.

Mr. Crowley's object in visiting the east, is to have his mineral lands protected, and he has already conformed with the Government requirements in this respect. He believes that the same vein which he has discovered leads to Wabigon on the main line of the C.P.R., and if that is the case, shipping will be comparatively easy. He has been offered already $150,000 for his find, but will not accept that sum, and in view of the apparent richness of the discovery, that sum seems ridiculously small, since Mr. Crowley says the Government bounty for Bessemer ore is $1 per ton.

Iron, however, is by no means the only mineral of which Mr. Crowley has found rich deposits in his prospecting tours, for he has in his possession samples of ore which assay $2,000 to the ton of gold and silver. In his opinion that country is very rich in all kinds of minerals, including those mentioned as well as mica and asbestos. He is very sanguine over the prospects of that part of the province, and certainly from all appearances Mr. Crowley has struck it rich in his prospecting.

This is Mr. Crowley's first trip home since he left thirteen years ago.

THE SOCIAL WORLD.

Interesting Personal Items Gathered by Reporters.

Mr. Weldon, of Hamilton, is the guest of Mr. Roland Hayward.

Mr. Goulais is spending a few days at his home in Montreal.

Mr. George Morgan of Midland, is in town over the Easter holidays.

Mr. Basil Hall, of Kingston R.M.C., is spending the holidays at home.

Mr. Harry Leahy, of Lakefield, is visiting his uncle, Mr. D. Sullivan.

Mr. and Mrs. Walden, of Picton, are in town visiting the latter's parents.

Mr. Harry Halpin and Miss Maud Halpin spent Easter with their parents.

Mr. Russell Wood of McGill College, Montreal, will spend the holidays at home.

Mrs. William Abbott and daughter, of Lindsay, are visiting Mrs. W. D. Hull, Murray street.

Mr. R. McKoown, who was in Garden Hill over the holiday, returned to town this morning.

Mrs. J. Simons, of Toronto, is spending the Easter holidays with her sister, Mrs. J. Halpin.

Mr. Leo Young, of the Provincial Secretary's Department, Toronto, is home for the holidays.

Mr. Herbert S. Wood, eldest son of Mr. R. E. Wood, has been granted his degree of B.A., at Queen's University.

Misses Marguerite Fahey and Kate Cronin, of Toronto, are the guests of the latter's sister, Miss Nora Cronin.

Miss Vergie Barbeau left for Sault Ste. Marie on Friday night, being called home by the illness of her mother.

Mr. Enos Maybee, who was in town visiting his parents, Hunter street, returned to Montreal on the midnight train.

Mrs. D. W. Spencer, accompanied by Mr. Greer, of Napanee, are in town the guests of Mr. Bart Spencer, Elm street.

Miss Maggie Wright, who was at Garden Hill visiting her parents over then holiday, returned to town this morning.

Mrs. R. L. Smart, Los Angeles, Cal., is home on a visit to her parents, Mr. and Mrs. R. Mowry, 254 McDonel street.

Mr. John M. Hoszel, of Toronto Junction, is in town, in custody of the Chief of Police, during the Easter Holidays.

Miss Vieva Hunter of Toronto University, is home for the holidays, having as her guest Miss Katie Beerman of Victoria College.

An especially attractive feature of the musical service in All Saint's church yesterday was a solo rendered last night by Miss Mary Rush.

Mr. Willie McDonald, of the Bank of Montreal, Toronto, is in town for the Easter holidays, the guest of his uncle, Mr. R. H. Fortye, Gilmour street.

Mr. J. G. Bellegham, of the Ontario Bank, Cornwall, is spending the holidays in town, visiting his parents, Mr. and Mrs. D. Bellegham, dunter street.

The music in St. Luke's yesterday was especially attractive, the anthem "King of Kings," was well rendered and solos were taken by Mrs. A. W. Turner, alto; Miss K. Philips, soprano, and Mr. A. O. Sawyer, bass.

Mr. and Mrs. Isaac Coolidge, Miss Grace Coolidge and Mrs. J. E. Hettenhausen and two children, left Windsor on Thursday to take up their residence in Peterborough. Mr. Hettenhausen preceded them a few days previously.

Messrs. Charles and Joseph Akey, of Hamilton, formerly of Peterborough, are visiting their parents, Mr. and Mrs. Henry Akey, No. 1, Park street, for the holidays. The Messrs Akey are taking positions in the Westinghouse Electric Works, at Hamilton.

Mrs. Alfred B. Owen, of 323 Markham street, Toronto, accompanied by Miss Mabelle Williamson, left Thursday morning for Portland, having taken passage on S. S. Canada, for England, where she will remain until the beginning of June. Her little daughter, Dorothea, is also out of the city, spending the Easter vacation with friends at Peterborough.

THE SERVICES AT ST. PETER'S

Easter Day Services Were Largely Attended.

The services at St. Peter's yesterday were largely attended, at the three masses in the morning, and also at the evening service. At 10.30 a.m. Pontifical high mass was celebrated by His Lordship Bishop O'Connor, the sermon being preached by Rev. Father McColl.

At the evening service at seven o'clock Pontifical Vespers were sung, Rev. Father Kelly preaching the sermon.

The decorations were particularly beautiful, and it is doubtful if the Cathedral has ever been so tastefully and effectively adorned, the high altar being a mass of palms, lilies and cheerful bloom. Special credit is due the Sisters of St. Mary's Convent, to whose devotion and taste the beautiful decorative effects are due.

The music yesterday was good and those who took any special part acquitted themselves most creditably. At 10.30 a.m., the "Missa Brevis" by Ferber, was sung. Solos were taken by Misses A. Simons, L. Clancy, N. Simons, E. Primeau and L. Coster; Messrs. Mackie, Hill and MacGregor.

In the evening the "Musical Vespers," that by Marfield, was sung, in chorus by the whole choir. Solos were taken by Misses L. Coster, A. Simons, L. Clancy, J. Delaire; Messrs J. Hanrahan and F. Pope. The O Salutaris solos were taken by Misses N. Lewis and J. Delaire. The Tantum Ergo chorus by the full choir; solo by Miss L. Coster.

IMPORTANT REAL ESTATE PURCHASE

Mr. Alex Hamilton Becomes the Owner of the Nicholls Homestead

One of the Finest Residential Properties in Peterborough.

Mr. Alex. Hamilton, of Warren, Ont., who has been in town the past few days, combining business and pleasure, has become the possessor of one of the finest and best known residential properties in Peterborough. He has closed negotiations with the trustees of the Nicholls estate for the purchase of the Nicholls homestead, comprising the square bounded by Rubidge, Brock, Reid and Hall streets. It is understood that the purchase price was in the neighbourhood of $12,000. It is Mr. Hamilton's intention to occupy the residence, temporarily, at least, and his family will arrive in town in a short time. He also contemplates utilizing the northern part of the square for the construction of a large apartment building, upon which work will be begun this autumn. According to present intentions it is Mr. Hamilton's design to surround a central court in the middle of the square, with apartment buildings to face the four streets enclosing it.

While making this important purchase as an investment, Mr. Hamilton will still retain his business interests and activities in Warren, where his many friends will rejoice to learn that he has pleasantly prospered. He left Peterborough in 1893, and in the short space of a dozen years has built up a strong and lucrative business in New Ontario. He says he can't speak too strongly of New Ontario as a field for the operations of young men with the wit and the will to work.

Clark, a Well-known Canadian.

puts on the market the finest Potted Meats, Corned Beef Luech Tongue, Pork and Beans, etc., ever known.

AMENDMENT TO THE CONSTITUTION

Ontario Football Association Meeting Held To-day.

Dr. Devitt Attending Representing the Midland League—The Programme.

The annual meeting of the Ontario Football Association is being held in Toronto to-day, and Dr. Devitt, of Bowmanville, is attending representing the Midland League. The Sessions are held in the Walker House, and the principal business is the consideration of the following proposed amendments:—

CONSTITUTION.

Art. 6.—Add the following:—

"And the first named of each committee, except as provided in Art. 7, shall act as chairman, who may with the other members of his committee, arrive at a decision by walk."

Art. 7.—Change first sentence to read:—

"The match committee shall have full power to arrange and conduct all championship matches."

Art. 8.—Strike out the words:—

Shall be appointed at each annual meeting and".

Art. 12.—Change last five words to read:—

"Chairman of the standing committees".

Art. 13. (d) Strike out the words:—

"And shall be ex-officio secretary of all committees,"

(e) Strike out all of (e) and insert:—

Each committee shall discuss all matters coming properly under its jurisdiction and having reached a decision shall communicate the same to the president, through the secretary-treasurer. Any decision so reported cannot be rescinded except by the unanimous consent of the committee.

Art. 15.—Add the following:—

"Notice of such proposed amendments shall be given in writing to the secretary-treasurer at least two weeks before such meeting, and he shall inform each affiliated association of the league at least one week before said meeting."

LAWS OF THE GAME.

5.—Change law to read as in 1903.

15.—Strike out the words:—

"The ball shall be in play when the whistle is blown, and",

16.—Change so as to read after first line:—

"Ball shall not be played until the referee has blown his whistle."

COMPETITION RULES.

2.—Strike out "and shall be arranged ..... direct" and insert the following, "and the schedule thereof shall be announced by the chairman of the match committee within one week after receiving from the secretary-treasurer of the league the names of the clubs properly entered in this competition."

6.—Transpose the two sentences and add:—

"Matches on neutral ground shall be possible only when both clubs concerned agree to such an arrangement. If one club demand a home game it shall be entitled to it."

9.—To read as follows:—

"The president and the secretary-treasurer of the league shall be to all intents and purposes the legal holders, in trust for the league, of all cups; and one week prior to the date of the final or the deciding match of that season, each cup and case shall be returned to some responsible person, whom they may name.

"Before handing the cups and cases to the several winners of the respective finals, the secretary-treasurer of the league shall in each instance obtain a satisfactory bond for the safe return of the same in like good condition and order.

JUNIOR COMPETITION RULES.

2.—Change "21st" to read "20th" and after the word "season", insert the words, "in his own association."

3.—Strike out.

THE CHAMPION OF AMERICA

Eugene Hurtubise Again Wins Amateur Wrestling Honours

Defeated Beckman, of New York, Easily on Saturday in Toronto.

Eugene Hurtubise, the clever local wrestler is still amateur heavyweight wrestler of America. On Saturday night in the Mutual street rink, Toronto, he defended successfully this title, and threw his opponent, Beckman, of New York, in one minute and a half.

Mr. Hurtubise was very modest this morning when a representative of the Examiner called upon him and congratulated him upon his success.

Beckman was looked upon by many as a likely man to win the heavyweight championship, and won three medals at the competition, so that the local wrestler's success is all the more remarkable.

At the close of the contest Mr. Hurtubise was presented with the medal representing the championship.

He is of the opinion that Grady's defeat was due more to a fluke than anything else, and believes that he could make a better showing than he did make, had he been favoured with any luck.

PETERBORO'S PLAYED FAST WESTMONTS

Visiting Team Lost Close Game at Montreal.

Special to the Examiner.

Montreal, April 22nd.—The Peterborough Intermediate basketball team which is making an Eastern tour played the Westmount Intermediates Friday evening the score at half-time being Westmount 32 Peterborough 22.

Everybody who witnessed the game was unanimous in saying that it was one of the finest expositions of basketball ever seen in a local gymnasium. The visitors played an exceptionally good game and their short quick passes working the ball from their own goal right in for a short were frequently loudly applauded.

In the first few minutes Peterborough scored twice rapidly and it took some time for Westmount to partially solve their style of play. The visitors play their whole five men up the floor to a much larger extent than is customary here. The first half ended Westmount 18, Peterborough 15.

MR. J. McDONOUGH ISSUES CHALLENGE

Wants to Wrestle Eugene Hurtubise for City Championship.

Mr. Jack McDonough, of Peterborough, now working in Norwood, called the Examiner up by telephone to-day and requested this paper to insert a challenge to Mr. Eugene Hurtubise, for the heavy-weight wrestling championship of Peterborough. Mr. McDonough wishes the contest to take place inside of two weeks.

FOOTBALL.

The Midland team has written to the secretary of the Midland League applying for admission to that body and asking to be grouped with Locust Hill.

* * * *

The Quaker Football team will hold a practise to-morrow evening at the Driving Park. There will be no practise to-night.

BASKET-BALL.

A postal card from Montreal says that on Saturday night the Brownies defeated the Central Y. M. C. A. team by 24 to 18, which is a splendid achievement.

FIELD HOCKEY.

There will be a field hockey practise on Wednesday night at 6.30 at the Driving Park.

BASEBALL.

Baseball on Sunday.

Professional baseball playing Sundays was revived in Brooklyn Sunday with a National League championship game, in which Brooklyn defeated Boston, 4 to 0. Three took names of the players and score and sellers. Score:

	R.	H.	E.
Brooklyn	0	1	0
Boston	0	0	0

Batteries—Pagan and Ritter; Young and Needham. Umpire—Johnstone. Attendance—12,062.

At Chicago (National)—

	R.	H.	E.
Chicago	0	0	1
Pittsburg	0	0	0

Batteries—Brown and Kling; Phillippe and Fiets. Umpire—O'Day. Attendance—21,000.

At Chicago (American)—

	R.	H.	E.
Chicago	0	1	0
Detroit	0	1	0

Batteries—White and W. Sullivan; Mullen and J. Sullivan. Umpire—Sheridan. Attendance—18,000.

At Cincinnati (National)—

	R.	H.	E.
Cincinnati	2	5	0
St. Louis	3	12	2

Batteries—Ewing, Corcoran and Phelps; Nichols, Thielman and Werner. Umpire—Kiem. Attendance—17,227.

At St. Louis (American)—

	R.	H.	E.
St. Louis	0	5	1
Cleveland	0	4	2

Batteries—Howell and Sugden; Hess and Buelow. Umpires—Kelly and McCarthy. Attendance—18,700.

At Albany—The Albany State League team defeated the Jersey City Eastern League Club in the first local professional game of the season. Score:

	R.	H.	E.
Albany	4	7	3
Jersey City	2	7	4

Seven Sutherland Sisters' Hair Grower
GIVES THIS HAIR

Seven Sutherland Sisters:
Dear Ladies,—
It gives me great pleasure to write you in reference to the benefit I have derived from the use of your Hair Grower and Scalp Cleaner. I find they keep the hair from falling, causes it to grow and keeps it in a healthy condition. I have had my photograph taken showing the length of my hair.
Yours truly,
MISS EDITH BUNCE,
Campbellville, Ont.

FRENCH FOREIGN MINISTER.

Sees President and Withdraws Resignation—Ill Health Worries Him.

Paris, April 24.—M. Delcasse has informed Premier Rouvier that he will retain the portfolio of foreign affairs.

Responding to the personal request of President Loubet, M. Delcasse went to the Elysee Palace at 11 a. m., Saturday, where he had an interview with the President which lasted half an hour.

The letter of M. Delcasse to Premier Rouvier gave the first intimation of his purpose to resign and was very brief. It based his action solely on the grounds of health and made no allusion to any political or international consideration.

Checks Germany's Design.

M. Delcasse's staying in the Cabinet is expected to result in a firmer attitude towards Germany than heretofore shown. The Foreign Minister's policy has been to give Germany adequate assurances that her interests in Morocco would be treated the same as those of the rest of the world, but after making these approaches, he did not desire to yield France's entire project concerning Morocco at the dictation of Germany. Consequently, his offer to resign was everywhere interpreted as a triumph for Germany, whereas, his determination to remain is interpreted as a check to Germany's designs.

Castro Will Challenge Fate.

Caracas, April 24.—President Castro in the course of a speech at Calabazo on April 19 said: "I don't believe there is a possibility of a new conflict for the republic, but if—against reason, right and justice—anything is cogitating which I do not wish to qualify, I swear to you I shall know how to draw inspiration from the memory of the valor of the patriots formerly exhibited in these plains; and if encouragement is wanting I shall seek it in the indomitable character of the inhabitants of these districts, and, so supported, challenge fate."

Aliens on Pere Marquette.

Toronto, April 24.—Judge Winchester left for London on Saturday, and will open an investigation there to-day into the charge made against the Pere Marquette Railway Co. of importing aliens to take the place of Canadians on its lines in Western Ontario. The company recently purchased the L. E. & D. R. Railway, running from Walkerville to Port Stanley from the Walkers, and it is alleged that many of the employes have been displaced by officials from its lines in the United States.

Why This Woman Suicided.

Niagara Falls, April 24.—Mrs. Mary Dunn, 33 years old, committed suicide yesterday by swallowing an ounce of carbolic acid. A confession made to her by her fifteen-year-old daughter prey so upon the woman's mind that she ended her life, drinking the acid in the presence of her husband.

Rink Burned.

Moose Jaw, N. W. T., April 24.—The Moose Jaw skating and curling rink was burned to the ground Saturday morning. The rink was erected in 1903 at a cost of $6,500. About $1,000 worth of curling stones were destroyed.

Skull Fractured.

Toronto, April 22.—Shortly after 1 o'clock this morning John Colestock, 132 Centre avenue, was found unconscious on College street. His skull is so badly fractured that there is not much chance of his surviving. How he received the injury is not known. He is about 27 years of age.

WHEN YOU GET BILIOUS

YOU MAY BE CERTAIN THE LIVER IS DERANGED AND THAT THERE IS CURE IN

DR. CHASE'S KIDNEY-LIVER PILLS

"Bilious" is the word used by many people to describe the condition of ill-health into which they are thrown by derangement of the liver.

Biliousness is caused by the failure of the liver to filter the bile and other poisonous impurities from the blood. The result is a clogging and poisoning of the whole system.

Indigestion, headache, languid, melancholy feelings, irritability of temper, constipation, alternating with looseness of the bowels, pains in the muscles and joints and a pale, sallow complexion are among the symptoms.

Fortunately there is prompt and certain cure for biliousness and torpid liver in Dr. Chase's Kidney-Liver Pills.

They cure by thoroughly cleansing the filtering and excretory systems and awakening the action of the liver to renewed energy and activity.

When you feel out of sorts and notice any of the symptoms of torpid liver and bilious ness put Dr. Chase's Kidney-Liver Pills to the test, and you will then understand why this great medicine is considered indispensable in the great majority of homes.

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto. Portrait and signature of Dr. A. W. Chase, the famous receipt book author, on every box. 5

EASTER SUNDAY AT MARK STREET

Large Congregations and Special Musical Service.

The following report of the services in the Mark street church yesterday has been received, with a request for publication:

Special services were held at the Mark street church yesterday, the pastor, Rev. J. G. Lewis, being the preacher. At the morning service a special solo was ably rendered by Mrs. T. Cunningham, "Consider the Lilies," which was very impressive, and much appreciated; as was also a solo by Mr. J. Miller, "The Resurrection." The pastor took for his text, Matt. vi, 28, "Consider the Lilies of the field, how they grow." He dwelt on the fact that Christ saw beauty in everything in nature, and especially in flowers, bringing out the thought that as a lily grows from a bulb or seed into beauty and perfection, so is it possible for us to grow in the hands of God more and more unto beauty and perfection, according to the will of God. The lily grows unconscious of its beauty and perfection, yet serving the purpose that God intended it should; so we as God's people should grow. And as the lily arises out of what seems a dead thing, into life and beauty, so Christ rose from the dead, triumphant over His foes. The pastor appealed to the people to rise above their dead selves into a newness of life in Christ. The text for the evening service was taken from John xx, 28, "My Lord and My God." The thought was brought out that up to this time the disciples had looked upon Christ as their Lord and Master but after the resurrection it came to them in a forcible manner that He was God as well as man. His resurrection had proved it, and though Thomas was the one to voice it, yet they all realized it, and echoed the cry, "My Lord and My God."

This truth was especially dealt with by the pastor in a telling manner, though at some disadvantage, as he was suffering from a severe cold.

A duet was beautifully rendered by Miss A. Davey and Mr. J. Miller, "One Sweetly Solemn Thought," and the choir gave an excellent anthem, entitled "The Resurrection." Miss A. Davey presided at the organ, while Mr. J. Miller had the choir well in hand. The congregations were very large at both services.

TERRIBLY DISTRESSING

Nothing can cause more pain and more distress than Piles.

No wonder many Pile sufferers say their lives are burdens to them.

Ointments and local treatments may relieve but cannot cure.

Dr. Leonhardt's Hem-Roid is guaranteed to cure any case of Piles.

If Hem-Roid doesn't cure you, you get your money back.

Hem-Roid is a tablet taken internally, thus removing the cause.

$1,000.00 guarantee goes with every sale.

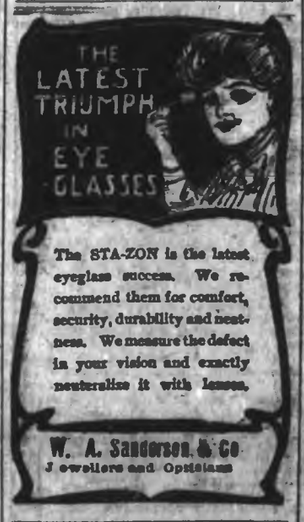
A month's treatment for $1.00, at all druggists or The Wilson-Pyle Co., Limited, Niagara Falls, Ont. 11

NOT JUST AS GOOD

Did you ever inquire at a store for certain articles and get for a reply "We have something just as good"? Did it ever occur to you that "Something just as good" is something the dealer has been able to buy much cheaper than the articles you inquire for? This is true in drugs, fabrics, groceries, hardware, and in fact every line, including silver-plated ware. If you inquire for 1847 Rogers Bros.' Knives, Forks or Spoons, don't accept any bogus Rogers' stamp because your dealer tells you it's just as good.

1847 TRADE MARK ROGERS BROS

The above trade mark has been stamped on every article of the original and genuine Rogers Bros.' goods for over 50 years. Get this and you get the best that is made.



The STA-ZON is the latest eyeglass success. We recommend them for comfort, security, durability and neatness. We measure the defect in your vision and exactly neutralize it with lenses.

The Semi-ready frock coat is a masterpiece of sartorial art

The frock coat gives the designer more scope to show his skill and taste than any other garment.

That is why the tailor, who makes about five or six frock coats in a year and gets his ideas from a fashion plate, misses the essential points that mean style.

The lines of the Semi-ready frock coat are carefully thought out by an expert designer.

This year the Semi-ready frock coat differs but slightly from last year's model. The lapels are heavier with a slightly convex crease. The shoulders are a little broader and of natural shape, avoiding the built-up effect.

They are close-fitting at the waist, large-chested, and with considerable bell to the skirt.

A frock coat is like a dress coat—every line must be right or it is noticeably incorrect.

The Semi-ready frock coat is the essence of style—try one on and see. Prices, $20, $25, $30.

Semi-ready Tailoring

Cressman's PETERBORO.

The Heart's Highway

by MARY E. WILKINS

Copyright, 1903, by DOUBLEDAY, PAGE & CO.

"The fleetest horse in the colony," said he, "and, Harry, I have seen Dick Barry, and if thou canst but ride to the turn of the road thou wilt be met by Black Betty and guided to a safe place; and the jailer hath drunk overmuch Burgundy to which I treated him, and—and if thou canst, Harry"—

Then he stopped and looked at me and turned angrily to the physician, who was packing up his lancets and vials to depart. "My God, sir," he cried, "do you kill or cure? You have not bled him again? Lord, Lord, had I but a lancet and a purge for the spirit as you for the flesh, there would be not only no sin, but no souls left in the colony! You have not bled him again, sir?"

But Martyn Jennings paid no more heed to him than if he had been a part of the prison wall, and, indeed, I doubt if he ever heeded any one who had not need of either his nostrums or his lancet, and after a last look at my bandages he went away.

Then Parson Downs and my brother's man looked at each other.

"It is of no use, sir," said the man, whose name was Will Wickett. "Poor Master Wingfield cannot ride a horse. He is far too weak." And with that verily the tears rolled down his cheeks, so womanish had he grown by reason of the sore trials to which he had been put.

"Faith, and I believe he would fall off at the first motion of the horse," agreed Parson Downs, with a great scowl. I looked at and listened to them both, with a curious feeling that they were talking about some one else, such was my weakness and giddiness from that last blood letting.

Then Parson Downs, with an exclamation which might have sounded oddly enough if heard from the pulpit, but which may, after all, have done honor to his heart, fetched out a flask of brandy from his pocket and bade Will Wickett find a mug somewhere, which he did speedily, and he gave me a drink which put new life into me, though it was still out of the question for me to ride that fiery horse which stood pawing outside the prison. And just here I would like to say that I never forgot, nor ceased to be grateful for, the kindly interest in me and the risk which the parson was disposed to take for my sake that day. A great risk indeed it would have been, and would doubtless have cost him his living, had I ridden across country on that famous horse of his. But he seemed not to think of that, but shook his

Harry sitting on his bench

head sadly after I had swallowed the brandy, and then my brother John came in and he turned to him.

"A fine plan for escape I had, with the jailer drunk and the sentries blinded by my last winnings at cards, but Harry is to6 weak to ride," he said.

Then I, being somewhat restored by the brandy, mustered up strength enough to have a mind and speak it, and declared that I would not in any case avail myself of his aid to escape, since I should only bring trouble upon him who aided me, and should in the end be caught. And just as I spoke came a company of soldiers to escort me to the stocks, and the chance, for what it was worth, was over.

This much, however, had my brother gained for me, since I was manifestly unable to walk or ride: One of the Cavendish chairs which they had brought from England was at the prison door, and some of our black men for bearers, half blubbering at the errand upon which they were bound.

Somebody had rigged a curtain of thin silk for the chair, so that, when I was set therein, had great privacy, though I knew by the sounds that I was attended by the motley crowd which usually is in following at such affairs, besides the little troop of horse which was my escort, and my brother and Parson Downs riding on either side. Parson Downs, though some might reckon him as being somewhat contumelious in his manner of leaving the tobacco cutting, yet was not so when there was anything to be gained to his service. He was moreover quit of any blame by his office of a ritual adviser, though it was not customary for a criminal to be attended to the stocks by a clergyman, but only to the scaffold.

But, as I began to gather some strength through that fiery draught which I had swallowed and the fresh air, it verily seemed to me, though I had done with any vain complaints and was of a mind to bear my ignominy with as much bravery as though it were death, that it was as much of an occasion for spiritual consolation. I could not believe—when we were arrived at the New field and I was assisted from my chair in the midst of that hooting and jeering throng, which even the soldiers and the threatening gestures of the parson and my brother served but little to restrain—that I was myself, and still more so when I was at last seated in that shameful instrument, the stocks.

Ever since that time I have wondered whether mankind hath any bodily ills which are not dependent upon the mind for their existence, and are so curable by some sore stress of it. For verily, though my wounds were not healed, and the sun was blistering with that damp blister which frets the soul as well as the flesh, I seemed to sense nothing except the shame and disgrace of my estate.

As for my bodily ailments, they might have been cured, for aught I know of them. To this time, when I lay me down to sleep after a harder day's work than ordinary, I can see and hear the jeers of that rude crowd around the stocks. Truly, after all, a man's vanity is his point of vantage, and I wonder greatly if that be not the true meaning of the vulnerable spot in Achilles' heel. Some slight dignity, though I had not so understood it, I had maintained in the midst of my misfortunes. To be a convict of one's free will, to protect the maid of one's love from grief, was one thing, but to sit in the stocks, exposed to the jibes of a common crowd, was another. And more than aught else, I felt the sting of the comedy in it.

To sit there with my two feet straight out, soles to the people, through those rude holes in the boards, and all at liberty to gaze and laugh at me, was infinitely worse than to welter in my blood upon the scaffold. How many times, as I sat there, it came to me that if it had been the scaffold, Mary Cavendish could at least have held my memory in some respect; as it was, she could but laugh. Full easy it may be for any man with the courage of a man to figure in tragedy, but try him in comedy if you would prove his mettle.

Shortly after I arrived there in the New field, which was a wide, open space, the sports began, and I saw them all as in a dream, or worse than a dream, a nightmare. First came Parson Downs, whispering to me that as long as he could do me no good, and was in sore need of money, and, moreover since he would by so doing divert somewhat the public attention from me, he would enter the race which was shortly to come off for a prize of £5.

Then came a great challenge of drums, and the parson was in his saddle and the horses off on the three mile course, my eyes following them into the dust clouded distance and seeing the parson come riding in ahead to the winning post, with that curious uncertainty as to the reality which had been upon me all the morning—that is, of the uncertainty of aught save my shameful abiding in the stocks.

As I said before, it was a hot day, and all around the field waved fruit boughs nearly past their bloom, with the green of new leaves overcoming the white and red; and the air was heavy with honey-sweet, and, as steady as a clock tick, through all the roaring of the merrymakers came the hum of the bees and the calls of the birds. A great flag was streaming thirty feet high, and the gay dresses of the women who had congregated to see the sports were like a flower garden, and the waistcoats of the men were as brilliant as the breasts of birds, and nearly everybody wore the green oak sprig which celebrated the Restoration.

Then again the horses, after the challenge of the drums, sped around the three mile course, and attention was diverted somewhat from me. There had been mischievous boys enough for my torment, had it not been for my brother John, who stood beside the stocks, his face white and his hand at his sword. Many a grinning urchin drew near with a stone in hand and looked at him and looked again, then slunk away and made as if he had no intention of throwing aught at me. After the horse racing came music of drums, trumpets and hautboys, and then, in spite of my brother, the crowd pressed close about me and many scurrilous things were said and many grinning faces thrust in mine, and thinking of it now, I would that I had them all in open battlefield, for how can a man fight ridicule? Verily it is like dueling with a man of feathers. Quite still I sat, but felt that dignity and severity of bearing but made me more vulnerable to ridicule. Utterly weaponless I was against such odds.

I was glad enough when the drums challenged again for a race of boys, who were to run one hundred and twelve yards for a hat. Everybody turned from me to see that, and I watched wearily the straining backs and elbows of the little fellows, and the shouts of encouragement and of tri-

The leering throng

umph when the winner came in smote my ears as through water, with curious shocks of sound.

Palpitation of the Heart—Nervous Prostration—Cured by Milburn's Heart and Nerve Pills.

They make weak hearts strong. They make shaky nerves firm.

Mr. Ray V. Cormier had a very trying experience while at College; but, thanks to Milburn's Heart and Nerve Pills, he has been restored to health. He tells his experience in the following letter to us:—

"Wellington Station, P.E.I., Dec. 3rd, 1903.
"Messrs. The T. Milburn Co., Limited,
"Toronto, Ontario.

"Gentlemen,—Having been cured of a very troublesome disease, I find it my duty to write you a few lines. I was troubled with a very great palpitation of the heart and nervous prostration. I was attacked with it at College, and could not follow up the games of the University without being overcome with fatigue. I could not descend the stairs without resting half-way. I have left College, and am working in a general store, where I found your famous pills. I used three boxes, and am now completely cured; I cannot thank you enough. You may use this letter for the purpose of benefiting anyone who is suffering as I did. My home is in Sackville, N.B., but at present I am on Prince Edward Island.

"I remain, dear sirs, RAY V. CORMIER."

Milburn's Heart and Nerve Pills, 50 cts. per box, or 3 boxes for $1.25. All dealers, or mailed on receipt of price.

THE T. MILBURN CO., LIMITED, TORONTO, ONTARIO.

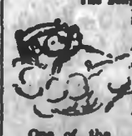
Information requested. The informant's name kept strictly private.

GEO. COCHRANE, Agent.

The Song of the Cradle.



Bye, bye! Hope rises high:
There's a sweet little cradle hung up in the sky!
A dear little life that is coming to bless;
Two soft chubby hands that will pat and caress;
A pure little soul winging down from above;
A darling to care for, a baby to love.

One of the grandest agencies which enlightened Science has discovered to relieve motherhood from excessive suffering is the "Favorite Prescription" devised by Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y.

This wonderful "Prescription" imbues the entire nervous system with natural, healthy vitality; gives elastic vigor to the delicate organism specially concerned in motherhood, and makes the coming of baby entirely free from danger and almost free from pain.

"I wish to state that I have used Doctor Pierce's Favorite Prescription with very good results," writes Mrs. Katie M. Annis, of Hudson, New Hampshire. "Had been in poor health for over four years and had been twice in the hospital. My husband brought some of your 'Favorite Prescription,' and it has carried me easily through my last two confinements. We are now blessed with two healthy children, and I am sure your medicine has done me more good than all the other treatment I have ever received."

BAD HEADACHES generally arise from bad stomachs. Foul breath, bitter taste, coated tongue, sour eructations or belching of gas are common symptoms though not all present in every case. To cure, take small dose, only one or two each day, of Old Dr. Pierce's Pleasant Pellets, the Original Little Liver Pills, first put up by him over 40 years ago. One or two a laxative, three or four cathartic.

We Offer $1,000

For a Disease Germ That Liquozone Can't Kill.

On every bottle of Liquozone we offer $1,000 for a disease germ that it cannot kill. We do this to assure you that Liquozone does kill germs.

And it is the only way known to kill germs in the body without killing the tissues, too. Any drug that kills germs is a poison, and it cannot be taken internally. Medicine is almost helpless in any germ disease. It is this fact which gives Liquozone its worth to humanity; a worth so great that, after testing the product for two years, through physicians and hospitals, we paid $100,000 for the American rights. And we have spent over one million dollars, in one year, to buy the first bottle and give it free to each sick one who would try it.

Acts Like Oxygen.

Liquozone is not made by compounding drugs, nor is there any alcohol in it. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. This process has, for more than 20 years, been the constant subject of scientific and chemical research.

The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you. Its effects are exhilarating, vitalising, purifying. Yet it is an absolutely certain germicide. The reason is that germs are vegetables; and Liquozone—like an excess of oxygen—is deadly to vegetal matter.

Liquozone goes into the stomach, into the bowels and into the blood, to go wherever the blood goes. No germ can escape it and none can resist it. The results are inevitable, for a germ disease must end when the germs are killed. Then Liquozone, acting as a wonderful tonic, quickly restores a condition of perfect health. Diseases which have resisted medicine for years yield at once to Liquozone, and it cures diseases which medicine never cures. Half the people you meet—wherever you are—can tell you of cures that were made by it.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

Asthma, Abscess—Anemia, Bronchitis, Blood Poison, Bright's Disease, Bowel Troubles, Coughs—Colds, Consumption, Colic—Cramps, Consumption, Catarrh—Cancer, Dysentery—Diarrhea, Dandruff—Dropsy, Dyspepsia, Hay Fever—Influenza, Kidney Diseases, La Grippe, Leucorrhea, Liver Troubles, Malaria—Neuralgia, Many Heart Troubles, Piles—Pneumonia, Pleurisy—Quinsy, Rheumatism, Scrofula—Syphilis, Skin Diseases, Stomach Troubles, Throat Troubles, Tuberculosis, Tumors—Ulcers, Varicocele, Women's Diseases

All diseases that begin with fever—all inflammation—all catarrh—all contagious diseases—all the results of impure or poisoned blood.

In nervous debility Liquozone acts as a vitalizer, accomplishing what no drugs can do.

50c. Bottle Free.

If you need Liquozone, and have never tried it, please send us this coupon. We will then mail you an order on a local druggist for a full-size bottle, and we will pay the druggist ourselves for it. This is our free gift, made to convince you; to show you what Liquozone is, and what it can do. In justice to yourself, please accept it to-day, for it places you under no obligation whatever.

Liquozone costs 50c. and $1.

CUT OUT THIS COUPON

for this offer may not appear again. Fill out the blanks and mail it to The Liquozone Company, 58-64 Wabash Ave., Chicago.

My disease is.....

I have never tried Liquozone, but if you will supply me a 50c. bottle free I will take it.

TO CONTRACTORS!

Owing to some changes by order of the committee in the specifications, tenders will again be received for Abutments in the new bridge over Indian River on the Boundary Road between Otonabee and Douro. For the work executed either in stone masonry or concrete and each tender must be accompanied by a marked cheque on a local bank for the sum of $100.00 made payable to the County Treasurer of Peterborough, and which cheque will be returned to the parties tendering in case their tenders are not accepted.

Tenders will be received by the undersigned up to 12 o'clock, noon, Saturday, the 29th inst.

Plans and specifications can be seen at J. B. Belcher's County Engineer's office.

The lowest or any tender not necessarily accepted.

ED. M. ELLIOTT,
County Clerk,
Box 1461, Peterborough. 42w1&304.

MEMORIALS PLACED IN ANGLICAN CHURCHES

Judge Weller's and Miss Eileen Fair's in St. John's Unveiled on Saturday—Beautiful Memorial Tablet in Memory of Rev. Mark and Mrs. Burnham, Erected by Their Son, Dr. Burnham, in St. Luke's.

At Easter, the glorious and comforting fact of the resurrection from the dead brings the Christian world into special communion with the risen Lord and their fellow members of the mystical body, and with His "servants who have departed this life in His faith and fear;" and especially the loved ones of the family circle seem to come nearer and be with us in more real sense than at other times. Easter is therefore a specially meet season for the placing of memorial emblems in the churches where those thus tangibly remembered gathered and worshiped, before they exchanged the services of the church militant for the worship and blessedness of the church triumphant. In St. John's and St. Luke's memorials to departed members were first seen on Easter day—yesterday.

AT ST. JOHN'S.

On Saturday afternoon at 3 o'clock two handsome articles of church furniture were dedicated at St. John's Church—an Eagle Lectern of oak to the memory of the late Mrs. (Judge) Weller and a prayer desk also of oak which was given as a thank-offering for recovery from illness by Miss Eileen Fair. There was a large congregation present with many friends of the parties concerned and the services were of an impressive and devotional character.

The rector, Mr. J. C. Davidson, remarked that if they were a fitting thing in the cemetery, in the place of death, it were even more appropriate to set them up in the church in the place of Life. This was one of the gateways of the eternal world and every Sunday the departed were commemorated. It was well that the worshipping Christians should have before them the names of past worshippers whose presence and influence were still felt. Again while special petitions were often offered for material benefits personal thanksgivings were too few and the appropriate thank-offering would continually be a remembrance of the efficacy of earnest prayer.

St. John's Church was rich in historical associations and it was gradually becoming richer by the lives and grateful devotions of its congregation, past and present.

After this brief address the hymn on "The Ressurection Morning" was sung and a special Dedicatory prayer was offered and concluded the service.

The Lectern is a beautiful specimen of artistic woodwork. It is of English oak, richly carved with artistic execution. It consists of a carven eagle, the bird of St. John, with semi-extended wings, which form the desk part and support the Bible. The eagle, which is strikingly natural, both in pose and detail, is supported on an octagonal pillar, enriched with bands of floral carving and rests upon an octagonal base, whose several facets are richly pannelled. A brass plate contains the following engraved record:—

> To the Glory of God
> And in Loving Memory of
> MARTHA,
> Wife of Judge Weller, a
> Devoted Member of this
> Congregation.
> Died, Nov. 3rd, 1898.

The beautiful prayer desk, erected in the chancel by Miss Fair, is also of oak of correct ecclesiastical design and also enriched with carvings. It bears a brass tablet with the following engraving:—

> To the Glory of God
> A Thank Offering
> For Recovery from Illness;
> EILEEN FAIR, 1904.
> "Effectual Fervent Prayer — Availeth Much".

Both of these memorials form a beautiful addition to the many memorial tablets and otherwise which adorn the beautiful church of St. John's.

AT ST. LUKE'S.

The Easter services at St. Luke's church, were of a very bright and joyous character, which sounded a note of resurrection joy, expressive of the significance of the day. Large congregations were present at all services, and the number of communicants larger than ever before. The special offertory the rector asked of the congregation was larger than asked for. The music throughout was well rendered. The sermons were based upon resurrection lessons and all the services were marked by that heartiness and congregational rendering of the liturgy which are the characteristics of St. Luke's congregation.

DR. GEORGE BURNHAM,
Who Presented the Tablet Unveiled in St. Luke's Yesterday.

The floral decorations were very beautifully arranged: the altar was covered with white roses, the gift of Mrs. R. Hamilton. The rector, Rev. E. A. Langfeldt, officiated at all services. After the Te Deum had been sung the rector walked into the body of the church to unveil and dedicate a brass tablet presented by Dr. Geo. Burnham. It is placed on the south wall above the seat formerly occupied by Rev. and Mrs. Mark Burnham. The tablet is artistically executed in fine brass, the work of the Pritchard-Andrews Company, of Ottawa. Its size is 29 x 23 inches.

After the unveiling and dedication of the tablet the rector dedicated a prayer desk and seat, the gift of Mrs. R. Hamilton, in honour of her beloved husband, the Hon. Robert Hamilton, who entered into rest Jan. 1896. The desk and seat are made of quarter cut oak, of excellent workmanship, made by the Peterborough Canoe Company. Both are in addition to the church furniture, which was presented to the church several years ago by Mrs. Hamilton, as a memorial to her husband. A part of the office for the Burial of the Dead, was then said by the rector, and the hymn, "For all the saints who from their labour rest," was sung, after which Morning Prayer was proceeded with.

To the Glory of God and in Pious Memory of His Parents.

INTERESTING NEWS BRIEFY TOLD.

Things We All Like to Hear About.

—The Labour Day Celebration Committee will meet to-morrow night in the Town Council Chamber.

—At the Mark street Epworth League Meeting to-night, there will be a special programme of interest.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover, 222 McDonnel street. 'Phone 199.

—The fire brigade had a run yesterday to Dalhousie street, where a small fire was in progress in the grass.

—The scholars of St. Luke's Sunday school gave $25 Lenten self denial offerings to the cause of missions yesterday.

—To-night the Young People's Guild of St. Andrew's church will be held, and will be in charge of the Social Committee.

—The annual vestry meetings of St. John's, St. Luke's and All Saint's Anglican Churches will be held to-night in the respective churches.

—Mr. J. W. Garvin, of Toronto, addressed the members of the Young Conservative Club on Saturday night on political questions of the day.

—The name "Nordheimer" on a piano stands for the highest type of piano construction. Information concerning these pianos at H. H. Edmison's pharmacy.

—The social to be given in the T. A.S. rooms to-night by that society promises to be of a most interesting character, and no doubt there will be a large attendance.

—On Sunday night next the members of the local Oddfellows lodges will attend Divine service at George street church, when the sermon will be preached by Rev. Dr. Crothers.

—The Chief again wishes to draw the attention of dog owners to the fact that only eighty of the thousand tags which it is estimated should be purchased, have so far been disposed of.

—The Easter offertory at St. John's yesterday amounted to $231.57 and at the Sunday School Children's Lenten boxes for Indian Missions totalled $50.05.

—Mr. Walter Wesley was presented last night with a handsome prayer book, on behalf of a few friends, who wished to show their appreciation of his services in the choir of St. John's church.

—The death occurred on Friday of Patrick Doherty, aged two years, son of Mr. and Mrs. John Doherty, Otonabee. The funeral took place on Friday morning at 9 o'clock to St. Peter's cemetery.

—Mr. Daniel Maloney, who about two weeks ago, suffered a painful injury to one eye at his home in Douro, was operated upon at St. Joseph's Hospital last week, by Dr. McCullough. The operation was quite successful, and the patient is doing as well as may be expected.

—Four new and handsome pictures, illustrative of scenes on the route of the Grand Trunk Railway System, were this morning hung in the rotunda of the Oriental. Mr. William Buntos, the popular city passenger agent of the company, superintended the work.

—For the convenience of my coffee loving customers, I have placed a new coffee mill in my store, so that they may have their coffee fresh. Maple syrup and maple sugar are moving rapidly. Cabbage, parsnips, carrots, beets, onions and potatoes always on hand, at Jas. R. Bell's, 161 Hunter street. Phone 455. d

—The formal opening of the new Y.W.C.A. building is not by invitation, as some have supposed. The Board will be glad to welcome the general public, upon payment of the admission fee, the proceeds of which go to the furnishing fund. Will those sending cakes for the re-opening kindly have them at the building by four p.m.

—The progressiveness of the Roy Studio is again exemplified by a new feature of photographic work which they are introducing in Peterborough. This is the printing of photographs upon sateen, silk and other fabrics, which may be used as cushion-covers; pin-cushions, etc. The work, specimens of which were this morning shown an Examiner representative, is very handsome and should at once become popular with the public.

—The careless practice of boys of throwing stones at random resulted painfully on Saturday to a gentleman, who while passing along Rubidge street between Charlotte and King streets, was struck upon the head by a stone thrown by some unknown party. A nasty cut was inflicted. The missile was evidently carelessly thrown by boys apparently from over a high board fence along the street. Such carelessness cannot be too strongly condemned and may result seriously if continued.

—It is almost impossible to find words to convey to the readers of this paper the reception accorded to Miss Ethel Powell, soprano. To say that she charmed her audience with her wonderful voice and beauty would be putting it very mildly. Her numbers were exceptionally pleasing, and she had to respond to the enthusiastic demands of the large audience.—Toronto "Canadian Workman." Miss Powell will be heard here to-morrow night, with Mr. Owen Smiley at St. Andrew's Sunday School room.

In eighteen hundred and ninety
I was just sweet sixteen
And gallant beaux in plenty
Filled in the future scene,

Now I am one and thirty,
Tho' well preserved at that,
Yet all the beaux that come my way
Are those upon my hat.

APRIL 25TH

Miss Ethel Powell, soprano soloist,
Owen A. Smiley, humorist,
St. Andrew's Lecture Hall.
Admission 25c.
Proceeds for Sick Children's Hospital

Hear Rev. Dr. Perry's lecture, "Religion is Business and Business is Religion." Murray St. Baptist Church, Thursday, April 27th. Tickets 25c.

Done to Haskill's Taste.

Haskill's barber shop on Simcoe street, has been brightened with new wall paper decorations, and floor linoleum. The design on the walls is a combination of sanitary tile paper and a stripe pattern in green, gold and red. The linoleum is a bright looking block pattern, harmonizing with the wall paper effect. All the pusher for the W. O. W. needs now is a fancy metallic ceiling to complete the job.

$100 Reward, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: F. J. CHENEY & CO., Toledo, Ohio.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

For Easter.

We will have a fine stock of strawberries, pineapples, tomatoes, rhubarb, wax beans, cucumbers, spinach, cabbage-lettuce, Florida celery. Also extra quality large California seedless oranges. S. A. ORR, 376 George street. Telephone 18.

The Fashionable Man Need Not Forever be an Extravagant Man

Wherever you go, you will see our clothes on Bankers, Lawyers, Physicians, Business men, men who have learned how to spend money in a business-like way and know the asset value of good clothes.

You will probably be unable to distinguish those we clothe from those who still go to higher priced tailors.

It means when a man buys here more clothes per year for the same expenditure or as many clothes for much less.

Easter Neckwear and Spring Toggery of all sorts at prices that have never yet caused a feeling of disappointment.

JAP'S SHIPS NIGHT ATTACK

Neither Nature of Battle Nor How Serious is Yet Known—Fighting For Four Hours--Russian and Japanese Fleets Probably Met Forty Miles Northeast of Kamranh Bay—It Is Believed Kamamura's Squadron Was the One Which Began This First Night Attack.

Hong Kong, April 25.—The Russian Baltic squadron has been attacked by several ships of Admiral Togo's fleet, but the nature of the fight is unknown, nor is it possible to say how serious have been the results. A cable from Hue, 120 miles northeast of Kamranh Bay, announces that the Russians were attacked south of the Gulf of Tonking Saturday night, and that the battle lasted more than three hours. The gun fire could be plainly heard off Touron, twenty-five miles southwest of the city of Hue, and began shortly after midnight. The Russian squadron was then more than thirty miles out to sea, and it is assumed here that the Japanese attack was begun by their torpedo boats and their speedy armored cruisers.

Confirmed From Saigon.

The despatch from Hue has been confirmed by another from Saigon, through the French cable line, which says there was heavy firing off the French Cochin-China coast during the night, and that the cannonading lasted more than four hours. The fact that no Russian ships have returned either to Kamranh Bay or Touren harbor, northeast, leads naval officers here to believe that the fight was a torpedo attack on the part of the Japanese, and that this is the beginning of a series of night battles planned against the Russians, while Rojestvensky is making his way in the China Sea toward Formosa. Cable messages have been sent to all points on the coast, but no further definite information has come.

Fighting For Four Hours.

Saigon, French Cochin-China, April 25.—The Russian and Japanese fleets have probably met about forty miles northeast of Kamranh Bay. There is no doubt whatever that firing was heard for four hours, becoming less and less distinct with the lapse of time, and thus indicating a running sea fight.

No report of any sort has come from Rojestvensky's war vessels since they departed from Kamranh harbor at 1 o'clock Saturday afternoon. Their speed was only about three knots an hour, and all the vessels could be plainly seen until 5.30 in the afternoon. It was two hours later that the first firing was heard, and it continued at intervals until 11 o'clock in the evening. All the battleships, cruisers, auxiliary warships and the torpedo boat flotillas departed from the harbor. Six colliers remained. It is understood that they will take on more provisions and coal, and no doubt will meet the squadron at some point this side of Formosa.

Kamamura's Warships.

The belief here is that the Russian admiral went along the coast toward the Island of Hainan, in which there are several large harbors and also cable connection with this point. This is his probable course as indicated by the cannonading heard during the night. It was more plain at Touron Bay than at other points, which makes it certain that the Baltic squadron is on a straight line for the Island of Hainan, on what is known as the inside Hong Kong route. Cable messages have been sent from Saigon to the City of Hue and to Tonquin, asking for information of the battle, but they have no further news there. The Russian fleet was not sighted anywhere yesterday. If much damage had been done in Sunday night's engagement some of the ships probably would have returned to Kamranh harbor or Touron Bay. The attacking fleet was probably Kamamura's squadron.

Where Jap Warships Are.

Manila, April 25.—Vice-Admiral Kamamura's squadron is in the China Sea somewhere between this point and the coast of Cochin-China. Several other despatches have been received here for Kamamura. The Japanese Consul has gone down the harbor twice, evidently with the expectation of meeting a torpedo boat destroyer from the Japanese fleet.

It can be said positively that the Japanese battleships are not further up the China Sea than Formosa, and it is doubtful that any big division of cruisers has gone as far as the French Cochin-China coast. If Rojestvensky is sailing on a direct route for Formosa he should arrive at the island on Tuesday.

Mikado Indisposed.

Tokio, April 25.—The annual Cherry Garden Party was held in Hama Park yesterday. The Emperor was slightly indisposed and was not present. The Empress, assisted by the Imperial Princes and Princesses, was the hostess of 1,200 guests, including many foreigners.

Russ Newspapers Tied Up.

St. Petersburg, April 25.—The printers struck yesterday, announcing their intention of refusing to work Sundays and holidays. Only The Russ and Novoe Vremya managed to appear yesterday morning.

POLICE AND WORKMEN CLASH.

Collision in Santiago Resulted in One Killed and Fifty Injured.

New York, April 25.—A Valparaiso despatch to The Herald, dated Sunday, says: One dead and fifty more or less severely wounded, as a result of a collision yesterday in Santiago between a police department and a crowd of workmen. The latter had just attended an open air conference of a Catholic priest, Father Jose Julio, who is called the South American Savonarola, who, while advocating the simple life, denounced "the perversity" of his former bishop and "the adulteration of Christ's doctrine."

When they were met by a religious procession after the conference, considered by the workmen as a grotesque spectacle, the men attempted to stop it, but the police charged a score of times with unsheathed swords, the workmen answering with a rain of stones. The majority of the newspapers blame the police.

NEWFOUNDLAND AND CANADA.

Second Steamship Connection Arranged Between the Two Colonies.

Ottawa, April 25.—The Government has arranged for a second steamship connection between Canada and Newfoundland.

A contract has been entered into with R. G. Leslie, Halifax, to put a steamer on a route which starts at Cardigan Bay, Prince Edward Island, and taking in Pictou and Cape Breton ports, including Sydney, extends to Placentia Bay, Newfoundland. The subsidy consideration is $3,000. The service will be inaugurated with the beginning of navigation.

The only regular steamship connection with Newfoundland at present is that furnished by the vessels of the Newfoundland Railway plying to Sydney.

Navigation Opens.

Port Dalhousie, April 25.—The Welland Canal opened up for traffic at 7 o'clock last night. The first boat to pass up was the steam yacht Cruiser. Seven more boats followed.

Port Arthur, April 25.—Navigation at the head of the lakes will likely be opened to-day, as one of the steamers which has been outside of the ice-field has forced her way through thirteen miles of ice, and is now inside of Welcome Island. The Neepawah will be the first steamer to load grain this season. She broke her way through ice to the elevator dock yesterday afternoon. She was first to load last season.

KIVAS TULLY PASSES AWAY

Eminent Civil Engineer Related in Peterborough.

Has Monuments to His Skill in Canada —Age 86 Years.

Toronto, April 25.—Mr. Kivas Tully, C. E., I. S. O., the eminent civil engineer, died at 2 o'clock yesterday morning at his apartments in the Dominion Bank Chambers at Bloor and Bathurst streets. Deceased, who was 86 years of age, suffered from a complication of diseases.

Kivas Tully was one of the most prominent and best known civil engineers and architects in the Dominion. Many memorials of his skill and genius are to be seen in public buildings of the city, which show an originality in design and strength in execution beyond the commercial spirit of the present day. The custom house, Osgoode Hall, the Normal School, Government House, the Bank of Montreal, the School of Practical Science, and Trinity University are examples of the work of his art, as well as many buildings in outside cities of the Province, among these being St. Catharines' Town Hall, Welland County Court House, Victoria Hall, Cobourg.

Mr. Tully studied for his profession in Ireland, where he was born in 1819, being the second son of Commander John P. Tully, R. N. He superintended the erection of poor houses in Limerick in 1843, and in the following year came to Toronto, where he opened an office. Shortly after Confederation he was appointed architect and engineer for the Department of Public Works for Ontario, and held the position for 30 years. During this period he designed the plans for the asylums in Toronto, Hamilton, London, Brockville and Kingston, and for many other Provincial institutions.

Mr. Tully was a charter member and first secretary of the Canadian Institute, and was first vice-president and long a member of the council of that body. He also served as a public school trustee and as alderman. In 1894 he was appointed a delegate to the deep waterways convention, held in Toronto in 1894. He was harbor engineer of Toronto for the past 20 years. He was one of the first and most persistent advocates of a system for securing a city water supply from Oak Ridges. He was one of the oldest Free Masons in the city, being a member of Ionic Lodge, which conferred on him the honorary degree of past grand master. He was also representative of the Grand Lodge of Ireland in Canada.

He was a member of the Church of England, and married in 1844 Miss Elizabeth Drew, who died in 1847, and in 1852, the daughter of Lieut.-Col. Strickland, of Lakefield, who died in 1883. His surviving children are Miss Sydney Jane Strickland Tully, and Miss Louisa Beresford Tully, both of whom are prominent artists. An oil portrait of deceased by his daughter adorns the walls of the Masonic Lodge, in the Temple Building. His eldest daughter by the first marriage, who died a few years ago, was the wife of Wm. P. Baird, of 3 Harbord street, and his second wife was a sister of Walter R. Strickland, architect of the city. Mr. Tully was honored in 1902 by the conferring on him by the King of the Imperial Service Order for his services to science.

SHALL IT BE PORT HOPE OR TRENTON

Report of Special Surveys Soon to be Announced.

What Will the Recommendation be for Terminus of Trent Canal?

Ottawa, April 25.—A report of the surveys on the route of the Trent Valley Canal, with a recommendation as to whether Port Hope or Trenton shall have the harbor, is expected by the new Minister of Railways at an early date.

Tenders are to be asked for facing 4,650 feet of the Port Colborne pier with cement. It will cost about $30,000.

Hereafter the steamer Arctic will make annual trips to Hudson Bay waters, instead of remaining in the north for periods of two years at a time.

Canadians Get Fair Chance.

London, April 25.—The investigation into the charge that Americans are being employed on the Pere Marquette Railway in Canada, in the stead of Canadians, began here yesterday afternoon before Judge Winchester.

Only one witness was examined, however, and the investigation was then adjourned to St. Thomas, where most of the company's employes reside. Passenger Agent Britton testified that his position here was created for him, that he is a Canadian, and that all the employes in his office are Canadians.

VESTRY MEETINGS REPORT PROGRESS

Annual Business Meeting of the Anglican Churches Held Last Night Shows That the Past Year Has Been a Most Successful One--Finances Are in Good Condition--Membership Increases--New Assistant Rector Engaged--Rector's Salary to be Increased and New Church Building Under Consideration are the Material Evidences of Progress.

In the three Anglican churches last night the annual vestry meetings were held, when the reports for the past year's work were presented, and the regular business transacted. Speaking generally, the reports were all satisfactory, the receipts being larger than those of the previous year, while the membership reports were most encouraging, all the churches showing an increase in the number of communicants.

The appointment of the assistant Rector in St. John's was ratified, and at St. Luke's, the Rector's salary was recommended for an increase. In All Saint's the prospects of a new church building was discussed and it was believed that it would be necessary in the near future.

ST. JOHN'S

St. John's annual Vestry Meeting was held last night with a truly large attendance. The rector, Rev. J. C. Davidson, presided.

The People's Warden, W. Harold Cluxton, presented the Financial Statement for the year ending March 31, 1905, and received the congratulations of the Vestry upon the satisfactory contition of the year's work.

The report showed receipts from all sources, $5,343.85; with an expenditure of $5,225.49; credit balance $318.36.

The chief items of expenditure were:—To Synod for Missions, Widows and Orphans, etc., ...$443 44
New walks, $580; repairs, $100 ... 680 00
Added to Rectory Fund 1,594 85

The Rectory Fund with addition of last Sunday's offertory now stands at $4,150.09.

The rector, Warden Cluxton and other members of Vestry tendered a warm welcome to Rev. Mr. Tandy and congratulated the congregation upon securing such valuable assistance for the work of this Parish, whose importance demanded the services of a competent assistant priest.

Mr. Tandy's salary for this year was fixed at $700.00.

The following were made Church Wardens:—The rector appointed Mr. E. Hardley-Wilmot, while Mr. W. Harold Cluxton was unanimously re-elected by the People.

Auditors.—Mr. A. A. Hollingshead and Mr. H. W. Morphet.

Mr. W. H. Walkey was re-appointed Vestry Clerk.

The appointment of Sidesmen, Ushers and Lay Representatives to the Synod was postponed until the adjourned meeting two weeks hence.

Altogether the meeting was enthusiastic and harmonious and showed the work of the Parish to be in a healthy and satisfactory condition.

ALL SAINT'S.

There was a large attendance at the Annual Vestry Meeting of All Saints' Church last night. The rector, Rev. W. Major, occupied the chair. The meeting was opened by prayer, after which the minutes of the last meeting were read and confirmed.

The reports of the following auxiliary bodies were then received:—Senior Girls' Guild, Men's Guild, Sunday School, Women's Auxiliary and the Junior Auxiliary, all of which were extremely satisfactory.

The Church Warden's report showed a remarkable development during the past year. The income from all sources have been more than double that of last year, being about $3,500. The whole trend of the report shows that a very healthy and satisfactory condition prevails.

Mr. F. E. Bell and Mr. T. H. Hooper, auditors, then received the report.

The following were appointed Lay Delegates to the Synod,—F. E. Bell, D. H. Burritt, and J. H. McClellan.

Mr. John Green was elected to represent the congregation on Nicholls Hospital Board.

Mr. W. Boucher was elected representative on the Charity Board.

The Advisory Board consists of Messrs. Dayman, Maughn, Edgar, Mulholland, Buller, Hooper, McClellan and Brundrette.

Mr. W. A. Brundrette was re-elected Vestry Clerk.

The election of Wardens was postponed until the next meeting, to be held on May 8th.

Rev. Mr. Major gave his report of the work of the Parish, and also read the report of the Sunday School. The latter is in a flourishing condition, and both numerically and financially. The report shows that the congregation has increased materially, and that on Easter Sunday there were the largest number of Communicants in the history of the Church. The plan for the extension of the church was shown and discussed, but as the hour was too late to reach a decision in the matter, it was left till a later meeting, to be held in two weeks.

ST. LUKE'S.

The annual Vestry meeting of St. Luke's church was held last night, in the Sunday school room, and was largely attended, Rev. E. A. Langfeldt, presiding. The reports for the year were presented, and showed that the finances were in a splendid position. The total receipts for the year were $2345.67, and the payments $2207.76. The receipts for the year were $301.05, in excess of those of last year, and the expenses $209.90 more. The Lenten contributions were $367.31; this included the Easter Sunday offering. The average cash collections have increased $1.25 per Sunday, and the envelopes $20 per Sunday, making a total increase of $1.77 per Sunday. During the year it has not been necessary for the rector to make any special appeal for Diocesan missions, the activity of the P. M. C. collectors making such a course unnecessary.

The Men's Guild has contributed $50 to the organ repair fund. An increase in the rector's salary was recommended to the Finance Committee.

Mr. F. Adams was re-elected people's warden, and the rector appointed Mr. G. F. Warde as his warden. The assistant wardens elected were

LATE HON. ROBT. HAMILTON
In Whose Memory the Handsome Prayer Desk Was Presented to St. Luke's Church by Mrs. Hamilton on Sunday.

Messrs. H. Nesbitt and G. P. Pratley. Mr. T. H. Adams was elected Vestry clerk, and the delegates to the Synod, Messrs. G. F. Warde and A. O. Sawyer.

The following resolutions were passed by the meeting:

Moved by Mr. R. B. Rogers, seconded by Mr. T. Q. Quartermaine: "That the Vestry of St. Luke's church tender a hearty vote of thanks to Dr. Geo. Burnham for the beautiful brass tablet placed in their church on Easter Sunday, as a memorial to Rev. and Mrs. Mark Burnham, and that the Vestry clerk be instructed to forward a copy to Dr. Burnham."

Moved by Col. J. Z. Rogers, seconded by Mr. E. A. Peck:

"That the Vestry of St. Luke's church expresses its appreciation of the gift of Mrs. Robert Hamilton to the church consisting of a prayer desk and seat, and that the Vestry clerk be instructed to forward to Mrs. Hamilton, a copy of this resolution."

The meeting adjourned for two weeks, when more complete reports will be presented.

THE S. A. BAND WAS ENJOYED

Made a Hit With Lindsay People on Sunday.

The Salvation Army of Lindsay is certainly progressing, says the Lindsay Post. Sunday was a red-letter day with the local Corps, and the Army officers are greatly pleased with the financial assistance and the large attendances. The Peterborough Army Band was the chief attraction, and it deserves a special mention which lack of space prevents us giving. They are a clever lot of musicians, and their concert in the Barracks Saturday night, as well as their open air selections Sunday, were simply magnificent.

A CENTUARY AND A SCORE

Chemong Lady Reaches That Remarkable Age.

Mr. John Jacobs Gives Examiner Some Interesting Information—Liquor License Act is Unsatisfactory to Indians.

Mr. John Jacobs and Mr. William Johnston, of the Chemong Indian Reservation, passed through town yesterday on their way to South River.

Mr. Jacobs last night gave the Examiner a call, for the purpose of expressing his strong dissatisfaction with one phase of the Ontario Liquor License Act — that in relation to the sale of liquor to Indians.

Mr. Jacobs stated that yesterday he and his companion, feeling somewhat fatigued by their journey to Peterborough, felt the necessity of a slight stimulant, and in an effort to obtain this, visited seven of the local hotels, but were unsuccessful in their quest in every case. What Mr. Jacobs complains of is not the refusal of the liquor, so particularly, as the discourteousness of the treatment which they received in the places visited, and states that in many cases the wine clerks made a point blank refusal to cater to their requirements without even asking the nature of the liquid wished for. This might have been soda water, or even a cigar in some cases. This kind of treatment he considers an injustice to his fellow countrymen, as he claims they are now in a highly civilized state, and that the conditions at present are entirely different from those existing at the time the law was placed upon the statute book. They are a much more intelligent race, he says, than the Chinese, against whom no such discrimination is made. They are at present a sober and industrious people, who would not carry to excess the use of intoxicants were they allowed the use of them. It is not the deprivation of the liquor which causes the Indians to feel that they are unjustly treated but the position of tutelage in which they are placed, which, Mr. Jacobs states, severely wounds and lacerates their personal pride.

Mr. Jacobs states that this year has been a very unsatisfactory and unprofitable one for trappers, fur being very scarce and also much lower in price than last year. Mink and musk-rat were both extremely difficult to secure. He believes that the fishing during the coming season will be good in most sections of the Kawartha Lakes.

Mr. Jacobs also gave the Examiner some interesting facts in connection with his family. His great grand-mother, who is at present resident at Chemong, is now 120 years of age, and though of course showing the effects of senility to some extent, is otherwise quite healthy. She has in all seventy grand-children and great grand-children. Mr. Jacobs states that she remembers distinctly the war of 1812, and the occasion on which stars fell from the sky in showers.

ANNUAL ELECTION OF THE OFFICERS

Annual Meeting of Mark Street League Held Last Night.

The annual meeting for the election of officers in connection with the Epworth League of the Mark street Methodist church, was held on Monday night, when the following were elected for the ensuing year:

Hon. President — Rev. J. G. Lawis.
President — Mrs. M. W. Matchett.
1st Vice-President — Mrs. John Speer.
2nd Vice-President — Miss E. F. Smith.
3rd Vice-President — Mrs. S. Taylor.
4th Vice-President — Mr. M. W. Matchett.
Treasurer — Mr. Wm. Hooper.
Secretary — Mr. Fred Ashton.
Pianist — Miss Pearson; assistant, Miss E. Dartnell.

The pastor presided over this meeting.

AN INTERESTING PUBLICATION

Grafton and Company Issues Attractive Booklet.

"Style" is the title of a neat booklet issued by Messrs. Grafton & Co., manufacturers of high grade clothing, and its object is to set forth the correct ideas for spring and summer clothing for men and boys, which object is fully accomplished.

The publication is illustrated with a number of well-executed drawings which show the different styles of clothing described. The arguments used in the letter-press accompanying the illustrations are sound, and convincing, and should create a most favourable impression as to high grade clothing upon the person into whose hands the book falls.

HOUSES FOR SALE

We can sell you brick houses, in different parts of the town, ranging in price from $950.00 up to $4,000.00.

Good country store with Post Office attached about 3 miles from Peterborough, well situated. Good bargain. Possession at any time.

We have several good farms for sale, which would make desirable homes at different prices.

STABLER, SWITZER & CO.,
Real Estate and Insurance Agents.
Office under town clock, entrance of Market.

Building Lots for Sale at a Bargain

Two Lots on Mansion Avenue immediately east of the residence of Mr. J. M. White.

Also two Lots west end of Erin Property, in front of the St. J. Park.

These Lots will be sold at a bargain, as estate is being wound up. Particulars may be obtained by applying to E. M. Glover, Examiner Office.

REASON No 29

WHY YOU SHOULD USE

Red Rose Tea

Because no premiums, prizes or coupons are ever given with Red Rose Tea, either to the merchant, clerk or consumer.

You don't get a premium with a pound of butter. Why? Because the butter is worth what you pay for it. Just so with Red Rose Tea; the tea itself is worth the full price.

A pound of tea is not worth the price when a premium is thrown in free. A premium costs something. You must pay for it.

If you are doubtful, use a pound of premium tea, then try a pound of Red Rose. You will soon discover why premiums cannot be given with Red Rose Tea, and if you like a rich, flavory, pure tea, you will use Red Rose in future.

BLOOD DISEASE CURED.

If you ever contracted any Blood or Private Disease, you are never safe until the virus or poison has been eradicated from the system. Don't be satisfied with a "patch up" by some family doctor. Our New Method is Guaranteed to Cure or No Pay. No Names Used without Written consent.

Cured When all Else Failed

"Could I live my early life over, this testimonial would not be necessary, though I was no more sinful than thousands of other young men. Early indiscretions, later excesses, exposure to contagious diseases all helped to break down my system. When I commenced to realize my condition I was almost frantic. Doctor after doctor treated me but only gave me relief—not a cure. Hot Springs helped me, but did not cure me. The symptoms always returned. Mercury and Potash drove the poison into my system instead of driving it out. I bless the day your New Method Treatment was recommended to me. I investigated who you were first, and finding you had over 25 years' experience and responsible financially. I gave you my case under a guarantee. You cured me permanently, and in six years there has not been a sore, pain, ulcer or any other symptom of the blood disease."

SUCCESSFUL YEAR IN W. M. SOCIETY

George Street Auxiliary Held Annual Meeting Yesterday

Letter Read from H. L. Platt—Dialogues and Duets—Good Musical Programme—Several Solos.

The annual meeting of the George Street auxiliary of the Women's Missionary Society was held yesterday afternoon. The President, Mrs. Kendry, was in the chair.

Rev. Dr. Crothers gave an interesting as well as instructive address on the results of the present war on Missions by the whole church.

He said the Women's Missionary Society had struck the keynote of success by educating the children in missionary knowledge, and distributing literature in the homes of the people.

The report of the society was read by Mrs. Pentland.

MRS. PENTLAND'S REPORT.

Having been asked to give a short report of our Woman's Missionary Society and what they are doing for the furtherance of our Heavenly Master's work, I thought I could not do better than collect a few items from the General Secretary's report of last year.

The total amount of money received throughout the Dominion for our work was $35,268.90. This did not include $1,572.72 toward the Rest Fund. The Thank Offering last year was $10,579.08. Of this sum the Bay of Quinte Branch contributed $7,670.19 and $127.77 towards the Rest Fund. The Thank Offering from this Branch was $1,324.24 and of the whole amount raised in this Branch $1,058.30 was raised by Mission Circles and Bands.

The nine conference branches report 427 auxiliaries with a membership of 22,137, and 429 Mission Circles, with a membership of 12,219.

During the year the Supply Committee distributed to seventy-five Missions about $10,000.00 worth of goods, which had been contributed by nearly 200 Auxiliaries, Mission Circles, Bands and Leagues.

And yet there is so much to do and so much new work to open up as well as extending the work already begun as will be seen by reading to you the share of this raised in our own District. was $498.88.

This money has been used to spread the Gospel of Jesus Christ in the different fields as follows:—

Japan	$21,226 81
China	12,231 91
Indian Work	8,763 33
Chinese and Japanese Reserve Work in British Columbia	2,437 00
Galician Work	2,736 00

Solos were given by Miss Butcher, Miss Kendry, the "Japanese Lullaby" song by Miss Maud Titterson, and duets by two little girls, Misses Josie Callandar and Ruby Sharpe.

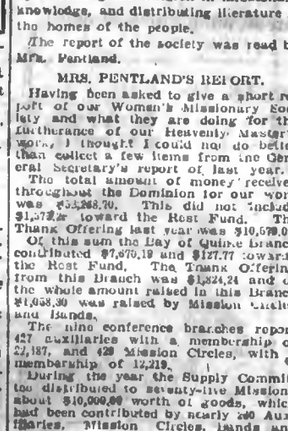
A dialogue "Missionary Babies" was given by six young ladies, Misses Gladys Pentland, Pearl Bath, Weller Blewett, Audrey, Bennet, Grace McLennon and Elsie Kirke.

The following letter was read from H. L. Platt, stating that only $2,225 had been received and $7,000 more was needed to come up to the mark set for the Branch for the year. Special reference was made to China and Japan.

In China.—In spite of old-time prejudice and recent persecution and martyrdom, the people of China are more favourable than ever before to Christian teaching. A Missionary writing from China last year, said: "Christian schools are crowded to their utmost capacity. During the last five years more students have been turned away than have been admitted, because of the lack of buildings and teachers. Ten thousand schools could be opened within a month if we had enough teachers and money to support them. The Church of Christ has the opportunity of educating the next generation of Chinese. If neglected now the opportunity may never occur again, and the evangelization of China will be incomparably harder."

In Japan.—Without entering any new fields, or adding to our present force of workers, a large sum is needed for buildings. A poorly equipped Mission is the poorest kind of an investment. If the home workers would divide the spoil with our brave workers in Japan, some of whom are giving their third term of service, we must be willing to give that which costs us something. This is the time of great opportunity and great need in Japan. Sorrow has come to almost every home, and the nation mourns for thousands slain. Our Missionaries are God's Messengers of hope and comfort to the wounded and dying soldiers, and to bereaved mothers and children. It is impossible to exaggerate the importance of the work in Japan.

D. PITCHER'S BACKACHE KIDNEY TABLETS



WOMEN'S AILMENTS.

Eighty per cent. of the ills of womankind are due to Kidney derangement. Backache, pain in the side, headache, depression, pimples and eruptions, swelling of the feet, foul taste in the mouth, all come from disordered kidneys allowing poisons which should be carried off to remain in the system.

Dr. Pitcher's Backache-Kidney Tablets positively cure all kidney trouble, and free women from aches and ailments.

Mrs. Richard Meyrs, Preston, Ont., says: "I had a severe pain in my back that gave me no release in the day time and disturbed me nights. Dr. Pitcher's Backache Kidney Tablets cured me of the pain, and I have no longer that depressing weakness in the morning as formerly."

Dr. Pitcher's B.-K. Tablets are put a bottle, at druggists or by mail. The Dr. Elmo Pitcher Co., Toronto, Ont.

T. A. S. SOCIAL WAS GREAT SUCCESS

Hall Was Taxed to Utmost Capacity—Progressive Euchre Enjoyed.

The social given last night by St. Peter's T. A. S. was a most successful and enjoyable function, indeed, and the attendance was of such proportions as to tax the capacity of the hall to its utmost limit.

The affair took the form of a progressive euchre party, which proved thoroughly enjoyable and interesting to all present. This was followed by the serving of delightful refreshments from an improvised buffet, and this feature, needless to say, formed by no means an unimportant part of the evening's pleasure.

This was followed by the presentation of prizes by Miss O'Connell, President of the Ladies' Literary Association of the T. A. S.

Both prizes were very handsome, the Lady's being a gold locket, which was won by Mrs. Ed. Conroy, The Gentleman's, a beautiful pair of gold cuff links, was won by Mr. David Conroy.

This brought to a close an evening's pleasure, which was heartily enjoyed by all.

MILLERS WANT FIXED ASSESSMENT

Deputation Representing Central Milling Co. Waits on Manufacturer's Committee.

Want Assessment Fixed at $10,000—Other Matter Under Consideration.

The question of assessment was that which engaged the attention of the Manufacturers' Committee last night, at the meeting held in the town clerk's office, when a deputation representing the Central Milling Company, waited upon the committee to ask that they be given a fixed assessment for $10,000 on their building on George street. The deputation consisted of Messrs. Mulhern, Stothart, Matchett, Carter and Jas. Murty, and Mr. Mulhern, the managing director of the company, was the spokesman of the deputation. He pointed out that at the time the company started operations here, there was no other flour mill in the town, but since that time another mill had started, and it, (Mr. W. H. Meldrum's) had been given a fixed assessment at $10,000, and on this basis he asked that the company represented by him be given the same assessment. Mr. Mulhern stated that the present assessment of his company was $14,200, and if it were fixed at $10,000, they would be satisfied.

It was pointed out by the members of the committee that the new assessment act, which would be in operation this year, would relieve the company from a considerable amount of its assessment, since the machinery would be exempt, and it was the belief that in all probability the reduction would bring the assessment down to the amount at which the deputation asked it to be fixed. In case, however, that it did not, the committee would then be willing to consider the matter. It was left standing at this in the meantime, and the deputation departed satisfied.

Those present at the meeting were Ald. Hicks, chairman; Mayor Best, Ald. Tovey, Adams and Begley.

The only other business transacted was a motion made by Ald. Adams, instructing the solicitor to prepare agreements with the Otonabee Power Co., and the Auburn Power Co., for the transmission of power on the streets in accordance with the terms of the by-law recently passed by the council.

PETERBOROUGH MAN'S PROMOTION

Mr. R. E. Williamson of Great West Life Assurance Co., Receives Merited Advance.

Mr. R. G. Williamson has been appointed Inspector of Agencies for Eastern Ontario for the Great West Life Assurance Company, which company he has represented as District Inspector for some years.

Mr. Williamson's many friends will be pleased to hear of his advancement in the Company's service.

Mr. S. H. Mitchell, who has acted as City Agent will have charge of the County of Peterborough under Mr. Williamson, whose territory will now reach from Toronto to Quebec.

Sentenced to Five Years.

Berlin, April 22.—Five years in Kingston Penitentiary was the sentence passed upon William Breslin by Deputy Judge Clement. Breslin pleaded guilty to charges of assault, doing grievous bodily harm and attempting to shoot with intent to maim Gertie Jones in Preston a week ago Saturday.

AN ACCIDENT AT LITTLE LAKE

Mr. Christopher Fagan Sustains Serious Injuries.

Hit on Head by Windlass While Jacking Logs—Ten Stitches Required.

An accident occurred yesterday afternoon on Little Lake, by which Mr. Christopher Fagan, of No. 80, Monaghan Road, was very badly injured. Mr. Fagan, with a number of other men, was working on the lake jacking logs to the saw mill of the Dickson Company, for which concern he is employed. They were working one a scow operated by a windlass, and in some way the cogs which held it slipped, sending the handle around at a rapid rate, and striking Mr. Fagan on the head, inflicting two severe scalp wounds.

The shock was so great that Mr. Fagan was rendered insensible, and was in this condition until he was taken to St. Joseph's Hospital, where Dr. Eastwood dressed his wounds, ten stitches being necessary.

He was afterwards taken to his home on the Monaghan Road, where he is now.

His injuries, which are serious, are not expected, however, to prove fatal, unless some unforeseen condition arises.

FORMER COUNCILLOR'S FATHER IS DEAD

Mr. W. T. Curtis of Havelock Sustains Severe Loss.

From the results of an operation for abscess on the brain, Mr. Samuel Curtis, father of Mr. W. T. Curtis, ex-county councillor, died at Toronto on Tuesday night. The funeral took place from Mr. Curtis' resident, Havelock, at an early hour on Friday morning and proceeded to the Centenary church, Alnwick, where service was held at 2.30 p.m. The interment took place at the Cenetenary cemetery. A short family service was held at Mr. Curtis' residence, Havelock, at eight o'clock on Thursday night. Mr. Curtis will have the sympathy of all citizens in the loss of his father.

OZONE SOLUTION

SPECIAL OFFER!

There is just one way by which you can get a package of "Celery King" free with a bottle of "Ozone." That is ask your druggist for "Solution of Ozone, the coupon kind." Each bottle of this contains a coupon for which we send you a full twenty-five cent package of "Celery King." Never take "Ozone" without "Celery King" if you want the best results. We are putting coupons in our "Ozone" good for "Celery King" because no other dealer or firm in the world has the right to manufacture "Celery King" but ourselves and no other remedy in the world will give such good results. "Ozone" kills the inside germs and "Celery King" is a tonic laxative.

Ask your druggist for "Solution of Ozone, the coupon kind," manufactured by the Pubiic Drug Co., Bridgeburg, Ont., sold by W. B. Warne.

SEE THAT SIGN?

IT swings from over our shop now! It means more comfort for you, better shoes, surer value, safer buying.

It is the symbol of the "Slater Shoe," and a duplicate of the trade-mark on the lining of each pair where the Makers' price is also branded.

"The Slater Shoe," is the only Canadian shoe made in a factory which makes no other grade, price, nor kind.

It is the result of specialism, of making but one thing at its very best, and at its lowest possible cost, quality considered.

This means selecting leathers, months ahead, so as to be sure of uniformly good grade.

It means hiring, and keeping, the best shoe workmen in the market, because, only a very good workman is quick enough on such critical work to get profitable results for us out of using our costly machinery.

It means charging against the salary of each workman any pair of shoes he makes which is not up to Inspectors' standard, so as to maintain uniform quality.

Then, the Makers' own price being stamped, with his trade-mark, on the lining of each shoe puts responsibility for the hidden wear, and comfort, directly upon the shoulders of the manufacturer.

When a genuine "Slater Shoe" goes wrong, you know that the Makers stand ready to make it good, up to the price they themselves valued it at.

Isn't this shoe-insurance of a tangible kind?

There isn't a shoe on this market with so much style combined with so much wear, comfort and fit, as the "Slater Shoe," which is stamped on the lining with the Makers' price, viz. $3.50 or $5.00. We want you to come in and see our new stock of "The Slater Shoe," and let us prove this statement.

THE MANITOBA SCHOOLS.

The Manitoba Free Press, containing the editorial article which is said to have stirred up Premier Roblin to a threat to do away with the very semblance of Separate schools in the Prairie province has come to hand. This article after pointing out that Mr. Roblin could throw a flood of light if he chose upon the "national school" system which exists in that province says:—

The plain truth is that without the name of "separate schools," Manitoba has to-day in full operation what is virtually to all intents and purposes a separate school system. The Roblin Government has found it advisable and expedient, under cover of retaining the form of national schools, to yield the substance. One of the public school inspectors of the province, Mr. Roger Goulet, appointed by the Roblin Government, has as his special duty the inspection of what are known as French bi-lingual schools, but which is a matter of fact are Roman Catholic public schools. This is true of all the schools in the province known as French bi-lingual schools—they are all practically Roman Catholic public schools.

The first year Mr. Goulet was appointed his report showed that he went through portions of the province outside his own normal territory to inspect. It is headed "Special Inspection," and states:—

"I received instructions to inspect the French-English schools in other inspectorates."

And it concludes thus:—

"With regard to French-English schools in the territory of other inspectors, I beg to remark that in the majority of cases the trustees are applying to the French inspector for settlement of disputes, employment of teachers, and all information connected with their schools."

The mistake of giving this information was not repeated. In no subsequent year has any reference been made by Inspector Goulet to visits of inspection made by him outside the south-eastern district, though it is a fact that such visits have been regularly made.

Each year Inspector Goulet's report has a paragraph like the following from his report of 1901:—

"Religious Instruction—I am glad to report in all the schools of my division full advantage is taken of the time allotted for religious teaching and religious exercises."

Persons belonging to Catholic religious orders teach in Manitoba schools, wearing the garb of their orders. These schools receive a Government grant. The sisters from the Old Country receive "permits," which are apparently renewed by the Provincial authorities from year to year. They are well qualified, it is believed, but they have no Provincial educational standing, and merely teach by grace of the Educational department, without having to pass any examinations in Manitoba. The Sisters of St. Mary all go through the French Normal School at St. Boniface. The Grey Nuns of St. Anne do not attend professional or unprofessional examinations, and have no provincial educational standing, but teach, and their schools get Government grants. The Brothers who teach all go through the Normal School at St. Boniface.

It is thus evident that here in Manitoba where we are supposed to have a system of national schools, which Mr. Willison and the other dancing dervishes in Toronto proclaim to be a perfect paragon of a system, the minority have as a matter of actual fact much greater educational privileges than their co-religionists in the Territories will have under the autonomy legislation which is arousing the Toronto denouncers of that legislation to such accesses of fanatical rage. The contrast is a striking one. The minority in Manitoba have their own schools, which in fact, though not in form, are practically pretty nearly on the same basis as the Roman Catholic separate schools in Ontario.

Whereas, in the Territories the entire school system is absolutely free from clerical control, the qualification of teachers, the course of studies and the inspection of the schools are absolutely the same for all the schools. Religious instruction, either Roman Catholic or Protestant, at the option of the trustees, may be given in any school after half past three o'clock, but no religious instruction may be given at any other period of the day. Children attending, not of the faith in which instruction is given, are excused from attendance during the half hour. The schools which conform to the standards laid down by the Territorial Board of Education and approved by the inspectors, receive proportionate shares of the Government aid to schools. There is one system of normal training, and one only, which all teachers must take or be qualified in. There is only one system of inspection, no difference being made between Roman Catholic or Protestant, public or minority schools. This is the educational system which will be continued in the new provinces under the legislation establishing autonomy.

It is not surprising, the Brantford Expositor suggests, that with such a record to answer for, that Mr. Roblin has stopped for a moment in his fulminations against the autonomy bill to make promise of setting his own house in order. The worst that can be said of the schools which this bill authorizes is that the existence of a religious minority is permitted to the extent of half an hour of religious instruction daily. In all other respects they are public schools, and one great advantage of the autonomy bill is that it makes certain that Separate schools of the Manitoba type will not get root there.

EDITORIAL NOTES.

Hamilton is well named the "Ambitious City," when we remember how success has crowned the ambition of one of its young citizens, Mr. Alfred H. Robinson, who has won distinct successes at Paris, that great art centre of France and the world. By his good artistic work he has won a perpetual scholarship of $200 a year at the Beaux Arts School. It is only by unusual merit that admission is gained to this Government art school. They tell us that Canada is behind other countries in art and literary development. But wait. We are young yet; with increasing wealth and the leisure it brings, our native talent will reach development.

YOUNG ESSAYIST WRITES ON JAPAN

Fred Butler Compares Japan of 1870 With Condition To-day.

There is a clever little lad of 12 summers in the first form of the Collegiate Institute, by name Fred Butler, and Fred has been doing some reading lately. He is interested in the Japan-Russian war, and consequently after he had read a book recently dealing with the island empire he wrote a short essay on "Japan in 1870," which he has submitted to the Examiner, and it is published below. The writer lives with his uncle, Mr. John Moloney, on Brock street.

The essay follows:

"In 1870 Japanese society was vastly different from what it is now. There were many classes of people, one of which wore one sword, some two swords, and the lower classes did not carry weapons. They had no legislature, but they had good laws, which were inscribed on tablets at every cross road and market place. The Japanese of 1870 were a very religious people. Shintoism, which was very much like ancient mythology, taught them to regard the Mikado as directly descended from the gods and hence his person was regarded as sacred.

"Among the lower classes neither sex maintained decency in dress, and they used the public bathing houses indiscriminately. They had marriage, but without the rights and responsibilities of that relation.

"Although western science and literature had borrowed little or nothing from them, the Japanese of 1870 were a reading and writing people. In the cities there were many bookstores, and the shop-windows of Boston, Philadelphia or New York, did not display a greater number of books, maps, charts and pictures, than the stalls of Tokio, Osaka, or Kioto. In 1870 Japan was a practically defenceless country, but now it is one of the world's first-rate powers. It has responsible government, an excellent system of education, good railways, a large foreign trade, a powerful army and navy, and is by far the most enlightened of Asiatic countries."

"Fred Butler."

A PETERBOROUGH LADY WONDERFULLY CURED

The Rosoco Medicine Company:

Sirs,—My wife was in bed for about two months suffering severely with rheumatism. After trying doctor's medicines and all other remedies we could get, our druggist recommended Dr. Rosoco's Rheumatic Remedy and after taking less than one bottle she was perfectly cured. It is the best on the market and we cannot praise it too highly.

CHARLES W. BOYLER.

Peterborough, April 11th, 1905.

Your druggist has it—take no other. See Mr. Boyler. We will have a roll of testimonials like this in Peterborough. The Rosoco Medicine Company. 3d94

Colorado, California, Portland and Yellowstone Park.

Y.W.C.A. FORMAL OPENING

Tuesday, April 25th at 8 p. m. Hon. J. R. Stratton will preside, and the following will take part in the programme:—Misses Roger, Davies, Gumpricht, Keadry and Moore, also Messrs. Morphett, Markle, Jolliffe, under the leadership of Mr. Griffin Jones. The Y.M.C.A. Orchestra will be in attendance. Refreshments will be served and the guests will be shown through the entire building. Admission 25c.

TO ADVERTISE PETERBOROUGH

Large Number of Views Sent to Birmingham, England.

Will Be Used to Illustrate Lectures on Canada—To Give the Town Publicity

Peterborough will be advertised in Birmingham, England, and the result of this advertisement should be felt, if not in this town, it should be noticed in the increased emigration from that city to Canada, induced by the publication there of the charms of the town of Peterborough.

Some little time ago, the Canadian agent at Birmingham, which is one of the greatest cities in the old country for workingmen, wrote to the president of the Board of Trade, asking him to send some photos of the town, showing its industries, public buildings, etc., for use in preparing lantern slides, to be shown in illustrated lectures which the agent is giving throughout the country upon Canada.

The matter was referred by the Board of Trade to the town council, and the chairman of the Manufacturers' Committee and the town clerk procured from Mr. R. M. Roy about 35 views of the town, including those of its leading industrial establishments, parks, etc., and other interesting features of the town, including the Lift Lock, which have been sent to the gentleman asking for them.

It is felt that these views will do credit to the town, and should create a good impression in England for this town, and its possibilities for immigrants.

CENTRAL CHARITY BOARD MEETING

Accounts Presented and Ordered Paid —Other Business.

Last night the Central Charity Board met in the Town Clerk's office. There were present, Messrs. H. Rush, chairman, W. Aldridge, Jr., Wm. Yelland J. D. Collins, Jos. Batten, F. W. Miller, and R. C. Braund.

The following statement of orders given were read, the first column of figures giving the amounts since last meeting and the second for the year:—

Groceries	$53 00	$275 00
Wood	14 70	258 90
Tickets	— —	9 50
Sundries	29 95	100 95

The following accounts were presented:—

N. Routley	$8 00
A. Allison	3 00
Mrs. Wainwright	4 00
H. Edmison	1 75
H. P. Kennedy	8 70
R. C. Braund	3 00
E. Brown & Co.	6 00
Jas. E. Henderson	4 00
H. H. Edmison	2 00
R. Gibbs	1 25
W. H. Hamilton	8 00
T. B. Manlece	4 00
Jas. R. Bell	10 00

These accounts were ordered to be paid, except H. H. Edmison's which was not certified.

The Board adjourned to meet on Monday, May 29th.

HAPPY RESULTS OBTAINED

By the Use of the New Scalp Antiseptic.

It wouldn't take long to number the hairs in the head of some people, the reason being that they haven't many to number. In most instances, however, the fault is their own. A germ at the root soon plays havoc with the most luxurious growth, and causes it to fade and fall out. A remedy for this has recently been discovered, called Newbro's Herpicide, that acts by destroying the germ that does the damage besides removing all impurities from the scalp. In addition it permits new life and vigour to enter the scalp, and happy results are sure to be obtained from its use. Try it. Sold by leading druggists. Send 10 cents in stamps for sample to The Herpicide Co., Detroit, Mich. Ormond & Walsh, special agents.

APRIL 25TH

Miss Ethel Powell, soprano soloist, Gwen A. Smiley, humorist, St. Andrew's Lecture Hall. Admission 25c. Proceeds for Sick Children's Hospital

For Easter.

We will have a fine stock of strawberries, pineapples, tomatoes, rhubarb, wax beans, cucumbers, spinach, cabbage-lettuce, Florida celery. Also extra quality large California seedless oranges. S. A. OKE, 370 George street. Telephone 18.

BOYS' SWEATERS

We are pleased to announce the arrival of a large and well assorted stock of Boys' Sweaters which so many mothers have been asking for.

These Sweaters are made in Germany of fine, soft imported Wool. They come in all the good serviceable and pleasing shades and patterns, and in sizes to fit Boys from 3 to 12 years of age.

The prices are very moderate.

MEN'S SWEATERS also, in various grades, colours and sizes.

THE MAIL MATTER HAS DOUBLED

Quantity Passing Through This Office Has Doubled in the Last Four Years--An Indication of the Great Growth Peterborough is Making--Improvements Soon to be Inaugurated Will Greatly Convenience the Public--Peterborough's Progress.

The fact that Peterborough is growing rapidly is nowhere more clearly evidenced than in the volume of business handled at the local post office.

The Examiner is informed by a member of the post office staff that there is fully double the quantity of mail matter handled at the office here that there was four years ago when he became attached to the staff. Since that time, the business has been steadily, but rapidly growing, and to-day the mail matter passing through this office is greater than many places of a larger size.

The increase is noted both in the outgoing and incoming mail, and a noticeable feature is the great quantity of advertising matter, which during the last few years has been sent and received through the mails.

The local merchants are using the mails extensively for this purpose.

The improvements and enlargements contemplated by the department, and for which the contract has been let, will make it possible to handle the mail with greater facility, and will be a great convenience to the public, though it will give little or no extra room in the office behind the boxes.

At the present rate of increase it will only be a matter of a short time until a new building will be a necessity.

Perhaps nothing more pointedly evidences the progress Peterborough is making than the mail passing through the office.

ASSIZES OPENED THIS AFTERNOON

Hon. Mr. Justice Anglin Will Preside.

Grand Jury Impannelled—Many Representatives of the Bar in Attendance

The assizes opened at one o'clock this afternoon at the Court House. Hon. Mr. Justice Anglin presided.

The bar was represented by the following gentlemen: Messrs. G. H. DuVernet, K.C., G. H. Watson, K. C., Toronto; D. H. Preston, K. C., Crown Prosecutor, Napanee, O. A. Langley, Lakefield; H. O'Leary, K.C., Lindsay, R. M. Dennistoun, D. O'Connell, R. F. McWilliams, F. D. Kerr, W. S. Davidson, L. M. Hayes, J. Green, R. E. Wood, and E. B. Edwards, K.C., Peterborough.

The grand jury was empannelled as follows:

Messrs. J. L. Squire, merchant, Norwood, foreman; Frank Smith, blacksmith, Peterborough; George Sloan, carpenter, Peterborough; W. Dixon Best, pattern maker, Peterborough; Wm. H. Comstock, farmer, Asphodel; Joseph Maher, clerk, borough; John McGrath, sawyer, Harvey; William J. Northey, farmer, Smith; Wm. O'Keenan, farmer, Asphodel; Samuel Spence, merchant, Lakefield; Andrew S. Shearer, storekeeper, Harvey; Geo. A. Savigny, carpenter, Peterborough; Thos. Shearer, farmer, Otonabee.

His Lordship in his address to the Grand Jury expressed his congratulations upon the many evidences of prosperity which were so manifest in town, everything indicating that it is a progressive, well-to-do community.

On looking over the criminal calendar he found two persons in gaol awaiting trial, neither of whom, however, were held on a serious charge.

The first one was a case of obtaining money under false pretences by P. H. McGuire. The nature of the crime known as "false pretences" was explained to the jury.

The other person indicated is a foreigner, one Gallinardo, who is charged with striking with a knife, with intent to wound, with an alternative count, in which is a charge of assault.

Other duties devolving upon the jury, inquiring and reporting with reference to the condition of public institutions, etc., were also explained.

The first case, that of Dobie vs. the Peterborough Canoe Co., an action for damages, was then proceeded with.

Rev. Dr. Parry's Lecture "Religion is Business and Business is Religion", is pronounced, by those who have heard it, a rare treat Do not miss it. Good musical programme in connection—Thursday evening, April 27th, Murray Street Baptist Church. Admission 25c.

Annual Meeting of W. F. M. S.

The 29th annual meeting of the Women's Foreign Missionary Society of the Presbyterian church in Canada, Western Division, will be held in St. Paul's church, Peterborough, on Tuesday, Wednesday and Thursday, May 2nd, 3rd and 4th.

A public meeting will be held on Wednesday evening, when Rev. Sidney L. Gulick, of Japan, will speak on the subject, "Japan's New Attitude Towards Christianity."

About three hundred delegates will be present. Any friends who could entertain one or two of these delegates may hand their names to Miss Alice Hall, secretary of the W. F. M. S., or to Miss Martha Dickson, secretary of the Billeting Committee, at as early a date as possible. 2t

FELL INTO POT OF BOILING LIQUID

Wm. Puncheard Severely Scalded at C.G.E. Works To-day.

Right Leg and Both Arms Scalded by Falling Into Hot Compound.

An accident occurred this morning about 11.40 at the Canadian General Electric Works by which William Puncheard, who lives at the corner of Rubidge and Dalhousie streets was severely scalded.

Mr. Puncheard, who is employed in No. 2 building, was working around a pot of boiling compound, used in the works for insulating preparations and in which there is a quantity of tar.

He slipped into the pot of boiling liquid, his right leg being immersed, and in trying to extricate himself he scalded very badly both arms.

The ambulance was called, and the injured man was taken to his home where Dr. Young attended to his injuries.

We are here again

A VERY PRETTY EASTER WEDDING

Miss Laura Edith Smith Married to Mr. Chas. Dixon.

A very quiet wedding took place this afternoon at 3 o'clock, at the residence of Mr. Arthur Smith, Dublin street, when his eldest daughter, Laura Edith, was united in marriage to Mr. Charles Dixon, of Toronto.

The ceremony was performed by the Rev. J. C. Davidson, in the presence of a few of the intimate friends of both parties.

The bride, who was attired in navy blue silk and carried a prayer book, was assisted by her sister Minnie, who wore brown cord-de-chene.

Mr. G. Gunn, of Toronto, supported the groom. After the ceremony a wedding dejeuner was served.

Mr. and Mrs. Dixon left on the 5.10 train for Toronto, where they will reside.

Among the presents received was a beautiful clock from Parker's Dye Works staff.

THE SOCIAL WORLD.

Interesting Personal Items Gathered by Reporters.

Mr. C. H. Cille spent Sunday in Toronto.

Mr. R. B. Rogers left for Ottawa last night.

Mr. R. R. Hall, M.P., went to Ottawa last night.

Dr. Frank C. Neal is the latest addition to the medical guild of the town. Dr. Neal who is a graduate of Toronto University, member of the Royal College of Surgeons, England and licentiate of the Royal College of Physicians, London, has opened an office for the practice of his profession in connection with his residence, 298 King street. Dr. Neal is a native of Huron county and has just returned from Europe, where he passed his post graduate studies and took his degrees. The interested reader is referred to his professional card in another column.

Sealed tenders addressed to the undersigned and endorsed, "Tender for Additions and Alterations, Drill Hall, Toronto, Ont.," will be received at this office until Friday, April 28th, 1905, inclusively, for the execution of sundry works of addition and alteration at the Drill Hall, Toronto, Ont., according to plans and specifications to be seen at the offices of Mr. S. G. Curry, Architect, Toronto, Ont., and at the Department of Public Works, Ottawa.

Tenders will not be considered unless made on the printed forms supplied, and signed with the actual signatures of tenderers.

An accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p. c.) of the amount of the tender, must accompany each tender. This cheque will be forfeited if the party tendering decline the contract or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED. GELINAS,
Secretary.

Department of Public Works,
Ottawa, April 10, 1905.

Newspapers inserting this advertisement without authority from the Department, will not be paid for it.

THE absolute purity of the ROYAL BAKING POWDER makes it pre-eminently the most useful and wholesome leavening agent known. It contains no lime, alum, phosphate or ammonia, leaves no acid or alkaline residuum in the food, and its use always insures pure, light and sweet bread, biscuit and cake which are perfectly digestible and wholesome, whether hot or cold, fresh or stale.

Royal Baking Powder has been analyzed by the Chief Health Officers of Great Britain, Canada and the United States who recommend it for its wholesome and economic qualities.

GAMES CONTEST CLOSING BANQUET

Y.M.C.A. Boys Spend an Enjoyable Evening.

Peter Wallace's Victorious Team Banquetted.

The closing exhibition of the Y. M.C.A. physical department takes place this evening at 8 o'clock. A very fine programme has been arranged. Those of you who have boys will be much interested in seeing them taking their part in the exhibition. This is an event that is very interesting and is always looked forward to with pleasure. The programme will be as follows:

Selection, Y. M. C. A. orchestra.
Piano duet, Miss Campbell, Miss Jolliffe.
Maxe Run, All of the boys.
Mass Calisthenic Drill, All of the boys.
Piano, Drum, Mr. McCoy and Mr. Beech.
Military marching, Junior school boys.
Selection, Y. M. C. A. Orchestra.
Mass Apparatus Work, All boys.
Special high bar work, Senior school boys.
Fat Wrestlers, Leader Corps.
Selection, Orchestra.
Three Legged Race, Senior school boys.
Vocal Solo, Miss Bellegham.
Special parallel bar work, Senior leaders.
Pyramid tumbling, Senior school boys' corps.
Selection, Orchestra.
God Save the King.

BROWNIES MAKE A GOOD RECORD

Won Two Out of Three Games in Montreal.

A Delightful Trip to the Eastern Metropolis.

The Brownie basketball team returned this morning after a most successful and pleasant trip to Montreal. They left here on Thursday night, and while away played three games, winning two and losing one.

The members of the team who took the trip were Messrs. Norman and Gordon Miller, forwards; W. Fitzpatrick, centre; W. Hodgson and W. Richardson defence. Mr. W. Campbell accompanied the team.

On Friday they played the Westmount team representing the Amateur Athletic Association and it was in this game that they met their first defeat, he score being 23-21, against them.

On Saturday afternoon they played the Central Association team winning by 34-18 and last night defeated the Railway Association team by 36-8.

The team is greatly pleased with their trip and the Montreal team were delighted with the way the boys played. It was the opinion that they had never had a team which gave them such good exhibition game as did the Brownies. They left last night and arrived home this morning.

THE PETERBOROUGH TENNIS CLUB

Annual Meeting and Election of Officers.

The annual meeting of the Peterborough Tennis Club was held in the Y.M.C.A. parlours on Saturday the 22nd instant. A large number of members were present. The outlook for the coming season is particularly bright. The club is again fortunate in being able to occupy the Ashburnham Courts. The appreciation of the meeting was expressed to Mr. Clurton who resigned his position of secretary-treasurer after six years service. The election of officers resulted as follows:—

Patroness—Mrs. John Burnham.
President—Mr. J. D. Kerr.
Secretary-Treasurer — Mr. J. D. Bradburn.

Committee.—Mrs. Rogers, Miss Pearl Lundy, Miss Oliver Bradburn, Miss Mendry, Miss Moore, Mr. Clurton, Mr. Smallpiece, Mr. J. Burnham.

FOOTBALL.

The Quakers will hold a meeting tonight at the Driving Park. All members are requested to be out early and a good practice is anticipated.

• • • •

BASEBALL.

[illegible]'s Guild Baseball team will practice to-morrow evening at 6.30 at Morrow's field.

LAWN TENNIS.

The Hiawatha Tennis Club will meet on Saturday night to arrange plans for the season.

BASEBALL.

The Arrows won their first game last night, by default from the Young Frontenacs. The game was to start at half past six, and at that time all the Arrows were ready but only one Frontenac had put in an appearance. The Arrows were as follows:—

Catcher, W. Conroy; pitcher, H. Desautel; 1st base, E. Legrandeur, 2nd base, J. Goodin; short stop, W. Kenneally; 3rd base, B. Heenon; right field, J. Neary; left field, J. McDonald; centre field, F. Neary.

• • • •

The City Baseball League will meet to-night at the T. A. S. rooms at eight o'clock, when a schedule will be drawn up.

FIELD HOCKEY.

There will be a field hockey practice to-morrow night at 6.30 at the Exhibition Grounds.

CRICKET.

The Colts opened the season yesterday with a game in Millbrook and were defeated by seven runs. Lack of practice, and loose fielding in the second innings, were the chief causes of the Colts' downfall, but the bowling was also lamentably weak and was hard hit throughout. The Colts did well in their opening innings and compiled 82, Main's 29 being the largest contribution.

• • • •

A meeting has been called for Wednesday evening at 8 o'clock in the Y.M.C.A. of all those interested in baseball in connection with St. Paul's Young Men's Guild.

Adv.

JIMMY GARDNER DEAD.

Former Manager of Toronto Club Dies of Brain Fever.

Pittsburg, April 25.—James Gardner, the former National League baseball pitcher, and more recently manager of the Toronto Club in the Eastern League, died here last night from brain fever. Gardner came to Toronto from Chicago in 1902 and to his pitching was due chiefly the landing of the championship. He was appointed to succeed Ed. Barrows as manager in 1903, but proved unsuccessful, Arthur Irwin relieving him towards the end of the season. He had retired from the diamond and was engaged in a sporting goods house in Pittsburg when taken ill with brain fever.

RECEPTION TO HON. MR. HYMAN

London Liberals Hold Reception For Popular Member.

ABOUT 800 PEOPLE GATHER

Greet and Congratulate the Minister at the Liberal Club Rooms—A Pleasant Informal Social Events at Which No Speeches Were Made—Some of Those Who Were Present.

London, Ont., April 25.—Hon. C. S. Hyman, who has been spending the last two or three days at his home in this city, had every reason to feel gratified with the genial and hearty reception tendered him last night by his constituents and other friends. The commodious and comfortable quarters of the London Liberal Club on Queen's and Park avenues were brilliantly illuminated inside and out with electric lights of various hues, the entrance and interior of the building being tastefully decorated with pennants and banners bearing the word "Welcome" on each. Every room in the building, the halls, verandah, and even the lawn, were filled with visitors anxious to greet the popular member for London.

Too Many to Register.

An attempt was made to register the names of the hundreds who called during the evening, but in the crush of coming and going many guests were missed. Among the signatures were those of Senator Thomas Coffey, Geo. C. Gibbons, K. C., ex-Ald. J. W. Jones, Mayor Col. T. Campbell, George M. Reid, J. M. McEvoy, K. C., R. G. Fisher, Dr. Balfour, ex-Mayor Rumball, John Purdom, Harry Ranahan, E. Jeffrey, Arthur Beals, Fred. J. Lind, ex-Ald. Wm. Heaman, James Clevely, John Mislop, and between seven and eight hundred others. Of course there was not room for all the crowd, and there was a steady stream coming and going during the evening.

Leath to Part.

The affair was decidedly informal, no speeches whatever being made, but Mr. Hyman was the centre of eager groups, with whom he conversed, and who congratulated him on his success as a member of the Cabinet, and assured him of their loyal support. During the evening light refreshments were served, instrumental music was furnished by the harpers, and songs liberally and effectively rendered by Mr. Dwight Edwards. Mr. George Robinson, Mr. Oliver Gelinas and Mr. W. Coleman, with Mr. George Phelps as accompanist. The guests, too, enjoyed themselves by singing "The Bonnie, Bonnie Banks o' Loch Lomand." The genial gathering, which was loath to separate, was a pronounced success.

Hon. Dr. Reaume Honored.

Windsor, April 25.—A complimentary banquet was tendered Hon. J. O. Reaume, Minister of Public Works, by the Board of Trade in the Crawford House banqueting hall. There were 100 guests present from all parts of the riding. A handsome silver set was presented to the guest of the evening. Prominent among those in attendance were Hon. R. F. Sutherland, Speaker of the House of Commons; Hon. Adam Beck, A. H. Clarke, M. P., Mayor E. S. Wigle, Louis Wigle, ex-M. P., Robert, Henry, ex-M. P., and representatives of all professions in the city.

Premier Gouin's Idea.

Montreal, April 25.—Hon. Lomer Gouin was banquetted here last evening by the Quebec Liberals. In the course of his speech he said:

"It was the Prussian schoolmaster who defeated the French in 1871, and the education of the Japanese is routing the Russians to-day, hence the stern necessity of education to the people of Quebec. It must be education first, last and always."

RODNEY MURDER CASE.

Detective at Wits' End—Cannot Make Case Against Mrs. Covell.

London, April 25.—The grave suspicions which have been gathering against Mrs. Covell as the perpetrator of the murder of Eliza Lowry, because of the discrepancies in her stories of the murder, came to a head yesterday. Detective Rogers confronted her with her errors, but after two hours' examination, failed to make any case against the old woman. The search has ended at a stone wall, and unless new clues are found, the murderer will never be brought to book.

The flaws which have come up in Mrs. Covell's story are many and serious, but it cannot be proven that they are more than the mistakes of an intellect seriously deranged by the experiences of the night of the murder.

WHEN YOU GET BILIOUS

YOU MAY BE CERTAIN THE LIVER IS DERANGED AND THAT THERE IS CURE IN

DR. CHASE'S KIDNEY-LIVER PILLS

"Bilious" is the word used by many people to describe the condition of ill-health into which they are thrown by derangement of the liver.

Biliousness is caused by the failure of the liver to filter the bile and other poisonous impurities from the blood. The result is a clogging and poisoning of the whole system.

Indigestion, headache, haggard, melancholy feelings, irritability of temper, constipation, alternating with looseness of the bowels, pains in the muscles and bones and a pale, sallow complexion are among the symptoms.

Fortunately there is prompt and certain cure for biliousness and torpid liver in Dr. Chase's Kidney-Liver Pills.

They cure by thoroughly cleansing the filtering and excretory systems and awakening the action of the liver to renewed energy and activity.

When you feel out of sorts and notice any of the symptoms of torpid liver and biliousness put Dr. Chase's Kidney-Liver Pills to the test, and you will then understand why this great medicine is considered indispensable in the great majority of homes.

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto. Portrait and signature of Dr. A. W. Chase, the famous receipt book author, on every box.

The European is a Semi-ready overcoat style that is immensely popular.

The European is the most swagger style of Spring overcoat yet produced. It is made with the natural broad shoulder, the collar fitting close up to the neck, giving the broad effect. It has a single seam in the centre of the back, and is made very full in the skirt.

It is made out of imported tweeds that run from the very quiet to strikingly large checks and stripes. The range meets the tastes of the quietly inclined dressers or those of sporty tendencies.

We would like you to try on one of these European overcoats—we know you will like their snappy style. It is no trouble to show them even if you are not thinking of buying. 404

Semi-ready Tailoring

Cressman's PETERBORO.

The Heart's Highway

By MARY E. WILKINS

Copyright, 1900, by Doubleday, Page & Co.

Then ten fiddlers played for a prize, and while they played the people gathered around me again, for races more than music have the ability to divert the minds of English folk. But they left me again when there was a wrestling for a pair of silver knee buckles. I remember to this day, with a curious dimness of recollection, the straining of those two stout wrestlers over the field, each forcing the other with all his might and each scarce yielding a foot, and finally ending the strife in the same spot as where begun. I can see now those knotted arms and writhing necks of strength and hear those quick pants of breath, and again it seems as then, a picture passing before my awful reality of shame. Then two young men danced for a pair of shoes, and the crowd gathered around them, and I was quite deserted and could scarcely see for the throng the rhythmic flings of heels and tosses of heads. But when that sport was over and the winner dancing merrily away in his new shoes the crowd gathered about me again, and in spite of my brother clods of mud began to fly, and urchins to tweak at my two extended feet.

Then that happened which verily never happened before nor since in Virginia, and can never happen again, because a maid like Mary Cavendish can never live again.

Slow pacing into the New field in that same blue and silver gown which she had worn to the governor's ball, with a wonderful plumed hat on her head, and no mask, and her golden hair flowing free, behind her Catherine and Cicely Hyde, like two bridesmaids, came my love, Mary Cavendish.

And while I shrank back, thinking that here was the worst sting of all, like the sting of death, that she should see me thus, straight up to the stocks she came and gathering her blue and silver gown about her made her way in to my side and sat there, thrusting her two tiny feet, in their dainty shoes, through the apertures next mine, for the stocks were made to accommodate two criminals.

And then I looked at her and would have besought her to go, but the words died on my lips, for in that minute I knew what love was and how it could

Harry and Mary in the stocks

triumph over not only the tragedy, but that which is more cruel, the comedy, of life. Surely no face of woman was ever like Mary Cavendish's as she sat there beside me, with such an exaltation of love which made it like the face of an angel. Not one word she said, but looked at me, and I knew that after that she was mine forever, in spite of my love, which would fain shield her from me lest I be for her harm, and I realized that love, when it is at its best, is past the consideration of any harm, being sufficient unto itself for its own bliss and glory.

But presently I, looking at her, felt my strength failing me again, and her face grew dim and she drew my head to her shoulder and sat so facing the multitude, and such a shout went up as never was.

And first it was half derision, and Catherine and Cicely Hyde stood near us like bridesmaids, and my brother John kept his place. Then came Madam Judith Cavendish in a chair, and she was borne close to us through the throng and was looking forth with the tears running over her old cheeks and extending her hands as if in blessing, and she never after made any opposition to our union.

Then came blustering up Parson Downs and Ralph Drake, who afterward wedded Cicely Hyde, and the two Barrys, who had braved leaving hiding, and the two black wenches who dwelt with them, one with a great white bandage swathing her head, and Sir Humphrey Hyde, who had just been released and who, while I think of it, wedded a most amiable daughter of one of the burgesses within a year. And Madam Tabitha Story, with that mourning patch upon her forehead, was there, and Margery Key, with—marvelous to relate in that crowd—the white cat following at heel, and Mistresses Allgood and Longman with their husbands in tow. All these, with others whom I will not mention, who were friendly, gathered afound me, the while Mary Cavendish sat there beside me, and again that half derisive shout of the multitude went up.

But in a trice it all changed, for the temper of a mob is as subject to unexplained changes as the wind, and it was a great shout of sympathy and triumph instead of derision. Then they tore off the oak sprigs with which they had bedecked themselves in honor of the day, and by so doing showed disloyalty to the king, and the militia making no resistance, and, indeed, I have always suspected, secretly rejoicing at it, they had me released in a twinkling, and foremost among those who wrenched open the stocks was Captain Calvin Tabor. Then Mary Cavendish and I stood together there before them all.

It was all many years ago, but never hath my love for her dimmed, and it shall live after Jamestown is again in ashes, when the sea birds are calling over the sunset waste. When the reeds are tall in the gardens, when even the tombs are crumbling, and maybe hers and mine among them, when the sea gates are down and the water washing over the sites of the homes of the cavaliers. For I have learned that the blazon of love is the only one which holds good forever through all the wilderness of history, and the path of love is the only one which those that may come after us can safely follow unto the end of the world.

NEW YORK DAIRY MARKET.

New York, April 24.—Butter—Easy; receipts 4300; street prices extra creamery, 30c to 30½c; official prices, creamery, common to extra, 25c to 30c; state dairy, common to extra, 22c to 29c; renovated, common to extra, 17c to 28c; western factory, common to extra, 19c to 25c; western imitation, creamery, common to extra, 25c to 28c.

Cheese—Firm; receipts, 887; state full cream, small, colored and white fancy, 14¼c; do., fine, 13¾c; do., late made, colored and white choice, 13½c; do., fair to good, 12¾c to 12¾c; do., poor, 10⅝c to 11⅝c; do. large colored and white fancy, 14c; do., fine, 13¼c to 13½c; do., late made colored and white fancy, 14c; do., fine, 13¾c to 13½c.; do., late made, colored and white choice, 13c; do., fair to good, 11¼c to 11⅝c; do., poor, 10¼c to 11c; skims, full to light, 4¾c to 10½c.

CATTLE MARKETS.

Cables Steady—Cattle Lower, Hogs Higher at Chicago.

London, April 24.—Export cattle are quoted at 12c to 13c per lb.; refrigerator beef, 9c per lb.; sheep, 13c to 14c per lb.

TORONTO JUNCTION LIVE STOCK.

Receipts of live stock at the Union Stock Yards at Toronto Junction were 40 carloads, composed of 972 cattle, 19 sheep, 230 hogs and 27 calves.

Prices ranged from $5.25 to $5.90, with a few prime cattle, at $6 per cwt., the bulk going at $5.65 to $5.85 per cwt.; bulls, at $4 to $4.60 per cwt.

Good to choice butchers' cattle were scarce, the bulk being of the fair to good class. The best butchers' cattle on the market sold at $5.25 to $5.50; loads of fair to good at $5 to $5.25; common to medium loads of mixed cattle sold at $4.65 to $4.90; cows, at $3.75 to $4.50 per cwt.

There were several buyers of milch cows, but none were offered.

Prices ranged from $4.90 to $5.50 per cwt.

Export sheep sold at $4.75 to $5 per cwt.; bucks, at $4.25 to $4.75; yearling lambs sold at $7.26 to $7.75 per cwt.; spring lambs, at $4 to $7 each.

Hogs—Prices again advanced 25 cents per cwt. H. P. Keanedy paid $6.90 to $7 per cwt., off cars, and $6.75 per cwt. for hogs fed and watered.

MONTREAL LIVE STOCK.

Montreal, April 24.—(Special.)—Cables from Liverpool on cattle came strong and higher at 12½c for choice Americans and 12c for Canadians. London cables were firm at 12¾c and Canadians 12c. The exports from Portland and West St. John last week were 1963 cattle. The receipts were 900 cattle, 50 sheep and lambs, 100 calves and 700 hogs. The receipts of live stock for local consumption were comparatively small to what they were a week ago, which was generally expected, as butchers as a rule want meat the first week after the Easter market, owing to the fact that most of them make it a habit of giving a larger display for the Easter trade, and at the same time provide for their wants a week ahead. The trade to-day in all lines in consequence of the move was quiet, with the exception of hogs, for which there was a keen demand from some packers, and, as the offerings were small, the undertone to the market was again strong, and prices scored a further advance of 15c per 100 lbs., with sales of selected lots at $7.25 per 100 lbs., weighed off cars. In addition to the above, cables from the leading foreign markets on Canadian bacon continue to come strong. Our own private advices on Saturday from Liverpool, London and Bristol noted an advance in prices of from 1s to 3s per cwt., which no doubt had some influence on the hog situation both here and in the west, and some in the trade are under the impression that hogs will sell in this market at $7.50 per 100 lbs., weighed off cars, in the near future. The trade in cattle was slow, as the demand was limited from butchers, but the undertone to the market was firm and prices were maintained. Choice beeves were quoted at 5⅝c to 6c; good at 5¼c to 5½c; fairly good at 4¾c to 5c; fair at 4¼c to 4½c; common at 3½c to 4c, and lower grades at 2½c to 3¼c per lb. The supply of sheep and lambs was very small, for which the demand was fair. Sheep sold at 4½c to 5c per lb., and spring lambs at $3.50 to $5.50 each. The trade in calves was quiet at prices ranging from $2 to $10 each, as to size and quality.

EAST BUFFALO CATTLE MARKET.

East Buffalo, April 24.—Cattle—Receipts, 4400 head; fairly active; good cattle, 10c to 15c lower; medium and common, 15c to 25c lower; prime steers, $6.25 to $6.60; one car load $7.25; shipping, $5.50 to $6; butchers, $5.25 to $5.85; heifers, $4.25 to $5.50; cows, $3.25 to $5; bulls, $3 to $4.35; stockers and feeders, $3 to $4.75; stock heifers, $2.75 to $3.25; fresh cows and springers, good, steady; common dull; good to choice, $45 to $55; medium to good, $32 to $40; common, $18 to $25.

Veals—Receipts, 2000 head; active and steady, at $4.50 to $7.25.

Hogs—Receipts, 13,600 head; fairly active and 5c to 10c higher; heavy, $5.75 to $5.80; mixed yorkers and pigs, $5.80 to $5.85; rough, $4.85 to $5; stags, $3 to $3.75; dairies, $5.60 to $5.70.

Sheep and Lambs—Receipts, 16,000 head; slow; lambs, $6.50 to $8; yearlings, $7 to $7.25; wethers, $6.25 to $6.50; ewes, $5.85 to $6; sheep, mixed, $2.50 to $6.

NEW YORK LIVE STOCK.

New York, April 24.—Beeves—Receipts, 4901; market, slow; steers, 10c to 25c lower; fat bulls and good cows, 10c to 15c off; others steady or firm; steers, $4.25 to $6.50; bulls, $2.80 to $4.90; tops, $5 to $5.10; cows, $1.75 to $4.60; heifers, $3.60. Exports tomorrow, 1430 cattle, 1020 sheep, and 4200 quarters of beef.

Calves—Receipts, 5904; trade active, but prices generally 25c to 50c lower. Veals, $3.50 to $7; few choice, $7.25; little calves and culls, $2.50 to $3.

Sheep and lambs—Receipts, 4230; sheep, slow and weak; lambs, firmly held and slow; wooled sheep, $4.50 to $6; clipped sheep, $4 to $5; clipped culls, $3; shorn lambs, $7.75 to $8.10; clipped lambs, $5 to $6.60; clipped culls, $4 to $4.50.

Hogs—Receipts, 8212; market firm; good to prime state hogs, $6 to $6.10.

First Shipment of Cheese.

Kingston, April 24.—The first shipment of cheese of the present season was made to-day, when about 200 boxes, consigned by D. J. Mackinnon, were sent to Montreal. The price paid was 11¾c, an eighth of a cent above the price offered at the board meeting on Thursday last.

TOOK A SEVERE COLD.

It Settled In The Kidneys.

Pain In The Back The Result.

Catching cold and having it settle in the back is often the cause of Backache—the primary cause of kidney trouble. When the back aches it is a warning that the kidneys are liable to become affected.

Head the warning! check the Backache, and dispose of any chance of further trouble.

If you don't, serious complications are very apt to arise. Mrs. E. Williams, Hamilton, Ont., caught cold, and it settled in her kidneys. She used

DOAN'S KIDNEY PILLS,

and is thankful for the immediate relief they gave her. She writes us as follows:

"It is with pleasure that I add my testimony in favor of Doan's Kidney Pills. Some time ago I took a severe cold, which settled in my kidneys. The soreness and pain in the small of my back bothered me greatly. After suffering for some months, and finding numerous remedies fail, I procured a box of Doan's Kidney Pills, and received immediate relief from my sufferings.

Doan's Kidney Pills may be procured at all dealers, or will be sent direct by mail on receipt of price—

50 cents per box, or 3 for $1.25.

THE DOAN KIDNEY PILL CO., TORONTO, ONT.

The STA-ZON is the latest eyeglass success. We recommend them for comfort, security, durability and neatness. We measure the defect in your vision and exactly neuteralize it with lenses.

W. A. Sanderson & Co

Jewellers and Opticians

A SUDDEN TWINGE

Of pain is generally the first warning of the attack of rheumatism. It feels as if the disease were in the bones or muscles, but the real cause of rheumatism is found in impure blood. In order to cure rheumatism the blood must be cleansed of the poisonous impurities which are the cause of the disease.

Dr. Pierce's Golden Medical Discovery has been very successful in the cure of rheumatism, because it entirely cleanses the blood from the poisonous uric acid which is the cause of the disease.

"Your 'Golden Medical Discovery' cured me of rheumatism after I had tried a dozen remedies without relief and also gone West in search of health," writes Harry Mister, of No. 1645 6th Street, Denver, Colo. "Only those who have suffered from this dread malady know the pain and misery I endured for over five years. Whenever the weather was damp or cold my troubles were increased and my joints would be so stiff and sore that I was hardly able to move about, and often unable to dress myself. I used a number of highly recommended medicines, but they had no effect whatever on me, and I came to Colorado hoping to regain my health, but failed to obtain the relief I had hoped for. A gentleman in the house where I lived advised me to use Dr. Pierce's Golden Medical Discovery, and in four months and a half after I began using it I was a well man, and have had no touch of it for the past seven months."

The sole motive for substitution is to permit the dealer to make the little more profit paid by the sale of less meritorious medicines. He gains; you lose. Therefore accept no substitute for "Golden Medical Discovery."

Pierce's Pleasant Pellets. These tiny, sugar-coated antibilious granules regulate and invigorate Stomach, Liver and Bowels. Do not beget the "pill habit," but cure constipation. One or two each day for a laxative and regulator, three or four for an active cathartic. Once tried always in favor. Put up in vials; always fresh and reliable.

CITY SHOE STORE—HUNTER STREET

BOARD OF WORKS HELD LONG SESSION

Mayor's Refusal to Sign Pay Cheques the Subject of Some Adverse Criticism--His Worship States His Position and the Reason For it--A Deputation From Douro Council Waits on the Board With Reference to Maintenance of River Road--Many New Sidewalks to be Constructed.

The matter of absorbing interest at the meeting of the Board of Works held last night was that of the payment of the wages of the men employed on the streets under the control of the Town Engineer. The Mayor had refused to sign the cheques for the pay of the men, and as a result they had refused to go to work on Monday morning.

At the meeting last night the question was referred to by Ald. Adams, chairman of the Board, and the Mayor hastened to explain his position to the members of the Board. He said that he absolutely refused to sign the cheques until the pay sheets should be made out by the street commissioners under whom the men worked and by whom they were engaged or discharged. He contended that only in this way could a strict account be obtained by the council on the exact work accomplished by the Board of Works department and the cost of the work. At the present time the pay sheets were made out by the town engineer, which, according to the Mayor was not the proper proceeding.

Some considerable discussion took place about the matter between the Mayor and the different Aldermen, some of the latter pointing out that at the present time, the town regulations were such that the Treasurer had no authority to issue cheques on any pay sheet unless it were signed by the engineer, for work done under the department of which he has charge, and the clause of the Board of Works report adopted by the Council on September 19, 1901, and signed by the present Mayor, who was then chairman of the Board of Works was quoted in support of that contention. The clause follows:—We recommend that the Treasurer be authorized to pay the amounts of the street pay lists on the certificate of the town engineer alone.

Ald. Adams took the ground that the Mayor, in the face of the report adopted by the Council, had no right to refuse to sign the cheques, and Ald. Johnston remarked that he considered it obstinacy on the part of the chief magistrate, to which the Mayor remarked that he knew as much about his business as Ald. Johnston did. The latter retorted by saying that he thought the whole trouble was that it was a "shot" between the Mayor and the town engineer.

Ald. Hall said that as the instructions to the Treasurer now stood he had no right to pay money for work done on the streets except on the certificate of the Engineer.

His Worship remarked that in the past work ordered by the Board of Works was not carried out while other work not ordered was done, and it was to remedy this, and also to find out where the money was being spent that he had taken the stand he did.

The chairman explained that this year the engineer was trying to carry out the instructions of the Board, and the latter was being "held up" by the Mayor at the very start.

Ald. Hicks expressed his sympathy with the Mayor in his desire to find out how the money was being spent and to keep a check on it, but thought that if the Commissioners were to sign the pay sheet with the Engineer the result would be accomplished. Ald. Hall moved that in future the Street Commissioners or foremen report their pay sheets to the Engineer and that the Treasurer be authorized to issue the cheques when the pay sheets are signed by the Engineer and Commissioner, and that the latter send duplicate sheets to the Mayor. This motion was carried, and in the meantime, pending the passing of this motion by the Council the Mayor will sign the cheques and the employees of the Council will receive their pay.

A deputation consisting of Reeve Moher, Councillors Leahy and W. O'Brien, Clerk of Douro Township, waited on the Board of Works with respect to the maintenance of that part of the River Road which forms the boundary between the town and the township. It appears that during the last three years the township has spent $99 on the road in money and in road work, by statute labour, and they are of the opinion that at least a part of this amount should be paid by the town. Their object in waiting on the Board was for the purpose of preferring this request. Upon investigation, however, it was found that the town had spent no longer ago than three years $137 for a walk, which, it was believed, was of almost equal benefit to the town and the township, and the suggestion was made that the latter contribute a share of this. It was finally agreed, however, that the matter of the costs in the past be allowed to stand for the present, and that in future the town maintain the half of the road nearest the corporation and that the township look after the other half. The portion of the road referred to is that between the finger post and the northern limit of the town, which is at the north of the Mrs. (Hon.) Hamilton property. This agreement satisfied the deputation.

Messrs. Walter Stocker and S. Anglesey waited on the Board, asking that crossings be placed on Perry street to serve properties in which they were interested. Their requests were granted.

Ald. Johnston called the attention of the Board to the fact that refuse was being dumped on Water street near "Goose Pond" to the annoyance of residents of that part of the town, and the Medical Health Officer will be instructed to have a notice placed at that point forbidding the dumping of refuse there.

Notes of a tour of the streets made by the members of the Board on April 13th, were read and recommendations approved.

Notice will be given of the intention of the council to construct, as local improvements, granolithic walks on the following streets:—

Edinburgh street, north side, from George street to G.T.R. tracks.

Edinburgh street, south side, from George to Union streets.

Smith street, north side, Reid to Downie streets.

Downie street, east side, Smith to Victoria avenue.

Sherbrooke street, north side, from junction of Park and Reid streets to Monaghan Road.

Harvey street, west side, Smith to Antrim streets.

King street, both sides, George to Aylmer street, except at the bridge.

Scott street, south side, Rubidge to Reid street.

Bethune street, west side, from Edinburgh to Antrim streets.

Aylmer street, east side, McDonnel street to half way between London and Dublin street.

The following applications for walks were examined and recommendations that they be granted were passed:—

Rubidge street, west side, from Dalhousie to Wolfe street.

Downie street, west side, Charlotte to Simcoe street.

Weller street, north side, Park street to Monaghan Road.

A petition from J. H. Telland and others, for a sewer on Harvey street from Smith to Antrim streets, was found to be not sufficiently signed.

The following petition for sewers were granted:—Brock street, Park to Downie streets. Downie street from Brock to Murray. Homewood avenue, from lot 27 to Babb's Lane.

Petitions for crossings from Robt. Nicholls, John Mackie and Henry Tredlope, were received and granted.

The street commissioner was instructed to have a tool house erected at the gravel pit, who was also authorized to sell the street scrapings that the town does not require.

The appointment of Mr. Downer as caretaker of the Locks Bridge was approved and the town will pay $62.50 as its share of his yearly salary.

The purchase of lumber and nails was left with the chairman, who was also authorized to order a carload of cement from the Peterborough Hardware Company, subject to specification and inspection.

Don't fail to hear Miss Ethel Powell, Toronto's favourite soprano; Mr. Owen A. Smiley, Canada's best entertainer; Mr. Gilbert Scott, soloist; Mr. Homer Heard, soloist; Master Fred Hall, whistling soloist; in St. Andrew's Lecture Hall to-night. Admission 25c.

INTERESTING NEWS BRIEFY TOLD.

Things We All Like to Hear About.

—The Labour Day Celebration Committee will meet to-night.

—The annual banquet of the Grasshopper Club will be held to-night at Long's.

—The S. A. Band will practice to-night in the hall, and all members are asked to be present.

—Last Sunday had a triple anniversary character, Easter day, St. George's Day and Shakspere's birthday.

—The Barbers' Union meeting, to have been held last night, was postponed till the next regular meeting night.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover, 222 McDonnel street. 'Phone 199.

—Mr. J. W. Quinlan, of Port Hope, and for six years mayor of that town died this morning suddenly from pneumonia.

—The name "Nordheimer" on a piano stands for the highest type of piano construction. Information concerning these pianos at H. H. Edmison's pharmacy.

—A curiosity in Mr. W. J. Morgan's cigar store window is a cigar about eight inches in length, which sells at $1.00, and is said to be of the brand used by His Majesty King Edward VII.

—That the ice in the lake is breaking up rapidly is borne out by the fact that barge flues are passing over Bobcaygeon dam at intervals. One of our yacht owners expects to be able to reach Stuffgeon Point to-morrow.—Lindsay Post.

—Mr. Robt. Dubie, Mechanical Superintendent of the C.G.K. Works, has purchased an automobile and it made its first appearance at the Works yesterday. It was the object of considerable curiosity among the men.

—To-night the first march-out of the season for the 57th Regiment, will be held when both bands will head the regiment on a march-out through the town's streets. It is expected that the turn-out to-night will be the largest of the season.

—Work on the new Royal Hotel on the Rokeby side of Bobcaygeon is now under way. The new building will be twice the size of the one, which was destroyed by fire a few months ago, and will boast of large verandahs and an extensive lawn.

—The name of Miss M. Carveth was unintentionally omitted in the report of the music on Easter Sunday at St. Peter's Cathedral.

The Examiner is now on sale at Mr. J. T. Brunsd's Store, corner of Smith and George Streets, where any residents of that part of the town may procure it.

—Sing Lung, the George street Chinese laundryman, has rented from Mr. Yelland, the front part of the building formerly occupied by Hopper & Crafts, confectionery manufacturers. This removal has been made necessary by the leasing of the present premises to Mr. P. Simons.

—For the convenience of my coffee loving customers, I have placed a new coffee mill in my store, so that they may have their coffee fresh. Maple syrup and maple sugar are moving rapidly. Cabbage, parsnips, carrots, beets, onions and potatoes always on hand, at Jas. R. Bell's, 161 Hunter street. Phone 455. d

—A small blaze occurred at Jobe's upper candy store, George street about three o'clock this afternoon, which caused considerable excitement. The fire is said to have originated from a live wire, and almost completely destroyed the awning in fontr of the store. It was extinguished without the assistance of the brigade.

In readiness for Good Friday,
He rashly laid aside, a
Load of heavy winter underwear.

Now to keep the circulation
In comfortable operation
He has to sprint for all his strength
will bear,
And as he grimly chases
His first straw hat like blazes
The wild March winds of April, wrestle
with his hair.

—The Park street Baptist church enjoyed very bright and helpful Easter services Sunday. The four anthems by the choir showed good taste and careful preparation; the one in the evening including a cornet solo by Mr. David Holt, was much enjoyed. The congregations were large and the sermons suitable to the day, that in the morning by the pastor, from John 10; 18; "I have power to lay it down, and I have power to take it again;" and in the evening by the Rev. C. J. Cameron, Educational Secretary of McMaster University. Three men were buried with the Lord in Baptism and rose to walk with Him in newness of life. Baptisms were announced for next Sunday.

The Snow-Shoe Club Ball.

It has been found necessary by the committee in charge of the event which takes place on Thursday evening, to change same from the Foresters' Hall, Simcoe street, to the National Hotel, in order to accommodate a greater number than was at first anticipated. Those attending are kindly asked to use the Charlotte street entrance. 3d96

RUSSIANS SEIZE HARNIN ISLAND

Naval Base For Russian Fleet Found in China's Island—20 of Togo's Fleet Sighted—Two Japanese Boats Captured by the Russians--Progress of Vice-Admiral Nebogatoff's Squadron--Definite News of Russian Fleet Brought in by Dutch Steamer Aruba--Has Divided.

Chicago, Ill, April 26.—A special to The Daily News from Hong Kong says. "Great excitement prevails in Chinese circles here over a report that the Russion fleet has seized the Island of Hainan. The Viceroy of Tawangtung has despatched officials to investigate the matter."

Also, Poor China.

London, April 26.—The correspondent at Tokio of The Daily Telegraph sends the following:

"Japan is vigorously protesting against the preparations for flight from Shanghai of the Russian protected cruiser Askold. It is feared that more difficulties will arise on account of China's inability to enforce her neutrality with respect to the report that the Russian Pacific squadron is coaling off Hainan."

Twenty of Togo's Fighters.

Saigon, April 26.—Advices just received from Kamranh Bay say that twenty Japanese warships passed the bay between 8 and 9 o'clock in the evening of April 22.

Two ships loaded with rice, from Saigon, and bound for Japan, have been captured by ships belonging to the Russian squadron.

Nebogatoff's Progress.

Paris, April 25.—A despatch from Saigon to The Petit Journal states that nine warships, suppose to be Vice-Admiral Nebogatoff's detachment of the second Pacific squadron, doubled Cape Bake the night of April 25. Cape Bake is about 50 miles northeast of Saigon.

News of Russian Fleet.

Hue, French Cochin-China, April 26.—The Dutch ship Aruba, in Monday night from Triton Island, brings the first definite news of the departure of the fleet on Saturday from Kamranh Bay. Twenty-three ships in all were sighted northeast of Triton Island at 10 o'clock Monday morning, holding a northerly course, which would bring the fleet by noon yesterday to the Chinese Island of Hainan, which has several harbors and cable connection with the mainland through the French settlement of Kwanchanwan. The Aruba passed six and a half miles south of the Russian ships and from the report of the captain it is clear that Rojestvensky must have divided his fleet or that the remainder of the squadron is far in advance.

Only two battleships and three big cruisers were in the division seen by the Aruba and this suggests that Admiral Volkersam may have taken his division of the squadron on another course after the departure from Kamranh on Saturday.

When seven hours out from Manila the Aruba, bound west, sighted a Japanese war fleet headed southwest 14 miles east of the Macclesfields banks. This undoubtedly is the Japanese flying squadron, which has been reported from several places in the China Sea in the last week. The captain of the Aruba estimates the warships at 16, but several of them were hull down, and, owing to nightfall, could not be further made out. Their direction would have brought them toward the Cochin-China coast.

Firing Heard at Sea.

Saigon, French Cochin-China, April 26.—No news came last night confirming the report that a battle has been fought northeast of this point between the rival fleets, but the fishermen in yesterday afternoon from Phuyen Island say that there is no doubt the ships were using their heaviest guns on Saturday evening about 20 miles off the coast. The cannonading was distinctly heard from 7 until 11 o'clock, and it is now confidently believed that a division of Japanese torpedo boats attacked some of the ships in Rojestvensky's squadron.

The French torpedo boat destroyer Victorieuse, from Touron Bay, brings news that the gunfire was plainly heard there between 8 and 10 o'clock in the evening.

A small Russian cruiser, five colliers and three supply ships still remain in Kamranh harbor.

Expect to Wait.

St. Petersburg, April 26.—Admiralty circles are coming to accept the view that there will be no great or general action between the fleets of Russia and Japan for some time.

Won't Allow It.

St. Petersburg, April 26.—The Government has reiterated its notice to the Zemstvoists that the proposed conference will not be allowed either in St. Petersburg or Moscow.

Railway Running Again.

Fusan, Corea, April 26.—The first railroad train from Liaoyang since the retreat of the Russians from that place last year, reached Mukden station Monday, crossing the Hun River on the temporary bridge which has just been completed. Regular trains will be run between Port Dalny and Mukden in a few days.

How Czar May Mark Easter.

St. Petersburg, April 26.—A rumor is circulated here to the effect that Emperor Nicholas will mark Easter by the proclamation of general amnesty for political and religious prisoners now confined in the fortresses or prisons of European Russia, or who are in exile.

Says Witte Hasn't Resigned.

St. Petersburg, April 26.—The Russ formally denies that M. Witte has resigned the presidency of the committee of ministers, though worn out with work and in urgent need of rest. In financial circles it is reported that M. Witte may accept the management of the Russo-Chinese Bank.

J. Sutcliffe & Sons'

FATAL PROHIBITION CAMPAIGN.

Congressman One of the Victims of the Texas Melee.

Hempstead, Texas, April 26.—J. E. Mills died during the night from the wound receive in a shooting affray here Monday. The death of Mills, who was a leading prohibitionist, makes the number of dead four, as follows: Congressman J. M. Pinckney, Thomas Pinckney, the congressman's brother; Lawyer J. N. Brown, and J. E. Mills. R. F. Tompkins, the congressman's secretary, and Rolling Brown, son of J. N. Brown, were severely wounded.

The trouble began during a speech by R. F. Tompkins, private secretary to Congressman Pinckney. He was interrupted by Lawyer Brown, who used vigorous language, and at the same time grasped the lapel of Tompkin's coat. Congressman Pinckney sprang forward, and as he did so the shooting commenced. A number of men seemed to be engaged in the shooting, and altogether about a hundred shots were fired. The streets were soon filled with frantic women, whose husbands and brethers had gone to attend the meeting. The presence of the women undoubtedly prevented a continuation of the shooting.

There has been bitter feeling here for several years over the prohibition question, and the recent election, when the "antis" failed to gain the victory they had expected, added to this. Recently Tucker Pinckney, a brother of Congressman Pinckney, was shot and killed by negroes.

Aids in Own Crucifixion.

Trinidad, Col., April 25.—It is reported that a fanatical member of the Penitents has crucified himself at Torres, Las Animas County. Several Trinidad people claim to have been among the eye-witnesses. They claim the victim was nailed to a cross of his own making and died in agony.

FLAT DENIAL WAS ELICITED

Premier's Answer to Mr. Borden re Manitoba Boundary.

NO WORD OF THE BUDGET

Hon. Mr. Fielding Promises an Announcement Soon — Debate on the Autonomy Bills Continued by Five Members — Questions and Answers With Reference to Explosion on Steamer Scout.

Ottawa, April 26.—Before the orders of the day were called in the House yesterday, F. D. Monk asked the Premier, in the absence of Mr. Prefontaine, whether it was the intention to include on the commission to investigate the Scout disaster an expert on carbide matters. He had been asked by several important firms interested in the manufacture of carbide to take this step, as unless the true cause of the explosion was ascertained, the industry would receive a setback. He understood the pressure on the buoy at Kingston was 180 pounds at the time of the explosion, whereas 30 pounds was considered dangerous. Sir Wilfrid said that, in the absence of the Minister of Marine, a reply would have to be deferred.

George Taylor saw in the presence near Gananoque of two large storage tanks of acetylene gas a distinct danger to the town. Canada would wake up one day and find the town and its inhabitants wiped from the map, if the apparently freakish element is not removed. The Premier's reply was of the same nature as that accorded Mr. Monk.

Mr. Broder, of Dundas, asked whether it was the intention to do anything for the families of the men killed. Sir Wilfrid suggested that consideration might be well deferred until the report came in.

Boundary Not Settled.

Mr. R. L. Borden called the Government's attention to the speech of Mr. Jackson, member for Selkirk, in Manitoba constituency, where, he said, the question of Manitoba's boundaries had been settled by representatives of Manitoba, Saskatchewan and Ontario, and gave details of the settlement. Mr. Borden asked if such was the case, and why the announcement had not been made by the Government to the House rather than by a private member to an audience outside.

Sir Wilfrid Laurier replied: "I have read the despatch to which my hon. friend has just called attention. I do not understand from it that Mr. Jackson presumed to speak on behalf of the Government or to say that any policy had been arrived at and finally determined upon. What I understood him to say was that there had been conferences between members from the Provinces of Saskatchewan, Manitoba and Ontario, and that they had come to the conclusion that the arrangement suggested would be acceptable to them. So far as I am concerned, should the Government come to any conclusion it will be made known to the House and to the country."

Budget After Debate.

In answer to a question put by Mr. Borden, the Minister of Finance last night stated in the House that it was not the intention of the Government at present to bring down the budget speech before the present matter was disposed of. A statement, however, might be forthcoming on the subject in a day or two.

The Autonomy Debate.

There were five speeches yesterday on the autonomy bills, and to all appearances a division on the second reading will be reached in a few days. The speakers were Mr. Broder of Dundas, Mr. Bureau of Three Rivers, Mr. Herron of Alberta, Mr. Parmalee of Shefford, and Mr. Taylor of Leeds. They averaged an hour each, and Mr. Kemp of Toronto moved the adjournment of the debate.

The House rose at 10 o'clock.

CAPT. FRASER TESTIFIES.

Scout Investigation Will Soon Be Completed at Kingston.

Kingston, April 26.—The Government investigation into the Scout disaster will be completed to-day when the board make some buoy measurements. Dr. Adams expects to hand his report to the Minister by the end of the week. A thorough inquiry has been made. The last witness examined was Capt. Fraser, Commissioner of Lights, who gave evidence yesterday afternoon. He testified that he never considered there was any danger in the manufacture and compression of acetylene. He followed out the system in vogue when he was appointed commissioner of lights in 1903, and considered that following the system was fully justified. The buoys were charged by the Pinch works in Montreal to twelve atmospheres and over, and for this reason the department was quite satisfied to continue the pressure, as the manufacturers were in the best position to know their strength. Capt. Fraser declared that the accident was caused by a defective weld. The buoy had been found structurally weak. No other reason could be advanced for the explosion. The department had never called for any test, so far as the records show. The witness gave the board a description of the manufacture of acetylene and the charging of the buoys.

Canoeist Drowns.

Rosseau, April 26.—At Turtle Lake, near here, Monday afternoon, Samuel Huffman took his canoe out for the first trip this spring, in the face of a heavy wind. His son entreated him not to go, and his wife refused to accompany him on the trip. Mr. Huffman went for some distance along the shore in safety, but in attempting to turn back the canoe upset. The body was found in ten feet of water. Deceased was about 50 years old, and leaves a large family.

ATTEND TO-NIGHT'S BASEBALL CONCERT

A Good Programme Will Be Rendered —An Opportunity to Help.

To-night the first annual concert under the auspices of the Peterborough baseball club, will be held in the opera house. The programme to be rendered will be attractive, and the prospects are that the house will be a bumper one. The interest being shown this year in the baseball team is most gratifying to the management, and it is an encouragement to them to secure a team which will give the patrons good sport.

To-night an opportunity will be given to show a practical interest in the team by attending the concert. The programme will be an excellent one, and will well repay anyone who attends. Bert Harvey, is spoken of as the best Canadian entertainer to-day, while the local artists all so well known that no reference to them is necessary.

The Smell of Clark's.

Clark's Luscious Lunch Tongue — so appetising and juicy — sets the gastric juices flowing. It stimulates hunger and completes digestion.

Colorado, California, Portland and Yellowstone Park.

Specially conducted excursions are being arranged via the Grand Trunk Railway System, in charge of an experienced conductor. All expenses included. To leave Toronto early in July and August. Rate is not expected to be over $150 from Toronto. Do not join any other party before consulting E. M. Bowler, 201 Beverley street, Toronto. 8d93

Annual Meeting of W. F. M. S.

The 29th annual meeting of the Women's Foreign Missionary Society of the Presbyterian church in Canada, Western Division, will be held in St. Paul's church, Peterborough, on Tuesday, Wednesday and Thursday, May 2nd, 3rd and 4th.

A public meeting will be held on Wednesday evening, when Rev. Sidney L. Gulick, of Japan, will speak on the subject, "Japan's New Attitude Towards Christianity."

About three hundred delegates will be present. Any friends who could entertain one or two of these delegates may hand their names to Miss Alice Hall, secretary of the W. F. M. S., or to Miss Martha Dickson, secretary of the Billetting Committee, at as early a date as possible.

GUARDS GAVE ANNUAL CONCERT

A Delightful Entertainment Given at St. Andrew's Last Night.

Miss Ethel Powell and Mr. Owen Smily the Outside Artists.

Last night the annual concert given under the auspices of St. Andrew's Guards was held in the school room of that church, and, as have been all the former concerts under their auspices, it was an unqualified success, and the coffers of the Sick Children's Hospital, the object of the Guard's benefactions, will be considerable richer as a result of the concert last night.

The school room was crowded, and the programme rendered was one which everyone present thoroughly enjoyed. This organization of young men deserves great credit for the admirable manner in which the affair was managed, and the success of their efforts is but the natural result of the enterprise and enthusiasm which they have shown in the management of the entertainment.

The programme was given very largely by Miss Ethel Powell a soprano soloist, of Toronto, and Mr. Owen Smily, the latter although not new to Peterborough audiences, is always popular, while Miss Powell, who was heard last night for the first time by a Peterborough audience, created a very favourable impression, and will be heard with pleasure should she at any time in the future pay a return visit here.

Rev. J. G. Potter at the opening of the programme addressed a few words of welcome to the audience, assuring them of the appreciation of the Guards at the interest they manifested in their enterprises.

The programme opened with a piano duet, given by Mrs. P. A. Kerr and Miss Ethel Tully, and was thoroughly appreciated by the audience. Mr. Smily was next heard in "Magdelina, a Bachelor's Reverie" in which he gave evidence that his entertaining abilities are as great as ever, and the audience showed their unmistakable pleasure in his numbers.

Miss Powell's first number was "The Tin Gee-Gee," in which selection she was heard to good advantage, and at once made herself a prime favourite with the audience. Miss Powell possesses a soprano voice, of much sweetness and power, and all her numbers were well rendered.

Master Fred Hall, Peterborough's whistling artist, gave the next number, 'Carissmo," and as usual his selection took the fancy of the audience, who warmly applauded.

Mr. Smily gave a number of his own selections, including musical sketches and original poems, while Miss Powell gave with good effect, "Different Kinds of Fishing," and as an encore to her last number sang very sweetly, "Sing Me to Sleep."

The concert was in every respect highly satisfactory and successful, and the Guards are to be congratulated upon the outcome of their efforts.

CONDUCTOR WAS TRANSFERRED HERE

Mr. Geo. Jobbitt of Lindsay to Have Charge of New Lakefield Train.

Conductor George Jobbitt, of the G.T.R., has been promoted to the charge of the passenger train between Peterborough and Lakefield, and will take up his residence in Peterborough at once. Mr. Jobbitt is one of the most popular railway men in town, and his promotion is gratifying to his many friends, at the same time they regret his departure from the good old town.—Lindsay Post.

—The fire brigade was called out to a grass fire on the corner of Hunter and Park street, and while in that part of the town put out a fire on the corner of Reid and Hall street. Neither were very dangerous.

CLOSING OF THE PHYSICAL WORK

Splendid Entertainment of Gymnastics at Y.M.C.A. Last Night.

A Programme of Varied Interest—Successful Event.

The closing exhibition in connection with the Y.M.C.A. physical department took place last evening in the gymnasium, and proved very interesting and enjoyable. There was a large attendance, many of the parents of the boys being present to see them take part in the programme. This is an event which has always been very interesting, and is looked forward to with a great deal of pleasure.

The programme was a varied one and indicated the work done in the different branches of the physical department. The exercises and apparatus work was performed in a manner that reflected great credit upon the boys and their instructor, Mr. P. K. Holmes.

The programme opened with a very enjoyable selection by the Y.M.C.A. orchestra. This organization rendered several numbers during the evening in their usual capable manner, and their playing added considerably to the enjoyment of the entertainment. A piano duet, rendered in delightful fashion by Miss Campbell and Miss Jolliffe, was received with much applause.

The first number by the boys was a maize rug, which was very interesting, the boys performing their duties very creditably. The junior school boys and junior intermediates gave an exhibition of mass calisthenic drill, which was performed with correctness and precision, showing that the boys have been given a careful training in this line of work.

An interesting feature of the programme was an exhibition of military marching by the junior school boys. The different movements were executed in clever fashion, the boys working well together. Frequent outbursts of applause testified to the appreciation of the audience while this number was being given. The junior school boys and junior intermediates united in mass apparatus work, being divided into six squads, each of which was led by one of the Leaders' Corps. Interesting exercises were performed upon the flying rings, the high and low parallel bars, the German horse and tumbling mat, and the boys gave evidence of able instruction and creditable practice.

A vocal solo was rendered by Miss Clara Belleghem, and her fine voice and clearness of expression were heard to great advantage.

An amusing feature of the programme was a three-legged race between members of the junior school boys' class. The event was captured by Peter Wallace and Arthur Dawe, after an exciting and amusing contest.

A wrestling bout between Messrs. Gilbert and Collins added variety to the entertainment. It consisted of two three-minute bouts, which proved interesting and exciting, Mr. Gilbert winning by 4 falls to 2, pin falls counting.

Messrs. F. McCoy and R. Beach gave a piano and drum duet, which was very enjoyable, and heartily applauded.

An exhibition of special high bar work was given by the senior school boys' Leaders Corps, composed of C. Arnott, Lincoln Brace, B. Miller and S. Fife. Some very difficult movements were executed and were much applauded. Another number of merit was the special parallel bar work given by the seniors' Leaders Corps, composed of Messrs. T. H. Hutchinson, N. Miller, R. Dobbin and W. D. Campbell. Several of the feats given were of a very difficult nature, but they were performed in faultless fashion. The pyramid tumbling of the senior school boys is also worthy of special mention, as the movements were gone through in a creditable manner, especially that known as "the squash."

The singing of the National Anthem brought a delightful evening to a close.

The Hospital

Thankful are They Who Escape The Surgeon's Knife

Thousands of surgical operations are performed every year in our great city hospitals upon women afflicted with serious female troubles. Sometimes the operations are successful—oftentimes they are not.

It is safe to say that certainly nine out of ten operations for female troubles might have been wholly avoided.

The most valuable tonic and re-builder of the female organism, the medicine with a record of thousands of cases literally snatched from the operating table, is

Lydia E. Pinkham's Vegetable Compound

Do not consent to an operation which may mean death until after you have given Lydia E. Pinkham's Vegetable Compound a fair trial. Note what it did for Mrs. Robert Glenn, whose letter follows:

Dear Mrs. Pinkham:—Lydia E. Pinkham's Vegetable Compound is so well and widely known that it does not need any recommendation from me, but I am glad to add mine to the many which you have in its favor.

I suffered untold agonies from ovarian troubles for nearly three years, and the doctors told me I must have an operation; but I was unwilling to undergo this, and decided to try your Vegetable Compound.

I am so pleased that I did so, for it restored me to perfect health, saved me the pain of an operation and the immense bills attending the same. Please accept my hearty thanks and best wishes.

MRS. ROBERT GLENN, 434 Marie Street, Ottawa, Ont.

Thousands of women, residing in every city and town in Canada, bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound. It cures female ills and creates radiant, buoyant female health. For your own sake try it.

Lydia E. Pinkham's Vegetable Compound Cures Where Others Fail

Taking Desperate Chances.

It is true that many contract colds and recover from them without taking any precaution or treatment, and a knowledge of this fact leads others to take their chances instead of giving their colds the needed attention. It should be borne in mind that every cold weakens the lungs, lowers the vitality, makes the system less able to withstand each succeeding cold and paves the way for more serious diseases. Can you afford to take such desperate chances when Chamberlain's Cough Remedy, famous for its cures of colds can be had for a trifle? For sale by all druggists.

Seeding Half Done.

Winnipeg, April 26.—More than half the seed that will produce Western Canada's wheat crop of 1905 is now in the soil, according to yesterday's crop reports. Several districts have already completed sowing. Eighty to 90 per cent. is completed along the main line of the C. P. R. Reports on the weather vary; there are many advices indicating that the land is rather dry, and rain is now needed for the germination of the seed.

Should Visit Canada.

London, April 26.—(C. A. P.)—In an interview given to The Daily Chronicle, Sir Thomas Shaughnessy thought there was no need to have men out of work in this country, as there was plenty of work in Canada as soon as they were "broken in." He deplored the ignorance generally displayed in Great Britain regarding Canada, and suggested that people should visit Canada instead of Monte Carlo and such places.

Hoodlums As Fire Bugs.

Sandwich, April 26.—The house of Benjamin Pacaud was destroyed by fire yesterday morning, causing a loss of $3,000. Its origin is a mystery. There was no fire in the house, but evidences of inflammable material piled up against the back of the house and set on fire were found. It appears to be another of the fires attributed to a gang of young hoodlums.

The Alaskan Boundary.

Ottawa, April 26.—In a few weeks survey parties appointed by Canadian and United States commissioners will be at work continuing the delimitation of the boundary between Canada and Alaska as determined by the London convention. The surveyor in charge, C. A. Biggar, has already left for the Pacific coast.

Newfoundland Needs Money.

London, April 26.—(C. A. P.)—The Daily Mail's financial correspondent learns there is a possibility of Newfoundland shortly being in the market for another loan. The reason is not stated, but it is thought it may have some connection with the recent adverse telegraph award.

Cured Forty Consumptives

The Post-Graduate Hospital of New York reports that more than forty cases of consumption were cured by that institution alone during the year 1904. Many of these cases were treated at the homes of the patients. This proves conclusively that consumption can be cured and cured at home. Not every one can go to Colorado or spend weeks or months in a hospital, neither of which is necessary, but everybody can get Scott's Emulsion, and that IS necessary. It has been proved that pure, fresh air, light exercise, nourishing food and

SCOTT'S EMULSION

will come pretty near curing any case of consumption if there is anything to build on. Thousands of people have been restored to health by Scott's Emulsion alone. The advantages of Scott's Emulsion over the plain oil are shown in the ease with which Scott's Emulsion is accepted and retained by the stomach; the quickness with which it passes into the system; its almost immediate benefit to the affected organs, and its absolute uniformity of quality and purity.

PRETTY WEDDING ON CHAMBERLEN STREET

Miss Sarah Booth is United in Marriage to Mr. Thomas of Liverpool, Eng.

Last evening at 8.30 o'clock a very pretty wedding took place at the home of Mr. and Mrs. Booth, 62 Chamberlen street, the occasion being the marriage of their daughter, Miss Sarah E., to Mr. Samuel L. Thomas, of Liverpool England.

Rev.—A. H. Brace, pastor of the Park street Baptist church, performed the ceremony. The bride was given away by her father, and the groom was supported by Mr. Bert Stevens, of Birmingham, England. The bride's dress was of white silk, trimmed with shirred chiffon, and the bridesmaid, Miss Stimer of Uxbridge, was gowned in champagne silk, trimmed with pleated crepe-de-chine. Miss Eva Booth, the flower girl, was in white silk, with chiffon trimmings, and carried roses and carnations.

Mr. Burton, accompanied by Mr. Ramsey, played the wedding march, Mendelssohn's. The residence was appropriately decorated for the occasion.

Best Cough Medicine for Children.

When you buy a cough medicine for small children you want one in which you can place implicit confidence. You want one that not only relieves but cures. You want one that is unquestionably harmless. You want one that is pleasant to take. Chamberlain's Cough Remedy meets all of these conditions. There is nothing so good for the coughs and colds incident to childhood. It is also a certain preventive and cure for croup, and there is no danger whatever from whooping cough when it is given. It has been used in many epidemics of that disease with perfect success. For sale by all druggists.

SALARIES OF TEACHERS.

If They Are Poorly Paid They Fall in the Social Scale.

Toronto, April 26.—The forty-fourth annual meeting of the Ontario Educational Association is being held at the university. Matters are under discussion which relate to education in general; but the chief matter under discussion yesterday was how best to interest the public in giving a greater appreciation to the teaching profession, and raising it in the social scale. It was generally accepted that if salaries were raised, the social position of the teacher would at once be enhanced, and that the permanency of teaching as a profession depended largely upon increased remuneration, otherwise educated men will find a reward for their services in mercantile and business pursuits. Papers on other subjects were also read and discussed.

Tired all the Time

Mr. George Beattie, Carr's Brook, Colchester Co., N.S., writes:—"Last spring I was very much run down, felt tired all the time, and did not seem to have life or energy enough to do my work. Three boxes of Dr. Chase's Nerve Food did me a world of good, and made work a pleasure to me. I have not had occasion to use any medicine since, and have recommended Dr. Chase's Nerve Food to all my friends."

Under Consideration.

London, April 26.—(C. A. P.)—Answering a correspondent Lord Stanley, the Postmaster-General, says the question of introducing the C. O. D. system between Great Britain and the Colonies is at present under consideration.

Not Just as Good

When you go to your druggist to buy "Ozone" ask and demand "Solution of Ozone, the coupon kind". This will give you a twenty-five cent package of "Celery King". It will give you the best preparation of "Ozone" in the world and it gives you about twice as much for your money as other brands, sixteen ounces for fifty cents, over twice that much for a dollar and a package of the well known remedy "Celery King" free.

We put "Celery King" coupons in our "Ozone" because the people know "Celery King", because it gives better results with "Celery King" and because no other firm can give "Celery King" with "Ozone". It cures, that's the reason we give you a package free and that's the reason you should never buy any other kind.

Ask for "Solution of Ozone, the coupon kind". Fifty cents and one dollar at your drug store and don't take any other kind, because if you do you won't get a package of "Celery King".

Sold by W. B. WARNE.

THE CELEBRATION ON LABOUR DAY

Committee Decides Definitely on the Date for the City Inauguration Demonstration—Plans are in Course of Formation—Proposed to Have a Children's Parade in the Morning—Fire Brigades May Be Invited From Out of Town—Committees to Handle Different Parts of the Programme Will be Drafted by the Officers—The Question of Finances.

Plans are now taking more definite shape for the celebration in honour of the inauguration of Peterborough as a city, and at last night's meeting of the Citizens' Committee a number of essential details of the arrangements were decided upon, among them being the date upon which the celebration should be held.

This matter was one upon which there was considerable discussion at the meeting, and it finally decided that it should take place on Labour Day, although there were some of those present who favoured the idea of holding it earlier in the summer, as it was felt by them that to leave it until September would be too late to insure a complete success.

Those present at the meeting last night were:—Ald. Hicks, chairman; Mayor Best, Rev. J. C. Davidson, Rev. Father McColl, Ald. Bagley, Ald. Crowe, Messrs. K. Eardley-Wilmot, E. T. Hammett, T. H. G. Denne, J. H. Larmouth, P. Campbell, S. R. Armstrong, C. P. Murty, A. A. Hollingshead, H. Winch, John Crane, Alex. Gibson, W. H. Bradburn, H. LeBrun, J. D. Craig, J. M. Brooks, Ald. Scott, Ald. Tovey, Ald. Hall and Dr. Morgan.

Form of the Celebration.

Ald. Hicks took the chair and explained the object of the meeting which was to complete the organization and appoint the permanent officers of the committee. An informal discussion as to the form which the celebration should take and as to the best date upon which to hold it took place, and Rev. J. C. Davidson was the first speaker. He pointed out the fact that if it were held on July 1st, the regiment would be out of town and with them the band, which would deprive the affair of the colour which would be lent it by the presence of the military organization.

He recognized that if circumstances were favourable otherwise the 1st of July would be the better day, but in view of the fact that the men and officers of the regiment would be unavoidably absent he thought it would be better to postpone the date of celebration until Labour Day.

Ex-Mayor Denne, who moved the resolution at the meeting held on Thursday night, recommending to the committee that the celebration be held on Labour Day, again supported that proposition, but said that if the citizens generally were in favour of July 1st, he would be willing to fall into line. He was of the opinion that which ever date was decided upon, the committee should be unanimous.

The Date Decided.

Mr. Denne moved that if the Council takes the necessary steps to have the incorporation take place on Sept. 1st, instead of July 1st, the celebration in honour of the inauguration be held on Labour Day. Considerable discussion took place on the question, Mayor Best suggesting that in his opinion the early part of July would be the better time to hold it. If it were left until September the people would be just back from their summer's vacation and would have spent all their money. A great many of the working men of the town usually planned to leave town that day and visit the Toronto Exhibition, and in his opinion it was too late in the summer to hold a demonstration such as suggested.

Mr. Larmouth suggested that if they were expecting to get many people to come in from out of town it must be held on a public holiday since it would be impossible to get them to come on any other day, and Ald. Tovey thought that it would be impracticable to get even the town's people out unless it were held on a holiday, since it was not probable that any of the large manufacturing concerns would close down their works on another day early in July after having given a holiday on July 1st.

Ald. Hall in answer to the remark that it would be necessary to hire an outside band if it were held on July 1st, said that there were other bands in town than the 57th, and there were the makings of other soldiers in town too. All regretted the fact that it would be an impossibility for the regiment to be present on July 1st, but he suggested that after all it might be better to go ahead with the celebration on July 1st.

The Band Necessary.

Mr. Denne, however, was of the opinion that it would be hard to organize a successful demonstration with the band and regiment out of town since there were a number of the members of those organizations who would render great assistance in carrying out the plans for the affair. He thought that under the circumstances the only day to hold it was on Labour Day, and it was finally decided on Mr. Denne's motion that the celebration should take place on Labour Day.

The Officers.

The permanent officers of the committee were then elected as follows:—

Honorary Chairman—Mayor Best.
Chairman—Ald. Hicks.
Secretary—S. R. Armstrong, who was given authority to engage what assistance he might be require.
Treasurer—P. Campbell.

A discussion then took place on the form which the celebration should take, and upon this question Ald. Hall suggested a plan which seemed to meet with pretty general approval. His suggestion was that in the morning a school children's parade should be held, commencing about nine o'clock, and this parade ending at Victoria Park, where the Mayor's address should be given and the seal of the city handed to him. After this parade, a trades' procession, participated in by all the labour organizations of the town, and floats representing the manufacturing establishments should be formed. In the afternoon a programme of sports might take place at the Driving Park, and fire works in the evening would prove a fitting close to the day.

The opinion of a number of the gentlemen present was that only one parade should be held, and it was thought that it might be better to combine the children's parade with the trades' procession. Mr. Murty thought that it would be more in keeping with the spirit of the event to bring into prominence the industrial feature of the town by making a 'trong trades' procession.

Rev. Father McColl's Support.

Rev. Father McColl was called upon for his opinion and stated that he was fully in accord with the project, and assured the committee of his hearty support. He thought that the idea to have the children in procession was a good one, but he was not in favour of having the smaller children or the girls in the procession.

Mr. H. Winch, who was described as "the father of parades," gave some suggestions which were valuable. He thought that it would be a good idea to invite the mayors and councillors from some of the other towns to participate in the event. A good suggestion was made by Ald. Tovey that a competition of fire brigades from the different towns be a feature of the day's programme.

A committee consisting of the present officers of the committee was appointed to strike the sub-committees, and they will report at the next meeting of the full committee.

The questions of finances was discussed at some length, and it was thought by some that a charge should be made for admission to the Driving Park in the afternoon, while others were of the opinion that since the town was holding the celebration, everything should be free.

Ald. Hall suggested that if all the ratepayers would turn out and vote for the by-law to erect a new fire hall and provide additional equipment on May 4th, they would by that action save ten times the amount required to pay for the celebration.

The meeting then adjourned.

A REMARKABLE STORY

Woman Tells of Her Fourteen Years of Suffering.

Mrs. H.J. Rehorn

From Buffalo, N. Y., comes a startling story illustrating how much suffering a woman can bear and yet live.

Mrs. H. J. Rehorn, 19 Landon St., that city, says:—

"Soon after the birth of my first child, 14 years ago, constipation became troublesome, and the various pills and medicines I used would give temporary relief, but gradually they seemed to lose their influence and the condition became worse. I must have used fully 60 different remedies.

"At times I would have no relish for food, and what I did eat would distress my stomach. Gas would form and rise, headache and restless sleep, bearing-down pain, and gradually I began to recognize the loss of strength, easily tired, and never feeling fully rested.

"My husband brought me home a bottle of a new medicine called Anti-Pill and from the first I began to improve. My appetite was better and what I ate did not make me feel uncomfortable. Anti-Pill is mild and gentle in its action, and yet it cured my terribly obstinate constipation and made me feel so well."

Every druggist sells this wonderful Anti-Pill that cured Mrs. Rehorn. 501

Swept Over the Falls.

Niagara Falls, N. Y., April 25.—An unknown man walked out into the rapids of the American channel above the Goat Island Bridge yesterday afternoon and was caught by the swift current and carried down the stream, passing over the brink of the falls.

Monkey Brand Soap cleans kitchen utensils, steel, iron and tinware, knives and forks, and all kinds of cutlery.

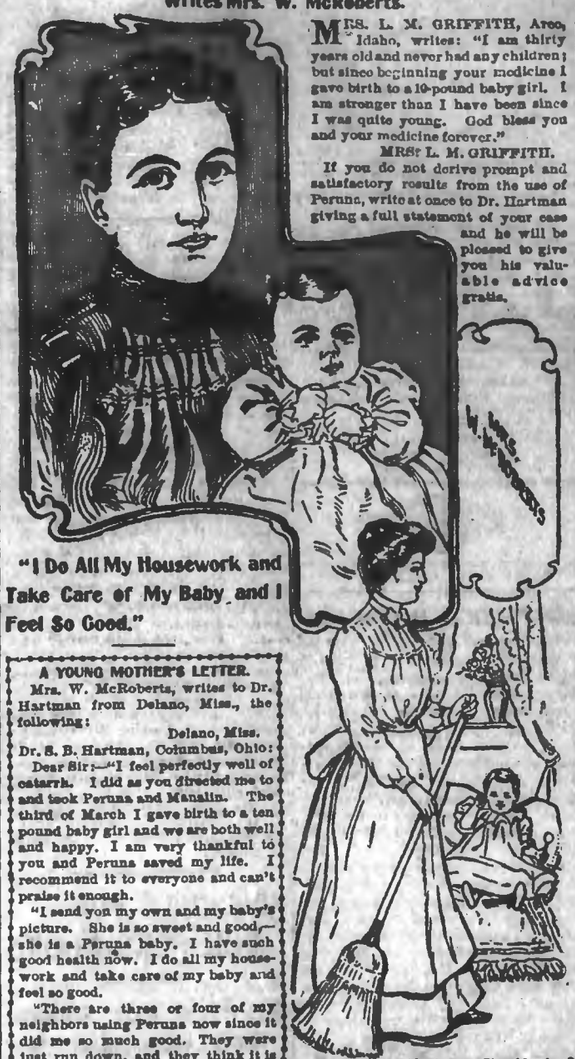
"PE-RU-NA SAVED MY LIFE,"

Writes Mrs. W. McRoberts.



"I Do All My Housework and Take Care of My Baby and I Feel So Good."

MRS. L. M. GRIFFITH, Arco, Idaho, writes: "I am thirty years old and never had any children; but since beginning your medicine I gave birth to a 10-pound baby girl. I am stronger than I have been since I was quite young. God bless you and your medicine forever."
MRS. L. M. GRIFFITH.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

A YOUNG MOTHER'S LETTER.

Mrs. W. McRoberts, writes to Dr. Hartman from Delano, Miss., the following:

Delano, Miss.

Dr. S. B. Hartman, Columbus, Ohio:

Dear Sir:—"I feel perfectly well of catarrh. I did as you directed me to and took Peruna and Manalin. The third of March I gave birth to a ten pound baby girl and we are both well and happy. I am very thankful to you and Peruna saved my life. I recommend it to everyone and can't praise it enough.

"I send you my own and my baby's picture. She is so sweet and good, she is a Peruna baby. I have such good health now. I do all my housework and take care of my baby and feel so good.

"There are three or four of my neighbors using Peruna now since it did me so much good. They were just run down, and they think it is fine, it is so good to give strength."—Mrs. W. McRoberts.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

BUILDINGS FOR SALE BY TENDER

Sealed tenders will be received addressed to the undersigned and endorsed "Tender for Buildings" for the purchase of the Buildings upon the property of the late Elias Burnham, corner of Charlotte and Park streets, Peterborough until noon of Monday the first day of May, in two parcels:—

Parcel I.—The Frame Dwelling House and Kitchen attached.

Parcel II.—The Stable, Sheds and other frame outbuildings.

Terms and Conditions.—(a) Separate sums must be placed on each parcel. (b) The highest or any tender not necessarily accepted. (c) The buildings must be removed from the premises within fifteen days after acceptance of tender. (d) Cash to be paid within one day after acceptance of tender, and before the buildings are disturbed.

The dwelling house is said to be a large two storey sound frame dwelling that could very easily be converted into two or three substantial dwellings and the outbuildings are heavily timbered buildings that might be moved in bulk.

The removal of the buildings is necessitated by the fact that the owners are placing the real estate upon the market for immediate sale.

Dated at Peterborough, the 17th day of April, 1905.

NON-POLITICAL LICENSE LAW.

The people look to the present Conservative Government of Ontario for a strict enforcement of the license law, not because everybody cares much or less for its enforcement, per se, but because of the loud promises made by the Conservatives in Opposition, to rigidly enforce the law and remove its administration from politics, when they might come to office. To give "non-political" enforcement the Provincial Secretary, Hon. Mr. Hanna, is taking heroic measures. He is discharging Liberal inspectors right and left and filling their places with true blue Conservatives. Mr. Hanna justifies this elimination of politics by substituting one politician for another, on the ground that he will have larger authority over inspectors appointed by himself from his own party. The reasoning is peculiar. He finds no difficulty now in chopping off a Liberal inspector's head simply because he is a Liberal, and he would have much more excuse for decapitating a Liberal inspector who failed in his duty. He can do this and no questions asked. But if he should dismiss a Conservative inspector there would be a row in the family. The local Conservative "patronage" committee would want to know, you know, why their appointee was "turned down." Does a man's political faith change the human nature born in him? Complaints were made by Conservatives that Liberal license inspectors showed political favouritism in the discharge of their duty. If there was any ground for such a charge, does any one for a moment believe that Conservative inspectors will do any better — that inspectors appointed by local party "patronage" committees will be less influenced by political bias? If any man wants to work a scheme he surrounds himself with subordinates, that are influenced by the same principles as himself. This makes collusion easy and gives crookedness a promising chance of success. The spoil involved in the office of inspector, ridiculously inadequate for the constant vigilance required and for undesirable features of the office, makes the loss of it a trifling matter. An inspectorship is therefore not much of a temptation as a reward to a Conservative office seeker. This consideration leads to the inference that a wholesale substitution of Conservative for Liberal license inspectors does not give promise of rigid enforcement of the license law without regard to political considerations. The whole machinery is built on a party foundation.

EDITORIAL NOTES.

It is not considered good form to intrude editorial personalities into journalism. Yet we have the World, published by Mr. McLean, thus transgressing: It says, "It would seem to be the rule that 'any old thing,' and any kind of man, is good enough for the public service."

Who will say that King Edward doesn't take horse sense with him even when automobiling? He has supplied a surgical instrument equipment, containing everything requisite in "first aid" emergencies, for his auto-car. It's a wise man who carries his umbrella in fine weather.

The Ontario Educational Association meeting in Toronto, is considering a plan for teachers' pensions. A pension is a pleasant thing to take with the rheumatics of old age, but it would appear that if teachers were given sufficiently liberal salaries they would be able to provide for their old age, without surrendering three or four per cent. of their salaries to form a pension fund.

The Dominion Railway Commission, established by the Laurier Government, is not a merely ornamental organization — it is doing good work for the farmer. The Commission has issued an order directing the railway companies to charge the same freight rates on grain as on the manufactured products of grain. Heretofore the railway freights have been so arranged that one half to one and a third cent more has been charged for carrying the farmers' grain than is charged the miller for manufactured products of grain. What this means to the farmer may be seen by the fact that it is estimated that this decision will add one cent per bushel to the price of grain. On the twenty millions of bushels of oats marketed the large sum of $200,000 will be put into the pockets of the farmers.

The Ontario Minister of Education has decided upon Toronto as the place for holding the Provincial fruit, Flower and Honey Show this year, and the department makes a grant of $1000. The Department also will accede to the request of a Hamilton deputation to the extent of making a grant of $500 to a fruit and flower show to be held in Hamilton in September. There is no objection to the first mentioned grant: the Toronto Show being a provincial exhibition, is a legitimate claimant upon provincial finances. But why Hamilton should be selected for special Government favours and a grant of $500 is made, if difficult to understand. If the city of Hamilton gets a special grant for a local flower show there is no reason why Peterborough should not receive a similar grant for its local exhibition. True, Hamilton sends two Government supporters, and we are certainly, on the same principle, entitled to the half of $500, say, $250. If special favours are going, our local representative should see that Peterborough gets its share. That's what we send him to Toronto for—to do his best for Peterborough. This town's wants have been well looked after in the past, and a falling off in this regard will be readily noticed.

NEW RIFLE FOR COL.-SERG. MOORE

Officers of 57th Regiment Honour Representative on Bisley Team.

First March-out of the Regiment for the Season—A Good Turn-out.

There were two interesting events in local military circles last night.

The 57th had its first march out of the season, and made a creditable appearance. The streets were lined with spectators.

Under the command of Lieut.-Col. Miller and headed by both bands, the corps left the drill hall shortly after eight o'clock and marched along Murray to George street, thence to Charlotte, along Charlotte to Water, to Hunter, to George, and along George to the hall. The men, considering it was their first march out of the season looked well and marched well. Their appearance was most favourably commented upon and the streets were lined with citizens who take a pride in the efficiency and smart appearance of the Peterborough Rangers.

The bugle band made its first appearance last night under the leadership of Sergt. Cookson. The total strength of the regiment last night, including the musicians was 265. The parade states showed the strength to be as follows: Rank and file, 185 men; Musicians, 48; stretcher corps, 12; sergeants, 25; subalterns, 10; captains, 7—total 285.

ORDERS.

The following orders were read:—

Orders by Lieut.-Col. J. W. Miller, commanding the 57th regiment, Peterborough Rangers.

No. 1.—Detail of duty for week ending April 26. Captain for week—Capt. Claxton, next for duty, Capt. Clegg; subalterns for week—Lieut. Langford; next for duty, Lieut. Wilson.

No. 2.—No recruits will be taken on the strength of the regiment after May 9th, as the rolls must be returned on that date.

No. 3.—Leave of absence is hereby granted to Capt. Walker.

No. 4.—The commanding officer has been pleased to make the following appointments:—No. 3 Co., to be sergeant provisional, Corp. Burret, vice Sergt. Murphy dismissed; No. 5 Co., Sergt. Rosenburg is translated to No. 3 Co. To be Sergeant, Corp. F. Dummit, vice Sergt. Rosenburg transferred.

By order—Geo. W. Bennett, captain, acting adjutant.

SERGT. MOORE HONOURED.

On returning to the drill hall the regiment was drawn up in companies and Lieut.-Col. Miller, on behalf of the officers presented Col.-Sergt. Moore with an order for the best Lee-Metford rifle of English pattern. Sergt. Moore goes to England in a few weeks with the Bisley team.

In making the donation Col. Miller said for the second time in its history the corps was honoured in having a representative on the Bisley team. He referred to Sergt. Bartlett's splendid record at Bisley in the past and now another excellent marksman was to go across the water in the person of Col.-Sergt. Moore. The Colonel said that Sergt. Moore had practised steadily and at the D. R. A. meeting at Ottawa last fall had won a place in the Bisley team being one of the twenty best marksmen, out of 400 shots sent to Rockliffe rifle range from all parts of the Dominion. Sergt. Moore had indeed won a high place and deserved credit for his persistence and skill, which he had by good hard work, developed. The Colonel felt he would do honour at Bisley, to himself, the town and the regiment.

Col.-Sergt. Edwards, of No. 2 Co., called for three cheers for Col.-Sergt. Moore, which were given with a vim.

Col.-Sergt. Moore [illegible] and words the appreciation [illegible] honour conferred upon him in the gift which he had just received. He was a man of few words and would do his best on the rifle ranges when the time came. It would not be Sergt. Moore who would be at Bisley, but the 57th Regiment, of which he was a humble representative. He again thanked them all from the bottom of his heart.

The men then sang "For He's a Jolly Good Fellow," and later on congratulated the popular sergeant on the tribute that had been paid him.

PRESENT NOT AN OPPORTUNE TIME

For Peterborough to be Elevated to City Status.

"Native Born" Thinks We Should Grow into Cityhood.

To the Editor of the Examiner:

Sir,—I have noticed some letters in the local papers lately respecting the advisability of passing the Act incorporating this town as a city at the present time.

I agree with those who think the time is not opportune.

Not one valid reason has been given why we should be incorporated as a city in my mind.

It is said that if placed among the list of cities, attention would be called to it sooner than if scheduled with the towns, and that a better price could be obtained for our debentures.

All business people and corporations before investing capital or locating here or elsewhere, make careful and specific enquiries as to location, railway and other facilities and personally inspect every prospective site; and, before debentures are tendered for, those who apply are fully alive to the assets and liabilities of the municipality offering same.

Some of us seem to have an undue appreciation of our status.

We are simply a town, and one capable of many improvements before asking to be classed amongst the leading cities of our fast growing Dominion, and why, therefore, beg for honours not earned and falsely advertise as a city as other towns in this county and the United States are doing daily.

I recognize the fact that the town is growing and increasing in importance and standing. I feel certain, however, if the citizens would think and take into consideration the fact that, many much needed improvements are being talked of and will in time come and that a number of new buildings will be built within a few years that will materially add to the appearance and dignity of a city, we would hesitate, if not refuse, to apply for a charter.

We expect to have a new Armoury, a new and imposing Collegiate Institute, a new South Ward School, Opera House, Fire Hall, Lock Works, Canadian General Electric Works doubled. We should have our road-beds paved at least from the C.P.R. and G.T.R., to, say, Brock street. The Street Railway will be doubled tracked, and perhaps run from somewhere to somewhere else. The above list of buildings and other attractions we can confidently look forward to being added to the many we have.

We need also and should have before asking to be relieved from our swaddling clothes, a City Hall and a Public Library and what a beautiful and suitable site the property lately purchased by Mr. Hamilton would have been for either of the last named two edifices.

To wind up; in common with many others who have expressed themselves as feeling as the writer does, we sincerely hope that the Town Solicitor will be instructed not to make the application shortly intended to be made to the Legislature for the purpose named. Whilst it is pardonable and quite right and proper to have a pride and interest in our town and its affairs, we must not be puffed up by remarks made by visitors from smaller and less favoured places, as in many respects we are far from being on a par with other towns, some of them styled cities, either in this country or the United States.

Thanking you, I am,

Yours truly,

A NATIVE BORN.

Y.W.C.A. BUILDING OPENED WITH APPROPRIATE CONCERT

Handsome New Structure Officially Declared Open Last Night by Hon. J. R. Stratton --Tribute to the Good Work Done by the Association in Peterborough -- A Programme Appropriate to the Occasion--Addresses of Congratulation and Good Wishes--The Building Well Adapted to the Needs of the Young Women---A Creditable Monument to Generosity of Peterborough Citizens.

When Hon. J. R. Stratton received from Mr. Blackwell, architect, the keys of the completed Young Women's Christian Association building last night and formally declared it open for the beneficent work it is designed to do, a distinct epoch was marked in the advancement of the interests of the Association, and its equipment, represented by the splendid facilities which the new structure provides. Post nubila Phoebus — after the clouds, sunshine — the sunshine of present prosperity, which, shining into the future, indicates a pathway of progress and triumph in good works, which, under Divine Providence, may be abundantly realised. The Association has had its dark days — its hours of trial and despondency — but the dawn of a brighter day has come, and its future success is all the better assured, for the generous and practical sympathy with which the public has co-operated in the new building project, is promise of practical sympathy and support in the years to come. The large attendance of the public last night was an additional proof of their interest in the new building, and the work of which it is to be the centre, an interest which was warmly maintained throughout the interesting ceremonies and incidents of the evening. As the visitors arrived at the building, which they did at an early hour, they were given the freedom of it, and took advantage of the privilege to inspect it in every part, and many were the expressions of admiration and satisfaction heard, respecting the beauty of the interior and its excellent adaptability to the varied functions which the Association is called upon to perform. In formally opening the building Hon. J. R. Stratton gave a sympathetic and comprehensive address, reciting briefly the history of the Association and voicing the feelings of congratulation and hopefulness of the public interested in the work. Special reference was made to the success of the energetic work, which has been done by the ladies of the town who had been associated with the financing of the building scheme and with its triumphant completion.

NEW Y. W. C. A. BUILDING OFFICIALLY OPENED LAST NIGHT.

The Formal Opening.

After viewing the various parts of the building, everyone adjourned to the spacious gymnasium which was transformed for the occasion into an improvised concert hall, which purpose it admirably fitted. Here a choice programme of vocal and instrumental music was rendered by several of Peterborough's most popular artists. The chair was taken at 8 o'clock by Hon. J. R. Stratton.

The first number was a piano solo, which was rendered with splendid artistic effect by Miss Alice Roger.

This was followed by a vocal solo, "Kings of the Road," by Mr. R. Norman Jolliffe, which drew from the audience an enthusiastic recall, in response to which he gave "Dearie," in a refined musicianly manner.

The formal opening then took place, Hon. J. R. Stratton, the chairman delivering a brief address, which was followed by the presentation of the keys of the building by Mr. Wm. Blackwell, the architect.

Mr. Stratton in opening, congratulated the ladies of Peterborough upon the great success which had attended their efforts in the construction of the magnificent edifice which was being opened, and thought it particularly appropriate that it should be opened with a concert, as its erection represented the concerted action of the citizens. It should be a matter of great pride to our citizens to have in their midst such an Association and such a building. Few towns possess such enterprising and progressive business men, and certainly, nowhere, such ladies. The speaker, amidst much applause, referred to the building monument to their enterprise and energy which had been erected in the Y.W.C.A. building.

A Little History.

The Y.M.C.A. had been instituted in town about 20 years ago, though not under such auspicious circumstances as those attending the opening of the edifice now being opened. A good-natured rivalry might be instituted to advantage between the two institutions, and if such were the case he felt assured that the ladies would not be behind.

Fourteen years ago—in the year 1891—a young man, who had joined the Y.M.C.A., had felt the necessity for the erection of a suitable building for the ladies, and had spoken to Mr. Colville, who was then the general secretary, who called a meeting, at which the organization was effected. This meeting was attended by sixteen ladies, of whom three are still members, the others having since removed, or are deceased. The remaining members, Mrs. Fairburn, Mrs. Walsh, Miss Nicholls, he was pleased to see were present. It was a matter of gratification that they should be in attendance at the opening of the building, after the project had emerged triumphantly into the sunlight, from beneath clouds which had enveloped it in its preliminary stages.

Some are skeptical as to the financial ability of the ladies to successfully manage an enterprise of such magnitude. The splendid manner in which the financing of the project, while the building was in course of construction was carried out, left no doubt in his mind as to their ability as to the success which would attend their future efforts. The sum of $22,000 had been raised, which left a balance of about $10,000, which he felt, would without doubt, be secured. The speaker referred to the many troubles which had been experienced during the past fourteen years, with the many removals and changes from one location to another which had unevoidably occurred. He was glad to be able to congratulate the Association of having now secured such a splendid, permanent location.

We all, he remarked, desire Peterborough to take its place in future amongst the best cities in the Dominion, and the Y.W.C.A. building would remain as a monument to its enterprise and progressiveness.

Senator Cox's Liberality.

The necessity for such a place had been keenly felt in the past. To the male portion of the community, is offered a much more varied choice of places to which they may retire for rest or recreation when it becomes necessary, than is usually afforded the fair sex. This will be entirely obviated in future as the building affords ample opportunity for the supplying of every necessity of this nature.

The speaker then referred to the many kindnesses for which the Association were indebted to Senator Cox, and referred to the occasion, when they were deprived of a home and he had come to their assistance by giving them quarters on George street. His warm sympathy with the cause of the Association had prompted him to offer one-quarter of the cost of the erection of the building. The death of Mrs. Cox, who had departed to her rest, since she had laid the corner stone, on September 7th, last, was referred to in feeling terms.

It was the desire of the ladies to thank all who had made donations to the funds of the institution, whether in large or in small amounts. The generosity of Mr. Stewart, of the American Cereal Company, in donating $2,000, and also of Mr. Fred Nicholls, of the C.G.E. Company, who had contributed $1,000 were spoken of. The contributions towards the furnishing had also been most generous. Mrs. Davis, Mrs. Walsh and Mrs. Wood, having each made liberal donations, the amounts of which may be found in another column. Numerous ladies had contributed in a greater or lesser degree, and all who purpose availing themselves of the opportunity of residing in the building will find it admirably equipped throughout.

After referring to the Jubilee of the Association, held this year, the speaker closed by again expressing his hearty congratulations to the ladies upon the success which had crowned their efforts.

After the presentation of the keys by Mr. Blackwell, Hon. Mr. Stratton de-

HON. J. R. STRATTON,
Who Officially Declared the New Y. W. C. A. Building Open.

clared the building formally opened.

The Doxology was then sung, this being followed by a brief but happy speech by Dr. Morrison.

Other Addresses.

There were, the speaker thought, three classes of people to be congratulated, Hon. Mr. Stratton had most properly congratulated the people of the town, which is one of the few towns, which has a fully equipped Y.W.C.A. building. He (the speaker) was a member of the Advisory Board of eight or ten gentlemen, and during the past year they had been called upon, on only two occasions for their assistance. No fear need be entertained, he thought, that the Board will be overworked. He congratulated the Board of Directors upon the successful manner in which the preliminary arrangements had been carried out. They had selected the lowest tender, which is a somewhat unusual occurrence. To the young ladies of the town, the he thought the citizens should be very grateful, for the enterprise and energy which they had displayed in the erection of so magnificent a building. He hoped the girls would avail themselves of the many benefits to be derived from the building, particularly from the gymnasium.

Speaking with regard to the doubts which were expressed in some quarters with regard to the ability of the ladies to successfully manage the institution, the speaker remarked that he did not expect it to be self-sustaining for some time to come, but that this need occasion no anxiety as he felt certain that the business men of the town would continue to contribute generously till it arrives at a self-sustaining basis.

Col. E. B. Edwards, as president of the Y.M.C.A., expressed the congratulations to the ladies of the Y.W.C.A. of the members of the Y.M.C.A. It should be a matter of pride to all that such a building had been erected largely through the generosity of one of Peterborough's noblest ladies. He gratefully acknowledged the assistance which had been lent the Y.M.C.A. by the ladies, who now have a building offering many advantages over that of the Y.M.C.A.. The ladies had on many occasions been their guests, and he expressed the belief that the compliment would be returned. The speaker closed by ex-

DR. DEVITT IS VICE PRESIDENT

And Dr. Morgan Appointed on Committee of O. F. A.

Annual Meeting was Held in Toronto on Monday.

The annual meeting of the Ontario Football Association was held Monday at the Walker House. President Dr. W. P. Thompson was in the chair, and the representatives were:—H. W. Brown, D. Forsythe, P. W. Brown, S. Brubacker, Berlin; T. Aitkin, G. D. Hunt, Galt; C. Stewart, Seaforth; H. C. Cheswright, Walkerton; F. D. Woodworth, H. C. Crawford, C. J. Atkinson, F. H. Brigden, J. B. Gould, Garnet Lea, J. H. Fife and Thos. Brownlee, Toronto University; B. W. Collison, Cornwall; Dr. Devitt, Bowmanville.

The constitution was amended to read:—"That all amendments to the constitution in future must be sent to the secretary two weeks before the annual meeting." The weight limit for

DR. MORGAN
Elected a Member of Amateur Standing and Registration Committee at O. F. A. Meeting Monday.

junior teams was abolished, but the age limit was left at 21.

The O.H.A. amateur definition was adopted. Berlin juniors, who claimed the championship on a technicality, were ordered to play off with the Broadview juniors, Toronto champions, on or before May 24. The game last Saturday between Galt and the Royal Canadians was declared no contest as far as the association is concerned. The next game in Galt, if played under the direction of the league, will determine the Ontario championship.

These officers were elected:—Hon. President, H. J. Crawford, Toronto; Hon. Vice-President, Dr. W. P. Thompson; President, Thos. Brownlee; Secretary-Treasurer, D. Forsyth, Berlin. Vice-Presidents—Dr. Devitt, Midland League; F. H. Brigden, Toronto League; J. W. Porteous, Galt; W. F. F.; W. E. Bryan, Toronto University. March Committee—F. D. Woodworth, Chairman; Dr. Devitt, A. W. Brown. Amateur Standing and Registration Committee—R. C. Cheswright, Walkerton; J. H. Fyfe, Toronto; Dr. Morgan, Peterborough. International and Interprovincial — T. Brownlee, Toronto; D. Forsyth, Berlin; J. Brubacker, Berlin. Auditors, T. T. Aitkin and D. T. Brown, Galt.

COLTS DEFEATED BY SEVEN RUNS

Opened Cricket Season in Millbrook Monday

Defeat Due to Lack of Practice—Return Game to be Played May 4th.

The Colts opened the season Monday with a game in Millbrook and were defeated by seven runs. Lack of practice and loose fielding in the second innings, were the chief causes of the Colts' downfall, but the bowling was lamentably weak and was hard hit throughout. The Colts did well in their opening innings and completed 87, Main's 39 being the largest contribution.

Millbrook were all out for 54, Collins leading with 20.

A second innings proved disastrous for the Colts. Their innings was productive of but 53; Main with 30 and Conroy with 13 leading.

Millbrook went to work with a vengeance and smashed up 91 ere they were

MR. G. L. MAIN,
Who Scored 59 of the 154 Runs Won by the Colts in the Millbrook Game.

disposed of, winning the match by 141 to 134.

The return game will in all probability be played early in May and the Colts are confident of their ability to win easily.

Below is appended the score:—

Colts.	1st Innings.
G L Main, b Mitchell	39
Hall, H. (Capt.) b Mitchell	1
Weller, c Collins	3

SLIPS.

Cummings fielded like a veteran. His work was spectacular.

As usual, Captain Hall was the hardest worker on the field. Starts was a good second.

A week or the Oval will make a vast difference in both batting and bowling.

HURTUBISE WILL WRESTLE McDONOUGH

Offers to Accept the Challenge of the Latter.

Peterborough, Ont.,
April 25th, 1905.

Sporting Editor of Examiner.

Replying to Mr. J. McDonough's challenge of 24th, I had decided to give up wrestling, as I had won the championship twice and Mr. McDonough had the same chance as I had, and it would have settled the disputs. I will wrestle under these conditions, viz:—That the bout be held in private as Mr. McDonough and I had a number of practices together and I do not want my friends in Peterborough to think I might be in some game to make money and my reputation is more to me than a wrestling championship; also that it be for a side bet of not less than $100. I will meet Mr. McDonough at any time or place so if he is in earnest he can see me about arrangements.

EUGENE HURTUBISE,
Box 468.

THE CITY LEAGUE ADOPTS ITS RULES

Meeting of Representatives was Held Last Night.

A very enthusiastic meeting of the City League was held last night in the T.A.S. rooms. There were two representatives present from each of the three teams entering the league and many matters were talked over. After much discussion it was decided to leave the arranging of the schedule till next Monday night in the T. A. S. rooms and Messrs. Grady for T. A. S.; Bellingham for Auburns; Dan McCabe for Peterboroughs II. and Bob. MacEwan were appointed as a committee to draw it up and also playing rules for City League games.

It was decided last night that each team must play six games.

Each team must give the secretary of the league the names of all its players one week before first game of league.

Each team must deposit ($10) five dollars before the first game as a guarantee that the team will finish the schedule.

The following rule was adopted:—"Any City League player participating in more than one Midland League game will be thrown out of City League."

Messrs. Grady, Bellingham, and McCabe were appointed an Executive Committee.

The rest of the rules and the schedule will be arranged next Monday night.

The Turf Club is to meet the Executive to arrange for playing grounds.

The matter of trophies was also discussed, but was left over till next meeting.

The secretary of the league stated today that some good ball would be played this summer, the teams were evenly matched and had been "hustling" for players. They will probably play their games in the Driving Park, if it can be arranged.

BASEBALL.

Port Hope has dropped out of the Midland League. The cause of losing the presidency of the circuit for the town was too great.

• • • •

In a rather one-sided game of baseball the "Daisies" defeated the "Little Petes" by a score of 27-9. The winning team showed a most decided superiority both in batting and fielding, keeping the "Petes" from scoring till the third innings.

• • • •

St. John's Guild team will practice tonight at 6.30 at Morrow's field.

• • • •

The Arrows easily defeated the Young Frontenacs in the return match last night. The score was 14-1. The game was played at the Driving Park.

• • • •

The local Midland League team has arranged a game with the Shelbournes of Toronto, here on Saturday, May 6th. This will be the opening game of the season and should be a good contest.

• • • •

The Guild League will meet on Thursday night to draw up the schedule for the season. All Guilds which intend entering teams are asked to have representatives present.

LAWN TENNIS.

The members of the Hiawatha Tennis Club are reminded of the meeting called for Saturday night at the Y.M.C.A. at 8 o'clock. This will be an important meeting, and all the members are asked to be present.

Impurities In the Blood

TELL OF TORPID, SLUGGISH LIVER ACTION AND INDICATE THE NEED OF

DR. CHASE'S KIDNEY-LIVER PILLS

There is no getting round the fact that the liver is responsible for the impurity of the blood in the spring.

Awaken the liver to action by the use of Dr. Chase's Kidney-Liver Pills and you at once remove the cause of the ills and discomforts of this time of year.

Coated tongue.
Bitter taste in the mouth.
Shortness of breath.
Gas on the stomach.
Dull, sick headache.
Biliousness.
Irregularity of the bowels.
Weak, dizzy feelings.
Irritable temper, discouragement and despondency.

These are some of the most common indications that the liver is failing to filter the poison waste matter from the blood.

Dr. Chase's Kidney-Liver Pills cleanse the system thoroughly and well, by causing a free action to the bowels.

By their direct and certain action on the liver they purify the blood and bring about a good flow of bile into the intestines—the only means by which constipation can be actually cured.

Dr. Chase's Kidney-Liver Pills are an indispensable family medicine of proven worth. One pill a dose, 25c. a box, at all dealers or Edmanson & Bates & Co., Toronto. The portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every box.

Sealed tenders addressed to the undersigned and endorsed, "Tender for Additions and Alterations, Drill Hall, Toronto, Ont.", will be received at this office until Friday, April 28th, 1905, inclusively, for the execution of sundry works of addition and alteration at the Drill Hall, Toronto, Ont., according to plans and specifications to be seen at the offices of Mr. E. J. G. Curry, Architect, Toronto, Ont., and at the Department of Public Works, Ottawa.

Tenders will not be considered unless made on the printed form supplied, and signed with the actual signatures of tenderers.

An accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p. c.) of the amount of the tender, must accompany each tender. This cheque will be forfeited if the party tendering declines the contract or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED. GELINAS,
Secretary.

"Imperva" is a stylish handsome cloth that rain can't get through.

"Imperva" is not a waterproof cloth, it is a cloth waterproofed.

That is considerable of a difference.

"Imperva" is the most stylish light overcoat cloth, in handsome patterns and colorings, made waterproof by our special process.

"Imperva" Rain Coats look and feel like ordinary good quality cloth—our rain-proofing process neither dims the color nor changes the fibre—but they are perfectly proof against rain.

We make "Imperva" into stylish rain coats, with or without belts at the back. We would like to show them to you.

Prices, $18 to $25.

LORD GREY ASKS REFLECTION

His Excellency the Governor-General and Countess Arrive on First Official Visit to Toronto — Hopes There Will Be No Clash of Race and Creed—Toronto Club Banquet.

Toronto, April 25.—Their Excellencies Earl and Lady Grey arrived in Toronto at 7.30 o'clock last night and were given a hearty welcome by the citizens. In the vicinity of the Union station several thousand people gathered and a large detachment of police was required to keep the passage clear for the King's representative and his estimable wife.

With the coming of Their Excellencies a round of social gaiety is commenced, which will close only with the departure of the distinguished visitors on Friday evening.

Those accompanying His Excellency to Toronto are Lady Grey and daughters, Lady Sibyl and Lady Evelyne, Col. and Mrs. Hanbury-Williams, Mr. and Mrs. A. Sladen, Lord Bury and Capt. Newton and drove at once to the Toronto Club.

Dined by Toronto Club.

Earl Grey was entertained at dinner by the members of the Toronto Club. American Beauty roses and lilies of the valley decorated the table and the band of the 48th Highlands, under Bandmaster Slatter, played several selections. There were but two toasts, "The King" and "The Governor-General," both of which were felicitously proposed by the chairman and received with musical honors.

Earl Grey's Reply.

Replying to the toast to the Governor-General, His Excellency referred to his three previous visits in an unofficial capacity. It had long been his conviction that there was no reason why before the end of a century Canada should not excel the United States in "everything that goes to make a great, a happy, a prosperous and a high-souled nation." The vastness of the country and, touching on the west's importance, spoke of recent Japanese experiments with wheat as against rice as a food. "From this," he said, "you may, I think, take it that we are on the eve of a growing demand for flour and wheat which will grow to enormous dimensions, at first from Japan and later on from the great continent of which Japan is only the porch. So long as the policy of the United Kingdom, of the United States, and of Japan, is directed towards a common purpose, the bettering of humanity, and is upheld by the power of their combined fleets, the peace of the Pacific is assured, and there will be a free and undisturbed pathway for the commerce of Canada into the ports of Asia.

Meaning to Canada.

"No man can foresee what this may mean for Canada. It is possible that the future may see an even greater trade between Canada and Asia than is now carried on between Canada and Europe. When that comes about I would ask you not to forget that it is the arm of the old mother, which is keeping open the door of Asia for Canadian trade, and that it is the fleet of the old mother which is keeping the way to that door open, and yet Canada does not as yet contribute a single ship or dollar to this Imperial service.

"Do not think I complain. The people of the United Kingdom do not complain, and do not think when I state this fact that I am finding fault with the attitude of Canada. It is recognised in England that although you do not as yet contribute to the cost of the Imperial fleet you are contributing to the Empire in many and different ways. That you should have reclaimed so large a part of this mighty continent from the wilderness, and by your spirited railway and steamship enterprise been able to make Canada the natural route between England and Japan, and between England and her great Australian Colonies; that you should have given the lead in your preferential tariffs, in your preferential postal arrangements and your cable subsidies, with the object of binding the component parts of the Empire closer together, is to have done much and to have given a lead of which any people may reasonably be proud."

National Self-Respect.

The decision of the Dominion Government to assume the whole responsibility for the defence of Halifax and Esquimalt showed a national self-respect. It was sometimes said by the detractors of Canadians that they are now apt to think of what the Empire can do for Canada than of what Canada can do for the Empire. "I believe this to be just as great a libel upon them as to say that the prevailing sentiment in Canada is not "What can I do for Canada," but "What will Canada do for me?" said the earl.

"I stated that I had not yet had an opportunity of making myself acquainted with more than a small portion of your great Dominion, but I have enjoyed the signal advantage of making the acquaintance of the greater number of your senators and members of Parliament. Those I have seen have given me a most interesting and satisfactory account of the countries and territories and of the people they represent. Judging from the reports I feel that Canada is the incarnation of the Arcadia, which I had formerly believed had only existed in the regions of mythology."

Use the Salvation Army.

Touching immigration he said it would be a good thing for Canada and for the Empire if we could concentrate the disinterested enthusiasm which at present animates the Salvation Army by using it for the purpose of settling on the unoccupied lands worthy and respected families, selected from the poor of the cities in the United Kingdom.

No Race and Creed Clash.

"I have been reminded frequently by your Premier," he went on, "although I do not think it is necessary, that it is not the Province of a Governor to interfere. There are, however, some subjects on which men of all parties are agreed, and on which it is permitted for me to express an opinion without running the risk of rousing a single dissentient voice, and one of them is the hope that the clash of race and creed conflict shall never be heard in Canada, and the conviction that in the complete union between the two great races lies the secret and strength of your future."

RIGHTS OF THE TRANSVAAL.

Partial Self-Government Granted By Colonial Office.

CRONJE: BREACH OF TREATY

Until Bitter Memories Have Been Softened by Time a Full Autonomy is Not Advisable, Writes Colonial Secretary Lyttelton to Lieut.-Governor Lawley—Orange River Colony is Not in It.

London, April 26.—The draft of the new Transvaal constitution was issued yesterday. It provides for a Legislative Assembly consisting of the Lieutenant-Governor, six to nine official members and thirty to thirty-five elected members. Every burgher of the late South African Republic is entitled to vote for members of the first Volksraad (Assembly), as well as all white males of British birth occupying premises at an annual rental of not less than $50, or having capital to the value of $500, unless convicted of treason since May 31, 1902, or of murder, unless they have obtained a free pardon. Financial measures must be recommended to the Assembly by the Governor, and no part of the revenue may be appropriated without his authority.

In a communication to Lieutenant-Governor Lawley, Colonial Secretary Lyttelton says the time is not yet ripe to grant full self-government. The latter involved party government, and this in the Transvaal will become more practicable when the two races have acted longer together under equal rights of citizenship, and when bitter memories have become softened by time.

Secretary Lyttelton explains that similar constitutional changes cannot be extended to the Orange River Colony immediately because there do not so largely demand them.

What Cronje Says.

Norfolk, Va., April 26.—Gen. Cronje, who was a member of President Kruger's cabinet for 12 years and a noted Boer leader, and who now is on a tour of America, was shown a copy of the new constitution just issued from London.

He said: "It is a breach of the treaty of peace made us by England in 1902, which promised a self-government as soon as our country was in a settled state.

"King Edward has been advised by the capitalists in the drawing up of this constitution. The only thing to be done is to be patient and work with petitions to the British government."

To the remark that petitions would be of no avail, he responded:

"Though they may trample us under foot for ten years, they must listen to us some day. The Briton now in South Africa is allied with the Boer and wants self-government and does not want the country to be ruled by capitalists and magnates."

Pere Marquette Inquiry.

St. Thomas, April 26.—Judge Winchester opened the investigation in regard to the alleged employment of aliens and discrimination against Canadians by the Pere Marquette Railway Co. here yesterday. Several of the officials of road testified, and maintained that Canadians had not been displaced without good cause, and that Canadians had been fairly treated in promotions.

Attacking Missionaries.

Shanghai, April 26.—At Huchow, 90 miles from Shanghai, on April 18, an American missionary named Latimer was attacked by a native rodman, but he escaped by fording the canal and hiding in a thicket. The attack was wholly unprovoked. Similar outbursts of anti-foreign feeling have been rather noticeable lately.

Greatest Oil Well Struck.

Leamington, April 26.—The greatest oil well ever struck in Canada was brought out yesterday on E. Smith's farm north of Leamington. The oil started flowing at 3 p. m. and in the first eight minutes flowed 24 barrels.

Freight Sheds Afire.

Winnipeg, April 26.—Fire yesterday did $20,000 damage to the C. P. R. freight sheds at Moosejaw.

When life's autumn comes, women, worn out by the burdens of motherhood, yet shrink from that second "change of life" which will banish these burdens forever. They fear a change in form, in feature, in personal attractiveness. Such fears are largely warranted by the effects which this change produces in many women. But no woman need let these fears fret her. Those who have used Dr. Pierce's Favorite Prescription do not suffer from the change of life either in face, form or feelings as do other women. This fact is due to the intimate connection of the general health with the health of the organs peculiarly feminine. By preserving the health of these organs, and relieving the system from the debilitating drains, ulcers and inflammations which sap its health, "Favorite Prescription" paves the way for this natural change to come in Nature's way, without the loss of capacity to please others or personal inability to enjoy life.

"Your 'Favorite Prescription' brought me safely through that difficult period, called 'change of life,'" writes Mrs. Mary Hemminger, of 366 E. Ankeny St., Portland, Oregon. "This change made a very unpleasant disturbance through my entire system. I had hot and cold flashes, sick headaches, became excited, frustrated, nervous and irritable. My appetite was fitful and for days I was unable to eat a fair meal. My aunt recommended me to try Dr. Pierce's Favorite Prescription and it made a great change for the better. Within two weeks the unpleasant feelings had disappeared. I have a husband and eight children so have the care of a large family but was able to attend to my household duties without any difficulty and passed the period without any more trouble. I can recommend your 'Favorite Prescription' as a grand medicine for women."

You may be willing that somebody else shall say that their baby is "just as good" as yours, but you don't want that baby substituted for yours. Let dealers say what they like about other medicines being "just as good" but don't let them substitute anything for "Favorite Prescription." It is absolutely unequaled.

THE SCOUT ENQUIRY.

Opinion of Experts, But Jury is Not Altogether Certain.

Kingston, April 25.—The inquest into the death of Frederick Mullen by the explosion of a gas buoy on Tuesday last was continued yesterday afternoon and evening. The evidence of the crew threw no further light on the cause. Three experts, Dr. Goodwin, professor of chemistry at Queen's; Thomas Wilson, electro chemical engineer, Ottawa, and John Arnoldi, medical engineer, New York, were also examined as to properties in acetylene gas, and all favored the theory that the explosion was due to defective welding. The latter suggested that the metal in the buoys had been weakened through lying outside exposed to the frost all through the winter.

The jury entered the following verdict: "We are of the opinion that the evidence adduced does not definitely show the cause of the explosion, but would strongly urge that all such buoys be thoroughly inspected each year and subjected to a sufficient pressure test.

"All such buoys should be filled at some place where the safety of the general public would the least be imperiled."

Ghastly Find on "Whitbeck."

A ghastly find is reported from Oswego. When Capt. Mallett of the barge Whitbeck furled his topsails on arrival there, he found a part of a human rib with shreds of flesh attached. The barge was one of the Avon's consorts and was at the drydock here when the fatal explosion occurred.

Isaac Asseltine says that he was working on the Cataraqui bridge and after the explosion saw a large article flying through the air and fall into the lake. It is thought to be the cage of the buoy, into which the body of Mate Guillard was crushed by the explosion.

$100 Reward, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Quebec Ex-Premier Dead.

St. Hilaire, Que., April 25.—Hon. Gedeon Ouimet, retired superintendent of public instruction of Quebec, died Sunday night. He was born at Ste. Rose in 1823, and from 1857 to 1867 represented, the County of Beauharnois in the Parliament of Canada, and after Confederation was member for Two Mountains in the Quebec Legislature. For three years he was Premier of the Province.

An Old Man's Crime.

Brockville, April 25.—In the County Judge's Criminal Court, before Judge McDonald, a man named John Boyle, aged 74 years, was charged with committing a criminal assault upon Katie Jarnack, 8 years old. The girl was not injured, but the assault has created much feeling in the neighborhood. His trial was fixed for Friday without a jury.

One Lady's Recommendation Sold Fifty Boxes of Chamberlain's Stomach and Liver Tablets.

I have, I believe, sold fifty boxes of Chamberlain's Stomach and Liver Tablets on the recommendation of one lady here, who first bought a box of them about a year ago. She never tires of telling her neighbours and friends about the good qualities of these Tablets.—P. M. Shore, Druggist, Rochester, Ind. The pleasant purgative effect of these Tablets makes them a favourite with ladies everywhere. For sale by all druggists.

The STA-ZON is the latest eyeglass success. We recommend them for comfort, security, durability and neatness. We measure the defect in your vision and exactly neutralize it with lenses.

CITY SHOE STORE—HUNTER STREET

EXAMINER INSTALS A NEW MACHINE

Typesetting Machine Added to the Equipment

Composition Facilities Now Equal to Work of Sixteen Men by Hand.

Yesterday the Examiner installed a new improved Roger typograph typesetting machine, which will increase the composition facilities of this office to four machines, or equal to the work of sixteen men setting type by hand. This machine is a brand new article, just turned out from the shops of the Typograph Company, of Windsor, and is the same style as is used in many of the large city offices including the Toronto Telegram. The increasing quantity of news matter available, made by the growth of the town, has rendered it necessary to make this addition to the mechanical equipment, and in its determination to be at the forefront in the newspaper business the Examiner has spared no expense to place it in the lead.

With the new machine it will be possible to get the news set up earlier in the day, and the paper will be placed on the streets at 4.30 sharp, giving the latest news up to the hour of going to press.

SUN AND SNOW

Sometimes Help the Hair to Go.

In any changeable climate the hair is apt to become brittle and to break off stubby here and there. This makes a hair-dressing almost a necessity, especially to ladies. In using a hair dressing why not get the best one that combines with it the efficiency in killing the dandruff germ, the germ that eats the hair off at the roots, causing what is called falling hair, and in time baldness. Newbro's "Herpicide" is that kind of a hair dressing. You have no idea how delightful your scalp will feel, and how stylish your hair will appear, after an application or two of Herpicide. It is certainly a wonderful innovation as a scalp antiseptic and hair-dressing. Sold by leading druggists. Send 10 cents in stamps for sample to The Herpicide Company, Detroit, Mich. Ormond & Walsh, special agents.

In every important centre where Rev. Dr. Perry has spoken he has delighted large audiences. Hear his lecture "Religion is Business and Business is Religion," Murray Street Baptist Church, Thursday evening, April 27th. Admission 25c.

A. Semple and one for Wm. Cox & Co. — Cobourg World.

HEAVY DAMAGES WERE AWARDED

$1200 Awarded Louis B. Doble in Suit Against Peterborough Canoe Company

True Bill Returned in Stabbing Case—Court Adjourned at 12:05 a. m.

At the Assizes which opened yesterday at the Court House, the Grand Jury returned a true bill, on four distinct counts, against Guiseppi Gilleonardo, the Italian charged with attempting to stab Chas. Butcher and John Montgomery. The case is being heard to-day.

The only case disposed of yesterday was that of Doble vs. the Peterborough Canoe Company, an action brought by Louis B. Doble, a bench hand, to recover damages to the amount of $5,000 and costs from the Canoe Company, on account of injuries received while operating a planing machine, while in their employ on September 20th, 1904.

The complaint of plaintiff was to the effect that the machine was in a defective condition, and unsafe to operate, and he claimed damages because of the serious bodily pain, loss of time and wages incurred by the loss of his right hand, which also permanently incapacitated him from following his occupation.

The defendants alleged that the accident had not been the result of negligence on their part.

Considerable evidence was heard; after the arguments by respective counsel were heard the jury retired and after finding in favour of the plaintiff, returned to request His Lordship to fix the amount or damages. This he declined to do, but informed them that in view of the evidence given the maximum amount was $1,500.

They then again retired, returning at 12.05 a.m., bringing in a verdict awarding plaintiff damages of $1,200 and costs. Plaintiff's solicitors, DuVernet, Jones, Ross and Ardagh; defendant's solicitors, Donnastoun, Peck, Kerr and Stevenson.

At the time of going to press the jury in the Gilleonardo case at the assizes, had not delivered a verdict and it is said that there is a probability that it may disagree.

The case of P. H. McGuire, charged with obtaining money by false pretences, is being dealt with this afternoon.

NEXT DOOR TO POST OFFICE.

Y. W. C. A. BUILDING OFFICIALLY OPENED.

Continued from Fifth Page.

pressing the hope that the two would in future continue to exist amicably as brother and sister institutions.

Music and Refreshments.

Mr. H. W. Morphet then rendered a vocal solo, "Queen of the Earth," in a most pleasing manner.

This was followed by a vocal solo by Miss Helen Davies, whose recent triumphs in the realms of song are too well known to require further comment.

An intermission of fifteen minutes then took place to allow the audience an opportunity of inspecting the various parts of the building, and, incidentally, of partaking of the delightful refreshments, which were served from an improvised buffet in the dining room.

Tea was poured by Mrs. Marie Ferguson and Mrs. Dr. Morrison, while the visitors were charmingly and painstakingly cared for by a number of young ladies.

After the intermission, during which the Y.M.C.A. orchestra rendered several selections, which were much enjoyed, the musical programme was completed.

Miss Gumpricht rendered a piano solo in a thoroughly pleasing manner, this being followed by a vocal solo, given in good voice and with splendid effect, by Miss Kendry. Mr. Markle, of the Conservatory of Music staff, contributed the next number, a violin solo, 7th air, Varie, by DeBeriot, in which he displayed a marvellous technique, as well as great power of expression. A vocal solo by Miss Lillian Moore greatly delighted the audience.

The accompaniments of the evening were played with fine sympathy and artistic feeling by Miss Alice Roger.

The furnishings of the building, which are now almost completed, are of a most beautiful character, indeed, and have been selected with a fine artistic regard, both as to harmony of colour and of arrangement.

The main hall, leading from the vestibuled entrance, is about 20 feet in width, and is fitted up with a charming "cosy-corner" and grate, and contains a handsome chair donated by Dr. Perry Goldsmith. Furnishings were donated by several of the ladies.

The furnishings for the spacious reading room, which opens on the left of the entrance were the gift of Mrs. Jas. Wood. These include a handsome Axminster rug, madras muslin curtains, tables, chairs and reading matter.

The members' drawing room, which is a most exquisite symphony in green, was furnished by Mrs. A. L. Davis. The floor is covered by a large Wilton rug, while a dado of green burlap surrounds the room. The ceiling is tinted, the walls also being of a delightful green. The furniture is principally of mahogany, and consists of chairs, tables and book case, containing two hundred volumes. A fire place of green tile completes a most luxurious and charming effect.

The boarders' sitting room, the furnishings of which were presented by Mrs. Walsh, is also most comfortable and home like. The woodwork is of oak, the hangings being of an oriental character. The room is furnished with most comfortable chairs, and also contains tables, fire place and piano.

The office of the General Secretary, Miss Lough, presents a most business like aspect, though certainly not without its artistic side. A handsome roll top desk, and revolving chair, which it contains, were the gifts of Mrs. Hazlitt.

The sleeping apartments up-stairs were furnished by several ladies.

Especial credit is due to Mrs. Walsh, Convenor of the House committee, for her indefatigable efforts in assisting to the splendid success achieved last night, as these were in no small measure responsible for the beautiful nature of the floral and other decorations. The committee wish to thank all who assisted in this and other ways.

Mrs. J. Nugent, Convenor of the Social Committee of the Y.W.C.A., wishes to acknowledge the kindness of all those who assisted in any way in the formal opening, last evening, the young ladies who helped in the tea room, Mr. H. Long for his kindness in serving coffee, Mr. F. Mason for flowers, and Mr. Macfarlane Wilson for the loan of chairs.

The building, the cost of which will approximate $30,000, was built by Alderman Archibald McIntyre, Mr. William McIntyre being the architect. The brick and stone work was done by Mr. J. J. Hartley. The workmanship and material throughout are of the best quality, and the halls, corridors, and rooms spacious and airy. The wood work on the lower floor is of oak and is finished entirely in the natural wood.

The building, it may be said, is divided into two parts, the the western section being devoted to Y.W.C.A. purposes, while the eastern is fitted up exclusively for boarding house purposes, and has accommodation for eighty guests. A two horse power fan in the attic, in connection with a shaft running from the top to the bottom of the building, will ensure perfect ventilation. The boiler, for heating purposes, which is of 25 horse power capacity, was installed by Mr. F. R. J. McPherson, who also installed the plumbing and lighting, which are entirely satisfactory throughout. The roofing is of galvanized iron, the work being done by Mr. W. R. G. Higgins. The basement is of cement, the upper flats being pine. The gymnasium is admirably constructed for the purposes for which it is intended, which will undoubtedly be one of the most important features of the work of the Association. It is floored in oak, and is of an airy and spacious character.

The domestic science class room in the basement, which will be furnished later with the necessary appliances, is of ample dimensions to fulfil the requirements of this branch of the many-sided work of the institution. On the east side of the building is situated the entrance to the boarding house, a wide stairway leading to the parlour, and again from this leading to the sleeping apartments above. The dining hall, with adjoining kitchen, serving room, and pantry, are situated upon the first floor.

Upon the second floor are bathrooms and twenty-six bedrooms, the dimensions of which are 7 x 13 feet. The third floor is similarly arranged. Taken throughout it is difficult to conceive of any arrangement by which greater accommodation and comfort could possibly have been secured for the amount of money expended in construction, $30,000. The architectural work of Mr. Blackwell is up to the excellent standard which he invariably maintains in the many large projects which are entrusted to his care. Mr. McIntyre's work is of a uniformly excellent character, from basement to attic, the entire carpenter work, as has been pointed out, having been done under his supervision.

Return of the Dale Opera Singers.

The famous Dale Opera Singers will give a return engagement here under the auspices of the Young Conservative Club on Monday, May 1st. The evening will take the title of "A Military and Naval Night. The martial air and the song of the sea will allow the entertainers to show us in quite a different garb the fulfilment of their text, "The music and the fun are both good." Prices 25c., 35c., 50c., and 75c. Plan at Ormond and Walsh's on Thursday morning. 1d

"THE DAYLIGHT STORE"

We don't appeal to a man who is not at all particular about his clothes—to whom a suit is a suit—a hat is a hat—a tie is a tie, and one kind will answer as well as another—No one need take pains for him.

We appeal to men who are very particular about what they wear—about the fit, the shape, the style, the finish, and withal, the price.

To men who know what they want, and won't take anything else, men who are up-to-date and dress accordingly.

By this class of men our smart suits at reasonable prices are appreciated. A call solicited.

NO NAVAL BATTLE WAS FOUGHT

But Tokio Expects Important News From Sea Soon—Schwab to Build Russ Navy—Every Japanese Flagship Has on Board Two Professors of International Law to Guard Against Violation of Neutrality Anywhere—British Warships on Guard at Malacca—Hainan Cable Cut.

Tokio, April 27.—The Imperial Navy Department, beyond saying no battle has been fought between Admirals Togo and Rojestvensky, will give no information about the outlook, and it is impossible to learn anything of the Japanese plans for a sea fight. It is very well known that the heavier fighting machines are off the south coast of Formosa, and that the main torpedo boat fleet is in Kelung Harbor, the most extreme northerly port on the island.

There is a feeling here, gathered from official sources, that important news from the China Sea is not many hours away. Should it prove true that the Russian squadron has gone as far northeast as Hainan Island there is no reason why Japan should not strike without delay.

The Imperial Navy Department was, of course, anxious to avoid any international complications with France, but it can be said with certainty that Rojestvensky, once he is discovered in any of the harbors of Hainan, will be attacked forthwith, unless he observes the instruction of the Chinese authorities to put to sea.

Every Japanese flagship has on board two professors of international law, and undoubtedly in the case of Kamamura's squadron they will suggest the enforcement of law, in case it is defied by the Russians in Chinese waters.

On Guard at Malacca.

Penang, Straits Settlements, April 27. —The fourth division of the Russian escort Pacific squadron, commanded by Vice-Admiral Nebogatoff, was expected to pass Penang and enter the Straits of Malacca yesterday.

The British authorities are on the alert. Guard boats at night are patrolling the approaches to Penang.

Cable is Cut.

London, April 27.—The correspondent at Hong Kong of The Daily Mail states that the cable to Hainan has been cut, presumably by the Russian squadron to conceal the movements of the vessels there.

Schwab to Build Russ Navy.

St. Petersburg, April 27.—Schwab's negotiations with the Russian Admiralty have resulted in the practical conclusion of an arrangement for the construction of a number of formidable line-of-battleships of a type which probably will startle the world. Schwab will leave St. Petersburg to-day. The details of the construction of the vessels remain to be worked out, but they will be monster 16,000-ton vessels of enormous horsepower and of a peculiar type, combining the projectile-resisting power of the battleships with the speed and wide radius of action of cruisers. They will be delivered fully equipped as to armor and ordnance. Mr. Schwab guarantees to create vessels with 20 per centum higher efficiency than any now existing.

J. Sutcliffe & Sons'

ACTIVITY IN MANCHURIA.

St. Petersburg Hears of Triumph of Linevitch and Tokio Also Gets Good News.

St. Petersburg, April 27.— General Linevitch, in a despatch dated April 25, says:

Our advance posts of April 22 forced the enemy successively to evacuate the fortified villages of Manchensou and Nemanpaomeng. The Japanese occupied a fortified position about three miles south of Nemanpaomeng, but our artillery fire and the appearance of our detachment on their left flank induced them to retreat hastily to Kayancheng. The same day Russian advance guards approached Changtu, about fifty miles above Tie Pass, which is strongly fortified and occupied by the Japanese. Our artillery opened fire, but when it became apparent that the place was strongly held our troops retired. Our cavalry destroyed the telegraph line between Kayancheng and Changtu."

These Russians Beaten.

Tokio, April 27.—The following official announcement was made yesterday:

"On April 24 a Russian force pressed our advanced cavalry and attacked them in the vicinity of Kaiyuan. Our casualties were thirty-eight. The enemy left about 200 dead.

"Two other Russian forces attacked Changtu and Siaotatsu, respectively, but retreated north when the other Russian force was defeated at Kaiyuan."

Prince Off to the Front.

Pekin, April 27.—According to present arrangements, Prince Frederick Leopold of Prussia will leave on Sunday next via Kalgan and Kiachta to join the Russian army in Manchuria.

Gopon Has Imitators.

St. Petersburg, April 27.—Father Gopon has a successor in the person of a priest named Nicholas, who has been making a great stir among the workmen, addressing them nightly in various parts of the industrial districts.

Martial Law.

Tokio, April 27.—The privy council yesterday decided that martial law shall be proclaimed throughout the Island of Formosa.

Will Meet in June.

St. Petersburg, April 27.—Several newspapers announce definitely that the representative body promised in the imperial rescript will meet at St. Petersburg in June.

Annual Parade is Off.

St. Petersburg, April 27.—As all the guard regiments will be held in readiness in various parts of the capital to quell disorders on May Day (Russian style May 14), the annual parade of the Imperial Guard has been abandoned.

All On Strike.

St. Petersburg, April 27.—Private despatches of an alarming nature have been received from cities and towns along the Volga, saying that all the dock laborers have struck.

Succeeds Lemaire.

Pekin, April 27.—M. Pokotiloff, one of the directors of the Russo-Chinese Bank, has been appointed Russian minister to China to succeed M. Paul Lemaire, who died recently. M. Pokotiloff has had many years experience in Chinese affairs.

Officially Prohibited.

Moscow, April 27.—The general semstov congress which was to assemble here May 5 has been prohibited by the chief of police, the necessary permission having been refused by Interior Minister Bouligan.

Jews Warned to Keep Clear.

Warsaw, April 27.—A Jewish Socialist organization called the Bund has issued a manifesto urging members not to participate in any demonstrations on May 1 for fear they will lead to anti-Semitic disturbances.

The Warsaw garrison has been recently augmented by four regiments of infantry and two of Cossacks, bringing to total garrison up to 37,500.

ELIMINATE PERSONAL PROFIT.

Lord Grey Speaks to Methodists on the Liquor Traffic.

Toronto, April 27.—Looking quite fresh after Tuesday exacting program, His Excellency the Governor-General received four large deputations yesterday morning in the yellow reception-room at the King Edward Hotel. They were from the United Empire Loyalists, the General Conference of the Methodist Church, the Daughters of the Empire, and the National Sanitarium Association respectively. In each case an illuminated address was tendered him, and he delivered a reply.

Her Excellency, however, was fatigued, and was unable to meet the deputation from the Daughters of the Empire, as expected. Earl Grey conveyed her sincere regrets.

Make Clubs of Saloons.

In speaking to the Methodist deputation His Excellency in the course of his reply, touching the liquor traffic, said:

"With regard to strong drink, I presume all you gentlemen are teetotalers, so I need not mince words. I want to say that I think you will make little headway against the evil until you succeed in eliminating the element of personal profit from the liquor traffic. Make your saloons clubs, as is done with the greatest success in parts of England. If the law in this country is that you give a common license to a man to make all he can out of the sale of liquor, you members of the ministry ought to work to bring about a change of method, and make it impossible for any man to try to push the sale of liquor for profit; let the Government of the Municipality take hold of the saloons and make clubs out of them, and future generations will be grateful to you."

Afternoon and Evening.

Yesterday afternoon Their Excellencies formally opened the Horse Show at the Armories, a society event that is likely to prove one of the most brilliant of the season. In the evening they attend the Paderewski concert in Massey Hall.

FEDERATION OF BIBLE SOCIETIES

First Meeting of New Canadian Bible Society Held in Toronto.

Toronto, April 27.—The first meeting of the general board of the Canadian Bible Society was held yesterday, Dr. N. W. Hoyles presiding. Rev. H. F. Thomas and Rev. Dr. Carman conducted the opening exercises, and addresses of welcome were given by Rev. Dr. Potts and Rev. Dr. Gilray on behalf of the Upper Canada Bible Society. Rev. Dr. Shaw, of Montreal, responding on behalf of the delegates. Rev. J. Gibson, of Toronto, and Rev. J. M. Dewey, of Montreal, were elected secretaries. M. A. Morrison of Berlin, Germany, representing the British and Foreign Bible Society of London, England, also addressed the board.

The following auxiliaries have entered the new Bible society. Upper Canada, Montreal, Nova Scotia, New Brunswick, Western Ontario, Perth, Fredericton and Prince Edward Island.

A general discussion took place upon the work of the society, from the Atlantic to the Pacific, special stress being laid upon the necessity of providing the Bible in over thirty languages for the large foreign population now pouring into this country. Arrangements were made for the country to be divided into five districts with secretaries to organize the work in each district.

The following officers were elected: Dr. Hoyles, LL.D., K. C., Toronto, president; vice-presidents, Rev. Dr. Shaw, Montreal; Thomas Ryan, Winnipeg; recording secretary, Rev J. Gibson, Toronto; treasurer, Elias Rogers, Toronto, and an executive committee.

"JACK" MACDONALD DEAD.

Grandson of Late Sir John Macdonald Passes Away at Winnipeg.

Winnipeg, March 27.—"Jack" Macdonald, aged 20, the only son of Hugh John Macdonald, ex-Premier of Manitoba, died yesterday morning after a lingering illness. The young man never enjoyed robust health and had spent considerable time at different eastern sanitaria in an effort to become strong.

He was the living image of his grandfather, the late Sir John A. Macdonald, the Canadian Premier. The strong resemblance was noticed by all, and wherever the young man went he was constantly reminded of the fact by his grandfather's admirers.

The young man's father left home on Monday to speak on behalf of the Conservative candidate for the constituency of Mountain in the bye-election.

The Toronto Horse Show.

Toronto, April 27.—The eleventh annual Canadian Horse Show opened yesterday morning at the Armories at 10 o'clock, and the judges settled down to work at once. This year a very remarkable record has been made in the number of entries, there being no less than 1,052, an increase of 237 over any previous year, equivalent to nearly fifty per cent. It is not alone in the quantity but in the quality that the show of 1905 stands as a high-water mark. The formal opening by His Excellency the Governor-General took place at 2.30 in the afternoon.

Want Chancellor Wallace.

Lowell, April 27.—The First Baptist Church has voted a call to the Rev. O. S. C. Wallace, president of McMaster University, Toronto. Mr. Wallace is about 48 years old, a native of Nova Scotia and a graduate of the Newton Theological School.

Toronto, April 27.—Chancellor Wallace stated last night that he had received the call from Lowell, but was not in a position to say anything in regard to the matter.

A Brantford Mystery.

Brantford, April 27.—Golden nuggets and part of a dead man's foot, buried in an old shoe, were discovered by Charles Campbell, a resident of Mount Pleasant road, a few days ago. The matter only became publicly known yesterday. He dug them up in his garden. It is said that on submission to a jeweler, he placed the value of the nuggets and all at $750.

Cut Her Own Throat.

Winnipeg, April 27.—A Polish girl, known as Lizzie, committed suicide late last night in the bathroom of the home of Dr. Stark, 23 Martha street, where she was employed as a domestic. The girl was found with her throat slit from ear to ear. A blunt table knife was used.

ROBBER KILLED BY BANK CLERK

Heroic Fight Made By Teller of Lancaster Bank.

THREE ROBBERS ESCAPED

Herman Von Metzke Drives Off Cracksmen—Four Burglars Surround Clerk in the Night and Pound Him With Revolvers, But Plucky Banker Turned His Weapon With Deadly Effect.

Lancaster, April 27.—One man lying dead in the Grand Trunk freight sheds, Herman Von Metzke lying in a delirious condition at the residence of Dr. Harkness, receiving the careful attention of the warm-hearted village doctor and his kind daughter, Miss Bertie Harkness, is the result of an attempted bank robbery in this village, which occurred between 1.30 and 2 o'clock yesterday morning.

The village was thrown into the greatest excitement by the report circulated that Herman Von Metzke was lying at the residence of Dr. Harkness, a very short distance from the bank, whither he managed to crawl and arouse Dr. Harkness, and tell him to hurry to the bank, as he thought it was on fire. The doctor immediately took charge of the plucky bank teller, placed him in bed and in charge of his daughter, and after obtaining assistance, went to the bank. Dr. Harkness with his friends found everything upside-down, with a large Colt' revolver lying on the floor and the bed in which the bank teller slept saturated and spattered with blood. After assuring themselves that everything was all right at the bank the villagers returned to Dr. Harkness' residence. By this time Von Metzke's wounds were dressed and he was able to give the following account to the doctor:

The Plucky Teller's Story.

"I was asleep in the bank and was awakened by four men, who were masked. Upon attempting to rise I was commanded by one of the men, who held a revolver in his hand, to lie still and at the same moment he dealt me a blow on the head with his large revolved. I knew then it was a fight for my life and grapple for my revolver, which was under my pillow. Getting hold of the weapon I threw myself out of bed and was again struck on the chin, then I fired over my shoulder at one of the men who was holding me from behind, and as I did so one of his companions threw up my hand and the bullet went crashing into the wall. Again I was struck, but, breaking loose from the two men, was again grabbed and the second time I reached my hand around and fired into the body of one of the robbers. I knew my aim was good and you will find one of the men badly wounded. Follow them up. I will be all right," said the wounded man.

The Wounded Robber Dead.

Dr. Harkness then related the story as told by Von Metzke to those waiting outside his residence, and a search was begun. Leaving Main street the search party went through the village, examining the premises around the different hotels. Going up to the railway station they came upon a body on the station platform. The man was dead, the body being quite warm. The dead robber was shot in the left side, and upon investigation it was plainly seen that the robbers had dragged their companion from the railroad crossing on Main street up the railroad track to the station, and upon finding he was dead rifled his pockets to destroy all evidence of his identity, and, taking the boots from his feet, left the body at the west end of the railway platform.

Inquest in Progress.

The body was taken by the searchers to the freight shed, and Dr. Hamilton, of Cornwall, was wired for by the railway company to come to Lancaster, where, with Dr. Harkness, a coroner's inquest is being held. The dead man is apparently about thirty years of age and cleanly shaven. He wore a dark suit with a small stripe and had a gold front tooth. He has the appearance of being rather a superior person. When he registered at Laduc's Hotel on Saturday he signed his name as J. Dixon, St. John. He was seen around the village for the past three days.

Herman Von Metzke, the brave teller, is a native of Yarmouth, N. S., and came here about a year ago to take up the position of teller in the Merchants' Bank, the scene of the attempted robbery. Mr. Von Metzke is a decidedly popular fellow and is of an athletic build. He is very much laid-up over the affair. The doctor will not allow him to be seen for some time.

Admiral on Commission.

London, April 27.—(C. A. P.)—Rear-Admiral Charles Campbell has been appointed British member of the arbitration tribunal, constituted under the agreement with France relating to Newfoundland, which will deal with the indemnity claims of French fishermen.

EDUCATE YOUTH TO TEMPERANCE

Addresses Given Last Night in George Street Church

Mr. Percy Might and Col. Miller Speak on Temperance—An Interesting Meeting.

An enthusiastic temperance meeting was held last night in the lecture room of George street Methodist church, when Mr. Percy Might and Col. Miller delivered interesting and practical addresses on temperance. The meeting was opened with the usual devotional exercises, followed by a short address by Dr. Crothers. He pointed out that there had been a marked increase in the consumption of liquor in Canada in the last few years, the total number of gallons consumed by the population of the Dominion being, in 1904, 33,780,717. The population was approximately 6,000,000, so that the consumption was five gallons per head in Canada.

Mr. Might was then introduced and in his address compared the liquor traffic to farming and other industries. The more work that was expended on a farm the richer it became. The wheat was made into flour and then into bread and in each case made a profit to the producer. On the other hand the distillerymen took the grain of the farmer and made it into nothing, or something several degrees worse than that level. That was the financial side of it and that was in the end the least worthy of consideration. The young men were to be enlisted for the fight as well as the older men, already in it, and they were to take every chance that presented itself to push the fight and continue the good work. Young people should be educated up to it, and taught to join the conflict against the temptation.

Local option was the best means at hand to cut out the evil, and it had shown its worth and usefulness in many townships in the Province of Ontario.

Col. Miller, the next speaker, said what was required was the salvation of the boys. He went on to say he differed with some professional temperance people. They thought, he said, that hotel men were not fit to talk to, in short they were the scum of the earth. Then when one went to the hotel keeper, he would point out the sign above the door, "Licensed to sell, etc.," and who, asked the Colonel, put that sign there? The men who had votes. Most people wanted total prohibition, and when they could not obtain that they did not want any. What they should do was to take whist they could get at the time and more would follow. People could always find excuses when they required them.

There was a lot of Sunday drinking going on and the law was being evaded to a great degree by hotel keepers all over the country. On the other hand men who were total abstainers got the preferred positions; machine shops, railways, etc., preferred men who did not drink.

The boys, Mr. Miller said, should be educated at home to leave it alone, they should be shown an example by their father; they should be able to say with pride, "There is my father."

Canada was a beautiful country, why should it be cursed by liquor.

The speaker concluded by reminding the audience that the result rested with themselves and the blame would be on them as well.

Mrs. Kendry then spoke a few words saying she wanted all to read the report of the Board of Commissioners in the Globe of yesterday, (Wednesday.) The women and children of Toronto were drinking as well as the men, and how could it be stopped. Where was the W.C.T.U.?

A vote of thanks was moved and seconded by Mr. Northey and Mr. Powell, and both made short, but practical speeches.

The meeting closed by singing the doxology and Dr. Crothers pronounced the benediction.

LABOUR DAY IS NOT SATISFACTORY

Strong Objection Being Taken to Holding Celebration on That Day.

Prominent Business Man and Manufacturer Points Out Disadvantage of Postponing it Until September.

A prominent business man and one largely interested in manufacturing enterprises in Peterborough, called on the Examiner this morning to protest against the proposal to hold the city inauguration celebration on Labour Day, and he stated that the feeling among the majority of the business men and manufacturers to whom he had spoken on the matter, was that a serious mistake was being made in postponing the demonstration until so late in the season.

He pointed out that just at that time the citizens would be returning from their summer cottages and holidays, and would not be feeling in a mood for further festivities. On the other hand, if it were held on July 1st, as was at first proposed, it would be at the opening of the holiday season, and it would be much easier to organize the celebration.

His idea was that this day should be the greatest in the history of the town from the standpoint of the manufacturers and industrial concerns. The coming city of Peterborough will be a great manufacturing city, and the fact that it will offer great advantages to industrial concerns, should form a prominent feature of the celebration. The most effective way in which those advantages can be emphasized is by practical illustration of what progress the local manufacturers have made in the past, and this, the committee will try to show on the occasion of the celebration. It is proposed to have floats representing all the different industries, and the business men will also be asked to place floats in the parade.

On the streets there is a strong feeling that it would be disastrous to the success of the celebration to postpone it until September, and it is suggested that the chairman call a meeting of the Committee with citizens, at which the whole matter may be discussed, and if possible a date arranged, which will meet with more general satisfaction than that of September 4th.

The gentleman referred to said that of course it was a fact to be regretted that the 57th Regiment should have to be out of town for that day, but in his opinion this was not sufficient reason why the celebration should be postponed.

PRESENTATION TO MR. F. POSTE

Popular Member of Test Department Staff Leaving Town.

A Banquet and Presentation on Eve of His Departure for Atlantic, Ga.

Last night a very pleasant gathering was held at Long's palm parlours, when seventeen members of the Test Department staff of the C. G. E. works gathered there to tender to Mr. Fred. Post, one of their number, a farewell banquet, on the eve of his departure for Atlanta, Ga., for which city he is leaving to accept a good position.

Mr. Poste was presented with a handsome gold ring with Masonic emblem by the members of the department with which he has recently been connected and accompanying it was an address expressing regret at his departure.

Those who gathered around the festive board last night were Messrs. W. Madill, L. Bolin, H. A. Hamilton, E. M. Hooker, L. B. Ramsden, W. E. Bell, W. G. Hall, A. R. Webster, T. J. Farman, W. Halton, J. Jardine, A. R. Laing, S. W. Canniff, J. Lowes, J. W. VanNorman, S. D. Coffin.

A dainty dinner was served, the progress of which was enlivened by a number of bright stories well told.

After dinner the duties of chairman were filled by Mr. W. Madill, who read the following address to the guest of the evening:—

Mr. Fred. Poste,—

The members of the Test Department of the C. G. E. take this opportunity of expressing the esteem in which you have been held by them and their regret at your departure.

During the number of years of your connection with this company by your willingness at all times to help your fellow workers and by your many acts of kindness you have won a host of friends and it is to your credit and honour that your oldest acquaintances are among your warmest friends. You have joined us in our hours of pleasure and have helped us in our hours of difficulties and the thought that these associations are about to be severed is not a happy one.

By your untiring energy and your faithful performance of your duties you have won the highest respect from both your fellow workers and employers. The appreciation of which has been shown by the inducements they have offered to have you remain with them and while we cannot help but wish that you could remain with us we are pleased that you are leaving to fill an enviable position, of which you are deserving and the duties of which we know you will ably fill to the satisfaction of your employers.

In bidding you and Mrs. Poste fare well, we ask you to accept this small token of friendship from the boys in the Test and we wish you both a very pleasant trip, every success in your work and a happy life in your new home.

W. Madill, L. Bolin, H. A. Hamilton, E. M. Hooker, L. B. Ramsden, M. E. Bell, M. G. Hall, A. R. Webster, S. J. Forman, W. Hatton, Jas. Jardine, A. R. Laing, S. W. Canniff, J. Lowes, J. W. VanNorman, S. D. Coffin.

On behalf of those present Mr. Laing presented Mr. Poste with a gold Masonic ring. The recipient made a short speech in acknowledgment of the gift assuring his friends that he appreciated fully their kindness, and regretted the circumstances which made a severance of the pleasant associations necessary. He would always look back with pleasure upon the time he had spent in Peterborough and as he was working in other parts he would often remember the times he had enjoyed with his associates here.

Messrs. Hooker and Jordan gave a much enjoyed violin and guitar duet, and short speeches were also made by Messrs. L. Ramsden and S. D. Coffin, in which they voiced the regret which they would all feel at Mr. Poste's departure.

After the banquet and speeches a flashlight of the company was taken by Mr. Fred. Roy. Mr. Poste, who with his wife will leave on Saturday for his new field of labour has been in Peterborough nine years. When first he came here to take a student course at the C.G.E. works, he had charge of the power for one year and for the last eighteen months has been in the test department. He is a very popular young man with his fellow employees who will regret his departure from town

Doesn't Want a Lawyer.

London, April 27.—Seemingly ignorant of the position in which he is placed, Robert Proctor, the negro, when arraigned for the murder of Clifton Loomis yesterday afternoon, stolidly refused to accept the aid of counsel.

Seize Yankee Nets.

Port Stanley, April 27.—The Dominion Government cruiser Vigilant arrived yesterday, having captured 118 nets and 400 pounds of fish, illegally set and caught by American fishermen.

CONCERT WAS MUCH ENJOYED

Baseball Club's Concert in Opera House Was Very Successful.

Excellent Programme Presented by Local and Toronto Artists.

The Peterborough Baseball Club's annual concert given last night in the Opera proved most successful—more so than the aspect of the house would lead the spectator to believe, as it is understood that the sale of seats much exceeded in number the number of persons present. This may be accounted for, when it is considered that the concert season is now far advanced, and also by reason of the fact that many non-concert-goers purchased seats with the object of lending their assistance to the Club, which will certainly be one of the most popular sporting organizations in town during the coming season.

The programme was an excellent one and aroused frequent and hearty manifestations of applause from the audience which included among its numbers many of the leading music lovers of the town.

The artists who assisted were the Harmony Quartette, consisting of Messrs. Jos. Legge, Mark Wilson, R. N. Jolliffe and R. H. Sheppard; Miss Helen Davies, soprano; and Mr. Bert Harvey, singing comedian, of Toronto.

The accompanists of the evening were Misses Kate Graham, and Edith Jolliffe, and Mrs. McIntyre, who performed their somewhat arduous duties in an artistic and musicianly manner.

The Harmony Quartette excelled themselves in their numbers last night and many admiring and complimentary comments with reference to the excellence of their work, were expressed on all sides. Miss Helen Davies, who has earned for herself such an enviable reputation in the highest musical circles of the Dominion, also sang in good voice, and drew from the audience hearty and merited encores.

Mr. Bert Harvey, always a favourite with Peterborough audiences was never more so than last night. His "musical comedy" was most mirth-provoking and his many clever skits and bright catchy songs, invariably drew from the audience merited recalls, to which he responded generously.

The opening number, the old plantation melody, in a most exquisite quartette arrangement was rendered by the Harmony Quartette, with regard for expression and shading. In response to the encore with which this number was greeted, they gave a humorous selection "Go Ask Papa!" The second number was a Chinese skit, given in costume by Mr. Bert Harvey. The dialect features introduced were cleverly presented. As an encore he gave a medley of continual mirth to the air of the "Keel Row". Miss Helen Davies rendered her initial number "Enchantment" by Masheroni, in a manner which captivated the audience, and was compelled, in response to the hearty applause which followed, to give "When the Swallows Homeward Fly". The Quartette number "Chow-Chow", which followed was given in a manner which was thoroughly enjoyed.

Mr. Harvey then gave "The Man Hater", a clever skit in costume, which was heartily encored, to which he responded with, "Have you seen our Cat?" Mr. Frank Wilson's solo "Where'er St. George's Banner Waves" by Fitzgerald, was rendered in a manner in keeping with its martial character. A duet "The Battle Eve" by Bonheur, was given with splendid effect by Messrs. Jolliffe, and Legge.

"Perhaps you've seen the Pictures" by Leo, was then given by Mr. Harvey. As an encore number he gave a pathetically humorous selection "The Language of Love". "The City Choir" by the Quartette, was effectively rendered, after which Miss Davies sang "Awake", by Pellanier, with fine artistic feeling. The number which followed by Mr. Harvey "The Mounted Foot" was a military burlesque and provoked roars of laughter amongst the audience. He gave "The Death of Bill Bailey" as an encore. The number which followed, "Good Night" by the Quartette, brought to a close a programme of rare excellence.

The stage was very prettily decorated with flags and streamers, the work being done by A. Kingscote in a tasteful and artistic manner.

BRASSWORKERS HOLD A GALA "AT HOME"

Most Enjoyable Evening at the Foresters' Hall.

Of all the "at homes" given under the auspices of the Brassworkers, perhaps none was more successful, more enjoyable or more largely attended than the one given Monday evening in the Foresters' Hall, Simcoe street. Over forty couples, many being from out of town, availed themselves of the opportunity to again trip the light fantastic, after their forced retirement of the last six weeks, and judging from the many complimentary expressions given the committee last evening, each and everyone must have made up for the lost time.

The music which was supplied by the Misses Darrin, was all that could be desired, as was plainly evidenced by the fact that every number was heartily encored.

The committee in charge have every reason to be gratified at the successful issue of their undertaking and should they intend to run another of these social hops they would without doubt be favoured with even more success than that which crowned their efforts last evening.

Canadian Stock For Africa.

Ottawa, April 27.—The Canadian Live Stock Commissioner has bought fifty young dairy cows in calf, two Holstein bulls and a number of Berkshire hogs for the director of agriculture, Orange River Colony, W. J. Palmer, formerly of Toronto. The stock will be shipped next month.

A SERIOUS FIRE NARROWLY AVERTED

Mrs. Swanston's House Almost the Scene of a Conflageration.

What might have been a dangerous fire occurred this morning at the home of Mrs. Swanson, Fifth Ward. The chimney caught fire and was blazing up furiously when Mr. Dingman, of the firm of Wm. Collins & Co., Hunter street, promptly dashed two pails of water on the fire which extinguished it. The services of the brigade were not required.

PRETTY WEDDING IN FIFTH WARD

At Home of Mr. W. H. Smith, Concession Street.

A quiet, but very pretty wedding took place last night at 8 o'clock, when Miss Maggie S., daughter of Mr. W. H. Smith, Concession street, Fifth Ward, was married to Mr. David Rummings, Pastor Steuargie, of Bethany Tabernacle, performed the ceremony. The bridesmaid was Miss Jennie Robins, of Roseneath, and the best man, Mr. Wm. Pomeroy, of town.

There were only immediate friends of the contracting parties present. The presents were many and very beautiful, some quite expensive ones being received. There will be no honeymoon and Mr. and Mrs. Rummings will reside on Mary ro avenue.

CITIZENS SHOULD VOTE FOR NEW FIRE HALL

Ald. Hicks Gives Strong Reasons Why It Would Greatly Benefit the Town--New Appliances are Absolutely Necessary to Protect the Property—Cost Would Only Amount to 26-100 of One Mill—Saving in Insurance Rates Effected, But What is More Important It Would Protect the Property of the Citizens—A Strong Plea for the Passing of the By-law.

Ald. Hicks, Chairman of the Manufacturers' Committee of the Town Council and a representative business man was interviewed this morning on the question of the new fire hall, which it is supposed to erect, and upon which the ratepayers will vote on Thursday, May 4th, and expressed himself as being strongly in favour of it. Mr. Hicks said:—

"This is a matter which every ratepayer should carefully consider before the 4th of May, as on that date they will have an opportunity of expressing an opinion, which should only be arrived at, after carefully weighing the advantages to every class of citizens in the town.

It is a recognized fact that the fire fighting appliances at present in use are obsolete for a town the size of Peterborough, and there are other appliances which the town has never yet used, and which are essential, not only for proper protection, but to meet the requirements of the underwriters, in the way of lower insurance rates. One of the most important is, this list is a Chemical Engine. It is estimated that from 60 per cent. to 85 per cent. of fires in towns and cities, (where modern

ALD. HICKS.
Who Strongly Urges the Passing of the Fire Hall By-law.

equipments are kept) are extinguished by chemical engines. Since this is the case, is it not wise in the interests of all that we should have a chemical engine. It must also be remembered that the chemical engine is only efficient during the early stages of a fire, and when it can be successfully used the contents of the building, whether it be a store or a private dwelling, are not drenched and damaged by water, which an completely destroy the usefulness of some articles as if they had been allowed to burn.

The present fire engine is too light and unreliable to cope with any emergency calling it into commission, and has been under repairs for more than half of the past year, which substantiates the fact that its useful days have passed.

Since all the cities with a pressure on mains equal to ours are equipped with fire engines of modern type, we should have a modern and stronger engine, which will not only do service connected with the main, when the pressure is low, but afford complete protection to all property bordering on the water front or near the creek flowing through the town, in the event of any accident to our waterworks dam mains or pumping stations.

All will remember the fire at the American Cereal Co., over a year ago, when, by connecting the fire engine with a hydrant, at a stage when the building seemed doomed, the firemen were able to get sufficient force at the top of the building to get control, and finally to extinguish the flames. If an engine, in this instance, saved the situation, can the town afford to be without a reliable engine for such an emergency? In my opinion, it can not, because by protecting the factories the whole town is protected, as the same equipment would be efficient in all cases. Should one of our large factories be destroyed, the revenue of the employees would be at once cut off until other employment is secured. This would mean more labour than there was demand for, and consequently the greater hardship would be on the labouring man.

The same equipment which protects the factories, protects the stores and dwelling houses, so that the expenditure of $25,000 for a fire hall and equipment is an expenditure which is a direct benefit to every citizen of Peterborough. It would be impossible to house the necessary appliances in the present fire hall even with the expenditure of half the cost of the new hall, as the building is not suited for the purpose, and with a small expenditure could be made suitable for stores or offices and should produce a revenue of about $400.00 a year, which would be sufficient to pay the interest on the investment of a new hall costing, say, $9,000 at a little over 4 p. c. When the matter is looked upon in this light, from a financial standpoint, while the liability would be created, there would also be a revenue from the present hall which would be about equal to the interest on the cost of the new building.

The ordinary citizen, when a money by-law is submitted, usually asks the question:—"How much will this increase our taxes?" This can be arrived at in this way:—The interest and sinking fund on $25,000, would amount to $1,584.07 each year, take from this $400 the revenue from rent of the present hall and you have $1,184.03 to be paid each year and on an assessment of $5,000,000 this would amount to 26-100 of one mill or 26 cents on each $1,000 of assessment.

The underwriters have been interviewed on the matter and have stated that the proposed improvements in the fire department would reduce their rates about 10 cents on each $100.00 of insurance. This would apply on the business risk only, which is estimated at 2½ million dollars and the 10 cents reduction on this amount would be a saving to the policy holders of $2,500.00 each year.

While it is well to take all the advantages that come from improved protection in the way of reduced insurance rates it must be remembered that it is the town generally which receives the benefit of the protection and not the underwriters, as the latter can adjust their rates corresponding with the conditions of the risks; and regardless of the underwriters, it is the duty of the town to see the fire department properly equipped to protect the homes and interest of its citizens.

OBJECT TO CITY INCORPORATION

A Petition Against it Will Probably be Presented

Some of the Reasons for the Objections —Cost and Sentiment.

A number of persons in town are opposed to the proposal of the council, as embodied in the application to the Legislature, to incorporate Peterborough into a city, and it is understood that a petition will be circulated among the citizens asking the council to apply for the elimination of the clause from the applications which will be considered in a short time by the Legislature.

There seems to be the impression in the minds of some persons that to secure incorporation will entail an increased cost for civic government, and in reference to this an authority on the matter was questioned by the Examiner to-day. He said that as far as he knew the only increase in expenditures made necessary by the incorporation would be the addition of $200 to the Police Magistrate's salary, with possibly $150 more for the Court of Revision, which would be then composed of men not members of the council.

There would be some change in the police department, which would be under the control of Police Commissioners, instead of the Supervision committee, as at present, but this would not necessarily mean an increase of expenditure, since the Commissioners would in all probability not be paid salaries.

Another objection which is taken to city incorporation is that of sentiment. Many persons think that since the town has almost reached the size when it would become a city automatically it would be better to allow it to grow still more, and wait until the 15,000 of population is reached. They point out that no other city in Ontario has become a city in that way, and they believe that it would be a unique distinction for Peterborough.

If the petition referred to be sufficiently signed, it will be presented to the council.

DR. PITCHER CURES A PETROLIA MAN

A Splendid Tribute From Mr. G. F. Stone of That Town.

Backache and Bladder Trouble Made Him Unfit for Work—Now He is Splendid

In the town of Petrolia there are many people who have a good word to say for Dr. Pitcher's Backache-Kidney Tablets as being the best remedy for backache, kidney, bladder and urinary troubles.

Mr. G. F. Stone, when spoken to a short time ago, related his experiences as follows:

"I had been having so much lameness in the small of my back, constant dull aching over my kidneys, that I was depressed and unfit for anything. It did not pass off as formerly, but began to affect my kidneys; the bladder was also affected, causing frequent inclination to urinate. After I began using Dr. Pitcher's Backache-Kidney Tablets, all those troubles disappeared. I have had no remedy that acted so promptly before. They caused no inconvenience whatever. I would not have known that I was taking medicine where it not for the beneficial effects.

In purchasing Dr. Pitcher's Backache-Kidney Tablets see that Dr. Pitcher's portrait and signature are on the package.

Price, 50 cents a box, or three boxes for $1.25, at druggists, or by mail. The Dr. Zina Pitcher Co., Toronto, Ont. 65

THE SALARIES ARE TOO LOW

Mr. H. P. Kennedy Speaks on Teacher's Salaries

At Meeting of The Ontario Educational Association in Toronto.

At the Forty-Fourth annual meeting of the Ontario Educational Association held in Toronto this week, the question of teachers' salaries was discussed, and yesterday Mr. H. P. Kennedy, a representative of the local Board of Education, gave an address, which the News reports as follows:—

"Mr. H. P. Kennedy thought a resolution in the Public School department in the proceedings last year should be endorsed by every Trustee Board and Public School Inspector. It was to the effect that the Minister of Education should make it as easy as possible for men and women holding "seconds" to improve their standing and scholarship by permitting candidates for the higher examination (if actually engaged in teaching,) to write on two or more subjects in one year. It would be fair that those candidates should take, perhaps, a higher percentage in their examination than if writing on the whole in one year. Cramming would thus be eliminated, and all the teachers encouraged to become lifelong students of their profession. At a time when all other professional and business men were receiving greater earnings than ever before, and when labourers, mechanics, servants and every salaried class of the community were profiting by the good times, it should be seen that those who were undertaking the training of the citizens of the future should be likewise made aware of the general prosperity, not only by liberal increases in the amount of their remuneration, but also by more rational methods of payment."

GROOM WAS A PETERBOROUGH MAN

Wedding of Mr. Charles Arthur Brodigan to Miss Florence Willoughby.

A quiet wedding took place yesterday morning at St. George's Church, Toronto, when Miss Florence Willoughby, daughter of Mr. and Mrs. William Willoughby, of 238 McCaul street, was married to Mr. Charles Arthur Brodigan.

The church was decorated with palms and lilies and the ceremony was performed by the Rev. Samuel Bennetts. There were no attendants, only the relatives and near friends of the bride and groom being present.

The bride was dressed in a pretty gray travelling gown and carried a bouquet of white roses, and a beautiful prayer-book, the gift of Rev. Samuel Bennetts.

After the wedding the young couple left for Quebec and other towns in Lower Canada. Mrs. Brodigan will be "at home" at No. 5 Metcalf street about the latter end of May.

DOES YOUR SCALP ITCH?

Are Your Hairs Dropping One By One?

If your scalp itches you are doubtless suffering from dandruff. The dandruff germ is digging up your scalp in little flakes, called dandruff and sapping the life of the hair bulb. No hair preparation that is a mere hair stimulant and tonic will cure dandruff, because it won't kill the germ that causes the trouble. Newbro's Herpicide is the latest scientific discovery; and it will kill the dandruff germ. Destroy the cause, and you remove the effect; kill the germ and you will have no more dandruff, falling hair or baldness. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. Ormond & Walsh, special agents.

EASTER VISITORS IN OMEMEE

Many Home for the Holidays—Other News.

From our Own Correspondent.

Omemee, April 24.—The Easter Holidays brought many visitors from many parts.

Norman Godfrey, an employee of the Canadian Cordage Co. spent Easter holidays at home here also Master Clarke, attending the College there.

Miss Smith, of Peterborough, was the guest of the Misses Adams over Easter.

Mr. Thos. Henderson speaks of Peterborough, as a very satisfactory place to live, in every respect and will not return to Omemee as reported.

LASSWADE.

Personal Items of Interest—Cheese Factory Ready to Start.

From our Own Correspondent.

Lasswade, April 24th.—Miss Bertha Bullied, returned to her home near Apsley on Sunday.

Mr. and Mrs. Robert Pattison were calling on friends this week, previous to leaving for their home near Lakefield.

Mr. and Mrs. Albert Pattison are the guests of Mrs. William Bullied.

Miss Young and Miss Hubel are home for their Easter vacation.

Our enterprising cheesemaker, Mr. J. King, is again in our midst, preparing for his summer's work.

Don't forget the box social at the Mission Room, Methuen, April 25th.

The flying tinker flew along,
Again the other day,
Have you any pans or kettles
To solder, did you say?

Can I get a bit of dinner,
For a needle or a pin?
I haven't had my breakfast
And I'm feeling very thin.

So he gets his bite of dinner,
Looks into his scanty grip,
Thinks that he can spare six needles,
And a bodkin, for this trip.

Off he flies with lightning speed,
Sings his little song once more,
Flying, as the hours go by,
Over to the other shore.

VALUE OF "OZONE"

The value of Ozone (it is really liquid oxygen) is well known to medical science. It kills the germs of internal disorders. It taken in concentrated form (and that means "Solution of Ozone (the coupon kind" it insures a speedy cure for asthma, bronchitis, Bright's disease, kidney trouble, malaria and rheumatism. This stringent remedy needs with it a tonic laxative to secure the best results. Your druggist will give you sixteen ounces of "Solution of Ozone" for fifty cents and if you insist on the coupon kind, will guarantee a free package of "Celery King." The Public Drug Co., Bridgeburg, Ont. Sold by W. B. Warne, druggist

BUILDINGS FOR SALE BY TENDER

Sealed tenders will be received addressed to the undersigned and endorsed "Tender for Buildings" for the purchase of the Buildings upon the property of the late Elias Burnham, corner of Charlotte and Park streets, Peterborough until noon of Monday the first day of May, in two parcels:—

Parcel I.—The Frame Dwelling House and Kitchen attached.

Parcel II.—The Stable, Sheds and other frame outbuildings.

Terms and Conditions.—(a) Separate sums must be placed on each parcel. (b) The highest or any tender not necessarily accepted, (c) The buildings must be removed from the premises within fifteen days after acceptance of tender, (d) Cash to be paid within one day after acceptance of tender, and before the buildings are disturbed.

The dwelling house is said to be a large two storey sound frame dwelling that could very easily be converted into two or three substantial dwellings and the outbuildings are heavily timbered buildings that might be moved in bulk.

The removal of the buildings is necessitated by the fact that the owners are placing the real estate upon the market for immediate sale.

Dated at Peterborough, the 17th day of April, 1905.

ROGER & BENNET,
Vendor's Solicitors.

Notice to Creditors

Creditors and others having claims against the estate of the late Elizabeth Theobald, in her lifetime of the Town of Peterborough, who died on the seventeenth day of February, 1904, are required, on or before the fifteenth day of May, 1905, to deliver or send by post prepaid, to Roger & Bennet, 375 Water Street, Peterborough, Solicitors for Thomas Theobald, Administrator of the Estate of said deceased, their names and statement of their claims, with full particulars.

After that date the Administrator will distribute, having regard only to the claims of which he shall then have notice.

Dated 12th April, 1905.

ROGER & BENNET,
Solicitor for Administrator.

PROFESSION AND PRACTICE.

Every day new light is thrown upon the bona fides of the profession of the Conservative Government of Ontario that it is resolved to administer the License Law without reference to political considerations. The instances in which this profession is discredited in practice are too numerous to specify, but an example so close at home as Port Hope is interesting, and a despatch reprinted in another place to-day refers to the action of the Conservative Government's "non-political" board of License Commissioners, in strongly snubbing their masters in regard to the dismissal of Mr. Powers as license inspector of West Durham. The unwisdom of the Government's action is pretty bare-faced when commissioners, selected because they were "in sympathy with the government," feel compelled, in the interests of the effective enforcement of the license law to reprove the Government that appointed them. Mr. Powers, the late inspector, was according to the Commissioners, a man whose services as an official, "whose efforts to enforce the license law in the face of many difficulties," was worthy of their recognition and appreciation. On the other hand it is stated that the license inspector for whom Mr. Powers was beheaded, while he may be in political sympathy with the Government, is not in sympathy with the temperance sentiment of the community, which of course favours the strict enforcement of the law.

MR. MATHESON'S FINANCERS.

Hon. Mr. Matheson, the Provincial Treasurer in the Conservative Cabinet of Ontario, has long been heralded as a heaven-born financier. He was practically deified in this capacity, while in Opposition, by his admiring worshippers, and great things were prophesied of him when he reached office. And he has accomplished great things. He began by importing a financial expert from the United States — a shock to our patriotic pride, and insult to the financial experts of the province of Ontario, who have not been slow to signify their condemnation of Mr. Matheson's unpatriotic action. By the help of this Yankee financial mentor, Mr. Matheson has fully justified the great expectations of his admirers. By a system of hocus pocus; calculation, giving one side of the provincial ledger all the tops possible, and suppressing the other, Mr. Matheson has brought Ontario seven million dollars in debt. Mr. Matheson may demonstrate this mathematically to his own satisfaction, and that of his Yankee financial expert, civil expert, but if we have such a debt, it is not only a very harmless, but even a beneficient liability. A debt that brings interest to the Government coffers is a good deal better than the ordinary kind which involve the payment of interest. Mr. Matheson may justify his ardent patriotism in importing a Yankee financial expert to assist him in the work of injuring the credit of the province, but, dispassionate judges have more regard for the actual condition of affairs, which are that, as the result of capable management for years, the finances of Ontario are in a condition of solvency and satisfactory character, which are the envy of other states and provinces. The Montreal Star, a Conservative journal, which as a rule has few "bouquets" to cast at anything Liberal, is evidently much amused at the efforts of Mr. Matheson to plunge the province of Ontario into debt, the Star says :—

"However, it is only fair to say that, even on Mr. Matheson's figures, Ontario is in capital financial condition, speaking comparatively. It has not much crushing debt as we have. Its burdens are more distributed to be met in the future than dead-weight debts from the past. If Mr. Matheson would permit it to be put down to current revenue sums really secured on the capital account—as we do in this Province—his deficit would be a handsome surplus; and it is his good intention to give Ontario a real surplus for the coming year. Ontario has always been well managed financially. The strongest hold that the Liberal Government, which he and his colleagues have replaced, had upon the people of Ontario, was their undoubted ability in building up Ontario. They made not have made their elections with prayers, but they did push forward the prosperity of their Province.

Fancy the outcome if the business men of the country should sit at the feet of Ontario's financial Gamaliel and take lessons in his wonderful system of book-keeping.

CONSERVATIVE GOVERNMENT

Sharply Reproved by Its Own Officials.

Arbitrary Dismissal of an Efficient License Inspector Condemned.

(Special Despatch to the Globe.)

Port Hope, April 25th.—It has remained to the newly appointed license commissioners to break party etiquette by reflecting public opinion and administering a severe rebuke to the Whitney Government for their partizan administration of the license department, as displayed by the wholesale dismissals which have been agitating the Province for the last month. The appointment of new license commissioners to appease party sentiment was anticipated, but it was thought by prominent citizens of both political parties that Mr. E. A. Powers, license inspector, would remain in office. The formation of the new board was barely an accomplished fact, however, before the people were nonplussed by the announcement that Inspector Powers had been summarily dismissed, without even a day's notice, the only reason given being that "the Government having determined upon the thorough reorganization of the license department, with the view of making it more effective, have decided to ask for the resignation of a number of the license inspectors."

Simultaneously came the announcement that Mr. J. Kennedy, of Pontypool, had received the inspectorship. As the majority of the licenses issued in the riding are for the town of Port Hope the predictions that a non-resident inspector meant a "wide-open" period for Port Hope have been amply justified, as evidenced by the infractions of the license law reported frequently in the local press. In addition to this the sympathies of the new inspector are said to be antagonistic to temperance sentiment and for these reasons much dissatisfaction is expressed on all sides.

The new commissioners at their last regular meeting politely scored Mr. Whitney over the discharge of Mr. Powers by unanimously passing the following eulogistic resolution of sympathy: "That this board hereby places on record its appreciation of the lengthened period of service of Mr. E. A. Powers, the late license inspector of East Durham, and further assures Mr. Powers that in his retirement he carries with him the respect not only of this board, but of the citizens generally, who recognise and appreciate his efforts to enforce the provisions of the license laws in the face of the many difficulties attending the arduous and often unpleasant duties of license inspector."

The boldness of this rebuke to the powers that be from such an unexpected quarter serves but to emphasize the growing dissatisfaction existing and has caused local Conservatives much chagrin, while universal sympathy is expressed for Mr. Powers in being thrown upon the world at his age without just cause.

A LITTLE HISTORY OF MACHINE PHONE

Peterborough the First Town in the World to Have the Principle Applied

A Canadian Invention Appraised at a Value of Ten Million Dollars.

The Toronto World of Tuesday contains an interesting article on the Lorimer Machine, or automatic telephone. It prints an interview with Mr. D. J. Johnston, and, incidentally, gives a word of praise to the Canadian Machine Telephone Company, which installed the first system of this kind in the world, in the town of Peterborough. In connection with the sale of the patents of the machine system of telephony by a United States company to a syndicate of Chicago capitalists, for the immense sum of ten million dollars the World says:

"Mr. Johnson was the organizer of the syndicate of capital which is known as the Lorimer Automatic Telephone Co., with a capital of $10,000,000, and is now one of the directors of this company, which has paid for the United States patents of this system, and the plant of the American Machine Telephone Company, at Piqua, Ohio, one of the largest, in fact what has been stated to be the largest price ever paid for an American patent. The American Machine Telephone Co is a Canadian organization with its head office at Brantford, Ont., but for the past six years has had its factory at Piqua, Ohio, operating under a state license. This company now has no interest in the United States patent, nor has any of the original shareholders any interest.

"Of special interest to Canadians is the fact that the inventor is of Canadian origin, the inventors, the Lorimer brothers, being natives of St. George, Ont., and the work being first started in Brantford, Ont. All the capital of the American Machine Telephone Co. is also Canadian. This is the system which is owned and operated in Canada by the Canadian Machine Telephone Co., which has a factory in Toronto, and which is now completing the installation of its system in Peterborough, Ont., the first exchange of this system to go into commercial use in the world. Peterborough, the Electric City, is to the front again.

THE ADVANTAGE.

Mr. Johnston necessarily for some time has given careful attention to the study of telephone development, and the World started in to get some light on what is at present a live question.

"What points of superiority, or what advantages do you claim for for this Lorimer system over the manual or Bell system?" was asked.

"Well," he replied, "that is not an easy question to answer in the space you would have to spare for anything that I might say. However, you can easily understand that before the capitalists with whom I became associated would obligate themselves to pay such a large sum — I am told the largest ever paid for an American patent — for the United States rights of this system, they made certain, as certain as the thorough investigation and tests of the most experienced telephone experts and engineers in the United States could make them, that the system had many advantages and very marked superiority over any manual or automatic systems. It is not easy to indicate the advantages over a manual system system any more than to say that it gives a service that is more efficient, being prompt and accurate at all times, and absolutely secret. You know that it has been amply demonstrated in a hundred different ways that a machine is more accurate than the human hand. The Lorimer Machine, or automatic switchboard makes connections at the central office, and, being a machine, makes these connections in a uniform time, taking no longer to give a connection at one time than another. If the the apparatus, when one calls, is busy, the call is stored, and the machine automatically makes the required connection as soon as the busy line becomes disengaged, without further concern on the part of the subscriber calling. It has no headaches, tells no tales, and never makes a mistake in the number called. Not only are its advantages important to the public, but they are doubly so to the practical telephone man, one of the most attractive being the enormous saving of money through engineering. These latter advantages I could not undertake to deal with this way, but they have to do with the lessening of cost of doing telephone work in towns and cities. It perhaps is not generally known that telephone engineering has called for the solution of some of the nicest problems ever presented in any line of science, and it is in the extent which this new system gives to solve these problems that the great advantage appears." . . Of course here again a point suggests itself, and that is, that the efficiency of the service on the best manual board in the world, is measured by the efficiency of the girl operator at central. If the operator is quick, alert and accurate your service will be good. If the operator is slow or indisposed your service will be indifferent. You see where our machine system, as an operator proof against the ills and shortcomings that human flesh is heir to, comes in.

Speaking in regard to the benefit of competition in telephones service Mr. Johnston said:

"I am told and I was shown an article in a local paper, that in Peterborough where the Canadian Machine Telephone Co. is installing their first Lorimer plant, the Bell Company are promising to put in a central energy board and improve their service. Here you see my point illustrated at once. Without a competitor appearing, it is safe to say that there would be no announcement of a new and improved equipment going into Peterborough."

"Are there any other automatic telephone systems?"

"Yes, of course, and some of considerable merit. The majority are confined however to giving service to one hundred subscribers or less. The Strowger Automatic, which has been installed in several cities in the United States is giving good service and is proving what many doubted that the subscriber has no objection to doing the necessary work in order to turn in or make his own connection. Of course the advantages of the Lorimer system over these other automatics were measured and considered by the experts who investigated its merits and its possibilities. The Lorimer system has been developed quietly, and its peculiar principles have not been given to the telephone world, and were barely grasped by the few who saw it during the past few years. As one of the experts told me he considered that in this system is found the true psychology of telephony. You need not ask, I have absolute faith in the future of the automatic telephone."

ARM BURNED BY BOILING LIQUID

Mrs. James Kearns Suffers Painful Injuries.

Was Boiling Preparation for Ointment and Her Arm Was Burned.

This morning Mrs. James Kearns, at Lake street, near the Canadian Cordage Company's Works, was rather severely burned while boiling lard and turpentine on the stove.

Mrs. Kearns was making some ointment which she uses in her household, and component parts of the preparation were being boiled in a pot. She went away from the stove for a moment and the liquid boiled over. She went to lift it off the stove and in doing so her right arm from the hand to the elbow was badly burned.

Dr. Carmichael was called and dressed the burns, which, although very painful will not prove serious.

Mrs. Kearns had a very narrow escape, however, since the overflowing liquid was irritable material, and had it reached the flames would no doubt have caused a serious blaze.

Good Paint

TEMPORARY INSANITY CAUSE OF SUICIDE

Mrs. Michael Lavery of 222 King Street Took Package of Paris Green This Morning, While in Fit of Despondency and Died This Afternoon at St. Joseph's Hospital—Has Been Ill For Some Time and Was Melancholy—Had Stated That She Wished to Die—The Sad Particulars of the Case.

A very sad occurrence took place this morning at 222 King street, when Mrs. Michael Lavery, a middle aged woman took a dose of paris green and died from the effects about 1.30 this afternoon.

It appears that the deceased has been mentally deranged for some time, and on different occasions has stated to her husband that she would take her life. In view of this fact he hid all the poison there was in the house, and about a month ago she was taken to St. Joseph's Hospital, where she was treated for her illness, which took the form of a state of melancholia. After she had been there for some little time, she was pronounced cured and came home.

Lately, however, she has been showing signs of a return of her trouble, and had a presentiment that she was going to die soon, and would often say that it did not matter anyway since she would soon be dead.

This morning, her husband, who works for Adam Dawson, as a bricklayer's helper, went to his work as usual, leaving his wife with one son at home.

Mrs. Lavery went out and purchased a package of paris green and mixing it up in a pitcher took nearly the whole package.

Shortly afterwards her son, who was not yet out of bed, heard her vomiting and got up. As soon as he saw what was the trouble he told some of the neighbours, and Dr. Scott was telephoned for. He responded at once, and upon his arrival tried to get her to take an emetic. This she refused to do, seeming to want to die, her fear being that she had not taken enough. Dr. Scott seeing that he could not do anything with her, had her removed to St. Joseph's Hospital, where she died at 1.30.

It was thought at first that she might recover, but afterwards she took worse and expired. She leaves two sons and her husband.

Dr. Gray, the Coroner, was notified, but up to the hour of going to press, had not decided whether to hold an inquest or not.

BUSINESS MEN ATTENTION

Hear Rev. Dr. Perry's Lecture, "Religion is Business and Business is Religion"—Murray Street Baptist Church this (Thursday) evening. Admission 25 cents.

Retail Merchants.

The Retail Merchants meet tomorrow (Friday) in the Y. M. C. A. parlour at 8 p.m. When Mr. E. M. Trowern, Dominion Organiser will be present. All merchants welcomed. 1d

A limited number of tickets will be sold for the gallery at 25c Plan of Hall now open at Ormond & Walsh's.

FIRE HALL BYLAW PUBLIC MEETING

Meeting to be Called to Discuss the Features of the By law to be Voted Upon May 4th.

Mayor to be Requested to Call Such a Meeting—Ratepayers Urged to be Present and Give Their Views.

On Thursday, May 4th, the qualified electors will be called upon to vote for or against a bylaw, submitted by the council to authorise the raising of debentures to the amount of $25,000 for the purpose of providing a new fire hall and generally improved fire equipment.

A number of our foremost citizens deeply interested in the welfare of the town and recognizing the important effect the expenditure proposed will have upon a lower insurance rating and a consequent diminution of the aggregate amount paid for fire insurance, are anxious to have the improvement to our fire system carried out, but it cannot be carried out unless the bylaw is carried.

It is felt that if the public fully appreciated the importance of the bylaw in question, how necessary it is to secure a favourable insurance rating with the involved saving of expense to property owners, the bylaw would be strongly supported. It is also felt that if the facts of the matter were squarely presented to the ratepayers, they would be in a position to give an intelligent vote, which they will not do in default of possessing this information.

Therefore the citizens mentioned, will at the meeting of the council on Friday night request the Mayor to call a public meeting to be held on Tuesday evening, May 2nd, to discuss the proposition contained in the bylaw to be voted for on May 4th.

No doubt the request will be complied with, and the meeting held, when, it is hoped, there will be a large attendance of the ratepayers to consider the attitude they should assume towards a proposition which if adopted, will not only provide protection to property from fire, of greatly improved efficiency, but will also effect a very great money saving. The meeting will be a citizens' meeting and every ratepayer present will have a right to join in the discussion and give his opinion either for or against the proposition. The more vigorous and general the discussion the more the facts bearing upon the question will be elicited.

It is desirable that the people should know all there is to be known on the subject and therefore particular attention is directed to the interview with Alderman Hicks, printed in another column.

St. Luke's Minstrels Ashburnham Town Hall To-night.

MAKE INDIANS BRITISH SUBJECTS

Inspector McCrea Visits Reserves for This Purpose.

Mr. McCrea, of Ottawa, Inspector of Agencies in the Indian Department, was at Hiawatha this week. Mr. McCrea's visit was for the purpose of ascertaining the views of the Indians on the question of becoming British citizens, and not accepting the pay from the Government which they have been receiving in the past.

The Indians were not prepared offhand to express an opinion on this question, but will consider the matter. The Inspector left Hiawatha and will visit the Indians at Chemong and Alnwick for the same purpose.

MISS BRYCE OF KEENE IS SOPRANO LEADER

Of St. Andrew's Church Choir—Assumes Duties May 14.

At a meeting of St. Andrew's musical committee last night, Miss Margaret Bryce of Keene was appointed soprano leader of the choir. She was selected from among a number of applicants for the position. She had been heard at St. Andrew's several times and her singing has been very much enjoyed. By the way it is remarkable that the beautiful village of Keene should be so prolific of good vocalists. Miss Bryce will enter upon her duties on the anniversary of the church, May 14th. In the meantime, Mrs. Frust, (Miss Vina Bellcghem) who held the position before her marriage, will take the duties of Miss Bryce's position.

Easter Walking Sticks.

Every man of fashion requires the finishing touch of a handsome walking stick to complete his Easter attire. Latest styles, both English and American, silver mounted, unmounted and ornamental, from 25c upwards, at the Peterborough Bookstore, A. H. Stratton & Co.

ST. PAUL'S GUILD BASEBALL CLUB MET

Successful Organization Meeting at Y. M.C.A. Last Night.

The organization meeting of St Paul's Young Men's Guild Baseball Club was held last night at the Y.M.C.A. Hall, and was largely attended and very enthusiastic.

The following officers were elected:—
Hon.-President—R. R. Hall, M.P.
Hon. Vice-President—D. Davidson.
President—Jas. Conna'.
Vice-President—Dr. Wightman.
Secretary-Treasurer—R. P. Watt.
Manager—M. Rosenburg.
Captain—W. J. Stacey.

The meeting decided that the team shall be entered into the Guild League, and also decided to issue members tickets at 50 cents each. The prospects for a team of winners, it is felt, is extremely bright.

A DRAMATIC ENDING.

Heart Attack Compels Mr. Wright of South Renfrew to Desist from Speaking in the House.

Ottawa, April 27.—A day of ordinary interest was concluded by an incident bordering on the dramatic last night and the House adjourned very abruptly. Mr. Wright, the Liberal member for South Renfrew, spoke for a few minutes prior to the dinner adjournment. After the hour for private bills was concluded he continued his speech. He was just warming up to his subject when he stopped right in the middle of a quotation. He stood for a moment and then sank back into his seat, saying: "I cannot say anything more." Mr. Wright collapsed in his seat and Archie Campbell promptly moved the adjournment of the debate and the House rose with startling abruptness. It is gathered that Mr. Wright suffered from a slight heart attack, and soon recovered when taken to the outer lobby. The other debaters on the autonomy bills yesterday were Mr. Kemp, Mr. German and Col. Ward.

Railway Bills Held Over.

Private bills were taken up after the recess. When the bill respecting the Ottawa & New York Railway was called, Mr. Fielding asked that it be not proceeded with, in the absence of the Minister of Railways.

The bill seeks to except the Ottawa & New York (which is not part of the New York Central), from the operation of the act of 1904, which provides that the majority of directors of all subsidized railways shall be British subjects.

Mr. Borden suggested the importance of having the Minister of Railways and other ministers present when departure from such a grave principle was involved.

Mr. Belcourt said that the Ottawa & New York was built in 1897. It received $375,000 in subsidies and the company, all Americans, spent $750,000 of their own money on it. The railway had been acquired lately by the New York Central, and was altogether under American management. But having one stockholder in Canada, the company was not in a position to have a Canadian board of directors. The company proposed to spend another $400,000 of American money in betterments of the road.

Mr. Borden took the ground that the fact that the railway was owned by foreigners rather strengthened the case for compliance with the act of 1904.

The bill was held over, as was also the bill respecting the Dominion Atlantic Railway.

The House adjourned at 9.25 p. m.

Costly Lumber Fire.

Wiarton, April 27.—Fire destroyed about $50,000 worth of logs, ties and posts and tanbark at Cape Chin dump Tuesday night. About 2,000,000 feet of logs were burned. The fire started about the middle of the log piles, and the cause is supposed to be incendiarism. The mill men affected here are Kastner & Co., loss about $10,000; Robert Watt, loss about $5,000; Hunter, Neiserball & Crawford, loss unknown; Wiarton Lumber Co., loss unknown; John P. Newman, loss about $3,000.

About 30,000 posts of T. J. Austin, of Detroit, were also burned. There is no insurance.

C. P. R. to Teach Shorthand.

Winnipeg, April 27.—The C. P. R. has decided to establish at Winnipeg a free school in shorthand and telegraphy for its employes. Qualifications for admission consist only of the recommendation of the head of the department in which the candidate is employed. In order to guarantee earnestness a fee of $5 a month will be charged for each subject, but this money will be refunded as soon as the student has passed the examinations.

Postoffice Burglarized.

Brockville, April 27.—Information was conveyed to the police yesterday of a burglary committed Tuesday night in the general store and postoffice of John Dumbrille, of Maitland. An entrance was gained by forcing open the front door with tools stolen from a blacksmith shop. The stock was turned topsy turvy. Dumbrille, however, had removed the day's receipts to his house. Tobacco, pipes and several letters were stolen, but nothing of value.

Canada's Newcomers.

Ottawa, April 27.—During the nine months ended March 31, 71,130 immigrants landed in Canada, an increase of 6,614 over the corresponding period of the previous year. Arrivals by ocean ports totaled 50,280, an increase of 8,061, and 25,340 came in from the United States, a decrease of 1,447. There was a considerable increase in immigration from the United Kingdom.

Y. M. C. A. Conference.

Paris, April 27.—The world's conference of the Young Men's Christian Associations, which is celebrating the semi-centennial of the International Alliance of the associations, was opened yesterday in the Charity Bazaar building. Over a thousand delegates, representing twenty nations, were present.

BURNED BY BLAZING ETHER

Grace Bland, 16, Met Her Death in Toronto Laboratory.

TRAPPED BY WALL OF FLAME

Maud Secord, a Toronto 4-Year-Old, Chased Her Hat on Ossington Avenue and Met Death by Trolley Car—Ten Men Drop to Death in Another Mine Horror—Other Accidents.

Toronto, April 27.—One girl was burned to death and a companion slightly burned by blazing ether in the Elliott & Co. chemical laboratory, 30 Beverley street, yesterday morning. Grace Bland, aged 16, 361 Bathurst street, with Jane Rule, was sealing 8-lb. bottles of ether over a spirit lamp. One was not tightly corked, and some of the contents dropped into the lamp and there was a sheet of flame in an instant. Miss Rule reached the door. Miss Bland ran in the wrong direction, and was unable to find an exist. When Hose 6 arrived the flames were extinguished in a few minutes, but the Bland girl was dead. The monetary loss is about $2,000.

Little Maud Secord Killed.

Toronto, April 27.—The eighth fatal trolley car accident in Toronto this year occurred on Ossington avenue yesterday afternoon. The victim was little Maud Secord, whose age is only four years. The fatality occurred about 4 o'clock. The child had crossed the track in front of her home, when a gust of wind lifted her hat from her head. The car struck her as she turned round to pick it up, the wheels going over both legs, which were severed. Dr. Watson, of College street, was at once called, but by the time he arrived the little one had died from her injuries. The motorman says the car was so close when the child turned that it was impossible to avert what happened.

TERRIBLY MANGLED 10 MEN.

Rope Snaps and Mine Shaft is Scene of Another Horror.

Wilkes-Barre, Pa., April 27.—Ten miners were instantly crushed to death yesterday at the Conyingham Mine of the Delaware and Hudson Co., located in the northern part of this city. The men were being lowered into the mine, and when 350 feet from the surface the rope broke and the cage fell to the bottom of the shaft, a distance of 400 feet. A rescuing party was at once organized, and they found the bodies of the men in the dump at the bottom of the shaft beneath a mass of debris. They were terribly mangled.

An examination of the rope had been made before the first cage full of human freight was lowered into the mine and it was found to be all right, but without any warning the rope snapped and the carriage dropped like a shot. The carriage had all the safety appliances, and its speed should have been checked before it reached the bottom, but the "catcher" did not work.

Body Found Under Ruins.

Winnipeg, April 27.—Yesterday morning the body of W. Waddicar, an Englishman, aged 24, was found in the ruins of the old C. P. R. depot, which is being torn down. The walls fell in last Saturday, and it is supposed the body has been in the ruins since then.

Powder Exploded—Houses Rocked.

Sherbrooke, April 27.—At 2.15 yesterday morning the mixing mill and wheel building of the Hamilton Powder Co., Windsor Mills, was blown up. The only person near by was the night watchman, who escaped with slight injuries. The explosion was so heavy that it was felt in Sherbrooke in a heavy degree, and houses rocked as if shaken by an earthquake.

Dynamite's Havoc.

Philadelphia, April 27.—One man was killed and 11 were injured, four fatally, by an explosion of dynamite yesterday near Bowlington, about 20 miles from here. The men were all Austrians. Twelve men were engaged in drilling when 75 pounds of dynamite exploded.

For Hiring Aliens.

Ottawa, April 27.—The first case ever heard in Ottawa regarding the Alien Labor Law was commenced yesterday, when George P. Spittal accused Frank E. Breckenridge, district manager of the Ottawa branch of the International Harvester Co., of assisting in the unlawful importation of certain Americans into Canada. Four witnesses said that they came from points on the American side, one declared that he had been transferred, and a sixth witness failed to appear.

Will Recommend Aid.

London, April 22.—Rider Haggard, who arrived Tuesday night in London, is reported to have said that the Canadian Government was very favorable to farm colonies, similar to those established by the Salvation Army in California, Ohio and Colorado. His report to the British Government will, it is believed, strongly recommend State aid to the Salvation Army in founding more farm colonies, especially in Canada.

London Sees Premier.

Toronto, April 27.—A deputation from London, headed by Mayor Campbell, yesterday asked Premier Whitney to provide 25 per cent. of the cost of a breakwater required to protect West London, recently incorporated with the city. A bylaw was recently passed, authorizing the expenditure of $15,000 on the work, and the Province is asked to bear the balance of the cost, $5,000. The usual consideration was promised.

Was Blinded By Eczema.

Suffered Intensely For Three Years and Was Horribly Disfigured

Skin Now as Smooth as a Baby's, Thanks to

Dr. Chase's Ointment

Such cures as the one described below are what have given Dr. Chase's Ointment a world-wide reputation as the standard ointment and the most satisfactory treatment ever devised as a cure for itching skin diseases.

Mrs. Robert Clendening, Welland Station, Ont., writes:—

"For three years my daughter, Fanny, was afflicted with eczema in an intense and persistent form, and for nine days she was totally blind. The burning, itching and disfigurement were horrible, her entire face being completely raw for months, and the distress so great that she could not sleep.

"The best efforts of two eminent physicians failed to even mitigate her awful suffering. One day when I was low-spirited over my daughter's condition Dr. Chase's Ointment was recommended to me and to our surprise Fanny was helped with the first box and she has since been entirely cured by this treatment.

"Her face is now as smooth as a baby's and she is in splendid health. The credit for this cure is entirely due to Dr. Chase's Ointment, and I cheerfully give you permission to state my daughter's case, hoping that it will lead many others to secure the same good results."

Dr. Chase's Ointment is recommended and sold by all dealers at 60 cents a box, or sent post paid on receipt of price by Edmanson, Bates & Company, Toronto. 6

SICK AT NIGHT WELL IN THE MORNING.

A MOST WONDERFUL CHANGE IN EVEN A FEW HOURS CAN BE EASILY ACCOMPLISHED IN NATURE'S WAY.

Your head aches and feels heavy. Perhaps your throat is a little dry. You have little appetite, and occasionally chilly feelings creep along the spine. Your eyes are hot, tongue furred, and you are about half knocked out. You know what the trouble is. You have been drinking and eating too much. You have felt this way before and it took you a week to get well. You are just "bilious" and your stomach has gone back on you. Now if you do the right thing at the very start you will feel better tomorrow. Just take two or three of Smith's Pineapple and Butternut Pills, take them now, and tonight when you retire take one or two more, and you will feel one hundred per cent better tomorrow morning and before the day is passed you will forget all about it. These wonderful little pills, combining the antiseptic and resolvent properties of pineapple with the laxative and cleansing effects of butternut, will quickly relieve a congested circulation, and drive out of the blood the bile accumulations, restoring harmonious action to the digestive organs. Just one day's use of these little pills will cure any threatened bilious attack. They are good for young or old, never gripe or weaken, nor leave behind any unpleasant after effects. They always cure sick headache, constipation and biliousness in one night. 25 cents at all dealers.

All genuine signed W. F. Smith.

Sealed tenders addressed to the undersigned and endorsed, "Tender for Additions and Alterations, Drill Hall, Toronto, Ont.," will be received at this office until Friday, April 28th, 1905, inclusively, for the execution of sundry works of addition and alteration at the Drill Hall, Toronto, Ont., according to plans and specifications to be seen at the offices of Mr. E. J. C. Curry, Architect, Toronto, Ont., and at the Department of Public Works, Ottawa.

Tenders will not be considered unless made on the printed form supplied, and signed with the actual signatures of tenderers.

An accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p. c.) of the amount of the tender, must accompany each tender. This cheque will be forfeited if the party tendering declines the contract or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By order,

FRED. GELINAS, Secretary.

Department of Public Works, Ottawa, April 19, 1905.

Newspapers inserting this advertisement without authority from the Department, will not be paid for it.

"Blunoz"—a Canadian Serge made on the Semi-ready standard

"Blunoz" is our exclusively controlled serge.

We had an idea that Canadians would wear a Canadian-made serge, if it was made good enough. We didn't want to appeal to their loyalty—what we wanted was a serge that would appeal to their pocket-books and their common sense.

We have it in "Blunoz" serge.

Our cloth experts hunted up a Canadian manufacturer who was honestly trying to make good serge, and instilled into him our ideas of what a serge should be. He is making "Blunoz" serge for us now. We control the output of his factory and the secret that makes "Blunoz" wear well and never fade.

The only place you can get this excellent "Blunoz" serge is in the Semi-ready Wardrobes—in single and double-breasted sack suits.

Price, $18.

RAILWAY FREIGHT RATES.

Cattle Dealers Complain That They Are Too High, and the Railway Commission is Investigating.

Toronto, April 26.—The complaint of the Farmers' Association of Canada and the Dominion Cattle Dealers' Association against the railways on account of excessive and discriminating rates charged for the transportation of cattle was again taken up by the Railway Commission yesterday, and the chairman said the representations made would be given serious consideration.

In an order made March 6, the commission ordered the railways to put into effect a rate of 15 cents per 100 pounds from Toronto to Montreal. The railways asked that they be allowed to charge 18 cents, and applied to stay the order. J. Hardwell, chief traffic officer of the commission, reported that the request of the railways was not unreasonable. If they were forced to adopt the 15-cent rate, they would be compelled to abandon the 17-cent rate from points east of Toronto. Mr. Hardwell also recommended that the railways be asked not to charge more than 1 cent per 100 lbs. for the Toronto stop-over.

W. D. Gregory, for the cattlemen, applied for a rehearing. He said that the shipments from Western Ontario were heavy, and when a rate was granted of 22 cents from Port Huron to Montreal, there should not be a charge of 38 cents from Ontario points. From Toronto to Montreal 15 cents was a reasonable rate. The Grand Trunk Railway Co. said the roads paid much more for coal in Ontario than in the States, and required higher rates, but taxation in Michigan was much higher, and more than made up for the increased cost of coal.

John W. Loud, freight traffic manager of the G. T. R., Montreal, replied that there were no shipments at all of cattle from Port Huron. The rate from Chicago to Montreal was 28 cents, the same as to New York. Cattle coming into Chicago from the west paid heavy freight rates, and were subject to heavy terminal charges. For these reasons, the rates to the east were low. In regard to taxation, it was also an important feature, not only in Michigan, but in Ontario. The late government had intended to increase the burdens of the railways, for which the farmers were chiefly responsible. It was inconsistent for them to increase the taxation and at the same time seek to reduce the revenue.

E. Snell, president of the Cattle Breeders' Association, complained that on lambs shipped to Toronto, cars were charged at 36,000, while to Buffalo they were charged only 18,000. It was a glaring injustice, and the people of Toronto paid more for their lamb on this account.

Mr. Loud replied that the charges on export sheep and lambs had been reduced to the same minimum as in the United States. This had been in operation four years It was quite true what Mr. Snell had said, but it was a difference in classification between Canada and the United States. Chairman Killam asked Mr. Snell to send in a written statement of his complaint to the board.

Will Benefit the Farmer.

The railway companies have been ordered by the Railway Commisison to "restore the equilibrium between their freight rates on grain and its products by reducing the rates now charged on the milled products thereof."

The order is the result of a representation by the Farmers' Association, that the railways discriminated against the grain producer by charging from 11-3 to 11-2 cents more per bushel for carrying grain to consuming centres than for flour and other mill products.

The decision is expected to make a difference of one cent per bushel to the farmer. About 20,000,000 bushels of oats are marketed yearly, which would mean an addition of $200,000 to the revenue of the growers.

Revised List of Punishments.

New York, April 26.—A Pekin despatch to The Herald says that in response to a memorial of Wu Ting Fang, formerly Chinese Minister to the United States, an Imperial edict on Monday abolishes the punishment of slicing to death and substitutes immediate decapitation. Immediate strangulation is substituted for decapitation. A reprieve until after the autumn assises is substituted for immediate strangulation, and three reprieves annul the death penalty. Branding is also abolished.

Better Beds, Tents and Boots.

Ottawa, April 26.—The Militia Department has plans for improving the conditions of the military in barracks and in camp. A new style bedstead, with spring, for the permanent corps, will replace the hard, springless bedstead now in use at London, Toronto, Kingston and other points. New hospital tents, with porch attached, and a new system of ventilation, will be introduced at the coming camps, also mess tents. The latter will enable the militiamen to sit down to meals together, under much more favorable circumstances than formerly. The improvements in the tents are due to Col. Fiset, the director of the Army Medical Corps, and Col. MacDonald, master of ordnance, has under consideration the providing of the militia with a uniform ankle boot.

Quebec Village Fire Swept.

Quebec, April 26.—Fire almost wiped the whole village of St. Andre, Kamouraska, out of existence yesterday morning. It did destroy the most important part of the place, burning to the ground the whole of the foundry, factories, etc., of the Desjardines Co., for some time one of the most important manufacturing concerns in the lower St. Lawrence. The plant at St. Andre consisted of a foundry for the manufacture of stoves and other shops for the manufacture of carriages, agricultural implements, etc. The loss is $50,000, with very little insurance. The origin of the fire is a mystery.

Duties a Handicap.

Ottawa, April 26.—In a letter received yesterday at the Trade and Commerce Department from Alexander MacLean, the Government's commercial agent in Japan, he writes that the importation of sole and other leather into Japan last year greatly increased owing to the increased demands occasioned by the war. Owing to discriminating tariffs it is questionable whether Canadian leather, which is heavily handicapped, will be able to successfully compete in the Japanese market.

LIVERPOOL GRAIN AND PRODUCE.

Liverpool, April 26.—Wheat, spot, quiet; No. 1 California, 6s 9d; futures, quiet; May, 6s 6¾d; July, 6s 7d; Sept., 6s 5¾d. Corn—Spot American mixed, new, quiet, 4s 2½d; American mixed, old, steady, 4s 10½d; futures, quiet; May, 4s 2¾d; July, 4s 3¼d.

NEW YORK DAIRY MARKET.

New York, April 26.—Butter, steady; unchanged; receipts, 5670.
Cheese—Firm, unchanged; receipts, 1446.
Eggs—Steady; receipts, 15,512.

CATTLE MARKETS.

Cables Firm and Unchanged—American Markets Easier in Sections.

London, April 26.—Export cattle are quoted at 12c to 12c per lb.; refrigerator beef, 9c to 9½c per lb.; sheep, 13c to 14c per pound.

MONTREAL LIVE STOCK.

Montreal, April 26.—(Special.)—The receipts were 600 cattle, 200 sheep and lambs and 1500 calves and 800 hogs. A feature of the market was the scarcity of choice cattle; in fact, there was none. The demand was good for what stock there was, and an active trade was done. The undertone to the market remains very firm, and sales of the best cattle were made at 5½c; good, 5c to 5¼c; fair, 4½c to 4¾c; common, 4c to 4¼c, and lower grades, 3c to 3¾c per lb. One carload of rough ewes were sold for shipment to Quebec at 4½c. The demand for sheep and lambs was good; sheep sold at 4½c to 5c per lb., and spring lambs, $3 to $5.50 each. Calves were of equal quality and sold low at from $1.50 to $4 each. The market for hogs was strong, and prices scored another strong advance. The supply was fair, for which the demand was keen from packers, and sales of selected ewes were made at $7.25 to $7.60 per cwt., weighed off cars.

EAST BUFFALO CATTLE MARKET.

East Buffalo, April 26.—Cattle—Receipts, 300 head; prime steers, $6.25 to $6.60; shipping, $5.50 to $6; butchers', $5.25 to $5.85; heifers, $4.25 to $5.50; cows, $3.25 to $5; bulls, $3 to $4.85.

Veals—Receipts, 300; slow, at $4.25 to $6.75.

Hogs—Receipts, 4100 head; slow and 5c to 10c lower; heavy and mixed, $5.65 to $5.70; yorkers, $5.60 to $5.65; pigs, $5.55 to $5.60; roughs, $4.75 to $5; stags, $3 to $3.75; dairies, $5.40 to $5.60.

Sheep and Lambs—Receipts, 3600 head; slow; lambs and wethers, 10c lower; lambs, $4.50 to $6.50; yearlings, $5.60 to $5.75; wethers, $5.25 to $5.40; ewes, $4.75 to $5. Sheep, mixed, $2.50 to $5.15.

NEW YORK LIVE STOCK.

New York, April 26—Beeves—Receipts, 1501; market slow to 10c lower; steers, $4.75 to $6.40; bulls, $2 to $4.65; cows, $1.75 to $4.75. Shipments to-day, 124 cattle and 2600 quarters of beef.

Calves—Receipts, 5592; slow and 25c to 50c lower. Veals, $3 to $6.50; a few tops, $6.60; little calves, $2 to $2.50.

Sheep and Lambs—Receipts, 4092; sheep, very dull; lambs, slow and 10c to 15c lower; clipped sheep, $3.50 to $5; clipped culls, $2.50 to $3; unshorn lambs, $7.25 to $7.90; clipped lambs, $5.50 to $6.50; Virginia springers, $5 each.

Hogs—Receipts, 5295; market, 10c lower; state hogs, $5.75 to $6.

CHICAGO LIVE STOCK.

Chicago, April 26.—Cattle—Receipts, 18,000; good to prime steers, $5.75 to $6.75; poor to medium, $4.30 to $5.60; stockers and feeders, $2.75 to $5.20.

Hogs—Receipts, 28,000; mixed and butchers', $5.25 to $5.45; good to choice, heavy, $5.30 to $5.52½; rough, heavy, $5 to $5.25; light, $5.20 to $5.40; bulk of sales, $5.35 to $5.44.

Sheep and Lambs—Receipts, 15,000; good to choice wethers, shorn, $4.75 to $5.15; fair to choice, mixed, shorn, $3.75 to $4.50; native lambs, shorn, $4 to $6.40.

—On Tuesday next the town's bill will come up in the Legislature, and Mayor Best and the Town Solicitor will attend to represent the town.

When life's autumn comes, women, worn out by the burdens of motherhood, yet shrink from that second "change of life" which will banish these burdens forever, fear a change in form, in feature, in personal attractiveness. Such fears are largely warranted by the effects which this change produces in many women. But no woman need let these fears fret her.

Those who have used Dr. Pierce's Favorite Prescription do not suffer from the change of life either in face, form or feelings as do other women. This fact is due to the intimate connection of the general health with the health of the organs peculiarly feminine. By preserving the health of these organs, and relieving the system from the debilitating drains, ulcers and inflammations which sap its health, "Favorite Prescription" paves the way for this natural change to come in Nature's way, without the loss of capacity to please others or personal inability to enjoy life.

"Your 'Favorite Prescription' brought me safely through that difficult period, called 'change of life,'" writes Mrs. Mary Kessinger, of 324 E. Ankeny St., Portland, Oregon. "This change made a very unpleasant disturbance through my entire system. I had hot and cold flashes, sick headaches, became excited, flustrated, nervous and irritable. My appetite was fitful and for days I was unable to eat a fair meal. My aunt recommended me to try Dr. Pierce's Favorite Prescription and it made a great change for the better. Within two weeks the unpleasant feelings had disappeared. I have a husband and eight children so have the care of a large family but was able to attend to my household duties without any difficulty and passed the period without any more trouble. I can recommend your 'Favorite Prescription' as a grand medicine for women."

You may be willing that somebody else shall say that their baby is "just as good" as yours, but you don't want that baby substituted for yours. Let dealers say what they like about other medicines being "just as good" but don't let them substitute anything for "Favorite Prescription." It is absolutely unequaled.

LORD AND LADY GREY.

Perform an Exacting Round of Social Duties in Toronto, and Everywhere Win Golden Opinions.

Toronto, April 26.—Yesterday was a busy day for His Excellency Earl Grey, the Countess Grey and their entourage. From early morning till late at night the round of social duties was exacting, and doubtless fatiguing, but with gracious forbearance, Their Excellencies carried out their part, and there was no cut in the program.

It included a visit of inspection to the General Hospital, a reception by the city fathers at the Municipal buildings, the presentation of addresses by the Canadian Manufacturers' Association and the local Council of Women, a visit to the Woman's Art Association exhibit, a reception at the Toronto Ladies' Club and finally a brilliant society function at the King Edward. To crowd so many events into a single day means the loss of rest and quiet. But to-day's program cut out for the distinguished guests will not be less trying. It includes the opening of the Horse Show, a huge occurrence in the life of Toronto sweildom, and the Paderewski concert, with many visits and addresses by public bodies sandwiched in.

Earl Grey, though of the purple, is exceedingly democratic in his ways, and he has succeeded in one short day in popularizing himself with all classes with whom he has come in contact. The same may be said of his estimable wife, and of his charming daughters, Lady Sybil and Lady Evelyn.

Tired all the Time

Mr. George Beattie, Carr's Brook, Colchester Co., N.S., writes:—"Last spring I was very much run down, felt tired all the time, and did not seem to have life or energy enough to do my work. Three boxes of Dr. Chase's Nerve Food did me a world of good, and made work a pleasure to me. I have not had occasion to use any medicine since, and have recommended Dr. Chase's Nerve Food to all my friends."

TURKS BEATEN BY ARABS.

Sultan's Syrian Troops Display Great Cowardice—Sacrifice Supplies.

Aden, Arabia, April 26.—The situation in Turkish Arabia has become critical. It transpires that only a thousand of the Turkish troops sent to the relief of Riza Pasha reached Sanaa (capital of Yemen), and these fled thither after sustaining a defeat at the hands of the insurgents. Riza Pasha's troops, 6,000 strong, encountered the Arabs in great force five miles south of Sanaa March 30, and after a sharp encounter most of the troops, consisting of Syrian reserves, laid down their arms or deserted, the remnant of the Turks managing to reach Sanaa the same evening with only 50 camel loads of supplies.

The chief of staff, Izzat Pasha, was killed, and seven guns were abandoned and taken possession of by the Arabs, who also captured two hundred camels laden with provisions, and large quantities of rifles and ammunition.

The investment of Sanaa by the insurgents is being tightened. The Syrian reinforcements, which recently arrived in Arabia, are unsatisfactory, and the Ottoman officials are anxiously awaiting the arrival of European battalions upon whom the fate of the capital of Yemen Provinces depends.

BY ACCLAMATION.

Hon. Frank Oliver, New Minister of the Interior, Elected.

Edmonton, N. W. T., April 26.—Hon. Frank Oliver, the new Minister of the Interior, was yesterday elected by acclamation.

Ontario Library Association.

Toronto, April 25.—The fifth annual meeting of the Ontario Library Association was held yesterday afternoon at the Canadian Institute, about 60 persons being present. The president of the association, W. Tytler, B. A., of Guelph, presided.

The report of the secretary, E. A. Hardy, said the next great step should be the securing of trained librarians. The public demanded skilled teachers; it should demand skilled librarians also. A Provincial library commission would do great work in this direction. The members concurred and hoped the Government would act on these lines.

Lifebuoy Soap—disinfectant—is strongly recommended by the medical profession as a safeguard against infectious diseases.

The STA-ZON is the latest eyeglass success. We recommend them for comfort, security, durability and neatness. We measure the defect in your vision and exactly neutralise it with lenses.

DRS. KENNEDY & KERGAN

Specialists in the Treatment of Nervous, Blood, Private and Sexual Diseases of Men and Women. 25 Years in Detroit.

No Names used without Written Consent. Cures Guaranteed.

Thousands of young and middle-aged men are annually swept to a premature grave through early abuse or later exposure. Chas. Anderson was one of the victims, but was rescued in time. He says: "I learned an evil habit. A change soon came over me. I could feel it; my friends noticed it. I became nervous, despondent, gloomy, had no ambition, easily tired, evil forebodings, poor circulation, pimples on face, back weak, dreams and drains at night, tired and weak mornings, burning sensation. To make matters worse, I became reckless and contracted a blood disease. I tried many doctors and medical firms—all failed till Drs. Kennedy & Kergan took my case. In one week I felt better, and in a few weeks was entirely cured. They are the only reliable and honest Specialists in the country."

READER—We guarantee to cure you or no pay. You run no risk. We have a reputation and business at stake. Beware of frauds and impostors. We will pay $1,000 for any case we take that our NEW METHOD TREATMENT will not cure.

We treat and cure Nervous Debility, Varicocele, Stricture, Weak Parts, Kidney and Bladder Diseases. Consultation free. Books free. Call or write for Question List for Home Treatment.

DRS. KENNEDY & KERGAN Cor. Michigan Ave Shelby St. Detroit, Mich.

EXCITED HORSE CAUSED ACCIDENT

Mr. Albert Hamilton Hurt on George Street To-day.

Fell Between Street Car and Wagon Which Passed Over Him.

Mr. Albert Hamilton of the Fifth Ward, met with an accident at noon to-day, near the corner of George and Charlotte streets, as he was returning after dinner to his work at the Peter Hamilton Co's works.

A street car was standing on George street just below Charlotte, and Mr. Hamilton was going south and passed the car on the east side. At the same time a butcher wagon was coming up and passed the car also on the east side. Just as the horse reached the car the motorman rang his gong, frightening the animal, which jumped upon Mr. Hamilton, knocking him off the wheel. The shaft struck him on the breast, and one of the wheels passed over his arm, bruising it badly.

He was picked up and rescued from what was a very dangerous position. Unless some internal injuries were sustained, it is no expected that he will be seriously hurt.

INTERESTING NEWS BRIEFY TOLD.

Things We All Like to Hear About.

—The town council will meet to-morrow night.

—Be sure and hear the Sunflower Chorus at the Charlotte street bazaar to-night.

—The National Hotel is being fitted up in preparation for the Snow Shoe Club ball to-night.

—To-morrow afternoon at 3.30 the House Committee of the Y.W.C.A. will meet at the building.

—A committe of the whole council will meet to-morrow evening at 7.30, and the council meeting at 8 o'clock.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover, 222 McDonnel street. 'Phone 199.

—Every member of the Y.M.C.A. can have a share in the "Dormitory Furnishing Company." Have you subscribed yet?

—On May 19th the Mimico Band of St. Luke's Church will give an entertainment in the Fifth Ward Town Hall.

—Full information concerning Canada's highest grade piano, the "Nordheimer," at H. H. Edmison's pharmacy, George street.

—Yesterday was the first real taste of the good old summer time. The thermometer in the afternoon went up to 70 degrees in the shade.

—A mistake was made in the report of the Y. W. C. A. opening yesterday. It should have read that Mrs. Gliddon and Mrs. Ferguson poured tea.

—Rev. W. J. Jolliffe will be the speaker at the last popular mass meeting for the season in the Y. M.C.A. on Sunday. The music will be of an exceptional character.

—The Bank of Commerce will accept subscriptions for the Toronto South South Africa Monument Fund and also to the Dominion Fund, the donations to the latter being 25 cent subscriptions.

—Last night the Finance Committee of the Town Council met in the Town Clerk's office. A number of accounts were passed. It was decided to recommend that the auditors' report should be printed.

—A reporter appearing in a new spring suit either indicates that a line of credit has been established with some "easy" merchant, or that a clothing store has been "interviewed."

—The Misses Lillian and Loah Rogers, of Peterborough, daughters of Mr. R. B. Rogers, Superintendent of the Trent Valley Canal, are visiting their cousin, Miss Southeran, Lindsay street.—Lindsay Post.

The Examiner is now on sale at Mr. J. T. Braund's Store, corner of Smith and George Streets, where any residents of that part of the town may procure it.

—For potatoes, parsnips, carrots, beets, turnips, cabbage, beans, pea-meal bacon, eggs and butter, canned tomatoes, peas and corn, cheap; also nice mixed biscuits, call upon James R. Bell, 161 Hunter street. 'Phone 455.

—A report was in currency last night that the Sovereign Bank had purchased a lot on Charlotte street and that a new bank building would be erected. This was denied this morning by the gentlemen from whom the property was said to have been purchased.

—Mrs. Jobbitt, wife of Conductor Jobbitt, and two daughters, Edna and Luella, left for their new home in Peterborough yesterday. Conductor Jobbitt having been transferred to the Peterborough-Lakefield run. The Misses Jobbitt will be greatly missed in town, being well acquainted with a host of young people.—Lindsay Post.

—Mr. Joseph Howson, of Petrol, Manitoba, writing under date of April 22nd, to the Examiner and renewing his subscription, says:—"We very much enjoy your enlarged and valuable paper." He also adds that the wheat seeding is almost finished and the weather is very fine at present.

Escaped an Operation

"I had itching piles for six years, and the doctors told me there was no cure for me unless through an operation. Dr. Chase's Ointment completely cured me in one week. As that was six months ago, and there has been no return of the old trouble I believe that the cure is a permanent one."—Mr. J. Mawer, Roden, Man.

PRESENTATION TO MR. T. H. HUTCHISON

Pleasing Event at Y.M.C.A. Last Night.

Genial Boy's Secretary Presented With Suit Case and Fountain Pen on the Eve of His Departure.

An interesting gathering of the officers and members of the Y.M.C.A. assembled last night at the building to do honour to Mr. T. H. Hutchinson, one of the most popular officials of the association, who will leave on Saturday for his home in Allieston, Mr. Hutchinson has been connected with the local branch of the Association for about one year in the capacity of Boys' Secretary and assistant physical director, and has by his genial, kindly nature, endeared himself during this time to a host of friends in town will learn with regret of his coming departure. This was last night evidenced in a tangible manner when he was made the recipient of a handsome dress-suit case, and a fountain pen.

Mr. P. K. Holmes, the Physical Director, acted as master of ceremonies, and made a few appropriate remarks, expressive of his regret at the departure of his colleague, and referred to the general feeling of sorrow at the necessary severance of the ties of friendship and esteem which had existed in the past.

Short speeches were also delivered by Messrs. G. H. Williamson, the General Secretary, Mr. Wilson, the Janitor of the building, Mr. W. D. Campbell, Mr. Homer Herd, and others.

Mr. Hutchinson made a brief reply in which he referred to the manifold benefits which he had derived during his year's term of residence in Peterborough, and spoke of the pleasant relations which had always existed between himself and the members and officers of the Association, the severance of which caused him the deepest regret.

Mr. Hutchinson will return on Saturday to his home at Allieston, Ont., and will leave in a short time for Springfield, Mass., and will take a physical director's course in the training school in that place.

THE SOCIAL WORLD.

Mr. E. M. Best returned last night after spending the holidays in Toronto, Hamilton and Whitby. He was accompanied by his brother, Mr. Ray P. Best, who will in future have charge of the hardware department of the Best Stove Company.

CRIMINAL CASES AT THE ASSIZES

Jury Disagreed in the Italian Stabbing Case.

Verdict of Guilty Returned in McGuire Case—Will Receive Sentence Later.

The High Court of Justice adjourned last night at about ten o'clock, and reopened at nine this morning. Several cases were heard yesterday before Hon. Mr. Justice Anglin.

The morning session was occupied by the case of Guiseppi Gilleonardo, the Italian against whom a true bill was registered by the Grand Jury upon the previous day, on a charge of having attempted to stab Charles Butcher and John Montgomery. Considerable evidence was offered and after the arguments of the respective counsel were heard, the Jury adjourned about 12 o'clock, returning at 4.30 without having arrived at a decision — nine favouring conviction, with three to the contrary. The case, it is believed, will, under the circumstances have to be heard at the fall session of the Assizes. D. H. Preston, K. C., Crown Prosecutor; D. O'Connell, counsel for defence.

The case of P. H. McGuire occupied the attention of the Court from two o'clock till about six. The charge against McGuire was of having received from the Tate & Lillicrap Lumber Co., of Lakefield, the sum of $160 by false pretenses, viz. in pretending that he had paid $160, the Government fee for obtaining a charter, when the fact is that the money had not been paid by McGuire, or by anyone for him.

The prisoner admitted having received the money, and had used it, believing that he was justified in so doing. He further claimed that his statement with regard to the payment of the money was made in good faith, as he had understood from his solicitors in Toronto that such had been the case, and that the complainants were mistaken in stating that he had stated that he, personally, had paid the money.

Mr. F. D. Kerr, counsel for the prisoner, advanced a strong and able argument on behalf of his client, the manner of its presentation being considered particularly able and well-chosen. It proved, however, unavailing before the mass of testimony adduced by the prosecution. His Lordship charging strongly against the prisoner, who was found guilty, after a brief consideration by the Jury. Sentence will probably be delivered on Friday. The case for the prosecution was conducted by Mr. D. H. Preston, K. C., of Napanee.

The Grand Jury after a tour of inspection of various public institutions last night, made its presentment, which together with further proceedings of the Court will appear to-morrow.

PRETTY WEDDING IN TORONTO

Mr. Clarence W. Bell, of Town, Married to Miss Alice Jones.

The marriage of Miss Alice Jones, daughter of the late Thomas Foulkes Jones, to Mr. Clarence W. Bell, of the Ontario Bank, Montreal, son of Mr. F. E. Bell, of Peterborough, was solemnized early Tuesday morning at the Church of St. Mary Magdalene, the Rector, Rev. Chas. Darling officiating. The bride who was unattended, was given away by her brother-in-law, Mr. H. M. Bourne, and was attired in a golden-brown silk suit, richly trimmed with champagne silk lace, and hat to match.

Mr. and Mrs. Bell left immediately afterwards for Ottawa, and other eastern points, and will make their future home in Montreal. Only the immediate relatives witnessed the ceremony.—Toronto Star.

The groom mentioned above is well known in Peterborough, where his many friends join in congratulating him upon his wedding. Mr. and Mrs. F. E. Bell, parents of the groom were in Toronto attending the wedding.

Annual Meeting of W. F. M. S.

The 29th annual meeting of the Women's Foreign Missionary Society of the Presbyterian church in Canada, Western Division, will be held in St. Paul's church, Peterborough, on Tuesday, Wednesday and Thursday, May 2nd, 3rd and 4th.

A public meeting will be held on Wednesday evening, when Rev. Sidney L. Gulick, of Japan, will speak on the subject, "Japan's New Attitude Towards Christianity."

About three hundred delegates will be present. Any friends who could entertain one or two of these delegates may hand their names to Miss Alice Hall, secretary of the W. F. M. S., or to Miss Martha Dickson, secretary of the Billeting Committee, at as early a date as possible. 2t

TWO CHARGED WITH MURDER

Alex. Willis Arrested For Killing Miss Lowry At Rodney.

MRS. COVELL AS ACCESSORY

Fresh Evidence Connecting Willis With the Crime—His Story of His Whereabouts on the Night of Murder Overthrown—Mrs. Covell Charged With Knowing Murderer and Shielding Him.

Rodney, April 28.—"We believe that Eliza Lowry was murdered at the home of Benjamin Covell, about one mile north of the Village of Rodney, on the night of April 18, or the morning of April 19, 1905, and we strongly suspect that Alexander Willis committed the crime, and we believe Elizabeth Covell knows who committed the murder."

In fifteen minutes after this verdict, Willis was shackled, preparatory to leaving for St. Thomas jail. He was remanded until May 4. Mrs. Covell, too ill to be removed from her bed, was guarded by a constable. Both are charged with the murder of Miss Lowry.

The denouement of the tragedy proves scarcely less sensational than the murder itself. For the past few days suspicion has rested more or less heavily on both prisoners, but when three witnesses were produced to prove that Alexander Willis had passed their house, a mile and a half nearer the Covell homestead between 6 and 7 o'clock on Wednesday morning, an hour at which he affirms he was in his bed, the jury felt that a case against him was assured.

Dr. Harvey, the young dentist, testified that he felt sure the man he met in front of the Covell home was Alexander Willis.

The charge against Mrs. Covell arises from the discrepancies in her stories. The fact that the purses she said she had given to the murderer were found in her skirt; her mentioning that the murderer had a wife and family, as though she knew him intimately, and then avowing that she knew only what he had told her; her accusing Willis, and then not identifying him; the failure of the murderer to return when he found that there was no one at the door; the fact that she was able to change her clothes after he left, all tend to strengthen the idea of her complicity.

The inquest lasted all day. The evidence was, for the most part, a reiteration of what had already been taken. There were some new witnesses, however, whose testimony went far toward the arrests made last night.

NEGOTIATIONS END.

Canada and U. S. to Reciprocate on Steamer Certificates.

Washington, April 28.—F. Gourdeau, Deputy Minister of Marine and Fisheries of the Dominion of Canada, has sent the following telegraph from Ottawa to Secretary Metcalf of the Department of Commerce and Labor:—

"Order just passed by the Canadian Government to accept United States certificates of inspection on board United States steamers in Canada, except so far as will enable inspectors to ascertain that the condition of the vessel, her boilers and life-saving equipment are as stated in the certificate of inspection. The order in court leaves for Toronto to-night (last night) for His Excellency's signature, who will act to-morrow (this) morning.

This practically concludes negotiations which have been pending for a long time, looking to a reciprocal exemption of vessels from inspection by both the United States and the Canadian Governments. Under the terms of the agrement reached, the certificates of inspection issued by the Canadian authorities will be accepted by United States, and at Canadian ports steamers bearing American certificates of inspection will be accorded a similar courtesy.

A similar arrangement has been made with Great Britain.

HEAVY FIRING AT SEA.

Reports of Trading Vessels Says Sounds of Battle Came From Paracels Islands—Victory for Linevitch.

Hue, April 28.—Trading vessels arriving here early yesterday morning report having heard heavy firing at sea at intervals in the past forty-eight hours. Most of them thought the sounds came from the Paracels Islands, or another point close to Hainan. No cable news was received from Hainan yesterday. It is reported from Kwanchanwan there has been trouble with the wires.

A Three Hours' Fight.

St. Petersburg, April 28.—Gen. Linevitch, in a telegram to the Emperor, dated April 26, reports a three hours' fight April 23 near Tsintsiatoun, the Russian cavalry forcing the Japanese to retreat.

PEACE METHODS OF THE CZAR.

New Governor-General of Moscow Has Record For Severity.

St. Petersburg, April 28.—The post of Governor-General of Moscow, which was temporarily abolished January 18, has been reestablished by Imperial decree, and Gen. Kosloff, former chief of the Moscow police, has been appointed Governor-General of that city. The administrative control of the police remains in the hands of Gen. Wolkoff, who was appointed prefect in January, but the police will be under the general supervision of the Governor-General.

Kosloff's appointment as Governor-General of Moscow upon the eve of the anticipated troubles at Easter (April 30), and on May Day (May 14), although accompanied by a rescript in which Emperor Nicholas speaks of the "great interior reforms" contemplated by him leaves no doubt of His Majesty's purpose first to restore tranquility with a firm hand.

Kosloff distinguished himself during the Nihilist conspiracies 25 years ago by hunting down conspirators, which resulted in an attempt upon his life. The public generally interprets his summons from retirement at the age of 65 as being an indication that the harsh measures of repression then sanctioned are to be revived.

Excitement at Warsaw.

Warsaw, April 28.—All trains to the frontier are crowded, and there is an unprecedented demand for passports, which will be used in the event of serious disturbances at Easter or on May Day. Shopkeepers and householders residing in the vicinity of the Government "alcohol shops have been anonymously notified to leave before May 1, as these shops will be blown up.

Easter Services Begin.

St. Petersburg, April 28.—The first of the great preliminary Easter services were held in the churches and cathedrals last night.

Bolosy Kiraify Loses Suit."

Toronto, April 28.—The suit of Bolosy Kiraify against the Industrial Association was dismissed yesterday. He sought to recover $25,000 damages, claimed to have been sustained by the loss of his costumes in front of the grand stand there years ago. The association insured the goods for $10,000 while they were under the grand stand, but Justice Street found that when they were removed Mr. Kiraify assumed all risks.

Prohibit Canadian Fish.

Albany, N. Y., April 28.—An important group of game amendments was added to the statutes yesterday by the signature of Governor Higgins. Among them is the bill of Mr. Knapp, prohibiting transportation companies from bringing into this State any fish caught in that portion of Lake Champlain known as Missisquoi Bay, Province of Quebec, Canada.

Old Mail Carrier's Death.

Wingham, April 27.—Another old pioneer of this section was laid at rest yesterday afternoon in the person of David Campbell. For the past 25 years he had been the Government mail carrier, and had the reputation of not missing a mail in that time.

Boilermakers' Strike.

Collingwood, April 28.—Because the Collingwood Shipbuilding Co. have declined to pay the boilermakers double-time for working last Good Friday, the men, sixteen in number, went out on strike at noon yesterday. They say they were promised the extra money.

Lew Wallace's Ben Hur.

In commenting upon the literary triumphs of Lew Wallace, The Atlanta Constitution says:

"The motive for the great semi-religious story of 'Ben Hur' came to the author after a straightforward talk with Ingersoll on the subject of religion and the existence of a God, and it was to refute his doctrine and show the purely human probability of a God man that the great novelist undertook the preparation of the work that has been translated into almost every known language."

The sale of the book is said to be as great as ever, twenty-five years after its appearance. Its success was phenomenal in every way, the aggregate sales reaching 1,000,000 copies.

THE ARREST OF A SUSPECT

H. Gardiner in Custody re Lancaster Bank Robbery.

WOULD TORTURE THE TELLER

Ordeal Escaped by Mr. Von Metzske Through His Plucky Fight Against Four Bank Burglars—Nature of the Evidence Against Gardiner—Wounded Teller, Somewhat Improved, Gives More Facts.

Cornwall, April 28.—So far only one arrest has been made in connection with the Lancaster Bank robbery. His name is H. Gardiner, and he has relatives at Summertown, where he was formerly employed. He was in bed sleeping when arrested at 5 a. m.

Night Operator McBean of the G.T.R. service states that on Tuesday night he had, when arriving on duty at 7 p. m., found two men in the station. One of these was the man he afterwards found dead on the platform. The other was Gardiner. The latter had enquired from him as to whether there were any eastbound trains during the night. On being informed that there was not, he asked whether there were any freight trains. He seemed disappointed and rejoined the man now deceased.

Joseph Deumo also claims that he saw the two men conversing at the G. T. R. depot.

Gardiner was committed for ten days as a vagrant. The only clue as to the whereabouts of the other men is given by several residents of the northern part of the village, who heard a man running on the road towards Alexandria about 2 p. m.

To Torture the Teller.

The robbers' purpose was evidently to torture the teller until he should reveal the secret of the safe's combination by binding him and applying a torch of oil-soaked flaming cotton to his feet until he would reveal the combination.

Mr. Sneyd, the manager of the Lancaster branch of the Merchants' Bank says that even though the would-be robbers had attempted to rob the bank by obtaining the combination of the vault, nitro-glycerine would be necessary, as there is a time-lock on the door.

Von Metzske, the teller, was somewhat improved yesterday, and better able to describe the occurrence. He says that he was only partially aroused by the smashing of the door and saw four men rush in. One of them, with a bull's-eye light, found the lamp and lighted it, as the others rushed upon him and seized him. He got one hand free and clutched his revolver, with which he killed the man who was evidently the leader. He fired a second shot and, he thinks, wounded another man. He kicked the light out of a man's hand, and it went out.

He says: "As I did so the three of them battered my head with their fists, or with the butt ends of their revolvers. I was stunned, but in the darkness managed to get upon my feet. One of them snatched my revolver from my hand, then I heard them stumbling and cursing over the stove and a bicycle which they had dislodged, and then over their comrade, whom it seems, had dropped. I staggered after them, but also became entangled in the fallen bicycle."

Provincial Detective Greer has gone to Lancaster to investigate the bank burglary.

A HULL FALLING OUT.

Ottawa Lawyer Near Death's Door From Blow With a Tumbler.

Ottawa, April 28.—Mr. Rene de Salaberry and Mr. C. B. Major, two well-known lawyers, were having supper in Hull Wednesday evening with a number of others when the former called the latter an offensive name. Mr. Major immediately hurled a glass at the other. The missile struck De Salaberry near the temple, severing the main artery. For some hours Mr. De Salaberry was under the doctor's care and the last rites of the church were administered. Yesterday he was better, but not out of danger.

MAY NOT RECOVER.

William McMahon Stabbed in An Affray at Lockport, N. Y.

Buffalo, April 28.—William McMahon, who claims that his home is in Alliston, Ont., was stabbed three times during a quarrel with Nick Staff, an Italian, at the Lockport Glass Works Wednesday night. The Canadian was cut in the chest, abdomen and leg, and it is feared his wounds will prove fatal. He is now in the Baker Hospital, Lockport, where the physicians hold out little hope for his recovery. His alleged assailant was captured after a short chase and locked up.

Capt. Milley Dead.

Toronto, April 28.—By the death of Capt. Milloy yesterday, Niagara-on-the-Lake loses one of its best known and highly respected citizens, after an illness of a few weeks' duration. Born in Toronto in 1853, he was a son of the late Capt. Duncan Milloy. For many years he had charge of the steamer City of Toronto, which plied between Toronto and Niagara. Some few years since he purchased the Oban Hotel at Niagara. He filled the office of Mayor for two terms. Deceased once made a daring trip across Lake Ontario in a small rowboat, being one of the few persons who have accomplished the feat without mishap.

Ready For Immigrants.

Quebec, April 28.—Dr. P. H. Bryce, Dominion medical superintendent, was in the city yesterday arranging for the opening of the immigration hospital for the season. The first passenger steamer is expected in a day or two. She is likely to be the Buenos Ayrean.

"The Value of Athletics and Gymnastics to the Young Man," Mr. W. D. Campbell.
"The Ladies," Mr. F. D. Kerr.

AGED MINISTER CALLED AWAY

Rev. Philip Harding Died at Apsley Yesterday.

Word was received in town to-day of the death in Apsley of Rev. Philip Harding, a superannuated clergyman of the Anglican Church, and the announcement was one which caused regret to the many friends of the deceased gentleman here. The late Mr. Harding, who had reached the advanced age of nearly 90 years, was for a number of years engaged in the work of the Anglican Church in the northern part of this county, and in that work has rendered valuable services to the church.

About three years ago he was superannuated, and his since that time not taken any active work.

He has been heard in St. John's Church here on more than one occasion.

Teaches Bischoff's new and beautiful Dark Work in China Painting; lessons in Oil Painting to advanced pupils; studios, 405 Donegal street and 2, 4, 6, rooms.

LOCKS NEARLY READY FOR USE

Extensive Repairs Are Now Almost Completed.

River Navigation Will Be Open in a Short Time—Locks Deepened Four Feet.

The improvements which have been in progress at the locks below the town for the past few months are practically completed, and it is stated that in a short time the locks will be ready for use. New gates have been installed, and new concrete floors placed in the locks, which have also been deepened by four feet. Last year in the low water the boats found it rather difficult to navigate in the locks, but with the increased depth, this should not be experienced this year.

Navigation will open from Rice Lake in a short time now, but there will not be as many steamers on that route this year as there were last, the burning of the North Star and the selling of the Sovereign placing these two boats out of commission. The trade will be practically handled by the Calcutt boats and the Rainbow, the latter and the Water Lily being at present the only two boats lying below the locks, but the City of Peterborough will be available for work with the completion of the repairs to the locks.

In the meantime the boats will land below the locks, and the street railway will give good service from that part to the town, although it will be an inconvenience to freight handling, and doubtless the freight traffic will not be heavy until the locks have been opened, allowing the boats to unload at the C. P. R. wharf.

The personnel of the crews for the Calcutt line of steamers has not been chosen yet, but will no doubt be announced in the course of a short time.

SEVERED THE RADIAL ARTERY

An Accident Which Occurred to Robert Days.

Robert Days, an employee of the Canadian Cordage and Manufacturing Company, met with an accident Wednesday which might easily have proven fatal, and would doubtless have resulted in his death had not prompt medical assistance been procured.

He was operating one of the machines when he cut the radial artery at his left wrist. The cut was a very small one but the severing of the artery caused him to lose a great deal of blood and he would no doubt have bled to death had not prompt measures been taken to stop the flow of blood.

Dr. Bradd was called and attended to the injured man who is now out of danger.

LOCAL OPTION BYLAW IN BELMONT TOWNSHIP

A Correspondent Thinks That its Submission Would Be Successful.

To the Editor of the Examiner:

Dear Sir,—There is a very strong feeling in this township that a Local Option By-law should be submitted to the electors, so that the Township of Belmont might be in sympathy with Dorro, Ennismore, Smith, Harvey, Galway, Cavendish, South Monaghan and North Monaghan, where there are no hotel or summer resort licenses issued. I notice that the Rev. Mr. Potter and some of the Peterborough clergymen were active in the submission and carrying of the Local Option By-law in the township of Smith. I am sure if they would make any effort the by-law might be carried and the bar-rooms closed in this township. There is no apparent necessity for them and there is no question of doubt upon the subject, that if the by-law was submitted it, would be carried by a handsome majority, as the people of the township are desirous of having no liquor sold within their borders.

The by-law should be submitted this year, so that this would be the last year in which licenses would be issued in the township and care should be taken in the preparation of petitions and the submission of the by-law by the Council, so that there would be no little technicalities arise that might be a reason for litigation thereafter. If the above townships can do without the sale of liquor, there is no reason why it cannot be abolished in this township as well.

Yours truly,
TEMPERANCE.
Belmont, April 27th, 1905.

THE EXAMINER IN THE YUKON

Mounted Police Constable Wants to Read Peterborough News.

The following letter was received yesterday from White Horse, Yukon Territory, and is an evidence of the fact that the Examiner's popularity is not confined to the confines of this county, or even this province. A paper goes to Mr. Hutchinson today:—

Royal North West Mounted Police,
White Horse, April 6th, 1905.

Daily Examiner,
Peterborough, Ont., Canada.

Sirs,—I wish to subscribe for the Daily Examiner, please send me the paper and the cost per year, and I will send the money to you on the return mail. I am a native of the town, and I would like to hear how it is progressing.

I remain,
Yours truly,
R. W. HUTCHINSON,
Constable.
R. N. W. M. Police, White Horse, Yukon Territory.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

Doctor Brigham Says

MANY PHYSICIANS PRESCRIBE

Lydia E. Pinkham's Vegetable Compound

The wonderful power of Lydia E. Pinkham's Vegetable Compound over the diseases of womankind is not because it is a stimulant, not because it is a palliative, but simply because it is the most wonderful tonic and reconstructor ever discovered to act directly upon the generative organs, positively curing disease and restoring health and vigor.

Marvelous cures are reported from all parts of the country by women who have been cured, trained nurses who have witnessed cures and physicians who have recognized the virtue of Lydia E. Pinkham's Vegetable Compound, and are fair enough to give credit where it is due.

If physicians dared to be frank and open, hundreds of them would acknowledge that they constantly prescribe Lydia E. Pinkham's Vegetable Compound in severe cases of female ills, as they know by experience it can be relied upon to effect a cure. The following letter proves it.

Dr. S. C. Brigham, of 4 Brigham Park, Fitchburg, Mass., writes:

"It gives me great pleasure to say that I have found Lydia E. Pinkham's Vegetable Compound very efficacious, and often prescribe it in my practice for female difficulties.

"My oldest daughter found it very beneficial for uterine trouble some time ago, and my youngest daughter is now taking it for a female weakness, and is surely gaining in health and strength.

"I freely advocate it as a most reliable specific in all diseases to which women are subject, and give it honest endorsement."

Women who are troubled with painful or irregular menstruation, bloating (or flatulence), leucorrhœa, falling, inflammation or ulceration of the uterus, ovarian troubles, that bearing-down feeling, dizziness, faintness, indigestion, nervous prostration or the blues, should take immediate action to ward off the serious consequences, and be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound, and then write to Mrs. Pinkham, at Lynn, Mass., for further free advice. No living person has had the benefit of a wider experience in treating female ills. She has guided thousands to health. Every suffering woman should ask for and follow her advice if she wants to be strong and well.

LOCAL PEOPLE AT OPENING BALL

Many Peterborough People at the Armstrong House Dance in Havelock.

A Successful Social Event—New House Pleasantly Opened.

From our Own Correspondent.

Havelock, April 27th. — The formal opening of the new Central Hotel of which Mr. Charles Armstrong is the proprietor, took place last night and was celebrated with a ball and supper in the town hall. The orchestra, procured from Campbellford for the occasion, was all that could be desired and the music rendered was of the best, and was much appreciated by the dancers. About seventy five couple were present to start the grand march, and numerous others dropped in during the course of the evening. Some of the visitors present were: Wm. Croft, R. J. Rickerby, Miss E. Montgomery, Miss Nellie Conway, Peterborough; Mr. Thos. Rutherford, a distinguished guest on account of his being the contractor for the house now completed; Mr. and Mrs. Thos. Reid, Miss Blanche McWilliams, Miss S. Cooper, A. and J. Boyd, Misses Annie, Katie and Candace McFall, Marmora; Mr. Garvey, Campbellford; Mr, Harvey, Campbellford; Mr. Newman, of the World, Mr. F. Peters, Toronto; Miss Armstrong, Hastings; Mr. Ridley, Toronto; B. Leal, Marmora; Miss Hodge and George Gibson, Marmora; Robert McFall, Blairton; John Sayes, Peterborough; Charles Pearce, Norwood, and many others.

Mr. Archie Moore of Peterborough acted as director, and it was a treat to dance when Mr. Moore had charge.

The supper was served in the basement at midnight and was of a very high order.

Although the crowd was not as large as is sometimes seen at a dance there were enough present to ensure a good time, and not be crowded on the floor when dancing. The hall was a complete success and the management deserves credit for the way it was conducted, and Mr. Armstrong is to be congratulated on being the proprietor of such a house.

IT WILL KEEP

It is not always necessary to use a whole bottle of Scott's Emulsion. What is left will keep. We have seen a bottle of our Emulsion three years old that is still good. What other preparation of cod liver oil will keep sweet and permanent for half that length of time? Scott's Emulsion is always reliable because it's always absolutely pure.

We'll send you a sample free.
SCOTT & BOWNE, Chemists, Toronto, Ont.

ABLE LECTURE BY REV. DR. PERRY

Spoke Last Night at Murray Street Baptist Church.

Subject was "Business is Religion and Religion is Business."

A large audience attended the lecture delivered last night in the Murray street Baptist Church, by Rev. Dr. Perry, pastor of the Jarvis street Baptist Church, Toronto, on "Business is Religion and Religion is Business."

The address proved thoroughly enjoyable, and was listened to with close attention. The speaker treated his subject in a broad and comprehensive manner, and introduced many sparkling anecdotes which pleasingly illustrated the theme of his remarks.

The meeting was opened by a well-rendered organ number by Mrs. Mowat which was much enjoyed, after which the speaker was introduced by Rev. Mr. Scott, in a brief and well-chosen expression of welcome.

Rev. Dr. Perry, in opening, stated that his subject was divided into two sub-divisions—a protest and a model. A great many people have the idea that life is made up of two distinct sets of principles — one for business and the other for religious life. He wished to protest against this common idea, stating that "business is business" and "religion is religion." The speaker illustrated his remarks by relating an appropriate incident in connection with the famous Tweed ring. He trusted that every one was agreed upon the fact that a man cannot consistently do that in business life, which would be a shame and a disgrace to his Christianity. Some people wonder if a clergyman knows anything of business. The speaker expressed his conviction that any man who could successfully carry on the work of a congregation year after year, must require fully as much tact and ability as is necessary to conduct a business.

Unless a man makes a religion of his business, his fellows will have little use for him, and unless the community is convinced of the genuine nature of his religion, and unless he introduces the spirit of it into his business he will soon lose its esteem.

The one thing pre-eminently necessary is to get a lot of religion into our business. There is no business which cannot have religion put into it. Religious life is not to be lived in an irresponsible sort of busis, but should be filled with enthusiasm and aggressiveness fully as much as that of a business career. When we look back to the life of Christ, at twelve years of age, we find him saying, "I must be about My Father's business. There is a great difference between a vocation and an avocation. A vocation, the speaker explained, is a business, and and an avocation, a pastime. The vocation of every Christian is to put his full power into living a life in the cause of Christ. The one thing that religion requires particularly of a man is steadfastness in his vocation. The speaker referred particularly to the unstable nature of the Galicians, and of the appeal of St. Paul, urging steadfastness of purpose. Steadfastness depends largely upon getting a firm foundation in the Christian faith. If the spirit of the age is against the real spirit of Christ there is little chance of us putting into our business that which Christ wishes us to put. The speaker pointed to the rampant spirit of gain prevailing in the present day and its disastrous consequences. We should blend the characteristics of Jeremiah with those of Elijah.

The speaker spoke of the steady advances in religious life during the past centuries, and expressed the conviction that the 20th century will be more glorious in this respect than any which have preceded it.

In closing, he urged the adoption of the Bible as a background for our lives, and urged his hearers to even hold before them the motto — "Religion is business, and business is religion."

A pleasing vocal solo was then rendered by Miss Clara Kidd, in good voice and with splendid effect, after which Mrs. Mowat gave a splendid organ performance of the "Hallelujah Chorus."

PERSONAL NEWS FROM HAVELOCK

Interesting News From the Railway Town.

From our Own Correspondent.

Havelock, April 27th. — G. Sills and family spent a few days visiting with friends in Belleville last week.

Mr. D. L. Summerville is spending the holidays with friends in Toronto.

Taking Desperate Chances.

It is true that many contract colds and recover from them without taking any precaution or treatment, and a knowledge of this fact leads others to take their chances instead of giving their colds the needed attention. It should be borne in mind that every cold weakens the lungs, lowers the vitality, makes the system less able to withstand each succeeding cold and paves the way for more serious diseases. Can you afford to take such desperate chances when Chamberlain's Cough Remedy, famous for its cures of colds can be had for a trifle? For sale by all druggists.

Boy and Horse Drown.

Campbellford, April 28.—A drowning accident occurred here yesterday morning, by which a boy about 11 years of age, son of Moses Peeling, lost his life. In company with a man named Tyler, they were dumping rubbish into the river with a horse and wagon, and, getting out too far, the current caught the wagon and swept it with the occupants and horse down the river. Tyler swam ashore, but the boy and horse were carried over the dam and drowned.

Accused of Embezzlement.

Trenton, N. J., April 28.—Dr. Wesley R. Wales, president of the First National Bank of Cape May City, was arrested by a United States marshal yesterday and arraigned in the United States court to plead to an indictment charging him with the misappropriation of $10,000 of the bank's funds He entered a plea of not guilty.

Bigelow's Indebtedness.

Milwaukee, April 28.—Frank G. Bigelow, the defaulting bank president, has confessed an indebtedness to banks, commercial institutions and estates of which he had charge, which will aggregate between $2,000,000 and $3,000,000.

VALUE OF "OZONE"

MODERATE PRICED HOUSES IN DEMAND

Statement That 100 Houses To Rent At From $8 To $10 per Month Would Be Taken By Saturday Night—Plenty of Houses at Higher Price but a Serious Lack of Dwellings to Rent for the Amount Mentioned—Reason is That It is More Profitable to Build Better Houses—A Serious Problem Which Awaits Solution.

"If there were 100 vacant houses which would rent for a moderate amount, they would be all taken up before Saturday night." This statement was made to the Examiner by a man who would be one of the 100 applicants. He had been looking for weeks to find a house such as he discribed, and had not been successful up to this time. He was not entirely discouraged, however, for he was still on the lookout.

In his travells, house-hunting, he had met a great many persons on the same errand, and it was this fact which influenced him in making the statement quoted at the head of this article. There were, he said, plenty of houses procurable, the rent for which was from $15 to $20 per month, but for men earning moderate wages, and with small families this price was too high. What he wanted, and what a great many other wanted, was a house which would rent for from $8 to $10, a month, but of this class of house there seems to be a great scarcity, and there are not many being erected this year either.

Persons who contemplate building seem to prefer to erect houses which will rent for more than that amount. They argue that the price of land is so high that it pays better to build a house which will bring in a good rent than cheaper ones. The result is that there are hundreds of men employed in town, living here without their families, because they cannot find houses to place them in.

There is no general movement being made to erect houses to meet this demand, and those that are already under way, answering to the description of the house generally required by the average wage-earner will only begin to fill the need. There is prospects, too, that in the near future, with the additions which are under way or in contemplation to the industrial concerns in town, there will be a greatly increased demand for houses. The new factories will also give employment to a large number of men, who will want houses.

This matter is getting to be a serious one, and the employers of labour are finding it increasingly difficult to secure men, because of the fact that married men cannot bring their families here.

THE "OTONABEE" NOW AT WORK

Dredging at Yong's Point and Deepening Canal

Navigation Open on the Upper Lakes—Other News from Young's Point.

From Our Own Correspondent.

Young's Point, April 27th. — The Misses Mollie and Irene Young are in Toronto for the past week.

Mr. F. Carroll is visiting his brother, Mr Jas. Carroll.

Mr. Peter Phelan of Peterborough is back once more to the Point and as usual is to be seen in his canoe every day.

Mrs. Fortier and daughter, Mona, of Lakefield, were the guests of Mrs. J. E. Kearney, during Easter week.

Miss Maggie Fobert, of Chemong, is visiting friends here.

Mr. Bert Heard, of Peterborough, was home for his holidays.

Mr. and Mrs. Jas. Fanning, of Peterborough, spent Sunday with Mr. and Mrs. R. Heard.

Mr. and Mrs. J. LeBar, of Peterborough were the guests of Mr. Richard Anglesay, Easter Sunday.

Miss Emma Scollard, of Peterborough, was home on Sunday.

Miss Kate McMahon, of Peterborough, was visiting her sister Miss Hee, at the Lakeview, last week.

Mr. and Mrs. W. McFarlane and Miss Laura were here the past week and have gone to Lovesick for the summer.

Navigation has opened in Clear Lake, and the steamer Majestic makes her first trip up through to Squaw river, and will tow for Mr. A. McDonald.

Mr. A. Wilson is having his cheese factory thoroughly overhauled, the boiler moved, etc., and expects to have a busy summer. He will commence on Monday.

The Government dredge is operated by a number of men here in making the canal deeper.

Farmers have commenced ploughing and seeding once more.

LIQUOR CASE AT POLICE COURT

John Conroy Charged With Infraction of Liquor License Act on Saturday April 22nd.

The only case at Police Court yesterday morning was that of John Conroy of the Little Windsor, who was charged, upon an information laid by the license inspector, with an infraction of the Liquor License Act, on Saturday evening, April 22.

Mr. Cochrane testified to having visited the hotel at about ten o'clock on the evening in question, entering by the east door, and in passing through to the dining-room, saw several men passing out hurriedly via the kitchen. On visiting the bar he found that the light which he had shining through above the partition when he entered, had been extinguished. The witness also found a number of beer glasses upon the bar, which bore evidence of recent use. He had recognized two of the men he had seen passing out.

One of these was called and in his testimony stated that he and the son of the proprietor had been in the yard and that they entered the house by the east door at about ten o'clock. Conroy going into the bar while he waited in the dining-room. He heard a rap upon the door of the bar, and immediately some party whom he did not recognize, appeared at the door and said that there was a knock upon the door. He then left by way of the kitchen. Witness stated that he had not drunk any liquor upon that night. Conroy had joined him in the yard. He had seen Mr. Cochrane before going out.

Mr. Jas. Haverson K. C., solicitor for the Ontario License Victuallers' Association, conducted the case for the defence making a lengthy argument.

Judgment was reserved until Thursday next.

Crown Attorney Wood conducted the prosecution.

BIRBECK LOAN CO. TO BE WOUND UP

A Trust Company Empowered to Take Charge of Winding Up Proceedings.

There is a considerable number of local holders of shares in Birkbeck Loan Company, who will be interested in the following despatch referring to the winding up of the concern:—

London, Ont., April 26.—The shareholders of the Birkbeck Loan Company met in the company's offices in the Masonic Temple Building to-day to consider the proposal to wind up the concern. Some of the shareholders made strenuous objection to the directors' proposal to sell out to the Standard Loan Company of Toronto. Mr. Gibbons questioned the propriety of declaring a dividend while the company was running behind. He characterized the proposed sale to the Standard Loan as absurd, and said he was prepared to take out an injunction to stop the sale, even if it was approved of by the shareholders. The meeting then adjourned for one week. Meanwhile a committee of shareholders, composed of Messrs. Gibbons, Meredith, Taylor and Moodie, will confer with the directors as to the best method of winding-up to be pursued. At the May meeting the directors and committee will report recommending that some local trust company be empowered to take charge of the winding-up process.

Smothered by His Clothes.

Raymond, N. W. T., April 26.—The baby son of John Bennett, of Magrath fell into an auger hole, bored for water on the farm of A. Wilcox, at Tabor, Wednesday. He fell feet first in the hole and was smothered by his clothes packing around his head. The hole is only 5 feet deep. The child's head was only a foot below the surface.

Reid May Sell.

Montreal, April 24.—Although R. G. Reid would make no statement last night, re the report from St. John, that he will sell his railway and shipping interests to the Newfoundland Government, it is known here that the Bond ministry are anxious to buy Reid out, and the probability is that a deal of this kind is on the tapis.

THE MINSTRELS SCORE SUCCESS

Entertainment at Fifth Ward Hall Drew Crowded House

Minstrels' Past Reputation Further Enhanced Last Night—Musical "Turns" Excellently Presented.

The commodious Fifth Ward Town Hall was last night taxed to its utmost capacity by the large audience which attended the annual minstrel entertainment, of St. Luke's Men's Guild.

The invariable success which attends the efforts of St. Luke's in the production of high-class entertainments was fully sustained last night; and the large audience thoroughly enjoyed every minute of the attractive and mirth-provoking entertainment which was presented.

Mr. W. E. Wesley made a capital interlocutor, and the personnel of the remainder of the company was as follows:— Manipulators of the ebony—Rastus Brown (Mr. Webber Turner,) and Ike Washington (Mr. S. Whitaker.) Wielders of the sheepskin—Cole Johnston (Mr. J.J. Turner, Jr.) and Abe Simpson (Mr. S. Gibbs.)

Chirping Contingency—Mose Watermelon (Mr. G. R. Browning.) Jake Lansing (Mr. Thomas Clitheroe); Lincoln Jefferson (Mr. A.O. Sawyer.) and Rufus Snowball (Mr. A. Lucas.)

Chorus—Messrs. Jas. Hargrave, G. G. Pratley, H. Potter, Chas. Crane, N. Gale, Clare Calcutt, H. Phillips, A. Kingdon, F. White, Master Cecil Clitheroe, Guy Quartermaine and George Butcher. The scenery was very effective, the work being done by Messrs. J. J. Turner & Sons, and the members of the circle were dressed in the regulation costume. The gags and jokes were mostly new, and many contained local hits which brought down the house. Cole Johnston and Rastus Brown convulsed the audience with their antics. The work of the chorus was splendid, and their selections were given with telling effect. They rendered the choruses of the different solos in true minstrel fashion.

The first part opened with the certain cakes, "Old Black Joe," by the entire company. This was followed by the opening overture, "Pretty as Pink," rendered with the bones and tambos in clever fashion by the end men.

Rastus Brown (Mr. Webber Turner) sang the catchy coon song, "Take the Kind of Grub," in fine voice, the lively chorus being taken by the circle. The number was heartily applauded.

The popular song, "You're as welcome as the Flowers in May," by Miss Watermelon (Mr. G. R. Browning) in good voice and expression, called forth much manifestation of appreciation from the audience.

Ike Washington's (Mr. S. Whitaker) end song, "Honey, Jim Waiting," proved a popular number, the chorus being especially effective. It was one of the real "Down South" kind with plenty of banging of tambos and rattling of bones.

The popular ballad, "There are Strangers in the Old Home Now," was well rendered by Jake Lansing (Mr. Thomas Clitheroe.) The air is a pretty one, and Mr. Clitheroe's fine voice added to the effectiveness of the number.

One of the finest numbers on the programme was the song "I'm Longing for my old Kentucky Home," rendered by a quartette composed of Messrs. Watermelon, Brown, Jefferson and Johnston (Messrs. G. R. Browning, W. Turner, A. O. Sawyer and J. J. Turner, jr.) The voices blended nicely and the air being very tuneful the number was most effective.

But the selection that took the audience by storm was the end song "Shame on You," sung by Rufus Snowball, (Mr. A. Lucas.) It was one of the most catchy songs of the night and was well rendered by Mr. Lucas. The rendition of the chorus by the circle added much to the enjoyment of the selection. A hearty encore was demanded.

Lincoln Jefferson, (Mr. A. O. Sawyer) contributed the ballad, "When the Sunset Turns the Ocean's Blue to Gold," in excellent voice, after which the comic novelty, "Tippicance," was given by Abe Simpson, (Mr. S. Gibbs) bringing down the house.

The first part closed with a coon song," "I've Got a Feeling for You," by Cole Johnston, (Mr. J. J. Turner, jr.) This was much to the taste of the audience and an encore was demanded.

The second part opened with a witty stump speech, "Capital and Labour," by Abner Talkaway, (Mr. H. Potter.) Mr. W. E. Wesley then rendered the solo, "Out where the Breakers Roar." This selection was one well adapted to Mr. Wesley's fine bass voice, and his rendition left nothing to be desired.

The scene "Children of the Jungle," depicting a Zulu hut and surroundings was most interesting. Five of the company took part, Messrs. J. J. Turner, jr., Webber Turner, and Masters Cecil Clitheroe, Guy Quartermaine and George Butcher, all dressed as Zulus. The catchy song, "Just a Little Bit of Sugar Cane," was very effectively introduced.

The programme closed with the comic sketch, "Ezra Dawbar's Art Studio," in which the characters were Geo. Dawbar, Mr. Barrowman; Mrs. Dawbar, Mr. A. Lucas; and Always Dawbar, R. F. Turner. Mr. Barrows introduced some Bengough effects, depicting several well known characters in lightning fashion.

Mrs. A. W. Turner acted as accompanist.

What Americans Spend For Lilies.

The rise of the Easter lily is one of the most sensational features of greenhouse floriculture in America during the last quarter of a century. Our florists raise about 5,000,000 Easter lilies a year. Assuming that only half of these plants are sold, that each bears only two flowers (a good plant should have six to eight) and that the public pays 50 cents a bud, it would seem that the American people spend at least $2,500,000 for Easter lilies every year.—Country Life in America.

CAUGHT BY THE GRIP. RELEASED BY PE-RU-NA.

LA GRIPPE is epidemic catarrh. It spares no class or nationality. The cultured and the ignorant, the aristocrat and the pauper, the masses and the classes are alike subject to la grippe. None are exempt—all are liable.

Have you the grip? Or, rather, has the grip got you? Grip is well named. The original French term, la grippe, has been shortened by the busy American to read "grip." Without intending to do so a new word has been coined that exactly describes the case. As if some hideous giant with awful Grip had clutched us in its fatal clasp. Men, women, children, whole towns and cities are caught in the baneful grip of a terrible monster.

The following letters speak for themselves as to the efficacy of Peruna in cases of la grippe or its after effects.

After Effects of La Grippe Eradicated by Pe-ru-na.

Mrs. Fred Weinberger, Westerlo, Albany County, N. Y., writes:

"Several years ago I had an attack of la grippe which left my nerves in a prostrated condition. Then I had another attack of la grippe which left me worse. I had tried three good physicians but all in vain. I gave Peruna a trial. In a short time I was feeling better and now I am as well as anyone."—Mrs. Fred Weinberger.

Hon. James R. Guill of Omaha.

Hon. James R. Guill is one of the oldest and most esteemed men of Omaha, Neb. He has done much to make it what it is, serving on public boards a number of times. He endorses Peruna in the following words:

"I am 63 years old, am hale and hearty, and Peruna has helped me attain it. Two years ago I had la grippe—my life was despaired of. Peruna saved me."—J. R. Guill.

A Relative of Abraham Lincoln.

Mr. Silas S. Lincoln, who resides at 313 I. Street, N. W., Washington, D. C., has the honor of being third cousin to Abraham Lincoln. He writes:

"I had la grippe five times before using your medicine. Four years ago I began the use of Peruna, since which time I have not been troubled with that disease. I can now do as much work at my desk as I ever could in my life. I have gained more than ten pounds in weight."—S. S. Lincoln.

Pe-ru-na Not Only Cured La Grippe but Benefited the Whole System.

Miss Alice M. Dressler, 1313 N. Bryant Ave., Minneapolis, Minn., writes:

"Last spring I suffered from la grippe and was partially cured but the bad after effects remained through the summer and somehow I did not get strong as I was before. One of my college friends who was visiting me asked me to try Peruna and I did so and found it all and more than I had expected. It not only cured me of the catarrh but restored me to perfect health, built up the entire system and brought a happy feeling of buoyancy which I had not known for years."—Alice M. Dressler.

An Actress' Testimonial.

Miss Jean Cowgill, Griswold Opera House, Troy, N. Y., is the leading lady with the Aubrey Stock Co. She writes the following:

"During the past winter of 1901, I suffered for several weeks from a severe attack of grippe, which left a serious catarrhal condition of the throat and head.

"Some one suggested Peruna. As a last resort, after wasting much time and money on physicians, I tried the remedy faithfully, and in a few weeks was as well as ever."—Jean Cowgill.

A Southern Judge Cured.

Judge Horatio J. Goss, Hartwell, Ga., writes:

"Some five or six years ago I had a very severe spell of grippe, which left me with systemic catarrh. A friend advised me to try your Peruna which I did, and was immediately benefited and cured. The third bottle completed the cure."—H. J. Goss.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

PARISH PRIESTS MAKE CHANGES

Rev. Father McGuire Leaves Hastings for Downeyville.

Rev. Father Brotherton to be his Successor at Hastings.

The parishioners of St. Mary's church were greatly surprised on Sunday morning when it was announced that their priest, the Rev. P. J. McGuire, had requested to be removed from this parish, and that His Lordship, Bishop O'Connor, had seen fit to grant his wish. Father McGuire came to Hastings from Bracebridge in February 1898, and has laboured here continuously ever since. The announcement came as a thunderbolt from a clear sky, as nothing of the kind was expected. Father McGuire just returned on Saturday from Peterborough where he had been in a hospital for several days owing to illness. During his pastorate here he has been the means of adding greatly to the church property. He was much esteemed and respected by all and his departure will cause sorrow throughout the whole community. — Hastings Star.

Enquiry at the Cathedral here confirms the report of the removal of Rev. Father McGuire from Hastings, and it is further learned that he will go to Downeyville, and that Rev. Father Brotherton, the present parish priest at Downeyville, will be his successor at Hastings. The change will be made on May 14th, when the priests will take charge of their new parishes.

Rev. Father Brotherton has been in Downeyville for 10 years, while Rev. Father McGuire has been at Hastings for seven years.

Was Not Able To Walk For Three Months.

Was Given Up to Die. The Doctor Said So.

Burdock Blood Bitters Saved Her Life.

Read what Mrs. Wm. Castilloux, Newport, Quebec, has to say about Burdock Blood Bitters:—"Last December I fell very sick after confinement. I was not able to walk for three months, and was given up to die by the doctor. My husband read of the many wonderful cures made by Burdock Blood Bitters, so procured me two bottles. After using it for about ten days, I was able to get around, and could mind my baby without help from anyone, and am now well, and able to do my own work. I told a lady friend of mine who was troubled in the same way, and she used it with equal success. I cannot too highly recommend your medicine, for I know just how good it is, and hope and wish that anyone suffering as I did will give it a trial."

INDIAN RIVER.

The Latest News From That Stirring Village.

Indian River, April 21.—While doing business in the village last week Mr. Thos. Nelson had his own trouble. It appears the young man was accompanied by his cousin, Christopher Nelson, and while the former was doing business with Mr. Hall & Duff, the team was left to the care of his friend. An Eastbound train frightened the horses and the young man did his utmost to quiet and control the terror stricken animals, but with a bound away they went. After they had gone about two miles Mr. J. Sullivan caught them. He soon arrived at the village and related to the villagers that the carriage was ruined, but that the flower was all right.

Mr. George Patterson has returned home from Toronto to spend his Easter holidays with friends.

Mr. Chas. Mun was visiting friends in Norwood, on Sunday last.

Mr. Ben Fife, of the Royal Dental College, Toronto, has returned home.

Mr. P. Burke is again an employee of the C.P.R.

MINISTER HANNA'S MICHIGANDER.

During the debate on the Soo guarantee bill, the charge was made that the relations of Mr. Hanna, the present Provincial Secretary, as one of the solicitors of a great United States trust, explained his hostility to the guarantee bill, which was designed to place the steel industries at the Soo on their feet. Mr. Hanna's denial of his alleged connection partook more of the character of an evansion than explicit denial. What gives colour to the suspicion that Mr. Hanna had at that time, more than a merely sentimental connection with the Standard Oil Company, is the fact that Hon. Mr. Hanna has recently imported from Port Huron, in the state of Michigan, a town on the opposite side of the river to Sarnia, (where Mr. Hanna lives), a Yankee to do expert financial work in connection with the public institutions of the province, which could be as well, and better, done, by hundreds of Canadians. The name of this alleen labour outrage is Thorne, and he gets a good two hundred dollars a month which should go into the pockets of Canadians. The chartered accountants of Ontario are not alone in condemning this unpatriotic performance. Labour organizations, which very properly object to the employment of alien labour don't take kindly to the idea, and the Government itself is now ashamed of its act, and has induced a sweetly complaisant firm of Canadian accountants to stand godfather to the Yankee importation, and allow their names to be placed upon his report. The folly of a hunted hen hiding her head under a cabbage leaf, under the delusion that her whole body is hid, is brilliant cleverness compared with the folly of the super-loyal Conservative Government of Ontario, thinking that such a subterfuge as the hocus pocus of signing an "easy" Canadian Canadian firm's name to the alien Government official's report, can deceive anybody. A Conservative Government of the first British colony of the Empire, going to the United States for a man to manage the affairs of British people, is not a mere indiscretion — it is an outrage. Of course the calico flag of Uncle Sam and a spread eagle, will form the adornments of this Conservative Government's Yankee's office in the Parliament Buildings, and if he should demand the right to hoist the American flag on the Parliament Buildings on the fourth of July, Mr. Hanna, after committing the petty treason of hiring a Yankee over the heads of capable Canadians couldn't very consistently refuse. No wonder a Buffalo paper remarks—"What a howl there would be if a Canadian accountant were hired by the New York Legislature to go to Albany, and work in one of the departments!" There would not only be a howl, but a lynching.

THE DIFFERENCE.

A citizen, Mr. S. J. Griffin, who has recently returned from South Dakota, leaves with the Examiner a newspaper containing a report of the meeting of the "County Commissioners of Aberdeen, S. D., 'to show,' as he says, how they do things over there." The chief peculiar features of "the way they do things over there" was the designation of places where chattel mortgage sales may be held, the offer of a bounty on gophers and the record of a conference with the "State Board of Assessors." Happily we in Ontario don't know, by experience, what a "State Board of Assessors" means. In most of the States of the Union the State assessor and the State tax collector practically make their visits in much the same way of disagreeable regularity, as their municipal counterparts do in Ontario. In the United States a direct state tax to help maintain certain state services is levied and collected in addition to the local tax for local purposes. In happy Ontario we have no direct taxation for Provincial purposes—only for local uses. Our finances have been so carefully administered by a Liberal Government, for the past "thirty-two years in the saddle," that not only is there no direct taxation necessary for provincial purposes, but on the contrary fully a million dollars of money which never felt the touch of the local tax collectors' hands, is given to the municipalities to lessen the necessity of direct taxation. In Ontario the Government performs with the public funds, services which in Dakota and other states, are performed by the help of taxes taken directly from the pockets of the people. "That's how they do things over there." But since Hon. Mr. Mathieson, Ontario's Finance Minister in the Conservative Government, has imported a Yankee financial expert to assist him in managing our money bags, we may gladly look forward to the day, not long distant preventure, when our provincial finances will become so Yankeecised that we shall have the tax collectors coming down from the Parliament buildings, Toronto, to enter into competition with town and township tax collectors in draining the people's pockets.

Hon. Provincial Secretary Hanna's Yankee financial expert imported over the heads of Canadians to give help to Hon. Mr. Mathieson, Treasurer, to run his department, is likely to prove a Thorne in the Government's flesh.

The Library Association of Ontario is demanding more financial assistance for libraries from the Government. The Conservative Government when in Opposition promised to do better for education, and there is no more important element of popular education than well equipped and well supported local libraries. Now that the Carnegie Library project has whiffed its whiff, attention might be directed towards strengthening and improving our existing library. We naturally look to our representative in the Local Legislature to use his interest to get an increased grant for Peterborough Public Library. Mr. Bradburn represents an important constituency, and we naturally look to him to do his best for the town and county. We want him to practically "hold up" the Government and insist on the Library Act being carried out to the extent of the Government contributing $1.00 for every dollar expended by the Public Library Board, instead of 50 cents as is done at present.

WANTS MUNICIPAL ACT AMENDED

Retail Merchants Want Definition of Hawking Made Clear.

An Effort to Protect Merchant's who Live in the Town and Pay Taxes.

A petition is being signed by the merchants of the town to be presented to the Legislature at the present session.

The petition follows:—

To the Honourable The Members of the Legislature of the Province of Ontario.

Honourable Sirs,—The petition of the undersigned merchants, residents and electors of the Municipality of Peterborough, doing business in the said constituency desires that the Municipal Act be amended as set forth in a bill introduced into the present Sessions of the Ontario Legislature through the request of "The Retail Merchants Association of Canada" which briefly stated is as follows:—

1st.—That the Pedlars and Hawkers License Act be amended so that the same can be properly enforced and the purposes for which the Act is passed be not evaded and also that Municipalities can have the power to increase the fees and otherwise protect the mercantile community.

2nd.—That the Transient Traders' Act be amended so as to clearly define who are Transient Traders, and to prevent those who do not contribute to the taxes of the community from injuring the trade of permanent resident merchants who are on the assessment rolls of the municipality.

3rd.—That the Trading Stamp Act be amended so that the giving of coupons, exchange tickets, or other similar devices by merchants or manufacturers may be abolished.

4th.—That the Division Court Act be amended so as to simplify the collection of small debts and reduce the fees now required, and shorten the time now necessary, for obtaining judgments in respect thereof.

Your memorialists, in asking for the above amendments, desire to say that it is not only in the best interests of the municipality, but also for the consuming public, that the amendments should be made, and they therefore, ask that their requests be granted.

Best Cough Medicine for Children.

When you buy a cough medicine for small children you want one in which you can place implicit confidence. You want one that not only relieves but cures. You want one that is unquestionably harmless. You want one that is pleasant to take. Chamberlain's Cough Remedy meets all of these conditions. There is nothing so good for the coughs and colds incident to childhood. It is also a certain preventive and cure for croup, and there is no danger whatever from whooping cough when it is given. It has been used in many epidemics of that disease with perfect success. For sale by all druggists.

Monkey Brand Soap removes all stains, rust, dirt or tarnish — but won't wash clothes. ad

ELEVATOR CASE STILL IN PROGRESS

Much Expert Testimony Being Given.

Argument Will Probably Be Concluded To-day—Presentment of Grand Jury.

At the Assizes yesterday attention of the Court was occupied with the case of Talbot vs. Hall, an action instituted by Edith Talbot to recover damages to the amount of $10,000 from Richard Hall & Son, on account of injuries sustained by her by the falling of an elevator in defendant's store on April 18th, 1904, which it is claimed was in a defective condition.

The evidence taken in the morning was principally expert testimony by practical elevator men from several manufacturing concerns amongst these were Mr. E. W. Scott, of London; Mr. Russell, of Toronto. The latter in giving evidence expressed the opinion that the regulators operating upon the "dogs" were not properly adjusted at the time of the accident, and that because of this one "dog" dropped about eight inches before the other, causing the breakage of the supporting arm above Mr. J. H. Shales, expert of the Otis Elevator Co., also testified.

At the afternoon session evidence was taken from Messrs. Richard and Dickson Hall, Robert Kerr and several young ladies concerned in the accident. The Court adjourned at about ten o'clock resuming at nine this morning.

The principal evidence taken to-day was also of an expert character, several miniature models being exhibited and explained.

The address by the counsel engaged upon the case will be heard this afternoon, through the decision of the Court may not be arrived at before to-morrow.

Mr. D. O'Connell is conducting the case for the plaintiff; Hall and Hayes, and G. H. Watson, K.C., for the defendants.

GRAND JURY PRESENTMENT.

To His Lordship Judge Anglin,—

Your Grand Jury of the County Assize begs leave to make their presentment and extend congratulations to your Lordship upon your elevation to the Bench, and upon this your first visit to our town, and also for the kindly words delivered to us in your opening address.

We congratulate your Lordship on the comparative freedom from crime in this county, as evidenced by the fact that only two cases have come before your Grand Jury for their consideration, neither of which were of a serious nature.

Your Grand Jury have had before them several matters and beg leave to report.

In the discharge of our duties we have visited the public institutions and have only words of commendation for the admirable provision made for the care of patients S. Joseph's and Nicholls Hospitals.

It would be, as it no doubt is, a matter of congratulation, to the district that these excellent institutions are at hand and that the assistance is freely accorded.

It seems to your Grand Jury that the accommodation provided for the aged at the Protestant Home is now taxed to the utmost, and that some extension to this institution is urgently needed, especially in the absence of a properly equipped and ample home of refuge.

We call attension to the building of the Children's Aid, and to this work in general, and commend its objects to the favourable consideration of the public.

The House of Providence, adjoining St. Joseph's Hospital is conspicuously an admirable local institution, and deserving of the highest praise for its equipment and the efficient manner in which matters are administered.

And we would commend the good work done by the authorities of St. Joseph's Hospital to the Protestant Churches of this county as worthy of imitation and furthermore that these institutions are deserving of greater aid than they are at present receiving from either the Legislature or the County Council.

The County Buildings have been inspected. Your Grand Jury is of the opinion that the time has arrived when some efficient system of heating should be installed to replace the stoves now in use.

It is considered that the accommodation for inmates at the gaol is excellent and that the manner in which the gaol is kept reflects credit upon the jailer, Mr. Nesbitt.

We found thirteen persons in the County Gaol, none of whom are charged with serious crime, in fact three of this number are not criminals, but comprise two aged men and one lunatic, for whom your Grand Jury think some better provision ought to be made for their retention than the common gaol.

All of which is respectfully submitted.

(Signed) J. L. SQUIRE, Foreman.

Grand Jury Room, Peterborough, April 28th, 1905.

BOYS' SWEATERS

BAZAAR WAS GOOD SUCCESS

Enjoyable Affair at Charlotte Street Church Yesterday

Bazaar and Concert Attracted Large Crowd—Under Auspices of Ladies' Aid Society.

The annual bazaar and concert under the auspices of the Ladies' Aid Society of the Charlotte Street Church was held yesterday afternoon and evening and proved to be a great success from every standpoint. The affair was well attended and the sale of articles was a large one, a handsome sum being realized therefrom. The school-room was very prettily decorated, the tables and booths being arranged and ornated with artistic taste while the ladies in charge of each proved to be excellently fitted for their duties.

Those in charge of the tables and booths were,—fancy goods table, Mrs. R. Neill; children's garments, Mrs. E. B. Clegg and Mrs. A. H. Cunningham; apron table, Mrs. W. Stocker; refreshment booth, Mrs. Stenton; ice cream booth, Mrs. Ostrom.

Tea was served from six to eight o'clock, following which an enjoyable programme was presented, the chairman for the evening being the pastor, Rev. W. J. Jolliffe. The opening number was a well executed piano duet by Misses Clarry and Campbell. A recitation by little Miss Annie Christie was most interesting and the audience was enthusiastic in its demand for an encore. Messrs. Richards and Peters, the popular entertainers, were heard in an enjoyable instrumental selection and responded to a pressing encore. A reading by Mr. G. W. Jones proved a very popular number. The "Sun Flower" chorus composed of nine young ladies was splendidly rendered, the solo being taken by Miss Clara Belleghem; the number was encored. Miss Edna Boyce gave a clever recitation and was recalled, after which Miss C. Belleghem and Mr. R. N. Jolliffe sang the "A. B. C." duet in a manner which was well received. A chorus, "Good Night Ladies" by the male Sun Flowers brought a very pleasing programme to a close.

After the programme, an auction sale conducted by Messrs. Jones, Galbraith and Dr. Morrison was the the means of disposing of a few articles which until that time had remained unsold.

"DANTE-LECTURES"

Six Evenings with Dante

by Professor Wm. Clark, D.C.L.,

at the Y. M. C. A.

May 1—6, 1905, 8 p. m.

NO ARBITRATION EIGHT HOUR DAY

No Definite Conclusion Reached by the Employing Printers and the I. T. U. Delegate.

The conference held last evening between the employing printers and the International Typographical Union delegate, Mr. W. R. James, and Mr. W. Dredge, President of the local Union, was not productive of definite results.

The employing printers had submitted an offer to make an increase in wages of one dollar per week per man, and continue the nine-hour day, as at present.

Or an alternative proposition to make the increase of one dollar per man per week, and leave the decision regarding the eight-hour day to arbitration, agreeing to abide by the decision of the arbiters, one to be selected by the employers, one by the local Union, and the third by the first two named arbiters.

The representatives of the employees declined to agree to arbitration, and asked for a substantial advance in wages, and the eight-hour day, either now, or on January 1st, 1906. The employers declined to consider or accede to the eight-hour day proposition, and the meeting adjourned.

CANINE CAUSED MUCH TROUBLE

Several Cases of Non-payment of Statute Labour at Police Court.

About a dozen cases of non-payment of statute labour for 1904 were on the docket at Police Court this morning, and were dealt with in various ways. In several cases the defendants paid the necessary amount, one was allowed to go by reason of his being a volunteer; two because the age limit was passed.

Samuel Mulligan, whose dog has for some time been a source of trouble on Parnell street, appeared in answer to complaints laid by residents on the street, a number of whom testified to the annoyance which the canine has created.

The animal is not considered to be of a vicious disposition, and had been muzzled some time ago by order of the Chief of Police. It was, however, of a playful disposition, which led it, at times to make onslaughts upon children and others passing by, frequently knocking them down, and has, in short, by these actions, become a sort of "terror to the street."

The Court ordered the immediate destruction of the animal, but declined to add costs, as this was considered a sufficient penalty.

SNOW SHOE CLUB'S ANNUAL DANCE

First Annual Ball a Most Successful Event.

National Hotel was Scene of a Delightful Social Gathering Last Night.

The first annual dance of the Peterborough Snowshoe Club, which was held in the National Hotel, last night, was a grand success. The affair was a very fitting windup to the very successful season the Snowshoe Club enjoyed during the past winter, and the officers of the club and the members of the committee are to be congratulated upon the very excellent manner in which the arrangements were carried out.

The National hotel, which has been undergoing extensive repairs for some time, and which in fact, are not yet quite completed, proved to be an ideal spot for a dance.

The handsomely furnished rooms for cloak rooms, and the beautiful spacious dining room, in which, of course, supper was served, proved to be far ahead of anything of the kind provided at Peterborough while the numerous sample rooms on the ground floor of the south east wing, which were thrown into one large room, made an excellent hall for dancing. The sample rooms are most handsomely decorated with flags and bunting, and snowshoes were hung in profusion upon the walls. Many comfortable little sitting out places had been provided in the various spacious halls, but owing to the excellence of the music and the splendid condition of the floor they were not by any means monopolized.

The affair was quite largely attended. There was a large attendance of Peterborough's most charming young ladies, while not a few of the town's visitors were present. The music was supplied by Mr. Musgrove of Toronto, who excelled himself. A feature of the programme was the presence of a bugler in the hall, who by shrill notes from his bugle announced the various numbers.

The patronesses of the dance were Mrs. J. A. Aylmer, Mrs. R. S. Davidson, Mrs. Fred A. Lount, Mrs. Peter Campbell, Mrs. C. B. McAllister, Mrs. K. Eardley-Wilmot, Mrs. John Crane, Mrs. A. H. Stratton, Mrs. L. M. Hayes and Mrs. R. R. Hall.

The committee was composed of F. L. Bradburn, L. W. Cameron, W. W. W. Dean, A. L. F. Hall, G. M. Hall, W. P. Reynolds, H. Ritchie, F. Smallpiece. Mr. G. K. Rackham was the very efficient hon. secretary of the dance.

The supper was supplied by Mr. H. Long in his usual good style.

The programmes for the dance were beautifully gotten up, and were very picturesque in design.

Mr. Lawless, the proprietor of the National, was most obliging in his efforts to make the dance the success which it really proved to be.

The decorations were the work of Messrs. J. J. Turner & Sons.

The committee wish to thank the Turnbull Company for their kindness in loaning screens.

The people of Peterboro' are to be favoured with a return visit of the Dale English Opera Singers on Monday, May 1st. This company when here last, delighted a large audience with their "Jap" evening, and, on Monday night next, will put on their Acadian evening. Tickets 75c, 50c and 35c. A limited number of tickets will be sold for the gallery at 25c Plan of Hall now open at Ormond & Walsh's.

DEAD PRIEST RELATED HERE

Late Rev. Father Ryan Nephew of Mrs. Thos. Mahoney.

Died at Springbend, Mo.—Funeral Was in Kansas City.

A despatch from Kansas City, Mo., tells of the death in Springfield, Mo., on April 10th, of Rev. Father Ryan, who was formerly a resident of this town, and who will be remembered well by many of the residents of this town. Deceased who was 47 years old, was a nephew of Mrs. Thos. Mahoney, of 374 Downie street, and was greatly beloved by his many friends. The despatch follows:—

Kansas City, April 13.—The body of Father James M. Ryan, of Springfield, Mo., who died in that city Monday, was placed in a vault in Mount St. Mary's Cemetery this morning. Before being taken there mass was celebrated at the Cathedral, Bishop J. J. Hogan and about forty priests and Christian brothers participating. Father J. J. Fitzgibbon and Father J. P. Prendergast were masters of ceremonys. Father Ernest Zecheanter was the celebrant, and Father M. J. O'Dwyer the deacon of the mass. The deacons of honour to Bishop Hogan were Father Bernadine and Father Meehon.

Father J. T. Welsh preached the funeral sermon and Bishop Hogan gave the absolution and blessing. Brother Charles of the Christian Brothers, with fifty altar boys sang the mass.

There were delegates of priests from Springfield, Bolden, Mo., and St. Joseph, Mo. The active pallbearers were members of the Knights of America, of which Order Father Ryan was a member. The honourary pall bearers were old friends from Springfield.

Never Worry

Take them and go about your business—they do their work whilst you are doing yours. Dr. Agnew's Liver Pills are system renovators, blood purifiers and builders; every gland and tissue in the whole anatomy is benefitted and stimulated in the use of them. 40 doses in a vial, 10 cents. —21.

BIRTHS.

HICKEY.—At 129 Elm street, on Thursday, April 27th, 1905, the wife of Mr. J. J. Hickey, of a daughter.

A WILD STORY FROM WINNIPEG

Says Flaherty Wires From Canadian Soo That He Will Report.

Winnipeg, April 27.—All doubt as to Fred. Flaherty, the clever left-hand pitcher of the Galt (Canadian League) champions, coming to Winnipeg was removed yesterday when Business Manager J. M. Lamb received a wire from the Canadian Sault, where Flaherty is at present, asking for transportation, as he was ready to report at once. Manager Lamb forwarded the necessary ticket, and Flaherty is expected to arrive here this week, when Playing Manager Bill Wilson will make his first appearance for the season.

The writer of the above despatch is evidently somewhat mixed in his geography. Flaherty is still in Peterborough, and has never been in the Canadian Soo. He states that he will play with Galt again this year.

BASEBALL.

The meeting of the Guild Baseball League announced for last night did not take place, the President's absence being the cause.

• • • •

Manager Ferris, of the Toronto Artics, writes to the secretary of the local team asking for a game here on May 24th. He says that besides being very speedy and gentlemanly the team is attired in handsome new uniforms. The The attraction of the latter was great but it is doubtful if the Artics with the new shirts will be given a game.

• • • •

The St. John's Young Men's Guild will hold a practice this evening at Morrow's Field, Park street. The prospects for a good team are brighter than ever and the management want every player out this evening.

• • • •

The Ponies tied the Eagles in a score of 4-4 at Boswell's field, Charlotte street, in a game this morning, the teams being composed as follows:—Ponies—Patterson, c; Cunning, p; Fortye, 1st b; Dawe, 2nd b; Hawthorne, s.s.; Mowat, r. f.; Minorgan, l. f. Eagles—Giroux, c; O'Brien, p; V. Morrow, 1st b; Hayes, 2nd b; J. Morrow, r. f.; A. White, l. f.; Sinnet, s. s. There were two home-runs by the Ponies by Patterson and Cummings, also two double plays.

• • • •

There will be a joint practice of St. Andrew's and St. Paul's Guilds to-morrow afternoon.

LACROSSE.

There will be a meeting of the executive of the Peterborough Lacrosse Club to-night in W. S. Davidson's office at 8 o'clock.

FOOTBALL.

The O.C.W. and Quakers football teams both turned out very strong last night and held a practice game. Things got very interesting and some pretty fast ball was given out. Both teams are rounding into shape well and will be able to show things to most of the football teams in the country. Some of the individual players are very fast.

• • • •

The following players are requested to turn out to-morrow afternoon for practice:—E. Shortell, J. Doris, C. Fitzgerald, P. Fitzgerald, L. Brooks, B. Huston, C. Snider, A. Whitlow, E. Bellegham, T. Donaldson, P. McFadden, G. MacDonald, T. Deforge, Ira Moore, H. McIlmoyle, M. Guerin, B. Cameron, H. Campbell, and any others wishing to get into the game. The fact of the Quakers having a senior and junior team will afford an excellent opportunity for those desirous of learning the game.

FIELD HOCKEY.

A practice of the Y.M.C.A. field hockey club will be held at the Exhibition Grounds to-morrow afternoon from 2 to 3.30 o'clock.

EASTER DOINGS AT WARSAW

Missionary Society Held a Successful Concert.

Easter Service in the Churches—Many Visitors—Other News.

(From Our Own Correspondent)

Warsaw, April 26.—Seeding which had well begun, has been greatly retarded by the cold wave and the spring will prove to be rather late, but the old saying again comes true that, "It is an ill wind which blows no one any good;" for, syrup making has thereby obtained a new lease of life and those engaged in this branch of industry will profit largely, although some had closed out the business all too soon.

Good Friday was observed as a holiday by our business people, which they could well afford, as a rushing trade has previously been done.

The subject of Easter was the theme in the churches on Sunday. At the Methodist church in the evening the congregation was large, and a most impressive sermon was delivered by the pastor. The choir rendered special Easter music which was greatly appreciated by all.

At Bethel Methodist church, Sunday was reception day, combined with the Easter service, and a goodly number of probationers were received into full connection.

The Woman's Institute of Domestic Economy, which is in a flourishing condition here, put in a fine piano last week for use in their meetings.

Mrs. (Dr.) Couch, of Toronto, is visiting at the home of her mother, Mrs. Lynn.

Mr. Ernie Wasson and wife, of Peterborough, spent Sunday at the home of the farmer's parents.

Mr. Thos. Doughty is building a new house on his farm.

Mr. H. Clements has erected a windmill.

We are pleased to see Mr. Alex. Watts about the streets again after being confined to his bed for so long a period by an attack of pneumonia.

The Women's Missionary Society of the Methodist Church gave an Easter At Home on Monday evening. Tea was served from 5 to 8, after which an interesting programme was rendered, Mrs. Dr. Measham, president, presiding. An opening chorus by the choir and prayer by the pastor, followed by a character song "Dropping the Pennies" by a class of small children was well received.

Miss Daisy Leecombe of Whitby Ladies' College rendered several vocal and instrumental selections.

A spirited address by the Rev. Mr. Atkinson of the Presbyterian Church, and a violin solo by Miss Julia Choat, which was beautifully rendered and a well-prepared paper by Miss Emma Payne followed by a timely address by Mrs. John Sanders, of Cattestae were given. A quartette by Messrs. A. D. Payne and John R. Kidd; Mrs. A. D. Payne and Mrs. Wm. Wasson was one of the hits of the evening. The secretary, Mrs. Isbister, gave a report of the year's work by the society which showed one hundred dollars having been raised in aid of Missions.

A few remarks by the pastor and the doxology brought to a close the performance of a pleasant evening.

Communion service at Bethel Methodist Church next Sunday morning.

A DESPERATE FIGHT PUT UP.

Waged By the Manitoba Government On the Boundary Issue.

AND SBARRETTI INTERVIEW

Results in Mountain Going Tory—Mr. McIntyre's Majority Is Over a Hundred—Local Liberals Made a Splendid Stand And Are Not Disheartened Over the Result—What Premier Roblin Says.

Winnipeg, April 28.—The Roblin-Rogers forces were out to win yesterday's bye-election for the Legislature in Mountain constituency, and they were successful.

All the Ministers of the Cabinet were in the constituency and made many appeals to the electors to stand by the Province as against the Dominion in the matter of the extension of Manitoba's boundaries.

The Sbarretti incident was also used to incite religious strife.

In addition to this, the constituency was overrun with Tory members from Winnipeg. Against these the local Liberals made a splendid stand, and they are not at all disheartened over the result.

Complete figures from all the polls except Glenora give McIntyre, Conservative, 850, and Baird, Liberal, 736. The Glenora poll will slightly increase Mr. McIntyre's majority.

At the last general election Mr. Greenway, Liberal, received 911 votes against 821 polled jointly by Messrs. McIntyre and Wilson, both Conservatives.

Later.—All polls heard from give McIntyre 146 majority.

Premier Roblin Remarks.

Premier Roblin said: "I have always had great faith in the patriotism and sound common sense of the people of Manitoba, and the election has more than justified that confidence. The Government fought this contest on the distinct issue of Manitoba's rights under Confederation, which are being trampled upon at Ottawa. Ottawa Liberals did their best to confuse the issue. They persuaded the old warhorse, the late Liberal leader of this Province, to go on the stump in their interests He was appealing to men who had, year after year, returned him by huge majorities, but he appealed in vain. The people of Manitoba will not be coerced by anyone. We will not stand for equivocation and shuffling at Ottawa. We do not admit the right of Quebec to have a voice in our affairs, as invited by Sir Wilfrid Laurier; nor do we admit any right of that sort as appertaining to the uncreated Province of Saskatchewan or to the Province of Ontario. We want our rights, denied us for twenty-odd years, and th Province to-day stands shoulder to shoulder for its constitutional position as a full member of the Dominion.

Thanks the Liberals.

"I want to thank both independants and Liberals of Mountain personally, and on behalf of the Province, for their patriotism in this matter. We shall loyally adhere to the line that we have taken on this subject, and will not claim this election as an endorsement of the policy of the Government or its record in matters of purely local interest. We take it that they abandoned party lines and voted as Manitobans. We did not want this seat. The Province had given us a big enough majority without it, but we did want to see what the feeling of Manitoba was on the boundary issue, and whether we had the people at our backs in our fight for Provincial rights, or whether the organ owned by certain Ottawa politicians more correctly represented public sentiment on this question.

"What will be the ultimate effect of the Mountain result? If you mean what influence it will have at Ottawa, I cannot say, but as far as the Provincial Government is concerned, we shall accept the mandate delivered to us by the people, and press the claims of Manitoba with renewed energy till it rings in the deaf ears of Sir Wilfrid Laurier and those who appear to control his political conscience. Manitoba will have her rights or will know the reason why."

Was Blinded By Eczema.

Suffered Intensely For Three Years and Was Horribly Disfigured

Skin Now as Smooth as a Baby's, Thanks to

Dr. Chase's Ointment

Such cures as the one described below are what have given Dr. Chase's Ointment a world-wide reputation as the standard ointment and the most satisfactory treatment ever devised as a cure for itching skin diseases.

Mrs. Robert Clendening, Welland Station, Ont., writes:—

"For three years my daughter, Fanny, was afflicted with eczema in an intense and persistent form, and for nine days she was totally blind. The burning, itching and disfigurement were horrible, her entire face being completely raw for months, and the distress so great that she could not sleep.

"The best efforts of two eminent physicians failed to even mitigate her awful suffering. One day when I was low-spirited over my daughter's condition Dr. Chase's Ointment was recommended to me and to our surprise Fanny was helped with the first box and she has since been entirely cured by this treatment.

"Her face is now as smooth as a baby's and she is in splendid health. The credit for this cure is entirely due to Dr. Chase's Ointment, and I cheerfully give you permission to state my daughter's case, hoping that it will lead many others to secure the same good results."

Dr. Chase's Ointment is recommended and sold by all dealers at 60 cents a box or sent post paid on receipt of price by Edmanson, Bates & Company, Toronto.

$10,000,000 HIS LATEST GIFT.

Andrew Carnegie Provides Annuities For Retired College Professors.

New York, April 28.—A gift of $10,000,000 by Andrew Carnegie, to provide annuities for college professors who are not able to continue in active service, was announced yesterday by Frank A. Vanderlip, vice-president of the National City Bank of New York. Professors in the United States, Canada and Newfoundland will share in the distribution of the income of the fund.

United States Steel Corporation five per cent. mortgage bonds for $10,000,000 have been transferred to a Board of Trustees and steps will be taken at once to organise a corporation to receive the donation. Dr. Pritchett, president of the Massachusetts Institute of Technology and Mr. Vanderlip have been selected by Mr. Carnegie to obtain data on the subject to be presented at the first meeting of the trustees, which will take place on November 15.

President Peterson, McGill University, Montreal, is the trustee for Canada. As Toronto University is a State institution it does not benefit by the gift.

One Lady's Recommendation Sold Fifty Boxes of Chamberlain's Stomach and Liver Tablets.

I have, I believe, sold fifty boxes of Chamberlain's Stomach and Liver Tablets on the recommendation of one lady here, who first bought a box of them about a year ago. She never tires of telling her neighbours and friends about the good qualities of these Tablets.—P. M. Shore, Druggist, Rochester, Ind. The pleasant purgative effect of these Tablets makes them a favourite with ladies everywhere. For sale by all druggists.

Burned to Death at 98.

Utica, N. Y., April 28.—Miss Nancy Peterie, in her 98th year, was burned to death yesterday in the yard of her brother's residence at Pine Grove, near Herkimer. Her clothing caught from a bonfire, and she was dead when the accident was discovered.

Must Hang.

Montreal, April 28.—The Court of King's Bench yesterday quashed the appeal of Foquet, convicted of murdering his step-child at La Patrie, Que., and sentenced to death. Foquet will be taken to Sherbrooke for execution.

Could Not Walk Ten Yards Without Resting.

Mrs. D. Herkimer, Hall's Bridge, Ont., was Troubled with Weak Heart and Sleeplessness.

How many women are troubled with a weak heart? How many lie, night after night, trying to sleep, and can't? Perhaps you are one of them? If so, read what Mrs. Herkimer says. It may save you years of suffering if you take her advice:—

"I am now enjoying the best of health, after having used Milburn's Heart and Nerve Pills. I was troubled with a weak heart, and was afraid to draw a long breath, for the pain it would cause me. I could not sleep at night, and it was impossible for me to walk ten yards without resting myself. I cannot speak too highly of your Heart and Nerve Pills; they are the greatest pill I have ever used, and can recommend them to all sufferers."

The price of Milburn's Heart and Nerve Pills is 50 cents per box, or 3 boxes for $1.25. For sale by all dealers, or mailed direct on receipt of price.

IN ONE NIGHT.

Wonderful Effects of Smith's Pineapple and Butternut Pills.

TRY THEM. YOU WILL USE NO OTHER

When the liver refuses to perform its functions of secreting bile and the bowels become inactive and loaded with foul waste materials, the effect on the mind is most distressing.

Under such conditions the brightness of living fades, and gloomy, unwelcome forebodings settle down. Fretfulness and nervousness with vague fears of impending danger like phantoms distort the mental vision.

What ails you? It's your liver, congested, torpid, sulky. What's to be done? Take two of Smith's Pineapple and Butternut Pills after dinner and again at night. What then? you ask. Just wait till morning. You will see things in a new light then, the lights of renewed liver activity. Your brain will be cleared, your appetite returned and life again attractive. Keep this treatment up for a week, and your blood will be bright red, purged of impurities. Your bowels regulated, your stomach natural and the bile functions of the liver acting in harmony with digestion and nutrition.

Don't worry! Cheer up! Two great maxims for us all. Nor will we have any occasion to if we keep our livers and bowels healthy. Smith's Pineapple and Butternut Pills contain every element needed to assist Nature in establishing liver activity and regularity of the bowels. Keep them in the house ready for use. They are purely vegetable, always efficient, never failing to give prompt results.

Smith's Pineapple and Butternut Pills always cure constipation, biliousness and sick headache in one night. All dealers, 25 cents. All genuine signed W. F. Smith.

QUESTIONS BY MR. BORDEN.

Sir Wilfrid Laurier Denies That Two Resignations Are In—Members Criticize the Railways.

Ottawa, April 28.—Before the orders of the day were called in the House yesterday, R. L. Borden asked the Premier if Hon. James Sutherland had resigned as Minister of the Crown.

Sir Wilfrid Laurier: "No."

Mr. Borden: "Has Mr. Brunet resigned as Commissioner of the National Transcontinental Railway Commission. There is a rumor to the effect?"

Sir Wilfrid: "No truth in it."

Mr. Borden then asked if the Government intended to fill the vacancy that had existed for fifteen months in the Supreme Court of Nova Scotia.

Sir Wilfrid replied that he could not answer that question just at the present time.

Mr. Borden: "I trust I shall not have to wait fifteen months for a reply. (Laughter.) At the risk of being accused of a curiosity bordering on persistency, I would like to ask the Premier if the vacant commissionership of the Yukon had been filled?"

The Premier replied that it was being temporarily filled by Col. Wood.

Railway Discriminations.

A subject even more important to the farmers than the autonomy bill, as Mr. Alex. F. MacLaren expressed it, was taken up the House yesterday, when a great part of the session was devoted to a discussion of the discriminations in freight rates by the Canadian railways against Canadian shippers. The subject was brought up in a report by the Agriculture Committee, embodying much valuable information collected by Mr. Gordon's sub-committee. The unanimity with which the members one after another, from various parts of Canada, rose and showed discriminations and unfair rates was surprising, and must result in an investigation by the Railway Commission, to whom complaints are referred. The chief complaint was the discrimination in favor of Michigan as against Ontario shippers.

The Autonomy Debate.

The debate on the autonomy bill was resumed by Mr. Arch. Campbell, who endorsed the bill, and Mr. F. R. Lalor, who opposed it. Mr. Martin of Wellington has the floor for to-day. The House adjourned at 11.30 p. m.

Bill Thrown Out.

Ottawa, April 28.—The Railway Committee of the House of Commons threw out the Park and Island Railway bill yesterday by a vote of 60 to 44.

Woolen Men Appeal.

Ottawa, April 28.—R. J. Younge, secretary of the Canadian Manufacturers' Association, was here yesterday with a delegation representing all branches of the woolen trade. The delegation had an interview with Hon. Mr. Fielding and Hon. Mr. Paterson with a view to getting increased protection for the home industry.

Drove With Dead Man.

Ingersoll, April 28.—When William Herendeen, son of N. Herendeen, proprietor of the Mansion House, drove up to Law's livery stable about three o'clock yesterday morning, the startling discovery was made that his companion on the seat was a dead man. Wednesday night young Herendeen engaged a horse and rig at Law's, and with William Chase, porter at the Mansion House, drove to Woodstock. On the return trip Chase settled back in the buggy. Herendeen thought that his companion had fallen asleep and decided not to disturb him. Dr. Coleridge was summoned, and the latter pronounced him dead, giving heart failure as the cause. Deceased was 38 years of age. Relatives in Guelph have been notified of his death.

Lord Grey Talks Like Kaiser.

London, April 28.—The Westminster Gazette says: "We hope Earl Grey is not going to take the Kaiser as a model for the speeches which he is called upon to make as Governor-General in Canada, yet we confess to finding his speech in Toronto on Monday distinctly kaiserish. We recognize the difficulties which must attend the composition of these official speeches, but inflation of sentiment ought to be scrupulously avoided."

Deadly Explosion of Gas.

Huntington, W. Va., April 28.—Three persons were probably fatally injured, three others badly hurt, and at least two are buried under the ruins of the Mossman building, which was wrecked yesterday by a gas explosion which caused damage estimated at $100,000. The explosion was the result of the ignition of the escaping natural gas.

STOMACHS ON STILTS.

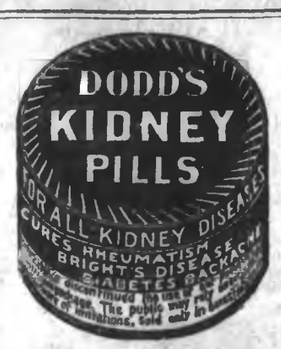
The man who puts on stilts does not increase his actual stature. He only feels taller. Stimulants are the stilts of the stomach. They make a man feel better for the time being, but he feels a great deal worse for them afterward.

The need of the man whose stomach is "weak" is not stimulation but strength. Dr. Pierce's Golden Medical Discovery perfectly answers that need. It contains no alcohol or whisky. It cures the weak, foul stomach with its attendant bad smelling breath, coated tongue, bad taste, poor appetite and kindred symptoms.

"In the year 1899 I had an attack of indigestion and got so bad that my home doctor said he could not do me any good," writes Mr. G. Arent, of Gordonville, Texas. "I wrote to you and you advised me to use Dr. Pierce's Golden Medical Discovery, so I bought six bottles, and when I commenced using it I was so weak could hardly walk about the house. By the time I had used one bottle my stomach and bowels commenced to heal. There were strips of the lining of my stomach or bowels (I don't know which) as large as a man's two fingers passed and I had a good deal of misery in my stomach and bowels, and also in the rectum especially. I could not eat anything without having much distress afterward, but by the time I had taken eight bottles of the 'Golden Medical Discovery' I was sound and well, and could eat anything I pleased without suffering in the least. Could also do as much work in a day as I ever could. I have not suffered from the trouble since, and it was four years ago that I was so sick."

The sole motive for substitution is to permit the dealer to make a little more profit. He gains; you lose. Accept no substitute for "Golden Medical Discovery."

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets.



WHEAT DECLINE ON THE MARKET

Prices Lower in Both Chicago and Liverpool.

Latest Live Stock Quotations—Other Market Prices.

Thursday Evening, April 27.

Liverpool wheat futures closed to-day 1½d lower than yesterday and corn futures ⅝d to ¾d lower.

At Chicago July wheat closed ⅝c lower than yesterday; July corn ¼c higher and July oats unchanged.

LIVERPOOL GRAIN AND PRODUCE.

Liverpool, April 27.—Wheat—Spot quiet; No. 1 Cal., 6s 9d; futures dull; May, 6s 5½d; July, 6s 6¼d; Sept., 6s 4⅝d.

Corn—Spot quiet; American mixed, new, 4s 3d; American mixed, old, 4s 10½d; futures quiet; May, 4s 1⅞d; July, 4s 2½d.

Lard—American refined, in pails, steady, 37s. Turpentine—Spirits strong, 45s. Rosin—Common firm, 7s 7½d. Linseed oil—20s 3d.

CATTLE MARKETS.

Cables Unchanged—Cattle Steady—Hogs Lower in the States.

London, April 27.—Export cattle are quoted at 12c to 13c per lb.; refrigerator beef, 9c to 9½c per lb.; sheep, 13c to 14c per lb.

TORONTO LIVE STOCK.

Receipts of live stock at the city cattle market were 81 car loads, composed of 1100 cattle, 2239 hogs, 145 sheep and 250 calves.

Deliveries were not large. Prices ranged from $5.40 to $5.80 per cwt., with one lot of 4 extra prime cattle at $6 per cwt. The bulk would sell at about $5.60 to $5.75 per cwt.; bulls at $4 to $4.40; cows at $4 to $4.50 per cwt.

Choice picked lots sold at $5.50 to $5.75 per cwt.; loads of good at $5 to $5.25; medium at $4.50 to $5; common at $4 to $4.25 and cows at $3.50 to $4.50 per cwt.

The demand for good quality feeders and stockers was greater than the supply, many orders from farmers and dealers being unfilled. Short-keep feeders, 1150 to 1200 lbs. each, sold at $5.20 to $5.30; feeders, 1050 to 1100 lbs., $4.75 to $5; good feeders, 900 to 1000 lbs., $4.25 to $4.50; medium feeders, 800 to 1000 lbs., $3.75 to $4.25; good stockers, 500 to 700 lbs., $3.50 to $3.75; medium stockers, 500 to 700 lbs., $3.25 to $3.50; good stock calves, $3.50 to $3.75; medium stock calves, $3; common stock calves, $2.75.

About 20 milch cows and springers sold at $30 to $52 each.

There are too many "bobs" and scrub calves of light weight; many of them being under the market standard of 90 lbs. when dressed, and too few of the good quality calves that are wanted. Prices ranged from $2 to $8 each, or $3 to $6 per cwt. Extra choice calves would sell for more money.

Export ewes sold at $4.10 to $5.25 per cwt.; bucks at $3.50 to $4; choice yearling lambs at $7 to $7.75; common yearling lambs at $5 to $6 per cwt.; spring lambs at $3 to $8 each.

Receipts were fairly large, over 2000 being bought. Mr. Harris reports the highest prices of the season, having paid $7 per cwt. for selects and $6.75 for lights and fats, all fed and watered.

Canada Importing Hogs.

American hogs are being imported into Canada," such is a statement of fact by a Canadian packer. This state of affairs is being brought about by the high price of the Canadian hog, and the comparative low price of the American. The duty is $1.50 per cwt., and it will thus be seen that there must be at least this difference, with the freight addition, to permit of American hogs selling in Canadian markets.

Yesterday, on the Toronto market, hogs off cars were quoted at $7.25, an advance of 25c per cwt. over Monday. On the Chicago market a similar class of hog is selling at $5.40 per cwt., and at Buffalo at $5.45 to $5.50 per cwt.

The demand from Canadian packers is the incentive for present prices. Ontario hogs are scarce, and the packers must of necessity keep their plants working. This is working a temporary advantage to the Ontario farmer.

This is the first time in over twelve years that hogs have been able to be brought in from the States for sale in the Canadian market.

EAST BUFFALO CATTLE MARKET.

East Buffalo, April 27.—Cattle—Receipts, 200 head; steady and unchanged.

Veals—Receipts, 350 head; slow and 50c lower, $4.25 to $6.25.

Hogs—Receipts, 3800 head; slow and 15c to 20c lower; heavy and mixed, $5.30; Yorkers, $5.45 to $5.50; pigs, $5.40; roughs, $4.60 to $4.90; stags, $3 to $3.50.

Sheep and Lambs—Receipts, 2700 head; slow and easier; lambs, $4.50 to $6.40; yearlings, $5.50 to $5.75; wethers, $5.25 to $5.40; ewes, $4.50 to $4.75; sheep, mixed, $2.50 to $5.00.

NEW YORK LIVE STOCK.

New York, April 27.—Reeves—Receipts, 604, all consigned direct. Nothing doing at the yards; feeling steady.

Calves—Receipts, 237; market slow, but about steady for prime stock; other grades weak; veals, $4 to $6.50; dressed calves slow to lower.

Sheep and Lambs—Receipts, 515; almost no demand; few sheep sold at $5.50 to $5; few spring lambs at $4 to $5.50; feeling weak for yearling lambs.

Hogs—Receipts, 1874; market easier; prime state hogs, $5.60; one sale at $6.

CHICAGO LIVE STOCK.

Chicago, April 27.—Cattle—Receipts, 9000; good to prime steers, $5.75 to $6.40; poor to medium, $4.25 to $5.60; stockers and feeders, $2.75 to $5.40.

Hogs—Receipts, 24,000; mixed and butchers', $5.10 to $5.37½; good to choice heavy, $5.25 to $5.40; rough heavy, $4.75 to $5.20; light, $5.10 to $5.35; bulk of sales, $5.25 to $5.35.

Sheep—Receipts, 13,000; good to choice wethers, shorn $4.75 to $5.15; fair to choice mixed, shorn, $3.75 to $4.50; native lambs, shorn, $4 to $6.50.

TRUSTEES' POWERS.

Widening Them Discussed at the Ontario Educational Convention.

Toronto, April 28.—At yesterday morning's session of the Ontario Educational convention many reforms were discussed in the trustee's section. It was held that trustees did not hold a broad enough conception of their duty, that their responsibilities were greater than other officers of the municipality and that they should be consulted when any change in curriculum was forthcoming. Altogether a widening of their powers was deemed advisable.

Hon. R. A. Pyne, Minister of Education, was an interested visitor in the trustee's section yesterday morning, and expressed his deep interest in their operations and a desire to co-operate with them. He assured them that the Department of Education was not disposed to be autocratic, and had its pores open for observation and experience.

$100 Reward, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: F. J. CHENEY & CO., Toledo, Ohio.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

BIG STRIKE AT CHICAGO.

Over 3,000 Teamsters Out — Serious Rioting in the City.

Chicago, April 28.—With 3,100 teamsters on strike with constant accessions to their number, and with the express determination of the employers' association to take a firm stand for the "open shop" and to fight the Teamsters' Union to the bitter end, Chicago last night to all appearances stands on the eve of one of the greatest industrial upheavals in her history. There was rioting in various parts of the city yesterday despite the strong guards of policemen and the number of private deliveries hired by the employers' association to protect their wagons. During the clashes three persons were seriously injured. Two of them will probably die.

150 Chinese Burned.

Shanghai, April 28.—The British steamer Yuen-Wo has been totally destroyed by fire at Tungchou (20 miles from Pekin. It is feared that 150 Chinese lost their lives.

Tired all the Time

Mr. George Bentlie, Carr's Brook, Colchester Co., N.S., writes:—"Last spring I was very much run down, felt tired all the time, and did not seem to have life or energy enough to do my work. Three boxes of Dr. Chase's Nerve Food did me a world of good, and made work a pleasure to me. I have not had occasion to use any medicine since, and have recommended Dr. Chase's Nerve Food to all my friends."

Palmer Pianos Burned.

Toronto, April 28.—Fire did about $20,000 damage in the factory of the Palmer Piano Co. early yesterday morning. The flames burst forth from the windows of the fourth storey about 4.45 a. m., and the firemen had a hard fight owing to the oils and varnishes causing an intense heat. About 200 instruments in various stages of completion were stored there and furnished food for the flames. During the fire, Ed. Kearns of hose No. 8 was overcome by smoke and had to be carried out. He revived and was sent home.

Big Jewelry Robbery.

Regina, N. W. T., April 28.—A daring robbery occurred here at noon yesterday when burglars entered the jewelry store of M. G. Howes and carried off about three thousand worth of watches and diamonds. Entrance was made by cutting a hole in the front door during the absence of Mr. Howes at dinner.

Scott Act Defeated.

Campbellford, N. B., April 28.—The contest which took place Wednesday in Restigouche County re the adoption of the Scott Act, resulted in a majority of 150 against.

The Bisley Team.

Ottawa, April 28.—Five out of the six British Columbia men who are eligible to go have accepted places. The team will sail by the Bavarian on June 10.

INTERESTING NEWS BRIEFY TOLD.

Things We All Like to Hear About.

—Council will meet to-night.

—To-night the Retail Merchants will meet in the Y.M.C.A. Hall.

—The Board of Works met last night and dispatched considerable business.

—Isaac Eastwood has purchased the Craig House Lakefield. It is said that the price was $14 000.

—A number of the public school teachers of town are in Toronto this week, attending the convention.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover, 222 McDonnel street. 'Phone 199.

—There are many moving spectacles in town these days. The furniture vans are having a busy season.

—Ground was broken this morning for Dr. Scott's handsome new residence, corner of Hunter and Stewart streets.

—It is probable that a public meeting will be held on Monday night to discuss the question of the new fire hall and equipment.

—No inquest will be held on the death of Mrs. Lavery who took poison yesterday and the funeral took place this afternoon at three o'clock.

—Satisfactory terms can be arranged and liberal allowance made for old instruments taken in exchange for Nordheimer pianos. Inquire at Edmison's Drug store.

The Examiner is now on sale at Mr. J. T. Braund's Store, corner of Smith and George Streets, where any residents of that part of the town may procure it.

—The Rev. J. G. Lewis, of Peterborough, will deliver a lecture on his trip to the old country in the Methodist church at Millbrook, on Monday evening next.

—For potatoes, parsnips, carrots, beets, turnips, cabbage, hams, pea-meal bacon, eggs and butter, canned tomatoes, peas and corn, cheap; also nice mixed biscuits, call upon James R. Bell, 161 Hunter street. 'Phone 455.

—Messrs. R. H. Leary and J. Gunsan have returned from Prince Edward County where they purchased 22 fine horses which they will ship to Toronto. The horses were unloaded this morning at the station and are a fine-looking lot some especially fine animals being in the bunch.

—The Primary and Junior Union of Sunday school teachers will meet to-night at eight o'clock in the Y.M.C.A. for the study of this week's Sunday school lesson. The teachers in charge will be Miss Ivah Fisher of Murray street, and Rev. W. M. MacKay of St. Paul's. All interested are invited.

—A fire occurred this afternoon on the premises of Miss Chamberlain Sherbrooke street, west, near the boundary. It was presumably started by some youngsters and had it not been extinguished promptly by the brigade would have assumed serious proportions as it was in a small grove of trees. The fire however was soon checked without serious results.

MR. CHARLES CARTER DEAD

Was Eighty Years Old—Born at Oxford, Eng.—Has Lived in Canada Many Years.

The death occurred this morning of Charles Castle, aged 80 years.

Deceased was born in Oxford, England, but for many years lived in Canada, lately on Maria street, 5th ward. He had twelve children, sons and daughters, all living at present, with the exception of one child, who died in infancy. The funeral will take place to-morrow afternoon at 2.30 p.m., and proceed to the Little Lake cemetery.

HALL'S GLEN.

Special to the Examiner

Hall's Glen, April 26th. — Last Thursday, April 20th, a very successful debate and taffy social was held in the Orange Hall. There was a large audience, which listened with interest to a debate on the Autonomy Bill question. The affirmative was taken by Mr. Robert Lynn and Mr. Berry, and F. W. Payne and another upheld the negative. The subject was ably discussed on both sides, as shown by the fact that the judges, Alex. Derling, D. Crowe and E. Carveth gave the decision in favour of the negative by a single point. After the debate the evening's enjoyment was drawn out still further by drawing out a splendid quality of maple taffy. Everybody was well pleased. The financial result beat the record, the sum of $8.05 being received from a nominal admission fee.

Mention should not be omitted of the excellent programme of music and recitations and dialogues which was presented between the debate and the taffy pull. Special mention should be made of the mirth-provoking dialogue, "What's the matter with the Pronouns?" which created more amusement than any other feature of the evening. Those who took part in the dialogue were: Messrs. A. C. Carveth and J. Moore.

The society's journalistic organ, "The Hall's Glen News," was read and it contained so many good jokes and so much live news that the reading of it at the beginning of the meeting would not satisfy the audience. It had to be read again at the close of the programme.

This will be the last debate of the season, but another meeting will be held in the course of a fortnight, when the question of continuing the meetings during the summer will be discussed.

Listerine Soap—Sterilizes—is strongly recommended by the medical profession as a safeguard against infectious diseases.

CITYHOOD IS NOT AUTOMATIC

Legal Gentleman Points Out Some Facts Re Incorporation.

Application Would Have to be Made in Any Event.

A prominent legal gentleman was interviewed this morning on the proposal that the application now before the Legislature for city incorporation, should be withdrawn, and that the town should wait until the 15,000 population had been reached, and said it was out of the question to consider such a proposition now. The bill had been printed and had been given one reading in the Legislature. It was now before the Private Bills Committee and would come up to be dealt with next Tuesday, and in his opinion it would be foolish to now apply for the change suggested.

He said that there was no such a thing as becoming a city automatically, since, in any case, application would have to be made to the Legislature for incorporation, the only difference being that while now but an act was required, in the event of the 15,000 population being reached, an order-in-council would be necessary, and in his opinion this course would entail greater trouble and expense than that adopted by the council at the present time.

He quoted the section of the Municipal Act governing this matter, which is as follows: "In case it appears by the censuses returns taken under a bylaw of the municipality, or under any statute, that a town contains over 15,000 inhabitants, the town may be erected into a city.

"The council of the town or village shall for three months after the census returns, insert a notice in some newspaper published in the town or village or if no newspaper is published therein then the council shall for three months post up a notice in four of the most public places in the town or village and insert the same in a newspaper published in the county town of the county in which the town or village is situated or if there is no such newspaper then in the newspaper published nearest to the said town or village—setting forth in the notice the intention of the council to apply for the erection of the town into a city or of the village into a town and stating the limits intended to be included therein.

"The Council of the town or village shall cause the census return to be certified to the Lieut.-Governor-in-Council etc.

The gentleman referred to pointed out that it would be necessary in any case to apply for incorporation and he thought that the present application should be allowed to stand.

THE SOCIAL WORLD.

Interesting Personal Items Gathered by Reporters.

Mr. W. Sherin of Lakefield is in town to-day.

Mr. D. E. Hill of Syracuse, N. Y., is in town.

Rev. Father Kelly of Douro was in town yesterday.

Col. Buchan of Kingston is registered at the Oriental.

Mr. J. T. Haley, of Bradford, Eng., is a guest at the Snowden House.

Mr. R. B. Rogers of Peterborough is at the King Edward Hotel.—Toronto News.

Miss Mina Ross of the Peterborough public school staff, is home for the vacation.—Millbrook Reporter.

Mr. and Miss A. J. Johnston of Peterborough, were the guests of Mr. James and Miss Johnston on Good Friday.....Miss Denne of Peterborough, was the guest of her sister, Mrs. A. St. A. Smith, over Easter.....Mrs. (Dr.) Greer of Peterborough, was the guest of Mrs. Wm. Archer, over Easter.....Miss Alberta Williamson, who has been attending the Peterborough Business College, has received her diploma. Many congratulations are extended to Alberta for her success.—Millbrook Reporter.

Sciatic Rheumatism Cured.

"I have been subject to sciatic rheumatism for years," says E. H. Waldron, of Wilton Junction, Iowa "My joints were stiff and gave me much pain and discomfort. My joints would crack when I straightened up. I used Chamberlain's Pain Balm and have been thoroughly cured. Have not had a pain or ache from the old trouble for many months. It is certainly a most wonderful liniment." For sale by all druggists.

Historic Easter Eggs.

We read that in the time of Louis XIV. and Louis XV., after the Easter mass, eggs were brought to the king in baskets handsomely gilded and were distributed by the monarch himself to his household, courtiers and servants being all included. These eggs were colored and some of them exquisitely decorated with Scriptural subjects. For a long time several eggs were preserved in the Versailles museum that had been decorated by the hand of two of the most celebrated artists of the last century and had been given as a present to Victoria, the daughter of Louis XV.

EASTER CONCERT HELD IN KEENE

Annual Meeting of the Local Improvement Society.

Work of Hoodlums—Many Holiday Visitors—Other News.

(From Our Own Correspondent)

Keene, April 26.—Mrs. Nixon, of Toronto, was the guest of her sister, Mrs. (Dr.) Harrison, during the past week.

Mr. C. A. Frost, of Lindsay, was in the village on business on Wednesday last.

Mr. J. Harry Scriver, of Montreal, spent the Easter vacation at his home here.

Mr. J. McCrea, Government Inspector of Indian Agencies, and reserves, paid an official visit to the reserve at Hiawatha on Wednesday last.

Dr. and Mrs. McWilliams are spending Easter week with Mrs. McWilliams' parents in Toronto.

Miss Josephine Kennedy is the guest of Stirling friends during the holidays.

Mr. A. Bettise, of Lakefield, was in the village on Thursday last.

Miss E. Henderson, who is attending college in Toronto, is spending the holiday at her home here.

Mr. William Thompson, of Mount Julian spent a few days at the home of Mr. John Lang this week.

Miss Mabel Harrison, a student at Annesley Hall, Toronto, is home for Easter holidays.

Dr. Nesbitt, of Whitby, is the guest of Rev. Mr. Seecombe.

Miss Vera Foley, of Hastings, is spending the week with Keene friends.

Mr. Michie Greer, who was injured at Lakefield a few weeks ago, is visiting Mr. P. Roach. The wounds in his head are healing rapidly and he will soon be around once more.

Mr. and Mrs. Robert Bell, of Peterborough, spent Easter at the home of Mr. C. Bell.

Miss M. Walsh spent the holiday with Peterborough friends.

Mr. John Lang has had a new wire fence built in front of his lot which greatly improves its appearance.

Mr. and Mrs. C. O'Reilly, of Norwood, spent Easter Sunday at the home of Mrs. Kennedy.

Mr. D. Esaca, C.E., of Peterborough, was at his home here during the holidays.

Mr. G. Weir, of Peterborough, was in Keene on Monday.

Miss Maud Bell, who spent a few weeks with her brother, Mr. C. Bell, returned to her home at Port Hope Tuesday.

Mr. Robt. English spent Easter with Port Hope friends.

Misses G. Greer and M. Connors and Messrs. J. Judge and L. Connors, Peterborough, were the guests of Keene friends on Sunday.

Mr. Tom Weir, of Hastings, spent the holiday at his home at Lang.

The concert given under the auspices of the Endeavour Society of the Presbyterian church on Monday Evening was a decided success. The town hall was full to overflowing, and the proceeds amounted to over $50. Mr. James McNeil was chairman and before opening the concert made a brief address. Miss Klapith McDonald, Scottish reader, who made her first appearance before a Keene audience, created a very favourable impression. The following is the programme:—

Instrumental duet, Misses Katie Skinner and Bessie Read.
Chairman's address.
Solo, Norman Taylor.
Recitation, Miss McDonald.
Club swinging.
Solo, Miss Margaret Bryce.
Recitation, Miss McDonald.
Instrumental duet, Misses Bryce and Miller.
Solo, Mr. John Moore.
Reading, Miss McDonald.
Dialogue.
Violin solo, Miss Elmhirst.
Solo, Miss M. Bryce.
Recitation, Miss McDonald.

Miss Margaret Campbell returned on Tuesday from a pleasant visit with Toronto friends.

Miss Mabel Brown, of Peterborough, and Mr. Edward Walters, of Oshawa, were the guests of Mrs. John Edwards, during the week.

Miss Irene McNeil, who spent the winter with friends in Montreal, returned home on Sunday.

Mr. John McFarlane is visiting friends at Pembrooke.

Mr. George Powell and sister Flora, are visiting their aunt, Miss Bessie Read.

Miss Elizabeth Drummond spent Easter with her sister, Mrs. T. Lang, in Toronto.

Some malicious hoodlums on Saturday night took Mr. R. J. McNamee's wagon from in front of his stable and drew it to the top of the steep hill behind the Presbyterian church sheds and allowed it to tumble down the hill. It was badly wrecked and it is a pity Mr. McNamee cannot detect the guilty parties, and have them severely punished. A joke is all right sometimes but when it involves the destruction of property it gets past endurance.

The Keene merchants will start early closing on May 15th. All stores will close at 6 p.m. on Monday, Wednesday and Friday.

The Improvement Society will hold its annual meeting for the election of officers and committees on May 3rd.

Mr. and Mrs. A. Anderson spent Easter with Norwood friends.

Miss Annie McIntyre returned from a visit with Lakefield friends on Friday.

Master Cecil Nelson, of Toronto, is visiting his uncle, Mr. L. Burley, during the vacation.

Miss Robinson, of Peterborough, is visiting Miss Margaret Bryce.

Miss Daisy Seecombe sang at a social given by the Warsaw Methodist church on Monday.

Mr. A. Nelson, of Hamilton school of Pedagogy, is visiting his parents.

NETHERAL'S CYCLE WORKS,
223-225 Hunter street.

Leave in your Bicycle for cleaning and repairing before the rush and have it properly attended to.

OUTFALL SEWER TO BE BUILT

The Board of Works Will So Recommend To-night.

Mr. Chipman's Report Was Received—Tenders To Be Asked For.

The probabilities are that in a short time work will be started on the Ashburnham outfall sewer, which was promised at the time of the union of that village to the town.

Mr. Chapman's report on the work was received by the Board of Works yesterday and considered by that body last night, and at the council meeting to-night it is expected that the Board of Works will recommend in its report that tenders will be be asked for the execution of the work.

The intention is to have the work started and carried through this summer and to do this it will be necessary to commence operations very soon.

It will be remembered that at the time of the union, a condition of that union was that work on the sewer should be commenced inside of two years from that date, so that the promise then made will be carried out.

Pains in the Chest

Mr. John Clark, Port Hope, Ont., states:—"Last winter I was so bad with a cold that I could not speak above a whisper, and had great pains in the chest. A friend advised me to try Dr. Chase's Syrup of Linseed and Turpentine and one bottle cured my cold which I believe would have proven very serious if I had not used this medicine."

"THE DAYLIGHT STORE"

We don't appeal to a man who is not at all particular about his clothes—to whom a suit is a suit—a hat is a hat—a tie is a tie, and one kind will answer as well as another—No one need take pains for him.

We appeal to men who are very particular about what they wear—about the fit, the shape, the style, the finish, and withal, the price.

To men who know what they want, and won't take anything else, men who are up-to-date and dress accordingly.

By this class of men our smart suits at reasonable prices are appreciated. A call solicited.

PETERBOROUGH SATURDAY APRIL 29 1905

ANNIE OAKLEY,
THE WORLD'S GREATEST LADY RIFLE SHOT USES AND RECOMMENDS

Newbro's Herpicide

The ORIGINAL remedy that "kills the dandruff germ"

"Travelling as I do continuously, I have been troubled a great deal with dandruff and falling hair, and until I tried Herpicide I never found a remedy that was satisfactory.

Herpicide is a delightful preparation that fulfills the claims made for it, and no lady's toilet is complete without it. I highly recommend it to my friends."

(Signed) ANNIE OAKLEY.

It is certainly significant that Miss Oakley, the celebrated rifle shot and theatrical star, who has travelled so extensively abroad, should choose Newbro's Herpicide as the **most efficacious** toilet remedy for the scalp. No one will doubt her opportunity to choose the best and those who have seen the natty and winsome Miss Oakley, will not doubt her power of discrimination in matters of this sort.

Newbro's Herpicide is a scientific germicide and prophylactic for the hair and scalp, it destroys the germ or microbe that causes dandruff, itching scalp and falling hair, after which the hair will grow as nature intended. Extraordinary results follow the use of Newbro's Herpicide.

If your hair is dull, brittle or lustreless, don't wait until it begins to fall, but save it with Newbro's Herpicide. In addition to its wonderful medicinal qualities, Newbro's Herpicide is the daintiest and most delightfully refreshing hair dressing available. The first application proves its goodness. **Try it.**

Herpicide contains no grease, it will not stain nor dye.

STOPS ITCHING OF THE SCALP INSTANTLY.

Send 10c in stamps for sample to THE HERPICIDE COMPANY, Dept. L, WINDSOR, ONT.

Personal Items of Interest From the Eastern Village.

(From Our Own Correspondent)

Norwood, April 24.—Mr. E. J. Lang has sold his laundry business here to Charlie Mark, a native of the Orient, who has taken his premises in the Metcalfe Block lately occupied by Mr. Laing. Mr. Laing has not yet decided as to what line of business he will take up or where he will locate. In the meantime he will remain in Norwood.

Mr. D. J. McLean has purchased from Mr. A. S. Harrison, the brick house on Ridge street occupied by Mr. Geo. J. Sherry, barrister.

The Epworth League held its annual business meeting on Monday Evening, when the following officers were elected for the ensuing year:—

Hon. President—Rev. C. Parker.
President—Mr. Lou Brown.
1st Vice-President — Miss Fanny Squire.
2nd Vice-President—Miss Peters.
3rd Vice-President—Mr. R. H. Leighton.
4th Vice-President — Miss Zella Stevenson.
Secretary—Miss Gertrude Squire.
Corresponding Secretary — Miss Grace Foster.
Treasurer—Mr. Fred Buck.
Organist—Miss Gertrude McLachlan.
District Representative—Mrs. Geo. E. Mills.

The League meets every Monday and is in a very flourishing condition.

Mrs. Alex. Fraser is spending the holiday with friends in Toronto.

Mr. Wm. T. Spence, of Toronto, is staying with friends in town.

Miss Hattie Lachlan and Miss May Foster, Bracebridge, and Miss Etta Archer, of Toronto, are staying at the home of Mrs. James McLachlan, Peterborough street.

Miss Clara Sperry, Peterborough, is the guest of her sister, Mrs. D. A. Fraser.

Miss NelHe Chambers, of Toronto, is staying with her friend Miss Gertrude Squire.

Mrs. Gjerdrum of Carleton Place, is the guest of Mrs. G. J. Keefer.

Miss Lillie Scott and Miss Dunbar, of Toronto are the guests of the former's sister, Mrs. E. C. Squire, Queen street.

Miss Mary Nichol, of Peterborough was home for Good Friday.

Mr. Hennie Nichol, of Queen's College, Kingston, is home for his vacation.

Mrs. Houston, of Toronto; Mr. Wilson Cameron, of Peterborough; Mr. and Mrs. Gordon Cameron, of Montreal, and Rev. Mr. Roxburgh, of Smithville, are the guests at the home of Mr. W. E. Roxburgh.

Miss Edith Nichol, who has been on an extended visit to her sister, Mrs. Chas. Miller, South Bever, returned home on Saturday.

Miss Annie Bushell, of Toronto Junction, is staying with her sister, Mrs. Wm. Carbery.

Mr. Trevor Patterson of the Union Bank, Carleton Place, is the guest of Mr. Frank McCleary.

Mr. Ira Moore, of Peterborough, is visiting with friends in town.

Mr. Albert Raddon, of Peterborough, was home for Good Friday.

Mr. and Mrs. Chrisholm, of Toronto Junction, spent the Easter holiday at Mrs. Chrisholm's mother's, Mrs. Starr, Queen street.

Miss Mary Bert, of Toronto Junction, is at home for the Easter holidays.

Mr. Percy Grover, of Toronto, and Mr. Trevor Grover, of Gananoque, are spending their holidays under the parental roof.

Miss Jennie Calder, of Deseronto, and Miss C. Calder, of Campbellford, spent Easter at home.

Mrs. Parkens, and the Misses Parkens, of Port Perry, are the guests of the former's daughter, Mrs. D. McLean.

Mr. Chas. O'Reilly, assessor for the corporated village of Norwood, has completed his assessment for 1905.

Mrs. W. A. F. Campbell of Brantford, is spending the Easter holidays with her mother, Mrs. J. B. Pearce.

Mrs. Henry Kirkpatrick, who has been on an extended visit to friends at Sharbot Lake, returned home on Wednesday last.

Mr. Gordon Patterson, son of Mr. John Patterson, King street, has secured a position as commercial operator at Sault Ste. Marie, Ont.

The sitting of the Second Division Court was held on Wednesday last, sided. There were four cases on the docket. Those of the legal fraternity who attended were: Mr. A. P. Poussette, Peterborough; Mr. C. A. Ghent, Havelock, and Mr. G. J. Sherry, Norwood.

Mr. A. S. Dingman of Toronto, is a guest at the home of Mr. J. B. Pearce.

Mr. B. F. Ackerman of Peterborough, was in town on Good Friday.

Mr. Gordon Moffatt, of the Union Bank, Wiarton, was home for Easter Sunday.

Miss Pearl Chandler, who is attending Queen's, Kingston, is home for her vacation.

Miss Edith Waters, is spending a few days in Toronto with friends.

Mr. and Mrs. George Jones, and son, Harry, spent Easter with Mr. and Mrs. J. Harper, Peterborough.

Mr. William Houson, of the Sovereign Bank, Stirling, was home for Sunday.

Mr. D. A. Fraser, hardware merchant, purchased from the Dickson Co., Peterborough, 10,000 shingles last week.

Mr. L. H. Leighton, principal of the Norwood public school, and Miss E. Leighton, science teacher, of the High School, are attending the teachers' annual convention held in Toronto this week.

Mr. William Speace of Burleigh, is spending his Easter holidays at home.

Mr. J. Price, who has been in England for the last four months, arrived at Halifax on April 14th by the steamer Virginian, the new Allan Line steamer, this being her maiden voyage.

The Easter services in the various churches were very largely attended at the different services on Sunday.

The services on Sunday in the Methodist church were conducted by the pastor, Rev. C. Parker, who took his text from Romans, i, 23. In the morning the musical portion was as follows:

Anthem, Christ our Passover..... ... Wilkinson
Anthem, Day Dawn of Hope...Faure
Quartette, Wonderful Light...Gounod

At the evening service the following was the music:

Solo, There is a green hill Far Away
Miss Bessie Sperry, Peterborough.
Anthem, Why Seek Ye the Living ..... Cooke
Anthem, Radiant Morn..... .... Woodward

The church was as usual beautifully decorated with flowers.

The special attraction at the Presbyterian Easter services in the morning was the boys' choir of twenty voices. The church was very prettily decorated with palms and Easter flowers for the occasion. The service in the morning was conducted by the pastor, Rev. George McLennan, his text being I Cor. xv, 5-7. In the evening Rev. Frank Roxburgh, one of Norwood's boys, but now pastor of the Presbyterian church, Smithville, conducted the service, taking his text from Romans xii, 4, 5. The musical part of the programme was as follows:

Anthem, Who is This? ... .Morris
Anthem, Easter Dawn...H. L. Gilman

At the evening service solos were rendered as follows:

The Resurrection Morn...P. Rodney
Mrs. J. A. Finley.
The Dawn of Life... ... ...Avery
Mrs. John Davidson.
Why Seek Ye the Living... ... ...Cooke

Mr. Chas. McNichol spent Easter at his home in Campbellford.

Mrs. Knapp and daughter, of Peterborough, are staying with friends in town.

Messrs. Buck and Walsh shipped last week one car load of hogs to Peterborough. Price paid was $6.

Messrs. Finlay and Son received this week one car load of elm, ash and birch from Mountain Grove.

Mrs. George Gould and son of Port Hope, are staying at the home of Mr. J. B. Pearce.

GYPSY CAMP AT BRIDGENORTH

A Nuisance Which Annoyed Residents of Smith.

Bridgenorth Has Many Holiday Guests Late News From That Village.

(From Our Own Correspondent.)

Bridgenorth, April 28th. — Considering the weather, Good Friday was bad Friday.

Miss Pearl Jopling spent Easter in Emismore.

Mrs. Jackson of Peterborough, spent Easter with her daughter, Mrs Gordon Mann.

Capt. Noble Kelly arrived in port on Thursday with the lady of the Lake.

Marie Archer spent Easter visiting his aunt, Mrs. J. N. Mann.

G. J. Jopling is seen driving a new horse and runabout.

William Nicholls is in line with the up-to-date farmers, as he has a new disc harrow.

Mrs. J. H. Brumwell spent Easter with her son, Geo. Brumwell, in Lindsay.

Mr. Windover of Harvey has been spending a few days visiting with Peter Nicholls, jr., in the village.

Mrs. William Nicholls was in Lindsay for Easter, as the guest of Mr. and Mrs. George Brumwell.

Harry Mann, who is teaching school at Fenlon Falls, came home on Friday.

Miss Beatrice Kelly and Miss Ida Sanderson, who are attending the Ladies' College at Whitby are home for their holidays.

Miss F. Jobe and Miss S. Mann walked down to Mrs. Fred Scott's on Tuesday and spent the day.

Miss Sanderson of Buckhorn spent Easter with the J. N. Telford family across the river.

On account of the early opening of navigation Albert Nicholls, Thos. Cullen, jr., and Pete Nicholls, jr., spent Easter Sunday visiting with friends at the head of the lake.

A big flock of wild geese alighted on J. H. Mann's farm last Wednesday and spent most of the afternoon feeding in a field near the swamp.

Everybody is talking about the gypsies. Who are they? Well, they are a small band of Bulgarians, who are camped about half a mile south of the Central Smith cheese factory. True gypsies make a living by selling lace, tinkering and trading horses, but this gang subsists solely by begging, and they have it down to a science and do it in the most modern system. The men loaf around the camp while the women go fortune telling and begging for food, clothing and fodder. Their persistency and audacity is almost beyond belief and they became such a nuisance that the township council was urged to make them move, but whether any action was taken or not is not known, but the Bulgarians are now in Emismore rounding up the unwary.

REBUILDING THE STEAMER "ALERT"

Popular Boat Will Again Be in Commission.

The Week's News From Lakefield—Many Visitors.

(From Our Own Correspondent)

Lakefield, April 28th. — Mr. A. S. Butchart was in Oshawa on Tuesday in the interests of the Cement Company.

Mr. P. Spence of Spence & Son, spent Easter week with friends in Toronto.

Mr. J. Kennealey, who is attending the Collegiate Institute at Peterborough, spent Easter at home.

Mr. William Simpson, foremen for the Rathbun Company, who has been at home for a couple of weeks left on Monday for Wiarton.

Miss Briggs is spending Easter week in Toronto with friends.

Mr. Thomas Isbister, who is attending the Business College in Peterborough, is home for the vacation.

The choir of the Methodist church gave special Easter music on Sunday evening last.

Mrs. Atwood of Montreal, is visiting her father, Mr. H. J. LeFevre.

Mrs. Roger Fraser, who is attending the High School at Norwood, is home for the week.

Mr. E. A. Tanner has been given the contract of erecting two new houses on Regent street, to Messrs. Baptie Bros., contractors.

The canoe factories are very busy attending to the demands of their customers for boats and canoes for the coming season.

Messrs. Moran and Gray, who are rebuilding the steamer Alert, which was partially destroyed by fire last fall, have her nearly completed. They are fitting her up for a tug, and she is being placed in first class order and will ere long be launched and ready for the season's business towing on the lakes.

Miss Maggie Kennealy of the teaching staff of the Hastings public school, is home visiting her parents.

Dr. Gibson spent Easter with his parents in Campbellford.

Mr. Roger Strickland, who is employed with a survey party in the Temiscamingue district is in the village for a week's holidays.

Messrs. J. Moffatt and H. N. Lewis, of the Traders' Bank staff, who spent Easter at their respective homes in Port Hope and Toronto, have returned to the village.

Mr. F. Pullen of the Dick, Kerr Co. spent a couple of days in Toronto this week.

Mr. S. W. Hill, principal of the Lakefield public school, is spending a week with his parents in Winchester.

Miss McGorman is spending her Easter vacation at her home in Brighton.

Mr. W. H. Casement is visiting his brother, Mr. Robert Casement of Medoc.

Mr. Wilson of Apsley spent a couple of days in the village this week.

Miss Fitzgibbon of Toronto is visiting her mother Mrs. Col. Chamberlain of this village.

Mr. Davidson of Toronto is spending a few days visiting his son Mr. R. P. Davidson.

Mr. Morrison of Toronto, is in the village on business relative to the erection of the Lakefield Furniture Company's factory here.

Miss Nellie Cox of Medicine Hat has returned to the village owing to the illness of her sister here.

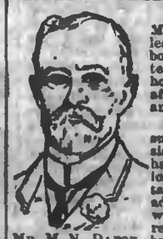
On Sunday last the choir of the Presbyterian church, rendered special Easter music, morning and evening. At the morning service Miss Quinn sang a solo, and in the evening Miss Dalziel sang very acceptably.

Mr. Reggie Murdoff of Toronto, is home for a short holiday.

Miss B. Houston of Calgary, N. W. T., is the guest of Mr. R. Johnson.

A TORONTO MAN TRIES

SOMETHING NEW AND IS DELIGHTED. FEELS LIKE A BOY.



Mr. M. N. Dafoe

Mr. M. N. Dafoe, Manager The Dustless Brush Co., 20 Colborne St., Toronto, is telling his friends how he found health after years of illness and pain. He says:

"I have been a great sufferer from Dyspepsia for many years. I have been treated by local doctors and have taken nearly all the advertised remedies with only temporary relief, if any at all, but since using Anti-Pill I can eat anything the same as when a boy. I have been taking one Anti-Pill at bedtime for the past three months, and find they regulate both stomach and bowels. My old time vigor has returned, so that my spirits are buoyant and temper normal. As a result of this unhoped for experience I am in duty bound to give all credit to this wonderful remedy, Anti-Pill."

Every druggist sells Dr. Leonhardt's Anti-Pill, or a sample will be sent free by The Wilson-Fyle Co., Limited, Niagara Falls, Ont.

The remedy that cured Mr. Dafoe so completely is surely worth a trial. 502

Upset the Editor.

When the editor of an English paper received a fine chicken he believed it to be a token from some appreciative reader. After the editor had enjoyed a dinner in which the supposed gift played a part, he received a letter from a man, who said: "I sent you a chicken in order to settle a dispute which has arisen here. Can you tell us what the chicken died of?"

We have put exceptional style into every line of the Semi-ready Covert Coat.

The Semi-ready Covert Coat is in a class by itself.

The popularity of the Covert Coat has started every clothier and tailor producing them. They see nothing else in it than a short overcoat, and their product naturally lacks style, expression and individuality.

We don't believe anything would make you more thoroughly realize the exclusiveness of Semi-ready style than to place one of our Covert Coats alongside one of these attempts.

Every line of the Semi-ready Covert coat is expressive of style—it shows an individuality that marks its wearer as a well-dressed man.

Would you like to try one on? You won't be opportuned to buy.

Prices, $15 to $25.

Semi-ready Tailoring

Cressman's PETERBORO.

WAS CAUGHT BY A SHAFT

George Scott Hurled With Fearful Force Against Ceiling.

HIS CLOTHING WAS TORN OFF

Terrible Accident in the Huntsville Tanning Co.'s Works—Victim's Head Was Fearfully Crushed, and Such Internal Injuries Inflicted That He Cannot Live—Other Fatal Accidents.

Huntsville, April 29.—Yesterday morning while George Scott was engaged in the beam house at the Huntsville and Bracebridge Tanning Co., his clothing caught in the shafting and his body was hurled with fearful force against the ceiling.

Every vestige of clothing except his shoes was torn off and he fell to the floor, a distance of 20 feet. Both arms were broken, his head fearfully crushed and such internal injuries received that he cannot live.

Scott is about 22 years of age and came to Huntsville about five months ago from Ingersoll. He has a brother living in Toronto, but his parents reside in Scotland.

Caught in Machinery and Killed.

Marlbank, April 29.—Yesterday afternoon George Dale, while working at the Canadian Portland Cement Co.'s works, was caught in the machinery and instantly killed. He was 35 years of age and leaves a widow and four children.

Whirled by Pulley.

Brockville, April 29.—Harry Belmont lies in the hospital here with a broken arm and ankle, and numerous cuts and bruises, the result of being caught in a pulley and being whirled around repeatedly with it, and finally thrown through an open doorway into the yard at the J. Smart Co.'s works.

Lake Captain Killed.

Buffalo, April 29.—Capt. Albert E. Huff, one of the most popular and widely known of lake captains, was killed early yesterday morning, by falling into the hold of a boat at the Lackawanna Steel Co.'s docks. Capt. Huff's skull was fractured at the base and his death resulted shortly after the accident. Capt. Huff was 43 years old and was assistant superintendent of the Lackawanna docks. Prior to the time he secured the position at the docks he sailed the Great Lakes and was well known in every port.

Woman Fatally Burned.

Montreal, April 29.—As the result of an explosion in a gas stove at 24 Balmoral street yesterday morning, Mrs. Rose Rinahan was taken to the General Hospital in a dying condition. The explosion set fire to the kitchen, which the injured woman attempted to extinguish, when she was terribly burned. The fire did damage to the extent of $1,500.

Falls and Dies.

Milverton, April 29.—John Ritter, nearly 90 years old, father of C. Ritter, proprietor of the Grand Central Hotel, was coming downstairs about 6 o'clock, and fell when near the floor. He expired before medical aid reached him.

Railwaymen in Wreck.

Stratford, April 29.—Three miles north of Holstein a serious accident took place Thursday afternoon. A mixed train, bound for Durham, was partially derailed. Spreading rails threw a heavy coal car and a combination car off the track, the latter turning over completely. Conductor John Collison, of this city, and Brakeman W. G. Armstrong, also of Stratford, were pinned beneath heavy baggage. Of the five passengers three were hurt.

Twelve Miners Killed.

Dubois, Pa., April 29.—Twelve men were killed and one will die as the result of an explosion at the Elanora shaft, near Big Run. This shaft is located one and a half miles from Big Run on the Buffalo, Rochester and Pittsburg Railway, 12 miles south of here. It is an isolated part of the country and the explosion, which occurred Thursday night, was not known in this city until yesterday. The mine is owned and operated by the Rochester and Pittsburg Coal & Iron Co., and is a comparatively new shaft, having been opened two years ago.

The mine was thought to be free from dangerous gases. The night shift was small or there would have been more fatalities. Every man who was in the mine at the time of the explosion, except one, is reported killed. Three bodies have thus far been recovered. Two of them were brothers named Kirkwood. The men were English-speaking and resided at Elsanor, a small mining village two miles from the shaft.

WIDOWS AFTER THE MONEY.

Two of Them Claim Insurance on Life of A. H. Stroud, of Hamilton.

Toronto, April 29.—Is Mary A. Stroud or Annie H. Stroud the lawful widow of Alfred Stroud, of Hamilton?

The Sun Life Assurance Co. is asking the Master-in-Chambers to decide that question by applying to pay into court the $1,940, the amount of two policies issued in July, 1895. The insured assigned the policies to Mrs. Annie three years ago. She became his wife, she says, in 1899, which was shortly after he had obtained a divorce from Mrs. Mary. But the latter's counsel, Mr. Dickson, contends that the divorce is not valid in Canada.

Ontario Curlers' Meet.

Toronto, April 29.—The semi-annual meeting of the Ontario Curling Association was held yesterday morning. The proceedings of the season were wound up; cups, prizes, medals and banners were presented to the successful competitors and, the curling season brought to a fitting close. His Excellency Earl Grey, patron of the association during the season of 1904-1905, was present at the meeting. He was presented with an address to which he suitably replied.

Hospital Burns in Quebec.

Quebec, April 29.—The new immigration hospital at Savard Park has been completely destroyed by fire yesterday morning. Losses are estimated at $30,000, partly insured.

Tired all the Time

Mr. George Beattie, Carr's Brook, Colchester Co., N.S., writes:—"Last spring I was very much run down, felt tired all the time, and did not seem to have life or energy enough to do my work. Three boxes of Dr. Chase's Nerve Food did me a world of good, and made work a pleasure to me. I have not had occasion to use any medicine since, and have recommended Dr. Chase's Nerve Food to all my friends."

Drank Carbolic Acid.

Buffalo, April 29.—The body of a man, supposed to be Thomas Comstock, of Hamilton, Ont., was found lying near the Lehigh Valley Freight House, at Tift Farm, south Buffalo, early yesterday by a number of workmen. Besides the body was found an empty carbolic acid bottle, and the man's mouth was terribly burned, showing conclusively that he had committed suicide.

Capt. Poole Dead at 92.

Brockville, April 29.—Capt. J. N. Poole, a veteran of 1837, died at his home near Newboro, aged 92 years. Born in England, he emigrated to Canada with his parents when a lad. The family settled in Leeds County, where Capt. Poole spent nearly his whole life.

Cruisers For Newfoundland.

London, April 29.—The cruisers Ringdove and Scylla sailed yesterday from Queenstown for Newfoundland to protect British fisheries there.

"SONG OF THE ROAD."

How Engine Drivers Find Their Bearings in Fog.

During a deputation to the President of the British Board of Trade, statements were made attributing recent railway accidents to engine drivers having "lost their way" in the fog.

The theory is tenable, as all drivers and guards who have learned "the song of the road" will admit.

"When I was a guard," said Mr. Richard Bell, M. P., "I could sit in my van with my eyes shut and tell where the train was at any moment. Working one section continuously, one gets to learn the rhythmic song of the road and how it varies at each signal-box, station, curve, gradient, tunnel and bridge."

The sixth sense, which is more than mere hearing, is of the utmost value to a driver during fog. Denied the use of his eyes, he still does not "lose his way" when he is on a familiar road. But, and here is one of the grievances of railway men which Mr. Gerald Balfour was asked to remove, when a drivers is put on to a new section he is often not allowed to "learn the road" properly. He is put on to stoke for a few days with a driver who knows the road.

"We contend that a driver cannot learn a new road when he is stoking, which should occupy all his time," said Mr. Bell. "He should always be allowed to travel as third man on the footplate, unfettered by work, and in two or three days, by keeping his eyes and ears open, he would learn the road."

Old Age Pensions in Australia.

Advocates of old age pensions will be interested in a return which has been published by the Treasurer of the State of Victoria showing the experience of his Government of the system of pensions inaugurated in 1901.

In 1901 the maximum rate of pension was fixed at 10s a week, which was granted to everybody who could make good claim to it. After twelve months' experience the rate was fixed at 8s a week, and the children of pensioners were compelled, if at all able, to contribute towards the pension granted. Reviewing the three years' experience, the Victorian Government finds that, whereas, in 1901, it had to pay 16,275 pensions, on June 30, 1904, when administration was restricted, and the rate generally reduced, only 11,609 people were entitled to pensions. The average rate of pension, with the maximum at 10s a week, worked out at 7s 5½d per pensioner. The present average rate with the 8s maximum is 6s 8d per pensioner.

Some idea of the closeness with which the financial standing of pensioners' relatives is examined will be gathered from the fact that whereas only £19 2s was recovered from relatives within the first three months in the financial year, ending June, 1904, no less than £3,495 was so recovered. The Victorian Government now pays away to pensioners about £200,000 a year, at an administrative cost to the state of only £17,000.

He Was a Married Man.

London Tit-Bits tells of a Scottish singer named Wilson, who was being trained for professional work, sang a love song with exquisite quality of voice, but insufficient passion and expression. His teacher told him he must put more feeling into it and sing as if he was really in love.

"Eh, man," he replied, "hoo can I do that, and me a marriet man?"

KIDNEY TROUBLES OF WOMEN.

Thousands of women suffer from backache and kindred kidney ills.

There is no need for any woman to be ailing for an instant. There is a sure and positive cure in

DR. PITCHER'S BACKACHE-KIDNEY TABLETS.

There is no one more to be pitied than the woman who has to drag through the day's work suffering from a terrible ache in the back, a darting pain between the shoulders, a heavy dragging pain in the loins, or a persistent headache that will not let up for an instant.

More than three-fourths of the sufferings of womankind come from disordered kidneys and poisoned blood—not from so-called "female troubles."

Get the kidneys acting right—have them filter the poisons from the blood and pains and aches flee and good health returns.

Here is a statement from Mrs. W. J. Smith, Smith's Falls, Ont., a woman who knows whereof she speaks:

"I believe Dr. Pitcher's Backache-Kidney Tablets did me more good than any remedy I ever used. My kidneys and back caused me much misery, but the Tablets promptly relieved me. I gave them to my little girl for weakness of the kidneys and the results were satisfactory. My mother also has used them and thinks there was never a kidney medicine to equal them."

Dr. Pitcher's Backache-Kidney Tablets are small, chocolate-coated and easily taken. Price 50c. a bottle of 50 Tablets, at druggists or by mail. The Dr. Zins Pitcher Co., Toronto, Ont.

FOLLOWS LORD MILNER

LORD SELBORNE TO BE GOV.-GEN. OF SOUTH AFRICA.

Factors Which Show He Should Be Amply Qualified for the Arduous Post—An Oxford Man, Who Has Been in Public Life Ever Since His Graduation—Wife a Cousin of Mr. Balfour.

In choosing Earl Selborne to assume the duties in South Africa which ill-health obliges Lord Milner to relinquish, the Imperial Government has selected a man who should be amply qualified for the position. William Waldegrave Palmer, the second Earl Selborne, is a young man, although he has put in six comparatively useless years, according to Dr. Osler's theory, unless, indeed, he is an exception to that dogmatic rule. As First Lord of the Admiralty, he has displayed ability, and in the reconstruction of the British navy has played a leading part. From 1895 to 1900 Earl Selborne was Under Secretary for the Colonies, in which position he must have obtained a keen insight into the problems of South Africa, some of which, in new phases, persist to-day, and with which he must deal. He is an Oxford man, like Lord Milner, and since graduating has been in public life almost constantly.

Married Salisbury's Daughter.

Added to the ambitious impulses he must inherit from his father, the new Governor-General gained further political momentum in 1882 by marrying a daughter of the Marquis of Salisbury. His wife is, therefore, a cousin of Mr. Balfour's. When one takes into consideration these factors he is justified in predicting a distinguished career for Earl Selborne. His father, who got off in the race of life with no such flying start, became a very famous man, indeed, and was Lord Chancellor, a position which he had refused a few years before, because he could not agree with Mr. Gladstone on the question of the disestablishment of the Irish Church. This first Lord Selborne, who was Roundell Palmer before the title came to him, was a distinguished lawyer, and represented the British Government at the Geneva Court of Arbitration. He was also Solicitor-General and Attorney-General at different stages in his career. He chose Selborne as his title, as it was the name of the country residence he had acquired from Gilbert White, the naturalist, whose "Natural History of Selborne" is a classic.

Milner a Great Statesman.

Of Lord Milner, whose health has been failing for some time, it can truly be said that he is one of the foremost living statesmen. While he was yet a student at Oxford Dean Church said of him, "Milner is the finest flower of human culture which Oxford has produced in our time," a tribute which Alfred Milner's subsequent career has justified. In early life he served an apprenticeship at journalism, and worked with William T. Stead. At the time he was a tall, thin, apathetic young man, aloof and reserved, whose only hobby was swimming, an art in which he excelled. He drifted into a moderate sort of Socialism, and then into Liberalism, finally evolving into that rara avis an educated Liberal Imperialist. About this stage in his career it is told of him that on one occasion, as he rose to address an audience, someone shouted, "Sit down, you fool!" This aroused Milner, and he made a really forceful speech, something he had never before accomplished. In later years, commenting on the incident, he said that he would be a good speaker if someone would hit him in the eye before he rose.

At the Egyptian Tangle.

The official life of this gifted man began with his service as private secretary to Lord Goschen, when the latter was Chancellor of the Exchequer. There he displayed a capacity for administration that was soon recognized by his appointment to the head of the Inland Revenue Department. Here again he won unstinted applause. When it became necessary for Great Britain to unravel the Egyptian financial tangle, Milner was chosen as the man. In Egypt he mastered a very intricate and difficult situation. It is said that on that occasion he overcame difficulties by riding a high horse, and that that fact disqualified him from service where gentler methods are required. But as Finance Minister in Egypt, Milner was successful, and that is the test of all tests. While in the land of the Nile, he wrote a book on the country, which was recognised as a standard authority. His official work commanded the highest praise on all hands.

South Africa the Climax.

But the climax of the career of this Empire-builder was South Africa. Honors had been showered upon him. He had become Sir Alfred Milner, and more recently Lord Milner. A Conservative administration was looking for a man to grapple with a very dangerous situation. He must be firm, and yet not obstinate; he must strive for peace and yet face the possibility of war unflinchingly. Milner undertook his great task in South Africa with infinite pains. He traveled through parts of the country that had never before seen a High Commissioner. He learned the Cape Dutch, so that he could converse without the aid of an interpreter, and read the Dutch newspapers. He solved the crises in Basutoland and Swaziland, and installed the new constitution of Rhodesia. There never was any doubt or hesitation as to his attitude towards the Transvaal. He firmly presented the British demands, and when war was precipitated he set about to protect against invasion in Cape Colony, which had many sympathisers with the Boers. Invasions were successfully resisted. Surrounded by influences that were strongly anti-British, Lord Milner sustained through all the long and trying struggle the British cause. At the end he remained to restore order and harmony out of the political chaos that was the inevitable result of the struggle.

Most Developed in England.

While the system of identification by the measurements of the head, ears, hands and feet has been developed most in France and has already proved of great value in identifying criminals, the use of finger prints has been most developed in England, and there are now between 70,000 and 80,000 finger print records in Scotland Yard, London, and last year 2,642 identifications were made there by this system. —Independent

A MILE WITH ME.

Oh, who will walk a mile with me
Along life's merry way?
A comrade blithe and full of glee,
Who dares to laugh out loud and free
And let his frolic fancy play,
Like a happy child through the flowers gay
That fill the field and fringe the way
Where he walks a mile with me.

And who will walk a mile with me
Along life's weary way?
A friend whose heart has eyes to see
The stars shine out o'er the darkening lea
And the quiet rest at the end of the day—
A friend who knows and dares to say
The brave, sweet words that cheer the way
Where he walks a mile with me.

With such a comrade, such a friend,
I fain would walk till journeys end
Through summer sunshine, winter rain
And then? Farewell! We shall meet again!

—Henry Van Dyke.

A Royal Romance.

The London Daily Express' Paris correspondent says: The Liberte, which is in touch with the political friends of Prince Napoleon, asserts to-night that, notwithstanding the denial issued by the Belgian court, there is a formal engagement between Prince Napoleon and the Princess Clementine, thought it is not yet officially recognised at the court. King Leopold alone is hostile to the match, because he fears to offend the French Government, but both the Princess and the Prince are determined to get married in spite of all obstacles. In accordance with the Belgian law, where a parent refuses his consent, three respectfully worded notices will be sent to King Leopold at intervals of three weeks. After this delay the couple can get legally married, even if the King still withholds his consent.

Shares Record With Pitt.

An interesting incident of a recent sitting of the House of Commons was the promising maiden speech of Viscount Turnour, who is not yet 21 years of age. He was warmly congratulated by many members, including Sir Edward Grey, who complimented him on sharing the record with the boy Premier, William Pitt.

Training the Left Hand.

It is one of the good signs of the times that the use of the left hand is coming into fashion in education. Our children, let us hope, are not to be forever crippled by being brought up one handed. We are learning at last the absurdity of allowing one of our hands to fall into practical disuse, and the excellent names behind the newly formed Ambidextral Culture Society give ground for hope that common sense may prevail on the subject and lead to the development of a two handed instead of a one handed race. The founder and secretary of the society, John Jackson, has embodies his philosophy in a highly interesting book on "Ambidexterity; or, Two Handedness and Two Brainedness," to which Major R. S. S. Baden-Powell contributes an introduction. The major, like the late Queen Victoria, can write with either hand and use the two hands interchangeably for any purpose. That, of course, is all that is demanded.—London Mail.

A School Teacher

ON WHOM TWO OTTAWA PHYSICIANS OPERATED IN VAIN FOR

Bleeding Piles

WAS AFTERWARDS COMPLETELY CURED BY USING TWO BOXES OF

Dr. Chase's Ointment

The folly of risking a surgical operation, with its pain, expense and danger, is illustrated in the case of Mr. Lepine, who was cured of bleeding piles by the use of Dr. Chase's Ointment, after the surgeon's knife had failed.

Mr. Arthur LePine, school teacher, Granite Hill, Muskoka, Ont., writes, — "I am taking the liberty of informing you that for two years I suffered from bleeding piles, and lost each day about half a cup of blood. Last summer I went to the Ottawa General Hospital to be operated on, and was under the influence of chloroform for one hour. For about two months I was better but my old trouble returned and again I lost much blood. One of my doctors told me I would have to undergo another operation, but I would not consent.

"My father, proprietor, of the Richelieu Hotel, Ottawa, advised me to use Dr. Chase's Ointment, and two boxes cured me. I did not lose any blood after beginning this treatment and I have every reason to believe that the cure is a permanent one. I gratefully recommend Dr. Chase's Ointment as the best treatment in the world for bleeding piles."

Dr. Chase's Ointment, the only positive and guaranteed cure for every form of piles, 60 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

WAS GLADSTONE'S PHYSICIAN.

Death of London Doctor Who Achieved Great Success.

Dr. Robson Roose, who was at one time the most fashionable consulting physician in London, died recently.

Royal princes, half the aristocracy, bishops, judges and Cabinet Ministers were among those who sought his advice. It was, however, as Mr. Gladstone's physician that Dr. Roose, then in his thirties, leaped into almost world-wide fame.

His history is an interesting chapter in the romance of medicine.

The son of an ancient but impoverished family, he was left at the age of 15, with a mother and younger brother and sister entirely dependent upon his exertions.

He educated himself, won his own way through his examinations, working at literary pursuits by night in order to pay for his medical studies by day, and before he was 21 he was a full-fledged parish doctor's assistant at Brighton.

Dr. Roose was the pioneer in many new systems of treatment, and indeed to the end his theories found a larger following in Germany, where his writings are regarded as standard medical works, than in his own country.

His diagnosis of all cases brought to him was marvellously correct, and unlike the great majority of fashionable physicians he was always ready to give it in writing.

Even at the height of his fame, when the most distinguished men in the literary, political and religious world crowded the waiting rooms of the young consultant, he never gave preference to any patient on account of rank or position. Dukes had to wait their turn with artisans. And when he was the most sought after doctor in town fully 50 per cent. of his patients were treated free of charge.

His dinner parties at Hill street, Berkeley Square, were among the social features of London.

Dr. Roose, who was a widower, leaves three sons and one daughter.

Pain Across the Kidneys For Three Years.

Suffered Great Agony. Could Not Stoop or Bend.

No disease is so quiet and stealthy in its approach as kidney disease. That is why it is so dangerous. It may become deep-seated before you realize the danger.

It is therefore of great importance to recognize the early warning symptoms, because in its early stage kidney disease is easily curable. Pain or dull ache in the back is one of the first signs. So are bladder pains, bearing-down pains, smarting sensation when urinating, frequent or suppressed urination, and gravel or sediment in the urine, etc. You cannot be well if your kidneys are not performing their functions properly. In all ordinary cases of any derangement of the kidneys, a few doses of

DOAN'S KIDNEY PILLS

will put the patient right; in old or chronic cases, the treatment should be persisted in.

Mr. Michael A. McInnis, Woodbine, Marion Bridge, N.S., tells of his experience: "For the last three years I suffered great agony with pain across my kidneys, and was so bad that I could not stoop or bend. I consulted and had several doctors treat me, but I got none the better. On the advice of a friend I procured a box of that valuable life-giving remedy, Doan's Kidney Pills, and to my surprise and benefit I immediately became better. In my opinion Doan's Kidney Pills have no equal as a cure for any form of Kidney disease.

Price 50 cents per box, or 3 for $1.25. All dealers, or direct by mail.

TENDERS FOR DREDGING.

Tenders addressed to the undersigned and endorsed "Tender for dredging" will be received up to and including May 16th, 1905, for the dredging required at the following places, during the present year: Bayfield, Belle River, Beaverton, Collingwood, Kincardine, Matchedash Bay, Meaford, Owen Sound, Trenton, Penetanguishene, Point Edward, Sarnia, Port Stanley, Rondeau, Port Burwell, Saugeen River, Thornbury, Wiarton.

Specifications can be seen and form of tender obtained at the Department of Public Works, Ottawa. Tenders to include towing of plant to and from the works. Only dredges can be employed which are registered in Canada at the time of filing of tenders. Contractors must be ready to begin work within thirty days after the date they have been notified of the acceptance of their tender.

The Department is not bound to accept the lowest or any of the tenders.

By order,

FRED. GELINAS, Secretary.

Department of Public Works, Ottawa, April 20, 1905.

Newspapers inserting this advertisement without authority from the Department, will not be paid for it.

THEIR GREAT FUTURE.

New Provinces Saskatchewan and Alberta May Become the Hard Wheat Centre of the World.

The year 1905 gives every promise of being a most prosperous one for Western Canada, says a Regina, N.W.T., letter in the New York Sunday Herald. The prospective creation of two new Provinces out of the organized Territories and the unorganized territorial district of Athabasca will give Western Canada a new dignity in the Dominion.

The territorial districts, Alberta, Saskatchewan, Assiniboia and Athabasca, are to be formed July 1 into the Provinces of Saskatchewan and Alberta, each of which will have an area of approximately 250,000 square miles. Saskatchewan will occupy the territory from the western boundary of Manitoba to the 110 meridian and from the international boundary north to the sixtieth parallel of north latitude. Alberta will occupy the region between the 110th meridian on the east and the Rocky Mountains and the 120th meridian on the west, and from the boundary to the sixtieth parallel on the north.

These Provinces will contain within their boundaries practically all the good agricultural country in Western Canada outside of Manitoba. They have more fertile land susceptible of profitable cultivation than any of the other Provinces of the Dominion, and will probably be some day the most populous Provinces in Canada.

The Land of Wheat.

Saskatchewan will undoubtedly come to be known as the hard spring wheat country of the world. Outside of Manitoba Saskatchewan includes much of the hard spring wheat country of Western Canada. There are at least 50,000,000 acres of land in Saskatchewan, capable of raising an average of twenty bushels to the acre. At present all Western Canada does not produce more than 70,000,000 bushels. Scarcely more than 1,000,000 acres of Saskatchewan are yet devoted to wheat.

Owing to the fact that the farmers of the Northwestern spring wheat States are going out of wheat raising, there is every reason to believe that the utilization of the wheat lands of Western Canada will increase at a tremendous pace. The large amount of railway building now planned will greatly help this tendency. The Canadian Northern Railway will, before this summer is over, have its line built across the new Province of Saskatchewan, and it is expected that the Grand Trunk Pacific will begin work throughout this region on its transcontinental railway.

Capital at Regina.

Regina, which is the capital of the organized territories, is to become provisional capital of Saskatchewan, and there is little doubt that it will be the permanent capital. The city has been growing rapidly for the last three years.

The Province of Alberta is different in climate and natural resources from Saskatchewan. The southern part of the Province, like the southwestern part of the Province of Saskatchewan, is a dry region, eminently adapted to cattle and horse raising and to some forms of agriculture without irrigation. In this part of the country it has been realized within a few years that winter wheat can be successfully raised in the driest years. Hundreds of farmers are going into winter wheat, and this year one farm has 3,000 acres in this crop.

There are several successful systems in Southern Alberta. The Canadian Pacific Railway is now at work at Calgary on what is the greatest irrigation system on this continent. This enterprise will put water on 1,500,000 acres. One of the crops that will be raised on these irrigated lands, as it is raised on other irrigated lands in Alberta, is sugar beets. An immense sugar mill, the second largest on the continent, is planned to utilize the beets to be raised on the lands.

Northern Alberta, which is one of the most beautiful countries in the world, being a parklike country of groves and prairies, well supplied with streams and dotted with lakes, is more a general farming and dairying country.

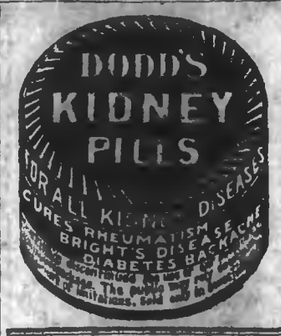
The mineral resources of both Provinces, especially of Alberta, are important. Lignite is found throughout Saskatchewan and Alberta. In Alberta alone is found deposits of bituminous and hard coal, the latter being near Banff, where the Canadian Pacific Railway is operating a mine with a capacity of 350 tons a day, which will soon be raised to 1,000 tons. As Alberta's western boundary lies along the Rocky Mountains, it has many mountain streams that provide opportunities for the development of water power.

TIRED OUT.

How many a wife sits in the growing gloom of an evening, knowing what it is to feel tired out; as if there was not another ounce of effort left in her. But if healthy she knows how sound her slumber will be and how refreshed the morning will find her. But it's another thing for the sick woman to feel tired out. Rest only seems to increase her suffering. She feels acutely the aching back and throbbing nerves. Sick women, hundreds of thousands of them, have been made well by the use of Dr. Pierce's Favorite Prescription. It establishes regularity, dries wasting drains, heals inflammation and ulceration and cures female weakness.

"I am pleased to inform you of the benefit I received from using Dr. Pierce's Favorite Prescription and Golden Medical Discovery," writes Mrs. Elizabeth A. Oswold, of Signal Burgh Windsor, Essex Co., Ontario, Canada. "Was quite discouraged when I wrote asking your advice, as the physicians here told me I could get no relief except by an operation. Suffered for four years from irregular and profuse menstruation, had sick and nervous headaches most of the time, and at times could hardly walk across the floor. Was weak and thin. I thank God there is such a remedy as Dr. Pierce's Favorite Prescription for suffering women. Before I had taken the first bottle the headaches had left me and it was not long before regularity was established and still continues so. Have just finished house-cleaning which I never expected to be able to do again, and can truly say I never felt better than at present. I do all who suffer from female weakness. It has cured me and made me stronger in every way. Neither my husband nor myself can say enough in its praise."

The action safer who urges some substitute in thinking of the larger profit he'll make and not of your best good.



Edmonton, which is 250 miles north of the boundary and a town of about 9,000 people, is to be the provisional capital of the Province. It will soon have the main line of the Canadian Northern Railway and the Grand Trunk Pacific, and is now the northern terminus of the Edmonton branch of the Canadian Pacific, which leaves the main line at Calgary, 190 miles south. It is on the Saskatchewan River, a wide and deep stream, navigable for more than 1,000 miles.

Edmonton is in the heart of a fine agricultural country. It is to this place that the Hudson's Bay Co. brings the furs obtained as far north as the Arctic Ocean. The value of this fur is enormous. Often a single express car shipped from Edmonton will contain $100,000 worth of furs.

Calgary, the centre of the winter wheat and ranging country, will contend with Edmonton for the honor of being permanent capital of the Province. It is the most imposing town between Winnipeg and Vancouver. It has 12,000 people and the air of a town of 50,000 further east.

Population Doubled.

It is estimated that Manitoba and the Territories have doubled their population within five years. The influx of settlers from Europe and the United States has been phenomenal—as high as 100,000 a year. About 50,000 are now coming each year from the United States, and almost every State and Territory in the Union is represented in this migration.

The Americans are well adapted to settlement of a new country, and either they or their money may be found in almost every good thing that turns up in Western Canada. Thousands of them are going on to farms and hundreds are going into the new cities and towns to engage in business.

A Subtle Rebuke.

The late high-minded Christian, Dean Hole, tells the story of a North Country clergyman's rebuke of certain of his parishioners who rarely if ever attended church, thinking they made up for it by the regular attendance of their wives. He related how one of these husbands came to the gate of Paradise, and St. Peter, who stood there with the keys rather roughly inquired, "Who are you?" "Oh, St. Peter I'm Mr. Smith from Newcastle-on-Tyne." "I don't know you." "Oh, if you please, St. Peter, I'm the husband of Mrs. Smith who went regularly to church, and taught in the Sunday School and was kind to the poor." "Why did you not do likewise?" "Oh, St. Peter, I was in business all the week and very tired on Sunday, and I thought if Mrs. Smith went to church regularly it would do for both of us." "Your wife," said St. Peter, "was a true, faithful Christian. She came to these gates three years ago, and she has gone in—for both of you!" Dean Hole knew that distinguished divine, Dean Ramsay, who told him, as of course he would, many marvelous stories of the familiarity of certain ministers in their addresses to the Almighty. One of them was that of a supplication made for fair weather by a minister in a season of storm and tempest: "Noo, Lord, ye'll nae send us a roaring, tearing wund, but ye'll send us a nice gentle wind. . . . ." Here there was a terrible gust that dislodged some of the tiles from the roof that were seen through the windows as they fell. The unhappy minister beheld the catastrophe with dismay and bewilderment, and on looking upward exclaimed reproachfully, "O Lord, this is perfectly ridiculous!"

My Friend Simmons.

The London correspondent of Brooklyn Life gives the following story of the Countess of Warwick: This reminds me of the shop which the Countess of Warwick used to own in Bond street some years ago. She waited on a customer one day—a rawboned Australian—and when he bought heavily of the goods offered him, the titled shopkeeper said: "Thank you, my friend." The next day the man called at Lady Warwick's house and sent up his name. She did not recognise it and sent the servant to ask the stranger's business. "Tell her Ladyship," the Australian replied, "that it's her friend, Simmons." Still bewildered, her Ladyship, anxious to see for herself, asked that her friend be sent up, and she had a long fit of laughter when he explained to her that he had taken her at her word and had called as a friend. She treated him very nicely, as she does everybody, and she has lost nothing by her courtesy, for her friend Simmons died at Perth two years ago, leaving a couple of million pounds in gold mines in West Australia, and among other things he left £10,000 "to my friend the Countess of Warwick, who alone among the great people at home treated me with courtesy and kindness."

Earl of Onslow Retires.

It is announced that the Earl of Onslow, on his appointment as Chairman of Committees of the House of Lords, will retire from the Ministry, says The London Star, thus vacating the office of President of the Board of Agriculture, which he had occupied for nearly two years. His Lordship, who is in his fifty-second year, has had considerable experience in public life. For a brief period after 1887 he was Under Secretary of State for the Colonies, and subsequently became Parliamentary Secretary to the Board of Trade. From 1888 to 1893 he was Governor of New Zealand, and in 1895 was appointed Under Secretary for India, a post which he held until 1900, when he again became Under Secretary for the Colonies. From that office he was promoted to be President of the Board of Agriculture in succession to the late Mr. Hanbury. Lord Onslow is interesting to Londoners as the fighting leader for some years of the Moderate party on the London County Council. On the formation of the Council in 1895 he was elected an Alderman, and was Chairman of the Moderate members for three years.

SPINNING.

Like a blind spinner in the sun,
I tread my days;
I know that all the threads will run
Appointed ways;
I know each day will bring its task,
And, being blind, no time I ask.

I do not know the use or name
Of that I spin;
I only know that some one came
And laid within
My hand the thread and said, "Since you
Are blind, but one thing you can do."

Sometimes the threads so rough and fast
And tangled fly,
I know wild storms are sweeping past
And fear that I
Shall fall, but dare not try to find
A safer place, since I am blind.

I know not why, but I am sure
That tint and place
In some great fabric to endure
Past time and race
My threads will have, so from the first,
Though blind, I never felt accurst.

I think perhaps this trust has sprung
From one short word
Said over me when I was young—
So young I heard
It, knowing not that God's name signed
My brow and sealed me his, though blind.

But whether this be seal or sign,
Within, without,
It matters not. The bond divine
I never doubt.
I know he set me here, and still
And glad and blind I wait his will.

But listen, listen, day by day,
To hear their tread
Who bear the finished web away
And cut the thread
And bring God's message in the sun,
"Thou poor blind spinner, work is done."

—Helen Hunt Jackson.

THERE IS NOW A MASS OF PROOF

That Lumbago is Always cured by Dodd's Kidney Pills

Quebec Man Cured his Kidneys With Dodd's Kidney Pills, and his Lumbago Vanished.

Quebec P.Q., April 28.—(Special.)—John Ball a bricklayer, residing at 57 Little Champlain Street this city has added his statement to the great mass of proof, that Lumbago is caused by disordered Kidneys and consequently easily cured by Dodd's Kidney Pills. Mr. Ball says:—

"I was troubled with Lumbago for two years. I could not work. I had to get up at nights to urinate so often that my rest was broken. I read of cures by Dodd's Kidney Pills and made up my mind to try them. After the first box I could see and feel a change. Three boxes cured me completely."

Lumbago like Rheumatism, is caused by uric acid in the blood. Uric acid cannot stay in the blood if the Kidneys are working right. Dodd's Kidney Pills make the Kidneys work right.

Unique Distinction.

Mr. Henry Tollemache, M. P., addressing his Cheshire constituents at Malpas, says The London Star, observed that he shared the almost unique distinction of the late Sir Watkin Wynn of having been in the House of Commons for 24 years without making a speech. Mr. Tollemache, who has represented the Eddisbury division of Cheshire for 24 years, is one of the Unionist M.P.'s who will retire at the next general election. Parliament seems to have been a disappointment to him. He complained not long ago of the deterioration of Parliamentary manners. "It seems," he said, "that nowadays a member, to be really popular, ought to get himself named by the Speaker, and if he is only carried out by a policeman he can have a safe seat in many a constituency for life." Although he is over sixty, Mr. Tollemache was married in January last to Mrs. Streatfield, widow of the late Mr. T. H. C. Streatfield, and daughter of the Rev. Henry Arkwright, of Bodenham.

Practical Use of Music.

The London Chronicle says that the late Sir Arthur Sullivan wanted to direct Sir Alexander Mackenzie to a house of which he had forgotten the number; he said the doorscraper was B flat, and Sir Alexander kicked the scrapers in the street till he heard the note.

CURE SICK HEADACHE.

An opportunity for a young man to start business for himself

There are hundreds of young men throughout the country, who have mastered the details of merchandising, and are now dreaming of the time when they can be proprietors—many of them with a few hundred dollars laid by for the purpose.

Nearly every prosperous well rated merchant of to-day, made a beginning in a modest way.

At the very outset such young men as we have in mind—such as are capable, thoroughly in earnest, reliable, and have saved a little money, say enough to fit up a store and pay for part of their stock, can make a connection with our house, and in short order, they can be at the head of an establishment where men can be outfitted with the best of clothing.

The clothing business is an attractive proposition. It is a live one—always something doing.

We shall be pleased to correspond with men who have decided to make a start for themselves in some live town or city, and who can show some tangible evidence of an earnest effort in that direction, with a view to extending the sale of our "Male Attire" brand of high class tailored clothing.

We propose as part of our scheme to give free advertising and promotion.

The Male Attire Co., Montreal

MEMORIAL OF QUIN.

Sir Henry Irving Unveils Mural Tablet, Commemorative of the Once Famous Actor at Bath.

At the old English city of Bath, on Feb. 17, a mural tablet, commemorative of the once famous actor, James Quin, was publicly unveiled, with civic ceremonies, the Mayor of Bath presiding, and an address was delivered by Sir Henry Irving.

Sir Henry Irving, who was introduced by Mayor John and welcomed with cordial and long continued applause, unveiled the tablet and delivered the following address:

This monument, which I have the honor of unveiling to-day is fitly dedicated by the corporation of Bath to one of the most famous players of the eighteenth century. James Quin lived here for sixteen years after his retirement from the stage in 1751. For five and thirty years he had been an actor, and for more than half that period he held his own against all competitors until the advent of David Garrick, who reformed the affected attitudes and stilted style of declamation then in vogue. When he retired he was still in the vigor of his powers, and there can be little doubt that he would have remained to contest the supremacy of Garrick for some years more if he could have made his own terms with Manager Rich. After this Quin seldom appeared in London except to play Falstaff for the benefit of an old friend, and he discontinued that when he lost two of his front teeth, and wrote: "I will whistle Falstaff for no man." Falstaff was the part in which he had won the widest suffrages, and it had made the first great success of his career. There is a story that when he hinted his desire to play it to Rich, that oracle replied: "The character of Falstaff, young man, is quite another character from what you think; it is not a snivelling part that anyone can do. There is not a man among you that has any idea of the part but myself. No, never think of Falstaff—it is quite out of your walk, young man." But the young man was permitted to make the attempt, and he achieved at once a popularity which he never lost. In other Shakespearian parts he was not so welcome. Some critics thought him unqualified for tragedy; yet he played Addison's Cato with much success; and there is a tale which, I hope, is incredible that Cate's soliloquy was encored, and that Quin declaimed it all over again. Theatrical audiences in those days must have been more exacting when they were pleased than when they were angry. There was always a danger that they would tear up the benches, or that some of them would rush upon the stage, and deliver a general assault and battery. On one occasion, when Rich was attacked by a drunken nobleman, Quin saved his life by some vigorous sword play. The actor's vocation then was full of stirring variety. Quin was a man of the readiest wit, and he is said to have employed it successfully in telling stories to the audience to keep them from riots when the play was waiting for some royal personage who had forgotten the time. There are many anecdotes of Quin, and if they are not all authentic, none are dull. He taught elocution to Prince George, afterward George III. and when that monarch delivered his first speech from the throne, Quin, who was in the listening throng, exclaimed with pride: "I taught the boy to speak!" But Coleridge repeats a story of Kemble, who was invited by George III. to take snuff, and excused himself on the plea that it was not for an actor to dip into the royal snuff box. But the affable King insisted. "If you will take a pinch," said he, "I shall feel obleeged." Kemble took a pinch, but he said, "It would better become your royal mouth to say "obliged." What Quin, who taught the Royal boy to speak—what he would have said to that is an agreeable speculation. Horace Walpole tells us that Quin, when praised to play the Ghost in "Hamlet," a part he considered beneath him, would make no answer, but "I won't catch cold behind!" "The Ghost," says Walpole, "is always ridiculously dressed, with a morsel of armor before and only a black waistcoat and breech behind." "I am happy to assure you that, in this respect, the stage has made some progress since Quin's day. I have known a number of Ghosts and they were all clad in complete steel, and ran no more risk of catching cold behind than any one else in the play. Here in Bath then, Quin lived sixteen years; and it was reported by idle gossip that he sought to rival Beau Nash as director of fashion and public amusement. But we may picture him as a man who impressed himself on his contemporaries by force of character, and by a rather gruff independence, relieved by much natural kindliness. The story how he befriended James Thomsen, the poet, is a worthy illustration of that quality. He found Thomson in prison for a debt of £70. He ordered supper and claret and when the bottle was going around he said, with grim humor: "It is time we should balance accounts." The unfortunate poet, who was already alarmed at this burly visitor, took him for another creditor. "Mr. Thomson," said Quin—I can see him thoroughly enjoying the scene and stretching it out with those pauses for which he was noted on the stage—"Mr. Thompson, the pleasure—I had—in reading—your works—I cannot estimate—at less than —a hundred pounds—and I insist on now—acquitting the debt." And then he put down the money and walked out without another word. That was the heart of James Quin. I think we would rather dwell on that than on his undoubted fondness for good living, which is chronicled in satirical verse. He made a considerable figure in an age full of considerable figures; and it is most fitting that he should be ranked by this admirable monument among the famous men who are associated with the annals of Bath.

Library for Naturalists.

William Brodie, naturalist, is fitting up a reference library of the insect, fauna and a herbarium of 2,000 trays of the plants of Ontario at the Provincial Museum in Toronto. The butterflies, moths, winged and creeping insects, are arranged in cases which open like a book, and are being placed in a library. Each case is labelled with the order, family and generic name of the species. The upper and lower side of the insect is shown and an effort is made to secure the greatest range of species and the greatest variety in each in Canada.

Flat cases with glass tops are also being set up for exhibiting the insects to the general public, but the library is for the benefit of naturalists, who can see and examine any particular genera by a reference to the case in which the particular species is placed. About 500 cases are needed for the fauna of Ontario, and about 2,000 trays will be required for the herbarium. The herbarium is also for the use of students in botany, and tables will be arranged with glass cover in order that the species may be examined collectively.

Mr. Brodie is also arranging a collection of some twenty species of inter-glacial shells found in the vicinity of Toronto, and is preserving Provincial reptiles. One very rare reptile is a sub-species of the garter-snake (sistrus ordinata). This particular reptile was captured by Alfred Kay at Port Sidney Muskoka, last year, and is unlike any previously discovered species of garter-snake.

The Safer Investment.

J. Hampton Moore, the new chief of the U. S. bureau of manufactures of the department of commerce and labor, is slim, quick, bright-eyed and generally, has the appearance of a young man of elegance and leisure. He is, instead of that, a hard and successful worker, and in Philadelphia his advice upon financial matters is valued highly. A young woman one day said to Mr. Moore: "I have inherited $25,000. I hesitate whether to invest this money in Government bonds, which pay only 1 per cent., or in Zoza gold mine stocks, which pay 15 per cent. What do you advise me to do?" Mr. Moore smiled. "If you want to dine well," he said, "choose the gold mine investment. But choose the other if you want to sleep well."

FATHER JOHN BULL.

All English-Speaking Nations Are Members of the Family.

Comradeship and good-fellowship were in evidence at the recent banquet given by the R. C. F. A. sergeants, in the Tete du Pont Barracks, Kingston, Ontario, to the visiting sergeants of the 96th U. S. Infantry of Sackett's Harbor, N. Y. An address was presented by the visitors, in which they said:

"It is an honor to sit with you in a gathering which likley has never occurred before. Such a feeling of comradeship and good-fellowship never existed at any time as at the present between those in the British and American services. We call each other cousins, why not brothers? Are we not children of the same parent? True, the elder child got on his ear and set up in business for himself, and is doing pretty fair, but the other children have no cause to complain of their share in the old man's business.

Are We Not Brothers?

"Why not in this day of trust and consolidation in other lines of business extend it to the family business of Father John? Anyone that would try to prove this merger illegal would have a sorry countenance after he had been finished. If the elder child should get into trouble, does anyone doubt but that father and children all would come to his assistance? And does anyone think but that if the father or any of the other children needed any assistance the elder child would hesitate an instant? No. If not brothers, then what? First, our God; second, our country; third, our King and President; and then our family, the English-speaking nations."

HOW TO BUILD UP CANADA.

Drastic Rules Suggested by Prof. Goldwin Smith's Private Secretary.

I.—Put several politicians in jail and keep them there.

II.—Stop the eternal and infernal political wrangling and jangling, and get down to work.

III.—Educate Canadian boys and girls so as to fit them for life in Canada. Teach them to produce (to use Carlyle's pet phrase).

"There are 799,231,000 acres of forest land in Canada, but not one single, properly-equipped School of Forestry. And will anyone pretend to say that our agricultural colleges, our experimental farms, our engineering colleges, our mining schools, our biological, marine, or lacustrine laboratories, our technical schools, or our schools of science (all so necessary to our material development), are adequate to the needs of the country? What are our universities chiefly teaching? Why, Latin and Greek and Literature and Modern Languages and Philology and Theology—things that tempt men to leave their native land, not stay in it and develop it.

"I visited once, some years ago, a high school in a little Ontarian country town, situate in the midst of a great stretch of beautiful and fertile soil, all of it arable, much of it wooded, and bordering on a bountiful and navigable lake. Its head master told me, evidently with pride, that his upper classes were reading Plato's "Laches," and Tennyson's, "The Princess: a Medley." Some day, perhaps, some one will have the sense to substitute for Plato and Tennyson, tuition in intensive farming, scientific dairying, stock-raising, horse-breeding, poultry-keeping, fruit-growing and preserving, bee-keeping, pisciculture and fish-curing, and forest-conservation. I should think the sooner that day came the better.

IV.—Build up the Empire of which Canada is an integral part, by furthering its interests, sharing its responsibilities, and contributing to its defence.

V.—Buy, whenever feasible, the necessaries of life from Canadian manufacturers, and boycott, whenever possible, everything made outside the Empire—that would put a stop to a lot of tariff talk.

VI.—Tempt British capital to invest in Canada, and good British emigrants to settle here.

VII.—Believe in the country, work for it and in it—and don't talk about it.—Arnold Haultain, in Canada First.

PHILANTHROPY HIS HOBBY.

Sir William Macdonald's Latest Gift of $4,000,000 to Education.

Sir William Macdonald, the millionaire tobacco manufacturer of Montreal, is a philanthropist of which any country would be proud. His latest gift to education amounts to about $4,000,000, and yet little is known of it.

The bulk of the money will go to the establishing of two great colleges, one an agricultural college, and the other a teachers' college, or Normal school, each a manifestation of the same general idea. The colleges will be practically one institution, although one will probably be under the Agricultural Department and the other under the Education Department of the Quebec Government. They will be built close together at St. Anne de Bellevue, where no fewer than six farms have been bought for the purpose. One of these has been famous for many years as the Reford Ayrshire Stock Farm.

In addition to the main structures there will be residences for male and female students. The group of buildings will stand in a fifty-acre field sloping toward the river, and Sir William has given instructions that they shall be of the very best material obtainable. Brick and stone, steel, concrete, and tiles will be used, and already the gangs for the foundations has been laid on the ground. By October it is expected the colleges will be ready to begin the work which is certain to have such an important effect on the educational future of the Province of Quebec.

Saw Many Sovereigns.

There died at Mimico the other day Mrs. William Burgess, at the ripe old age of ninety-five. The deceased lady was born at Eton, England, in 1810, and in her youth was employed as a domestic in the famous Eton College. She had a clear recollection of the sovereigns of England, since George the Third, and remembered having seen George the Third, George the Fourth, William the Fourth, Queen Victoria, and the present King when he was Prince of Wales, and on one occasion had helped to push the late Queen's chair in the park at Windsor. Her brother, the late John Cannon, died in Queen Victoria's personal service. Mrs. Burgess was full of interesting reminiscences. She was married in 1838, and came to Toronto in 1854, and to Mimico in 1861, where she thereafter resided.

ALL RUN DOWN

Weak---Nervous---Unstrung.

Thousands get run down and become invalids before they realize anything is wrong. By permitting low vitality to develop, the way is paved for fevers, pneumonia and diphtheria. To put off makes it all the harder to get well. The time to repair the system is right now, before the damage gets any worse. The remedy is Ferrozone; it revitalizes, renews, builds up vitality that outlasts old age.

FERROZONE is a genuine invigorator that banishes weakness, and instils surplus force and vigor into every organ of the body. Ferrozone sharpens the appetite, produces rich nutritious blood, and thereby contributes that sense of buoyancy that adds so enormously to one's pleasure and usefulness in life.

For all forms of debility, weakness, lack of blood or nerve tone, sleeplessness, tiredness and exhaustion, there is no medicine so vitalizing and potent as Ferrozone. Even one trial demonstrates its rapidly and certainty of action.

To restore the energy of youth, to get back your vital stamina and reserve force, there is positively no treatment so certain as Ferrozone. You have only to try Ferrozone to know the enormous benefit it invariably brings to all in poor health.

FERROZONE

Miss Dorothy E. Leduc of Chester gives the following convincing evidence of Ferrozone's power:—"My work compels me to rise early in the morning and work ten hours daily as a saleslady. Last Spring I was run down, lost my color, and fell off in weight. I seemed to lack ambition and the life was out of me. A friend recommended Ferrozone, and I took one tablet after meals with wonderful results. Ferrozone brought back my complexion, and has given me new strength and abundance of energy and spirits. I would advise all young ladies to use Ferrozone."

Mrs. H. G. Wilder of Dexter says:—"My daughter was not very well last Winter, and lost her strength completely when the Spring came. I gave her Ferrozone, and am glad to say it did wonders. After six boxes were used my daughter was strong, and looked the picture of health."

Gave New Strength

FERROZONE

It makes the weak strong, the sick well, and assures lasting good health.

WARNING—Beware of any substitute for Ferrozone; it alone can cure you. Sold by all druggists and dealers in medicine, only in 50c boxes containing 60 chocolate-coated tablets. By mail to any address if price is forwarded to N. C. Polson & Co., Kingston, Ont., or Marshall, Cass., U.S.A.

Gin Pills

Cure that Pain in the Back

That sharp shooting pain—that dull, steady ache—means something wrong with the kidneys. Pain is nature's danger signal. Where there is pain in the back or through the hips, there is an unnatural condition, or disease of the kidneys.

GIN PILLS cure that pain in the back, by curing the kidneys.

They neutralize the acid urine—stop uric acid from poisoning the blood and inflaming the nerves—soothe and quiet the pain—make urination natural and regular—sharpen the appetite—make one sleep sound—build up the whole system.

GIN PILLS have saved hundreds from chronic kidney trouble and dreaded Bright's Disease.

If you have any kidney trouble, or suspect that the kidneys are not doing their work properly—and especially if you suffer with pain in the back—don't hesitate to get GIN PILS. They cure or your money back.

At all dealers, 50c a box, or 6 for $2.50.

SEND POST CARD FOR FREE SAMPLE BOX.

Corticelli SPOOL SILK

For dressmaking and family sewing Corticelli Silk is the best silk made. For hand or machine use it has no equal. Corticelli Silk runs smoothly in the needle; it is always even in size and always full length and full strength. Ask your dealer for "Corticelli," and refuse all substitutes.

Corticelli Wash Silks.....

are put up in patent holders, which prevents waste by tangles or soiling; keeps each shade separate, and automatically measures a correct needleful. Recommended as the only proper way to put up filo and floss silks, and used by art societies everywhere.

Corticelli SKIRT PROTECTOR

is of firm and even texture. When soiled, a sponge or brush makes it clean again, and no damage done. It has peculiar wearing qualities and perfectly straight selvage. For sale everywhere.

MINES OF WEALTH.

Interesting Statistics of the Ontario Fisheries Catch of 1904.

Statistics of importance as showing the growth of the fishing industry of the Province have been issued by Mr. S. T. Bastedo, Deputy Commissioner of Fisheries for Ontario.

During 1904 the total catch of fish of all kinds was 26,009,970 pounds, an increase over 1903 of 3,030,295 lbs. The estimated value of the catch was $1,792,229. All the varieties show an increase except sturgeon, catfish and tullibe. The decrease in the sturgeon catch was 9,060 lbs., in catfish 181,000 lbs., and in tullibe 16,450.

Of the finer varieties herring showed an increase of 1,164,450 lbs., whitefish 841,520 lbs., lake trout, 488,12 lbs., pike, 236,275 lbs.

The appliances used in this industry include 128 tugs worth $312,512, employing 673 men; and 1,477 boats, valued at $105,747, employing 2,453 men; 3,490,038 yards of gill nets were used, 108 seines, 513 pound nets, 275 hoop nets, 75 dip nets, and 3 machines, which were licensed by the Department and valued at $931,097. The fry distributed in Provincial water by the Dominion Hatcheries numbered only 77,359,000. In 1903 the total was 92,701,000.

The finest fishing waters in the Province are found in the North Channel of Lake Huron, where, in 1904, 4,343,225 lbs. of fish were taken. The catch of trout and whitefish in the North Channel exceeded that of any other provincial waters. Of the former there was taken 2,101,050 lbs., of the latter 1,532,200 lbs.

Lake Erie has the distinction of producing the largest quantity of herring—2,644,300 lbs., or 62 per cent. of the total catch of the Province. Other varieties caught in Lake Erie also show an increase, except sturgeon and coarse fish. A similar condition exists in Lake Nipissing.

The revenue from all sources received by the Department was $50,000, and the expenses $34,315.17, leaving a surplus of $13,531.83. The maintenance of the steamer Gilpbey, on Georgian Bay, costs $6,500.

IAN MACLAREN'S DICTUM.

The Physically Unsound Should Not Marry, Says Author of "The Bonnie Brier Bush."

No person who is not absolutely sound should be permitted to marry.

I do not mean that a merely delicate person should not marry, because many such people are constitutionally sound and quite entitled to marry, provided they are, in an insurance sense, first class lives. The reason I recommend a man before marrying to obtain the certificate of a good insurance company is because in that way he gets the benefit of an unprejudiced and independent examination.

Insurance companies don't examine merely for the man's own benefit, but for the protection of their funds. A certificate of health given after a severe and unbiased test would justify marriage.

I hope the time will come when the State will not sanction marriage unless men and women can qualify for such a health certificate.

I am not alluding merely to physique in an athletic sense when speaking of apparently healthy people, but to physical and mental soundness in the strictest medical sense. You may see at any time men six feet high, with broad and well built chests, walking about the streets who are nevertheless unsound from an insurance point of view and therefore from a marriageable standpoint.—Ian Maclaren.

Has Distinguished Career.

Lord Grenfell, Commander of the forces in Ireland, who recently unveiled a memorial in St. Patrick's Cathedral in honor of the officers and men of the 5th Royal Irish Lancers killed in the South African war, has a most distinguished career to look back upon, says The London Chronicle. He has been through campaigns innumerable, and was specially thanked by both Houses of Parliament for his services when in command of the army of occupation in Egypt in 1897-1898. One of the most exciting moments of his life occurred during the Galekaland war, when, accompanied only by an orderly, he rode straight into the enemies' camp, which he had mistaken for the British force. Fortunately the Galekas had not time to realize the presence of their visitors before Lord Grenfell discovered his mistake, and, with his companion, galloped away into the distance. Although a large portion of his life has been spent in the saddle, the commander of the Irish forces is a very ardent cyclist. His grandmother is celebrated as being the only lady Freemason; she was Miss Georgina St Leger, a daughter of the first Lord Doneraile, and a member of one of the oldest Irish families.

KELPION

A PERFECT HOME REMEDY.

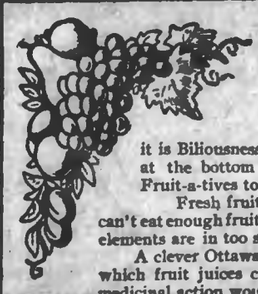
Sold by Druggists, 25c. Try it Once



Headaches

When the Head aches and the Tongue is Coated

it is Biliousness or Constipation. Torpid Liver is at the bottom of the trouble. And it takes Fruit-a-tives to make that lazy liver work.

Fresh fruit is fine for these troubles, but one can't eat enough fruit to do much good. The medicinal elements are in too small proportion in the ripe fruits.

A clever Ottawa physician discovered a method by which fruit juices could be combined so that their medicinal action would be increased many times.

Fruit-a-tives are these fruit juices in tablet form. They sweeten and tone the stomach and liver, cure Constipation and remove all blood impurities. One Fruit-a-tives tablet has the same curative effect on liver and bowels as dozens of oranges, apples, figs and prunes. And this action is as gentle as the fruit juices themselves.

"I have been suffering with Torpid Liver and Constipation, and find that Fruit-a-tives are just what my system requires to relieve these complaints. I hope many more sufferers will try them."

MRS. WM. TREFFRY, Burnside, Man.

Fruit-a-tives

or Fruit Liver Tablets.

50c. a box. At all druggists. Manufactured by Fruit-a-tives Limited, Ottawa.

EMIGRANT CONTRASTS.

ENGLAND IS NOT SENDING THE FLOWER OF HER STOCK.

New-Comers Compare Badly With Scandinavians, Although Some Are Outstanding Instances of Moral and Physical Courage — London Newspaper Man Comes Out in the Steerage and Writs His Impressions.

The London Standard has recently sent a member of its staff to Canada as an emigrant, to travel in the steerage and to describe the actual experiences of a new arrival in this country who is dependent upon finding work and taking advantage of that which first comes to his hand. In a letter descriptive of his experiences in the steerage on S. S. Lake Manitoba from Liverpool to St. John, N. B., he makes the following comment upon the character of the tide of humanity which is now in full sweep to the Dominion:

"There were 642 of us, of these 82 were children and 11 infants in arms. There were about a hundred foreigners amongst us, the majority of them Norwegians. I detected only five Jews. Two of them were women, from Poland. Another Jew was a youth who had escaped from military service in Russia, and the remaining two were East London Jews a generation removed from the alien 'greener' stage, and very aggressive and objectionable specimens of humanity they were—noisy, foul-tongued, 'hoodlumites' of whom London was well rid. The deserter was an intelligent man, who defended his escape with much force. Russia was not his Fatherland. He was a Jew. He had no ill-will towards the Japanese. Why should he, a Jew, fight the Japanese because the Christian of Russia had got into a quarrel with them? What had Christian Russia done for him and his like? Thus ran the argument.

Praise for the Scandinavians.

"The Danes, Norwegians and Swedes were as strong and wholesome a collection of men and women as could be got together from one end of Europe to the other. They were nearly all of the peasant class. Many of them were fisher-folk. Every one of them—women as well as men—were broad-shouldered, broad-hipped, well set-up. The majority were under thirty. They bore the impress of vigorous health, and their children were the sturdiest little rascals aboard. They knew no English, and their own languages were as a sealed book to me; but from one of the Norwegian women who had picked up a little English from the sailors of the seaport from which she had come, I gathered, with the aid of a map, that most of them were looking to the fishing industries of the Canadian lakes as a means of support. The Danes, for the most part, were going as farm laborers for other Danish settlers. So were the Swedes.

"Altogether, they were a set of people likely to be a valuable acquisition to the sparsely-peopled parts of Canada. What impressed me most strongly about them, apart from their fine physique and the cheeriness with which, by song and dance, they bore the unavoidable discomforts of the voyage, was the durability and serviceability of their clothing. The men were in leather top boots, turned up at the toes—snow and water-proof boots, made, I should judge, in their own villages, the leather of the best and well tanned, and the stitching done throughout by hand. The suits of the men were of stout cloth, thick and warm, but light. You can feel no cloth like it in any London tailors I know of.

"The cloth of sheepskin overcoats were windproof and rainproof. Finer protection against a rigorous climate could not have been devised. Most of the outfits were new, or almost so. All the men wore sheepskin or woollen caps, doubled half way up so that they could be turned down over the ears.

"The women were—to the outward view—equally well dressed. Their shortened skirts were of stout cloth something like the warm 'linseys' that used to be worn in the villages of England in the sixties and seventies, bodices of equal warmth, thick cloth jackets, and homemade woollen shawls. Neither in point of clothing nor in cleanliness—and certainly not in point of size and physical vigor—were the Englishwomen the equal of the Scandinavians. The reason, I suppose, is that the latter were village folk, and the Englishwomen, for the most part, were from the mean streets of the towns.

The Others "a Fair Average Lot."

"With regard to our own people, the men were a fair average lot. Few of us were over forty. Several were ex-army men. There was a percentage of 'hoodlums'—not more than a score, perhaps. The rest, with one or two exceptions, were men of the genuine working classes, accustomed to physical labor. But town men predominated.

"When I first saw them huddled together on the foredeck of the Lake Manitoba in the Liverpool docks my mind went back to the latest official volume in which their social history is written—the Report of the Physical Deterioration Committee. In comparison with the sturdy Scandinavians they looked shrunken with the cold, half-starved, ill-clad, deficient in physical strength, weedy and lacking manliness of bearing.

"I am, of course, generalising with some freedom. There were men as hardy as can be found anywhere outside the poor of the great cities of England. But what impressed me was that it was not the flower of English manhood which was going to Canada—this trip, at all events. What was the explanation? I believe it to lie in the fact that many of the men about me had undergone a severe spell of privation. They had been insufficiently fed, probably for many weeks; they were inadequately clothed.

"As for the women, they were, with a few exceptions, a poor lot—poor in physique, ill-clothed, more or less incapable in the management of their children, sharp-tongued, querulous, and fearful. A few of the younger ones were in cheap colored finery, with hats and blouses and ribbons that might have done duty in England on a fine day in September, but were useless for an Atlantic voyage in mid-winter.

"Not all the women, of course, were badly clad, and not all the children. As an example of motherly competence and care I will cite the case of a middle-aged woman, the wife of a Jersey ex-seaman, who was traveling with her husband and four boys, ranging in ages from five to thirteen. His wages ashore had not averaged £1 a week; yet she and her husband and little sons were abundantly and neatly clad, and had, indeed, reserve stores of winter clothing. She was a woman of the old school, and her sons were little gentlemen, in behavior as in appearance. She and her husband were going to Canada partly because they were a little wearied with the struggle for a bare subsistence in England, but chiefly in order that their children should have a better chance in life than they could possibly get in the old country. This is the sort of emigrant family the Dominion needs—and the kind England can ill afford to lose.

Some Good Exceptions.

"There were instances of superb courage amongst us. One man was taking out his wife and twelve children, the youngest a baby under two, and the eldest a girl of seventeen. He had been a soldier, and had fought in Egypt and India. His pension, if I remember rightly, was 1s 3d a day. Since leaving the army he had earned a living as a timekeeper in Yorkshire, But the firm went into liquidation, and since then the luck had been against him in getting permanent employment. Having had no work for seventeen weeks, he had exhausted his savings. Seeing no prospect of work in England, and his pension being insufficient to keep his family alive, he had sold up his home, and was landing in Canada with £2 cash—and a family of twelve, to whom only two would be able to support themselves! He had a letter of introduction, but no work to go to. He showed me his discharge and testimonials. He was a splendid fellow, of fine moral courage.

"Another man was taking out a family of ten children, another of seven, another of six, another of five, and each of these men had been out of work for weeks and weeks. They were bona fide workingmen—men of self-evident character, who were leaving England for the sole reason that England did not yield them work outside the prison or the poorhouse.

"Several men had left their wives and families behind them in England, having got the passage money somehow. How these wives and families will live if the men fail to get—or to remit—money for their support is a question that must be answered by private or public charity. Of the single men, the majority had left the country solely because they had fallen out of work and could not get other employment.

"One typical case was that of a bricklayer—a young trade unionist, earning, when he could get it, 10 1-2d per hour in London. He told me there were 8,000 bricklayers on the out-of-work books of his society. Year in and year out his wages averaged, he said, about 28s per week. He had earned nothing for six weeks, and he had 'chucked it' in disgust at the poor prospect his trade offered him in London. He was an intelligent and well-educated man, who had studied the higher mysteries of his calling at the Polytechnic. But I might cite case after case. The burden of all would be the lack of work in England, the impossibility of earning a subsistence there. That was the main factor in filling the steerage of the Lake Manitoba."

A Romance of the Backwoods.

A strange story of the pathetic death of an eccentric recluse, who lived in a rude hut of his own construction in the backwoods of Victoria County, N. S., and who is believed to have amassed wealth, the bulk of which is said to be hidden, comes from Black Brook, near Ingonish.

Eighty-three years ago James Roper, familiarly known as "Black Jim," was born at Ingonish. He had but a limited education, and always remained a bachelor. He is said to have made much money as a trapper, at which he was an adept. Some 35 years ago, for reasons unknown to all, he left kith and kin, built himself a rude hut in the deepest woods between Cape North and Ingonish, and since then had never visited his fellowmen except when compelled to do so by necessity. His wealth was kept in secret hiding places in the woods, and is said to have been as much as $20,000.

This winter he was far from well, and a few weeks ago must have become worse, for about a fortnight ago a trapper, passing by the hut, ventured in and found the old man lying on a rude bed made of boughs and covered with skins, sick until death. There he had lain for eight weary days without food, light or heat.

Word was sent to his relatives at Ingonish, and he was induced to allow himself to be removed to the home of his nephew, but his sturdy frame had been completely shattered, and, in spite of loving care, he passed away leaving a will bequeathing his nephew $1,200. Since then, however, a rough plan has been found in his hut, which is thought to be the key to the abiding place of the rest of his hoarded wealth.

Pinning Off Onion Smart.

"I have been putting up preserves and pickles for thirty years," said a Brooklyn housewife of the old school, "and I discovered the other day that I am not too old to learn something new. I went to New Jersey to see my son's young wife, an Iowa girl. She was putting up onions, a decidedly disagreeable task. But her eyes were not watery. They were as clear as the sky. She simply nodded and muttered something between closed teeth.

"'What in the world are you keeping that pin between your teeth for?' I asked.

"She removed it long enough to say: 'To keep the onions from hurting my eyes. I'll be through in a minute.'

"'Do you mean to say that will do it?' I asked incredulously.

"She nodded. The pin was in its place again. She kept it there for ten minutes while I watched her work, and her eyes were as dry as walnut."—New York Press.

A Joking Bishop.

The Bishop of Llandaff is fond of the concoction of conundrums, with which, when a country parson in Pembrokeshire, he loved to bewilder the grave historian, Thirlwall. The story goes that not long ago Bishop Lewis concluded a clerical meeting by asking his flock, "If it takes your bishop a week to eat a ham, how long would it take him to eat a hammer?" and made a diplomatic departure to meet his train. When the company had given up the problem they wired to Llandaff for the solution, and received the maddening reply, "I don't know; I've never tried."

We advise everybody to use Sunlight Soap—
It makes child's play of work.

SUNLIGHT SOAP

We have used "Sunlight Soap," and we want to tell you that it is the best soap made, that's why we are writing. We found out that the Sunlight way is the best way to wash with "Sunlight Soap." At first we used to wash with Sunlight Soap in the old way as we did with common soap, but after we washed according to directions printed on the package, we would never wash the old way again. We first soap the articles, leave them to soak and then rub out lightly on the wash board. Not much to do and it makes the clothes white as snow.

ASK FOR THE OCTAGON BAR

Sunlight Soap washes the clothes white and won't injure the hands.

LEVER BROTHERS LIMITED, TORONTO. 10s

POLITENESS WITH DISCRETION

An Older Woman's Comment on Young People's Manners.

Politeness should be tempered with discretion; otherwise it is apt to be a bore, remarked an older woman, commenting on what was considered good manners among young people, says The London Star. Too much manners is almost as bad as no manners at all, she continued. That is to say, it is even more annoying. For instance, if I go into a room where several friends of my daughter are sitting chatting, I think it is but right and proper that they should rise to their feet as I come in, and give me a greeting, but that is enough. To have them bob up every time I leave my chair irritates me. I like to move about as I like, without feeling that I am stopping the conversation and interfering with their pleasure.

Treating a middle-aged woman with too much solicitude is also, I consider, untactful. It emphasizes her age. I do not like to have my places found for me in the hymn book, or to be helped carefully into a carriage. Attention to an older woman must be unobtrusive to be agreeable. There is a tendency nowadays to overdo polite observance with girls who pride themselves upon their good manners, which, if they only could realize it, do not please, for the reason that they are too effusive.

"How about Violet W.?" queried a young woman, who, with her mother, was making up a list for a house party.

"Oh, pray, do not ask that girl," exclaimed the latter. "She bores me to death. She is always following me about to wait upon me, as if I were an old, feeble woman, that had to be tenderly taken care of. I almost prefer that rough, boyish Miss C——, who has no manners at all."

DISEASE THAT WORKS OVERTIME

Dyspepsia once Started Never Quits till Stopped—Dodd's Dyspepsia Tablets the one Sure Cure.

Some diseases have peculiar seasons in which to do their deadly work, but there is one which works all the time and over-time at that. It is almost needless to say that that disease is indigestion or dyspepsia.

Once started dyspepsia never quits till it is stopped and there is only one sure way to stop it and that is by using Dodd's Dyspepsia Tablets.

There is abundant proof that Dodd's Dyspepsia Tablets always stop Dyspepsia. Thousands of Canadians speak as does Mrs. John F. Sellars, of Western Bay, Newfoundland. She says:

"I gives me great pleasure to say I have been cured of dyspepsia by the I have been cured of dyspepsia by the use of Dodd's Dyspepsia Tablets. I suffered for seven years. I could not eat without suffering intense agony and had been given up to die before using the Tablets. I felt relief from the first and after the use of five boxes am well and strong."

Lakes Getting Deeper.

Shipowners are puzzled over the cause of the phenomenal rise in the levels of the great lakes in the last ten years, and are at a loss to explain it. Every foot of added draught for their ships means the addition of thousands of dollars in their freight earning capacity, and as a natural result they are pleased.

These figures show the rise in lake levels during the last ten years, the number of feet being the height above mean sea level:—

	1895	1904.
Lake Superior	602 1-6	602 1-4
Lakes Huron and Michigan	580 1-6	581 2-3
Lake Erie	571 1-2	572 1-4
Lake Ontario	246	248

In each case the comparison is taken at the high-water mark for the year.

Quick Work of Crematory Plant.

"The time will come when dead bodies will be cremated in Toronto," said City Engineer Rust, to a reporter the other day.

Mr. Rust stated that he had just received a letter from a French firm offering to sell a crematory plant for this purpose to the city.

They said in the communication that they had disposed of a plant to the city of Leeds, England, and mentioned as a proof of its success that a human body which had been place in it in an ice-cold condition at 3 p. m. had been converted into white ashes by 6 p. m., and 6,050 feet of gas was required for the cremation.

Clydesdales to Canada.

London, April 26.—(C. A. P.)—In a large draft of Clydesdale horses for Canada being shipped at Glasgow yesterday are included nine well-bred fillies from Aberdeenshire, for which big prices have been paid.

FOR TWENTY YEARS

Mrs. C. H. Burkholder, Norwich, Ont., tells us that she feels like a new person, and Why? Because during all that time she suffered with Kidney trouble, and not until she found "Bu-Ju" could she get relief.

"Bu-Ju" Kidney Pills are the infallible remedy for Kidney trouble of all descriptions. They are easily obtainable; all druggists sell them; and they are guaranteed to do their work.

Mrs. Burkholder writes as follows:

Norwich, Ont., May 18, 1904.

Claflin Chemical Co., Windsor, Ont.:

Gentlemen,—I have had Kidney trouble for twenty years, and tried any number of remedies with very little relief. I believe "Bu-Ju" will cure me, as I feel like a new person. I cannot praise them too much.

Yours truly,

MRS. C. H. BURKHOLDER.

THE U. E. LOYALISTS.

Chancellor Burwash Traces Growth of Institutions in Ontario.

At the annual meeting of the United Empire Loyalists of Ontario Chancellor Burwash traced the splendid influence of the sturdy characters and wise statesmanship to the pioneer settlers in this Province upon our modern institutions and national life. The fact that the history of any country lies in germ very largely in the manner of life of its first settlers was, he showed clearly applicable to the history of Ontario.

After briefly referring to the great difficulties confronting the U. E. L. settlers in building up new homes and a system of central Government, practically unassisted by any generous outside help such as the new settlers in the Canadian West now have, the Chancellor noted that the early settlers in Upper Canada brought with them the piety and religious organisations of their old home. Their first clergymen were chosen from their own ranks, and by the beginning of the nineteenth century had been laid permanently the foundations of the present Anglican, Methodist, Baptist and Presbyterian Churches in Ontario They were strong and heroic men who well understood the value of religion as the great fundamental basis of true civilization.

Education and Politics.

So, too, in education they had early established their own schools by private enterprise, and in these little pioneer schools were trained the men who in the next generation became the leaders in professional and business and political life. Dr. Egerton Ryerson who gave to Ontario its present school system, was himself trained in a U.E.L. school, and he preserved to us the characteristics of the first quarter century of education in Ontario. Dr. Burwash also noted that the present endowment of the Provincial University, worth now some $4,000,000, is the result of the prescience of the men who in 1798 set aside 500,000 acres of land as an endowment for education in this Province.

The modern political system and method of responsible Government was, he said, largely a development of the two political forces working among the U. E. Loyalists a century ago. On the one hand, there were those who came from Virginia and the Southern States and who stood for the centralizing of authority; on the other hand, there were the settlers from Puritan New England, who stood for democracy. These two forces had been united and harmonized, so that now we had a unique system of Government, marked by the truest form of democracy combined with proper respect for the law and the dignity of the central authority.

"Some day," he said in conclusion, "a Canadian poet will worthily celebrate the story of these strong and noble men, and a great novelist will find in their annals the material for a most thrilling romance."

Canada Will Control Paper Market.

"Canada is sure to take a leading place as a producer of forest products," said Dr. Judson F. Clarke, Provincial forester, in a lecture in the chemical building of the University of Toronto recently.

"She has woodland areas so vast as to almost stagger the imagination. She is most admirably situated as regards the greatest future market for timber—the Mississippi Valley. Her forests are chiefly coniferous, hence the most easily managed and having the highest producing capacity. Her spruce thirty or forty years hence will practically control the paper market of the world. In the past, however, our forest management, with the exception of somewhat better protection from fire and its the retaining of the fee simple of the land in the State, has not differed materially from the forest management that has devastated the forests of the United States, and which has begun the story of the man-made desert in our own north country. Recently a tremendous step in advance was taken in the adoption of the policy of placing the non-agricultural lands in forest reserves. The next and only logical step is to train men in practical forest management, that these reserves may be perpetuated by wise use. In other words, to train practical foresters for care and management of the public forest domain.

"There is no reason why, under rational forest management the present revenue from our forest lands should not be increased many fold, not only without injury but with actual benefit to the forest."

Canada's Last Federal Vote.

The receipt of the detailed figures of the vote at the Federal election in the Yukon makes possible a compilation of the total vote at the Federal elections. It was 1,024,674, divided as follows:

	Lib.	Con.	Ind.
Ontario	215,532	221,923	2,052
Quebec	146,513	110,268	500
New Brunswick	37,302	25,501	138
Nova Scotia ..	54,672	46,293	2,479
P. E. Island...	14,441	14,986	....
Manitoba	23,413	21,709	1,293
N. W. T.	27,173	19,347	136
Brit. Columbia.	12,450	9,774	2,953

DUNLOP COMFORT RUBBER HEELS

Give a Spring to the step down to the last point of wear — and wear longer than the most solid of leather heels.

THIS MARK ON EVERY PAIR.

K&K K&K K&K K&K K&K K&K

THE OLD FOGY DOCTOR.

FAMILY Doctors are all right as general practitioners, but they are not specialists. The sexual organs comprise the most intricate and important system in the human body and require the most skilful treatment. You might as well expect a blacksmith to repair your watch, as a family physician to cure sexual complaints. We have made a specialty of these diseases for over 25 years, have invested tens of thousands of dollars and have every facility known to medical science to cure them. Every case is taken with a positive guarantee of No Cure—No Pay.

BLOOD POISON—Whether inherited or acquired, is positively cured forever. The virus is eliminated from the system so no danger of return. Hundreds of cases cured by us 25 years ago and no return; best evidence of a cure.

NERVOUS DEBILITY—and other complications, such as emissions, drains in the urine, varicocele, sexual weakness, etc., are cured by our New Method Treatment under a positive guarantee—NO CURE—NO PAY.

WE CURE ALL DISEASES OF MEN AND WOMEN.

Consultation Free. Books Free. Write for question blank for private Home Treatment. Everything confidential.

Some Good People

still follow antiquated methods of raising cake, biscuit, bread and pastry with home-made mixtures of what they suppose to be cream of tartar and soda.

They do not know that these articles as now sold in the groceries are almost anything else but cream of tartar and soda.

The best housekeepers use the Royal Baking Powder instead. Its scientific composition insures uniform results. Only by its use can the finest flavored, most wholesome cake, biscuit and pastry be produced. To any housekeeper who has not used the Royal Baking Powder we would like to send our Cook Book, free. Mark your request "For instruction."

ROYAL BAKING POWDER CO., NEW YORK.

WORSE THAN RUSSIA.

A Friend of Tolstoi Testifies That This Is So of England—A Victim of Tyranny.

"It is not a whit better in England," declared Count Tolstoi, comparing in a recent interview the conditions of life in Russia with those in this country, says The London Daily Mail.

"Why," exclaimed the famous novelist-philosopher, "my friend Tchertkoff, who lives outside the Town of Christchurch, is compelled to pay a tax for the maintenance of a band which plays inside the town, and which he himself would much rather never hear at all."

The Russian victim of British bureaucracy thus referred to is M. Vladimir Tchertkoff, who seven years ago was banished from the liberty-rejoicing country of the Czar, and now resides in a handsome house, surrounded by picturesque grounds near the quaint and pretty Town of Christchurch. Unfortunately, the band towards the upkeep of which M. Tchertkoff has to contribute compulsorily, performs at Bournemouth—a pleasant walk of about five miles from the Russian's house. When visited by a representative of The Daily Mail, M. Tchertkoff did not manifest excessive resentment against this tyrannical treatment of English-governing authorities. Time, indeed, has begotten a cheerful resignation to his fate; and the collector of the band rate no longer calls in vain.

M. Tchertkoff has suffered perhaps even greater hardships than this at the hands of the bureaucrats of his own country. When the Doukhobors, a Russian sect, originally numbering 13,000, refused to serve in the army because their religion forbade the shedding of blood, their lands were confiscated, their homes destroyed, and the people themselves scattered in starving groups throughout the barren plains of the country. Hundreds died of hunger. M. Tchertkoff, who was then an officer in the Imperial Guards, interested himself on behalf of these ill-treated peasants. He took a prominent part in bringing about the emigration of 7,000 Doukhobors to Canada.

In this and other ways, M. Tchertkoff made himself disagreeable to Russian bureaucracy, and he was banished. Nor when he believed Leo Tolstoi was on the point of death would they allow him to visit his friend. M. Tchertkoff has done much to make the great Russian novelist understood and appreciated in this country; it is but a small return for these services that Count Tolstoi should take an opportunity to point out how a strange country is treating his exiled friend by making him pay for a land he cannot hold.

In more important respects it would appear that the much vaunted freedom of England is not the real thing that a misguided people has imagine it to be for some centuries. Such a pronouncement from a victim of Russian oppression will no doubt be adjudged distinctly exhilarating.

"And yet," observed M. Tchertkoff, "I do not find in general that the state of England is very much better than the state of Russia. There is the same combination of oppressors and exploiters on the one hand, and the oppressed and exploited on the other. The laws in this country, as in Russia, protect the wealth of one man while allowing another to die of hunger.

"Indeed, I believe there is a disadvantage in a Government like that of England in comparison with a state of crude autocracy, such as exists in Russia. Whereas in Russia the evils produced by the Government are self-evident, and the Government are opposed by people enlightened in the least degree, in England, on the contrary, while the Government supports and encourages the same evils, they are not so obvious, and consequently not combated by the people. There is a kind of a show of justice.

"In Russia the evil is wrought with bare hands; in England, with kid gloves. Therefore, there is less hope of the evil being recognised and dealt with."

M. Tchertkoff instanced the unemployed and slum life as examples of these evils. Another was the exploitation of our colonies and dependencies by British commerce. "Thousands of natives in India hunger," he declared, "because the food they produce is exported to the United Kingdom."

"One great illusion," added the Russian exile, "is that England is self-governed. This is not the case at all. Members of the House of Commons are not the representatives of the people, but of the moneyed classes. The voting of workpeople is influenced by their employers. A man cannot venture to become a Parliamentary candidate unless he is prepared to spend several thousands of pounds on his election.

"The favorable impression at first made upon a Russian who comes to reside in England is not maintained when the foundations of things are examined."

In matters of detail, so it would appear from M. Tchertkoff, "more liberty of action and choice is afforded in Russia than in England. For instance, English people are afraid to shock their neighbors by manifesting any little originality in dress, and I find doctors who are atheists attending places of worship in order to keep their practice.

"In fashionable circles in St. Petersburg the interests, especially of the women, take a more serious form than their prototypes in the west end of London. I would affirm, in fact, that women in Russian high society are more cultured than women of like position in England. For example, these intelligent, fashionable ladies in St. Petersburg do not, and could not read the 'trashy,' superficial literature devoured in the drawing-rooms of London."

As a parting shot, M. Tchertkoff declared that "religion in the English fashionable world is a mere matter of etiquette."

"AN EXCELLENT FOOD, admirably adapted to the Wants of Infants."

SIR CHAS. A. CAMERON, C.B., M.D., Professor of Chemistry, R.C.S.I., Ex-President of the Royal College of Surgeons, Ireland.

SWANS LONG LIVED.

Are Stated to Live Sometimes 300 Years—A Falcon Reached the Age of 162 Years.

Birds, if we consider their comparative weight rather than bulk, live much longer than mammals; but even in birds there is considerable variation, says The Manchester Guardian. Leaving the why and wherefore, let us see what is known. We can only form our conclusions in most cases from birds living under artificial conditions in captivity. We are, therefore, at once faced with the question: Do we prolong the life of our captives by providing them with a regular and suitable supply of food, or do we shorten their existence by the inevitable restraint? We do either if we consider the average life of a bird in a free state is regulated by the rate of mortality. Few birds, or indeed any animals, die a natural death; few linger to perish by the miseries of old age and decay. Nature provides the "happy dispatch" either in the form of accident or at the hands of enemies, predatory or parasitical. We have no means of telling how long a wild bird's constitution might survive if it could manage to live or die of old age. Too frequently, however, our solicitude for our pets leads to their undoing, and post-mortems do not always reveal where we have erred; now and then we discover that a surfeit of boiled potato or some similar food has hastened the end. If we keep birds, we are constantly struck by the frailty of avian life.

It is an old German popular saying that a wren lives three years, a dog three times as long as a wren, and multiplying each age by three goes through a series—horse, man, donkey, wild goose, crow, deer and oak. This, as Weismann points out, makes the life of man eighty-one years, and of a deer over 6,000, and although crows can manage better than we can, they hardly live 2,000 summers. Small singing birds seldom live over twenty; their ages in captivity vary from eight to eighteen. Neumann states that a canary will live twelve or fifteen years, a nightingale eight or nine, and a blackbird about twelve. Compared with our threescore years and ten which we lords of creation have the audacity to consider as the standard, these ages are not long. A magpie has been known to reach twenty, but others of the crow family have done better; ravens have lived for 100 years or more—one authority states 200—and in a wild state it is possible they may last longer.

"Parrots, which look as if they had lived for ages, they are so wise" (the borrowed expression is very apposite), have several times been known to pass their century. No record, unfortunately, has been kept of the result of the experiment made by an old lady of eighty who purchased a parrot to see if it really would live until it was 100. Humboldt, in good faith, tells of a parrot, living in Maypures when he was on the Orinoco, which conversed in an unknown tongue; the Indians say they could not understand it, for it was the language of the long extinct Atures. Parrots, as a rule, are quick at picking up recent language, especially if it is vehement; we must take the statement of the Indians for what it is worth. Longevity is not uncommon among raptorial birds; a golden eagle lived in captivity in Vienna for 104 years, and we do not know what age it was when captured. A vulture in the same place lived 118 years, and a falcon is said to have reached the ripe age of 162.

Elder ducks are supposed to live for 100 years, and wild geese may exceed that period, which, however, is considerably below the time reached, according to the German saw; swans, which certainly live a long time, under favorable conditions, are stated to live sometimes 300 years.

Naturally, the statements about longevity in birds and mammals are liable to exaggeration; Sir Thomas Browne, in his "Vulgar Errors," threw doubt upon the longevity of deer; in such cases, however, as well known captive elephants, crocodiles and giant tortoises the evidence is good, and whales have been captured with ancient dated harpoons imbedded in their blubber. The great question of the duration of the life of an animal turns upon one point—How long is it necessary for a creature to live in order to insure the perpetuation of its kind? It must produce a sufficient number of offspring to leave an average of two descendants in order that the race may not die out. What, then, does this mean? Simply that the chances are against so many young creatures—enemies lurk on every side, accidents, starvation, storms, threaten them so constantly that a vast majority go to the wall before they reach maturity. To maintain the balance of numbers each pair must leave a couple of offspring, and no more; the rest must fall out of the race, and so they do. If, therefore, a bird lays but few eggs, and the young are exposed to many dangers, it must live long enough to produce a minimum balance over and above the number which are wiped out. Weismann's calculation about the golden eagle, whose life may last, say, sixty years, will serve as an example. Suppose that maturity is not reached for ten years—most birds are mature long before this—and two eggs are the average number laid, we shall have 100 eggs in fifty years, and of these only two will develop into adult birds. This is a terrible fact to realise when we consider that a similar waste of life occurs throughout the animal kingdom; but it requires no stretch of imagination to see what would be the inevitable result if a slight—ever so slight—increase in numbers occurred generation after generation. Without entering into the arguments, it may be roughly stated that birds have more odds against them than mammals, and consequently require a longer life to achieve the object of this life; in other creatures, especially in invertebrates, an increased fertility provides for the struggle against the drain; they live a shorter time, but produce more young.

Cave Temples of India.

Among the interesting sights of that land of mystery, Hindoostan, are the Karle Caves of India, artificial temples of worship, which were cut out of the solid rock a century before the Christian era, it is claimed. These wonderful artificial caves are found in the mountain region of the seacoast, 32 miles from Poona, a few hours' railway travel from the City of Bombay. It is a most picturesque region. The Western Ghats (cliff-like mountains) form the great sea wall of the Bombay Presidency, leaving only a narrow strip of land between their soaring heights and the sea.

In many places they rise in magnificent precipices and headlands, looking at a distance like a series of colossal landing stairs and visible afar from the ocean. In many places these spectral shapes rise abruptly from the shore to an altitude of three thousand or four thousand feet, proudly capped at intervals by peaks from seven thousand to eight thousand feet high. In the parklike plateaus encircled and often enclosed by these mighty upheavals are occasional clusters of hills and miniature mountains of solid rock. For ages nature has been carving them into a thousand fantastic shapes.

It is among these Titanic formations that explorers have discovered the gigantic temple caves of the ancient worshippers of Buddha.

Why the ancient builders constructed their ancient temples in the solid rock of the mountains is not explained, except that they were supposed to be more lasting than the Pyramids of Egypt or the other great temples of India built in the ordinary fashion.

It is certain that there was no lack of material and no bad quarries to interfere with the supply of stone for the great work. Neither lime, mortar nor hodcarriers were required. Whether the temples were blasted or simply chiselled from the mountainside there are no records to show.

The Original Mrs. Grundy.

A writer tells of the origin of Mrs. Grundy and says that "What will Mrs. Grundy say?" occurs in Morton's comedy "Speed the Plow," written in 1789. One of the characters, Farmer Ashfield, growing weary of constant references to Mrs. Grundy, a character in the play, by his good wife, suddenly turns upon her with:

"Be quiet, will ye? Always dingdonging Dame Grundy into my ears. What will Mrs. Grundy say? What will Mrs. Grundy think?"

The phrase tickled the public ear at the time, and is still in fashion.

Dover's Chalk Cliffs.

The white chalk cliffs of Dover, renowned in poetry and history, are said to be slipping slowly into the sea that for many thousands of years has dashed at their base. A portion of the cliffs fell some time ago, and recently a further portion at St. Margaret's Bay, Dover, has given indications that it is also slipping seaward. Cracks in the land have opened, and some portions of the cliffs have already fallen into the sea, where they form at low water a long causeway seaward. It has been suggested that the blasting operations at the Admiralty Harbor, Dover, may have loosened the outer portions of the cliffs.

72 degrees in the shade yesterday.

MARVELOUS CURE OF SORE EYES

Baby Treated at Two Hospitals Over a Year—Eyes Grew Worse—Doctor Said They Might Be Bad for Years.

ONE BOX OF CUTICURA MAKES COMPLETE CURE

"When my little girl was a few months old, her eyes began to get bad; thinking it was from her teeth, I lived in hopes of them getting better, but as they did not improve I decided to get medical advice. I took her to the ——— Hospital several times, and subsequently to the Children's Hospital at ———, to which institution I took her for twelve months. The doctors were most kind and attentive, and did all they could for her, but her eyes seemed to be growing worse. One doctor told me they might be bad for years; I was very miserable at such a prospect. I was one day stopped in the street by a Mrs. Todd who told me that Cuticura Ointment had cured her boy, and advised me to try it. I commenced using it that very night. The cure has been marvelous. The eyes soon commenced to get strong, and they are now as healthy as if there had never been anything the matter with them. The cure was completed with less than one box of Cuticura Ointment. You are at liberty to publish this letter, and I trust it may be the means of others being cured as my little girl has been.—Mrs. F. Phillips, Grafton St., Waverly, Sydney, N. S. W." Reference, Messrs. R. Towns & Co., Sydney.

SLEEP FOR BABIES

And Rest for Tired, Fretted Mothers in Cuticura.

Instant relief and refreshing sleep for skin-tortured babies, and rest for tired, fretted mothers, in warm baths with Cuticura Soap, to cleanse, and gentle anointings with Cuticura Ointment, the great skin cure, and purest and sweetest of emollients, to allay itching, and soothe and heal.

Cuticura Soap, Ointment, and Pills are sold throughout the world. Depots: London, 27 Charterhouse Sq.; Paris, 5 Rue de la Paix; Australia, R. Towns & Co., Sydney, N.S.W. Potter Drug & Chem. Corp., Boston, Sole Props. Send for "How to Cure Baby Humours."

THE PRODIGAL.

A prodigal, he said, "I will arise
And seek my people ere they end their days."
But when he came unto his native place,
With heart that feared that all would recognize
The wayward son, he found it otherwise,
And none did mask him with a conscious gaze.
The tropic sun had swarthed the once fair face,
And time had mapped its walls around his eyes.

And then the fear that all would know him grew
To fear that none might know him, and he sought
His home with faltering steps and found there one
Whose eyes had lost the brightness of their hue
In weeping for him, but who straightway caught
The wanderer to her heart and cried, "My son!"

An Antiquarian Hoax.

A great joke has been played on the Dumfries (Scotland) Natural History and Antiquarian Society.

There has been on exhibit a scrap of parchment labeled as a Greek charm. It was said to have been taken from the dead body of a Bedouin, in Egypt, and the writing to have been done with the blood of a young girl.

Dr. Semple, the well-known scientist, deciphered the inscription as being English written in Greek characters. It was to the following purport:

I'm old Bob Ridley, O!
I'm old Bob Ridley, O!
I'm old Bob Ridley, O!
I'm old Bob Ridley, O!

They are the chorus words of an old song which was very popular in the nineteenth century. The discovery caused much merriment.

Question of Speed.

The judge, lawyers, and everybody else were badgering an Irishman about the speed of a cart.

"Was it going fast?" queried the judge.

"Yis, it were," answered the witness.

"How fast?"

"Oh, purty fasht, yer honor."

"Well, how fast?"

"Purty fasht."

"Was it going as fast as a man can run?"

"Aw yis," said the Irishman, glad that the basis for an analogy was supplied to him. "As fasht as two min kin run."—Birmingham Post.

London Taking Out Its Tonsils.

In London tonsils are being removed wholesale from the parish schools. There shall be no more tonsilitis, as no more appendicitis, if surgery can prevent such unpleasant and unnecessary disturbances. Parents and guardians may be exercised in their minds as to the wisdom of depriving the race of its tonsils, but if human beings get along precisely as well without their tonsils why complain of this prevention, which is better than a pound of cured sore throat?

APPENDIX JUST A TOY.

That Is, of Course, to Surgeons of Cleverness—In 1,000 There Was Not One Death.

If, as was flippantly remarked recently in the editorial columns of one London paper, the removal of the appendix is an essential qualification for entry into smart society, the meeting the other night of the Royal Medical and Chirurgical Society in London should have been the occasion of a smart gathering, for its interest centred, so to speak, round the appendix. Those present, numbering more than 200 surgeons and physicians, had two hours of appendix, and in the course of Sir Frederick Treves' lucid address, which opened the discussion, even a layman had ample occasion to improve his perfunctory acquaintance with it.

How thoroughly modern the subject is, was made manifest by a casual introductory remark by Sir Frederick Treves, when he mentioned that when, in 1887, before the same society which now had mustered in force to discuss complex problems at times presented by operations, he had first mooted the advisability of the removal of the appendix in cases of recurrent attacks, his suggestion had been received with polite scepticism, not unmixed with derision.

Since then a deal of water had flowed under the bridges. Sir Frederick had himself in private practice operated on more than 1,000 cases without a single death to mar the success of his record. One great London hospital records within a period of four years a total of exactly 1,000 cases of operations for appendicitis, with a mortality of a little more than 4 per cent. Similar favorable results were shown by statistics furnished by several of the larger general hospitals.

In view of these astonishing figures it occurred to a lay mind to enquire of expert opinion as to the fate of those who, seeing the appendix was not a modern innovation in the interest of the mechanism of the human race, had suffered from appendicitis in the dark ages before the introduction of the Treves operations. He was told in a hurried aside that they were reputed to be suffering from colic and other unpleasantnesses ending in "itis," and that in many of the cases the patient whose life would now be saved died of unrecognised appendicitis.

The greater part of Sir Frederick Treves' address was devoted to the consideration of the causes of relapse after the removal of the offending appendix, as shown by the recurrence of the attacks. A majority of these are of too technical a nature to admit of appreciation by a layman, but one or two of them are of more curious interest.

The recurrence of the pain is at time due to the incompleteness of the operation, when the appendix had not been entirely removed. Often again the pain is due to a sort of neuralgia in the amputated stomach.

More extraordinary, even to the lay mind, are cases which have occurred where the pain altogether is neurotic, a question of nerves pure and simple. Again, mistakes in diagnosis do occur and before now man has been deprived of an offending appendix only to find that his trouble had its seat in quite a different part of his machinery.

Sir Frederick did not, against all traditions, quote the familiar story of the man who, to guard against contingencies in the event of sudden loss of consciousness, wore tattooed on his abdomen, "Do not operate, have had appendix removed three times," but he told a no less remarkable story of a patient who had come to him with a relapse after having undergone an operation for removal of the appendix. In investigating matters, Sir Frederick was able to remove it for him a second time. On the first occasion, presumably, the surgeon had overlooked it.

Much more formidable than the operation during the quiescent period after the attack are those necessitated by local or general peritonitis during the attack, known as cases of "fulminating appendicitis," when every hour is of vital importance. In such cases it is always a question of touch and go, but even in these cases London is able to record of late a marked increase in the number of cases successfully treated.

From a layman's point of view, the discussion, which evoked too many speakers and too widespread an interest to be dismissed in a single session, and will therefore be continued next week, was decidedly reassuring. If he is fated to be deprived of his appendix, which in any case is of no value in the scheme of internal arrangements, he has every reason to face the prospect with equanimity.

Rateable Value of England and Wales.

According to the local taxation returns, which were issued on Saturday, says Lloyd's Weekly, the sums received by local authorities in England and Wales during 1902-3 amounted to £139,206,784, and the sums expended to £138,968,743. The rateable value of England and Wales at the commencement of the year was £191,106,528.

The receipts of the London County Council were £5,274,440, and the payments amounted to £5,160,767. Upwards of £1,600,000 was paid as interest on borrowed moneys, upwards of £697,000 on tramways, upwards of £207,000 on the Fire Brigade, upwards of £152,000 on parks and open spaces, and upwards of £235,000 on technical education.

The receipts of the City Corporation included £178,240 from rates, £269,908 from rents, tolls, dues, etc., in respect of markets, and £257,676 from rents and profits of other property.

Rusted Wire Cables.

Wire cables will often rust and break down in the interior when there is no manifestation of this on the exterior. Sometimes the defect can be detected by a certain slackness and yield to pressure at the point infected. Corrosive water and fumes may be responsible for this hidden decay.

ANOTHER ADVANCE IN HOG PRICES

Prices This Week—Very Little Variation in Grain.

Live hogs have advanced 75 cents per cwt. since a week ago, and are now quoted at a new high record in the Toronto markets, viz., $7 per cwt. The strength of the hog market is perhaps best explained by a reference to the receipts at the Toronto markets last week, which fell 1800 head below those of the same week of a year ago. If an incentive is wanted to secure liberal supplies, the present price should prove the inducement, and the fact that it does not do so is fair testimony of the belief that the province is comparatively bare of hogs. Packers must of necessity keep their plants running; thus the active competition between buyers which has been going on for a couple of months must be continued until supplies arrive with more freedom. Under these conditions abnormal prices may be reached, and quotations range above a profitable basis for the packers.

THE "HANSA" SEES THE RUSSIAN FLEET

Rojestvensky Sailing Up And Down Cochin China Coast---Waiting For Nebogatoff---Battle Between The Russian And Jap Fleets May be Yet Much in The Future, as Togo is Not Coming Down to Meet Him---Russian Fleets to Combine on May 5th.

Hue, Cochin-China, May 1.—The German ship Hansa, in from Paltan Bay, British North Borneo, Saturday night, settles the position of the Russian Baltic fleet, and puts an end to the belief that Rojestvensky sailed for the Formosa Straits on last Wednesday. The Hansa came upon the Russians on Thursday evening off Three Kings Cape, and when five miles away was boarded by the torpedo boat destroyer Bravi, which, after an examination of the steamship's papers, permitted her to proceed to this port.

Twenty-five war vessels in all were between five and twenty miles off the mainland of Cochin-China. This news makes it clear that since his departure from Kamranh Bay last Saturday, Admiral Rojestvensky has been sailing up and down the coast. When sighted by the Hansa, he was forty-one miles northeast of Kamranh Bay.

Nebogatoff will have sailed 4,000 miles from Jibutil. It will be necessary for him to take on more coal, provision his ships and otherwise get them ready for action if a serious attempt is to be made against the Japanese fleet.

It passes all understanding here why Rojestvensky came into the South China Sea practically a month ahead of Nebogatoff, if his first purpose was to wait for the Red Sea squadron. He is using up coal and provisions every day and before he takes his 2,000 mile trip to Vladivostock will, in all probability, have to make use of another neutral harbor to reprovision. The belief is gaining ground that the Russian commander is acting under orders from St. Petersburg, and that another peace effort is under way.

Togo's Fleet Seen.

Shanghai, May 1.—Information brought Friday afternoon by the Peninsular steamer Kaiser makes it appear improbable that the main Japanese fleet will meet the Russians for weeks to come, unless Admiral Rojestvensky should decide to sail straightway for the battleg round selected by Togo. The Kaiser, in from Manila, sailed through the Formosa Straits on Thursday morning. Off the Bashi Islands she passed a small squadron of Japanese vessels, mostly torpedo boats. In the Straits of Formosa, north of the Pescadore Islands, several of the armored cruisers and four gunboats were passed near the Chinese mainland, and Saturday morning forty-five miles north of the Loochoo Islands, the Kaiser made out four Japanese battleships nine miles to the northeast.

None of the second-class cruisers of the Japanese fleet was observed on the Kaiser's trip, which confirms the general belief that these are in the scouting division, in command of Admiral Kamamura. This discloses that it is not the Japanese purpose to go hunting for the Russian ships, and makes it plain that the great battle, if one be fought, will be well up in Japanese waters—probably at the mouth of the Yellow Sea or at the entrance to the Straits of Corea. All interest here now has got down to speculation as to whether the Japanese squadron of cruisers and torpedo boats will attempt to destroy Rojestvensky's fleet south of the Paracels and before the Russians sail for Japanese waters.

Japan Will Honor Her Dead.

Tokio, May 1.—With elaborate ceremony beginning Wednesday and ending Friday the names of 30,866 soldiers and sailors of Japan killed prior to the battle of Mukden will be enshrined in the Spokonsha Temple. Many kinsmen and kinswomen of the victims of the war are assembling in Tokio to participate in the ceremony, and will be special guests of the Government. The ceremony is based on the national belief in the immortality of the soul and the homage due to ancesters.

To Combine May 5.

London, May 1.—The Daily Telegraph's Tokio correspondent says.

"It is stated here that the whole of the second and third Russian Pacific squadrons will join forces on the morning of May 5.

"The fifth native loan (of $50,000,000), has been oversubscribed five times, and the financial position now permits of a resumption of the construction of the Central Railway throughout Japan, which was stopped at the beginning of the war."

May Offer Russia a Base.

New York, May 1.—The Sun prints the following London cable:—It is now reported in certain official quarters that the Kaiser has undertaken another move which may have serious consequences. It is nothing less than offering Russia facilities for refitting Admiral Rojestvensky's fleet and a virtual base of operation in the Carolines. The latest reports that the ships of the Baltic fleet are going to the Pacific, whence they will seize an opportunity to reach Vladivostock partially confirms this theory.

Special Offering in Ladies' Spring Coats.

JAPS DRIVEN BY RUSSIANS.

From Five Consecutive Positions and Succeed in Occupying Tunghusiang.

St. Petersburg, May 1.—Gen. Linevitch in a message to Emperor Nicholas says: "Two Russian forces on the night of April 29 simultaneously attacked the Japanese near the Town of Tunghusiang, driving them from five consecutive positions and occupying Tunghusiang."

Location of Japs.

Gunshu Pass, May 1.—Information obtained from prisoners and captured mail shows that the disposition of the Japanese armies is as follows:

Gen. Nodzu, the region between Tie Pass and Kaiyuan; Gen. Oku, from Tie Pass, westward of the railway; Gen. Kuroki, from Tie Pass, eastward of the railway; Gen. Nogi, from Fakoman to Changtufu; Kawamura, northeast of Mukden.

The weakest force of the Japanese is in the region about Mukden, while the principal concentration is in the region of Tie Pass.

The flanks are guarded by mixed bands of Japanese and Chinese bandits.

Turn All Into Hospitals.

Irkutsk, Siberia, May 1.—On account of the inadequacy of accommodation for the wounded soldiers from Manchuria, of whom there are 26,000 here and more are arriving daily, club houses and school houses have been converted into hospitals.

Provisions, and especially bread, are scarce, owing to the military pressure on the Siberian Railroad.

WORSHIP THEIR OWN GOD.

Religious Freedom at Last Granted in Russia.

St. Petersburg, May 1.—Real religious freedom conferred upon his subjects by Emperor Nicholas as an Easter gift is an historic event of the highest significance, in comparison with which the remission of millions of dollars of taxes to the peasantry, a long list of decorations and six pages of promotions of bureaucratic officials are hardly worth comment. Liberty of conscience has been repeatedly proclaimed and Procurator Pobedonostzeff, in his famous reply to the evangelical petition of 1903, contended that it existed in the Empire. The fact is that as a trysting place all religions have been tolerated in Russia, but none has been allowed to trespass upon the orthodox faith as enunciated from the mosque that faces the church of the Novsky Prospect in St. Petersburg. People were free to remain true to the religion of their fathers, but were forbidden to make proselytes.

The Emperor's act will also affect about 40,000,000 belonging to alien faiths, such as the Jews, Catholics and Lutheran of Poland and the Baltic Provinces, the Protestants of Finland and the followers of Islam and Buddha, in the Urals, the Crimea, the Caucasus, Turkestan and Central Asia. These figures are only approximate.

Easter Services Without Disorder.

St. Petersburg, May 1.—The great midnight Easter services passed off without a vestige of disorder. The crowds in the churches were enormous. The absence of Emperor Nicholas from midnight services in either of his capitals diminished interest, but the ceremonial was carried out in all its elaborateness and stateliness. The Emperor and Imperial family attended services privately at Tsarskoe Selo.

Fatal Riot at Warsaw.

Warsaw, May 1.—Troops and strikers clashed Saturday at Czestochowa (142 miles from Warsaw), near the frontier of Silesia. Four strikers were killed and over a score were wounded by volleys fired by the infantry.

Schwab Didn't Get It.

New York, May 1.—The Sun prints the following from St. Petersburg:

"It is learned on the most trusted authority that the story about Charles M. Schwab making a contract with the Government to build warships is untrue."

Schwab—Did or Didn't He?

Berlin, May 1.—Chas. M. Schwab of New York, who is on his way from St. Petersburg to Luxemburg to visit the iron works and who thence will return home, stopped over in Berlin for a day. In an interview Mr. Schwab said it was quite true that he had made a contract with the Russian Government for warships, but that he considered it would be improper for him to talk about it. Those in the Russian Government who knew of the contract, he said, were the ones to make the terms public.

PAYS A VISIT TO FRANCE

King Edward Tendered Dinner By President Loubet.

"LONG LIVE KING EDWARD!"

Shouted French Populace as His Majesty Alighted at Station on Saturday Night—Pleasant Exchange of Official Courtesies—No Speeches at Banquet But All Diplomats Were Present.

Paris, May 1.—King Edward arrived in Paris at 9.26 Saturday evening, and was met by British Ambassador Bertie, no French officials being present, in accordance with His Majesty's wishes. He was driven to the Hotel Bristol. The crowd at the station shouted, "Long live King Edward!"

The exchange of official visits between King Edward and President Loubet yesterday was marked with the utmost cordiality, the conversations on each occasion lasting 20 minutes. President Loubet previously had received Foreign Minister Delcasse, whom King Edward afterwards accorded a long audience.

President Loubet's dinner in honor of King Edward, at the Palace of Elysee last evening, was a brilliant function, entirely non-political in character. There were 120 guests and nearly the entire diplomatic corps was present, including the British, American, German, Italian, Russian, Spanish and Austrian ambassadors. Mm. Rouvier, Etienne, Berteaux, Delcasse and Thomson represented the French cabinet.

There were no speeches.

The Triple Alliance.

Vienna, May 1.—The interview at Venice on Saturday between Sig. Tittoni and Count Goluchowski, respectively, the Foreign Ministers of Italy and Austria-Hungary, is greeted by the press of Vienna as convincing evidence of the friendliness of the relations between the Austro-Hungarian and Italian Governments.

Comment on the interview is all favorable and hopeful, and the meeting is hailed as tending to strengthen the triple alliance with all that the triple alliance means and stands for.

The Fremdenblatt, the organ of the Foreign Office, declares that Austria-Hungary and Italy are endeavoring to ensure the maintenance of peace in the Balkans, and to promote the progress of civilization and better influences there.

Kaiser Likes His Own Music.

Bari, Italy, May 1.—Emperor William was Saturday received by the populace of Apulia with demonstrations surpassing in enthusiasm those given him in Italy. Bands saluted him by playing a march composed by His Majesty, who showed his satisfaction by applause.

TELLER'S ESCAPE A MIRACLE.

Bank Burglars Professionals and Snapped Revolver But Unsuccessfully.

Montreal, May 1.—Detective Greer of Toronto reached here Saturday morning from Lancaster, where he had been investigating the bank burglary there. So far, he says, there is absolutely no definite clue.

He is convinced that the burglary was the work of professional criminals, probably from the States.

A big 45-calibre Colt revolver, nearly a foot long, had been snapped twice to each of five cartridges, but a lucky defect in the latter saved the bank teller's life.

Detective Greer had the body disinterred at Lancaster and photographs and Bertillon measurements taken. These will be sent to all the criminal departments on the continent.

Armours Get All the Space.

Montreal, April 29.—The Thomson Steamship Co., which is represented here by Robert Reford & Co., announce they have closed a contract with the big Armour company of Chicago, by which the latter purchase all the cattle space in the steamers of the company running from this port during the present season. The contract is for the export of live stock only.

Peterborough's Leading Shirt Store.

DOING THINGS RIGHT...

Doing things as they ought to be done is a good business principle, one we try to follow out. Illustrations are not needed to show why this store with its brightness — fine goods — and reasonable prices is getting a large share of the men's business in Peterborough. The

are splendidly arrayed for you to choose from. Nowhere else will you find as large an assortment of choice styles, and we're not greedy after profit.

Cressman's

MGR. SBARRETTI REPORTS.

Denies Any Understanding With Premier or His Cabinet.

Rome, May 1.—The Vatican has received from Mons. Sbarretti, the apostolic delegate at Ottawa, a full report concerning his alleged interference in the Manitoba boundary extension.

Mons. Sbarretti gives the most detailed particulars of the whole affair, denying emphatically that he had any understanding with Premier Laurier or other members of the Canadian Government to have the Catholic school question connected with the extension of the boundaries of Manitoba.

He only admits that he met Attorney-General Campbell of Manitoba and discussed with him the best means of ameliorating the educational system in connection with Catholics, and also in the interests of Manitoba, as otherwise the territories where the Catholics are entitled to separate schools would be opposed to joining Manitoba.

Cardinal Merry del Val, the papal secretary of state, took the report to the Pope, and they had a long discussion on the subject.

Free to Make Our Tariffs.

London, May 1.—(C. A. P.)—Referring to the assertion made of the "danger" of the Colonies making fiscal arrangement elsewhere if Great Britain should refuse the alleged "offer," The Morning Leader says: "We have never been able to understand how this would be such a calamity. If the Colonies can strike a good bargain for themselves with their neighbors by all means let them do so. Short of absolutely anti-British tariffs, nothing in this direction will hurt us."

Objected to But Ratified.

Montreal, April 29.—At a meeting of the Dominion Cotton Co. yesterday the merger with the Dominion Textile Co was ratified, although Messrs. Clearhue, Matys and Amyot, representing 4,000 shares objected.

Launch For Mounted Police.

Ottawa, April 28.—The Marine Department will construct a 134-foot twin screw launch at Sorel for mounted police purposes in Hudson Bay. The craft will not be completed this summer.

Big Fire at Oshawa.

Oshawa, April 29.—The Oshawa Canning Factory was destroyed Thursday night by a fire that started in the engine room. The loss is estimated at $20,000 to $25,000; partially insured.

Bonus For Beet Sugar Factory.

Whitby, April 29.—The Town of Whitby yesterday voted a bonus of $25,000 for the establishment of a beet sugar factory.

D. BELLEGHEM,

Issuer of Marriage Licenses

No. 190 Hunter Street, Peterborough

LICENSE BOARD MET ON SATURDAY

Licenses With One Exception Were Granted.

Visit of Provincial Inspector Gordon—New Regulation Adopted.

The adjourned meeting of the Board of License Commissioners for West Peterborough was held in the Secretary's office on Saturday evening, April 29th, at 8 o'clock, with the following members in attendance: Dr. M. A. Morrison, chairman; H. LeBrun, J. Griffin, and the Licence Inspector.

The minutes of the previous meeting were read and adopted.

The matter of the granting of tavern licenses laid over from the last meeting was dealt with as follows:—

James Dolan, granted.

Austin Dunn, granted, subject to inspection.

Michael Tooley, granted, subject to inspection.

The decision with regard to shop licenses was as follows:—

F. J. R. Mitchell, J. C. Sullivan, Lucy Brown, Chas. A. Kelly, extended three months, for the purpose of allowing them to put their places in proper condition to comply with the requirements of the law. In the case of the shop license of William Collins, the Commissioners could not see their way clear to grant it, as one shop license was considered sufficient for Ward Five, but granted an extension of three months to dispose of stock.

It was moved and carried that all rules and regulations previously passed by the Board of License Commissioners be rescinded, and that the following resolution which was moved by H. LeBrun, seconded by J. Griffin, shall take effect on May 1st:

"Resolved and ordered that after the first day of May, 1905, the windows of bar rooms, taverns and shops, where liquor is sold within this license district, shall not be covered by blinds, shutters or artificial frosting of any kind that will obstruct or tend to obstruct the view of the public from such places, between the hours of 7 p.m., Saturday night, to 6 a.m., Monday, or during the hours prescribed by the Liquor License Act, in which liquors shall not be sold. It is hereby resolved, ordered and declared that any person or persons concerned in, or party to, any act, matter or thing, contrary to the same shall forfeit and pay to and for the use of His Majesty, the King, a penalty of not less than ten dollars and not exceeding twenty dollars, besides costs for every such offence to be recovered before two Justices of the Peace or Police Magistrate having jurisdiction in the said License District of West Peterborough."—Carried.

Provincial Inspector Gordon, of Toronto was in town on Saturday on an official visit, and in company with the chairman, Dr. Morrison, Mr. H. LeBrun and the Inspector, visited all the shops in town, and many of the hotels. He expressed his opinion clearly as to what the duty of the Commissioners should be in dealing with each place, which they are now carrying into effect. He also gave his opinion to the effect that the hotels in Peterborough are of a higher standard than those of many other places.

With regard to the applications from the hotel-keepers of Smith Township to have their licenses extended three months, the Commissioners decided not to re-open the question, having decided not to grant them at a previous meeting on the ground that Smith having elected to become a local option district, and, therefore, they had no jurisdiction to grant or extend any licenses. The Commissioners were upheld in this opinion by the Provincial Inspector.

MR. T. EASTWOOD BUYS HOTEL

Purchases the Lakefield House From J. Furlong.

Mr. Isaac Eastwood, of Ashburnham, formerly of Wahnapitae, Ont., has purchased the Lakefield house, the property of J. Furlong, and will take immediate possession of that hotel.

Mr. Eastwood has been a resident of Peterborough for the past two years, prior to which time he was in the hotel business in New Ontario, and is therefore a thoroughly experienced man.

It will be remembered that at the meeting of the License Commissioners held on April 19th, the present holder of the license for that hotel was given twenty days' extension in which time to dispose of his property.

—A public meeting will be held in the Council Chamber to-night, to inform the ratepayers of the details of the construction of the proposed new fire hall.

YOU ARE SICK!

You're uneasy, restless, without appetite. Still worse, you are thin and fagged out. Work must be done, but where is the strength coming from? Make your blood nutritious and you'll have lots of strength.

Your only hope is Ferrozone, the great food tonic.

FERROZONE

It's a blood maker, blood purifier, blood enricher. It brings sharp appetite, digests and converts all you eat into nourishment.

Ferrozone makes muscle, tissue, nerve. It strengthens in a week, builds up anyone in a month. Think of it. You'll live longer and feel better by using Ferrozone. Avoid substitutes.

Price 50c per box or six for $2.50, at all dealers, or by mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

A SYNDICATE HAS BEEN FORMED

Mr. T. H. Crowley's Rich Iron Discovery to be Developed

A Valuable Property in Which Local Men Are Interested.

Mr. T. H. Crowley, of Steelton, whose discovery of iron ore in the Rainy River District was reported in these columns a few days ago, was in town to-day, and reported that he had formed a syndicate to take over the properties discovered by him and develop them with a view of disposing of the whole property.

Messrs. Gough Brothers, of Toronto, formerly of town, are largely interested in this syndicate, with a number of Grand Rapids, Mich., capitalists. Mr. Crowley is pleased with the success with which he has met in the formation of the syndicate and expects that he will be able to dispose of the property in a short time at good figures. He has already promised an option on the property to Messrs. Caulfield and McKnight, capitalists of Grand Rapids. He has been offered $150,000 for the property, but is of the opinion that it is worth much more than that figure and it would seem that in view of the fact that 2,500,000 tons of ore are in sight at the present time, to say nothing of that yet to be unearthed, this view is not an unreasonable one to take.

The syndicate is the owner of sixteen shares, each representing one thousand dollars, and all have been subscribed except three.

Mr. Crowley will go to Toronto tomorrow morning and will then go to the ore fields to continue his explorations. The syndicate has authorized him to purchase any other ore beds he may discover, and also any pine or other timber he may see.

ANGLING CLUB'S ANNUAL MEETING

Will Be Held in Y.M.C.A. Hall To-morrow Night.

The annual meeting of the C.G.E. Angling Club will be held on Tuesday evening, at 7.30, in the Y.M.C.A., when the election of officers, and other important business will be dealt with. All members are requested to attend.

Angler Brown has invented a new hook, which is something the shape of a grappler. He is very anxious to give a few illustrations to his brother anglers. The O.L. will give an essay on fishing, which will no doubt interest many of the fishermen. Commodore J. G. M. Wilson has very kindly offered to banquet the new fishery inspector. All members of the club wishing an introduction to the new Government officials are requested to be on hand on Tuesday evening.

OFFICES CHANGE THEIR OCCUPANTS

Some of the Moves Which Are Being Made To-day.

Some changes in office locations were made Saturday. Messrs. Nelson & Co., stock brokers, moved into the office on Water street, formerly occupied by N. B. Darrell, who moves to the old office of Mr. A. P. Poussette in the Oak Hall Block. Mr. W. H. Moore vacates his office above the Bank of Toronto, for the Metropolitan Life Co., and takes that vacated by Nelson & Co. at 134 1-2 Hunter street.

LARGE ATTENDANCE AT S.A. BARRACKS

Moving Pictures Will Be Repeated To-night.

Staff-Capt. McLean and Capt. Parker of Toronto, conducted the meetings at the Salvation Army yesterday. Good crowds attended.

Capt. Parker, who spent some years in the British and American Army, gave a short account of his life at the afternoon meeting. Staff-Capt. McLean gave an address to a large crowd at night.

To-night the special service of moving pictures will take place, and it promises to be one of the most interesting services ever held in Peterborough. The great congress held in London last summer will be repeated, by special request, and many interesting new pictures, as well as scenes at the funeral service of the late Mrs. Booth-Tucker, in New York city. The service will begin at 8 p.m. and will continue for nearly three hours.

Lt.-Col. Gaskin will visit Peterborough next week, and and conduct special services.

WORKING WOMEN

Their Hard Struggle Made Easier—Interesting Statements by a Young Lady in Quebec and One in Beauport, Que.

All women work; some in their homes, some in church, and some in the whirl of society. And in stores, mills and shops tens of thousands are on the never-ceasing treadmill, earning their daily bread.

All are subject to the same physical laws; all suffer alike from the same physical disturbance, and the nature of their duties, in many cases, quickly drifts them into the horrors of all kinds of female complaints, ovarian troubles, ulceration, falling and displacements of the womb, leucorrhœa, or perhaps irregularity or suppression of "monthly periods," causing backache, nervousness, irritability and lassitude.

Women who stand on their feet all day are more susceptible to these troubles than others.

They especially require an invigorating, sustaining medicine which will strengthen the female organism and enable them to bear easily the fatigues of the day, to sleep well at night, and to rise refreshed and cheerful.

How distressing to see a woman struggling to earn a livelihood or perform her household duties when her back and head are aching, she is so tired she can hardly drag about or stand up, and every movement causes pain, the origin of which is due to some derangement of the female organism.

Mlle. Alma Robitaille of 78 rue St. Francois, Quebec, Que., writes:

Dear Mrs. Pinkham:—

"Overwork and long hours at the office, together with a neglected cold, brought on a very serious female trouble until finally I was unable to go to work. I then thought of a friend who had taken Lydia E. Pinkham's Vegetable Compound when her health was in the same condition that mine was, and straightway sent out for a bottle. I finished that and took two more before I really began to improve, but after that my recovery was very rapid, and I was soon well and able to go back to work again. I certainly think your medicine for sick women worthy of praise, and am indeed glad to indorse it."

Miss Clara Beaubien of Beauport, Quebec, writes:

Dear Mrs. Pinkham:—

"For several years I have suffered with Leucorrhœa, which has been a serious drain on my vitality, sapping my strength and causing severe headaches, bearing down pains and a general worn out feeling, until I really had no desire to live. I tried many medicines, but did not get permanent relief until I took Lydia E. Pinkham's Vegetable Compound. In two months I was very much better and stronger, and in four months I was well, no more disagreeable discharge, no more pain. So I have very reason to praise the Vegetable Compound, and I consider it without equal for the ills of women."

Lydia E. Pinkham's Vegetable Compound is the unfailing cure for all these troubles. It strengthens the proper muscles, and displacement with all its horrors will no more crush you.

Backache, dizziness, fainting, bearing down pains, disordered stomach, moodiness, dislike of friends and society—all symptoms of the one cause—will be quickly dispelled, and it will make you strong and well.

You can tell the story of your sufferings to a woman, and receive helpful advice free of cost. Address Mrs. Pinkham, Lynn, Mass.

Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.

RECEIPTS MORE THAN DOUBLE

Customs Returns for April Amount to $46,168.86.

Total Receipts for the Year Will Break All Records.

The Custom returns for April show that the total receipts were $46,168.86, as compared with $22,926.92 in the same month in 1904 or more than double the amount. The increase is $23,241.94 or more than the total amount for the month of March last year.

The receipts for the month will average about $1,700 a day, exclusive of Sundays and holidays.

Up to the present time the receipts for the fiscal year have amounted to $255,000.00, with two months of the year left yet, while for the whole of last year the receipts were $213,000.00.

This year, therefore, will be a record twelve months, and it will not surprise the officials if it reaches nearly $300,000.

THE HERO OF LABRADOR.

Reference to Dr. Grenfell the Pioneer Physcian and "Good Samaritan".

The approaching visit of Dr. Wilfred T. Grenfell, in aid of the Deep Sea Mission, is apparently awakening a widespread interest in Peterborough, and the privilege which will be allowed the citizens of hearing the renowned missionary, will undoubtedlay attract an unusually large audience.

His recent publications, descriptive of the field of his self-sacrificing life work, which are attracting such unusual notice throughout the United States and Canada, are, it is understood, being largely sought after locally. It is indeed a matter of gratification in view of the widespread interest which is being vouchsafed, on both sides of the line, with regard to the noted lecturer, that he has been secured to lecture here. The hour of the "Dante" lecture has been changed from the evening to the afternoon in order to permit as large a number as possible to attend both.

The tickets have been placed on sale at Madill's drug store.

ANOTHER OLD RESIDENT GONE

In the Person of Mr. Alexander T. MacGregor of Douro.

The death occurred on Friday at St. Joseph's Hospital, of Alex. T. MacGregor, aged 65 years. The funeral took place yesterday at one p. m. from the residence of his son-in-law, Mr. George Curtis, lot 3, concession 10, Douro, and proceeded to the Little Lake cemetery where interment took place.

His wife predeceased him over twenty years, but two children are left to mourn his loss, Alexander MacGregor of Duluth, Minn., and Mrs. George Curtis, of Douro. Mr. David MacGregor is a brother. Deceased was born in Scotland, but came to Canada at an early age and has lived near Peterborough ever since.

SUDDEN DEATH OF MRS. JAMES LITTLE

One of Dummer Township's Oldest and Most Esteemed Residents Expires Suddenly.

Hall's Glen, April 29. — The very sudden death of Mrs. Jas. Little, of Hall's Glen, on Saturday, April 29, after an illness of only six hours, has come as a great shock to the community. The deceased lady was visiting at the home of her son-in-law, Mr. Jas. Greystock, near Warsaw, when she was seized with apoplexy, and expired after every means known to medical science was exhausted, without avail.

Mrs. Little was a daughter of the late Robert Darling of Dummer, and was married to Mr. Jas. Little on May 25th, 1855. There are left to mourn her loss her husband and ten children—four sons and six daughters—and her brother, Robert, of Wales, Mich.

A remarkable coincidence is the fact that Mrs. Little's daughter, Mrs. Greystock, died exactly one year ago, on April 29, 1904.

The deceased was so well known for her many excellent qualities, that her loss seems almost a public calamity. She was a lifelong and consistent member of the Methodist church amongst the workers of which she will be sadly missed. The funeral will take place on Monday, May 1st, at two o'clock, to St. Mark's cemetery, Warsaw.

Suffered Intense Pain Around The Heart For Four Years.

Was Very Dizzy.

Four Boxes of

Milburn's Heart and Nerve Pills

Effected a Complete Cure.

They are a specific for all troubles arising from a weak condition of the heart or from the nervous system. For troubles such as Palpitation of the Heart, Sleeplessness, Nervousness, Faint or Dizzy Spells, Shortness of Breath, Starting in the Sleep; Cold, Clammy Hands or Feet, Brain Fag, etc., we would strongly advise the early use of Milburn's Heart and Nerve Pills, as this remedy, taken in time, has been the means of saving many a life, and restoring strength to those who were weak, nervous, health-shattered invalids.

Mrs. E. Kilmer, Humberstone, Ont., writes:—"Allow me to tell you of the great results I have derived from Milburn's Heart and Nerve Pills. For four years I suffered intense pain around the heart, and was very dizzy. After using four boxes of Milburn's Heart and Nerve Pills, I was completely cured."

Milburn's Heart and Nerve Pills, 50 cents per box, or 5 for $1.25.

All dealers, or mailed direct on receipt of price.

WOMEN'S MISSIONARY SOCIETY ANNUAL MEETING.

Twenty-Ninth Annual Convention of Canadian Missionary Society of Presbyterian Church—Important Gathering to be Held in St. Paul's Church Here—Opening Day Tomorrow—About 300 Delegates in Attendance—The Programme for the Opening Session—A Public Meeting on Wednesday Night—Reports of Presbyterial Societies

Tomorrow afternoon at 2.30 o'clock the 29th Annual meeting of the Women's Foreign Missionary Society of the Presbyterian church in Canada, (Western Division) will open in St. Paul's Church, and will continue during Wednesday and Thursday.

There will be two sessions on Tuesday, three on Wednesday and two on Thursday afternoon.

It is expected that there will be about 300 delegates in attendance, at this convention, and a number of most interesting papers and addresses will be given.

The programme for the opening meeting will be:—

Psalm selection 68.
Reading of Scripture, Mrs. Torrance, Peterborough.
Prayer, Mrs. Potter, Peterborough.
Hymn 449.
Prayer, Mrs. A. D. MacKay, Winnipeg.
Bible Reading, Mrs. Roger, Peterborough.
Hymn 441.
President's address, Mrs. Shortreed, Toronto.
Hymn 256.
Reports of Presbyterial Societies:—Barrie, Brandon and Portage, Brockville, Bruce, Chatham, Glenboro, Glengarry, Guelph, Hamilton, Huron, Kingston, Lanark and Renfrew, Lindsay, London, Maitland, Orangeville.
Prayer, Mrs. McLeod, McCrammon.

On Wednesday night a public meeting will be held.

A list of delegates as handed in by the Secretary, with their address, while in town, appears below:—

Seven Sutherland Sisters' Hair Grower
GREW THIS HAIR

November 20, 1902.
Seven Sutherland Sisters:
Ladies,—
Having used your Hair Grower and Hair and Scalp Cleaner, I take great pleasure in recommending them to any one who may require anything for their hair. The Scalp Cleaner is excellent for removing the dandruff. It makes the hair beautifully soft and glossy. The Hair Grower stopped my hair from falling, also started it coming in again and it is very thick now and is still growing.
I remain, yours sincerely,
ANNA BUSHELL,
436 North Division St.,
Buffalo, N.Y.
For sale at all druggists, two sizes, 50c. and $1.00 per bottle.

TRENT WATER REGULATION

In an article on Trent Valley water conservation printed on Saturday, a reference was made which may be, to some, misleading. By inference, the name of Mr. Rogers was given as superintendent of the Trent Valley Water System, a position he formerly held. The reference to "Mr. Rogers blaming Mr. Walters, and Mr. Walters blaming Mr. Rogers," for undesirable conditions, was proper enough for the time referred to, for at that time Mr. Rogers held the position of Superintendent. But, in the reference to the desirability of the official who succeeded Mr. Walters being a Peterborough man, so that he could locally confer with Mr. Rogers, the name of Mr. J. H. McClellan, the present Superintendent, should have been used, instead of inadvertently using the name of Mr. Rogers. Under Mr. McClellan's superintendence the regulation of the waters has been well looked after, and his good services would be greatly assisted if he had undivided jurisdiction, that is, if the whole system of waters, were under Dominion Government control. No official, however capable or resourceful, can apply plans for efficient and uniform regulation, if another official is in a position to interfere and defeat the objects aimed at. As between two stools one comes to the ground, so between two sets of officials and authorities the interests in connection with the conservation of the Trent Waters will suffer.

THE RED HERRING.

The Toronto World, and other bomb-throwing organs, are malevolently industrious in the work of creating disturbance in the harmony of the country, stirring up antagonistic feelings, and sowing the dragon's teeth of discord. They are fertile in resource, and when driven from one position by the logic of facts, and the development of events, they re-string their bow, and launch another poisoned arrow.

The Manitoba boundary question was raised to withdraw attention from the weakened attack on the Autonomy Bill, though the two have no more connection than the Malthusian doctrine with turnip growing. The World is endeavouring to convert the result of the bye-election in Mountain, Manitoba, on Thursday, in which a Conservative was returned for Mr. Grenway's old seat, into a condemnation of the Dominion Government's course on the Autonomy Bill. There was no such issue involved. Hon. Premier Roblin says the verdict means that Manitoba declares for her rights, the extension of her boundaries. Of course the people of Manitoba want their boundaries extended, and when they believed the false tales told them of Sir Wilfrid Laurier refusing to extend their boundaries, they may have voted accordingly. Manitoba, as Sir Wilfred has stated, will get her boundaries extended, but that extension will not be made at the expense of Ontario, and Saskatchewan. Manitoba demands the annexation of a generous slice of the richest part of the adjoining province of Saskatchewan. This, the latter absolutely refuses to permit, and Sir Wilfrid Laurier naturally, and properly, respects their wishes, Manitoba wanted extension to the shores of Hudson Bay, to the exclusion of Saskatchewan and Ontario from such access. This was not to be permitted either. Manitoba will be given very substantial enlargement of her boundaries including access to Hudson Bay, but she will not be favoured at the exclusion of the other provinces. In order to complicate matters we had Hon. Mr. Rogers' wild cat story to the effect that Mgr. Sbarretti had declared that the extension of Manitoba's boundaries was dependent upon the Manitoba's restoration of Separate Schools. If the Papal Allegate in a moment of weakness made such a statement he had no other authority than his own idea for so doing. The facts were against such a proposition being entertained. Some time before Mgr. Sbarretti was supposed to have delivered his quasi ultimatum to the Manitoba Government, Sir Wilfrid Laurier, had declared in the House that the question was settled—to this extent—that Manitoba's boundaries would be enlarged, with access to Hudson's Bay, but with reference to the rights of both Ontario and Saskatchewan to similar access. The bye-election in Manitoba was fought out and decided on the question of Manitoba's claim to territorial extension and had no earthly, and certainly no heavenly, reference to the Northwest Autonomy Bill.

EDITORIAL NOTES.

Hon. Frank Oliver, Minister of the Interior has been out west sounding public opinion in that region on the Autonomy Bill. He did so by an election and his return by acclamation shows that if he wants to find real opposition to the Bill he will have to come east, to Toronto and Ottawa.

Many persons in a mood of thoughtless rashness rave over the beauties of the Southern States, where, while we have frost, snow and chilling winds, their flowers are blooming, etc., etc. That's all very well; but nature strikes an average. While we have chilly winds, they don't blow the walls out of our houses. On Saturday the town of Laredo, Texas, was visited by a tornado, which blew down and destroyed a large number of buildings, and between 20 and 25 persons were killed and others injured. Our present cold wave may be hard on house cleaning and the growth of sweet peas, but it leaves the roofs on our houses.

Complaint is heard from Toronto that English immigrants are annoyed by jeers and slighting remarks respecting their peculiarities of dress and habits. This is possibly the case. But such conduct is practiced by a class from which no decent behaviour is expected. These persons are no more a type of the average decent Canadian than habitues of London slums, who would "guy" a Canadian if he wandered into their purlieus, is a type of decent Londoners. Decent Canadians are glad to welcome new citizens, for population is one of the prime elements of Canada's growth into greatness.

NEW UNIFORMS BETTER THAN OLD

Body Servant of Colonel MacDougall at C.P.R. Station

His Groom Speaks Very Highly of The Colonel - Good to Men Under Him— Groom Volunteered Five Times For Africa But Was Not Accepted.

In a recent militia order it was noticed that Colonel McDougal, of No. 5 Military District was transferred to No. 1 Military District, London, Ont. The Colonel passed through town on Saturday's express, but his groom, valet, favourite horse and four very fine bulldogs, were side-tracked at the C. P. R. station this morning. In conversation the groom, he stated that the Colonel, as has been already noticed, was transferred to London and he and the valet, of course, followed him. He thought the Colonel would be in London about a year or so, as the Militia Department was changing the different staffs all over the country, as a result of taking over of Halifax and Esquimalt stations.

For himself he said the Colonel was very kind to him and all the other men under him. He said he had been in the Service six years. When asked if he had been in Africa he said he had volunteered five times, but could not get leave to go as they were very short of men just then in the regulars.

He spoke of the efficiency of the new service uniform of Khaki of its superiority, over the old uniform of red, although the red is still the dress uniform —that it could be made with a little brushing, to look as good as when first donned. It was not easily stained like the red which showed the least spot and was, anyway, much better.

IT IS FOR LADIES, TOO

They Can Stop Their Hair Falling Ou With Herpicide.

Ladies who have thin hair and whose hair is falling out, can prevent the hair falling out, and thicken the growth with Newbro's Herpicide. Besides, Herpicide is one of the most agreeable hair dressings there is. Herpicide kills the dandruff germ that eats the hair off at the root. After the germ is destroyed, the root will shoot up, and the hair grow as long as ever. Even a sample will convince any lady that Newbro's Herpicide is an indispensable toilet requisite. It contains no oil or grease, it will not stain or dye. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

O mond & Walsh, special agents.

Colorado, California, Portland and Yellowstone Park.

Specially conducted excursions are being arranged via the Grand Trunk Railway System, in charge of an experienced conductor. All expenses included. To leave Toronto early in July and August. Rate is not expected to be over $150 from Toronto. Do not join any other party before consulting E. M. Bowler, 201 Beverley street, Toronto. 8d93

LIMESTONE IN PETERBOROUGH

An Interesting Chapter in Bureau of Mines Report.

Very Valuable Marl Deposits—Peterborough's Mineral Deposits.

Part two, of the report of the Bureau of Mines, on the limestones of Ontario, has just been issued by the director, Thos. W. Gibson, and an interesting chapter is that in which the limestone deposits of the county of Peterborough are dealt with.

The report says :—

"Palaeozoic and crystalline limestones, together with marls, are found in various parts of the county. The Lakefield Cement Works use marl, and Portland cement has been used in some very important structures in the county, notably in the lift-lock near the town of Peterborough and in the building of the beet sugar factory. Palaeozoic limestones, which are found in the southern parts of the county, have been used extensively. Analyses are given below of samples from three or four localities. The insoluble matter in these is a little high for cases where a nearly pure calcium carbonate is required. The samples, however, represent surface material in which this matter is apt to run higher than in stone freshly broken in a quarry. Crystalline limestone is found in many localities in the northern part of the county.

"In their western run from Healy's Falls the escarpments of the Trenton group we have been following approach Stony Lake; the main one presenting an abrupt rocky cliff from two to three miles from the south margin of the lake, and the other, of small elevation, approaching the margin to within about a mile. After sweeping around a small sheet of water called White Lake, in the township of Dummer, the two escarpments partially unite, striking Salmon Trout or Clear Lake at about the fourth range of that township, keeping the south shore of the lake to its western extremity. The corresponding escarpment rises on the northwest side of Salmon Trout Lake, and then follows the sinuosities of the chain of lakes and the river up to Buckhorn Lake, keeping the south side at a distance seldom exceeding a quarter of a mile. It crosses Buckhorn Lake at the strait about two miles and a half above Buckhorn Falls; and then, again separating into two parts, the main one strikes nearly straight by Sandy and Pigeon Lakes to the head of Balsam Lake, the inferior escarpment keeping about a couple of miles to the northeast. In the general course westward from Belmont Lake, the rocks composing the lowest escarpment thin out and disappear before reaching the western end of Salmon Trout Lake. Here the base of the series is composed of very regular beds of buff coloured limestone, bearing the lithological characteristics of the succeeding portion, while the upper tier of beds contains black chert and silicified corals of those species which peculiarly distinguish the Birdseye and Black River formation. The whole height of the escarpment from this, seldom exceeds fifty feet.

"On the Otonabee the thick bedded coral-bearing stratum with chert . . . crops out on the twenty-second lot of the sixth range of Douro, where the river opens into a small lake called Kawchewahnook. Below this, assisted by the effect of a gentle undulation on the axis of which the river runs, there is a continued section of limestone and shales all the way to Peterborough, holding many characteristic fossils of the Trenton formation. Between Peterborough and Rice Lake, the Otonabee nowhere exhibits a rock section.

"The limestone escarpment south of Burleigh Falls, in the township of Smith, is about eighty feet high. On the summit, thin beds of limestone and shale occur. . . . Except at the top, the rock is more or less covered by moss and small trees; but about twenty or thirty feet below strong beds of limestone occasionally come out in points, and probably represent the cherty beds of the Birdseye and Black River formation."

"The lock on the Otonabee canal is constructed of massive beds of limestone, from the lower part of the Trenton group which was quarried near Warsaw in Dummer; and good beds of similar stone are to be obtained in many other places in this region."

BOYS' SWEATERS

We are pleased to announce the arrival of a large and well assorted stock of Boys' Sweaters which so many mothers have been asking for.

These Sweaters are made in Germany of fine, soft imported Wool. They come in all the good serviceable and pleasing shades and patterns, and in sizes to fit Boys from 3 to 12 years of age.

The prices are very moderate.

MEN'S SWEATERS also, in various grades, colours and sizes.

Cressman's

OF IMPORTANCE TO ALL CITIZENS

Meeting To-night to Discuss the Fire Hall Proposition.

Citizens Should Attend and Express Views on This Important Question.

To-night, in the council chamber, a public meeting of the citizens will be held to discuss the fire hall question. This is an important meeting and all the ratepayers of the town should make it a point to be present to hear the matter discussed. If the vote on Thursday is not such as to endorse the proposal of the fire, Water and Light Committee, the probabilities are that it will be some time before the question will be voted on again, and there can be no denying the fact that Peterborough is sadly in need of more modern fire-fighting appliances.

Ald. Johnston, who has taken a deep interest in the project, was interviewed by the Examiner this morning, and said:

"Surely a town of the size of Peterborough cannot do any longer without a proper and up-to-date hall and fire-fighting appliances. In our old hall the space is small. The stabling capacity for five horses is just about fit for two. Let us get out of this old-time way and enter into the spirit of modern improvements. The people of Peterborough do not want anything but what is right. It will only take a big fire in the centre of the town to properly convince us that we need better protection. The mercantile insurance rates would be vastly improved, and it would be a step in the right direction towards getting better rates for residential property. The expenditure will be money well spent, and it is something that materially affects us all as citizens. We cannot do a wiser or a better thing than to get ourselves interested in this matter and get out and vote for this worthy project on Thursday, May 4th.

TO-NIGHT
Dale's Famous Opera Singers
75c, 50c and 25c.

INTEREST IN THE GRENFELL LECTURE

Tickets Are Now On Sale at Madill's Drug Store.

Great interest is being manifested in the lecture to be given by Dr. Grenfell on Friday evening next, in the Y.M.C.A. Hall, in the interests of the Labrador Deep Sea Mission. The Dante lecture for that day will be held in the afternoon, so that it will not interfere with that to be given by Dr. Grenfell.

Everywhere that Dr. Grenfell has been the papers have spoken very highly of his lectures, and it is a very fortunate circumstance which makes it possible for this talented man to visit Peterborough.

Tickets are on sale at Madill's drug store.

YOUNG SCOTSMAN DIED YESTERDAY

Came Out From Glasgow Last Summer —Had Been Ill For Some Time.

The death occurred yesterday at the Nicholls Hospital, of Peter Morrison, a young man, 24 years of age, who had come from Glasgow, Scotland, last year. He had been ill for some time with dropsy, which was the cause of his early demise. He lived at 359 Rogers street, Fifth Ward, but the funeral will take place from the Hospital to-morrow, at 2.30 p.m.

People Who Eat
Clark's tender, tasty Lunch Tongues, eat with a zest and enjoyment unknown to those who have never tried them.

SIMPLICITY IN CHURCH WORSHIP

An Interesting Discussion at the Ministerial Association.

This morning the regular monthly meeting of the Ministerial Association was held in the Y.M.C.A. Hall, with the following members present: Rev. J. C. Davidson, president, in the chair; Rev. J. G. Potter, Rev. W. M. MacKay, Rev. Dr. Crothers, Rev. Dr. Torrance, and Rev. A. H. Brace, who acted as secretary.

The following schedule of hospital visitation was arranged:

Week of—
May 1—Rev. Dr. Torrance.
May 8—Rev. J. G. Potter.
May 15—Rev. A. H. Brace.
May 22—Rev. J. C. Davidson.
May 29—Rev. F. J. Scott.

The Protestant Home will also be included in the visitors of the ministers.

The deputation which waited upon the License Commissioners reported on their reception by the Commissioners.

A very profitable conference on "Display in church services, versus simplicity in worship," was held, and was taken part in by all the members present.

The next meeting will be held on the third Monday in June.

PETERBOROUGH LADY DELEGATES

To the Anglican Women's Auxiliary, Toronto.

The following delegates of the respective churches are attending the annual meeting of the Women's Auxiliary of the Diocese of Peterborough:—

St. John's—Mrs. Eardley-Wilmot, Mrs. Botsford, Mrs. Bennett, Miss Best and Miss McKee.

St. Luke's — Mrs. A. O. Sawyer, Miss G. R. Browning, Mrs. Henry Butcher, Mrs. T. H. Adams, Mrs. F. J. Jamieson, Miss Isobel Hay, Miss Ada Curtis, Miss Emma Gaskin and Miss Mabel Scott.

All Saints'—Mrs. Fitzgerald, Mrs. Dobbin, Mrs. Flowers and Miss Chamberlen.

APRIL WEATHER.

The rainfall during April was particularly light, only .41 of an inch falling, on three days. We had snow once—on Good Friday—to a depth of three inches. The warmest day was the 28th, with a temperature of 73 degrees; the coolest was the 22nd, 22 degrees. Though some warm days were experienced towards the end of the month, the month as a whole was cooler than usual. The sun shone brightly every day, during the month with the exception of six days.

The King of Ranges

Is a term often applied to the Happy Thought, because it reigns supreme in popular favour.

"Last year there were more Happy Thoughts sold than the total combined sales of all other ranges"

POPULAR MAN GIVEN UMBRELLA

Mr. Albert Mills Honoured by Employees of C.G.E. Works

Leaving for Alberta to Engage in Ranching—A Pleasing Event.

On Saturday afternoon Mr. Albert Wills, late of the S. and R. Department of the C. G. E. works, was given a send off by the members of that department staff at the Y.M.C.A. hall on the eve of his departure for Alberta, where he will engage in ranching.

On behalf of the members of the staff Miss May Tromley presented Mr. Wills with a silver mounted umbrella, and Mr. Robt. MacEwan, on behalf of those present expressed the deep regret they felt at Mr. Wills' departure.

During the years that he had been employed with the Company he had made himself popular with his fellow employees, and, while they regretted the circumstance which made his departure necessary, they joined in wishing him every success.

Mr. Wills goes to the west to engage in ranching operations.

DR. PATTERSON GOES TO BARRIE

Has Purchased Practice of the Late Dr. Vivian There.

Dr. W. J. Patterson, who for the last two years has been in Norwood, where he held with satisfaction the position of Medical Health Officer, has removed to Barrie, where he has taken up the practice of the late Dr. Vivian.

Dr. Patterson, who is a native of Peterborough, is a clever practitioner, and was well liked in Norwood. He graduated from Queen's College three years ago and will no doubt work up a good practice in Barrie.

Upon the occasion of his leaving Norwood a strong resolution of commendation was passed upon his work as Health Officer.

THE SOCIAL WORLD.

Interesting Personal Items Gathered by Reporters.

Mr. Gordon Lee, of Quebec, is in town for a visit.

Mrs. J. J. McBain will not receive again this season.

Mr. Jas. S. Doris left this morning on a trip to Victor, N.Y.

Mr. H. P. Kennedy of Toronto, was in town on Saturday.

Mr. M. D. Hickey, of Kinmount, was in town on Saturday.

Mr. Robert Fair and Miss Eileen Fair were in Millbrook yesterday.

Miss Long, of Toronto, was the guest of Miss S. Pilling this week.

Mr. Fred Tully of the Hamilton Bridge Works, spent Sunday in town.

Mr. S. T. Medd returned this morning from Millbrook, where he spent yesterday.

Miss Maggie Hefferman, of Westwood, spent Sunday in town with friends.

Mr. P. K. Holmes, physical director of the Y.M.C.A., spent Saturday in Toronto.

Miss Alice Hall, of Toronto, is the guest of Miss Florence Covery, Auburn street.

Mr. and Mrs. Hugh Swanson are in Port Hope on a visit, and will return to-morrow.

Mr. H. F. Kerr and Mr. R. E. Campbell, of Toronto, are guests at the Munro House

Mr. A. D. Mann, Chicago, is visiting his parents, Mr. and Mrs. Robt. Mann, Aylmer street.

Mr. Theodore Crawford, and Mr. William Montgomery of Lakefield, spent Sunday in town.

Mrs. Vanglect and Miss Tanner, of Brantford, are visiting Mrs. Dutton, Aylmer street.

Miss Nellie Pilling, of Toronto, has returned after having spent a few days with her parents in town.

The Rev. W. L. Armitage, Picton, is the guest of Mr. and Mrs. M. A. Wilcox, Bathurst street.—Globe.

Mrs. A. Williamson, of Cayuga, is visiting with her son, Mr. G. H. Williamson, secretary of the Y.M.C.A.

Messrs. Fred Terrel and W. O'Rourke, of Toronto, were the guests of Mr. and Mrs. Pilling this week.

Mr. Walter Rosebourgh, of Hamilton, returned after a pleasant visit with Mr. and Mrs. Wm. Pilling, town.

Mrs. T. Elliott of Toronto, has returned home after spending a few days with her son, Mr. H. Elliott of Montreal.

Mr. T. H. Hutchinson, late assistant secretary of the Y.M.C.A., left Saturday morning for his home in Alliston.

Mrs. R. I. Walker, who has been the guest of her sister, Mrs. W. J. Jolliffe, during the holidays, returned to Toronto this morning.

Mr. J. W. Kelly, principal of the Fifth Ward public school, returned this morning from Port Hope, where he spent the Easter holidays.

Misses E. Stuart and Mary Gell, and Mr. Geo. Gail, of Keene, have returned after a pleasant visit with Mr. and Mrs. Wm. Pilling, Bolivar street.

Mr. and Mrs. Geo. Jones, went to Hamilton on Saturday. Mr. Jones will not remove to the Ambitious City permanently for some weeks yet, however.

His Lordship Bishop Sweatman, who recently underwent an operation, was removed from the General Hospital to his home on Saturday, and he is now convalescent.

Mrs. A. H. Melville, of Peterborough, has been the guest of Mrs. D. Browne, Glenelg street, for a few days.....Mr. J. J. Lundy, of Peterborough was in town to-day.—Lindsay Post.

Mr. J. M. White and family have returned to their home, 28 Manning avenue, after spending the winter on Hunter street. Mrs. White will be at home to her friends on the 3rd and 4th Tuesday of each month.

Mr. W. G. Morrow, manager of the Toronto Savings and Loan Company, leaves to-morrow on a six weeks' trip to Europe. He will be accompanied by Hon. Senator Cox, and Mr. and Mrs. E. R. Wood.

Mr. F. H. Scobell of St. Louis, formerly of Peterborough, is in town for a few days, renewing old acquaintances. Mr Scobell left Peterborough for Winnipeg in 1881, and resided in Manitoba for about ten years, removing to Atlanta, Georgia, and subsequently to St. Louis. Mr. Scobell, while in Ontario, is looking after the interests of several parties in Georgia, who have valuable pine limits for sale.

Rev. Fred J. Sawers, Curate of Christ Church Cathedral, Montreal, came home Saturday from Montreal for a few holidays. His numerous friends will be pleased to learn that in his examinations at the Diocesan College, he took first-class standing in the theology examination and besides secured four handsome prizes. Mr. Sawers throughout his school and college course formed a confirmed habit of heading the list at examinations, and it seems that good habits as well as bad habits are hard to break. Congratulations are extended.

INJURED STOPPING RUNAWAY HORSE

Stewart Street Resident Hurt Saturday Night.

On Saturday night a man named Singleton, who lives on Stewart street while attempting to stop a runaway horse was injured. He saw a horse rushing up Sherbrooke street without a driver, and went out to stop the animal. He did not succeed in accomplishing his laudable object, however, and was thrown violently to the ground, and injured to such an extent that he required the services of Dr. Beadd, who attended to his injuries.

He is doing well to-day, and no serious results are anticipated.

A Lecture by Dr. Grenfell, in aid of Peterboro' Branch of Labrador Deep Sea Mission, will be given in the Y.M.C.A. Hall, on Friday Evening, May 5th at 8 o'clock. Tickets 25c. On sale at Madill's Drug Store. 5d-101

Two Strikes and Bases Full.

May is the opening month for out door amusements. The Peterborough Bookstore is ready with supplies of spring and summer sporting goods of the best guaranteed class. Also hammocks from 65c. to 35.00; croquet 4-ball, 6-ball and 8-ball, in best equipments. We carry the finest lines of children's vehicles. A. H. Stratton & Co.

MYSTERY SURROUNDS THIS SUDDEN DEATH

Christopher McBrian Found Dead on the Farm of Mr. Robt. Hanbidge This Morning—A Widower Who Lived Alone Dies Suddenly--Dr. Grey, County Coroner, is Making an Investigation To-day--An Inquest May Be Held--Was in Good Health.

A sudden death occurred this morning in Otonabee, and the circumstances surrounding it are such that Coroner Grey, to whom the case has been reported, has gone to the scene to investigate it, and, if the facts warrant it, an inquest will be held.

It appears that Christopher McBrian, a widower, about 65 years of age, who lives on lot 20, of the 15th concession of Otonabee, was found this morning on the farm of Mr. Robert Hanbidge, opposite whose farm he lived, by Mr. Hanbidge's two sons. The body was lifeless when found, and it was thought that the case was sufficiently mysterious to report to the coroner, which was done, and Dr. Grey went to the place at noon.

Deceased had been living alone in the house, and was as far as has been been learned, in good health up to the time of his death. He was a labourer, and had two daughters, one Bessie Amy, an unmarried girl, living in town, and the other, Mrs. J. Johnston, of Otonabee.

Up to the time of going to press Dr. Grey had not returned, and the result of his investigations was not known.

BOY KNOCKED DOWN BY DRAY

Earl Barrie Hurt on George Street To-day.

Clancy's Dray Ran Into Crowd of Boys Playing.

To-day at noon an accident occurred, by which Earle Barrie, the young son of Mr. W. G. Barrie, George street, was injured.

It appears that he with a number of other boys, was playing around the corner of George and Dublin streets, and was knocked down by Clancy's dray, which, drawn by one horse, was coming down George street. His head was cut by the horse's foot, and his arm badly bruised.

He was carried into Warne's grocery store, where Dr. McClelland attended the lad. He was afterward removed to his home, and is resting easily. There are no serious results anticipated from the accident.

Headache, Eyeache, Blurring of Print,

always show defective vision and require prompt attention. You will be surprised at the comfort experienced by wearing glasses we make for you. Our examination of your eyes is not guess work, nor the result of a few weeks study. But by a thorough knowledge of the anatomy of the eye acquired by years of study and practice, and the use of scientific instruments.

You can make dirty picture frames, or any other such articles, look like new if you clean them the Sunlight way. Chop very finely a piece of Sunlight Soap and put it into a bottle with a teacupful of hot water, shaking it well and adding a wine glass full of spirits of ammonia. Paint the frames with this liquid, let it stay on a few minutes, then wash off with a soft brush and cold clean water, and polish with clean chamois leather. Sunlight Soap is the only soap that can be used successfully in every cleansing operation in the household.

SUNLIGHT SOAP

ASK FOR THE OCTAGON BAR

Sunlight Soap washes the clothes white and won't injure the hands.

LEVER BROTHERS LIMITED, TORONTO. 11a

Nine Nations

Now Use Liquozone. Won't You Try It—Free?

Millions of people, of nine different nations, are constant users of Liquozone. Some are using it to get well; some to keep well. Some to cure germ diseases; some as a tonic. No medicine was ever so widely employed. These users are everywhere; your neighbors and friends are among them. And half the people you meet—wherever you are—know some one whom Liquozone has cured.

If you need help, please ask some of these users what Liquozone does. Don't blindly take medicine for what medicine cannot do. Drugs never kill germs. For your own sake, ask about Liquozone; then let us buy you a full-size bottle to try.

We Paid $100,000

For the American rights to Liquozone. We did this after testing the product for two years, through physicians and hospitals, after proving, in thousands of different cases, that Liquozone destroys the cause of any germ disease.

Liquozone has, for more than 20 years, been the constant subject of scientific and chemical research. It is not made by compounding drugs, nor with alcohol. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of $1,000 for a disease germ that it cannot kill. The reason is that germs are vegetables; and Liquozone—like an excess of oxygen—is deadly to vegetal matter.

There lies the great value of Liquozone. It is the only way known to kill germs in the body without killing the tissue, too. Any drug that kills germs is a poison, and it cannot be taken internally. Every physician knows that medicine is almost helpless in any germ disease.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

Asthma, Abscess—Anæmia, Bronchitis, Blood Poison, Bright's Disease, Bowel Troubles, Coughs—Colds, Consumption, Colic—Croup, Constipation, Catarrh—Cancer, Dysentery—Diarrhœa, Dandruff—Dropsy, Dyspepsia, Eczema—Erysipelas, Hay Fever—Influenza, Kidney Diseases, La Grippe, Leucorrhœa, Liver Troubles, Malaria—Neuralgia, Many Heart Troubles, Piles—Pneumonia, Pleurisy—Quinsy, Rheumatism, Scrofula—Syphilis, Skin Diseases, Stomach Troubles, Throat Troubles, Tuberculosis, Tumors—Ulcers, Varicocele, Women's Diseases.

All diseases that begin with fever—all inflammation—all catarrh—all contagious diseases—all the results of impure or poisoned blood.

In nervous debility Liquozone acts as a vitalizer, accomplishing what no drugs can do.

50c. Bottle Free.

If you need Liquozone, and have never tried it, please send us this coupon. We will then mail you an order on a local druggist for a full-size bottle, and we will pay the druggist ourselves for it. This is our free gift, made to convince you; to show you what Liquozone is, and what it can do. In justice to yourself, please accept it to-day, for it places you under no obligation whatever.

Liquozone costs 50c. and $1.

CUT OUT THIS COUPON

for this offer may not appear again. Fill out the blanks and mail it to The Liquozone Company, 457-464 Wabash Ave., Chicago.

My disease is.....

I have never tried Liquozone, but if you will supply me a 50c. bottle free I will take it.

VALUABLE HORSE FOR BREEDING

An Effort to Introduce Improved High Bred Stock.

The black horse Gradicator, lately purchased by some gentlemen at Peterborough is not only a well bred horse, but he is rich in producing blood on both sides of his pedigrees. His sire, Agitator, 2222, is a son of Gov. Sprague 444 the sire of 34 trotters and four pacers in the standard rank; he by Rhode Island 287, who also has a goodly number to his credit in the 2,30 list and through his sons has over 60 more representatives in the list; he by Whitehall, another speed producer and a son of North America. The dam of Gradicator is Pierpont Girl, 2,24 1-4, a daughter of Atlantic 1003. Atlantic has 25 sons and daughters on the roll of honour; he by the famous Almont 33, who has to his credit 37 in the 2,30 list, and had at the commencement of last year's racing season, 720 additional standard performers to his credit; he by Abdallah 15, the sire of 5 trotters in the list, and oh the son of the Great Hambletonian 10, the fountain head of excellence in the history of the American light harness horse. 2nd dam by Blazing Star, also a sire of speed, he by Henry Clay, a son of Romeo who also is represented with several performers in the 2,30 list.

This breeding is satisfactory at every point and as Gradicator is a horse of individual excellence, possessing size, substance and superior style, he is a model horse for a county like Peterborough and neighborhood. A few days ago we received a letter from one of the best informed and most intelligent horsemen at Gananoque and he therein informed us that he (Gradicator) during his term of service in that section, had left more good stylish and substantial colts than any horse before or since. They not only were good solid colours, but had size, substance and almost every other good quality to recommend them. Coming from the quarter this did, no higher recommendation could be repeated in favour of the horse that will in the near future be at the disposal of breeders in Peterborough and vicinity.

The syndicate owning the horse will donate $100 in prize money to the Peterborough Industrial Exhibition for the three best colts they get of Gradicator —$60 to the 1st; $25 to the 2nd and $15 to the 3rd. The prizes will be offered in 1906.

State of Ohio, City of Toledo, } ss.

Sold by all Druggists, 75c.

Take Hall's Family Pills for constipation.

SOME OLD SAWS

Pertaining to the Month of May, Etc.

The following proverbs, some of them very ancient, referring to the month of May, have been culled from a recent publication issued by the Weather Bureau, of Washington, D. C.:

A cool April the barn will fill,
Moist April, clear June.
Till April's dead, change not a thread, (of clothing.)
A dry May brings nothing.
May damp and cool, fills the barns and wine vats.
A hot May makes a fat churchyard.
A wet May is followed by a dry June.
Wet May, dry July.
A dry spring, rainy summer.
Hoar frost on May 1st, a good harvest. (A heavy hoar frost was to be seen on Monday morning, May 1st, this year.)

Concessions to Colonials.

London, May 1.—The Royal Academy banquet was held at Burlington House Saturday night, 250 persons being present. The Prince of Wales and the Duke of Connaught were the chief guests. The president announced that the academy had decided hereafter to admit certificated colonial students to academy schools without preliminary examinations.

MacEWAN SIGNS HARVEY PARKER

Clever Southpaw Last Year Oshawa Secured.

Will Work With Douglas on the Slab This Season.

Things seem to be coming Peterborough's way in baseball lines this year, and the latest piece of news will be most welcome to the fans.

Harvey Parker, who pitched such good ball for Oshawa last year has been signed by Manager MacEwan and will report here at once. Parker was sized up by Mr. MacEwan last season as the best pitcher in the Midland League, and in his work here against the local team he showed up in excellent form.

He signed with the Fort Dodge team in the Iowa State League, but was released because of lack of experience. He should make a good man to work in with Douglas.

This will give Peterborough a good pitching staff, and before the season ends the fans expect the team to make a good reputation.

FIRST GAME OF SEASON SATURDAY

Shelburnes of Toronto Will Be Up Against Locals.

The first baseball game of the season will take place on Saturday next when the Shelbournes, of Toronto, will play an exhibition game with the locals The Shelbournes are a promising lot of players and should give the Peterborough team a good hard game. The locals will have a strong team on, however, and with Douglas and Parker doing the slab work should put up a good argument. Torrance will do the receiving in this game.

LACROSSE.

A meeting of the Peterborough Lacrosse Club Executive Committee was held Friday night in Hall, Medd and Davidson's office. The Club is trying to get a game on for May 24th. A committee was formed to arrange for the T. A. S. grounds, and a successful season is anticipated.

BASEBALL.

The Junior West Ends on Saturday defeated the Daisies in a friendly game of baseball on the latters' grounds by the score of 21-61. The return will be played in the West End grounds next Saturday.

• • • •

The Port Hope Guide says:—"President Pethick called up by 'phone this morning and informed us that Oshawa was desirous of having a single schedule, and Bowmanville also favoured the idea. A meeting of the executive of the league will be held in Bowmanville on Thursday evening next, when this, with several other matters will be discussed. It is quite probable that Mr. J. S. Hamly will be nominated by Oshawa as an umpire. Jack is a first-class official, and every club in the league will be pleased to see his name added.

• • • •

On Monday night and each succeeding night next week St. Paul's Guild team will practise.

• • • •

The St. Andrew's Guild Baseball Club hold their first practice this evening at 7 o'clock, sharp. All members are asked to be out.

• • • •

The schedule committee of the City Baseball League will meet to-night at 8 o'clock, in the T. A. S. rooms.

• • • •

The Quakers will hold a practice to-night. All players are requested to turn out, and a good work-out is needed to get the team in shape.

• • • •

The T. A. S. team had a very satisfactory work-out on Saturday.

FOOTBALL.

The Quakers and O.C.W's had another good practice game Saturday afternoon. This was as a result of the Business College team failing to show up, and consequently their game with the Quakers did not come off. However, that did not prevent a good game, being indulged in by the two teams and as this kind of practise does the boys more real good than any other. The two teams are coming into shape in good style. Of course the play is by no means perfected yet and a lot of loose and ragged play was given out, but this was partly owing to the high wind blowing right across the field which prevented scoring or any fine work.

The O.C.W's are more scientific players on the whole but could not seem to get the ball through the goal so well as the Quakers who kick a lot stronger and bore in. However, before the season is over the fellows will play a lot better and its as yet far too early to particularize.

• • • •

The Quakers will hold a practise to-night. All the players are asked to turn out as matters of importance are to be discussed.

A Problem Solved

Ozone is ozone and in buying it the problem is to get the purest form. "Solution of Ozone (the coupon kind)" is the purest form in which Ozone is put up. In addition each bottle contains a coupon entitling you to a package of "Celery King" free, and it is well known that you should take "Celery King" along with Ozone.

We put "Celery King" coupons in our Ozone bottles because no other firm can give "Celery King" with Ozone. By buying "Solution of Ozone (the coupon kind)" you get the purest and most concentrated form of Ozone, and in addition, you save the expense of buying "Celery King" to use with it.

No other kind of Ozone offers this advantage. Ask your druggist for it, and if he hasn't it, write to the Public Drug Company, Bridgeburg, Ont. Sold by W. B. WARNE, Druggist.

Lady Brassey Coming.

Montreal, May 1.—E. Marquette, Quebec Government immigration agent, has received word that Lady Brassey will soon visit Canada in order to look into the conditions of the people who have been sent to this country by the east end immigration fund of London, of which Lord Brassey is president.

E. F. Clarke Testimonial Fund.

Toronto, May 1.—H. B. Osler, M. P., chairman of the committee for this fund, acknowledges the receipt of $19,-889.83 up to date.

Jury Voices Fire Need.

Montreal, May 1.—Burnt to death in a fire of accidental origin, was the verdict in the coroner's inquest into the death of the sixteen victims of the recent fatal conflagration at Ste. Genevieve. The jury added a number of recommendations voicing the need of greater care in the inspection of public building by the Municipality and Province; of the necessity for better fire-fighting facilities in the rural communities, and for fire drill and improved systems of fire escapes in all public and private institutions.

Died From Wounds.

Buffalo, May 1.—Wm. McMahon of Alliston, Ont., who was stabbed by an Italian at Lockport on Thursday, died Saturday.

SCOTSMAN'S PROPHECY.

When Canada Lays Foundation, Will Take Empire's Burden.

London, April 29.—(C. A. P.)—Referring to Earl Grey's words about naval burdens, The Edinburgh Scotsman says these words should go home to the people of Canada, who are loyal and generous-hearted.

After referring to the past services of Canada during the war, the preferential tariff, and the taking over of Esquimalt and Halifax, The Scotsman says: "Still greater evidence will be forthcoming that this stalwart child of the Empire is ready and willing to bear its part of the burden of Empire as soon as time for thought and action is afforded from the labor that still strains every nerve—that of "laying securely the foundations of a magnificent future in a country as large as Europe."

Warm Fighting In Arabia.

Hodeida, Yemen Province, Arabia, April 29.—Sanaa, the capital city of Yemen Province, capitulated to the insurgents during the night of April 26. The revolutionists are now proceeding to besiege Manakha. The latter has a garrison of 5,000 men, but the troops are mutinous. Jews who left Sanaa before the surrender and who have arrived at Hodeida say the town was subjected to constant night attacks.

Afflicted with Erysipelas For Ten Years.

Cured by Four Bottles of Burdock Blood Bitters.

Mrs. N. Peister, of Brighton, Ont., was Cured Two Years Ago and Has Had No Return Of It Since.

Read what she says:—"It is now about two years since I was cured of a terrible attack of Erysipelas, with which I had been afflicted for about ten years. I had tried almost everything, including medicine from several doctors, but could get no relief. I had given my case up as hopeless, but I procured five bottles of Burdock Blood Bitters, and it completely cured me. In fact, the cure has been permanent. It is now two years since I took Burdock Blood Bitters, and I have not had the slightest sign of the disease returning. I fully believe that your wonderful remedy has taken it so completely out of my system that I shall never be bothered again with it. I have the greatest of faith in Burdock Blood Bitters."

The STA-ZON is the latest eyeglass success. We recommend them for comfort, security, durability and neatness. We measure the defect in your vision and exactly neutralize it with lenses.

QUICKLY CURED.

Pollard, Ark.
"Enclosed please find fifty cents for two boxes of Smith's Buchu Lithia Pills. I have a few of the last lot, but will be out soon. I am finishing up the fourth box, and when I commenced using the pills I had to get up out of bed every night from three to fifteen times to urinate, and the calls were fully as frequent every day. I now do not have to get out of bed more than once during the night and often not at all. I feel confident that they will cure any curable case if used according to directions and for a sufficient length of time. Hoping to receive pills by return mail, and wishing you much success, I remain very truly yours,"
G. W. R. McDONALD.

To cure Constipation, Sick Headache and Biliousness in one night, use Smith's Pineapple and Butternut Pills. Only 25 cents at dealers.

ACCIDENTALLY SHOT MOTHER

Daughters Distressing Experience At Strathmore.

WHAT A CHANCE GLANCE DID

Noticing Speck of Rust on Her Husband's Revolver Which Lay in a Trunk, Mrs. Shiells Took It Out to Wipe It — Charge Exploded and Mrs. Woods Was Killed Instantaneously.

Cornwall, May 1.—A loaded revolver left carelessly in a trunk was the primary cause of a tragedy which threw the quiet little hamlet of Strathmore on the first concession of Roxboro into a turmoil of excitement Saturday, and resulted in the accidental death of Mrs. Daniel Woods, who lives east of the G. T. R. depot, Cornwall.

She went to Strathmore on Thursday to visit her daughter, Mrs. Arthur Sheills, and she intended to return to Cornwall on Saturday. Previous to her departure she went upstairs with her daughter, the latter opening a trunk to get some socks which had been left there by Mr. Woods. A 32-calibre revolver, in which Mr. Shiells had placed two cartridges, lay in the trunk, and Mrs. Shiells noticing a speck of rust on the barrel picked it up to polish it with the corner of her apron.

The gun went off and the bullet struck Mrs. Woods over the left breast and just under the collar bone. It severed the left clavian artery, causing almost instant death.

Chloroform Kills Teacher.

Windsor, May 1.—"Idiosyncrasy to chloroform" is given as the cause of the death of Clifford Kennedy, a well-known educational expert, who died on the operating table at Harper Hospital, Detroit, Saturday, where he had gone to have a slight surgical operation performed.

Mr. Kennedy had just been anathetized when the surgeons became aware of symptoms of collapse, and before anything could be done he was dead. Deceased came to Detroit from Toronto about three years ago to assume charge of the shorthand department of the Gutchess Business College. He was known as one of the most expert teachers of shorthand in the country. His remains will be taken to his old home, near Barrie, for interment.

Hurt In Trolley Collision.

Windsor, May 1.—Frank Stodgell, a departmental manager for Hiram Walker & Sons, Walkerville, and Alexander Brodie, a traveling salesman of Hamilton, were among the victims of a serious electric railway collision at Newport, Mich., Saturday night, and both are now in hospitals at Toledo. One of the passengers, Harry J. Wheeler, a traveling man, was killed, and over a dozen others more or less injured. The cars met on a curve while both were running at a high rate of speed.

He Fooled With a Gun.

Dundas, May 1.—While fooling with a gun yesterday morning, James Larmour was perhaps fatally injured, a 22 short bullet penetrating the skull, leaving him in a very serious condition. He was taken to the General Hospital, Hamilton, last evening. He was about 18 years of age and was in company with several other young men.

Wagon Fell on and Killed Him.

Uxbridge, May 1.—Charles Dalington, who has been engaged in pop manufacturing here for many years, was accidentally killed near Vivian Saturday by his wagon falling on him. He left home in the morning with a load of pop for Sutton and other places. He got on a bad road and had to get off his wagon to turn round, and was in the act of steadying it when the accident occurred. He leaves a widow and one son.

LAREDO TORNADO SWEPT.

Reports Are Conflicting But the Deaths Are Placed at From 100 to 20.

St. Louis, Mo., May 1.—A special to The Post-Dispatch from Austin, Texas, says:

Additional particulars received here of the Laredo tornado are to the effect that more than 100 persons were killed and several hundred more or less injured.

$1000 REWARD

is offered as a guarantee that neither

Dr. Pierce's Favorite Prescription
NOR
Dr. Pierce's Golden Medical Discovery

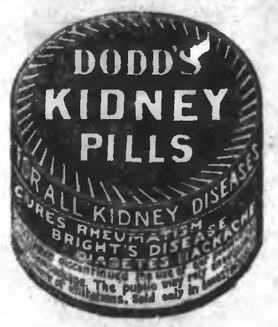
contains alcohol, opium, or any harmful drug. Any one publishing false statements concerning their ingredients will be prosecuted. Doctor Pierce's Family Remedies are compounds of medicinal principles, scientifically extracted from native roots that cure the diseases for which they are recommended. They are medicines which have enjoyed the public confidence for over a third of a century. They are **medicines not beverages**, made to satisfy a craving for "booze."

"Golden Medical Discovery" regulates and invigorates stomach, liver and bowels and cures dyspepsia, purifies the blood and tones up the system generally.

"Favorite Prescription" cures female weakness, irregularities, exhausting drains, painful periods and kindred ailments peculiar to women. Accept no substitute for these medicines, each of which has a record of marvelous cures. Substitution means selfishness on the part of the dealer who is looking for the greater profit on an inferior article.

"Our daughter who was attending college became very nervous and we were advised to try Dr. Pierce's Favorite Prescription," writes Mrs. M. C. Fox, of 57 E. Leonard St., Grand Rapids, Mich. "We did so and then were advised to get the 'Golden Medical Discovery' also. She took four bottles of the 'Prescription' and three of the 'Golden Medical Discovery,' and you never saw such a change in a person. She said she did not feel like the same person. She was about seventeen years old at the time. I will gladly recommend Dr. Pierce's medicines to every one. I advise parents who have young daughters who suffer from nervous troubles to try Dr. Pierce's Favorite Prescription at once. I am sure it will help them."

$50,000 GIVEN AWAY, in copies of The People's Common Sense Medical Adviser, a book that sold to the extent of 680,000 copies a few years ago, at $1.50 per copy. Last year we gave away $50,000 worth of these invaluable books. This year we shall give away $50,000 worth of them. Will you share in this benefit? If so, send only 21 one-cent stamps to cover cost of mailing only for book in stiff paper covers, or 50 stamps for cloth-bound. Address Dr. R. V. Pierce, Buffalo, N. Y.



Thirty-five guests in one hotel were killed outright.

Fifty railroad coaches belonging to the International and Great Northern and Mexican National roads were blown away.

It is estimated that more than 150 houses were blown down by the storm, including the two hotels of the town. The Governor is inquiring into the matter with a view to sending relief to the storm sufferers.

Every Block Suffered.

Laredo, Texas, May 1.—(Via Bermuda, Texas.)—Twenty-one persons were killed and scores injured in Laredo and in New Laredo by the tornado Friday night. Rumors of others killed in places outside Laredo lack confirmation. The property damage is large.

Four of the dead persons, all members of the same family, were all crushed to death by the falling of the heavy walls of the house which they occupied. Many others met their fate in a similar manner.

A trip through the town fails to show a block that has not suffered from the storm. Trees, fences and telegraph and telephone poles, corrugated roofs, chimneys and walls and debris of all kinds strew the streets.

EXPLOSION IN A MINE.

Thirteen Miners Entombed and Probably Killed Near Wilburton, Okla.

Wilburton, Okla., May 1.—Thirteen miners were entombed and probably killed by an explosion early yesterday in the Missouri, Kansas & Texas Coal Co.'s mine, near Wilburton. Their bodies may not be recovered for several days.

The men went into the shaft at midnight. It is suggested, from the force of the explosion, which could be heard for miles around, and which tore heavy timbers aside and piled tons of dirt into the shaft, that a bad shot set off some dynamite which had been stored conveniently for work in pushing the entries.

The shaft is 250 feet deep. The men were supplied with air fanned from the shaft, and by means of compressed air tubes. It is thought that the air pipe was burst by the explosion, but air has been steadily pumped all day, with the remote hope that some of the entombed men may have escaped.

Rescuers began work within a few minutes after the explosion. At dark last night the workers were still 30 feet from the bottom of the shaft.

Foreman Steiner had scarcely reached the bottom of the shaft when the explosion occurred. The heels of his shoes were torn off and thrown to the top of the shaft.

Tank Explodes; Kills Two.

Philadelphia, May 1.—Two men were killed last night by the explosion of a tank in the electric light plant at the Broad street station of the Pennsylvania Railroad. The tank contained water and air, and was used to regulate the running of elevators.

Four Killed: Twelve Hurt.

Greenville, S. C., May 1.—Four were killed and twelve hurt in the wreck of the Ogden educational party special Saturday, and practically all the baggage, valued at $12,000, destroyed. A misunderstanding as to orders led to the accident.

THE TEAMSTERS' STRIKE.

Twelve Labor Leaders Indicted For Conspiracy—Shooting and Rioting.

Chicago, May 1.—Chicago had on working clothes yesterday as a result of the teamsters' strike, which yesterday failed of spreading or of settlement. From daylight until dark, downtown streets were crowded with heavily laden wagons, giving the city a weekday appearance. Believing that the fight now going on for supremacy between the Employers' Association of Chicago and the union teamsters is to be a protracted one business men yesterday sought to procure an extra stock of materials and supplies.

Early in the afternoon a committee representing the Employers' Association met Mayor Dunne's peace committee. The Chicago Federation of Labor passed a resolution requesting President Roosevelt, Governor Dineen and Mayor Dunne to investigate the existing conditions in Chicago before complying with any request made for the use of the militia during the present difficulty.

Early yesterday 500 men and boys, headed by a number of striking teamsters attacked the main stables of the Employers' Teaming Co. and stampeded the animals. This was a violation of the Federal injunction issued by Judge Kohlsaat.

Wm. and Harry Gready, picture frame manufacturers, were shot early yesterday and severely wounded through a misunderstanding.

Twelve labor leaders, prominently identified with the strike now in progress, were indicted Saturday night by a grand jury. Each indictment contains six counts and charges the men with conspiracy.

Peter Klausen, a grocer, died Saturday of injuries inflicted by strikers in front of Montgomery, Ward & Co. on Wednesday, when he delivered goods. Fighting in the streets Saturday was the most vicious since the beginning of the strike. Three persos were shot, two were stabbed, and fully a score suffered bruises and scalp wounds. It is not expected any of the injured will die. In nearly every portion of the business quarter there were numerous hand to hand encounters between union men and non-union men, aided in many places by policemen.

Mayor Dunne last night issued a proclamation to the citizens of Chicago, declaring that "in the present state of public excitement it is improper and dangerous for the people of the community to accompany or go near the wagons carrying armed men, and I request the people of this city to refrain from so doing."

WHEAT GOES STILL LOWER

CHEESE MARKET IS IMPROVING.

(Canadian Associated Press Cable.)

London, April 29.—There has been a fair amount of business passing this week in Canadian cheese. White is 57s to 58s, colored 56s to 57s; bulk white cannot be classed as strictly "finest."

Bacon, No. 1, is 57s, 59s, 63s for light and heavy; 54s, 56s, 59s; No. 2, 55s, 56s, 62s; No. 3, 55s, 57s, 60s. There is a good demand and prices have been hardened during the week.

Railway Commission's Report.

Ottawa, April 29.—The first annual report of the Railway Commission of Canada has been prepared. It covers the period from February 1 of last year to December 31.

In the eleven months 79 public sittings were held, of which 65 were on the western circuit. A total of 102 applications were heard and 307 orders issued. There were 53 inspections by officers of the board.

Since the end of the last year, the period covered by the report, the commission has been even more active than before, while the staff has been thoroughly organized.

An Unwilling Chesterfield.

It was a crowded tram car. Amongst those who could not find seats was a young lady. Close to where she stood an old man was sitting. He struggled as if to rise. The young woman cast a glance of scorn at one or two men hiding behind newspapers. "Please don't get up," she said to the old man. "I beg you won't." The conductor rang the bell and the car went on. The old man's features worked convulsively, and he mopped his face with his handkerchief. At the next stopping place he again tried to rise and again the young woman tried to stop him. "I would much rather stand," she said, continuing to block his way. "I don't care whether you would, or not," said the old man, crimson with fury, "I want to get out. You've made me come half a mile too far already. Here, you, stop the car." But it was too late, the bell had already run, and he had to wait until the next stopping place was reached.—The London Tatler.

NOT MEDICINE

Babies don't need medicine — older children very rarely. Better nourishment will generally set them right. Scott's Emulsion is the right kind of nourishment and the kind that will do them the most good. Scott's Emulsion contains nothing that children should not have and everything that they should.

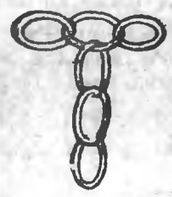
ODDFELLOWS CHURCH PARADE

Members of Peterborough and Otonabee Lodges Attended George Street Methodist Church.

Nearly 250 Members and Visiting Brethren Were Present—Resolution of Thanks Passed.



HEannualchurch parade in commemoration of the 86th anniversary of the formation in America of the Independent Orderr of Oddfellows took place last night, when the members of the Peterborough and Otonabee Lodges, together with many visiting brethren, to the mumber of about 250 attended the George street Methodist church. An able and eloquent sermon was delivered by the pastor, Rev. Dr. Crothers, upon a topic pertinent to the occasion.

The preacher took as his text, Romans xiv, 7, "For none of us liveth to himself, and no man dieth to himself."

The apostle Paul was a man who took a very wide view of things, laying down principles, which were not only applicable in his own time, but in every age down to the present. Certain troubles regarding matters of everyday life were distressing the Romans at that time, which were treated in a broad-minded manner, by St. Paul in the doctrine of interdependence which he taught.

Two or three hundred years ago, the preacher remarked, people seldom left their own parish or country. The great facilities for travel offered in the present day have completely altered this condition of things, and the different peoples throughout the world now interlinked their business and social life. There are some words which stand up like mountain peaks, and cannot be lost sight of. One of these is responsibility. The humblest man is bound to say, "I have an undying influence." There is a mutual interdependence between all creations of nature, everything being taken care of in the Divine economy. The uselessness of trying to live for oneself was shown in the Biblical case of the "rich man." To get the best out of life we must follow the example of our Lord Jesus Christ.

In illustration of the completeness of the social interdependence, the preacher instanced the phase of it seen in family life, in the home, where the great influences of life originated, and where, if a mutual interdependence does not exist, it is not a home in the Biblical sense of the word. In further illustration was then cited the case of the church which was commissioned to go into all the world and preach the Gospel. Some would limit the work of the church to questions of doctrine, which is a narrow view. If we are to have a higher type of civilization, we must have people in the pulpit and in the pew, who are not afraid to speak out, and to accept their responsibilities. It is a poor and beggarly idea for people to try to get through this world simply to save their own souls. There is a wider and a broader view — that of trying to save others. There should also be a bond of unity between different congregations and creeds.

Again, in the community, the speaker remarked, the circle widens. We cannot build up barriers between different classes. While it is true that we cannot divide the world's goods equally, and that the parable of the five talents is universally applicable, it is a gratifying fact that the rich are more and more trying to live for the poor. When the employer takes a deeper interest in the employee a better condition of things will exist. The cases, were instanced, of the noble work done for humanity by John Howard and by Wilberforce, who as long as the race stands, will be remembered. Would you rather, the preacher asked gather together things of the world, than have an influence for the betterment of your fellowmen?

The preacher then turned his attention to several questions pertinent to the society assembled. The church cannot accomplish all the benevolent work necessary to be done, and he was glad to see the manner in which it had been taken up by fraternal societies, Which are doing a work which the church was unable to do, or, at least, did not do. It is quite proper that the benevolent work of the societies should be confined to their own members, as by this means it is systematized. The present occasion was the 86th Anniversary of the Society which was organized in America by Thomas Wilday on the 26th of April, 1819, with an attendance of six gentlemen at the initial meeting. There are at present 13,000,000 Oddfellows in the world, the society spending over four millions of dollars in benevolent work annually, over one hundred millions since its foundation. In Ontario $63,000 had been expended in sick benefits during the year 1901, over 3,000 people having been the recipients of this. The total amount spent in Ontario including funeral and other expenses was $105,000.

The preacher instanced a case which had occurred at the hospital recently, in which the benevolent work of the society had come under his observation and had afforded him great solace and comfort.

The three principles upon which the society is based,—"Friendship, Love and Truth," are three important principles. There are true friends and false friends, and when we have true friends we should cherish them. We must also extend friendship, as it is not all on one side. Truth in heart and conduct is what we are to-day most in need of. Our country wants men who will say I want truth rather than position or place. The crowning principle of the trio, is Love, which will always give its best. The preacher closed with an apt quotation from the well-known lines beginning, "Thou must be true thyself, if thou the truth would teach."

The musical service was of a particularly excellent character. The anthem "Softly Now the Light of Day," was rendered with exquisite ensemble effect by the choir, the solo being taken by Miss Bertha Parnell, who also rendered sweetly with splendid effect a soprano solo, "Home at Last." In the closing anthem "Jubilate Deo," the solo was taken by Miss Chesty in good voice, and with splendid interpretation.

At the conclusion of the service the members of both lodges marched back to the hall where a resolution of thanks to the pastor, the choir and the congregation was unanimously adopted on motion by Mr. W. S. Robinson, seconded by Mr. McFadden. A short meeting was then held, the chair being taken by Lieut.-Col. Miller, who acted as Marshall of the parade. Brief addresses were delivered by several members.

—House painters and paper hangers wanted; none but union men need apply. Fred Cook, sign writer, 'phone 119 3d

—The coal merchants booked a good many small orders for coal this morning. The weather clerk must have stock in some coal company.

—Last night in the Charlotte street church, Mr. R. N. Jolliffe sang Kipling's "Recessional," in excellent voice and with splendid effect.

—Rev. J. J. Wright presented the claims of Queen's University to the Woodville congregation, the members of which responded with $700.

—Rev. Mr. Lanceley of Port Hope, will deliver his deliver on "The Man on the Street" in the George street Methodist church on Tuesday evening, May 9th.

—The name "Nordheimer" on a piano stands for the highest type of piano construction. Information concerning these pianos at H. H. Edmison's pharmacy.

—A four-foot silent salesman showcase, new, especially suited for cigar trade, may be had at a bargain at the "Frammery," 136 Hunter street, two doors west of Post Office. d100ff

—There will be a special meeting of the Lady Maccabees' Lodge at M. A. Pratt's store, corner of George and McDonel streets, to-morrow night at eight o'clock.

—The concert under the auspices of the All Saints' Girls' Guild announced for next Wednesday, has been postponed until Friday evening, May 5th. The Harmony Male Quartette will assist in the programme.

—St. John's Young People Association will meet at the Guild room at eight o'clock. An interesting meeting is expected. Several addresses on topics of interest and also a musical programme is announced.

—For potatoes, parsnips, carrots, beets, turnips, cabbage, hams, pea-meal bacon, eggs and butter, canned tomatoes, peas and corn, cheap; also nice mixed biscuits, call upon James R. Bell, 161 Hunter street. 'Phone 455.

—A gold locket and medal—both hanging to a key ring — were lost over a week ago. The initials of owner, "E. L." were engraved on locket. Finder will be suitably rewarded by leaving at Examiner office.

—A special session of the B.Y.P.U. will be held to-night in the Park Street Baptist Church. Mr. Ramsey, of England and Mr. Geo. Edwards of Wales, will render instrumental selections. Two papers will be read. A large attendance is expected.

—Five or six boat cars consigned to the Peterborough Fuel and Cartage Company, are standing on the Bethune street siding, between Hunter and Simcoe streets, showing badly battered sides. They were in a run-off at Port Hope to which their ribs were broken and abraded.

—In connection with the series of Dante lectures, beginning to-night, it may be explained that the words, "non-transferable," on the tickets, simply means that the same person shall use the tickets throughout the week, and not necessarily the person who bought the tickets.

—The Sunday afternoon meeting of the Y.W.C.A. was unusually well attended. Rev. J. G. Potter gave a very interesting talk to the young women on their opportunities for work in the Association. Next Sunday Miss Alice Scott will give a talk on the work in the hospital at Gleskin, Alberta.

—Little Lake Cemetery is at present undergoing a thorough cleaning up. The grass has all been raked over and cut and is looking lovely, far greener than most lawns at present. The drives are in perfect condition and is still up to its standard as one of the most beautiful burial grounds anywhere.

—One of the best attended Strangers' Teas was held in the Y. M. C. A. on Sunday afternoon. The guests included strangers who hail from North Wales; Wrexam, N. W.; Lancashire, Eng.; Cork, Ireland; Montreal; Worcestershire, Eng.; Manvers; Syracuse, N. Y.; Hastings and New Glasgow, N. S. The tea was furnished by the ladies of St. John's Church.

—The notion that tea is injurious to persons of weak nerves is a false idea, as has been proven by the eminent scientist Jonathan Hutchinson. Tea is in reality a nerve nutrient and is extremely beneficial to weak nerves, especially when you use pure tea direct from the gardens, packed in sealed lead packets, such as the "Salada" Ceylon Tea, which received the highest award and gold medal at St. Louis Exposition.

—The annual sermons in the interest of education were preached yesterday in the Mark street Methodist church, by Rev. Mr. Clare of Millbrook, who gave two eloquent discourses. The text in the morning was taken from Gen. xxxii, 28, and in the evening from Romans vi, 23. Special music was ably conducted by the choir. The collections were in excess of last year's amount. The attendance was large at both services.

—Chief of Police Rosser states that up to 2.30 p.m. to-day, only 432 dog tags have been taken out. There are 1,000 to be accounted for and if this matter is not looked up there is trouble ahead for delinquents. The day of grace is passed. The dog has had his day and now the police will have their innings. The latter will be armed with dangerous-looking revolvers and every untagged dog will be shot—at. Of course in this case if there should be any fire-(ing) the brigade will not be needed.

—In Friday's paper a slight mistake occurred in the report of the evidence given by Inspector Cochrane in the article "Liquor Case at Police Court," which is now corrected. The article reads that Mr. Cochrane saw "several" men passing out, etc., whereas Mr. Cochrane swore that he saw "three men' one, Mr. Conroy, one a man whom he thought he knew, and another man whom he did not know. This is done in justice to Mr. Conroy's wish as it stated plainly that there were only two men besides himself in the house.

—Two handsome signs, the work of the firm of Messrs. J. J. Turner & Sons, have recently been erected and have attracted considerable attention. One of these is that erected for the new butcher firm of Fleetwood and Westlake, at the corner of George and Brock streets. The background of the sign is black with gold lettering, while a beef's head stands out in the centre in bold relief. The other sign has been erected over the White House on Charlotte street. It is a wire sign with gold letters, and like that mentioned above is a credit to the artists.

LAST MEETING A GOOD SUCCESS

"Secret of a Happy Life" Subject at Y. M. C. A. Yesterday.

The last Popular Men's Meeting of the season at the Y.M.C.A. had a large attendance yesterd ay afternoon.

Rev. W. J. Jolliffe gave a pointed impressive address on the "Secret of a Happy Life."

Miss Clara Belleghem gave a solo in her usual good voice. The orchestra was in attendance and strengthened the song service so ably conducted by Mr. Homer Herd.

The meetings will be continued early in September.

A Saturday night Bible class taking up the "Travels of Paul" will begin on Saturday evening next, and promises to be a strong feature for the summer months.

Good Health and Success

GO HAND IN HAND WHEN THE BLOOD IS KEPT PURE AND RICH BY

Dr. Chase's Nerve Food

Red blood means health, strength, courage, cheerfulness, power of endurance and a well-nourished brain that likes to accomplish things.

The secret of health is, after all, in the blood, for with an abundance of rich, red blood the nervous system is nourished and sustained the lungs, heart stomach, liver and kidneys are filled with the vigour and energy necessary to accomplish their work and there is no room for weakness and disease.

Dr. Chase's Nerve Food builds up strengthens and invigorates the the whole human body because it actually forms rich, red blood.

Indigestion sleeplessness, nervous headache irritability, nervousness, lack of energy and strength and failure of the bodily organs to perform their functions are almost invariably the result of poor, weak, watery blood.

The use of Dr. Chase's Nerve Food completely overcomes these symptoms and by filling the whole system with new vigour gives new hope and confidence and replaces weakness and disease with health and strength.

Dr. Chase's Nerve Food, 50 cents a box, 6 boxes for $2.50, at all dealers or Edmanson, Bates & Co., Toronto. The portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every box. 7

ASSIZES CLOSED ON SATURDAY

Several Cases Were Held Over.

Docket Was Unprecedentedly Large—Non-Jury Case Will Be Heard in June

The assizes closed on Saturday afternoon, several cases remaining upon the docket. This is a somewhat noteworthy fact, as it is the first instance of the kind on record in the history of the Court in Peterborough, as the sitting of the Court has always heretofore been concluded within a week's time, with all cases disposed of. Hon Justice Anglin was compelled to leave town to open Court in Perth to-day.

The case of Ritchie vs. the Peterborough Canoe Company, was, as stated in Saturday's Examiner, settled privately, owing to the fact that it was found impracticable to hold the case till the fall assizes. The action was settled by the plaintiff receiving judgment for the sum of $220. R. F. McWilliams, counsel for the plaintiff, Denniston, Peck, Kerr and Stevenson, defendants' solicitors.

The case of Keough v. Brady, an action entered by Lucius R. Keough to recover the sum of $3,132.50 and interest from Edwin E. Brady, of the firm of W. F. Dever & Co., Stock Brokers, was held over and will probably be heard at the Fall Session of the Court. D. O'Connell, solicitor for plaintiff; Curry & Eyre, defendant's solicitors. Non-jury.

Case of Darnley vs. Cornell, in which the plaintiff, William Charles Darnley, claims the sum of $400.00 and interest from the defendant, Frederick J. Cornell, on account of non-fulfillment of the specifications of an indenture, will probably be heard at the June sitting of the High Court of Justice. D. O'Connell, solicitor for plaintiff; Hugh O'Leary, defendant's solicitor.

South American Kidney Cure.

is the only kidney treatment that has proven equal to correct all the evils that are likely to befal these physical regulators. Hundreds of testimonials to prove the curative merits of this liquid kidney specific in cases of Bright's disease, diabetes, irritation of the bladder, inflammation, dropsical tendence. Don't delay. —22.

Hatters and Men's Furnishers

"THE DAYLIGHT STORE"

We don't appeal to a man who is not at all particular about his clothes—to whom a suit is a suit—a hat is a hat—a tie is a tie, and one kind will answer as well as another—No one need take pains for him.

We appeal to men who are very particular about what they wear—about the fit, the shape, the style, the finish, and withal, the price.

To men who know what they want, and won't take anything else, men who are up-to-date and dress accordingly.

By this class of men our smart suits at reasonable prices are appreciated. A call solicited.

RUSSIA UNDER A REIGN OF TERROR

Approached in Warsaw After Brutality of The Troops—Shot Into Fleeing People—About 100 Persons Killed or Wounded by Brutal Infantry---Workman in Retaliation Resort to Use of Firearms and Bombs---Shooting Also at Lodz --- Rioting at Chicago.

Warsaw, May 2.—Nearly 100 people were killed or wounded in disturbances in various quarters of Warsaw yesterday. The troops apparently were uncontrollable and violated all orders to act with moderation. They fired into crowds of demonstrators, and workmen in retaliation resorted to the use of firearms and bombs. What approaches a reign of terror existed last night; the city presents a most gloomy aspect, and the temper of the entire community augurs ill.

May-day opened with every prospect that the recent gloomy forebodings would find contradiction in a peaceful ending. The presence of numerous patrols of Cossacks, cavalry and infantry were the only reminder of lurking danger. The first disturbances occurred between 1 and 2 p. m., when a procession of several thousand workmen, carrying red flags, marched along Zelasna street. Suddenly several squadrons of Uhlans appeared, but without interfering with the procession, and took up a position along the sidewalks while the workmen passed through the lines.

Shot Into Fleeing Multitude.

Then a company of infantry approached from the front and immediately the cavalry charged into the procession, driving it with the flats of their swords into a disorganized mass. When the cavalry withdrew, the infantry fired a volley, whereupon the demonstrators turned and fled. The infantry continued to discharge volleys into the retreating shrieking multitude. Thirty-one persons were killed and many wounded, and of the latter it is believed that fifteen will die.

The shooting is described as having been quite unprovoked. It has aroused the most intense indignation among all classes in Warsaw. Many of those who were killed or wounded were shot in the back, showing that they were running away when they were struck.

Another terrible scene was enacted at 5 o'clock p. m., at the corner of Zelota and Sosnore streets, when workmen fired from behind a wall at a patrol, which immediately opened fire on the passing crowds, killing or wounding twenty persons.

First Bomb Throwing.

The first bomb-throwing occurred at 2.35 o'clock last night, when a bomb was thrown into a Cossack patrol near the Vienna station. Three Cossacks and one policeman were killed and two ladies, who were leaving the station at the time, were severely wounded by the explosion of the bomb. Cossacks and infantry fired a number of volleys, and it is reported that many persons were killed or wounded.

At 10.45 p. m. disturbances broke out at the Zombokowska gate of the suburb of Praga, a cross of the Vistula River. A great crowd had assembled there, threatening the troops, when Hussars fired upon the crowd and killed four and wounded many others.

Shooting at Lodz.

It was reported by telephone from Lodz yesterday afternoon that a crowd there had stoned a military patrol, whereupon the soldiers fired and killed two men and wounded a boy. Later a similar scene occurred in Baluchi Square, in Lodz, when two persons were killed. In Lodz, at 9 o'clock last night, a bomb was thrown at a patrol, but it was not effective. The patrol fired into the crowd and killed three and wounded two persons.

A student who was distributing proclamations in Wola, a suburb of Warsaw, last night, was killed by a patrol. In Nawrot street, Warsaw, last night, a patrol killed a woman.

CHICAGO CONDITIONS WORSE.

Five Men Seriously Hurt—Men in an Ugly Mood.

Chicago, May 2.—Conditions in the teamsters' strike were worse yesterday than at any preceding time. The strikers were in uglier mood. The rioting was more open and vicious, and the attacks on non-union men were more frequent and daring. This was because the Employers' Teaming Association brought 100 men into Chicago to take the place of strikers, and 500 more, it is said, will arrive within twelve hours.

To-day on every wagon of the Employers' Teaming Association that goes through the streets, a rifle will be carried in open view.

The Carrying of Rifles.

When Mayor Dunne was informed of the fact that rifles would be carried by non-union men, he was visibly disturbed, and he declared that the police would not be permitted to authorize the carrying of arms by anyone, whether in the employment of the Employers' Teaming Association or affiliated with the strikers. Chief of Police O'Neill, however, declared that if the employers armed their men the police could not legally interfere as long as the weapons were not concealed.

Five men were seriously hurt during the fights yesterday, and many others were hurt, but all will recover.

No decided increase in the number of men on strike was made yesterday.

A riot broke out on the Adams street bridge, when a negro teamster fired at strike sympathizers. The police kept the situation in hand by a series of rushes. Twelve men were arrested.

Yesterday's addition to the list of firms affected brought the number of strikers up to a total of 2,555.

Roosevelt Complacient.

Glenwood Springs, Co., May 2.—President Roosevelt has agreed to give the Chicago striking teamsters an opportunity to present their petition when he reaches Chicago on May 10.

Anarchists Parade in Toulin.

Paris, May 2.—Labor Day was observed throughout France. The trades union of Paris held a monster meeting and adopted resolutions in favor of an eight-hour day. Disorderly manifestations occurred at Brest and Toulon. At Toulon, anarchists marched in a procession, carrying a red flag, chanting a revolutionary hymn, and bearing a banner inscribed, "Remember the victims of capital at Chicago, Limoges and Martinique." An affray occurred in front of the naval arsenal, during which several workmen were slightly injured.

NEWEST IDEAS IN TRIMMED AND READY-TO-WEAR HATS

IN SUPPORT OF FRANCE

Purpose of the British Minister in Going to Fez.

LOWTHER'S DECLARATION

British Government is Desirous of Lending Its Diplomatic Support to Execution of Franco-British Convention re. Morocco, Which Threatens the Interest of No Third Power.

Paris, May 2.—The British Minister to Morocco, Gerard A. Lowther, in the course of an interview with The Temps correspondent at Tangier yesterday, made the first official declaration that the purpose of his visit to Fez is to support the French policy in Morocco.

He said, "When I first arrived at Tangier I sent my credentials to the Sultan before the autumn, but under the present conditions, I start for Fez in three weeks. I will embrace, also, the questions under that clause of the Franco-British accord, in which the two Governments mutually engage to lend their diplomatic support to the execution of that convention.

"My Government is all the more desirous to fulfil this duty since the French proposition submitted to the Sultan of Morocco strictly conforms to the spirit of the accord of April 8, threatening the interest of no third power, guaranteeing the security of Morocco, and providing for the gradual development of the country without sudden transition."

Mr. Lowther's statement controverts the view of the German official press, that he goes to Fès merely to present his credentials.

WHERE RUSS FLEET IS.

Russian Squadron Still Within Forty Miles of Kamranh Bay.

Saigon, May 2.—The Russian squadron is lying off Port Dayet (forty miles north of Kamranh Bay) outside of territorial waters.

Russian, German and British transports are off Cape St. James (near Saigon) and in the Saigon river.

The French naval division has been mobilized to preserve neutrality in French waters.

It is surmised here that it is possible Nebogatoff may have slipped through the straits at Singapore in the dense mists which prevail and that he may be well on his way to join Rojestvensky.

C. P. R. TRAINS COLLIDE.

Two Firemen Killed and Five Passengers and Engineers Hurt.

Winnipeg, May 2.—Two trainmen were killed and five passengers injured, though not seriously, in a head-on collision between westbound transcontinental No. 1 and a freight train at Downie, B. C., Saturday evening. The dead men are N. Scott and J. Eastwood, firemen on the colliding engines. A tramp was also hurt, and the engineers, but the latter not seriously.

The collision occurred just outside Downie station, about 7.15 p. m., when No. 1 is due there. The point of the accident is about thirty-five miles west of Revelstoke. The possibilities of the collision were offset by the fact that there was some deadhead coaches on the front of the passenger express, which saved the passengers in the rear, who suffered only bruises. The firemen died from their injuries while in the hospital. The damage to the engines, which were locked together, was serious, and the wreck was so distributed on the track that it was sixteen hours before the rails could be cleared.

Passengers injured slightly are: Henrick Matheson, Thomas Dawson, A. H. Pattison, Mrs. T. Hovert, Mrs. W. H. Hovert and Geo. McDonald (a tramp) internally injured and may die.

The C. P. R. handed out no particulars of the accident and allowed nothing to transpire over its wires until yesterday afternoon.

METZKE EXONERATED.

Coroner's Jury Returns Verdict in re. Dead Lancaster Burglar.

Cornwall, May 2.—The coroner's jury in the inquest on the unknown Lancaster burglar brought in a verdict yesterday that his death was caused by the bank teller, Herman Von Metzke, who was exonerated from all blame. Von Metzke's evidence was taken in his room. He gave a vivid description of the affair. He could not identify any of the burglars, as they were all masked with handkerchiefs. One was a short, stout fellow, with a Scotch accent.

Gardiner, the young man arrested at Lancaster, denied ever seeing or talking with the deceased, although two other witnesses were positive they had seen them together. Gardiner's story went to show that for the past 13 years or so he has been a wanderer by sea and land. Tully, the man who was being looked for, turned up yesterday from a farm, where he has been staying for a week.

An interesting development yesterday was the discovery that the revolver left behind by the burglars had been swapped a dozen times or so in an effort to fire it. The cartridges, which were a trifle small for the cylinder, had marks to show that each of them had been tried twice.

Girl Shot Through Cheek.

Langton, May 2.—A painful accident happened at the residence of Frank Swain on Saturday night when the twelve-year-old daughter of John Doig was shot by a young English lad. The ball entered on one side of the jaw, and its flight knocked out three teeth and barely missed the tongue, coming out on the other side of her face. Several children were playing with the rifle, when the young boy picked it up and pulled the trigger, not knowing it was loaded.

TELEPHONE INVESTIGATION.

The Harrietsville Independent Co. Has Paid a Dividend.

Ottawa, May 2.—At yesterday's session of the telephone committe, Dr. Doan of Harrietsville, Middlesex County, explained the operation of a local line in that country. The line is twenty-seven miles in length. Subscribers paid $9 per year. The first four months paid the company a profit of 4 per cent. per annum. Anyone could talk to any point on the system for 5 minutes for 5 cents. The system did not connect with the Bell. The witness gave a history of negotiations which had taken place between themselves and the Bell company, but nothing had yet been accomplished. The Bell had offered a connection over their system to Ingersoll for a 5 cent rate, but they wanted to make such restrictions in the agreement that his company would not accept it. The local company had connection with the C. P. R. station for thirteen years.

Delery Macdonald of Rigaud said that in 1901 an effort was made to induce the Bell to extend its system from Vaudreuil. On meeting with refusal, the local company was organized Twenty-four subscribers were now secured and the line was meeting expenses. The establishment of the line had forced the Bell to extend the system to Rigaud, but so far the local independent line did not connect with the Bell.

W. T. Oghtred gave evidence of an independent company operating in Wolfe, Compton and Beauce Counties in Quebec, but it had paid no dividends during the past three years.

ONTARIO GETS EVE BELLE.

Ownership of Fishing Yacht Established By the Courts.

Brockville, Ont., May 2.—The ownership of the steam yacht, Eva Belle, has at last been settled, at least for the present. Judge McDonald, in an interpleader issue suit, says she belongs to the Ontario Government, which is now in possession. The Eva Belle was purchased largely by popular subscription among Canadian and American fishermen for the use of James C. Judd, late fishery inspector of the Rideau waters, to assist in the strict enforcement of the fishery laws. The yacht, though maintained by the Government, was registered in Judd's name, W. H. Comstock, getting a verdict against Judd, seized the yacht. The Government then stepped in and claimed ownership.

FARMERS ARE JUBILANT.

Winnipeg, May 1.—Rain is falling throughout Alberta. Agricultural prospects are the best in many years, and farmers are jubilant. Ranchmen are very stimulated by the sudden advance in cattle to four cents for export. Trade condition generally are improving.

Heavy Snow at Saskatoon.

Lloydminster, N. W. T., May 2.—The heaviest snowstorm and blizzard of the season occurred in the Saskatoon district, Saturday and Sunday. The storm lasted for thirty hours. Snow is heaped up to a depth of eight feet in places. Moisture of some sort is badly needed, as there was practically no snow during the winter, and the ground was very dry for seeding.

Investigation is Blocked.

Toronto, May 2.—Judge Winchester stated yesterday that he would be unable to proceed further with his investigations into alleged discrimination in the engaging of Pere Marquette Railway employes, owing to the absence of two witnesses whom he had purposed examining.

Struck by Train.

Sault Ste. Marie, May 2.—An unknown man about 50 years of age, was killed by the express from Montreal, near Bruce Mines, yesterday afternoon, while walking on the track.

Making Tarred Paper Now.

Sault Ste. Marie, May 2.—The manufacture of tarred building paper by the Sault Ste. Marie Pulp and Paper Co. was commenced yesterday, and will be continued night and day. The new plant has a capacity of 30 tons daily, and is the only one in Ontario. It was invented and built by A. R. Millington, superintendent of the pulp mill.

Three Boys Maimed.

Sault Ste. Marie, May 2.—The two sons of Rev. W. A. Duncan and one son of Harry Bridge were playing with dynamite caps yesterday afternoon. Explosions occurred, and each boy lost a thumb and two fingers.

Killed By Horse's Kick.

Brockville, May 2.—The little son of Mr. and Mrs. Wm. King came to an untimely and sad death at his home by being kicked on the head by one of his father's horses. The lad died in a few hours.

Victim of Yellow Fever.

New York, May 2.—A despatch received here from Panama announces the death there from yellow fever of Chief Architect Johnson, attached to the canal staff.

"Britonsloom" is a serge made exclusively for Semi-ready by England's greatest serge maker

The best serge maker in England makes several qualities of serge.

His name on a piece of serge means mighty good quality, but it doesn't necessarily mean his best.

Our cloth experts explained to the manufacturer what we wanted in a serge. "That is better than anything I am turning out," he said, "but I can do it."

"Britonsloom" serge is the result.

We control the output, so you can get this extra quality serge only in Semi-ready suits.

"Britonsloom" serge is absolutely fast in color, black or blue—and it is a wonder for wear.

We make this serge into single and double-breasted sack suits of the latest style. Price $20. 497

Semi-ready Tailoring

Address SEMI-READY MAIL ORDER DEPT. No. 701 GUY STREET, MONTREAL.

DANTE LECTURES BY PROF. CLARKE

Auspicious Opening of the Course Last Night.

a The Life and Time of Dante" Subject of First Lecture of the Course— Large and Deeply Interested Attendance.

The intellectual treat to which the literary public have been looking forward during the past several weeks, abundantly realized expectations last night, when, at the Y. M. C. A. Hall, before an audience representative of the best culture of the town, Prof. Clarke opened his series of addresses upon Dante, which will be continued throughout the week. During the present week, which bears its proportion of pleasure both of anticipation and of realization, there can be little doubt, that, as the former gradually loses itself, the gain in the latter to literature, to art and to aesthetics will be one which will leave an abiding impression. One can say, without hesitation, that the lecture of last night, which was upon "The Life and Times of Dante," was one of the finest ever delivered in town upon any subject. The chair was taken by Mr. J. Hampden Burnham, who in a few brief remarks, introduced the speaker.

Prof. Clarke, in opening, stated that on the occasions upon which he had been requested to deliver lectures upon the great Italian poet, Dante, he had felt elation at the fact that he had been considered worthy to discuss a subject of such intellectual magnitude. A lecture upon Dante cannot be in the nature of an entertainment, but, requires a great amount of deep thought. The question naturally arises at the commencement of a course of lectures as to where it shall begin. We might, the speaker remarked, begin by taking a survey either of the conditions existing at the time of, or surrounding the life of Dante, or of Dante himself. It is well to adopt as an object of study, a general view of the literature of the time, which is excellently presented in Snell's primer. There should also be a study of the period in which Dante lived, which is treated of in Bryce's "Holy Roman Empire" and Milman's "Latin Christianity."

The speaker chose to begin by giving an idea of the poet's personality, making the somewhat surprising statement that we have at our disposal more materials for the study of Dante, than of Shakspere, even though, in parts, they are ambiguous in character. Only two portraits of the great Italian poet are extant, —one by Giotto painted from life between the years 1299 and 1300, during Dante's early years, and the other a masque, said to have been taken after death. Carlyle has referred to the face as depicted as "the mournfullest ever painted from reality." Comparing the later with the earlier portrait, Dr. Naughton finds it the same face though with the changes wrought by time.

The speaker then turned to Boccaccio, the great contemporary of Dante, and whom he regarded as one of the most eminent authorities to be studied in connection with the subject. Boccaccio, he remarked, has been partly overlauded, but while his "Decameron" is objectionable and pernicious in many features, he was, notwithstanding, the greatest of Italian prose-writers. He is to be read critically, though not with the assumption that he was inaccurate. He had described Dante, as he appeared in social life, to have been composed and deliberate, though, when occasion demanded, eloquent and fluent. His desire for seclusion probably arose from the wish that his meditations might not be disturbed. "He thought no little of himself," which was not strange, the lecturer remarked, as many men since of undoubtedly inferior ability have also held a similar opinion. As an illustration of the many characteristic stories concerning Dante one with reference to an occasion upon which he was sent on an embassy to Rome was related. Upon this occasion he had remarked,—"If I go, who is left; If I remain who is to go."

Dante was born in the year 1265,—in the wonderful period in the middle of the 13th Century, which had seen such marvellous productions in the realm of literature and art. Italy was up to that time a mere geographical term, made up of a number of cities which were united later. The speaker then described the political conditions existing at the time, treating more particularly upon the questions involved in the factional strife between the Papal and the Imperial parties.

The life of the poet is divided into three great periods as follows:—From his birth until the time of his banishment from Florence; thence to the death of the Emperor; and the final period ending with his death in Vienna in the year 1321. The family from which he sprang was unimportant and obscure. Regarding his education, accurate information is meagre. He had no knowledge of Greek, which at that time was much neglected. He had an intimate knowledge of Vergil and Horace, and knew the Aeneid by heart, and though he is considered a much greater man than Vergil, he in later poems, quotations from which were made by the lecturer, referred to him as having been the source from which he (Dante) had drawn his style. Many quotations were also given from various of the most valuable works upon the Divine Comedia.

Dante saw Beatrice for the first time at the age of nine years, she at that time being eight. The existence of Beatrice is denied by some, but the speaker remarked that he had not the least doubt that she was a real historical personage. After commenting upon her marriage, the marriage of Dante in the year 1296, and of his subsequent relations with his wife were treated of. They probably never met after the banishment of the poet from Florence, as she was never afterwards mentioned by him. It is said that they quarrelled, though no satisfactory proof of this has been adduced, as it was quite natural that, being a member of the dominant party, she should remain in Florence. His banishment occurred by reason of a charge that he had misappropriated public funds. It is inconceivable, however, that anyone who had read his Writings could possibly believe him guilty. This concluded the first period in the great poet's life. He did not acquiesce in his banishment and always considered himself deeply wronged. Many quotations from his own words revealing his dominant thoughts, and innate love of his native country were given, as was also a portion of Mrs. Browning's beautiful tribute. It is not easy to trace the steps of Dante's pilgrimage. After describing the invasion of Henry VII. in the year 1310, the speaker turned to the spiritual history of Dante and his time. Parts of his writings show him to have been guilty of various vices, among others, luxuria, or luxury, and licentiousness. There was a period of wrath and indignation, and a period of harmony which prevaded his great poems. The third period in the poet's life began with the death of Henry VII., in the year 1313, after which his habitual place of residence was Ravenna. In the Purgatorio, he speaks of being addicted to envy and pride, and of having neglected the spiritual aspect of his nature. His deeper endowments had made him open to a deeper deterioration. In his eyes heresy was a greater evil than pride or luxury. No change in the spirit of the poet in his later years was conspicuous. During the last five years spent in Ravenna his life was doubtless as happy as was posible for a man of his temperament. It was here that the Divine Comedy, the great work of his life was finished, in sorrow, and in suffering.

In 1321, he was sent upon an embassy to Venice, and upon his return was seized with a malady which resulted fatally as, upon the 26th of May, he gave back his spirit to his Master, and was borne to the grave by the nobles of Ravenna. It was not long before Florence awoke to the nature of the treatment which it had accorded its greatest citizen. The speaker after referring to the stinging words of Boccaccio, and the several requests made by the citizens of Florence for the great poet's remains, concluded with a quotation from Gladstone, ending—"He who labours to serve Dante, labours to serve Italy, and the rest of the world."

None can have a Well-Balanced Constitution without taking

BEECHAM'S PILLS

All people subject to Bilious attacks, or who suffer from Stomachic disorders, should never be without a box of BEECHAM'S PILLS.

Their gigantic success and genuine worth are known all over the world, and the proof of their excellence lies in the fact that they are generally adopted as the Family Medicine after the first trial.

BEECHAM'S PILLS

by their purifying effect upon the Blood, cleanse and vivify the entire system, causing every organ of the body healthfully to continue its allotted function, thereby inducing a perfectly balanced condition, and making life a pleasure.

BEECHAM'S PILLS

maintain their reputation for keeping people in Good Health and Good Condition.

BEECHAM'S PILLS

have stood the test of the most exacting experience through many years.

Prepared only by Thomas Beecham, St. Helens, England.

Sold everywhere in Canada and U. S. America. In boxes, 25 cents.

INFLUENTAL CONTINGENT

Of Railway Men From all Over the World to Visit Canada.

The arrangements for the long tour of the delegates to the International Railway Congress, which is to be held at Washington, D.C., the early part of May, have been completed and include in the itinerary a trip through a portion of Canada. The party who will take advantage of this trip will be composed largely of over-sea delegates, who would naturally desire to travel over the Grand Trunk Railway System, the pioneer railway of Canada and of which they have for so many years heard a great deal—particularly now that the new trans-continental line —the Grand Trunk Pacific—is an assured fact, and that the Grand Trunk is the only double-track line between Chicago and Montreal and the principal points in Canada.

The party will leave Washington on the evening of May 14th and after visiting several of the principal cities in the West, will be taken by the Grand Trunk in a special train, leaving Chicago on the evening of May 22nd, reaching Niagara Falls early next morning, at which point they will be shown the attractions of Niagara, and given an opportunity of inspecting the electrical developments which are now under way at this point. Leaving Niagara Falls at an early hour the next morning, the party will proceed over the double-track lines of the Grand Trunk en route to Montreal, arriving at Lachine Wharf at 4.00 p.m., the same day, taking special steamer there and running the Lachine Rapids, arriving Montreal 5.00 p.m., where carriages will be in waiting to drive them around the city, ending up at the "Montreal Hunt," where dinner will be served. On the morning of May 25th they will board their special train, which will leave Bonaventure Station at 9.00 a.m., en route to New York. The delegation will be a most influential one, comprising the heads of many foreign railroads in Great Britain and on the Continent and exceptional facilities will be arranged for them to inspect the improvements that have been completed in recent years on the Grand Trunk, and that have solved engineering problems entirely new in Canada and which have rendered the line equal, if not superior to any railroad in America. The progress of these huge undertakings have proved most interesting to those who have been familiar with them and a resume of the principal features of reconstruction and improvements that will be brought to their notice will be of paramount interest to the visitors.

N. B. DARRELL IN NEW OFFICES

Stock Broking Firm Removed to George Street Office.

N. B. Darrell, the stock broking firm, is now doing business in the offices formerly occupied by Messrs. E. M. Possett & Co., which have been fitted up, and are now very comfortable and well appointed. Mr. B. Boomer is the local manager of the firm, and he will be in a position to attend to the orders of his customers in his new offices with even greater facility than was possible in the other office.

COLD KILLS THE GERM

Lieut. Perry Says There are no Bald Heads in the Arctic Region.

The people who come back from the Klondike testify to the fact that no native bald heads are there. The evidence is that the cold climate kills the germs that eat the hair off at the roots. Lt. Perry, who went to the Arctic regions gives the same evidence. Newbro's Herpicide has the same effect as the cold climate. It kills the germ that eats the hair off at the roots, and the hair grows again. Herpicide is the first hair remedy built upon the principle of destroying the germ that eats the hair off. Its phenomenal sale demonstrates the correctness of the scamp germ theory. Sold by leading druggists. Send ten cents in stamps for sample to the Herpicide Co., Detroit, Mich. Sold by Ormond & Walsh, druggists, special agents.

Prince to Honor Colonies.

London, May 1.—(C. A. P.)—The Prince of Wales has promised to be present at the unveiling of the tablet in St. Paul's Cathedral on May 24 to the Colonial officers and men who fell in the South African war. It is hoped the Prince will perform the ceremony.

DR. GRENFELL WILL PRESENT FINE VIEWS

Work of Labrador Hero is Much Appreciated.

Dr. Grenfell, who appears here on Friday evening has some of the finest views ever put before the public. One of our citizens, who was recently in Toronto, heard the most unstinted praise of him on all sides.

The man himself is worthy of every encouragement since he has devoted his life as a sacrifice, it must be called, to the Deep Sea Fishermen of Labrador. As his name implies he is a doctor of medicine, and he is proficient in nearly all the arts. He has been an inestimable benefit to the sea faring folk of that lonely part of British North America and is the centre of assistance to all the great country around. People everywhere are realizing what a thoroughly good work he is doing of both a spiritual and temporal character. In some parts of the country he is receiving financial assistance in large sums. But the work is already is long way behind, and the people of Peterborough are asked to remember that every little helps.

NEW TEN COMMANDMENTS

I

Thou shalt not go away from home to do thy trading, nor thy son nor thy daughter.

II

Thou shalt patronise thy home merchant, doth not thy home printer spread over the good tidings of thy goodness and greatness and they shall patronize thee.

III

Thou shalt employ thine own mechanics that they may not be driven from their homes to find bread for their little ones. Thou shalt also consider him as thy neighbour, above all them the dwell in a strange town.

IV

Thou shalt not ask for credit as the goods cost much money, and the merchant's brain is burnened with bills. His children clamour daily for bread as dois his wife whilst at home for lack of such raiment as adorneth her sister. Blessed, yea, thrice blessed is the man that pays cash.

V

Thou shalt not ask for reduced prices for thine influence, for behold guile is in thine heart and the merchant treadeth it like an open book. He laugheth you to scorn and shouteth to his clerks, "ha, ha!"

VI

Thou shalt do whatever lieth in thy power to encourage and promote the welfare of thine own town and thine own people.

VII

Thou shalt not suffer the voice of pride to overcome thee and if other towns entice thee, consent thou not for thou mayest be deceived.

VIII

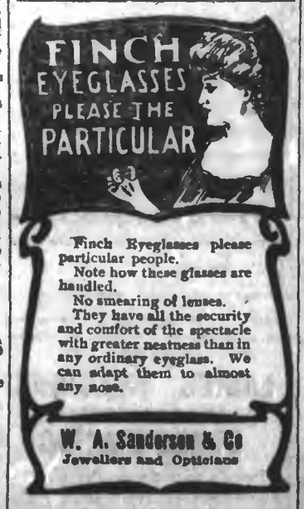
Thou shalt spend thy earnings at home that they may return from whence they came and give nourishment to such as may come after thee.

IX

Thou shalt not bear false witness against the town wherein thou dwelleth but speak well of it to all men.

X

Thou shalt keep these commandments and teach them to thy children, to the third and fourth generations, that they may be made to flourish and grow in plenty, when thou art laid to rest with thy fathers.



Finch Eyeglasses please particular people.
Note how these glasses are handled.
No smearing of lenses.
They have all the security and comfort of the spectacle with greater neatness than in any ordinary eyeglass. We can adapt them to almost any nose.

REASON No 30
WHY YOU SHOULD USE
Red Rose Tea

Because the quality never varies.

Did you ever use a pound of good tea, and after ordering more of the same brand, find it much inferior?

The Eastern climate changes very rapidly, and for this reason tea planters find it impossible to produce the same quality from month to month—two lots from the same garden are seldom the same quality. This is probably the reason why the tea you got the second time was not as good as the first.

In Red Rose Tea this serious difficulty has been overcome by scientifically blending several teas together, so to always obtain uniform flavor and strength, and this has been one of the greatest triumphs of Red Rose Tea.

The quality never varies—you can rely on getting exactly the same quality of tea as long as you use it.

BLOOD POISON

On account of its terrible effects, blood disease is called the king of all diseases. It may be either hereditary or contracted; so while it may not be a crime to have the disease, it is a crime to permit it to remain in the system. It may manifest itself in the form of Scrofula, Eczema, rheumatic pains, stiff or swollen joints, itchiness of the skin, eruptions or blotches, ulcers in the mouth or on the tongue, sore throat, falling out of hair, disordered stomach and a general depression of the system. If you have any of these symptoms don't neglect yourself. You have no time to lose. Beware of "old form" treatment—beware of mineral poisons—beware of Quacks and Fakirs. OUR NEW METHOD TREATMENT is guaranteed to cure this disease, never to return. Bank Bonds will prove it. Our treatment is not injurious in any way, but reaches the very root of the disease and eliminates all poison from the system. The symptoms of disease gradually disappear. The blood becomes pure and enriched, the whole system is cleansed and purified, and the patient feels prepared anew for the duties and the pleasures of life. CURES GUARANTEED OR NO PAY. 25 Years in Detroit. 250,000 Cured.

Consultation Free. Question Blank for Home Treatment and Books Free.

PETERBORO' BILL IN LEGISLATURE

Private Bills Committe Considers it To-morrow.

Provides for City Incorporation on July 1st—Mayor and Solicitor Attending the Session of the Committee.

To-night His Worship Mayor Best, and Town Solicitor Hall, will go to Toronto to be present at the meeting of the Private Bills Committee, when the Peterborough Bill will come up for consideration by that committee.

It is not anticipated that there will be any opposition to the passing of the bill, and the object of the visit is to answer any questions which any member of the committee may wish to ask with reference to the clauses of the bill.

The bill, which it is expected will pass without any opposition, provides that the town of Peterborough shall be incorporated as a city on July 1st, 1905, and as such shall enjoy all the powers and privileges of cities under the Consolidated Municipal Act.

Clause two cites that the city shall be divided into five wards, with the same boundaries as exist at present. The present Mayor and council shall continue to hold those offices until their successors are appointed.

All assets and obligations of the town at present, are to be transferred to the new city, and the Town Trust Commissioners will continue to fill the same duties that they have under the system of town government.

The Water Commissioners and present officers and servants of the corporation, shall act in their present capacity, and the bylaws and statutes in force in Peterborough as a town shall still remain operative in the city.

It shall be lawful for the council of the city to purchase from the Roman Catholic Episcopal Corporation for the Diocese of Peterborough, lots number four, five and six, north of Murray street and west of George; and lots four, five and six, south of McDonel and west of George, for the site of an armoury and a Collegiate Institute and to convey such portions as may be necessary to His Majesty King Edward VII. for a site for an Armoury and to the Board of Education for a site for a Collegiate Institute.

Bylaws number 1124 and 1127, to aid the Peterborough Cereal Company and the Peterborough Shovel Company upon the terms already published, are to be ratified by the bill are made legal. A clause in the bill also provides that the Water Commissioners may form a contingent fund with the surplus revenue of the water works system of $50,000, and until this amount is reached the Commissioners may appropriate all the surplus revenue accruing from the operation of the system to forming this fund, after providing for the ordinary expenses of management and maintenance, and the interest and sinking fund on the water works debentures, and this contingent fund of $50,000 may be maintained, but after that amount has been reached the surplus shall then go into the general funds of the city.

These in brief are the main provisions of the bill, which will be considered by the Private Bills Committee to-morrow morning.

DISTRICT MEETING HELD AT COBOURG

Midland Football League Draw Up Schedule For That District.

Two Delegates Present From Each Club—Referees Were Appointed.

Special to the Examiner.

Cobourg, May 2. — A meeting of of this district of the Midland Football League, was held in Cobourg on Saturday, when the following schedule was drawn up:

May 6—Cobourg at Baltimore.
May 14—Norwood at Cobourg.
May 21—Baltimore at Harwood.
May 25—Baltimore at Cobourg.
May 28—Cobourg at Harwood.
June 3—Harwood at Baltimore.

The delegates present agreed upon the following referees: H. McCulloch, of Plainville; Geo. W. Mitchell, M. A., of Cobourg; and John Manny, of Cobourg.

Two delegates were present from each place and it was agreed to pick a referee from one of the three or one satisfactory to both competing teams. If the teams could not agree it was to be left to the League executive to decide.

LAMENTED DEATH OF MISS BRANCH

Deceased Lady Was Highly Respected —Ill For Some Time.

This morning about 6 o'clock the death of Miss Annie Branch, occurred at her home on Cedar street, after a lingering illness. Deceased had been ill for about 18 months, suffering from rheumatism, and her death has not been entirely unexpected. Miss Branch was a daughter of the late Cuthbert Branch, of Smith township, and had lived in town for a number of years, with her two sisters, who with two brothers and a married sister, Mrs. Stewart Rose, of town, survive her. The brothers are Johnathan, of Smith, and Joseph, of Washington Territory. Deceased was a consistent member of the Murray street Baptist church until her death. Mrs. Branch, mother of the deceased, has been dead some years, and was a sister of the late Mrs. S. Yelland, her maiden name being Sweeting.

The funeral, which will be private, will take place to-morrow afternoon, at 1.30 o'clock, and interment at Lakefield.

ARMY SELF-DENIAL WEEKS

Two Weeks Special Effort Beginning in May

The Progress of the Work of the Salvation Army—Operating in Forty-nine Countries.

The local corps of the Salvation Army will in a short time open its immense self-denial campaign lasting two weeks. The actual dates will be from May 1st to May 15th, but in Peterborough the period will extend over a slightly longer period on account of the difficulty of covering the town in the two weeks.

In connection with this self-denial week, the army has issued a pamphlet which sets forth in a concise form the operation of the Army in Peterborough. It says in part:

Special revival meetings were held in the S. A. Hall during February and March; 32 meetings a week were held or an average of three meetings per day. These meetings were attended by over 8000 people, besides the 1,132 children and young people; over 100 came forward seeking salvation and holiness.

Street Meetings.

312 meetings have been held at the street corners, where thousands of people have listened to the music and song. In this way many have heard the gospel that do not go to any place of worship. They are attracted by the music and singing to the hall, where they spend their evenings enjoyably, instead of in the bar-room and other places of sin and vice. In some places the influence of these meetings prevent them committing sins that would blight their whole life.

Meetings in the Barracks.

520 meetings have been held in the hall, with a total attendance of 35,136. Weekly average of 675 people of all classes. During the year 105 have publicly came forward to the penitent-form for Salvation and holiness. Some of these were great drunkards, but are now living good christian lives. 47 have been added to our members' roll during the year.

Visitation.

The officers have spent 1,104 hours in visiting the poor and sick, in fact all classes of people. Besides this the officers spent 520 hours selling War Crys on the streets, in the hotels, and from door to door. 17,320 War Crys have been sold by the officers and the War Cry Brigade. In this way a great deal of good has been done and many people influenced to lead a better life.

The War Crys are not sold to enrich the officers of the corps, but for the benefit of those who read them.

League of Mercy.

The League of Mercy visits regularly the hospital, the jail, the Protestant Home, reading the Bible, praying and distributing War Crys to the inmates, also the poor and sick in all parts of the town.

A great deal more could be written about the work in Peterborough but space would not permit.

The following report of the standing of the Army throughout the world may be interesting to the supporters of the Army here:

Corps and outposts	7,599
Officers, cadets and employes	16,059
Local officers	45,624

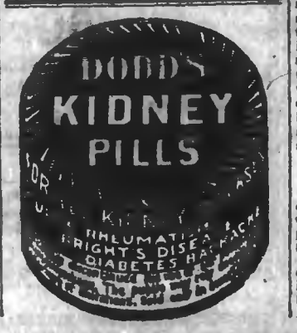
ANNUAL MEETING OF EPWORTH LEAGUE

Officers Elected at Last Night's Meeting at George Street Methodist Church.

At the annual meeting of Epworth League in connection with the George street Methodist church, last night, the new officers were elected, as follows:

President—Miss Galley.
1st Vice-President—Miss Bennet.
2nd Vice-President—Miss Waters.
3rd Vice-President—Miss E. Armstrong.
4th Vice-President—Miss C. McClellan.
Rec.-Secretary — Miss A. Crofts.
Cor.-Secretary — Miss Ethel Miller.
Pianist — Miss S. C. Chanty.
Asst. Pianist — Miss Crothers.
Representative to the District Executive—Miss Detcher.

At the last meeting in May, reports from all branches are to be read, and at that meeting the new officers will come into office.



ENGLISH OPERA SINGERS AGAIN

In the Opera House last night, the Second Time This Season

A Small Audience Listen to a Magnificent Musical Entertainment.

Peterborough may well lay its claim to good musical taste, or, rather, perhaps, to goodness for good music, upon the shelf. Our musical appreciation cannot be of a high order when we greet a high-class company of musical artists like the Dale Opera Singers with a plentiful array of empty benches. Last night this splendid musical organization appeared in the opera house in a brilliant and brilliantly presented programme under the auspices of the Young Conservative Club. The house was disappointingly small, but the loss was to those who failed to be present. Those who attended were more than delighted and made up in enthusiasm what they lacked in numbers. The Dale Opera Singers were magnificent when they paid us a first visit, but last night their programme seemed even better than on that occasion. The ensemble effects were better. On their first appearance the ensemble work was not as satisfactory as that of last night. Then Mrs. Frederic Dale—Miss Edith Serpell—was suffering from a cold, and took a modest part in the concerted numbers and did not appear in solo at all. Last night her sweet, clear, sparkling voice was heard in brilliant prominence, but in beautiful blending with the other voices of the quartette, like the glitter of a diamond in a cluster setting of gems. What beautifully, fine, clear work the singers did in ensemble, their four rich, clear mellow voices blending as perfectly as the tuned open strings of a violin. Nearly all their selections were dramatic, or were so sung, and gave the greatest delight, a repeat being demanded for almost every number. An old-fashioned and beautiful madrigal by Sullivan, was the opening number, sung with admirable finish, expression, spirit and rendition with a beautiful blending of tone and delicacy of shade. This general reference applies to all the ensemble selections which were all of a light opera character in composition and production except the opening quartette of the second part—"Anchored." "The Glorious Days to Come," "When Our Sheaklas Are Undone," "Anchored," "A Leap-Year Problem," and the finale, "Who'll Go For a Sailor," were the ensemble numbers. Of duets, Miss Gwendoline Phillips and Mr. Dale sang Sullivan's "Prithee Pretty Maiden" with true appreciation of the Sullivan spirit. "In Confidence," by Watson, was sung by Miss Edith Serpell and Mr. Dale; and a stirring comic duet, "A Tale of the Sea," by Messrs. Anderson and Dale. Not only were the ensemble selections beautifully sung, but the soloists did their work in a most delightful manner. Miss Edith Serpell, the chic little soprano, is as charming in person as in voice. Her first number, "The Croon Song," was delightfully given. Her voice is as clear and sweet as a silver bell, flexible, and under nice control. In answer to a recall she gave ("Annie Laurie," with excellent effect. Her second number, "My Treasure," was also beautifully sung, and her repeat number was a most sympathetic production, of ever-bright "Killarney." Mr. Claude Anderson, the tenor, sang two solos, with capital method, and faultless as to execution and expression, but in high and forte passages, there was a suggestion of vocal effort. Miss Gwendoline Phillips, contralto, with a full, rich, resonant voice, metaphoric of a fruity vintage, sang with splendid effect, Sullivan's "Life's Recompenses," and for an encore, "Rory Darlin'," both with feeling expression and finish. Her second song, in lighter vein, "Never Go to Sea on a Friday," was also beautifully sung, and an extra number insistently demanded, was given — "My Ain Countree." Mr. Frederic Dale's humorous selections, bettered their name — they were excruciatingly funny, and he had to repeat himself on two occasions. The pianist and accompanist, Mr. H. Collman, gave a brilliantly performed solo number, "Csardas," by Michaels, and in answer to an enthusiastic recall, a dainty and dashing concert mazurka. On the whole the entertainment was a bright, clean, clever and delightfully enjoyable occasion, and it is a thousand pities that the hall should not have been overflowingly filled. Those who were present enjoyed the concert to the full, and if any did not go away satisfied, the angelic choir will have to expect their criticism, when the time may come.

REV. O. C. ELLIOTT ACCEPTS CALL

Will Leave Belleville for Stratford on May 29th.

The Belleville Intelligencer says of a former Peterborough clergyman:

It will be remembered that, on Friday last, it was announced in these columns that Rev. O. C. Elliott, pastor of Victoria Avenue Baptist Church, this city, had received a call to Stratford. The Rev. gentleman declined to discuss the matter with a newspaper man until he had consulted his congregation. Yesterday morning, we are told, the consultation was held, with the result that Rev. Mr. Elliott resigned his pastorate of the local church, his resignation being accepted with regret. He will preach his last sermon as pastor on May 28, and leave Belleville for his new charge on May 29. Who his successor will be is not as yet even surmised.

Two Strikes and Bases Full.

May is the opening month for out door amusements. The Peterborough Bookstore is ready with supplies of spring and summer sporting goods of the best guaranteed class. Also hammocks from 65c. to $5.60; croquet 4-ball, 6-ball and 8-ball, in best equipments. We carry the finest lines of children's vehicles. A. H. Stratton & Co.

YOUNG'S POINT BRIDGE.

The bridge over the river, at Young's Point is, so the Examiner is advised, in a somewhat dilapidated condition, and unsafe for travel. It is stated to be badly in need of repairs, but it seems that no appropriation appears in provincial estimates for this purpose. This is an undesirable condition of affairs, and is an intimation to Mr. Bradburn, who should bring the matter at once before the proper department, so that there will be as little delay as possible in attending to a matter that should have received earlier attention. If the present Ontario Government had not delayed to bring about the conclusion of the agreement entered into between the late Ross Government and the Government of the Dominion, for the transfer of the waters of the Trent Waterway to Dominion jurisdiction, the expense that will have to be incurred, would have fallen upon the Dominion Government, instead of that of the Province of Ontario.

EDITORIAL NOTES.

The Hamilton Herald, (independent), remarks that the cut-off attachment of the new licensing machinery, appears to be in working order.

The Hamilton newspapers are perpetual "scrappers" — with each other. The Herald, the independent journal, seems to be pretty well squeezed between the upper and the nether millstone. It has at present trouble on with both the party papers — with the Spectator, or "Tory" paper, about the licensing inconsistency of the Whitney Government, and with the Times, "Grit," over the Autonomy Bill. The Toronto News, and the Telegram, can give the Herald pointers on being truly independent. They never steer far enough from the party line they sail by, as to incur the hostility of more than one side of politics.

A MAN WHO KNOWS.

Mr. Talbot, M.P., for Strathcona, N.W.T., speaking of the schools in the West as they exist and as the Autonomy Bill proposes to continue them, "I have no hesitation in saying, and I say it after an experience of twenty-five years teaching in the public schools of Ontario and the North-west — that we have a system of elementary education inferior to none in Canada. And I wish to say further that our system is more thoroughly a national system than even that of the United States. Our Government has absolute control of the secular education of a larger percentage of the children than has the government of any state of the American Union, where they boast of their National schools. In the North-west Territories to-day we have practically every child receiving his secular education under the control of the State. I doubt if any other country in the world can show such a good record. The system we have in force is giving satisfaction, and I believe it is the only practical solution of this question."

WATER WAS COLD FOR SWIMMING

So Thinks The Man Who Had The Exercise This Morning.

The first boating fatality of the season has already occurred. Two men were out in a punt on the river above Hall's dam this morning and while coming down stream, the water being rather low although the current was pretty strong, the boat struck a rock, and very suddenly—stopped. One of the men was sitting in the stern, the other standing well forward when the shock came. Only one thing could happen and it immediately did so. The man who was doing the ferry act—standing up in a small boat—went through the only operation that was possible under the circumstances — he went out headfirst. Luckily the water in that part of the river was not deep and he soon righted himself. He quickly got on dry togs and feels none the worse for his experience.

Boy wanted to carry parcels and work in shop. Apply at Examiner Office.

DOMINION CONTROL OF TRENT CANAL WATERS

Mayor Best Shows Cause For the Dominion Government Having Exclusive Jurisdiction Over the Trent Valley Canal Watershed--Dominion Government Willing to Take Over the Dams, Etc.--Ontario Government Urged to Consent to the Transfer.

To the Editor of the Examiner:

Sir,—It is a matter of very great regret that any misunderstanding or difference of opinion should arise respecting the transference from the Ontario Government to the Dominion Government of the dams erected upon the upper stretches of water tributary to the Trent Canal System.

The subject of the transfer of these waters has engaged the attention of the Ontario Government and the Dominion Government for upwards of two years.

It is proposed that the Dominion Government should keep these dams in proper repair and that the waters in the upper lakes should be held back in the spring and not allowed to escape during the spring freshets. The waters in these reservoir lakes could then be let down gradually and intelligently so as to get a higher uniform level in the navigable waters of the Trent Canal System throughout the whole season of navigation.

In the past owing to the fact that these dams have not been kept in proper repair and owing to the fact that the Ontario Government is not interested in navigation but simply in the flotation of logs, the stop logs in these dams have been allowed to be taken out and the water thereby escapes and runs out during the spring freshet. When the water is wanted most, during the months of July, August and September, especially during a dry season there is a great scarcity of water and quite an extremely low level is to be found in our lakes and rivers which is an inconvenience and annoyance to parties who have occasion to use the steam boats.

Moreover, parties who inspect the Trent Canal System and finding this low level of water are naturally prjudiced against the utility of the Trent Canal as a National Highway because they do not know the cause which produces this low water and because they do not know how easily such cause could be remedied by the Dominion Government, were it to have the regulation and control of the waters tributary to the entire system.

It is inconceivable why the Lindsay Board of Trade should raise any opposition to the transfer of these dams from the Ontario Government to the Dominion Government. In the first place the Town of Lindsay enjoys a very large steam boat traffic during the season of navigation which is vitally and prejudicially affected by low water. Were a higher level of water kept up in Sturgeon Lake, the steam boats plying between Lindsay, and Sturgeon Point Fenelon Falls and Bobcaygeon and other points beyond would have no difficulty whatever in landing passengers and their cargoes at the upper wharf, right in the heart of the town of Lindsay. As it is however, during the busiest season of navigation when the people of Lindsay are in a position to enjoy the greatest benefit of cheap transportation they are forced to go to the lower wharf, which is outside of the limits of the Town of Lindsay, upwards of a mile below the Town. The Power of Lindsay is also interested in the transmission of electric power from Fenelon Falls to Lindsay. If a larger uniform flow were obtained at Fenelon Falls, a greater supply of cheap electric energy could be supplied to the Town of Lindsay at an advantage to the manufacturer and the labouring men of Lindsay who would be assured of more steady and constant employment. If the Power Company has to shut off the supply of water to the manufacturers, it stands to reason that someone has to go out of employment or else the manufacturer is put to the extra expense of keeping up a steam plant to provide against low water. It is, therefore, inconceivable how any body of intelligent men, such as the Board of Trade is in Lindsay, can advocate in the public interests that the transfer of these dams should not be made.

The town of Peterborough is vitally interested in the transfer. A large number of boats ply all the way between Hastings and Balsam Lake. During low water these boats are greatly inconvenienced and injured from bumping on the rocks and having to lessen their ordinary speed in order to avoid such obstructions.

Moreover, the working men of Peterborough are greatly interested in the getting of a larger and more certain uniform flow so that a constant and continuous and uniform supply of electric energy may be obtained for the benefit of our factories.

The American Cereal Company have expended upwards of a quarter of a million dollars in the development of water power in the central part of the town for the purpose of supplying power to their own works and for the purpose of supplying power to other manufacturers in the Town of Peterborough.

The Canadian General Electric Company have an investment of $150,000.00 in developing electric energy at Nassau for the purpose of supplying their works with electric power. It means a great deal to works of this kind if their power is cut down one half through the needless and reckless wasting of these waters in the upper stretches during the spring when it would afterwards be of so much value to these works.

The Otonabee Power Company have also made a large investment at Dam No. 5 in order to supply certain manufacturers in Peterborough with electric power which they must have in order to run their works, as many of them have not installed steam plants as a duplicate system. In the event of the shortage of water these manufacturing institutions have to close down their works and thereby throw out of employment a large number of hands.

Mr. R. R. Hall, M.P., for West Peterborough assures me that the Dominion Government are quite content to take over those dams and maintain them in proper repair. I feel quite sure that if the Hon. J. P. Whitney and his colleagues had the facts properly laid before them that would readily consent to the transfer. The interests of no one would be prejudiced by the transfer and the interests of many would be better served.

Yours, etc.,
HENRY BEST,
Mayor of Peterborough.
Peterborough, May 1st, 1905.

INVADING THE AMERICAN MARKET

A Canadian Shoe Concern is Creating Considerable Excitement in the States.

R. Neil, the fortunate local shoe merchant, who has the agency for the famous Slater shoe, informs us of an interesting feature of the Slater shoe enterprise.

"The American newspapers are publishing articles commenting on the invasion of the States by the Slater Shoe Company," he says. "They seem to think it is something remarkable that a Canadian shoe should excell the best American makes in style and workmanship, and be able to secure the best trade.

"I do not see anything remarkable about that. The Slater shoe has undoubtedly beaten the world. Why shouldn't it? Is there anything peculiar about the stimulating climate of Canada that would preclude the possibility of a Canadian shoemaking establishment outdoing our Southern neighbors?

"On the contrary, they argue in the States that the further North one goes the better the fish, the cereals, the meal and the man becomes. They say the North whipped the South because it was the North. Erastus Wiman, the great New Yorker whose writings were known the world over, said the brains of the world were in the North. And when you look at the map—Canada's shoe-producing city—Montreal—is not further north than the shoe-producing centres of New England, from which, by the way, the Slater Company gets one of its most expert superintendents, a man who has worked years in one of New England's biggest factories, and comes to Canada because he finds Montreal beating the United States in shoemaking.

"For styles the Slater Company goes straight to New York, and, importing the latest lasts of the swellest custom shoemakers, improves upon them with its imported American stylemaker, a man who hasn't an equal as a shoe designer or maker on either side of the water, same as the general superintendent of the Ogilvie Flour Mills Company, who comes from the flour trust of the States, and is in charge of the great Ogilvie mills in Montreal and Winnipeg, where they make flour that is driving American flour out of all foreign markets, and which, like Slater shoes, has been the subject of extensive comment in American newspapers on account of its superiority to American flour."

"Yes, sir," said the Slater shoe merchant, as he closed the interview to wait on a customer, "Canada is going to show the States a thing or two in shoe-making as well as grain-raising, nation building and railroad construction."

Test the Kidneys

Allow the urine to stand in a glass vessel for twenty-four hours, and if at the end of that time it is clouded or has left a sediment in the bottom of the vessel, you may be sure that your kidneys are diseased. As a means of invigorating the action of the kidneys and making them strong and healthy there is no preparation so prompt and none so thorough as Dr. Chase's Kidney-Liver Pills.

BOYS' SWEATERS

We are pleased to announce the arrival of a large and well assorted stock of Boys' Sweaters which so many mothers have been asking for.

These Sweaters are made in Germany of fine, soft imported Wool. They come in all the good serviceable and pleasing shades and patterns, and in sizes to fit Boys from 3 to 12 years of age.

The prices are very moderate.

MEN'S SWEATERS also, in various grades, colours and sizes.

Cressman's

HEART DISEASE CAUSE OF DEATH

Christopher McBrian's Due to Natural Causes.

Has Been in Good Health up to Time of His Death—No Inquest.

The mystery concerning the sudden death of Mr. Christopher McBrian has been cleared up and it has been established as a fact that his death was due to natural causes, the suggestion that there might have been foul play, proving to have been foundationless.

It appears that death was caused by heart failure.

The deceased had some little time ago complained of feeling unwell, and just prior to his death he was in good health. On Sunday, his daughter, who has been living in town, was home to spend the day with her father, and he was in splendid health. She left him during the evening to come back to town, and afterwards a couple of the young men in the neighbourhood dropped into the house and he chatted to them quite cheerfully. He had been in the habit of rising early in the morning, and it is presumed that yesterday morning he got up at his usual hour. He had worked considerably for Mr. Coons this spring, and upon going to work he usually fed the cattle belonging to Mr. Robt. Hambidge in the barnyard close to his little home. Mr. Hambidge's house was some distance away on the other road, and the deceased attended to the cattle to save the owners the long walk. Before going out to do his work he had lit the fire in the stove, and it was on his way back to the house after having fed the cattle that he fell dead on the ploughed ground between the house and the barn, and it was here that the two sons of Mr. Hambidge found the body when they visited the barn a short time afterwards.

The deceased was 66 years of age, and was highly respected by the residents of that part of the township. He had lived in the house which had been his home up to his death, for the past five years, having moved there shortly after the death of his wife, and prior to that time he had lived a short distance north of that place.

His only relatives in this country were his two daughters, Mrs. J. Johnston, of Otonabee, and Miss Bessie Ann, and a nephew, William Hamilton, who is a son of the deceased's only sister, Mrs. Robt. Hamilton, living in County Fermanagh, Ireland.

The funeral will take place on Wednesday afternoon, from his late residence.

Dr. Gray, the County Coroner visited the place yesterday and after having learned the details decided that an inquest was unnecessary.

A RESOLUTION OF APPRECIATION

Was Passed Yesterday By Y.W.C.A Board to Mrs. Roger.

The following resolution was passed at a meeting of the Board of the Y. W. C. A. held yesterday afternoon:

Resolved—That we, the members of the Board of the Y. W. C. A., place on record our gratitude to Mrs. W. M. Roger for her kindness in offering to pilot the Boarding Home of the Y. W. C. A. over the difficulties attendant on the first six months of its existence. We regret exceedingly that ill health has compelled Mrs. Roger to abandon the idea of doing so, and we desire today to thank her, not only for the thought and time she has spent in laying aside stores for the use of the house, but also for the deep interest she has always taken in the welfare of the association. It is our earnest wish that she should be speedily restored to perfect health, and that her assistance in every department of the work may be vouchsafed throughout the years to come.

Lever's Y-Z (Wise Head) Disinfectant Soap Powder dusted in the bath, softens the water and disinfects. 2c

CONTRACT IS LET FOR LOCK WORKS

New Building Will Be Constructed by Wm. Langford

Cost Will be in Neighborhood of $40,000—Work to be Commenced in Near Future.

At a meeting of the Directors of the Peterborough Lock Manufacturing Company, held yesterday afternoon it was decided to proceed immediately with the construction of the new building, as soon as some matters of detail are finally arranged.

The contract will be entered into with Mr. Wm. Langford who was the lowest tenderer.

The buildings and their equipment, will, it is estimated, approximate in cost, $40,000.

CANADIANS MADE "ROUGH HOUSE"

Trio of Prominent Ottawa And Montreal Gentlemen Have Escaped in New York.

A copy of the New York Tribune of Thursday last has been received by Mr. Robert Fair, containing an account of the arrest in that city of three Canadians, who according to the story as narrated, have been conducting themselves in a truly Wild-Western manner in New York. The men who are according to to the Police records,—Ernest Morden, a wealthy furniture dealer in Montreal; Wm. Gallagher, a lawyer, of Ottawa, who claimed to be a Canadian M.P.; and James McDonald, of Montreal, a contractor, said to be known throughout the Dominion as "Big Jim."

With whoops which would have done credit to a Comanche, the trio rushed into the waiting room at the Grand Central Station on Wednesday evening, "Big Jim" leading the way. Here they boarded a waiting train, and started through it, yelling meantime "We're from the West, and we're going to fill them up." The lady passengers on the train, afraid as to their safety, took refuge in flight.

The trio were arrested, and were allowed their liberty upon bail being furnished by Thomas M. Hilliard, manager of the Waldorf-Astoria Hotel. The men, who are amongst the most prominent business and professional men in the Dominion, after "settling" for their little escapade, boarded a theatre bus, and rolled away, singing merrily.

The police court now meets at 9 a. m. instead of at 10 o'clock.

CITIZENS SUPPORT THE FIRE HALL PROPOSAL

Public Meeting Held Last Night in Council Chamber--Ald. Johnston Outlines the Plan to Erect New Hall and Provide for Additional Equipment--Other Gentlemen Support the Project--Absolutely Essential to Give the Town Additional Fire Protection--Bylaw to be Voted on Thursday.

Last night a meeting of citizens was held in the Council Chamber for the purpose of discussing the fire hall proposal of the council, as represented by the Fire Water and Light Committee, and while the meeting was not largely attended, a fact accounted for no doubt by the numerous counter attraction, no opposition to the plan developed, and those who were present were apparently of the opinion that a new fire hall with the improved equipment as proposed was badly needed by the town, and no doubt the ratepayers will give an endorsation of the council's proposition on Thursday, when they have an opportunity of voting on it.

A number of the speakers expressed regret that there were not a greater number of the merchants of the town present, since it was a matter which affected them specially, but it was not thought that their absence was indicative of an opposition to the proposal.

The Council Blameless

Ald. Tovey was strong in his belief that the council was doing the very best it could do for the interests of the citizens, and, was of the opinion that if the bylaw was not carried the fault would lie with the ratepayers and not the council.

There was some discussion on the question of the site for the hall, and a resolution introduced by Mr. A. H. Stratton, endorsing that proposed by the council was supported by the meeting, none voting against it.

Ald. Johnston, chairman of the Fire, Water and Light Committee, was elected chairman of the meeting, and outlined the plan as proposed by the council. He showed the inadequacy of the present fire hall and its equipment, and presented a strong plea for the support of the bylaw.

The Plan Outlined

Ald. Johnston in opening the meeting said that he was sorry there was not a larger representation of the ratepayers present to hear the discussion on the question of the new fire hall. He reviewed the facts in connection with the movement which lead up to the proposal to submit the question to the ratepayers. On assuming the chairmanship of the Fire, Water and Light Committee, he had found that a change was necessary in connection with the present fire hall. The room in the hall was too much crampped, and this was particularly so with respect to the stalling accommodation. Last year Ald. Edgcombe had taken the matter up but the ratepayers had not endorsed the proposal. But this year it was decided to submit the matter to the ratepayers. The proposed cost of the hall and its equipment would be $25,000 and upon the bylaw to raise that amount would be voted on on Thursday. A site had been chosen on Aylmer street, which he considered an admirable one, and if the ratepayers voted in support of the project, the erection of the hall would be proceeded with.

A Splendid Equipment

Ald. Johnston went into the details of the equipment proposed to instal in the new hall, and mentioned that of the telegraph fire alarm system, the cost of which would be in the neighbourhood of $2,500. Then the present engine had served its day, and a new one was required. Longer ladders were also needed. He pointed out the fact that if the improvements contemplated were carried out the mercantile key rate would be reduced from 60 cents to 48 cents, and the cost to the ratepayers generally would be very light. The interest and sinking fund would amount to about $1,884 per year, from which could be deducted the proposed revenue from the present fire hall building, about $400, the net cost would be $1,484, or 25-100 of a mill added to the present tax rate. On an assessment of $1,6000 the increase would only be 26 cents per year.

Mr. R. J. Wilson favoured the project as outlined by Ald. Johnston, and said that the site chosen was one which would meet the requirements very well. It was also desirable that the stables should be moved from the close proximity to office buildings. The reduction in insurance which would follow as a result of the improved equipment would no doubt be looked upon with favour by business men seeking a location. He promised to do all that he could to see the bylaw passed, as he thought it was a good plan.

Mr. Chas. Stapleton said that his time for fighting fires was past, but he spoke in a reminiscent strain, telling of the early days when scientific fire fighting was in its infancy.

Time for Improvement

Mr. W. H. Bradburn said that he would like to say a few words in support of the new fire hall. The time had come, he thought, when Peterborough should have a new hall, and improved equipment. In his own case his property was assessed for about $400 a year more on insurance premiums than it was a few years ago, and he thought that it was time the equipment was brought to such a state of efficiency that the rates would again be reduced. He regretted that there was not a larger representation of the business men of the town present, since it was they who would be most largely benefitted.

Ald. Hicks followed and also strongly supported the plan to erect a new hall. He explained more fully his position, as stated in an interview published in the Examiner, and said that the figures mentioned by him in that interview were well within the limit. He was strongly of the opinion that a new fire engine was badly needed. He believed that the present engine would not throw three streams of 70 pounds pressure for an hour steadily, whereas a pressure of 110 pounds should be thrown. The value of an engine was demonstrated at the recent Ceral Company's fire. The reduction of the insurance rates however was not the primary object. The main benefit to be derived from the new engine would be the increased protection to the property of the ratepayers.

Induce Manufacturers

One of the advantages which would accrue to the town from the improved equipment would be that it would induce manufacturers to come to the town to locate. They would not locate in any place where there was not good fire protection. He promised to support the bylaw as strongly as he was able.

In answer to a question by Mr. Sawers, Ald. Johnston said that the lot which they proposed to purchase had 90 feet frontage, and was to cost $23 per foot.

Mr. A. H. Stration said that he thought that the council was doing the right thing in taking this step, and he would support the bylaw. He would assist the council in every possible way. The town certainly needed the new fire hall.

Mayor Best Supports

Mayor Best regretted the lack of interest shown by the merchants, who would be the most directly benefitted by the new hall. It was of vital importance, not only to the merchants, but to every householder, to provide better fire protection, and the speaker also pointed out that the first thing was to protect the property, and the question of insurance was only a secondary one.

Ald. Hall endorsed the words of the Mayor, and said that it was discouraging to the council to see the lack of interest taken by the merchants in the welfare of the town. He was surprised that the hall was not filled with business men to show their support of this project. He was anxious that the bylaw should be passed.

The first care was to give the property ample protection, and the question of reduction of insurance was one which was not of vital importance, as compared with that of protection.

A Corner Lot Desirable

Mr. Stapleton told of a visit to a firehall in Detroit, which was on a corner, and he advised the committee to try and secure property on a corner.

Mr. Craig endorsed this suggestion, and pointed out that to secure good ventilation and light it was almost necessary to have the building on a corner.

Ald. Tovey said that as a representative of the people he was deeply interested in the question, and he greeted that the aldermen had not been supported by the presence of the merchants at the public meeting to discuss this question. The fire-protection system in Peterborough was the most God-forsaken system of any place that he had ever seen. If a big fire should occur and property be destroyed, the skirts of the council would be clear since they had given the people an opportunity of providing a protection which would be adequate.

Mr. A. H. Stratton moved resolution seconded by Mr. R. J. Winch, that the meeting endorse the proposal of the council in selecting the site mentioned, which resolution was carried, and the meeting adjourned.

SOME CHANGES IN BANK STAFF

New Accountant For Ontario Bank—Some Promotion.

Mr. J. F. Johnston, late accountant of the Lindsay branch of the Ontario Bank, has been transferred to Peterborough, and will be the successor to Mr. A. A. Hollingshead in that position.

Mr. Harry Rush has been promoted to the position of assistant accountant, and Mr. Warren Dean will have charge of the running cash, a position formerly held by Mr. Rush. These changes will take effect at once.

A Lecture by Dr. Grenfell, in aid of Peterboro' Branch of Labrador Deep Sea Mission, will be given in the Y.M.C.A. Hall, on Friday Evening, May 5th at 8 o'clock. Tickets 25c. On sale at Madill's Drug Store. 5d-101

ODDFELLOW FOR QUARTER CENTURY

Presentation of Jewel at Otonabee Lodge Last Night

Past Grands' Night at That Lodge—An Interesting Programme.

The Past Grands had their innings at the regular weekly meeting of Otonabee Lodge, I.O.O.F., last evening. It was what is regarded as a special occasion among the fraternity, and indeed some preparation had been made looking to its ultimate success. There were quite a number of brethren from Peterborough Lodge present. The chairs were all occupied, during the exemplification of degrees, by veteran Oddfellows, and the work was performed in a highly satisfactory manner. Following were the members of the degree team:—

M. Mowry..... N.G.
J. Mathieson ..... V.G.
J. W. Miller..... J.P.G.
W. R. G. Higgins..... R.S.N.G.
C.H. Huffman..... L.S.N.G.
R. M. Roy..... R.S.V.G.
J. Nugent..... L.S.V.G.
J. A. Tully ..... R.S.S.
F. Wise..... L.S.S.
W. A. Lewis..... War.
H. Morgan..... Con.
D. Yarnold ..... I.G.
W. G. Robinson..... O.G.

At the conclusion of the initiatory degree which brought the lodge work of the evening to a close, an interesting event took place. Bro. John Mathieson, P. G., was presented with a veteran's jewell, a very handsome decoration to which he is entitled by reason of his having been an Oddfellow for twenty-five years—he has in fact been connected with the Order for twenty-seven years. The presentation was made by Bro. J. W. Miller, P.D.D.G.M., who considered it a most pleasant duty. He referred to Bro. Mathieson's long and faithful service as a member of Otonabee lodge and pointed out that he was entitled to the jewel a few years ago. It was always an inspiration to meet a veteran such as Bro. Mathieson, whose long connection with the Order was undoubtedly explained by the something which he saw in it and which had been the reason of his devotion to it. It was such veterans as he who emphasized the fact that there was something great and good in Oddfellowship. Reference was made to the presence of other veterans Bro. Roy, Bro. Nugent, Bro. Rutherford—men who had filled their places in the Order, and who had therefore exemplified the lesson that there were duties for which every man must be held responsible in this life.

Bro. Miller assured Bro. Mathieson that the jewel was a token of the appreciation with which he was regarded by the members of Otonabee Lodge.

Bro. Mathieson made a feeling reply, expressing his gratitude toward Otonabee Lodge for the very kindly expression. As he looked back over the many years that had passed since he became a member, he saw much to be thankful for and nothing whatever to regret, and he said that he wished to remain an Oddfellow until he passed to the great beyond, and perhaps joined some other Order where the degree Celestial was exemplified. He said that words failed him to express his appreciation of the kindness of the brethren, and he assured them that he would ever prize the gift very highly.

Short and appropriate speeches were made by Bro. M. Mowry, who has been an Oddfellow for thirty-one years; Bro. R. M. Roy, who joined in 1861; Bro. John Nugent, who signed the constitution thirty-five years ago, and Bro. Huffman, who claims to be the second eldest initiated member of Otonabee Lodge, he having became a member in 1883.

After the meeting of the lodge, refreshments were served in the dining hall, and an exceedingly enjoyable evening was brought to a close.

—A meeting of the town council will be held this evening at eight o'clock to consider a petition received asking the council to withdraw the bylaw incorporating the town as a city.

NICHOLLS PARK LAWN TENNIS CLUB

Enthusiastic Meeting Held at Y.M.C.A. on Saturday.

The annual business meeting of the Nicholls Park Tennis Club, was held at the Y.M.C.A. on Saturday night, and was of a most enthusiastic character.

The President's report, which was a most carefully compiled document and bore evidence of great mental effort and many sleepless nights, and withal fine literary finish, was presented by Mr. S. S. Moore. The following officers were then elected for the ensuing season.

President—Dr. Bagshaw.
Secretary-Treasurer—Miss M. Detcher.
Executive Committee—Misses Faint and Wareham, Messrs. S. S. Moore, R. Norman Jolliffe and Jos. Middleton and the officers.

The suggestion to "Change the Name" of the club from that of "The Hiawatha" to "The Nicholls Park Tennis Club" it is understood, emanated from a young lady, which is somewhat out of the usual in cases of this character.

The report of last year's business was then presented by Miss Detcher, showing a satisfactory surplus of $3.90. Arrangements were also made for the coming season.

The club is this year in a flourishing condition, several new members having been proposed and accepted. A tournament will, later in the reason, be arranged for.

BASEBALL.

The game on Saturday will be played at the Driving Park, and will commence at 3 o'clock. The Shelbournes will be the opposing team and Manager McEwan will have his full new team on. Parker and Douglas will do the pitching, while the other new comers, Sayne, and Torrance will also be in the game.

• • • •

The majority of the teams in the Midland League are beginning to realize that a single schedule would be much better for all concerned. Cobourg is the only town that is hanging out, and no doubt some of that taffy that we administered to have them enter the Midland League will bring them around all right.—Port Hope Guide.

• • • •

The baseball team in connection with the Young People's Guild of St. John's church will hold a practice this evening at 6.30 o'clock in Morrow's Field. All connected in any way wih the club as well as the players are requested out as matters of especial importance are to be discussed.

• • • •

CRICKET.

The Colts' Cricket Club have arranged for a match with the T. C. S. team, Port Hope, on May 19th.

—On Tuesday next Mr. Allan, the president of the Toronto Board of Trade, will lecture on "The Growth and Expansion of Business Enterprise in Russia."

ST. JOHN'S Y. P. S. MET LAST NIGHT

Entertainment was Most Enjoyable.

St. John's Young People's Society met last night in regular session, and after a few minor business matters were disposed of, the meeting took on a more entertaining aspect. The chief item on the programme was an essay on the "Life of Wellington", by Mr. J. Patte, the president of the Society. Mr. Patte went into his subject quite thoroughly and extensively and delivered it in a manner which would do honour to an historian, giving a full and complete sketch of the life and character of Wellington.

After Mr. Patte had finished his essay a hearty vote of thanks was moved by Mr. Roe, seconded by Mr. Stone, which voiced the sentiments of all those present, as was evidenced by the hearty applause which followed.

Mr. Drysdale gave a very laudable exhibition of baton work, which was much appreciated.

Mr. Stone gave a reading (the author of which, he explained, he was not entirely in sympathy with), dealing with the bachelor's so-called single blessedness.

Mr. Roe followed adducing evidence which went to show that the benedict does not occupy so unfortunate a position in life as the author of Mr. Stone's reading would have the public believe.

Committees were appointed to arrange for a social to be held on Monday, May 15th, when the season will be closed.

The Young People's Society will hold their last meeting for the season two weeks from last night, May 15th, and it will take the form of a social evening. There will be the usual interesting features, in addition to which refreshments will be served.

A RESOLUTION OF CONDOLENCE

Division No, 1 Passes One to Bereaved Members.

At the last meeting of the local Division O. H. A., the following resolution of condolence was passed to Mr. E. White, on the death of his daughter, which occurred some few weeks ago:—

Whereas, it has pleased Almighty God to call to her eternal reward, Bernadine White, sister of our esteemed and worthy Bro. E. White, be it therefore resolved, that the sincere sympathy of the members of this Division be extended to Bro. E. White and that a copy of this resolution be entered on the minutes of this Division.

Yours fraternally,
A. E. DOHERTY,
Recording Secretary.

BENSFORT.

Bensfort, April 29th.—The first trip of the season by water is made by Wedlock's steam yacht to-day.

The season's cheese-making begins on the first Monday of May. Probabilities appear favourable for profitable operation for the summer, or limit of the make.

Football practice brings together the little fellows again, once a week. Their beginning ambition is to win from Bailleboro school lads. They are all little fellows, except Tommy Smith.

Building operations have been some time begun, and it is expected that changes easily visible in this line will mark several localities in a few months.

By the daily mail now, the Fourth line is accommodated with several boxes, into which the mail-carrier drops mail belonging respectively as he passes.

Ending up with April the prospects on the land are favourable. Scarcely any rain has fallen and the fields generally are in fine condition for cultivating. The seeding is nearly all done, and the warmer weather indicates rapid growth. Fall wheat has lived well through the rather cold April weather and is now considered safe.

Last year's seeding of clover and grass in many cases shows a backward tendency promising to be light.

—A meeting of all the young men holding books in the Y. M. C. A. Dormitory Furnishing Fund is called for Thursday night at 8 o'clock. All canvassers are asked to be present with as full returns as possible.

What's in a name?

A great deal when it applies to brushes. The name BOECKH on a brush is the manufacturers' guarantee of workmanship and materials. Recognized for fifty years as "the standard goods of Canada."

BOECKH BRUSHES represent the highest ideals in the art of brush-making.

Boeckh Factories, Limited, Toronto, Can.

Death of Mr. George Tye.

Brampton, May 1.—George Tye, who for the last forty-seven years has published The Brampton Times, died yesterday afternoon.

Mr. Tye came to Brampton forty-seven years ago and began the publication of The Brampton Times, which he continued until three years ago, when ill-health compelled him to retire from active business life. The Banner and Times were eventually consolidated. He was connected for several years with the Canadian Press Association and was its president for one term. He was twice married, first to a Miss Flay of Toronto, by whom he had several children, only two of whom survive him—Mrs. Woods of Brampton and Mrs. Wm. Hurst of Buffalo. His second wife was Miss Susie Rowden of Brampton, by whom he had one child—Mrs. H. Scott Leach of Toronto.

Paine's Celery Compound

Makes Sick People Well.

When the blood is sluggish, impure and poisoned, when the nervous system is unbalanced, when digestion is deranged, and the appetite poor and variable, be assured your condition is critical and calls for instant attention before the summer months bring additional dangers.

At this time the use of Paine's Celery Compound will do a marvellous work for every run-down, sick and diseased man and woman.

Its life-giving work first commences with the blood, which is made clean and pure; then the nerves are quickly set in order, digestive vigour is fully restored, the appetite is made natural, sleep is refreshing and the desponding heart is made light and joyous.

It is well to bear in mind that Paine's Celery Compound owes it origin to the most distinguished physician that this American continent has ever produced, and his marvellous prescription is publicly endorsed by our best and ablest physicians.

If all sufferers who have been disappointed in the past will prompt start with Paine's Celery Compound, they will be astonished and delighted with the speed with which this wonderful remedy is able to call a halt to wasting and dangerous diseases. It is now making tens of thousands well and strong, and fitting them to enjoy the summer months, which, to the well and strong are pleasurable and happy.

Mrs. Sclater Arrested.

Three Rivers, Que., May 1.—The widow of Percy Howard Sclater was Saturday placed under arrest, charged with complicity in the murder of her husband. Her arrest was the culmination of repeated attempts on the part of the Crown to induce her to give evidence against Wallace MacRae, who is charged with committing the murder. She served five terms for contempt in refusing to give evidence.

Five Steamers in the Ice.

Quebec, May 1.—The signal service of the Marine and Fisheries Department report five ocean steamers imprisoned in the ice at Cape Ray, but too far removed from the shore to understand their signals of identification. The ice-breaker Montcalm has gone to the rescue.

YOU NEED THE OTHER

Ozone is a germ killer and a valuable remedy, but to get the best results from it you must have a tonic laxative to take with it. "Solution of Ozone (the coupon kind)" is the purest and best form in which Ozone is sold. Every bottle of this remedy contains a coupon which entitles you to a package of "Celery King" the well known remedy, free.

In buying this solution, you get about twice as much Ozone for your money as by buying other brands, in addition to getting a package of "Celery King" for nothing. You thus save money in two ways besides getting Ozone in its purest and most concentrated form.

Ask your druggist for "Solution of Ozone (the coupon kind)" and if he does not keep it you can get it from the Public Drug Co., Bridgeburg, Ont., by writing for it. Sold by W.B. WARNE, Druggist. 5

City Meat Market

WESTLAKE & FLEETWOOD

It doesn't take people long to find out where to get good meats. Couldn't get any other kind here because we don't deal in it.

The beef, veal, mutton, pork and lamb we sell is cut from prime animals. Our facilities for handling and keeping our meats puts us in a position to serve you with the best obtainable in the country.

A supply of cold boiled ham, sliced for the table, and other ready cooked delicacies, on the counters

Corner George and Brock Streets
Telephone.

Office and Residence at Warsaw, Ont.

BEWARE OF "WOODEN NUTMEGS."

THIS is an age of imitations!

The symbol of the period should be the "Wooden Nutmeg."

Every sincerely good and reliable article of commerce has today a score of deceptive substitutes poaching upon its market.

And, if the substitutes were as good as the originals they would not need to imitate the outward appearance of these originals, but could create a market of their own, on merit.

The Maker of a sound, and reliable article makes it sound and reliable so as to deserve, and hold, a future market.

The Maker of a substitute for that article makes it for present profit only—to trade upon the goodness of the original.

He has nothing at stake for the future, and his policy is to give you the shell without the kernel—the appearance without the value.

Some Shoe Retailers prefer selling "long-profit" shoes to selling "The Slater Shoe" which is price-controlled by the Makers.

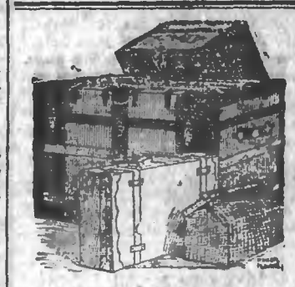
But,—don't forget that the Slater Shoe is priced by the Makers to prevent your being over-charged when you buy them.

Look for the slate-frame and the Makers' price, $3.50 or $5.00 on the lining.

The— GOODYEAR PROCESS

Slater Shoe

R. NEILL, Sole Local Agent.



THE SUIT CASE

Is a junior trunk that may be carried in the hand. It is firmer than a valise and protects the garments perfectly. It is neat looking and very durable.

These we have in all sizes and at a variety of prices. The moderate priced cases are good. The best well worth the extra cost.

Handsomely trimmed and conveniently arranged inside.

Try one. Always pleases.

BOWEL POISON.

Thousands of Men and Women Poisoned and Don't Know It.

HOW TO FIND OUT.

Bowel poison means blood tainted by foul secretions absorbed from the bowels. Here are the symptoms:

If your skin is disfigured by eruptions, humors, pimples, blotches, sores or eczema; if you itch and burn and your skin is scaly and rough; if you feel tired and worn out, your nerves weak, constipated, cross and depressed; if your head feels heavy and aching, your eyes blur and specks float across your vision; if you have cold feet and your hands get sweaty and sticky—if you have these danger signals they point unerringly to bowel poison, impure blood, and show that your stomach, liver and bowels are not working right.

Smith's Pineapple and Butternut Pills are what you must have to make your bowels right; they will remove the impurities from your blood by toning up the liver and bowels so that they will perform their functions naturally and regularly. They cleanse and invigorate the blood by stimulating the sluggish liver and regulating the bowels by their gentle laxative action. They are a sure and unfailing cure for bowel poison in young or old.

Smith's Pineapple and Butternut Pills cure constipation, biliousness and headache in one night, 25 cents, all dealers.

IN ASSEMBLY LOBBIES.

Heard In Connection With the Government of the Province.

Toronto, May 2.—The Legislature reassembles to-day after the Easter holidays. Premier Whitney said yesterday he expected the session would end about May 22.

On Wednesday Mr. Gamey expects to get the floor to present his motion re. the commissioners who heard his bribery charges. He will speak not more than a half or three-quarters of an hour, and the other speakers will be the leader of the Opposition (Mr. Ross, if he is present) and Mr. Whitney.

The Temiskaming Railway Commissioners will appoint George A. McCarthy of North Bay chief engineer of the road, to succeed W. B. Russell.

Richard E. L. Sueur has been appointed police magistrate of Sarnia.

A valuable deposit of bessemer ore has been discovered near Fort Francis. The discovery was made by T. H. Crowley, a prospector, of Steelton, Ont.

W. J. Black, a graduate of the Ontario Agricultural College, has been appointed president of the Manitoba Agricultural College. He is at present Manitoba's Deputy Minister of Agriculture.

DEVLIN HELD MEETING.

Police Prevent Him in Dublin But He Goes to Dunmore.

London, May 2.—(C. A. P.)—There was great excitement in Tuam Saturday, as three hundred Royal Irish constabulary had been drafted into the town to prevent Charles Devlin, M. P. for Galway, from addressing two meetings, which had been proclaimed by Dublin Castle. The police called at Devlin's hotel and wished to read the proclamation, but Devlin declined to receive them.

Sunday Devlin and Higgins attempted to hold a meeting at Garrow Keel, but on arriving at that place found the road blocked by a cordon of police. Higgins attempted to break through and was roughly handled by the police. Devlin asked would he be allowed to pass, but was refused permission. Finally Devlin advised the people to retire to Dunmore, where a meeting was held without interference.

Among the passengers sailing to-day per the Caronia are Sir Chas. Rivers-Wilson and Sir Thos. Shaughnessy.

May Day in Toronto.

Toronto, May 2.—The only disturbance in local labor circles on May Day was caused by the lathers, about 100 of whom went out on strike for an increase to $3.50 for an 8-hour day. They had been receiving from $2.85 to $3. A conference was held yesterday afternoon between the men and the bosses and a two-year agreement signed, by which second-class men will be paid $2.75, and first-class men $3.10, a slight increase for the skilled laborers. Thirteen sheet metal workers employed by W. L. Pipler & Sons also went out, because they were refused an increase of 3 1-2 cents, from 25 cents, which was granted by other firms.

Smuggler of Immigrants Jailed.

Detroit, Mich., May 1.—Joseph Kouri, a Syrian, who is well known in the vicinity of Brockville, Ont., where he conducted a boat livery, the real purpose of which was to smuggle into the United States, by way of Morristown, N. Y., diseased foreigners who had been rejected by the United States inspectors at Montreal, was Saturday sentenced to eighteen months' imprisonment in the Detroit House of Correction for perjury in obtaining citizenship papers at Port Huron sixteen months ago.

Died of Too Much Whiskey.

Orillia, May 2.—The coroner's inquest into the death of Russell Penley, who died last Thursday from taking too much whiskey, was brought to a close yesterday. Penley and four companions drove home to Atherley on Tuesday with Sam Symington, who was drunk. The jury returned a verdict that Penley died from the effects of whiskey in the possession of Symington.

Empty Revolver Frightened Burglar.

Ottawa, May 2.—Whilst Mrs. Frank A. Leamy of 372 Metcalfe street was sitting in her kitchen Saturday night about 11 o'clock a masked burglar entered the room demanding the surrender of what money she had on the premises. The woman set the intruder at defiance, however, with an empty revolver, and the burglar departed.

F. C. Wade Indisposed.

Ottawa, May 2.—F. C. Wade, chairman of the Transcontinental Railway Commission, is reported to be seriously indisposed.

THE REAL QUESTION.

The real question of disease is "Can I be cured?" If you or anyone dear to you is losing strength, flesh, energy and vitality, if you are wise you will not spend time trying to figure out just what name to call the disease by.

It is almost impossible to draw the line where debility and weakness merge into consumption. Your trouble may not be consumption to-day, but you don't know what it may become to-morrow. Hundreds of people have been restored to robust health by Dr. Pierce's marvelous "Golden Medical Discovery" after reputable physicians had pronounced them consumptive beyond hope.

Were they in consumption? Nobody can ever know. The important point is that they were hopelessly ill but this matchless "Discovery" restored and saved them.

"I was not able to do hardly any work at all," says Mrs. Jennie Dingman, of Vanburen, Kalkaska Co., Mich., in a most interesting letter to Dr. Pierce. "I had pain in my left side and back, and had headache all the time. I tried your medicine and it helped me. Last spring I had a bad cough; I got so bad I had to be in bed all the time.

"My husband thought I had consumption. He wanted me to get a doctor, but I told him if it was consumption they could not help me. We decided we would try Dr. Pierce's Golden Medical Discovery and Pellets, and before one bottle the cough was stopped, and I have had no more of it returning. Your medicine is the best I have taken."

Write to Dr. R. V. Pierce. He will send you good, fatherly, professional advice, in a plain sealed envelope, absolutely free. His nearly 40 years experience as chief consulting physician of the Invalids' Hotel, at Buffalo, N. Y., has made him an expert in chronic diseases.

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets.

Food that Builds

Some folk never think of Mooney's Crackers as food. They class them as delicacies, because they are so dainty and delicious. Wrong!

Mooney's Perfection Cream Sodas

are made of Canada's finest wheat, rich in strength and muscle-building properties. Then, too, they're so light that even frail digestions readily assimilate them.

Certainly more of a food than bread, because made more carefully of finer wheat.

WHEAT PRICES GO HIGHER

Chicago and Liverpool Prices Take a Jump.

The Latest Live Stock and Other Market Quotations.

Cheese—Firm; receipts, 233; state, full cream, small, colored and white, fancy, 14½c; do., fine, 13⅝c; do., late made, colored and white, choice, 13¼c; do., fair to good, 12¼c to 12⅝c; do., poor, 10¾c to 11⅝c; do., large, colored and white, fancy, 14c; do., fine, 13¼c to 13½c; do., late made, colored and white, choice, 13c; do., fair to good, 11¼c to 12¾c; do., poor, 10¼c to 11c; skims, full to light, 4¼c to 10¾c.

Eggs—Irregular; receipts, 17,311; state, Pennsylvania and nearby, fancy, selected, white, 20c to 21c; do., choice, 19c; do., mixed, extra, 18½c; western storage, selections, 17⅝c to 18c; do., firsts, 17½c; southerners, 14½c to 17c.

CATTLE MARKETS.

Cables Steady—American Markets Are Easier for Cattle.

London, May 1.—Export cattle are quoted at 12c to 12¾c per lb.; refrigerator beef, 9c to 9⅛c per lb.; sheep, 14c to 15½c per lb.

TORONTO JUNCTION LIVE STOCK.

Receipts of live stock at the Union Stock Yards were 68 carloads, composed of 1365 cattle, 4 hogs, 15 sheep and 26 calves.

Prices ranged from $5.30 to $5.75, with two or three prime loads at a little more money, the bulk selling at $5.50 to $5.70 per cwt.; bulls sold at $3.85 to $4.50 per cwt.

Choice picked lots, weighing from 1150 to 1250 lbs. each, and of equal quality to the best exporters, sold at $5.40 to $5.60 per cwt.; one load of straight butchers' sold at $5.50 per cwt.; medium butchers' sold at $5 to $5.25; common at $4.65 to $4.85; cows at $3.50 to $4.40 per cwt.

Prices are still firm for short-keep feeders at $5 to $5.25 for good quality.

Prices ranged from $4.50 to $5.50 per cwt. Choice quality calves were wanted, and are worth $6 to $6.50 per cwt.

Export ewes were quoted at $5 to $5.50 per cwt.; bucks at $4 to $4.25; yearling lambs at $6.50 to $7.75 per cwt., and spring lambs at $4 to $7 each.

H. P. Kennedy advanced prices 25c per cwt. for hogs, at $7.25 per cwt., off cars, and $7 per cwt. fed and watered.

MONTREAL LIVE STOCK.

Montreal, May 1.—(Special.)—Cables from Liverpool and London were stronger, and prices showing advance of ½c per lb., with sales of choice American cattle at 13c, and Canadians 12½c. The shipments from Portland and West St. John for the past week were 2339 cattle, 2286 sheep. The receipts of live stock here were 800 cattle, 50 milch cows, 200 sheep and lambs, 600 calves and 1300 hogs. The butchers were out strong, and there was an active demand and high prices paid for good cattle, but the common stock were slow of sale. Prime beeves sold at 5½c to 6c; good, 4c to 5¼c; common, 2½c to 3½c per lb. There were a dozen large bulls in prime condition, which were held at 5c per lb.; ordinary bulls sold at 3½c to 4¼c; milch cows sold at $25 to $50 each. Calves sold at $2 to $6 each. Shippers are paying 4¼c for good, large sheep. Lambs sold at $3 to $6.25 each. Supply of hogs was fairly large, for which the demand was not so keen, and an easier feeling prevailed in the market, with sales of selected lots at $7.40 and 1 lot[illegible] at $7 to $7.25 per 100 lbs., weighed off cars.

EAST BUFFALO CATTLE MARKET.

East Buffalo, May 1.—Cattle—Receipts, 4400 head; fairly active; 15c to 25c lower; prime steers, $6 to $6.60; shipping, $5.25 to $5.85; butchers', $4.75 to $5.40; heifers, $4 to $5.40; cows, $3 to $4.75; bulls, $3 to $4.15; stockers and feeders, $3.50 to $4.60; stock heifers, $2.75 to $3.50; fresh cows and springers, good steady, common lower; good to choice, $45 to $55; medium to good, $30 to $40; common, $18 to $28.

Veals—Receipts, 2500 head; slow at $4.25 to $6.

Hogs—Receipts, 18,700 head; fairly active and about steady; heavy, $5.40 to $5.50; mixed, $5.30 to $5.55; yorkers, $5.40 to $5.55; pigs, $5.35 to $5.40; rough, $4.60 to $4.75; stags, $3 to $3.50; dairies, $5.30 to $5.40.

Sheep and Lambs—Receipts, 21,000 head; slow; lambs, $4.50 to $6.40; yearlings, $5.25 to $5.50; wethers, $4.85 to $5; ewes, $4.25 to $4.50; sheep, mixed, $2.50 to $4.75.

NEW YORK LIVE STOCK.

New York, May 1.—Beeves—Receipts, 4221; steers and bulls slow, but about steady; cows 10c to 15c lower; steers, $4.85 to $6.25; bulls, $3.25 to $4.80; cows, $1.65 to $4.40; few extra cows, $4.70. Exports to-morrow, 810 cattle, 1040 sheep and 4400 quarters of beef.

Calves—Receipts, 8513; veals 25c to 75c lower; common to prime veals, $3 to $5.50; choice, $5.75 to $6; few extra, $6.25; general sales, $4 to $5.25.

Sheep and Lambs—Receipts, 6879; sheep dull and weak; lambs firmly held, but not higher; woolen sheep, $3.75 to $5.50; culls, $2.50 to $3.50; clipped sheep, $3 to $5; unshorn lambs, $6 to $7.90; clipped do., $4.75 to $6.40; spring lambs, $8.50 to $8 each.

Hogs—Receipts, 10,078; market firm; state and Pennsylvania hogs, $5.60 to $5.65; choice, $5.90.

CHICAGO LIVE STOCK.

Chicago, May 1.—Cattle—Receipts, 18,000; good to prime steers, $5.75 to $6.65; poor to medium, $4.25 to $5.40; stockers and feeders, $2.75 to $5.25.

Hogs—Receipts, 27,000; mixed and butchers', $5.10 to $5.30; good to choice, heavy, $5 to $5.35; rough, heavy, $4.75 to $4.95; light, $5 to $5.27½; bulk of sales, $5 to $5.25.

Sheep and Lambs—Receipts, 21,000; good to choice wethers, shorn, $4.50 to $5; fair to choice, mixed shorn, $3.50 to $4.25; native lambs, shorn, $4 to $6.55.

DR. PITCHER ASSURES A CURE.

Those who suffer from lumbago, rheumatism, gravel, blotches and pimples, impure blood, sediment in the urine, scalding pain, and difficulty, too frequent calls, dropsical swellings of the feet and legs, can find rapid and permanent cure in Dr. Pitcher's Backache Kidney Tablets. Price, 50 cents a bottle or three for $1.25, at druggists or by mail. The Dr. Zina Pitcher Co., Toronto, Ont.

SPITE, THEN MURDER.

Gatineau Being Searched for Murderer of Riverman Welsh.

Ottawa, May 2.—The Hull authorities are searching the Gatineau for Calixte Charron of Low Township, who shot and killed Napoleon Welsh on Saturday night.

They were rivermen, and had a quarrel a few days ago. All thought it had passed, but Charron evidently nursed spite, for on Saturday, he hid a rifle on the way to work, and on returning at dusk, shot Welsh, having concealed himself behind bushes.

The deceased was 27 years of age, and leaves a wife and small family.

The place is a considerable distance from a railway.

Mr. George Gooderham Dead.

Toronto, May 2.—George Gooderham died at 3.15 yesterday afternoon at his residence, 195 St. George street, of acute bronchitis. Mr. Gooderham was born on March 14, 1830, in Scole, Norfolk County, England, the son of William Gooderham, and came to this country with his father. He married Harriet, daughter of the late Joseph K. Dean, in Toronto, and leaves surviving him, besides his widow, the following children: William G. Gooderham, Mrs. T. G. Blackstock, Mrs. D. J. F. Ross, Albert Gooderham, Mrs. Acheson (Middletown, Conn.), George H. Gooderham, Mrs. C. W. Beatty, M. Rosa Gooderham and Miss Violet Gooderham. The children who pre-deceased him were Mrs. W. H. Brouse, Mrs. G. M. Mitchell and Miss Charlotte, who died in infancy. There are also living forty-six grandchildren and three great grandchildren. Mr. Gooderham succeeded his father in the presidency of the Gooderham & Worts Co., and has been identified with manifold financial interests in the city.

Many Women Suffer Untold Agony From Kidney Trouble.

Very often they think it is from so-called "female disease." There is less female trouble than they think. Women suffer from backache, sleeplessness, nervousness, irritability, and a dragging-down feeling in the loins. So do men, and they do not have "female trouble." Why, then, blame all your trouble to female disease? With healthy kidneys, few women will ever have "female disorders." The kidneys are so closely connected with all the internal organs, that when the kidneys go wrong, everything goes wrong. Much distress would be saved if women would only take

DOAN'S KIDNEY PILLS

at stated intervals.

Miss Nellie Clark, Lambeth, Ont., tells of her cure in the following words:—"I suffered for about two years with kidney trouble. I ached all over, especially in the small of my back; not being able to sleep well, no appetite, menstruation irregular, nervous irritability, and brick-dust deposit in urine, were some of my symptoms. I took Doan's Kidney Pills. The pain in my back gradually left me, my appetite returned, I sleep well, and am effectually cured. I can highly recommend Doan's Kidney Pills to all sufferers from kidney trouble."

Price 50 cents per box, or 3 for $1.25. All dealers, or DOAN KIDNEY PILL CO., TORONTO, ONT.

FIRST SESSION OF CONVENTION

Large Attendance at St. Paul's This Afternoon.

President's Annual Address was Presented—The Programme for To-morrow.

This afternoon in St. Paul's church the twenty-ninth annual meeting of the Woman's Foreign Missionary Society of the Presbyterian church in Canada, opened with about three hundred delegates in attendance.

The principal business this afternoon will be the presentation of the president's address, which will be read by Mrs. Shortread of Toronto, the president of the society. In addition to the devotional exercises a Bible reading will be given by Mrs. Roger, of Peterborough, and after the president's address, the presbyterial reports will be presented. There will be sixteen of these reports this afternoon as follows:

Barrie, Brandon and Portage, Brockville, Bruce, Chatham, Glenboro, Glengarry, Guelph, Hamilton, Huron, Kingston, Lanark and Renfrew, Lindsay, London, Maitland and Orangeville.

After the meeting the nominating committee will meet.

The officers of the Society who are present for the convention are:

President—Mrs. Shortread.

Vice-Presidents — Mrs. Maclaren, Mrs. Telfer, Mrs. G. H. Robinson, Mrs. Jeffrey.

Rec.-Secretary — Miss B. MacMurchy.

Cor.-Secretary—Miss Martin.

Home Secretary—Miss J. F. Caven.

Foreign Secretary — Mrs. J. J. Bell.

Secretary of Indian and Chinese Missions in the N.W. and B. C. — Miss Craig.

Secretary of International Conference — Miss Thornton.

Sec.-Treasurer of Publications and Life Memberships—Miss Parsons.

Treasurer—Miss George.

Editor of "Tidings"—Mrs. MacGillivray.

To-night there will be a conference on the general work of the Society, and this meeting will be private, the general public not being admitted.

To-morrow morning's session will be an important one. It will open with a hymn, after which the programme will be:

Reading of Scripture — Mrs. Tait, Quebec.

Prayer—Mrs. Munroe, Ridgetown.

Hymn, 425.

Presentation of annual reports — Foreign, Mrs. Bell; Indian and Chinese Missions, Miss Craig; Home Missions, Miss Jean Caven.

Prayer — Mrs. Robertson, Walkerton.

Hymn, 563.

Annual reports—

Travelling — Miss Jamieson.

Publication — Miss Parsons.

Finance—Miss George.

Ewart Missionary Training Home — Mrs. Robinson.

International—Miss Thornton.

Hymn, 563.

Prayer—Miss Bennett, Tweed.

Psalm, selection 107.

Greetings from sister societies.

Doxology.

The meetings promise to be most interesting, and, and no doubt they will be attended by a large number of persons interested in missionary work.

The following list of delegates to the annual meeting of the Women's Missionary Society, and their address while in town should be added to that published in yesterday's Examiner:

Mrs. Dowsley, Toronto, at Mrs. Meldrum's, 52 McDonel St.

Mrs. A. B. McKay, Winnipeg, Mrs. E. F. Mason, 740 Water St.

Mrs. Ferguson, Chesley, Mrs. Cressman, 212 Brock St.

Mrs. (Rev.) Gracey, Gananoque, at Mrs. J. F. Dunnistown, Castleknock

Mrs. Bain, Gananoque, at Mrs. J. F. Dunnistown, Castleknock.

Mrs. Campbell, Belleville, at Mrs. Val. Best's, 209 Brock St.

Mrs. Frost, Smith's Falls, at Mrs. Dr. Bradd's, 305 Stewart St.

Miss B. Murchy, Toronto, at Rev. E. F. Torrance, Rubidge St.

Mrs. McKay, Linden Valley, Mrs. Oke, Waterford St.

Mrs. Murchison, Cambray, Mrs. Oke, Waterford St.

Awaken The Liver

And You Remove the Cause of Indigestion, Billiousness and Constipation.

DR. CHASES KIDNEY-LIVER PILLS

The liver, when in health, filters bile from the blood, where it is poison, and pours it into the intestines, where it is necessary to digestion and a proper working of the bowels.

Once the liver becomes torpid and sluggish in action the "bile poison" is left in the blood, where it causes biliousness, jaundice, indigestion and headache.

The tongue is coated.
The breadth bad.
The stomach sour.
The complexion muddy.
The bowels irregular.
The kidneys clogged.

Besides the pains and aches consequent on the poisoned condition of the system, there is the greatest danger from such diseases as Bright's disease and appendicitis.

Dr. Chase's Kidney-Liver Pills thoroughly cleanses the kidneys, liver and bowels, and by their direct action on the liver cause a healthful flow of new bile to aid digestion and ensure the natural and healthful action of the bowels.

There is no means known by which indigestion, biliousness and constipation can be so promptly and thoroughly cured as by Dr. Chase's Kidney-Liver Pills.

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto. The portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every box.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover, 222 McDonnel street. 'Phone 199.

—House painters and paper hangers wanted; none but union men need apply. Fred Cook, sign writer, 'phone 119 3d

—A meeting of the Lawn Bowling Club will be held to-morrow night in the Ontario Bank chambers for the selection of rinks.

—The Inspector-General of the Canadian Infantry will be in town to-morrow night when the regiment will parade.

—The parks will open to-day and the Commissioners wish to request that the various clubs and sporting organizations will not commence play too soon after the rain.

Musical connoisseurs all agree that the Nordheimer piano of Toronto, stands without a peer. Catalogue and booklet at H. H. Edmison's, George street.

—A four-foot silent salesman showcase, new, especially suited for cigar trade, may be had at a bargain at the "Framery," 136 Hunter street, two doors west of Post Office. d100tf

—For potatoes, parsnips, carrots, beets, turnips, cabbage, hams, peameal bacon, eggs and butter, canned tomatoes, peas and corn, cheap; also nice mixed biscuits, call upon James R. Bell, 161 Hunter street. 'Phone 456.

To-night at 8 o'clock the special celebration committee in connection with the city inauguration will meet in the council chamber. It is expected that the standing committees will be struck to-night.

—A gold locket and medal—both hanging to a key ring — were lost over a week ago. The initials of owner, "E. L." were engraved on locket. Finder will be suitably rewarded by leaving at Examiner office.

"Is this the place where I can buy a dog?" asked a man at the town clerk's office yesterday. He was informed by the young lady in charge that while they did not supply the dogs they did sell the tags, without which the dogs would be practically useless.

—Prof. Davies is very kindly making his recital next week in aid of the Dormitory Furnishing Fund. The The proceeds will be handed to the Ladies' Auxiliary to supplement the amount of their contributions. Friends of the association are asked to keep this in mind.

—The Lakefield Cement Company are, it is understood, having a lot of trouble in getting marl as easily as they would wish. They cannot get present road nearly as much at Lily Lake as is needed to keep the works going full blast. It is thought however that a new vein or drift of the required article will be found.

—The balance of $10,000 due the Howden estate on property purchased by the Peterborough Sugar Co., was yesterday paid by Mr. Frank Adams the liquidator appointed by the creditors of the company. Efforts are now being made to complete the organization of a new company with the purpose in view of completing the building and undertaking other work in connection. Several capitalists are, it is understood, interested in the project.

—The little play ground in the hollow above the George street school which is occupied by the children of the neighbourhood, is being decorated with old tin cans and other junk, which renders it wholly unfit as a play ground for the children. It would be a good idea if the police would see that the regulations with regard to such pales are put in force. If this place does not happen to be under the jurisdiction of the police it would be well to appeal to the owners of the lot.

—The Examiner is in receipt of a letter from J. B. Legary, of Smith Falls, asking that the attention of boarding house and hotel-keepers be with whom hab oarded in Smith's called to the fact that a man named George Cochran has beaten persons with whom he boarded in Smith's Falls. It may be mentioned, however, that the George Cochran referred to is not the High Constable Cochrane, one of whose duties is to see that men like the one described do not "do" their entertainers.

—A letter has been received by Mr. C. Fessenden, from Mr. J. Miller, Deputy Minister of Education, giving his decision in the matter of the scholarship, given in the Senior Leaving and Honour Matriculation examinations in the Collegiate Institute, in which he says: "Mr. Fred Craig has given evidence of being the strongest candidate." The Examiner begs to extend its hearty congratulations to Mr. Craig, who is an esteemed member of the Review staff, upon the acquisition of the coveted honour, as well as the accompanying $50.

Recital by pupils of Prof. Davies, assisted by Miss Helen Davies, A. T. C. M., in the Y. M. C. A. Hall, Tuesday evening next at 8.15. Proceeds in aid of the Young Men's Christian Association Dormitory Fund. Admission 25 cents. 4eod

DEPUTATION TO VISIT TORONTO

Mayor Best and Aldermen Hall and McIntyre To Go

Will Urge for the Transfer of the Dams to Dominion Government.

Last night after the public meeting a meeting of the council was held to appoint a deputation to go to Toronto to represent the town before the Government to press for the transfer of the dam and reservoir on the line of the Trent Valley Canal to the Dominion Government. It was decided that the Mayor, Ald. Hall and Ald. McIntyre would represent the town and other members of the council might be added to the deputation if they find it possible to leave business for the day.

What the Man Says.

That will be known when you hear the lecture "The Man on the Street," by Rev. E. B. Lancley in George street school-room, on Tuesday evening, May 9. Well worth hearing. Very interesting. Admission 15c, or two for 25 cts.

Blocks Soo Canal.

Sault Ste. Marie, May 2.—The schooner George W. Roby, owned by Mr. Becker of Cleveland, ore laden, from Marquette, arrived in a leaking condition here at 6 o'clock last night. Afterwards, filling up, she now rests in the channel at the head of the Canadian ship canal, completely blocking it.

Piles Cured in 3 to 6 Nights.

One application gives relief. Dr. Agnew's Ointment is a boon for itching piles, or blind, bleeding piles. It relieves quickly and permanently. In skin eruptions it stands without a rival. Thousands of testimonials, if you want evidence. 35 cents. 23

TAN SHOES

Tan, Russet and Chocolate Shoes are to be very popular this season with both men and women. My stock has been chosen to meet every demand—correct shapes, not an old shape among them. The models are the most recent and are made to keep their shape until worn out. The prices are right and the leathers are right because they are all new out of the factory.

Tan, Russet and Chocolate Shoes for Men, Women, Misses, Children, Youths and Boys.

Shoe Dressing for all kinds and colours of leather.

NEW HATS—All the Latest English and American Styles and Colours—this is a line we specialize on.

NEW GLOVES—"Dents," "Fowne's" and "Perrins"—latest styles and shades—'nuff said.

NEW NECKWEAR—Bright, fresh, natty shapes and colourings—our Neckwear showing is unsurpassed.

NEW SHIRTS—Cambrics, Oxfords, Linens and Zephyrs, made up in correct shapes, newest colourings and patterns, and in either soft or stiff bosoms. We sell only guaranteed Washing Shirts.

In fact, all the "toggery" wants of man can be supplied in the Finest Qualities and in the Latest London and New York Ideas.

Have a look through.

Barrie's

Hatters and Men's Furnishers

"THE DAYLIGHT STORE"

We don't appeal to a man who is not at all particular about his clothes—to whom a suit is a suit—a hat is a hat—a tie is a tie, and one kind will answer as well as another—No one need take pains for him.

We appeal to men who are very particular about what they wear—about the fit, the shape, the style, the finish, and withal, the price.

To men who know what they want, and won't take anything else, men who are up-to-date and dress accordingly.

By this class of men our smart suits at reasonable prices are appreciated. A call solicited.

LANG & MAHER

THE CHICAGO POLICE STUNNED BY MOBS

Recklessness of Attacks Made on Non-Union Drivers--Chicago is Under the Mob--One Man Killed by a Stone and Scores Were Injured -- Scores of Shots Fired--One Thousand Extra Police To Go On Duty At Once--Strikers War on Shoppers.

Chicago, May 3.—Rioting and bloodshed in all parts of the city, resulting in the death of one man and the injury of scores of others, marked the progress of the teamsters strike yesterday. While the strike did not spread to any new establishments, the mobs seemed to throw all restraint to the winds, and attacks were made on non-union drivers with a recklessness that stunned the police.

Mayor Dunne has ordered the swearing in of 1,000 additional police from the civil service list, who will be on duty to-day, making a total of 2,700 men on strike duty. Fears are expressed that even this force will prove inadequate to cope with the lawless elements which gather in the wake of the wagons of the Employers' Teaming Co.

Federal injunction for each of the seven railway express companies were granted by Judge Kohlsaat yesterday, and to-day United States marshals will begin to serve processes on nearly 100 persons citing them to appear and show cause why they should not be punished for contempt in violating the Federal injunction issued on behalf of the Employers' Teaming Co.

Rocks Fly Like Hailstones

Hundreds of men are pouring into the city hourly to take the places of strikers, and two of the most serious riots yesterday are traceable to this cause.

About 300 negroes arrived from Kansas City, and while they were being escorted to the non-union headquarters they were attacked by a mob with which the police were powerless to cope. For a distance of several blocks a desperate battle was waged between the mob and the non-union men, and police and private detectives guarding them. Rocks flew through the air like hail stones, shattering the windows on both sides of the street

It was in this riot that Charles Beard was struck on the forehead with a stone and killed. The non-union men were hurried into a cold storage building at Rush and Michigan streets, while the police stood guard with drawn revolvers till reinforcements arrived.

Scores of Shots Fired.

Another fierce battle between a mob and non-union men took place near the non-union headquarters at 505 State street. For a time the police battled with the mob, and scores of shots were fired. An accurate list of those injured could not be procured, as dozens of men who were not seriously injured, were taken away by friends. An ambulance was called to take away those seriously injured.

Shooting was also resorted to by colored non-union men yesterday at Harrison street and Wabash avenue.

Team Owners Not in It.

The Chicago Team Owners' Association, employing 6,000 truck drivers, held a meeting yesterday afternoon and refused to go to the aid of the big merchants in the fight. They will stand by their union drivers, and not ask them to deliver goods to any of the stores now on the strike list.

union pickets stationed on the curbing in State street and Wabash avenue have been supplemented greatly in numbers with the result that in spite of the vigilance of the police, carriages and hacks are stopped and drivers and their fares warned against attempting to carry purchases home from the boycotted stores.

Store employes burdened with bundles are stopped and their parcels taken from them and torn open and searched by pickets and union sympathizers to see if they are attempting to deliver goods to customers or carrying their own property to their homes. After assuring the pickets that the contents of the bundles belong to them they are not disturbed further.

Woman Shopper Compelled to Walk.

In one instance a hired carriage was stopped in Wabash avenue and the occupant, a woman shopper, compelled to get out and walk. Another woman, with both arms full of bundles, was caught by the skirts and stopped as she was about to step into a cab in State street. The cab driver was warned not to take her as a fare. Undaunted, the shopper walked to another corner, where she hailed a second cab. Again she was stopped by the union sympathizers. Finally she boarded a street car.

Cabbies Intimidated.

Only a few hack or cabs venture to drive up to the entrances to any of the State street stores. In most cases the drivers request their passengers to alight on the opposite side of the street and walk over to their destination. With one exception, none of the State street stores attempted to make deliveries in the residental districts Monday, although at all the boycotted establishments assurances were freely given that the wagons would start out yesterday. With few exceptions the drivers generally refuse to carry passengers to a boycotted store.

Serious Scarcity of Coal.

The need for coal rapidly is developing into one of the most important factors of the teamsters strike. With the exception of Marshall, Field & Co. and one or two other big houses the supply of fuel on hand in State street averaged from two to four days. Marshall, Field & Co. have coal for two weeks or more.

John C. Fetzer, receiver for the Union Traction Co., speaking of the scarcity of coal, said. "In several of our stations, unless we get coal in twenty-four hours, we will have to close down."

Toronto Man Killed.

Winnipeg, May 3.—Clarence Gammond of Toronto died Monday from scalds received by a boiler explosion at Selkirk, Man. He was a young man who had gone west in search of employment and left a young wife until he should be able to send for her. His father, mother, brother and sister live in Toronto.

Off to Fez.

Tangier, May 3.—Coun Von Tattenbach-Ashold, head of the German mission which is to proceed to Fez to arrange a special commercial treaty between Germany and Morocco, left here for Fez yesterday.

BOATS STEAMED AT HALF SPEED

Rojestvensky's Ships Sighted Standing Out to Sea.

MYSTERIOUS ADMIRAL TOGO

Does Not Advertise His Whereabouts, and Russian Admiral Keeps His Lonely Patrol Up and Down the Cochin China Coast—Linevitch Kisses His Soldiers — Kuroki and Army Celebrate Yalu.

Hue, Cochin China, May 3.—French despatch boats arriving here in quick succession with official advices for the Foreign Office in Paris, report sighting Rojestvensky's squadron in the South China Sea, off a point 43 miles north of the Kamranh Bay, on Saturday last. The Russian ships were between Cape Aurelia and Perforated Rock and were standing out to sea, but going at half-speed. It was evident the admiral was pursuing his recent policy of cruising up and down the Cochin China coast, possibly awaiting Nebogatoff at the head of the Red Sea squadron.

It is believed the mystery surrounding Togo's movements is confining the Russians to their short beat up and down the coast., The Japanese admiral has not shown his hand in any particular. It is not even known where Kamamura's cruiser squadron is, although there is a growing impression it is almost within striking distance of Rojestvensky, and that Kamamura awaits only opportunity for a dash at the Russians and a rapid retirement after as much damage as possible to the weaker vessels of Rojestvensky's fleet. That Vice-Admiral Togo has massed a strong force at Formosa to co-operate with Kamamura is the most widely accepted opinion as to his present disposition.

GENERAL KISSES SOLDIERS.

Pathetic Incident Marked Easterday in Russian Camp.

Gunshu Pass, May 3.—During the Easter celebration here, after the morning service, all the troops in the region around headquarters were drawn up in line before Gen. Linevitch's tent, and the commander-in-chief came out, greeted the troops, and passed down the line, saluting each and every soldier with a kiss. All the men were much moved, and many of them wept. The incident served to increase their boundless worship of the old, grey leader.

Gen. Linevitch continues energetically the reorganization of the various departments of the armies.

Japs Celebrate the Yalu.

Headquarters Gen. Kuroki's army via Fusan, May 1.—The anniversary of the battle of the Yalu was celebrated by Gen. Kuroki's army to-day with spectacular fetes. An altar with a tablet, in memory of the army's dead, was erected on the summit of a hill. Shinto and Buddhist services, in memory of the dead soldiers, were held at the altar, with troops massed at the foot of the hill.

Subscribed At a Premium.

Tokio, May 3.—The tabulations of the subscriptions to the fifth loan of $50,000,000 have not yet been completed, but there are indications that the entire loan has been placed at a premium. It is evident that some of the largest interests were temporarily withholding their subscriptions in order to obtain part of the loan at the best possible rate.

Says He Didn't.

Paris, May 3.—Secretary Kentaro of the Japanese legation denies the report that he called upon Foreign Minister Delcasse yesterday relative to the neutrality of France in the far eastern waters.

May Day Death Roll.

Warsaw, May 3.—The May Day death roll totalled 62, including ten persons who died in the hospitals during the night. Probably two hundred were wounded.

Amount of Remission.

St. Petersburg, May 3.—Expert calculation shows that the peasant debts remitted by the recent Imperial decree amount to about $45,000,000.

WEARS RUNNING SHOES.

Mr. W. F. Maclean Issues Some Move Challenges Amid Jeers in House —End of the Debate.

Ottawa, May 3.—As the end of the autonomy bill debate approaches the speeches seem to preserve variety, and greatly reveal fresh phases which sustain the interest of members. According to the whips' slate the debate will end some time to-night, as only four speeches remain, eight having been delivered yesterday. Hon. Mr. Brodeur supported the bill.

Hon. Frank Oliver.

His speech was interrupted by the introduction of Hon. Frank Oliver, fresh from his triumphs in Edmonton, and this gave rise to another brush with Mr. W. F. Maclean, who explained his previous challenges and offered more, amid the constant "jeers" of the Liberal members.

Mr. Claude Macdonell spoke in favor of religious teaching in the schools, but preferred the reference of the question of jurisdiction in the present case to the courts. Mr. Kennedy and Mr. A. K. Bennett, Dr. Reid and Mr. R. D. Wilmot opposed it, while Lieut.-Col. Worthington (Conservative) of Sherbrooke gave the impression that he would support the bill.

Wrecked Off Cork Harbor.

Cork, Ireland, May 3.—During torpedo manoeuvres at Berehaven Monday night the torpedo boat destroyer Syren ran on a reef at the eastern entrance of the harbor and remains on the rocks with her back broken. The Syren was steaming at the rate of 24 knots an hour when she was wrecked. Her crew were taken off by other vessels of the flotilla, and her guns and stores are being salved. There is no hope of saving the Syren.

DEATH OF HON. JAS. SUTHERLAND

Dominion Minister of Public Works Passes Away at Woodstock.

Sad Ending of a Long Illness Removes Prominent Public Man.

Woodstock, May 3rd. — Hon. James Sutherland died at 1.55 this afternoon. He passed a very bad day yesterday. His condition last night was unimproved, and his death to-day was not unexpected.

POSTPONEMENT OF PETERBOROUGH BILL

Private Bills Committee Passes Over Consideration of Bill Till Tuesday.

Special to the Examiner.

Toronto, Ont., May 3:—In the private bills committee of Legislature to-day consideration of Peterborough's bill seeking incorporation as a city and confirmation of several bonuses was postponed after some discussion until Tuesday.

VERY SAD BEREAVEMENT.

Sudden Death of Miss Annie Hurley—Daughter of Mr. J. Hurley (Grain Inspector.

The many friends of Mr. John Hurley, grain inspector, of 370 Charlotte street, will be pained to learn of the sudden death of his third daughter, Anna, at the early age of 17 years.

Miss Hurley was in fairly good health, and last evening was able to be out walking. She had been for some time troubled with a rheumatic ailment and it is supposed that this attacking the heart accounts for the sudden ending of her life. As stated above the young lady was 17 years of age. Her father and mother are both living. The brothers and sisters are—John J., of Lindsay, Francis, of town; and Mary, Margarret and Loretta, of town. The deceased was born and has always lived in town.

The funeral will take place on Friday at nine a.m., and proceed to St. Peter's Cathedral, and thence to the Roman Catholic burying ground.

COUNCIL DECLINES TO RECEDE FROM ACTION

Citizens' Petition Requesting Withdrawal From Incorporation Proceedings Discussed at Special Meeting—A Number of Citizens Express Their Views—Council Unanimous in Their Opinion Against Receding From Their Action in the Matter—Felt That Petition Should Have Been Presented Earlier.

A special meeting of the Council was held last night to consider the petition received requesting the Council to Withdraw the bylaw incorporating the town as a city. The meeting was attended by a number of ratepayers, who were heard in the discussion upon the matter.

The members of the Council, who were all present with the exception of Ald. Scott, were unanimous in their expression of opinion with regard to the matter, and declined to recede from the position previously taken. In passing the by-law, the general opinion being that the requests of those opposed to incorporation should be made to the Provincial Legislature, in whose hands the matter now rests.

The petition with the list of signatures attached was read to the meeting. The following is a copy:—

"We the undersigned business men and ratepayers of the town of Peterborough petition your honourable body that you will instruct your solicitor to withdraw the petition for incorporation of this town as a city.

"We are of the opinion that incorporation is being asked prematurely. We wish to have our population increased before asking the officials and representative men of other towns to join with us in celebrating its incorporation. Many public edifices and improvements, which will materially add to the appearance and status of the town, are now about to be built. We claim that nothing is to be added by being incorporated as a city. Before petitioning for rights that we are not entitled to otherwise than by permission of the legislature we prefer to be entitled as of right to a city charter.

"And your petitioners will ever pray."

The members present were His Worship Mayor Beet, Aldermen Johnston, Begley, Hatten, Tovey, Adams, Leary, Mason, Hicks, McIntyre and Crowe.

The bitizens present were, on motion, heard.

Mr. W. H. Moore, stated that he had no doubt of respectability of the 150 gentlemen who had signed the petition, but he also knew of 2,000 equally respectable, who had not signed. Sentimentally he would like to see the town grow into a city. Incorporation at present had no expense attached to it, but if action were not taken it would be necessary to wait till 1911, or take a census to prove to the Legislature beyond all cavil that Peterborough has 15,000 inhabitants. This could not be done for less than $500. He thought further that the council had gone about this matter in a deliberate manner, and it would be childish and puerile to withdraw.

Mr. Adam Dawson thought there was no occasion at the present time for incorporation. He had heard the argument advanced that manufacturers would be drawn more rapidly to cities than towns. The name of a bogus city, which this will be will never bring manufacturers here. The council were, in his opinion premature in their action and should have submitted the question to the electors in January. If this had been done, he felt that the measure would have been defeated by 90 per cent.

Rev. J. C. Davidson had been of the opinion, sentimentally, possibly, that it would be advisable to wait, but upon the other hand, however, as Mr. Moore had stated, the council necessarily must consider its dignity. He did not think that the ratepayers had had an opportunity to sign the petition since it was originated, otherwise it would have been larger. He hesitated to give an opinion at this time, and would, as he believed many other would, support the council in their action.

Mr. J. H. Larmonth supported the view taken by Mr. Moore, that it would be humiliating to ask the Legislature that the legislation asked for be withdrawn.

Mr. R. E. Layfield thought the council had acted prematurely, but would give his support to their action.

Mr. James Bogue thought the general view of the public was against incorporation, and that the council were not justified in their action in the matter. He did not see any reason why the town should be legislated into a city. Certain interested parties wished for an increase in salary.

In answer to a question, His Worship explained that the town's debentures had been negotiated at 3 per cent. par. He did not think incorporation would increase the town's financial standing.

The question was then laid before the council for their consideration.

Ald. Adams thought that those opposed to the bill should go to the Legislature at Toronto; he did not think the council could wisely recede from their position. The matter was intended to have been submitted in January last, but this had not been done owing to the large number of other questions. He had thought the opposition had originated largely from a number of parties with a personal financial interest in view. The petition should have been presented a month earlier. While he did not desire to ignore the petition, he felt it would be unwise to recede.

Mr. Alex. Gibson resented Ald. Adams' statement with regard to the opposition to the measure.

Ald. Mason stated that very little opposition had been presented until recently, and regretted that steps had not been taken earlier. He thought the opposition should state their case to the Legislature. The knowledge of prospective incorporation was widespread throughout the province, and to recede now would be to place the town in a ridiculous position.

Ald. Begley said that the matter had been thoroughly discussed previously. The town had a bad reputation locally in regard to indecision, and it would not do to occasion a similar one throughout the province.

Ald. Hicks had voted against the measure at the time it had arisen, but took the position that, as the matter at present stood, the council should not retract.

Ald. Johnston had also opposed the measure. The reputation of the council had been commented upon, but he had not altered in his opinion. It seemed unfortunate that the petition had been presented at so late an hour, and if any opposition was to be manifested let it be before the Legislature.

Ald. Leary thought it would be a benefit to become incorporated, and he was not in favour of the council receding from their position.

Ald. Hatten had noticed that one of the first signers of the petition had previously spoken to him strongly in favour of incorporation. Many besides the council, in his opinion, wavered in their opinion.

Ald. Tovey had heard of no opposition amongst the mechanics and workingmen of the town, though he had made careful observation.

Ald. Hall spoke of the lateness of the reception of the petition. Had it been presented several months ago he would have been in favour of its requests, but felt that now for the credit of the town, they could not recede. He was prepared to stand by the action of the council, though there were many signers whom he respected deeply, and to whose wishes he would like to accede.

Ald. Crowe was convinced of the advisability, financially and otherwise, of becoming a city.

Ald. McIntyre stated that he had not altered in his opinion with regard to the advisability of incorporation.

Mr. Adam Dawson thought that a great many would be in favour of withdrawing from their action, if it were not for the fear of humiliation.

Mr. R. B. Rogers thought that the town should not withdraw from its position. The matter had been twice before the Legislature, and to recede from their position now would be inadvisable. He was also of the opinion that 75 per cent of the ratepayers' names could be secured for a counter-petition.

Mr. R. E. Layfield thought that the business men on George street should not, upon all occasions, be seriously considered, as at the meeting held upon the previous evening to consider the fire hall, they had not attended to lend their assistance to the council, although the question was one of vital importance to them.

The following resolution was then moved by Ald. Hall, seconded by Ald. Adams, "That the petition read tonight be received, and that the council express its regret that it was not presented at an earlier date."—Carried unanimously.

The meeting then adjourned.

The meeting of the Celebration Committee did not take place, being postponed pending further action with regard to the incorporation.

WHEN DOCTORS FAILED

Dr. Williams' Pink Pills Brought New Health and Strength.

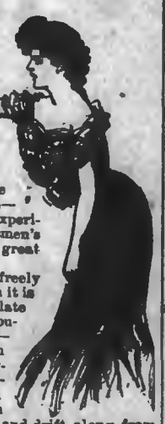
From The Post, Thorold, Ont.

Mr. Reuben Lindsay, a fruit grower at Ridgeville, Ont., is one of the best known men in that section, having lived in the village or its vicinity all his life. All Mr. Lindsay's neighbours know that about a year ago his condition of health was very serious. To use his own words he "began to go to pieces—was all wasting away." When a reporter of the Thorold Post called on Mr. Lindsay recently, he found him again enjoying the best of health, and when asked what had wrought this cure, he replied very emphatically "Dr. Williams' Pink Pills; they did for me what medical treatment and other medicines failed to do. In the spring of 1903," continued Mr. Lindsay, "I grew so weak that I could hardly move about. My appetite completely failed me, and I seemed to be wasting away to a mere shadow. I grew so weak that I could not work and could scarcely look after my horses without resting. I doctored with two or three good physicians, but got no permanent benefit. In fact they seemed doubtful as to what my trouble was. One said liver trouble, another kidney disease; but whatever the trouble was it was rapidly using me up. A neighbour who had used Dr. Williams' Pink Pills with benefit, advised me to try them, but I felt somewhat skeptical. However, I was finally induced to try them, and before I had finished the second box I could note an improvement. I continued using the pills until I had taken some twelve boxes when I was again enjoying robust health—in fact I have no hesitation in saying that I believe Dr. Williams' Pink Pills saved my life. Remembering my former unbelief in these pills, I gladly give this testimonial, in the hope that it may induce some other sufferer to try this great, health-giving medicine."

Other ailing people will speedily find new health and strength through a fair use of Dr. Williams' Pink Pills. Every dose sends new, rich, red blood coursing through the veins, and that is the reason these pills cure anaemia, neuralgia, indigestion, kidney and liver troubles, rheumatism, and all other diseases having their origin in poor or watery blood—including the special ailments that make the lives of so many growing girls and women of all ages miserable. See that the full name "Dr. Williams' Pink Pills for Pale People" is printed on the wrapper around each box. If in doubt, you can get the pills, by mail at 50 cents a box or six boxes for $2.50 by writing the Dr. Williams' Medicine Co., Brockville Ont.

STOP, WOMAN!

AND CONSIDER THE ALL-IMPORTANT FACT



That in addressing Mrs. Pinkham you are confiding your private ills to a woman—a woman whose experience with women's diseases covers a great many years.

You can talk freely to a woman when it is revolting to relate your private troubles to a man—besides a man does not understand—simply because he is a man

Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probably examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman whose knowledge from actual experience is great.

Mrs. Pinkham's Standing Invitation.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken. Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.

If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn. Mass., for special advice.

When a medicine has been successful in restoring to health so many women, you cannot well say, without trying it, "I do not believe it will help me."

ANOTHER HEAD GOES INTO THE BASKET

Mr. Jos. Yelland, Fishery Inspector, "No Longer Required."

Mr. Joseph H. Yelland, who has been Fishery Inspector on the Otonabee River from Lakefield to Hamilton township, last night on his return from an official trip down the river, received a notification that "his services as fishery inspector are no longer required by the Ontario Government." The intimation of official extinction was accompanied with a little card of thanks for past services.

ONE THOUSAND IMMIGRANTS COMING

S. S. Vancouver Will Arrive on Friday or Saturday.

It is expected that steamship Vancouver with over a thousand emigrants will arrive on Friday or Saturday, quite a number of these will be coming to Peterborough.

Anyone who has applied for help should see the Officer in Charge, Agit. Jennings, and find out if his man is coming, not later than Friday or Saturday. If there are any others who need help, the Officer will do his best for them when the men arrive if applied for at once, at 233 Simcoe street.

SUDDEN DEATH IN CAVAN TOWNSHIP

Mrs. Robt. Vance, of Ida, Dies Suddenly —Leaves Large Family.

The death occurred at 1.30 a. m. to-day of Mr. Robt. Vance, of Ida P. O., Cavan Township. Deceased lady was about 40 years of age and heart failure was the cause of death. She had been ill for some two or three years, but the death was quite sudden and entirely unexpected by the members of the family.

She leaves a family of seven children —four sons and three daughters—Ada Maggie, at home, Jennie in training for a nurse in General Hospital, Montreal; Lindsay, John, William and Arthur at home.

Her name before she was married was Mary Marguerite Grey, and Mr. J. C. Grey, of Garden Hill, Ont., is the only brother.

ENSIGN EDWARDS SPOKE AT BARRACKS

Delivered Instructive Lectures Upon "The Painted Lady."

An interesting and instructive lecture was given last night in the Salvation Army Barracks, by Ensign Edwards of Montreal.

His subject was "The Painted Lady" and was dealt with in a practical manner before an appreciative audience.

The Ensign gives a lantern service tonight on the "Lowlands of Scotland". A pleasant evening is anticipated. All are welcome.

THE OFFICERS FOR NEXT YEAR

Elected Yesterday in George Street Ladies' Aid Society.

At the meeting yesterday afternoon of the Ladies' Aid Society of George Street Church the following officers were elected:—

President—Mrs. S. R. Armstrong.
1st Vice-President— Mrs. J. D. Pentland.
2nd Vice-President—Mrs. J. J. Jeffries.
Secretary—Mrs. D. Cameron.
Treasurer—Mrs. Frank Mason.

LORD AYLMER HERE TO-NIGHT

Inspector General Will Review 57th Regiment.

Splendid Drill Held Last Night—Presentation of Sergt. Hartley.

Last night there was a good turn-out of the members of the 57th Regiment considering the disagreeable condition of the weather and arrangements have been practically completed for the informal inspection to-night, when Lord Aylmer, Chief of Staff, will pay an unofficial visit to the regiment.

A good drill was held and the officers are well pleased with the way the men are getting into shape.

Another evidence of the popularity of the regiment was afforded last night by the splendid turn-out of the men, and the interest they displayed in the work of the drill.

After the close of the evening's work the Colonel addressed the men and expressed his pleasure at the large number of men out to drill. He referred to the visit of Lord Aylmer to-night and expressed the hope that the men would be out in full form and create a good impression upon the Inspector General.

The following orders were read after drill:—

Headquarters,
Peterborough, May 2, 1905.

Orders by Lieut.-Col. J. W. Miller, Commanding 57th Regiment, Peterborough Rangers.

No. 1.—Detail of duty for week ending May 9th, 1905:—Captain for the week, Capt. Clegg; next for duty, Capt. Hounsell. Subaltern for the week, Lieut. Wilson; next for duty, Lieut. Clarke.

No. 2.—The following are taken on the strength of the regiment:—No. 3 Co. —May 2, 1905.—Ptes. T. J. Cole, W. Murray, D. Stone, G. Lightbourn. No. 8 Co.—April 25th, 1905—Ptes. E. Moore, N. Fowler, G. Newall, C. Stephens, H. J. Langton, H. Langton, R. Todd; May 2, 1905, J. Wiley, J. N. Graham. W. O Garbutt, M. D. McGill, W. Harvey, W. Sadders. No. 5 Co.—May 2, 1905—Ptes. W. Hooper, E. White, J. Wright. No. 8 Co.—April 25, 1905—Ptes. J Dundas .J. Brady; May 2, 1905, Ptes. W. Loucks, N. Moore R. Bowle, B. Carmichael, H. Rogers. R. Bowle, B. Carmichael, H. Rogers.

No. 3.—The regiment will parade at the armouries at 8 o'clock p. m., on Wednesday, May 3rd, 1905, for company and arm drill, when it is expected that the Inspector General, Lord Aylmer, will be present, to informally inspect the regiment.

No. 4.—The Commanding Officer has been pleased to make the following promotions:—No. 1 Co., to be Sergeant, provisionally, Corporals F. Morrison and E. MacFarlane; No. 5 Co., to be Corporals, provisionally, Ptes. G. B. Jackson and A. Butcher; No. 6 Co., to be Sergeants, provisionally, Corporal Rogers, to be Corporals, provisionally, Ptes. G. Greer, Hall, Watson, and Dundas. No. 7 Co., to be Colour Sergeants, Sergeant, Lollar, Vice-Sergt. Craig, who reverts to rank of Sergeant; to be Corporals, provisionally, Ptes. C. Gilbert, F. J. Forman, A. Chalmers, E. Elliott, H. B. Spencer and R. Walker.

A pleasing event took place last night when Col. Sergt. H. Hartley, of No. 3 Company, was presented by the officers Non. Commissioned officers and men of the Company, with a pipe, on the eve of his departure from town, for Cleveland, Ohio. The presentation was made by Lieut. Glover, on behalf of the Company, and in making the presentation he expressed the deep regret which every member of the Company felt at his departure. They joined in wishing him every success.

Mr. Hartly replied briefly, thanking his friends for the gift and for the words in which the presentation had been made. He regretted leaving the men of number eight company, and assured them that he would never forget his association with them.

Sergt. W. Cavanah is his successor, as Col. Sergt., while Sergt. Poole has been transferred from staff to be Sergt. of No. 3 Company.

CHANGING SENTIMENT

Oliver Goldsmith's "Deserted Village".

Goldsmith, in his "Deserted Village," spoke of a certain chapel where those who "went to scoff, remained to pray". So in life one often laughs at what he does not understand, and later, when he does understand, this laugh turns to praise. There were some who doubted the merits of Newbro's "Herpicide," the scalp germicide and hair-dressing; but since they have tried it, they are now among its best friends and strongest endorsers. Herpicide kills the germ that eats the hair off at the root, and the hair then grows again. As a hair dressing it is incomparable. Try it. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. Ormond & Walsh, special agents.

Enlarging Toronto Armouries.

Ottawa, May 3.—The contract awarded to Wickett Bros. of Toronto is for another story on the northern side of the present armories. Plans are completed for an addition to the building extending to Chestnut street, 210 feet long to be of the same width as the present hall.

IT ALWAYS HELPS

An ailment like consumption that has been months and years getting a foothold cannot be relieved in a week or day. Scott's Emulsion will always afford relief and often cure, but not over night. The consistent use of Scott's Emulsion will positively help the consumptive at any stage of the disease. We guarantee nothing beyond this, but we know that right living and Scott's Emulsion have done more to cure consumption than anything else.

ANNUAL REPORTS PRESENTED THIS MORNING

Continued from Fifth Page.

importance, if we would stand as a unit in the work of the Lord. There may be pleasing gratification in the adoption of novel methods, but safety is ever to be found in following the clearly defined paths of duty. In work for the Master we should ever aim to place its interests first. Thus we will have pleasure and profit in doing it according to ordinary established methods.

As Christian women we have a glorious heritage in Christ Jesus, and we have also a solemn responsibility to tell the message of His love to all who have not heard it. May God grant us clearer vision of all that He has done for us in His great love! And may the sympathy of our loving Saviour so fill our hearts that we with longing desire and earnest effort shall seek after all who are wandering in the great wilderness of sin as sheep without a shepherd.

Our blessings and privileges are inestimable, but we know that to whom much has been given, of them much will be required.

Let us then be "steadfast, unmovable, always abounding in the work of the Lord, forasmuch as we know that our labour is not in vain in the Lord."

Presbyterial Report.

After the President's address, and a hymn, a number of the Presbyterial Societies presented their reports, all of which showed good progress. These reports were as follows:—

Miss Dixon presented the report of the Peterborough Society. She gave an encouraging report, which showed that the contributions had increased, while the number of members had decreased. The receipts were $2,146.90, of which $1819.27, was from Auxiliaries and $327.63 from Bands.

Miss Gardiner of Ottawa, presented the report of that society. She reported that there had been two new Auxiliaries and one Mission Band formed during the year. The total amount raised was $2203.41, of which $1631.91 was from Auxiliaries and $346.74 from Mission Bands.

The Winnipeg Presbyterial Society report was read by Mrs. MacKay, and it referred to the loss sustained by the death of the late president, Mrs. Hogg. The year has however been one of expansion and of growing earnestness. The number of Auxiliaries is at present 14, a decrease of one, owing to the withdrawal of Bolsevain to the Rock Lake Presbyterial. Two Mission Bands have been organized and one revived. Addresses were heard during the year from a number of missionary workers; 639 copies of the Tidings were taken.

Mrs. Laird of Vancouver, gave the report of the Westminster society. It was the seventh annual report, and spoke of progress during the year. All the Bands and Auxiliaries made forward steps. Two new Auxiliaries were formed, making eleven, six Mission Bands have contributed largely to the box sent to Achulet. The increase in membership was 107, and the contributions $230. The fact that the attendance was not larger is regretted. The Tidings has a circulation of 420 copies.

Miss Sinclair gave the Rock lake report, and recorded the fact that it had been in existence only ten months, but a promising Mission Band is at work in Morden, while a new Society has been organized at Killarney. The total Auxiliary membership is 77, and the Mission Band 69, and the total givings, $295.00. Morden and Pilot Mound sent bales of clothing to the Indians.

The Whitby report was presented by Mrs. Crozier, and showed that from six Auxiliaries the Presbyterial has grown to eighteen, every congregation with one exception having its W.F.M. Society. The income for the last year was the largest for some years, while new bands have been formed at Claremont and Oshawa. The Pickering Band was re-organized. One box was sent to the North-west.

Mrs. Oliver reported for Owen Sound, the addition of one Auxiliary and one Band, making a total of eighteen and ten respectively. The membership had increased over 100 but the average attendance was slightly less. The total receipts were $1,196.28.

It was reported that there are sixteen Auxiliaries and three Mission Bands not in Presbyterial order. There has been an addition of three, and the membership has increased by 142 over last year.

Mrs. Bell reported for Sarnia, that there was an increase in membership, but that contributions had decreased. There are 24 Auxiliaries and twelve Mission Bands, with a membership of 863. One box, valued at $305 was prepared for India. The receipts were $1,568.40.

Miss Nixon, of Ayr, reported for Paris, a slight decrease in Auxiliary membership but a gain in that of Mission Bands with improved attendance and larger contributions. Clothing valued at $554 was sent to Regina. The receipts amounted to $2,009.93.

Reports from Saugeen, by Mrs. Smith, showing a revenue of $1,255.54; Strattord, by Miss Rennie, of New Hamburg, with the intelligence that $1,604.80 had been raised, and from Toronto, by Miss Crombie, showing that the receipts of that Presbyterial were $7,323.33, were also presented.

The reports from Presbyterial societies were all of a very encouraging character, the almost invariable record being one of progress in all branches, an increase in membership, and solid financial condition.

Mrs. Cameron of Allandale read the the report of Barrie Presbyterial, in which there are thirty-four Auxiliaries, and twenty-three Mission Bands, and the receipts for the year were $2410.66.

Miss Ferguson read the report of Bruce Presbyterial, in which there are fifteen Auxiliaries and six Mission Bands, and the receipts for the year were $855.

Mrs. Campbell of Chatham, read the report of that Presbyterial. A new Mission Band had been formed in Dresden during the year. Every department was doing good work. The receipts were $1875.

The Brandon and Portage la Prairie report was read by Miss McMurrich, the recording secretary of the W. F. M. S. The membership is 326, which is a slight increase over last year. The receipts were $1578.25.

Mrs. Harkness of Cornwall, reported a slight decrease in membership for Glengarry, there being sixteen Mission Bands and the total receipts were $3119.73.

The report of Guelph Presbyterial, presented by Mrs. Horn, of Elora, showed that three Auxiliaries and two Mission Bands had been added. The receipts were $2982.04.

Mrs. Steele of Dundas, reported for Hamilton Presbyterial, that one new Auxiliary had been organized, and one re-organized, and that two new Mission Bands had been formed. The receipts were $3519.02.

Miss Gemmell presented the report for Huron Presbyterial. There was an increase of twenty-two in membership, and the receipts for the year were $1967.38, an increase of $119. Excellent clothing, weighing in all 1500 pounds, and valued at over $700, had been sent to Swan Lake.

Mrs. Hamilton presented the Kingston report. Eight bales of clothing had been sent away. Two new life members had been added. The receipts were $1229.92.

Mrs. Brown of Carleton Place, reported for Lanark and Renfrew, that there were forty-one Auxiliaries and twelve Mission Bands. Clothing to the weight of 2175 pounds had been sent away. The receipts were $3,589.86.

HOT WEATHER, NERVOUS WOMEN.

BLANCHE GREY.

MISS BLANCHE GREY, a prominent young society woman of Memphis, Tenn., in a recent letter from 174 Alabama street, says:

"To a society woman whose nervous force is often taxed to the utmost from lack of rest and irregular meals, I know of nothing which is of so much benefit as Peruna. I took it a few months ago when I felt my strength giving way, and it soon made itself manifest in giving me new strength and health."—Blanche Grey.

Peruna is without an equal as a nerve tonic and vital invigorator.

Buy a bottle of Peruna. If you do not receive all the benefits from Peruna that you expected, write to Dr. Hartman, Columbus, O.

Mrs. Bascomb of Uxbridge, presented the twenty-third annual report of Lindsay Presbyterial. One new Mission Band was reported, there being in all twenty-three Auxiliaries, and thirteen Bands. The receipts were $2020.22.

Mrs. McRae of Westminster, read the London report. There were forty Auxiliaries and twenty Mission Bands, there being an increase of one. The receipts were $2684.93, and 4800 pounds of clothing were sent to Round Lake.

Miss Mather of Kincardine, read an encouraging report from Maitland Presbyterial. This was the year in which that society attained its majority. The receipts were $1734.

Miss Osborne of Ayr, reported progress on behalf of Orangeville Presbyterial. The receipts were $744.21.

Miss McMurchy read the Brockville report. There were twenty-eight Auxiliaries and eight Mission Bands. The receipts were $1060.

Committees.

The president announced the formation of the following committees:

Committee on Votes of Thanks.—Mrs. Ratcliffe, St. Catharines; Mrs. Dewar, Ottawa; Miss Osborne, Ayr; Mrs. Laird, Vancouver; Mrs. Stephenson, Barrie.

Committee on Resolutions — Mrs. Cooke, Smith's Falls; Mrs. Frost, of Smith's Falls; Mrs. Mackay, Winnipeg; Mrs. Hanna, Mount Forest; Mrs Mackay, Madoc.

This closed the business of the afternoon session and at the conclusion Mrs. McLeod of McCrimmon, offered prayer, and the doxology was sung.

The members of the Nominating Committee which met during the afternoon were: Mrs. Shortreed, Mrs. McMurrich, Mrs. McLaren, Mrs. Telfor and Miss McMurrich, of Toronto; Mrs. Steele of Dundas; Mrs. McLean, of Guelph; Mrs. McLennan of Owen Sound; Mrs. Roger, Peterborough.

Greetings.

Following the praise service after the adoption off the report, Mrs. Blank of Tweed, offered prayer, and after Psalm 107 had been sung, the greetings from sister societies were received as follows:

Church of England, Peterborough, Miss Brent.

Methodist, Mrs. Jas. Kendry.

Baptist, Mrs. T. F. Matthews.

Home Mission Society, Mrs. McClelland, Toronto.

McAll Association, Mrs. Caldbeck.

Leper Society, Mrs. Watt, Guelph.

Jewess Mission, Mrs. McVicu, Fergus.

W. F. M. S., Halifax, Mrs. McDonald.

W. F. M. S., Presbyterian church, Montreal, Miss Loch.

Written greetings were received from the Congregational Board, China Inland Mission, and a number of United States Missionary Societies.

The meeting last night, which was of a private nature, a conference on the work being the principal part of the programme, was well attended, a number of the late arrivals attending this meeting for the first time. The address of the President was taken up, and consideration given to the recommendations made in it.

The discussion was deeply interesting, and there was an enthusiasm shown in the work, which augured well for its success.

WEDNESDAY MORNING.

The session this morning opened at 10 o'clock, with the President in charge. After singing hymn 107, the Scripture reading was taken by Mrs. McLaren, of Quebec and Mrs. Munroe, of Edgetown, offered prayer. The minutes of yesterday afternoon's meeting were read and further Presbyterial reports presented, as follow:—

Reports.

After singing an appropriate hymn the presentation of the annual reports by the different officers, covering the work of the various departments took place. Three reports were of intense interest.

Foreign Work.

The first report presented was that of the Foreign Secretary, Mrs. Bell, and was in part as follows:—

In reporting the Foreign work for the year 1904, we would offer humble thanksgiving to God for His great goodness and the loving-kindness that has lightened all the way. A report means more than merely looking back over what has been; it should be a looking back that the lessons and teachings of the past reach into and be guiding for the future. Again this year India has suffered sorely from plague, all work, the day schools especially, being much hindered. This has been the dark side, but there has been the bright side, too. The numbers from the various institutions, 243 in all, who have confessed Christ in baptism gives cause for deep thankfulness. There is, too, an upward movement among the people; they are coming to look with more and more favour on mission methods, and are themselves establishing schools and hospitals for women. May they experience that touch of the Divine hand that will reveal to them the love that is the true spring of every effort for the betterment of mankind.

In Honan, too, the year has been one of progress. China is to-day the land of opportunity; there are no closed doors. As a Society we have been earnest in prayer that the way may be opened; may we be equally earnest in using the opportunity, and pressing in to possess the land.

Work in India.

A detailed account of the work in India formed an interesting part of the report of Mrs. Bell. It dealt with the medical, hospital, dispensary, outside visits, evangelistic and Sunday school features, and the statistics as below were interesting:

Hospital in-patients	207
Out-patients	4,796
Outside treatments	14,205
Operations	274
Inoculations	679

A sub-report from Miss White on the Widows' Industrial Home and Day School formed a part of the Secretary's report.

The average number of women in the Home has been 95, and 6 little children. The usual attention has been paid to school and industrial work, and in both sections of work greater interest has been taken.

Miss White adds:—"Plague has indeed asserted itself in many never-to-be-forgotten ways, and has much changed the aspect of things. In itself we realised that our Master was very near, and all needed strength was given. The women seemed so calm, and trusting, and in their prayers never forgot the poor sufferin homes around them. During the year thirty of the women professed their faith in Christ, and were baptized, early in December, about the same number were received into full communion, and partook of the Lord's Supper. Others are seeking to manifest their love for Christ. Thirteen have married, and are now happy in homes of their own. Our prayers follow them, that their walk and conversation may be Christ-like."

Girl's Boarding Schools.

The work of the Girls' Boarding School was carried on regularly throughout the year, being uninterrupted even by the plague, which again raged round the school. During the time of that dire scourge, the punnit and other necessary school servants were given houses on the Mission compound, where they could live in comparative safety, and were thus able to continue their duties in the school. Whilst panic and the reign of death caused numbers of the people to vacate their homes and flee to villages or to improvised shelters, nothing like panic or undue anxiety was experienced in the school. A feeling of security was induced by a daily disinfection of the whole building and by the inoculation, which was performed in good time; and this together with steady work and, may we not say, faith in God, combined to keep the girls bright and happy.

The number attending the school during the year has been 103. Of these 97 were boarders and 6 day pupils. There were also five resident and two non-resident teachers, a matron and two assistants.

The work at Mhow and Dhar, was also touched upon in Miss Bell's report and in connection with the medical work at the latter place the following summary was given:—

New cases	6,438
Treatments	24,409
In-patients	218
Operations	206
Obstetric cases	26

School for Blind.

At Ujjain a School for the Blind was in operation, and this work of pathetic interest has been again blessed by a year of quiet and successful effort. Owing to plague conditions in the city, the boys quarters were removed to a garden five minutes' walk from the bungalow. This has been found very satisfactory; the boys are better in health and are more under supervision than when in the city. There have been during the year in the school 44 boys and 26 girls, and their conduct and progress has been most satisfactory. Some of the boys have so far advanced in the study of Braille type that they have been able to prepare some few books. The typewriter sent out promises to be a great help in the preparation of class and other books, and a number of the boys have taken it up with vigour. School work has gone on, as in other years, four hours in school, and for the boys three and a half hours in blanket weaving. Industrial work has been carried on as usual, but the lack of wool has interfered with blanket weaving. The girls, too, have four hours in school, and are also trained in cooking, housework, etc. Many of them have learned to sew nicely, and make their own clothing.

An Orphanage.

The Numuli Orphanage forms the subject of an interesting part of the report.

This has been a year of progress and of joy in the Orphanage. School and industrial work have each had place in the busy lives of these happy children. The two teachers and ten pupil teachers have done good, earnest work during the year. So eager are some of the girls to learn that a deputation of them asked for double time for classes. Sixteen girls received lower grade teachers' certificates; 17 are studying for higher grade and 20 for lower grade certificates. All are taught housework, sewing, etc. Sixty-four are engaged in darning stockings, making caps, slippers, and in doing silk embroidery and lace. Others do the mending for the household. Eight earn wages at cooking, sweeping, etc. Each child, pupil teachers included, must do their share of the field work, and the fruit and vegetables raised have much lessened the cost of maintenance.

The figures of the work at Dhar are interesting and show a good progress:—

Hospital in-patients	79
Patients attending at Dispensaries	3,745
Treatments at Dispensaries	12,411
Patients seen at Homes, not including Orphanage	93
Treatments in Homes	404
Treatments in Villages	424
Village patients treated at the Orphanage	1,200

At Honan.

Like the little mustard seed which a man took and planted in his field, began the ingathering of the women of Honan. It has not grown to a large tree as yet, but it is pushing its head heavenward, and fastening its roots deeper and deeper in the hearts and homes of the people.

Realizing the importance of the great idol festival of Hsin Nsien for reaching people from all parts of the field, property was again secured during the annual fair, where Mrs. Goforth, Miss McIntosh, Miss Pyke and three Christian women daily received hundreds of the worshippers. There was a large increase in the number of hearers, and not a few heard gladly. The spiritual results of such evangelistic efforts are impossible to tabulate, but it is believed not all the seed fell by the wayside, some fell into good ground and brought forth an hundredfold. One instance will suffice. The doubts and fears of Mrs. Wei were banished. Months later Miss McIntosh and Miss Pyke were invited to her home, where night bright days were spent instructing her and new relatives. This being the first visit to the village of Ching Ku (some thirty miles to the southeast), hundreds of the women from the surrounding district called and listened to the Word. Among them were those who had seen the foreign ladies at Hsin Hsien and remembered some of the words about Jesus.

In the country districts the women are found deplorably ignorant and superstitious, and much more firmly wedded to idolatrous customs than the men. The greater necessity, therefore, of seeking out and instructing the women, who, while bearing the Christian name, breathe but little of the Christian spirit, and know but little of the nature and obligations of the Christian life.

As in past years, all invitations have been accepted to Christian homes in the remote villages and towns. While the missionaries met in class—three sessions a day—instructing the Christian women and others, the native helpers visited many of the homes and took the message of life to their heathen sisters in the surrounding villages, making in all one hundred and twenty visits.

The year leaves us with comfortable, airy buildings, including waiting room, dispensary, operating and store rooms, with six chien of new wards. As we look about us, we are more and more convinced that the many thousands of heathen women and children will never be evangelized by a small staff of foreign workers.

In Wei Hwei and Formosa splendid work was done and this is described in the report.

Chinese and Indians.

The report of Miss Margaret Craig presented by Miss McMurchy, on the activities of the society in con-

(Continued on seventh page.)

RADIANT WOMANHOOD!

The glory and satisfaction of beautiful womanhood can only be known to those possessing the unlimited advantage of health.

The weak woman can't be happy or enjoy half the pleasures of life. Pallid cheeks, sunken eyes, exhausted nerves all tell of a terrible struggle to keep up.

Nothing overworked women can take will benefit like FERROZONE, which renews, restores and vitalizes instantly; it's a WOMAN'S REMEDY, that's why

FERROZONE

MAKES WOMEN STRONG, PLUMP AND BEAUTIFUL.

FERROZONE contains abundance of nutriment, the kind that forms muscle, sinew, bone and nerve. It sends a vitalizing stream of new life through the weary body, making its strengthening influence felt at once.

Every FERROZONE Tablet means more strength, better appetite, delightful color, bright happy spirits—in short FERROZONE brings true womanly health, and that's worth striving for. Avoid substitutes.

Price 50c per box or six for $2.50. At all dealers or by mail from N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

There Is Quick Relief From
TORPID LIVER
in Fruit-a-tives. And they are a positive cure for constipation and all blood impurities. Those who have used these marvelous little fruit liver tablets are the ones who praise them warmest. Here is one of hundreds of testimonials from those who owe their good health to Fruit-a-tives:—

"We tried Fruit-a-tives and like them exceedingly. We happened to need such a mild and harmless liver tonic and I shall keep Fruit-a-tives by me always, now that I have used them and find they do me so much good." Miss M. L. RICHARDS, Calgary, N.W.T.

Fruit-a-tives
or Fruit Liver Tablets.
50c. a box. At druggists. Manufactured by Fruit-a-tives Limited, Ottawa.

SPRING TONIC

If you are afflicted with that tired, languid feeling, from impure blood, sluggish liver or weak kidneys,

Madill's Sarsaparilla Compound

is the remedy. No better Spring Medicine. Made and sold only by

Wm. Madill Druggist & Optician, Oak Hall Drug Store, Peterborough.

OLYMPIA CANDY WORKS
Fresh Candies made every day. Have you tried our Lady Caramels, Nuska Cream, Chocolates, Bon-Bons, Lovet Candy and other dainty confections.

HOURS OF LABOUR.

The Supreme Court of the United States has declared unconstitutional a law passed by the State of New York to regulate hours of labour. The specific case was a New York law limiting the hours of labour in bakeries to ten. This the court holds to be unconstitutional, as it violates the right of individuals to contract with each other to their mutual advantage. The right of the state to regulate hours of labour in cases where the health or safety of the public is concerned is not questioned. But where neither of these elements enters in the question the court recognized the right of men to contract as they will concerning the number of hours that they shall work, and it holds that such contracts may be enforced.

It appears, according to the Brantford Expositor, that railway work would come under the list of exceptions, as upon the manner in which the work is performed depends the safety of the travelling public. A law prohibiting the employment of trainmen for an unreasonable number of hours per day would therefore probably be legal. Child labour may be regulated at the discretion of the state legislature, but a man of contract age, engaged in an occupation where the safety of others does not depend on his vigilance, may make a binding contract to work as many hours per day as he wishes. Of course, the state may say what constitutes a day's work in the absence of contract.

The decision of the Supreme Court is simply an affirmation of a general truth that a man has a right to sell his labour on terms satisfactory to himself, and that the state has no right to interfere with the agreement made. The industrial effect of the decision will be to remit to conferences between employers and employees the establishment of time schedules.

EDITORIAL NOTES.

Dr. Grenfell, "the hero of the Labrodor," is a very modest, unpretentious sort of man, as all true heroes are. His idea of life is that glorifying God consists in service rather than in "services," and in this he is not far wrong. The greatest good comes in this world from those who do things as well as say them. Half of this preaching in this world does more harm than good to the hearer. It only adds to the condemnation of the preaching in this world does he is told he should.

The allegation is made by an unimportant Conservative organ that delegations that come to Ottawa to promote legislation have to spend money to secure the good will of practical politicians. The story is so absurd that it is not worth refuting. The paper, the Ottawa Free Press says, simply does not know what it is talking about. But this much may be said with absolute truth that nowhere in the world is public life more pure than it is in Ottawa at the present time.

At the recent conference of delegates from the municipalities of Ontario held in Toronto, a number of suggested amendments to the Municipal Act were approved, including one favouring the election of municipal councillors in township and rural municipalities once in two years. Such a provision might well be given general application, and it might be accompanied by a provision that half the members of a council retire annually.

The Municipal World, in its last issue, devotes a considerable amount of attention to the report of the Provincial Railway Taxation Commission, and publishes also a very fine portrait of Mr. H. J. Pettypiece, chairman of the commission. Mr. Pettypiece deserves all the prominence which his work in connection with the railwayy taxation problem has brought tor him. He was the first among the public men of the country to devote any considerable attention to this important matter, and he has certainly followed it up with much persistence and thoroughness.

THE NEW ASSESSMENT ACT.

Income tax in all times and places has been deemed inquistorial. But, equitably imposed, it is probably the fairest of all means of raising money for public purposes. The new Ontario law, described by the Ottawa Journal, is more inquisitorial than anything of the kind put in force in Canada hitherto; but is so with the aim of attaining equity. In place of leaving the amount of taxable income pretty much to guess-work of the assessors, it requires a detailed sworn statement of income from or regarding each person or estate, supposed to be subject to income tax. This is irritating in its invasion of private finance, and in its certainty of making most income taxpayers shell out more than they have been doing to the civic treasury; but it will surely result in a more equitable distribution of that sort of taxes. The big objection is that there may be promotion of perjury.

If the word 'income' as used in the returns to which an income-taxpayer must swear indicated gross income, the law would unquestionably be unjust. But the law defines the word income as used in the act to mean the annual profit or gain made from business or investments—not the gross return (which is often subject to heavy counter charges) but the profit.

THE GENTLEMAN FROM LABRADOR

Dr. Wilfrid T. Grenfell As He Appears At Close Range

He Tells the Plain Picturesque Story of His Fisherfolk in the Land of the Icebergs and Fogs.

Dr. Wilfred T. Grenfell, of Labrador, who will lecture here on Friday night, is a decidedly interesting character, and an interview with him which a Toronto reporter recently had will be read with interest by many who know him well by reputation.

People who have chills and contraction of the heart whenever they get within speaking distance of a missionary know Dr. Grenfell only as the superintendent of the Labrador Medical Mission, which is a branch of the Mission to Deep Sea Fishermen. Such persons have read "Dr. Luke of Labrador," with much admiration, remembering that the author was once a student at 'Varsity. Incidentally, they know that the story concerns codfish. And it is quite certain that if Newfoundland and Labrador were not engaged in exporting codfish, there never would have been any Dr. Grenfell, of Labrador.

A SPECIMEN OF PURE MANHOOD.

The Doctor came out with a quick, percussive tread; a stocky, dark-suited man, slight moustache— but before anything else could be noted, he had the reporter's hand in a bear's grip and had shot himself down in a chair.

By this time the presiding genius of Labrador could be noted more accurately—a broad, fresh face, eyes—color not discernible, but so keen they were probably as blue as the sea they photographed habitually. A strong, close-knit man, not an ounce of him out of commission; muscles like iron and nerves like electric wire; cunning to steer his schooner Strathcona among the ice-packs, daring with his keel on the rocks; preacher, doctor, ship's captain and pilot, sawmill operator, educator, judge and jury, and community-builder. He is the stout-hearted father of a weird people that go down to the sea in ships and cast out their nets amid the fogs and the storms. What wonder that Dr. Grenfell is a perfect gentleman—when, with such a life, he is so many-sided a man?

"What did you wish to know?" he said, in a light musical voice with a clear English accent. His keen eyes looked hard at the visitor.

"As much about the man Dr. Grenfell as possible; as much as possible about the strange life and work that make such a man—for you must admit, Doctor, that men of your stamp are not common. Confess, first of all, that you are the original of Dr. Luke."

He smiled as he clasped his left knee. "Well, I know Duncan extremely well. He spent three weeks with me in Labrador. I have tried to make him say that Dr. Luke is not me—but as most of the stories are about my work, I'm afraid I must plead guilty. That book helped our mission wonderfully. I have great faith in Duncan. He has a strong, serious aim in literature—not merely the dollar."

THE OPTIMISTIC OUTPOSTER.

"Does anything grow in your country except codfish?"

"We have a sawmill at Engelee," he said quietly. "We don't saw rocks."

"Spruce trees, and codfish and rocks— twelve years amongst these. Then you have no aristocracy, as yet, doctor?"

"Indeed, yes; the Eskimos are the oldest families in the land. Poor beggars, with all their blue blood, they've got to come down to common cod fishing now like plain white men, for the seals are scarce and the walrus are almost extinct. Cod is the coin of the realm. But as to life in Labrador, why, bless me, it's a hundred times ahead of Iceland. I've been all around Iceland, and all over it — not a stick of timber, and nothing to burn but sod peat; the most desolate country on God's earth, except, perhaps, north Norway. Yet those Norsemen are good people."

And it began to be evident that here was a man who, if a deep, conscientious call had not taken him to Labrador for life, might have known as much about the Sandwich Islands, as Robert Louis Stevenson, or as much about Siberia as Geo. Kennan. The doctor is a professional sailor, having taken out his master's papers before he left England in 1892. But the big practical aim of the man is rooted in that far-off bleak work of his; those three storm-beaten fishing villages in a coast line circuit of 300 miles, with their population of 30,000 from May until November, and 4,000 from Christmas and New Year's. He lives in the fourth village, Engelee.

THE INTREPID NAVIGATOR.

"We have a grant of 125 square miles at Englelee from the Newfoundland Government," he said. "The sawmill built our houses, our store, our wharf and our two freight ships. Our main vessel is the Co-operator. Her plan was sketched on a plank by a man that could neither read nor write. We want a bigger one now —say, 125 tons."

"What is your freight route?"

"From Englelee to St. John, Nfld., with lumber, 65,000 feet a load, for which we get $13 a thousand; back again with salt and goods for the stores; down again with codfish. We built the Co-operator ourselves. She has a crew of twelve."

"But your own time is taken up with the hospital steamer, is it not?"

"Yes, the Strathcona runs six months every year. I am her captain. We carry patients from the fisheries to the hospital, and distribute literature. Our people are now learning to read. We have now a circulating library. It began with coloured newspapers, which I threw off in bundles at the fishing stations a few years ago. The interest taken in these was so great that I wrote to Mr Carnegie, asking for a gift. I got it. We shall spend it in books."

"Did you also guarantee ten per cent. a year for maintenance?"

"Ah! jolly well not!" was the laughing reply. "You'll never catch me guaranteeing anything when almost any day the Strathcona might go to smithereens on a rock."

"What became of that steam launch with the eight foot beam with which you navigated the Straits of Belle Isle?"

"Out of commission. Did you ever try to navigate the Atlantic in a gale with a steam launch? No—well, you'll never need to."

THE STRENUOUS LIFE IN LABRADOR.

"Have you much sickness among your people?"

"Considerable. Our three hospitals are kept pretty busy. I'm taking up two Boston Surgeons with me this summer. Blood-poisoning is our chief trouble. There are always accidents, of course, and a large number of our people have consumption, caused by contagion from shack life."

"No appendicitis, I suppose?"

"No, nor any nervous prostration,' he said, with a smile. 'Our people are not imaginative. It's a good thing they're not. They don't pine for inland civilization. Do I? Well, I don't give myself time. There's too much practical work. Every day I regret that I never had a good technical education. There's water-power going to waste by fore right back of our village. If I know how to rig a turbine and dynamo do you think I'd be running the saw-mill by steam? We've had to make everything ourselves in that country. For much the same reason that we have to ship in all our supplies, even our potatoes. Building our saw-mill was a bother. We got the gangway upside down and the logs positively wouldn't go up to the saw. Yes, we've been reduced to eating clams and mussels some winters when we had no other food. As for reading up medicine, my only chance is when I get out like this and have the glorious privilege of going to a big hospital.

"Still we are always contented. Our greatest need is money to carry on the work. Our people we are teaching as far as possible to help themselves. They are hard-working folk who will not beg. The men have fine physiques. They are simple-mannered people. Seldom do they quarrel. When they do or there is any dispute I am usually the judge and the jury. If the man who is in the wrong doesn't admit it or make reparation, I tell him I'll put the law to him down at St. John's, and if that doesn't bring him to reason I'll probably give him a taste of Labrador jiu-jitsu."

There was nothing delicate about this wholesome, practical philosophy and not the shadow of a brag. The big-shouldered sailor doctor got up to receive another caller. Almost as abruptly as a pile-driver he took leave of the reporter with another tremendous hand-grip—the strange figure whose big-hearted, level-headed virility is too modest even to be picturesque.

Every once in a while little Britain in her plentitude of civilization throws out a man with the aboriginal instinct; a Stevenson, a Rhodes, a Strathcona. "Dr. Luke of Labrador" is another of these distinguished exiles. He made money—money for the far-out fisher folk of Labrador, the toilers of the sea.

Lever's Y-Z (Wise Head) Disinfectant Soap Powder dusted in the bath, softens the water and disinfects. 3p

BOYS' SWEATERS

We are pleased to announce the arrival of a large and well assorted stock of Boys' Sweaters which so many mothers have been asking for.

ANNUAL REPORTS WERE PRESENTED THIS MORNING

An Interesting Session of the Women's Foreign Missionary Society—Foreign, Home and Indian and Chinese Mission Secretaries Gave Encouraging Reports—Miss Jamieson Speaks of the Work of Travelling Secretary--President's Annual Address Presented at Yesterday's Afternoon Session--She Recommends Greater Earnestness in the Work--Presbyterial Societies Give More Encouraging Reports of Work of Past Year--The New Board of Managers Elected This Afternoon--A Missionary Address.

The presentation of the President's address was the most interesting feature of the afternoon session of the Women's Foreign Missionary Society yesterday in St. Paul's church. The address was deeply interesting and was listened to with close attention by the large number of ladies constituting the audience.

Mrs. Shortreed's address follows:

President's Address.

Dear Christian Friends,—We have been graciously sustained and prospered throughout another year of grace and with grateful hearts we thank and praise our God for the guidance and blessing vouchsafed us. There has been much earnest prayer in the past few weeks that the presence and power of the Holy Spirit might be manifest in this and all the sessions of our meeting. The hour of privilege we have now enjoyed is, we trust, but the foretaste of the spiritual uplift we are to receive. Let us continue then to "watch unto prayer" that we may grieve not the Holy Spirit, and, that we may be enabled to prove ourselves true witness bearers in the service of our Lord.

We rejoice that we are privileged to hold our twenty-ninth Annual Meeting in Peterborough. In past days we have experienced the kind hospitality of the friends in this city and know well their deep interest in the work which we represent. In the very first year of our society they became identified with it and through all the years since, have faithfully furthered its interests. We very heartily thank them for making it possible for us to hold our meeting east of Toronto this year, and pray that they may have all needed guidance and strength to meet the responsibilities they have so willingly undertaken.

A Cordial Welcome.

To the delegates who are with us to-day, from far and near, we extend most cordial welcome to this meeting. We are glad to have this opportunity of seeing again friends whom we have long known in the work. There is cheer and helpfulness in such re-unions. We are glad too, that we are privileged to meet with workers whom we have not met before, for thus we learn to know and appreciate each other and gather from one and all new stimulus and help for further work.

Several of the officers of the Board of Management have passed through very trying experiences during the year—serious personal illness in some instances and in the case of others sickness in their homes. While to our Treasurer and and Home Secretary came the sorrow of bereavement. Our Recording Secretary was ill for months, but we rejoice that she is now in some measure restored to health and able to be with us to-day, but deeply regret, that some of our officers are unable to be present at this meeting. Their reports are before us, however, and show that their work has not suffered loss, although much of it was done under trying circumstances. Our Treasurer and Secretaries have carefully gathered the records of the year and presented the results clearly and interestingly. Their work is completed, the responsibility now lies with you to gather the information and learn the lessons the reports are intended to convey.

Work is Prosperous.

Your Executive was greatly encouraged by the spirit of loyalty to our work which was evidenced in so many of the Presbyterial reports and you dear friends, will rejoice with us when you hear how God has blessed the work of our Missionaries in the several fields. We are encouraged to increased effort when we hear of the transformation the message of God's love has wrought in the lives of many of the women and children among whom our Missionaries labour. Picture to yourselves, for a moment, the little bands of Indian women, gathering together from time to time, and spending whole days in making articles for sale ,the proceeds of which they give to send the Gospel to those less favoured than themselves; the little Indian girls in their Mission band making bead-work and other Indian children earning money in a variety of ways, that they, too, may have some share in making known the love of Jesus. Then in contrast, place before your minds these same women and children before the leaven of the Gospel found lodgment in their hearts: degraded and ignorant, living for self alone and with no knowledge of our Lord and Saviour to inspire them in life and give them hope for the life to come. The rescue of one soul from such degradation and hopelessness, is a work that angels rejoice over. To know that not only one, but many, are being brought into the Kingdom of Christ through the ministry of our missionaries, should give us greatest joy and longing desire to increase and manifold the power of such loving ministry. From India and China comes the same good news, of women and children professing faith in Christ and striving to show forth His spirit in their daily lives.

A Good Record.

We are rejoiced, that in all the home departments progress has been made and that the forecast for the future indicates further enlargement. At this point, however, we can only give one illustration of the good things to be found in these reports. From the Home Secretary's report we learn that we have at least one Presbyterial in which there is an Auxiliary of our Society in every congregation, and in another Presbyterial we find a congregation the women of which are all members of the Auxiliary. What it would mean to our church and our work, if this were the rule and not the exception! It was the goal set before us from the beginning of our work; but, after twenty-nine years of effort we find there is still much land to possess. Do not let us lose sight of this aim, however, but with renewed energy press forward to its attainment.

A Travelling Secretary.

In accordance with the instructions of last annual meeting, your executive elected a travelling secretary. The choice fell upon Miss Jamieson, missionary from Ujjain, Central India. Her appointment for the year dated from the first of June, 1904, after which she was given a short time for necessary preparation before beginning her new duties. Plans were formulated, rules and instructions prepared and correspondence with Presbyterial Societies begun. At this point your executive met with difficulty, as it was found almost impossible to arrange for any meetings during July, August, and the early part of September, while during the autumn months, the requests for the services of the travelling-secretary were numerous enough to have kept two or three secretaries busy. It was also found difficult to arrange for a series of meetings in the late winter and early months of spring. Miss Jamieson, in her report, speaks of the work accomplished. From it you will see, that a good deal was done in spite of the many hindrances. This department was an entirely new feature in our work and entered upon rather hastily, therefore, it was not to be expected that the results for the first year would be wholly satisfactory. But we believe, that an excellent beginning was made and we believe also, that the effort in the West was a timely one.

Conscientious Work.

Many of us feared that the work would prove too heavy a strain upon our Secretary's strength, but she was wonderfully sustained in all her arduous duties. We have pleasure in testifying to the conscientious and judicious way in which the work was done and we have reason to believe that her services were much appreciated by all who were privileged to share in them.

We are very grateful to Dr. MacKellar and Miss Jamieson for their helpful influence during the year. They have done much to extend information and deepen interest in our "Woman's Work for Woman" and we feel sure that good results must follow their faithful seed-sowing.

The Hand of Death.

Since our last annual meeting death has removed many who were well known to us in this work—some who were prominent in it in the earlier days and some while still engaged in active service. Mrs. Blair, of Prescott, ripe in years and rich in loving service, Mrs. Wm. Reid, one of the honorary vice-presidents of your executive board, who although unable for active duty, was to the close of her life in living touch with our work, using her pen to speak to one of our Mission bands when no longer able to influence them by her presence. Miss Haight, Miss Harmon and Miss Bruce were all closely identified with our society in the earlier days and did much to promote its interests. Mrs. Hogg, of Winnipeg, also a valued member of the society was called away. These, and many other esteemed friends, have ceased from earthly labours, but are not forgotten. Their deeds of love and service live on in our memories.

We mourned with our church in the great loss she sustained in the death of the Rev. Wm. Caven, D.D., the revered and beloved principal of Knox College. A leader in every good cause, esteemed and loved as a man, his death was felt to be not only a grievous loss to our church and country but a personal sorrow to all who were privileged to know him.

We have also sorrowed with our church in the death of Mr. Swartout, missionary at Ucluelet, and the Rev. J. A. Sinclair, Principal of the Regina Industrial School. In the midst of their activities and in the prime of life the summons came to them. We deeply sympathize with their dear ones thus suddenly and sadly bereaved of husband and father and earnestly commend them to the sustaining grace of the God of all comfort, praying that His precious promises to the widow and fatherless may be abundantly fulfilled in them.

As we think of the many who have lately passed from our midst we hear the message "Be ye also ready; for in such an hour as ye think not the Son of Man cometh." We hear too, the call to greater diligence, that the broken ranks may be filled and the work entrusted to us built up and strengthened.

Work in the West.

The visit of our secretary to the West has drawn closer the ties that bound us to the workers there. They have wrought nobly in planting the standard of our society in that great country, amid the many difficulties with which they had to contend, and have wonderfully extended and sustained its interests. Possibly we have not aided them to the extent that we should have done. We have been deterred from much that we desired to do because of the great expense involved in sending missionaries and other workers to them. The time has come, however, when we must devise more liberal things if we would make room for possible expansion in this direction.

The words of Isaiah to the Gentile church fittingly express what should be our action in the days to come—"Enlarge the place of thy tent, and let them stretch forth the curtains of their habitations; spare not, lengthen thy cords and strengthen thy stakes." Again we are told that, "There is that scattereth, and yet increaseth; and there is that withholdeth more than is meet but it tendeth to poverty." Would not we do well to bear these words in mind as we look forward to the future?

We are glad that we have with us to-day representatives from Winnipeg and Vancouver, and trust that their counsel in conference may enable us to plan more wisely in the interests of our Society in Western Canada.

The Training Home.

Mrs. Livingstone's visit to Manitoba did much to arouse and extend interest in our Missionary Training Home and good results are already evident. Your executive had under consideration the enlargement of the work of this institution and approached the Foreign Mission Committee with the request that they, in conjunction with other committees of the church, devise means to this end. The idea was to broaden the scope of its usefulness, and make it more a recognized institution of the church than it is at present. The committee has not yet reported action. We are exceedingly anxious, however, that immediate steps be taken to enlarge and make more efficient this institution. Good work has already been done through its agency, but its possibilities are much greater, and we would press forward to the attainment of them. Wealthy women of our church and society could render no better service than to put this work on a strong financial basis.

Scholarships are required to give help to worthy missionary applicants, and there is also need of more commodious accommodation, and better equipment. May the hearts of those who are able to help in this matter be touched, and led to give the needed assistance.

Need of Prayer.

There is one weakness which we greatly fear in our work. It is the lack of earnest, believing prayer in many of our meetings. Were we as faithful in supplication at the throne of grace as we should be, we would have greater joy in our work, and more telling results. Let each of us in the days to come wait earnestly upon God in prayer for the baptism of His Holy Spirit, that He may teach us how to pray the effectual fervent prayer through which shall come rich blessing to ourselves and to the world.

As we look forward we are impressed with the magnitude of the work that lies before us, the many doors of opportunity open for us to enter and possess, in the Master's name. Our earnest prayer is that we may be fully alive to the great issues at stake, and let no obstacle hinder us on the onward path of duty. We have His promise to be with us and know that His power and wisdom are all-sufficient to enable us to make victorious progress. But we need to be watchful in prayer that we fall not. A great work has been entrusted to us by our Lord, and the church we represent; we have undertaken to support it, in addition to doing our fair share in the maintenance of all the other schemes of the church, and are in honour bound to faithfully respond to our obligations. New calls and pleas come to us every day, many of them most worthy; but we must see to it that they are not helped at the expense of the work to which we are already pledged. The need for Christian women's work for heathen women, calls more loudly to us than ever. If we would prosper in our own religious life, if we would have the home church prosper, we must earnestly and loyally press forward. We do not ask that this be done to the neglect or injury of other work entrusted to us as members of Christ's church, but when other claims press upon us, let us see to it that we sacrifice some personal pleasure or comfort rather than let this work suffer.

United Work Needed.

We sound one word of caution to-day. It is against the tendency to branch off along independent lines of action in the conducting of Mission work, especially in connection with young peoples' organizations. This will eventually be a weakness to our church if encouraged. The importance of training our young people to work in accord with the institutions and recognized organizations of the church is of the first

NOTICE.

Take notice that the Municipal Council of the Corporation of the Town of Peterborough intends, after one month after the last publication of this notice, to undertake the construction of granolithic sidewalks on the following streets or parts of streets in the Town of Peterborough, as local improvements, under section 678 of the Consolidated Municipal Act, 1903, and the other provisions of the said Act and the by-laws of the said Town relating to local improvements and applicable thereto:—

Hunter street, both sides, from Bethune to Rubidge street; Simcoe street, both sides, from Bethune street to Rubidge street; London street, north side, from Aylmer to Reid street; Antrim street, north side, from George street to the Grand Trunk Railway; Reid street, east side, from McDonel street to Hall street; Brock street, south side, from George to Water street; Brock street, north side, from Rubidge to Reid street; Queen street, west side, from Hunter street to Simcoe street; Murray street, north side, from College to Dickson street; Bethune street, east side, from McDonel street to London street; Simcoe street, north side, from Water street to Queen street; Water street, west side, Simcoe street to the Market Square; McDonel street, north side, from Downie street to Park street; Argyle street, south side, from Water street to Sunnyside street; Hunter street East, south side, Mark street to Rogers street; Regars street, west side, Hunter to Robinson street; Rogers street, west side, lot 3 plan 17 to Hazlitt street; south side, Water to Harvey street; Edinburgh street, north side, from George street, to the Grand Trunk Railway; Edinburgh street, south side, from George street to Union street; Smith street, north side, from Reid to Downie street; Downie street, east side, from Smith street to Victoria Ave.; Sherbrooke street, north side, from the junction of Park and Reid streets to the Monaghan Road; Harvey street, west side, from Smith street to Antrim street; King street, north side, from George street to Aylmer street; except at the bridge; King street, south side, from Aylmer street East to the bridge over the creek; Scott street, south side, from Rubidge street to Reid street; Bethune street, west side, from Edinburgh to Antrim street; Aylmer street, east side, from McDonel street to half way between London and Dublin street where the culvert interferes.

And to assess the final cost thereof, less the cost of that part of the work which is incurred in respect of street intersections, and opposite exempted properties, and less forty per cent. of the remaining cost of the work, to be provided by the Municipality under Section 678 of The Consolidated Municipal Act, 1903, upon the properties abutting thereon, and to benefitted thereby, the number of annual special assessments therefor will be twenty.

Persons desiring to petition the said Council against undertaking any of the said proposed works must do so on or before the 17th day of May, 1905.

Dated the 1st day of May, 1905.

S. R. ARMSTRONG,
Town Clerk.

ANGLING CLUB ELECTS OFFICERS

Annual Meeting of Disciples of Isaak Walton.

Mr. R. H. Shepherd Elected Commander—Mr. O'Brien's Exalted Position.

The annual meeting of the C.G.E. Anglers Club was held last evening in the Y.M.C.A. and was attended by a large number of zealous followers of Isaak Walton. The gathering was a most jovial and efithusiastic one and certainly augurs a prosperous season for the club, if not for the members of the finny tribe. Everyone present seemed to feel certain that many delightful events are in store for the coming summer. Commodore J. G. M. Wilson was in the chair.

The financial statement showed that a very creditable balance was on hand and the report was considered very satisfactory. Seven gentlemen applied for membership in the club, and they will be admitted.

Mr. R. M. Roy was made an honourary member and elevated to the Rear-Admiral. The election by ballot for the other officers resulted as follows:—

Commodore—R. H. Shepherd.
Sec.-Treas.—J. G. Scott.
Captain—J. G. M. Wilson.
Cook—John Trombley.
Guide—J. Brown.
Bard—N. Munro.
Official Liar—John O'Brien.
Scullion—Fred. Dorocher.
Cabin Boy—David Carlisle.

It was decided to hold another meeting of the club two weeks from last night in the T.A.S. rooms when the new members will be initiated and other business transacted.

MARTYRDOM DESCRIBED

Kingston Man Tells how he Suffered and How he was Released.

Chas. H. Powell

"For years a martyr" is how Chas. H. Powell of 105 Raglan Street, Kingston, begins his story. A martyr to chronic constipation, but now I am free from it and all through the use of Dr. Leonhardt's Anti-Pill."

Many who are now suffering from this complaint will be glad to hear from Mr. Powell's story that there is hope for the most stubborn case. He continues: "I was induced to try Anti-Pill by reading the testimony of some one who had been cured of constipation by it. I had suffered for eighteen years and had taken tons of stuff recommended as cures but which made me worst rather than better. Doctors told me there was no cure for me."

Dr. Leonhardt's Anti-Pills for sale by all Druggists or by The Wilson-Fyle Co., Limited, Niagara Falls, Ont. Beware of substitutes and imitations of these statements.

POPULAR COMEDIAN HOME ON VISIT

Mr. Dan Simons Returns for Short Visit, After Prosperous Season.

Mr. Dan Simons, Peterborough's popular comedian, who has attained great success in theatrical circles across the line, is home for a brief holiday, and is being greeted with many hearty hand shakes by his host of old friends around town.

Mr. Simons, who has closed a prosperous season with "Himmelken's Ideals," will, upon his return, enter upon the summer vaudeville season, on June 1st, playing in Massachusetts and Maine. He will next season appear in the leading role in Gus Hill's Musical Comedy Co.

Dan, together with Mr. Herb Snowden and Mr. Frank White, will spend a few days in a quest of the "speckled beauties" at Gull Lake, and will undoubtedly return with a choice collection of fish—stories, anyway.

If the fish take to his hook as the public in front of the footlights take to Dan's "turns," there will not be many fish left.

Appetite Was Poor.

Dizzey Most of The Time.

Could Not Sleep at Night.

Many people are unaware of having anything wrong with their heart or nerves till some little excitement or overwork makes them feel faint and dizzy, or perhaps simply going up or down stairs causes dizziness and specks to float before the eyes. People troubled in this way should heed the warning, and not fail to take treatment before something more serious occurs.

For all heart and nerve troubles there is nothing to equal

Milburn's Heart and Nerve Pills.

We do not claim that they will cure chronic heart disease, but we do claim that they will strengthen the weak heart, and build up the shaky nerve system.

Here is what Mrs. Sidney Hoffman, Hillside, Ont., says:—

"I was troubled greatly with my heart, and was so very nervous that the least little thing startled me.

"My appetite was very poor; I could not sleep at nights, and was dizzy most of the time. I took three boxes of Milburn's Heart and Nerve Pills, and I am very pleased to say that they did me a wonderful lot of good."

Milburn's Heart and Nerve Pills are 50 cents per box, or 3 for $1.25. All druggists, or mailed direct.

THE T. MILBURN CO., LIMITED, TORONTO, ONT.

MR. H. A. COOK WAS SUSPENDED

Until His Horse "Petroleum" is Identified.

All Winnings to be Returned to the Association—American Trotting Association Decision.

Special to the Examiner

Detroit, Mich., May 3.—A Chicago dispatch says that the Board of Appeals of the American trotting association yesterday disposed of about fifty cases submitted for decision. H. A. Cook, of Peterborough, Ont., was suspended until Petroleum has been finally identified and all winnings over tracks controlled by the association have been returned for redistribution, Ella H., owned by A. D. McBride, Collingwood, Ont., and H. A. Cook, of Peterborough, Ont., was suspended until fully identified and all winnings are returned to the association.

GALT GETS "YEBBIE" FLAHERTY

Settled in That Town For Another Year.

The Mail has the following special tom Galt:—

Galt, May 2.—All doubts as to Flaherty's whereabouts and intentions were set at rest last night, when the redoubtable "Yebbie" arrived in Galt and said he was here to twirl for his old town. Galt gains "Yebbie" but loses Hammill, as the crack right fielder left for Winnipeg this summer to join the Maroons, with whom he signed last year. Hammill had only one error to account for last season and was among the topnotchers in the batting record. All his friends hope Jimmie will make good at the Peg-pole Capital and reflect due credit on the Manchester of Canada.

LACROSSE.

"Talking about players who have stuck to the game," remarked the Old Crank, "I don't think any of they have anything on Peter McMillan, of Beaverton, Joe Phelan, of Arthur, and Dr. Lew Campbell, of Bradford. Peter numbers twenty-seven years on the field. Last season he played junior for the Checkers and the chances are he'll make his appearance again this summer. Joe Phelan is currently reported to have played defence for Gen. Brock's team in the battle of Queenston Heights. Any way the oldest inhabitant cannot remember the time when Joe was not in the game and "Gad blame it" he'll play again for Arthur this season.—Telegram.

• • • •

The Chicago British American has the following reference to lacrosse in that city. It will be noticed that two former well known Peterborough men are in the list of players:—

The Calumets, who for several seasons have been the only lacrosse team of note in the city, will have to reckon with the Chicago team, which bids fair to be a strong organization. Following is the present roster of leading players and their home clubs:—

A. L. Phillips, Picton, Ont.; H. J. Grogan, Toronto; O. Gauveon, Montreal; A. Wood, Rat Portage, Ont.; C. A. Morrison, Walkerton, Ont.; J. Sullivan, Toronto; C. O'Malley, Walkerton, Ont.; P. Rusidge, Peterborough, Ont.; E. V. Elwood, Stratford, Ont.; R. W. Blackwood, Huntington, Que.; P. G. Mittleberger, St. Catharines, Ont.; Bert Guy, Peterborough, Ont.; J. C. Kearney, Montreal, Que.

• • • •

BASEBALL.

Peterborough will not give Lindsay a game of ball unless they play a return game at Peterborough on a Saturday, which is almost impossible.—Lindsay Post.

• • • •

To-night the meeting of the Guild League to arrange the schedule for the season, will be held in the Y.M.C.A. All teams wishing to enter the league are asked to have a representative present.

• • • •

Rochester is a great umpire-breeding city. The following all of whom will handle the indicator in big league games this season, hail from that little town,—Hilly Mcloughlin, Carpenter, Sullivan, Klim, Stone, P. Feminger and others.

• • • •

The uniforms for the Charlotte street baseball team are now at Fred. Clarke's. The uniforms consist of red stockings and red caps and the overdraw and trousers of Military Grey. They were made by Mr. A. Kingscote, and just here it might be said that the clubs ought to get their outfits made in town and not send to the city for them as the above goods are all that is required. If good clothes will win the championship, the boys from Charlotte street ought to be well in at the finish, as their uniforms are the best that can be procurred and are strictly "Made in Canada".

• • • •

FOOTBALL.

The Quakers will hold a practise tomorrow night. All the boys are requested to be in uniform.

• • • •

Mr. Fred. Clark has supplied the Old Country Wanderers with sweaters and they are certainly swell. The sweaters consist of dark blue ground with white collars, white rings on the wrists and the letters "O.C.W." in white across the breast. Uniforms like this are a credit to any organization.

ANTISEPTIC AND HEALING

There are Scores of Ways in Which Every Family Finds Use for

Dr. Chase's Ointment

Dr. Chase's Ointment is so pure and clean, so remarkably soothing and healing and leaves the skin so soft, smooth and clear that it becomes a pleasure to use it.

Though best known because of its extraordinary control of the most torturing, itching skin diseases, such as eczema, salt rheum, psoriasis and tetter, it should not be forgotten that Dr. Chase's Ointment will not injure the most delicate skin, but is really a skin beautifier of great value.

Dr. Chase's Ointment is used with splendid results as a cure for:

Chilblains and frostbites.
Chapped hands and face.
Sore and inflamed eyelids.
Poisoned skin.
Scald head and baby eczema.
Sore feet and toes.
Pimples and blackheads.
Rough, red skin.
Hives and insect bites.
Barber's itch.
Scalds and burns.
Itching peculiar to women.
Ringworm and pinworms.
Old sores and bed sores.

Especially where there are small children scarcely a week passes in which Dr. Chase's Ointment would not prove useful.

By noting the cures reported from time to time in this paper you will find that Dr. Chase's Ointment is one of the greatest healing preparations known to science, frequently curing eczema and psoriasis when all other means have failed.

Sixty cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

CANOE STOLEN AT RICE LAKE

Marauders Entered Home of Mr. Frank Birdsall About a Week Ago.

A burglary, which is one of many reported throughout the country, occurred near Rice Lake at the home of Mr. Frank Birdsall about a week ago.

The operations were conducted during the night, the cellar being first broken into, after which the marauders evidently transferred the scene of operations to the boat-house, the lock upon upon which was broken, and upon investigation it was found that a canoe had disappeared.

The visit of the thieves was not discovered till morning, when it was found that they had while in the cellar evidently refreshed themselves by imbibing large quantities of cream.

Mr. Birdsall at once instituted a search for the missing canoe, which was found later, upon the opposite shore of the Lake, where it had been drawn up and left. No trace has yet been discovered as to the identity of the marauders.

CITY CREAMERY IDEA WILL BE CARRIED OUT

Mr. Downham Will Shortly Return to Peterborough.

Mr. Downham writes to Mr. Geo. Gillespie of the firm of White & Gillespie, to say that he hopes soon to be able to visit Peterborough again and take up his work of establishing a city creamery here. It is very much to be regretted that the accident which stopped the advancement of this laudable enterprise of over a month ago, has resulted in Mr. Downham being confined to the hospital in Toronto ever since. It will, however, be learned with pleasure by all specially interested, that the prospects of the creamery being started are encouraging, and that the satisfactory progress made at the outset will not be much longer delayed.

Test the Kidneys

Allow the urine to stand in a glass vessel for twenty-four hours, and if at the end of that time it is clouded or there left a sediment in the bottom of the vessel, you may be sure that your kidneys are diseased. As a means of invigorating the action of the kidneys and making them strong and healthy there is no preparation so prompt and none so thorough as Dr. Chase's Kidney-Liver Pills.

Cheap Litterature Curse.

There are men and women in Canada to-day who are drunken and besotted with trashy novels. There are public and Sunday school libraries in this country that do not circulate a hundred good books a year. There are book stores in Canada that do more to destroy the human intellect than half a dozen cigarette stores in the same town or city.—Canadian Magazine.

RACE COURSE BETS DISCUSSED

Mr. Bureau's Amendment to the Criminal Code.

WAS CARRIED BY 54 TO 34

How the Amendment Reads and Its Effect — Will Relieve Ontario Jockey Club From Decision of Courts Against Its Betting Ring — Dr. Demers' Death — The Autonomy Debate.

Ottawa, May 2.—By way of variation yesterday the House took up consideration of an amendment to the criminal code proposed by Mr. E. Gus Porter. At the suggestion of Mr. Jacques Bureau (Three Rivers) the original clause in Mr. Porter's bill was dropped and another inserted, making it clear that the general provisions of the code against gambling do not apply to betting on race courses during the actual progress of a race meeting. There was a vigorous opposition to the amendment.

The amendment reads: "Provided that a race course of an incorporated association shall not be deemed to be a common betting house merely by reason of any betting thereon during the actual progress of a race meeting, or by reason of recording or registering such bets or of anything done thereon as incidental thereto or connected therewith, and nothing contained in clause 1 of section 197 of this act shall be deemed to apply to any such betting or the recording, registering, depositing or the becoming custody of any such bet."

A standing vote was taken on the amendment, which carried by 54 to 34.

A motion was made for the third reading, but being objected to by Mr. Brodeur, it was not put, so that the bill stands over for its final stage. When it has passed both houses it will relieve the Ontario Jockey Club from the decision of the courts against its betting ring, inasmuch as it will legalize bookmaking just as bets between persons made upon race actually taking place upon association tracks are legalized by sub-section 2 of section 204 of the criminal code.

Questions and Answers.

Sir Wilfrid Laurier informed Mr. Clements that the question of erecting wire fences along the southern boundaries of the Northwest Territories is under consideration, but no tenders had yet been asked for nor contracts let.

About Stamps.

Before the orders of the day were called, the speaker stated that the election of Hon. Frank Oliver, for Edmonton, had been announced through the clerk of the Crown in Chancery.

Sir Wilfrid told Mr. Monk that no conclusion had yet been reached regarding the trading stamp problem.

Sir William Mulock told Dr. Barr that he understood the stamp used in franking had been abolished by the direct wish of the House, and it was not the intention of the Department to revive the stamp instead of initials as at present, owing to abuses that had crept in during the former system.

Dr. Demers' Death.

Sir Wilfrid Laurier referred to the death of J. J. Demers, member for Levis, expressing sympathy. Mr. Borden added a few words, and Mr. Talbot of Bellechasse spoke briefly in French. Out of respect, the flag was at half mast on the tower, and a large wreath was laid on the desk formerly occupied by Dr. Demers.

The following bills passed a third reading: An act respecting Ontario, Hudson Bay & Western Railway Co., and an act respecting the Alberta Railway & Irrigation Co.

E. N. Lewis, M. P., is Freed.

The bill for the relief of E. N. Lewis, M. P. for West Huron, was read a third time and passed yesterday. It relieves Mr. Lewis from any penalties he may have incurred through being about the date of his election, surety for a mail contractor. Mr. Borden proposed an amendment to the general law to cover such cases.

ALL IT NEEDED

There is more real oxygen in a liquified form in the "solution of Ozone (the coupon kind)" than in any other preparation of a similar nature. As a prompt cure in the killing of all inside germs of thirst, lungs, stomach or bowels, it has no equal when coupled with "Celery King" the famous laxative. That the stringent Ozone needed a tonic of this nature to procure the best results was so apparent that the Public Drug Co., of Bridgeburg, Ont., offer through your druggist a free package of "Celery King" with every fifty cent or one dollar bottle of "solution of Ozone (the coupon kind." Sold by W. B. WARNE, druggist. 6

C. W. MACK. 11 KING ST. W. TORONTO

The Better Way

PEOPLE used to chew cinchona bark until the quinine capsule was invented. People used to take raw cod liver oil, too, until Scott's Emulsion was introduced. The person who would take raw cod liver oil now would, no doubt, also use a spirit lamp and spinning-wheel. The reason Scott's Emulsion is so vastly superior to the raw cod liver oil and the results of its use so much more satisfactory is because it is perfectly adapted to weak conditions of the body. The stomach can accept and retain it even when vitality is low and the functions slow to act.

Scott's Emulsion

enters the system almost entirely digested. It puts no strain on the stomach or weakened organs. The nourishment it gives passes quickly into the blood. Its goodness reaches the seat of weakness quickly, easily and without effort. An improvement begins at once. There's nothing in the world like it for thin, weak people or pale, delicate children. Consumptives and those affected with chronic colds, coughs and bronchitis are invariably helped by Scott's Emulsion.

Scott & Bowne, 122 Wellington St., West TORONTO, ONT.

THE SUIT CASE

Is a junior trunk that may be carried in the hand. It is firmer than a valise and protects the garments perfectly. It is neat looking and very durable.

These we have in all sizes and at a variety of prices. The moderate priced cases are good. The best well worth the extra cost.

Handsomely trimmed and conveniently arranged inside.

Try one. Always pleases.

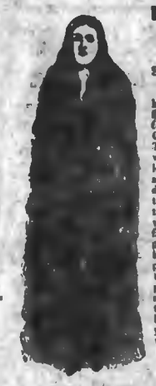
Seven Sutherland Sisters' Hair Grower GREW THIS HAIR



Toronto, Sept. 26, 1904.

Seven Sutherland Sisters:

Dear Ladies,—

I take pleasure to acknowledge the great benefits which I have derived from the use of your Hair Grower and Scalp Cleaner. Two years ago my hair, which was of an ordinary length, started to fall out so badly that I was in despair. A friend advised the use of your preparations, and after a couple of weeks, my hair stopped falling out and started to grow so beautifully that I have kept on using your preparation with the result that to-day my hair as my photograph will show, is six and one-half feet long, thick and glossy, in a word beautiful. I gladly say your preparations are wonderful.

Yours respectfully,

MRS. L. HUTCHENS, 342 Victoria St., Toronto, Ont.

Home Address: 39 Rue de Paris, Bagneiet (Seine), France.

ANNUAL REPORTS PRESENTED THIS MORNING

Continued from Third Page.

nection with the work in the North West and British Columbia among the Chinese and Indians was next presented. A summary of the report follows:

"The passing of the Indian from a life of savagery and lawlessness to one of industry and peace marks a transition in the life of the nation. With this disappears the life of adventure and daring which has characterized the red man. In its place comes the new life in which the Indian is being slowly but efficiently taught to take his place among the citizens of the country. The Indian of yesterday has become a memory; the Indian of to-day is absorbing the attention of our Legislature; the Indian of to-morrow will be found enjoying all the rights of his white brother." If this be true of those on the American side of the border, it is no less true of those in our Canadian Northwest.

Slow but steady progress is reported from all reserves and schools; faithful work, steadily carried forward, is beginning to show its fruits. Many of our young Indians are taking up land, making good farmers. Some have purchased threshing machines and earn considerable with them, while others have found employment on the railways that are being built.

A detailed statement of the progress of the work in Lake of the Woods, Portage la Prairie, Swan Lake, Rolling River, Okanasi, Lizard Point, Builah, Birtle, Crowstand, Pipestone, Moose Mountain, Hurricane Hills, Round Lack, File Hills, Regina, Mestawasis, Makoce, Waste, Alberni, Ucluetat, Dodger's Cove, Ahousaht and Victoria was included in the report.

Home Secretary's Report.

An encouraging report was that of the Home Secretary, Miss Jean Caven, presented by the President, who said in part:

Our society now comprises 28 Presbyterials, made up of 731 Auxiliaries and 357 Mission Bands, with a total membership of 24,580. In 20 Presbyterials new societies have been organized, the largest number being 5 in Guelph. In 12 Presbyterials, Societies have been either disbanded or are unreported. In 17 Presbyterials the membership has increased, while in 20 the contributions are in advance. In 14 Presbyterials both in membership and contributions has there been increase. Toronto Presbyterial shows the largest gain in all directions. Four Presbyterials—London, Maitland, Stratford and Lindsay—attain this year their majority, while Whitby celebrates the 25th anniversary of its organization. It is interesting to note that with one exception every congregation in Whitby Presbytery has an Auxiliary.

For the first time in seven years we have to report the formation of a new Presbyterial Society — Rock Lake. We heartily greet this branch from the West.

A new departure was made last year in the appointment of a travelling secretary. Miss Jamieson's work has largely been done in the Northwest and British Columbia, and even already we are beginning to see fruit from her labours. From one and another point in the West comes word of interest in missions being aroused and societies organized where none had previously existed.

Room for Growth.

Especially in our Mission Band work is there room for growth. This year, while 24 new Bands have been organized, 17 have either disbanded or are in abeyance; and the reason almost always given is "for want of a leader." How can we have recruits for our Auxiliaries if our young people are not being trained? This is a matter of greatest importance to our society, and perhaps in the past our Auxiliaries have been to blame for the lack of interest shown in the work of the Mission Bands. Fifteen of our Presbyterials are reported as having appointed Mission Band Secretaries, and to them we will look to push vigorously this department of our work.

The following is an interesting summary of the Home work:

Presbyterial Societies	28
New Auxiliaries	25
New Mission Bands	24
Auxiliaries unreported or disbanded	6
Mission Bands unreported or disbanded	17
Total number of Auxiliaries	731
Total number of Mission Bands	357
Auxiliary membership	12,539
Mission Band membership...	8,457
Yearly membership of General Society	3,584
Total membership	24,580
Life members added during the year	87
Scattered Helpers— Members	1,775
Contributions	$ 1,223.19
Total contributions from all sources	$57,301.41

DO YOU FEEL THIS WAY.

Do you feel all tired out? Do you sometimes think you just can't work away at your profession or trade any longer? Do you have a poor appetite, and lay awake at nights unable to sleep? Are your nerves all gone, and your stomach too? Has ambition to forge ahead in the world left you? If so, you might as well put a stop to your misery. You can do it if you will. Dr. Pierce's Golden Medical Discovery will make you a different individual. It will set your sluggish liver to work. It will get into every vein in your body and purify your blood. It will set things right in your stomach, and your appetite will come back. If there is any tendency in your family towards consumption, it will keep that dread destroyer away. Even after consumption has almost gained a foothold in the form of a lingering cough, bronchitis, or bleeding at the lungs, it will bring about speedy cure in 98 per cent. of all cases. It is a remedy prepared by Dr. R. V. Pierce, of Buffalo, N. Y., whose *advice is given free* to all who wish to write him. His great success has come from his wide experience and varied practice.

C. A. Copenhaver, Esq., of Mount Union, Shenandoah Co., Va. (Box 29), writes: "About twelve years ago I was suddenly taken with a pain in the pit of the stomach which was so violent I could not walk straight. It would grow worse severe until it caused waterbrash and vomiting of a slimy yellow water. A physician told me I had a form of dyspepsia and treated me for same. He prescribed what but little benefit. Another physician told me my liver was out of order and that I had indigestion. He gave me a treatment and I got some better but only for a short time. I then tried another one, who said I had chronic indigestion, ulceration of the lining of the stomach, torpid liver and kidney affection. He treated me for more than a year and I felt much better, but it did not last. I then took to using several widely advertised patent medicines, but received no more than temporary relief. I then tried Dr. Pierce's medicines using his 'Golden Medical Discovery,' and the 'Pleasant Pellets,' and in two months' time I was feeling better than I had for years before."

Don't be wheedled by a penny-grabbing dealer into taking inferior substitutes for Dr. Pierce's medicines, recommended to be "just as good."

Doctors Said That Lumps and External Swellings Would Turn to Running Sores.

Mrs. Jacob Kachler, Zurich, Ont., says that

Burdock Blood Bitters

Saved Her from Many Years of Suffering.

She writes:—"Now imagine how joyous and great was my surprise when a friend of mine told me that Burdock Blood Bitters would cure me, so that the lumps and external swellings, which the doctors told me would turn to running sores, would disappear. I took her advice, and can say that I have no doubt but that Burdock Blood Bitters has saved me from years of suffering. It is with the greatest of pleasure and with a thankful heart that I give this testimonial, knowing that Burdock Blood Bitters has done so much for me, and you are at perfect liberty to use this for the benefit of others similarly afflicted."

Burdock Blood Bitters is the best blood medicine on the market to-day, and is composed entirely of roots, herbs, barks and berries.

A New Departure.

Last year the society adopted a new feature, that of the employment of a travelling secretary, and the results were most satisfactory. Miss Jamieson, a missionary home on furlough, was engaged and the report of her work was read next. A portion of that report follows:

With last August began my tour in the West. Leaving Quebec on the 22nd of August, Danville and Ormstown were visited en route to Toronto. In the former an Auxiliary with a small but capable membership was organized. No more earnest workers than those in the Auxiliary and congregation in Ormstown can be found in the church. They have been well instructed regarding every department of the church's work and in systematic giving.

From Toronto the journey was unbroken as far as Medicine Hay. Calgary, the first Presbytery in which meetings could be arranged, was the centre from which a number of congregations as far north as Edmonton and south as far as High River, were visited. On the way to the coast a sparsely attended meeting was held in Banff. Over five weeks were spent among the churches and societies in Westminster, Ladners, Delta, Vancouver, Eburne, Victoria and Nanaimo. In one of the Auxiliaries in British Columbia is perhaps the oldest woman who is an active member of the W. F. M. S. At a meeting held for the society to which this aged woman belongs, no one asked more revealing questions nor took more interest in all the proceedings than this interesting woman.

On the return journey, Kootenay was the first Presbytery in which an opportunity for work offered. Most of the pastors in the churches visited understand the meaning of world-wide missions, and we may reasonably expect to have other Auxiliaries added to the one now existing in that Presbytery. Continuing eastward, Cranbrook, MacLeod, Lethbridge, Moose Jaw and Moosomin have Auxiliaries which, without the help to be derived from Presbyterial organization, are doing efficient work. The enthusiastic ladies in Brandon and Glenboro Presbyterials had planned for work which would occupy a month in each Presbyterial. When told that only two weeks each were at their disposal, their difficulty of deciding which places must be taken from their programme was a real one. There were a number of congregations in which a society might be organized, could their interest be more fully roused by the visit of a missionary. All the Auxiliaries were anxious for a visit. Which was the more important? In most cases it was decided the Auxiliaries had the first claim. However, two societies, Fairfax and Rathwell, were organized in the Glenboro Presbyterial. Work in Winnipeg and Rock Lake Presbyterials occupied nearly all the month of January, still much was left undone. Ten instead of less than six months could have been profitably spent in the West. In the W. F. M. S. in Manitoba, the Territories and British Columbia are many intelligent, consecrated women, who are doing much to arouse an interest in foreign missions among the people. The lives of these devoted workers have a helpful influence in laying the foundations in righteousness in that young country, which must be strongly felt in the spiritual life of the church.

Publication.

Miss Parsons, secretary of Publication for the Society, presented the report of that department, which showed that the circulation of the Foreign Missionary Tidings was now 19,350, and in the 12 months 206,893 copies had been distributed. The report told of the number of other publications which had been issued, and was accompanied by a financial statement which showed that the total receipts were $3377.87, of which $2797.28 was from the sale of the Tidings. The disbursements were $3120.97. The general literature statement showed the receipts to be $1115.66.

Finance.

A detailed financial statement was presented from the treasurer, Miss J. L. George, by Mrs. Donald, and showed that the revenue was $57,304.11, of which $47,862.76 was received from Auxiliaries, and $8,416.26, from other sources.

Of the expenditure $861.21 was for the administration of the funds of the Society, and $708.63 was expended for printing and distributing the annual reports.

A summary of the expenditure for the different fields follows:

India...	$15,714 50
Honan...	4,700 69
Formosa...	1,145 00
Indians, Northwest...	12,100 28
Indians, British Columbia	3,014 19
Chinese...	420 00
Examination fees, medical	18 00
Special grant, 1rd a famine...	4,500 00
	$41,612 66

Ewart Training Home

Mrs. Robinson's report of the Ewart Missionary Training Home, was then presented by the president.

The winter session of the Ewart Home opened on the 8th of October with rather a discouraging outlook, only one student being present for the opening lecture. As time passed on, however, one after another arrived, and the close of the session finds the House full to overflowing, with a larger number of students and deaconesses than ever before, twelve in number. Many thanks are due to friends of the Home who have so generously assisted us in our work amongst the poor by donations of money and clothing. Never before have we been able to supply their needs so amply. These donations have not been confined to our Toronto friends but have come from far-away Rat Portage, as well as from Oshawa, Alliston and places nearer home.

International.

The report of the International work was presented by the president for Miss Thornton. A brief summary of the report follows:

The Conference of the International Union of Women's Foreign Missionary Societies, aptly called by the retiring president, "the little sister" of the great Pan-Presbyterian Alliance, was held in Liverpool, in June, 1904. It is twelve years since this Union was formed, but only coming "once in four," it has celebrated its fourth birthday. Our society was well represented by our loved missionary from Central India, Dr. Margaret McKellar; Mrs. Grant, of Orillia; Mrs. Hay, of Ottawa, and our Home Secretary, Miss Jean Caven. A full and most interesting report of the conference was given in The Missionary Tidings by Mrs. Hay. Copies of The Girdle Around the Earth, the official report and organ of the International Union, have been received and as widely distributed as possible.

Since the last meeting (1899) five societies have celebrated their silver jubilee. To these we send our congratulations. The annual reports of many sister societies throughout the knowledge all these with grateful thanks. These reports were most hopeful and encouraging. The age of some of the societies is becoming noticeable, one last year presenting its 60th annual report. Many refer to the "invariably cheering news" which comes from our missionaries. Perhaps the friends at home scarcely realize all its means of effort on the part of the missionaries to write these cheery letters.

These reports were all received and adopted.

WEDNESDAY AFTERNOON.

At the session which opened at 2.30 this afternoon with hymn No. 431, the President being in the chair; prayer was offered by Mrs. Allen, Perth, and after the minutes of the morning session were read, the report of the Nominating Committee was presented by Mrs. McLaren, of Guelph. The report recommended that the Board of Management for 1905-06 be composed of the following ladies:—

Mrs. J. J. Bell, Miss Bethune, Miss Bradshaw, Mrs. Hugh Campbell, Miss J. Caven, Miss Clarke, Miss Craig, Mrs. Wm. Davidson, Mrs. Donald, Mrs. Fraser, Miss George, Miss I. Gordon, Mrs. Greig, Mrs. E. Hall, Mrs. J. C. Hamilton, Mrs. Hanna, Mrs. Harris, Mrs. A. Jeffrey, Mrs. George Keith, Miss Mary Laidlaw, Mrs. MacGillivray, Mrs. Maclaren, Miss B. MacMurchy, Miss Martin, Mrs. Murray, Miss Parsons, Miss M. M. Reid, Mrs. G. H. Robinson, Mrs. Shortreed, Miss Smellie, Mrs. Smith, Miss Marion Smith, Mrs. Telfer, Miss Thornton, Mrs. Tibb, Mrs. Tupper.

The report was adopted.

After the report was adopted, Mrs. R. N. Grant, of Orillia, gave an address on "Gleanings from the International Union," and Dr. Margaret McKellar, of Numuch, delivered a splendid Missionary address. A report of this address will be given to-morrow.

IS THIS A CASE OF SUICIDE---OR WORSE ?

Black Overcoat And Hat Found Close to River's Edge at Early Hour This Morning—Strange Discovery Made by Mr. Louis Beauregard, of 165 Sherbrooke Street, While on His Way to Work—No Particulars, But Strong Suspicions of Suicide Are Aroused—Articles Found Placed in Hands of Police—Search Will Probably be Instituted.

A black overcoat and soft felt hat were this morning found near the wharf at the foot of Sherbrooke street by Louis Beauregard, an employee of the Wm. Hamilton Manufacturing Company. No explanation is yet forthcoming with regard the matter; the strange circumstances arousing in many quarters a fear that it may be a case of suicide.

The coat is of heavy black material with velvet collar and a pocket in the side.

The discovery was made about 6.30 o'clock this morning, as Mr. Beauregard was on his way to work, the articles being handed to the police at noon. They were lying upon the ground about twenty feet from the river bank.

No little apprehension has been occasioned by the discovery, and it is probable that a search will be instituted in case no further particulars are forthcoming.

SECOND LECTURE IN DANTE COURSE

Large Attendance and Growing Interest.

The Minor Works of Dante Dealt With in Scholarly Style.

The large attendance at the last night's Dante lecture in the Y. M. C. A. evidences an increasing interest in the course as it proceeds.

The chair was occupied by Rev. Dr. Torrance.

The subject of Prof. Clark's second lecture was the Minor Works of Dante—the Vita Nuova (New Life), the Convito (Banquet) both written in Italian, and the two Latin works, DeVulgari Eloquio (the Common Speech) and De Monarchia (on Monarchy and Government.) The principal part of the lecture was devoted to the Vita Nuova, which tells the story of Dante's love for Beatrice. The lecturer quoted the words of Theodore Martin, who said of the V. N. "there is not in literature a more remarkable contribution to the personal history of a great man than the 'Vita Nuova' of Dante. It is a chronicle equally minute in analysis, and admirable in expression, of emotions the most profound; a record of real life to which there is nothing superior in romance—every incident, every motion out of which his verses grew, is there side by side with the verses themselves, and thus we are enabled to trace the workings of his shaping spirit of imagination, lifting the real into the ideal, or rather pouring its own golden light around a beautiful reality."

Referring to the remarks in his first lecture as to the reality of Beatrice, the lecturer supported his own conclusion by the testimony of A. J. Butler and others. It was impossible, he said, that Boccaccio should be mistaken or that he should misrepresent well-known facts of his own times. He quoted further, Karl Federn, an eminent German critic, who had declared of the Vita Nuova, that it was the loveliest book created in the Middle Ages; all softness and tenderness, quiet longing, devout love; such a tenderness as is inaccessible to most people of a coarser nature.

The V. N., he said, was begun soon after the death of Beatrice in 1290, and completed ten or fifteen years later. One might say it was the passion of Dante's life to erect a monument to Beatrice; and that the V. N. was consecrated to the real Beatrice and the Divina Commedia to the ideal. The V. N. consisted of a series of poems, chiefly sonnets, connected by prose exposition declaring their meaning; and gave an account of the origin, development, and fortunes of the poet's attachment to the angelic child whom he began to love when he was nearly nine and she a little younger, and whom he worshipped to the time of her death at the age of 24, and after her departure from this world. In the concluding chapter of the book he says he had resolved to speak no more of this Blessed One until such time as he could treat of her more worthily, "so that, if it shall please Him through whom all things live, that my life shall be prolonged for some years, I hope to say that which hath never been said of any woman." Here was the promise of the Commedia—a worthy monument to Beatrice, not wholly unworthy to be offered to Him by whose Spirit it is prevaded.

The second treatise described was The Banquet (Convito or Convivio) written between 1307 and 1309, after Dante's banishment from Florence, although some parts of it are probably earlier. It is constructed partially on the same plan as the V. N., consisting of a series of poems connected by prose essays and commentaries. The work was to consist of fourteen poems on Love and Virtue, with the Bread of Exposition—to make a banquet. Only four were actually written; and to be written in the language of the common people, the neglect of which was energetically condemned by Dante.

The third treatise DeVulgari Eloquio (or the Common Speech) was in Latin because it was addressed to scholars whom the author wished to convince of the excellence of the Italian language.

The last treatise described was the De Monarchia, a word, said Dean Plumptre, on the "ideal polity which should guide men" to righteous government, and therefore to blessedness on earth, and to the reward of righteousness in heaven. In conclusion the lecturer declared that to no poet could the splendid language of Tennyson be more aptly applied than to Dante:

"The poet in a golden clime was born
With golden stars above,
Dowered with the hate to hate, the scorn of scorn,
The love of love."

The subject of this evening's lecture will be the Divine Commedia in general, to be followed on the three following days by the three parts of the great poem: (1) The Inferno, (2) The Purgatorio, (3) The Paradise.

INTERESTING NEWS BRIEFY TOLD.

Things We All Like to Hear About.

NO TONGUE CAN TELL SUFFERING

From Itching and Bleeding Eczema —Pain Terrible—Body and Face Covered with Sores—Doctors and Medicines Failed.

ANOTHER WONDERFUL CURE BY CUTICURA

"No tongue can tell how I suffered for five years with itching and bleeding eczema, until cured by Cuticura, and I am so grateful I want the world to know, for what helped me will help others. My body and face were covered with sores. One day it would seem to be better, and then break out again with the most terrible pain and itching. I have been sick several times, but never in my life did I experience such awful suffering as with this eczema. I felt that death was near, and longed for that time when I would be at rest. I had tried many different doctors and medicines without success, when my mother insisted that I try Cuticura. I felt better after the first bath with Cuticura Soap, and one application of Cuticura Ointment. I continued with the Soap and Ointment, and have taken four bottles of Cuticura Resolvent, and consider myself well. Any person having any doubt about this wonderful cure can write to my address. Mrs. Altie Etson, Bellevue, Mich."

ITCHING ECZEMA

And All Other Itching and Scaly Eruptions Cured by Cuticura.

The agonizing itching and burning of the skin, as in eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of scalp, as in scalled head, from infancy to age; all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura Soap, Ointment, and Pills are such stands proven beyond all doubt.

Cuticura Soap, Ointment, and Pills are sold throughout the world. Depots: London, 27 Charterhouse Sq.; Paris, 5 Rue de la Paix; Australia, R. Towns & Co., Sydney. Potter Drug & Chem. Corp., Boston. Sole Props. Send for "How to Cure Eczema." Mailed Free.

TAN SHOES

Tan, Russet and Chocolate Shoes are to be very popular this season with both men and women. My stock has been chosen to meet every demand—correct shapes, not an old shape among them. The models are the most recent and are made to keep their shape until worn out. The prices are right and the leathers are right because they are all new out of the factory.

Tans, Russet and Chocolate Shoes for Men, Women, Misses, Children, Youths and Boys.

THIRTEEN BOLTED ON BORDEN AMENDMENT

Borden Amendment Defeated---Majority 81---Second Reading Carried—In Autonomy Bill Division on Government Side There were no Bolters, but Mr. Leighton Mc Carthy, Who Usually Supports the Liberals, Voted for Mr. Borden's Amendment.

Ottawa, May 4.—The division which last night brought to a conclusion the protracted debate upon the second reading of the Government measure to establish the Province of Alberta gave a majority of eighty-one for the bill.

The vote on the principle of a Government measure is, in accordance with the constitutional practice, taken upon the motion for the second reading. The debate upon that stage of the remedial bill in 1896 lasted fourteen days, from March 3 to March 20, during which time 77 speeches were delivered. The debate which closed last night lasted from March 22 until May 3, although the number of speakers did not materially exceed the number who spoke on the remedial bill.

The Remedial Bill Vote.

In the division on the remedial bill the vote stood:—Yeas 112, nays 94. Of the fifteen supporters of the Conservative Government who voted against that bill six are still in the house and voted last night for Mr. Borden's amendment, as follows:—W. H. Bennett (East Simcoe), D. Henderson (Halton), W. F. Maclean (South York), Dr. Sproule (East Grey), and Uriah Wilson (Lennox). The other Conservatives who voted against the remedial bill were Messrs. Carscallen, Cockburn, Craig, Hodgins, McGillivray, McNeill, Rosamond, Tyrwhitt, Wallace and Weldon (Albert).

Another memorable division was that upon the Jesuit estates bill, which was carried by 188 yeas to 13 nays.

Hon. Mr. Fitzpatrick, Mr. Barker of Hamilton, Mr. Stockton of St. John and Mr. Leonard of Laval were the debaters yesterday before the vote on Mr. Borden's amendment was taken as follows:—

Yeas (80)—Messrs. Alcorn, Armstrong, Avery, Baker, Barr, Bennett, Blain, Bland, Borden (Carleton), Boyce, Bristol, Broder, Chisholm, Christie, Clare, Clements, Cochrane, Cockshutt, Crocket, Daniel, Edson, Foster, Fowler, Gaenong, Gunn, Hagart, Henderson, Herron, Hughes (Victoria), Ingram, Jackson (Elgin), Kemp, Lake, Lalor, Lancaster, Lennox, Macdonell, Maclaren, Maclean (York), McCarthy (Calgary), McCarthy (Simcoe), McLean (Queen's, P.E.I.), Martin (Queen's, P.E.I.), Northrup, Oaler, Porter, Reid (Grenville), Roche (Marquette), Schaffner, Sproule, Staples, Stockton, Taylor, Tisdale, Walsh, Ward, Wilmot, Wilson (Lennox and Addington), Wright (Muskoka).

Nays (140)—Adamson, Ames, Archambault, Beaupariant, Beland, Belcourt, Bergeron, Bickerdike, Black, Bole, Borden (Sir Frederick), Bourassa, Bourbonnais, Boyer, Brabazon, Brodeur, Brown, Bruneau, Bureau, Burrows, Caldwell, Calvert, Campbell, Carney, Carvell, Cash, Clarke, Copp, Costigan, Crawford, Cyr, Delisle, Demers, Derbyshire, Desjardines, Devlin, Dubeau, Dugas, Dymont, Emmerson, Ethier, Fielding, Finlay, Finlayson, Fisher, Fitzpatrick, Forget, Fortier, Gallery, Gallibet, Gauvreau, Geoffrion, Gervais, Girard, Gordon, Grant, Guthrie, Hall, Harty, Hughes (King's), Hunt, Hyman, Jackson (Selkirk), Johnston (Cape Breton South), Johnston (Lambton), Kennedy, Lachance, Lamont, Lanctot, Lapointe, Laurrance, Laurier (Sir Wilfrid), Laurier (L'Assomption), Lavergne (Montmagny), Law, Leblanc, Lemieux, Leonard, Lewis, Loggie, Lovell, Macdonald, McLean (Lunenburg), Macpherson, McCall, McCool, McIntyre, McIsaac, McKenzie (Bruce), McKenzie (Cape Breton N.), McLennan, Marcil (Bagot), Marcil (Bonaventure), Martin (Wellington), Maynard, Melan, Miller, Monk, Morin, Mosher (Sir William), Oliver, Parmelee, Paterson, Paquet, Parent, Pelley, Piche, Pickup, Prefontaine, Pringle, Proulx, Reid (Restigouche), Riley, Rivet, Roche (Halifax), Ross (Rimouski), Ross (Yale-Cariboo), Rousseau, Savoie, Schell (Gloucester), Schell (Oxford), Scott, Sifton, Sinclair, Sloan, Smith (Nanaimo), Stewart, Talbot (Bellechasse), Talbot (Strathcona), Telford, Thompson, Tobin, Tureson, Turriff, Watson, Wilson (Russell), Worthington, Wright (Renfrew), Zimmerman.

The Conservatives voting against the amendment were: Monk, Forget, Bergeron, Ames, Brabazon (Pontiac), Worthington, Pringle, Paquet, Leonard, Lewis, Pelley, Morin (Dorchester), Thompson (Yukon).

Second Reading Carried.

After W. F. Maclean spoke, the second reading of the bills was put and carried, the original vote on the amendment being reversed.

Mr. Borden asked the Premier when the schedules would be ready.

Sir Wilfrid replied that he hoped to have the schedules ready this week. The House then adjourned at 1.40 a.m.

TO USE POWER SPRAYERS.

Department of Agriculture Adopts New Method of Fighting Pests.

Toronto, May 4.—The Ontario Department of Agriculture has arranged for two power sprayers to work among the orchards in the vicinity of Meaford and Trenton. Contracts are made with the farmers to spray their trees at a fixed amount per tree, and the work is conducted during the summer by an expert. Two different machines are being used to test their fitness for this work. The plan is for the Government to conduct the work the first year and then turn it over to a private management. F. W. Hodgetts of the Department of Agriculture is in charge.

An extensive series of spraying experiments with power sprayers is being conducted in the Niagara district with a view to checking the San Jose scale on all fruit trees, and the black rot in grapes. Prof. Lochhead of the Agricultural College is in charge.

San Jose Scale Inspector Smith has made a careful examination of the orchards in the vicinity of Belleville, and has found no trace of scale in that district. The report of the inspection made in the townships of the southern part of Kent County, where the scale is very extensive, shows it is now over a large area, south of Chatham to the lake. The farmers of that section are turning their attention from fruit to bean growing, and consequently are doing little or nothing to check the scale, whereas in the Niagara district the fruit-growers seem to have become thoroughly aroused to the necessity of spraying, and are now working vigorously to save their orchards.

Death Accidental, Says Jury.

Ottawa, May 3.—Calixte Charron of Lowe Township, Ottawa County, who was arrested Sunday for killing Napoleon Welsh, has been acquitted by the coroner's jury, whose verdict was that the shooting was accidental. He is still, held, however, in the county jail on a charge of murder. The first stories of the affair made it appear a most cold-blooded murder, but evidently these were exaggerated.

NEWEST IDEAS IN TRIMMED AND READY-TO-WEAR HATS

SIR WILFRED WAS DEEPLY MOVED

Hon. James Sutherland Passed Away On Wednesday.

HAD BEEN ILL OVER A YEAR

Funeral Will Be Held Saturday Afternoon and Public Men From All Over Canada Will Attend — Pathetic Spectacle As His Friend the Premier, Announced News in the House of Commons.

Woodstock, May 4.—Profound regret is evidenced throughout the entire city over the death of James Sutherland, representative of the north riding of Oxford in the House of Commons for the past twenty-four years and Minister of Public Works in the Liberal Cabinet. The end came at 2 o'clock yesterday afternoon, after an illness extending over one year. Since his return from Texas a month ago all hopes of his recovery had been abandoned. The funeral takes place on Saturday afternoon from his late residence, Altadore, to the Presbyterian cemetery. Public men from all over Canada will be present.

Mr. Sutherland's Career.

The Hon. James Sutherland was a son of the late Alexander Sutherland, a native of Caithnesshire, Scotland, who came to Canada in 1841, and his wife, Allison, daughter of the late John Renton. He was born in the township of Ancaster, Wentworth County, Ontario, July 17, 1849, and was educated at the Woodstock Grammar School, in which town he entered on mercantile pursuits. He was for several years a member of the Town Council, reeve from 1877 to 1879, and mayor in 1880.

The deceased was first elected to the House of Commons on the death of the sitting member for North Oxford, Thomas Oliver, in December, 1880, and has continued to represent that riding. He was chief Liberal whip from 1891 to 1900. Since 1898 he has directed the organization of the Liberal party in Ontario in Federal affairs, and arranged the political tours of the Liberal leader in Ontario and the west.

He was elected chairman of the standing committee on railways, canals, and telegraph lines in August, 1896, sworn in as a member of the Privy Council, as a member of the Cabinet without portfolio on September 30th, 1899, was acting Minister of the Interior from April to August, 1900, acting Postmaster-General in 1901, and succeeded to the portfolio of Minister of Public Works.

He was major of the 22nd Battalion of the Oxford Rifles, and was connected with several commercial companies. He was a member of the Presbyterian Church.

Mr. Sutherland leaves few relatives. He did not marry, and his only surviving sister, Mrs. John A. Mackenzie, Woodstock, his niece and nephew, Miss Mary Little and H. A. Little, barrister, have lived with him for a number of years.

Premier Bowed With Grief.

Ottawa, May 4.—Yesterday first came the routine of the House. Petitions were presented; a few prefunctory questions were answered in equally prefunctory manner, and a hush fell over the crowded chamber as the Prime Minister rose before the orders of the day were called.

Sir Wilfrid stood with bent head for upwards of a minute. The little bit of paper bearing the news—news that he was to communicate to the House—trembled in shaking fingers. Emotion overcame him, and a stifled sob from the Premier sounded through the chamber. Then he overcame his feelings, and in a voice hardly audible, said a few words regarding the dead Minister. It was a scene pathetic in its humanness—this strong man of the Government weeping for his dead friend.

Sir Wilfrid's Personal Loss.

Sir Wilfrid said: "I have to inform the House, Mr. Speaker, that I have just received a telegram informing me of the death of Mr. Sutherland, Minister of Public Works. I have to say to the House that, personally, in losing Mr. Sutherland, I lose one of the truest friends I ever had, and I know that the House loses one of its most valued members.

"I will meet, I am sure, the feelings of the House if I endeavor to say that the House should express its sympathy in this bereavement in some suitable manner, and I do not know that it can be done in any other way than by the House adjourning to attend his funeral. I will therefore move "that when this House adjourns to-morrow, it stands adjourned until Monday next, so as to permit members to attend the funeral of Mr. Sutherland.'"

From Mr. Borden.

When the Prime Minister closed, the leader of the Opposition arose and said:

"I rise, Mr. Speaker, for the purpose of supporting the motion the Prime Minister has made. The emotion which the right hon. gentleman has displayed has indicated to the House more eloquently than even eloquent words could have done, the very great loss he feels he has sustained on this occasion.

"Let me say that so far as this side of the House is concerned that I am sure that all of us join most sincerely in the deep sympathy which I know every gentleman on the other side feels for the family of Mr. Sutherland in this bereavement, and especially for the Prime Minister of this country, whose true and valued friend Mr. Sutherland has been for so many years."

The motion of Sir Wilfrid was then agreed to and the House proceeded with the business of the day, the debate on the autonomy bill.

In the Senate.

In the Senate, Hon. Mr. Scott announced the death of Hon. James Sutherland, and said a subway, as did Sir Mackenzie Bowell and Rt. Hon. Richard Cartwright.

The Senate then adjourned out of respect to the late Minister.

TELEPHONE EVIDENCE.

An Extensive Rural Telephone System in New Brunswick.

Ottawa, May 4.—An extensive rural telephone system in New Brunswick was described before the Telephone Committee yesterday morning by Dr. Ross of Florenceville, N. B. It is called the Union Telephone Co., and is located in the counties of Victoria, Carleton and York, and comprises 300 miles of rural line and over 200 subscribers. It is worked on the party line system, a party line in one case comprising 26 telephones. He estimated the cost of such a rural line at $140, including instruments, and allowing two telephones per mile, and that could be worked to the extent of 25 lines by a signal system, without manual labor for exchange. Subscribers on one branch, largely patronized by business or lumber men, pay $35 a year, and for that have a right to use the whole line of sixty miles. Another branch of this system serves farmers, and they pay $15 for a line with a metallic circuit, or $12 for a single wire. Subscribers have free use over the line they are on, and are very anxious to secure 'phones.

At War With the Bell.

In Woodstock County an automatic system is in operation, with 113 subscribers, and he believed that system worked well. They charge $15 a year. There seems to be a telephone war on there, however, as Dr. Ross said the New Brunswick Telephone Co., a branch of the Bell company, is there. It has 200 subscribers, and charges only $10 for business and $5 for residence 'phones. Before his company went in there the New Brunswick company was charging $15 for short-distance transmitters and $30 for long-distance, but when his company started in there the Bell cut prices as stated, and gave them long-distance transmitters without extra charge. Before they went in there the people of Woodstock pledged themselves to stand by them, and had done so pretty well, in spite of the cutting of prices of their rivals. The C. P. R. at first gave this union company permission to place their 'phone in their station at Woodstock, but afterwards withdrew it, and the work of installation was stopped.

President Sise to Testify.

It was decided to summon President C. F. Sise of the Bell Telephone Co. and General Manager C. M. Hays of the Grank Trunk and General Manager McNicoll of the C. P. R., to be examined on Tuesday next respecting the monopoly agreement between the railways and the Bell company.

The committee decided to visit Peterboro' in a body and inspect the new automatic telephone system there should the local company extend the invitation.

STUCK IN AN ICE FLOE.

Exciting Marine Adventure at Southampton Due to Bad Weather.

Southampton, May 4.—The tug R. H. Dobson of Southampton, while endeavoring to make this port on Thursday last, struck fast in an ice floe about four miles from the harbor. A stiff breeze from the west, which has blown almost continuously for the past three weeks, and which has rendered this harbor ice-bound until this late date, made escape for the unfortunate boat and her crew impossible.

Four days passed, then signals of distress were flown, and inquiry revealed the fact that the crew had taken but one day's provisions with them. Volunteer crews started with relief and provisions, but found it impossible to reach the boat. The Dominion Fish Co.'s tug, McIntosh, with a volunteer crew, made a final and successful effort to reach the tug. The famished crew was supplied with sufficient provisions to last for some days yet. A stiff gale is blowing still, and there is no hope that the ice-bound boat may reach port for a few days.

GOING TO BROTHER'S, DIES.

Body Found in Barn After Two Weeks Missing.

Cornwall, May 4.—Quite a sensation was caused by the discovery of the somewhat decomposed body of a man in a barn near Summerstown station, owned by D. D. McDonald. The body was identified as that of John McGahey, who had been an invalid in the Hotel Dieu, Cornwall, for some time, and who left for home two weeks ago. He left the train at Summerstown and, it is supposed, was walking to his brother's home when he was taken ill and sought refuge in the barn.

Fatal Level Crossing Again.

Toronto, May 4.—A team of horses driven and owned by a man named White was struck yesterday by the fast express from Hamilton, at Swansea crossing, and instantly killed. The driver was hardly disturbed in his seat, but the horses were said to have been thrown a hundred feet in the air. The reach of the wagon was broken, but no other injury was done.

Lightning Burns Barns.

Forest, May 4.—Yesterday morning about 7 o'clock, during the thunderstorm, the barns on the farm of Attilla Rawlings, Bosanquet, were struck by lightning, and two large barns, shed, pig-pen and poultry house, with contents, were totally destroyed. The loss will be about $2,500, with $1,200 insurance.

MISSIONARY ADDRESSES AT THE CONVENTION

Dr. Margaret McKellar Speaks of the Work of the Church in India—Dr. Gulick, of Japan, on work there—W. F. M. Society's Convention Deals with Many Important Matters---Next Meeting Will be Held in Winnipeg---Election of Officers This Afternoon---Mrs. Shortreed was re-elected President---Committees on Resolutions Reports.

The afternoon session of the Woman's Foreign Missionary Society convention yesterday was marked by an increased attendance and interest, and there were the largest number of delegates present at any session up to that time.

Two highly interesting addresses were delivered at this session; that of Dr. Margaret McKellar, a medical missionary on furlough from Neemuch, India, and Mrs. J. A. Dow, of Gravenhurst. Dr. McKellar gave some interesting facts concerning the work in general and the operation in India in particular. Her address was made increasingly interesting by several charts and maps with which she emphasized the points touched upon.

A Criticism.

Mrs. Dow, who was announced to read a paper, dispensed with that formality and gave a practical heart to heart talk with work of the society, pointing out what she looked upon as hindrances to the successful prosecution of the work and gave some good advice to her sister workers. The session opened with hymn No. 434, after which Mrs. Allen, of Perth, offered prayer. The minutes of the morning session were read and the report of the nominating committee was presented. This report has already been published. It was adopted, as was also the recommendation that Mrs. Mortimer Clarke be elected as honorary vice-president.

International Echoes.

Mrs. R. N. Grant, of Orillia, gave a report of the minutes of the international conference, which met in Liverpool on June 30th, 1904. A large number of Christian women representing the Presbyterian church attended this meeting which was one of great interest. A reception was tendered by the Lord Mayor of the city and the delegates were entertained in other ways. Mrs. Grant gave summaries of some of the addresses delivered at the conference.

Dr. McKellar followed with a missionary address. Upon rising to speak the whole congregation arose to greet Dr. McKellar who referred to the fact that fifteen years ago yesterday she sailed from Halifax for Neemuch. It was also the anniversary of a day five years ago when she met in Toronto with a number of returned missionaries.

The message which the woman were to carry to the heathen was that of the risen Saviour. The speaker referred a number of charts which represented the relative position of the heathen and christian people. These charts showed how poorly the christians have fulfilled the command to preach the risen Christ.

Need of Missions.

The fact that in the United States and Canada there was one ordained missionary to 546 people while in the non-Christian world there was one to 183,675 people. The speaker said that there was money enough, men enough and power enough to evangelize the world if this was the intention. The fact that while in America $7,500,000 was given to missions, $1,243,000,000 was spent for liquor, was deplored. She regretted the great amount of money spent for purposes which did the people no good, while such a small assistance was given to the evangelization of the heathen.

Dr. McKellar referred specially to the work in India with which she is familiar, since she had spent a number of years in that country. She spoke of the great progress that was made. The first day seven patients came to the dispensary but since that time the number had increased greatly, and she had seen as many as 140 patients treated in one day.

A number of heathen women have been converted by the work of missionaries, who had first won their hearts by healing their bodily diseases.

In the district of Neemuch and within a radius of 12 miles, there are 383 villages, which are visited by the the missionaries during the cool season. The speaker referred to the great work done by the orphanage, by which the children were reached. In Neemuch, during the time of the famine between 800 and 1000 children passed through the orphanage.

Lack of Knowledge.

The speaker referred to the lack of knowledge on the part of the church members at home of the needs of the work among the heathen, and she said it was the duty of the women present to diffuse the information which they had gained. We hear much about the "simple life," and the "strenuous life," but there was a better life — the "consecrated life," — and she hoped that all her hearers would live that life.

An address by Mrs. J. A. Dow of Gravenhurst, was next given. The speaker said that she came to them, not as an outsider, but as one of themselves. The work in which they were engaged was either tremendously worth while, or it was not worth while at all. It was worth while, for two or three reasons, the first of which was the genesis of the work. Christ had given the command, and His words must be heeded. The second reason was the great need; and another was the stupendous results, and back of it all was the great finger of Jesus Christ, pointing to the work, and commanding us to "Go into all the world and preach the Gospel to every creature.

Somewhat of a Jonah.

The reports presented during the convention were encouraging, and she felt like a Jonah for saying anything which was in the nature of a criticism. One of the great faults with the society, however, was the fact that more of the women in the church were not members of the W. M.S., and one of the reasons for the small membership was the fact that the meetings were not sufficiently interesting. A great deal depended upon the leader of the missionary meeting. Leaders, she said, were not born, they were made, and made out of very ordinary material, too. She thought that one of the reasons for the small attendance was that the ladies of the church were not invited,

Lack of Knowledge.

It was a regrettable fact that the church at home did not know more of the missionaries in the field, and the speaker ventured the assertion that in the audience there were fifty women who could not tell the names of seven of the stations in India, or the three stations in China.

She also said that after strangers had attended the meetings of the Auxiliaries they were not welcomed. She did not mean that they should be "fussed" over. The workers would have to forget the meaning of the word discouragement. Mrs. Dow closed her spirited address with an appeal to those present to realize the importance of the work, which is worth while, because of the cries of the heathen children for help, as it was also because of the benefit which the workers would receive them- the workers would receive themselves.

Miss Helen Davies followed with a vocal solo, "The Ninety and Nine," after which a discussion on young peoples' work, led by Mrs Sinclair of Fenelon Falls, took place.

Young Peoples Work.

A practical talk on how to carry on Mission Band work was given by Mrs. Sinclair of Fenelon Falls. The speaker gave from her experience the methods she had adopted to carry on a Mission Band, which was composed of children. It was always possible to put information in such a shape as to be attractive to children. Take up a mission field, and with the help of a blackboard teach them the customs, language and geography of that country. Then take up the mission stations; teach them about the workers therein. Bible study also is most important. Missionary dialogues and recitations can be used so as to vary the programmes. Teach the children the privileges of giving and encourage them to plan to give part of what they have earned, or is their own, to the meritorious cause of missions. One or two public meetings bring the work of Bands before the parents and friends. The children may have some part in the programme by giving recitations. As long as a leader is thoroughly interested herself she will never be at a loss to keep the children's attention. Give the children something to do; the girls sewing and the boys cutting out pictures and making scrap books, or in making little gifts for the Indian children in the schools in the Northwest.

The topic was then thrown open for discussion. Two of the most interesting speakers were Dr. O'Hara and Miss Jamieson, both missionaries from India, who told of mission bands there, the members of which were native children, who deny themselves part of their native food so as to have something to give to missions. Mrs. McClelland, Toronto, and Miss Rennie, New Hamburg, told of their plans of work for Bands.

Miss Parsons, publication secretary, spoke of books and maps at the literature room that would be of great service in Band work.

The president closed the discussion by urging all leaders to see to it that the children were taught to be loyal to the general work of the church as well as to foreign missions.

Prayer by Miss Rennie of New Hamburg, and the doxology, brought the session to a close.

EVENING SESSION.

The attendance at the evening session of the Women's Foreign Missionary Society was extremely large, many interested spectators being present in addition to the delegates. Rev. W. A. J. Martin, Convenor of the Foreign Mission Committee, presided.

The opening Scripture lesson was read by Rev. W. M. McKay, assistant pastor of St. Paul's, church, which was followed by prayer, offered by Rev. J. G. Potter, pastor of St. Andrews.

The music was of a choice character, a soprano solo being rendered with splendid effect by Miss Helen Davies, who also took the solo in the offertory anthem by the choir.

An address of welcome was then delivered by Rev. Dr. Torrance, who in opening spoke of the very great pleasure it afforded him on behalf of the Christian people of the town to extend a welcome to the visiting delegates, and commented upon the great progress which has been made during the past 29 years by the Society.

They have been the means of greatly increasing the contributions to the Foreign Missions to a truly wonderful extent. The Bible pointed out the influence which the women may exercise for God, and they should, in gratitude, render the greatest possible benefit to the heathen in foreign lands, as this will also materially assist in developing their own spiritual welfare. It is from the Christian homes that the great statesmen and civic rulers come, who have been made what they are, by the influence of their mothers.

The speaker closed by again expressing his pleasure in welcoming the delegates.

Annual Report Presented

Rev. Wm. McLaren, D.D., of Knox College, then presented the annual report of the Society.

The Society was organized at a meeting held at Knox College in the year 1876, with a membership of 50. That year $1,107 was raised, and a few Mission Bands organized. From that time it has yearly reported an increase in the number of branches and the number of Mission Bands, the present year being much in advance of all previous.

The following is a summary of the report, some of the details of which the speaker compared with that of the previous year the comparison being in most cases extremely satisfactory:—

Presbyterial Societies	28
New Auxiliaries	25
New Mission Bands...	21
Auxiliaries unreported or disbanded.....	6
Mission Bands unreported or disbanded.....	17
Total number of Auxiliaries	731
Total number of Mission Bands.....	357
Auxiliary membership	12,595
Mission Band membership...	8,457
Yearly membership of General Society.....	3,564
Total membership.....	24,590
Life members added during the year.....	87
Scattered Helpers:	
Members	1,775
Contributions	$1,223.19
Total contributions from all sources.....	...$57,301.41

The speaker commented upon the widespread nature of the prosperity, reaching as it does from Atlantic to Pacific, that in the Maritime Provinces being especially gratifying.

In closing the speaker remarked upon the splendid Christian work which may be accomplished by a small band of workers, guided by intelligence, illustrating by the narration of an incident concerning the excellent work accomplished by a single young lady in the Mission field of Japan. God works by little things. The small beginning of the present splendid Society was also spoken of.

A Splendid Address

Dr. G. H. Gulick, the speaker of the evening, was then introduced, and throughout his address upon "The New Attitude of Japan Towards Christianity," held the close attention of his audience.

There is no nation, he remarked in opening, upon the face of the globe which is to-day attracting so much notice as Japan is. The present war is acknowledged by historians to be one of tremendous historical importance. Rather than discuss the question of the war, he would treat of the question of what will be the ultimate result to Christianity. The growth of the Kingdom of God in Japan has been a continual growth during the past several centuries. Roman Catholic Mission began work in Japan in the year 1660.

The Japanese turned their back upon the white man, whom they regarded as a white peril.

Nothing could be said too bad of Christianity during a period of two or three hundred years, as they were supposed to cause evil in various forms. Till 1868 the Emperor came to the decision that all old superstitions must be put away, and that in order to maintain the integrity of the Empire it was necessary that a thorough knowledge of European conditions should be acquired.

After this was ushered in the great system of modern thought, characteristic of Eastern nations.

In 1873 an edict was issued, allowing entree to missionaries, and small groups of people began to study the Bible, and soon became filled with enthusiasm. As soon as the idea became general that Christianity was a good thing, a period of ten years of blind adoption of Christianity began.

In the year 1883, when the speaker went to Japan, the period spoken of was nearing a close. He found that the undiscriminating acceptance of Christianity had resulted disastrously. At the end of the nineties it was found that the total number of church members, 40,000, was identical with that at the close of the eighties.

The speaker then explained several of the leading factors retarding numerical growth. The coming to Japan of German evangelical missionaries, who, upon their arrival commenced to teach new doctrines, not in harmony with that of the older missionaries, was a leading feature. This immediately raised suspicion in the minds of the Japanese, and the aggressive Christian fervour was taken away, many becoming agnostic. This was the first check to aggressive Christian work.

A second check was the return to Japan of young men who had visited America, and who had been horrified at the low standard of morality which they had found existing in our cities, these, the speaker remarked, being much more corrupt in moral tone than those in their own country. There is, he did not attempt to deny, an immense amount of immorality existing in Japan, and as with this country, only the Gospel of Jesus Christ can save it from destruction.

Great numbers who visited the United States and Canada during the period of evolution in religious thought became imbued with the idea that the Westerners were abandoning Christianity.

There was considerable political disturbance in the nineties. At the time of the delivery of Port Arthur to the Chinese one hundred had committed suicide in their shame, and the whole race was filled with indignation that the white people would lend their support and approbation to such an end.

In the nineties, every possible opposition was made in a private way to Christianity. The native religions do not separate moral life from religious life. When they adopted Christianity they imagined it to be similar to Buddhism. When leaders discovered that to be a Christian it was necessary to become a moral man, he declined.

A new set of causes have again turned public thought once again in the direction of Christianity. The political conditions of the country also underwent a change, the Anglo-Japanese treaty contributing in no small measure to this. The Boxer troubles in China also had its influence.

After the ten year period spoken of a period of moral Christianity began, this being accompanied by the introduction of temperance, hospital and asylum movements. They have but lately discovered that Christianity has a moral call. The speaker narrated several personal experiences in illustration of the peculiar nature of the views of the Japanese upon questions of morality. Upon one occasion when he had visited an hotel an enquiry was made by the landlord as to whether he wished the price of a prostitute to be included in his bill. Lustful practices were much in vogue. They are, however, beginning to discover the moral bankruptcy of their native religions.

The Japanese educators are discovering that their system is a moral failure.

The speaker then referred to the great forward Christian movement at present in operation, stating that while their desire formerly was to secure the material benefits which Christianity would bring, they are now looking for the moral benefits.

The opinion of Marquis Ito, that "the only true civilization is that based upon Christian principles," is

A MAIL CARRIER'S EXPERIENCE.

CURED OF KIDNEY TROUBLE AND PAIN IN THE BACK, FROM WHICH HE SUFFERED MANY YEARS, BY

Dr. Pitcher's Backache-Kidney Tablets.

Mr. James Taggart, mail carrier for the past eighteen years, Palmerston, Ont., gives the history of his case as follows: "For a good many years I have had kidney trouble and pain in the back. It is so many years ago that I can hardly say what it came from, but I think it came from a heavy lift; after that the back grew weaker and weaker. I tried everything, and never got a bit of relief until I got a bottle of Dr. Pitcher's Backache-Kidney Tablets. They cleared up the pain, soreness and kidney trouble, and strengthened the back."

The action of Dr. Pitcher's Backache-Kidney Tablets is rapid and positive, curing backache, eruptions, blood humours, dropsical swellings, gravel, smarting and scalding of the urine, frequently rising at night, rheumatic pains and all kidney troubles of young and old. Price 50c. a bottle at druggists or by mail, The Dr. Zina Pitcher Co., Toronto.

Notice to Creditors

Creditors and others having claims against the estate of the late Elizabeth Theobald, in her lifetime of the Town of Peterborough, who died on the seventeenth day of February, 1904, are required, on or before, the fifteenth day of May, 1905, to deliver or send by post prepaid, to Roger & Bennet, 375 Water Street, Peterborough, Solicitors for Thomas Theobald, Administrator of the Estate of said deceased, their names and statement of their claims, with full particulars.

After that date the Administrator will distribute, having regard only to the claims of which he shall then have notice.

Dated 12th April, 1905.

ROGER & BENNET,
Solicitor for Administrator.

Sealed tenders addressed to the undersigned, and endorsed "Tender for Rondeau Breakwaters," will be received at this office until Monday, May 29th, 1905, inclusively, for the construction of two breakwaters at Rondeau, Kent County, Ont., according to a plan and specification to be seen at the office of H. A. Gray, Esq., Resident Engineer, Confederation Life Building, Toronto, J. G. Sing, Esq., Resident Engineer, London Ont., on application to the Postmaster at Rondeau, Ont., and at the Department of Public Works, Ottawa.

Tenders will not be considered unless made on the printed form supplied and signed with the actual signatures of the tenderers.

An accepted cheque on a chartered bank, payable to the order of the Honourable, the Minister of Public Works, for twelve thousand dollars ($12,000.00) must accompany each tender. The cheque will be forfeited if the party tendering decline the contract or fail to complete the work contracted for, and will be returned in case of non-acceptance of the tender.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED. GELINAS,
Secretary.

Deprtment of Public Works,
Ottawa, April 27th, 1905.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

TENDERS FOR DREDGING.

Tenders addressed to the undersigned and endorsed "Tender for dredging" will be received up to and including May 15th, 1905, for the dredging required at the following places, during the present year: Bayfield, Belle River, Beaverton, Collingwood, Kincardine, Matchedash Bay, Meaford, Owen Sound, Trenton, Penetanguishene, Point Edward, Sarnia, Port Stanley, Rondeau, Port Burwell, Saugeen River, Thornbury, Wiarton.

Specifications can be seen and form of tender obtained at the Department of Public Works, Ottawa. Tenders to include towing of plant to and from the works. Only dredges can be employed which are registered in Canada at the time of filing of tenders. Contractors must be ready to begin work within thirty days after the date they have been notified of the acceptance of their tender.

The Department is not bound to accept the lowest or any of the tenders.

By order,
FRED. GELINAS,

MISSIONARY ADDRESSES AT CONVENTION.

Continued from Second Page.

now becoming general throughout the country. The sins of the white man in America, the speaker declared, are bringing their curse upon Christian effort in Japan.

The speaker closed by urging his audience to realize fully the noble character of the work, and spoke of the wonders which might be accomplished if the money spent upon luxuries in America were contributed to the mission field.

THURSDAY MORNING.

A good part of this morning's session was devoted to a devotional service, in which a number of hymns were sung and addresses given by some returned missionaries on the work in foreign fields. These addresses were most helpful and inspiring. Mrs. McPherson of Peterborough, presided.

The Board met in the lecture room at 9.30 o'clock, for the election of officers and the discussion of other business, and after the despatch of that business the convention resumed in the church.

After a hymn, the minutes of the last meeting were read, and the next place of meeting decided upon.

There were two invitations, one from Brantford, tendered by Mrs. Van Fleet, and one from Winnipeg, by Mrs. MacKay, who in a most earnest address, gave some strong reasons why the next meeting should be held in that city.

Mrs. McLean of Guelph moved, seconded by Mrs. McNaughton, of Cobourg, that the invitation of the ladies of Winnipeg, to hold the next meeting there, be accepted, provid ng satisfactory railway rates can be secured. This was supported by Miss Jamieson, travelling secretary, and Dr. O'Hara of India, and carried no votes being recorded against it.

Mrs. Horne of Elora, and Mrs. Cameron of Allandale, moved and seconded a vote of thanks to the Brantford society for the invitation.

Resolutions.

Mrs. Cooke of Smith's Falls, presented the report of the Committee on Resolutions, as follows.

The General Society has heard with the deepest regret of the death of Mrs. Blair of Prescott, and Mrs. Jos Hogg of Winnipeg Presbyterial. For many years these ladies were closely identified with the work of the W. F. M. S., both in Auxiliaries and Presbyterials. They were at all times untiring in their efforts and by their earnest inspiring words and consecrated lives did much to stimulate and maintain missionary zeal in the auxiliaries under their care. We wish to place on record our sincere appreciation of their worth, and our sympathy with those who are deprived of their wise counsels and lofty examples.

Resolved that we, the members of the W.F.M. Society, assembled at our annual meeting, desire to place on record our deep sense of the loss sustained by the whole church in the death of Rev. Principal Caven, D.D His keen penetration, his wide sympathy and lofty purposes have given weight to his counsel and wisdom to his guidance in all the affairs of the church and in all the great moral questions that exercised the hearts of Christian people.

His encouraging words and inspiring message to the W. F. M. S. have ever given an impetus to the work. His long life and devoted service to the highest and best in life will be a direct impulse in the lives of many. His memory will be cherished tenderly by all who came under his influence.

Resolved that we, the members of the W.F.M.S., assembled in Peterborough, record with deep sorrow the loss we have sustained by the death of Mrs. Reid, Miss Thurman Miss Haight, Mrs. Bruce and others who for many years were closely identified with the work of the society. The memory of the lives so full of loving service for the Master will long remain with us.

Resolved, that we should extend our warmest sympathy to those either at home or in the foreign field, who have been laid aside from active work by illness, and that our prayers go out for them that they may soon be fitted again to resume the work they love.

Resolved that we, the members of the W.F.M.S., feeling the great loss that has been sustained by the church as a whole, and in the West in particular, in the tragic death of Rev. Mr. Swartout, of Ouluclet, who was drowned while returning from a Missionary tour, and a few months ago the Rev. Mr. Sinclair, of the Regina School, desire to place on record our sorrow, that their lives so full of love for, and enthusiasm in their work, and at the height of manly strength and usefulness had been cut off. To their sorrowing families we tender deep and heartfelt sympathy.

The report of the Committee on Resolutions was adopted on motion of Mrs. Cook, seconded by Mrs. Hannah, of Mount Forest.

Mission Band Secretary.

The recommendation of the Band that the appointment of a Mission Band Secretary be left over until next year, was adopted as was also that advising that a travelling secretary be apointed for this year, the appointment to be made by the Board.

A notice of motion with reference to the classification of Auxiliaries in charges where there are more than one congregation, was made, and will be dealt with next year.

After the business Mrs. Campbell, of Toronto, lead in prayer and after a hymn a question drawer was conducted by Mrs. Gardiner, of Ottawa.

A prayer by Mrs. Markness of Cornwall, closed this session.

Closing Session.

The afternoon session brought the convention to a close. It was opened with a hymn after which the minutes of the morning session were read.

New Officers.

The report of the Board on the election of officers was then presented, and was as follows:

President—Mrs. Shortreed, Toronto.
Vice-Presidents—Mrs. Maclaren, Toronto; Mrs. Robinson, Toronto; Mrs. Telfer, Toronto; Mrs. Jeffrey, Toronto.
Recording Secretary—Miss Smellie, Toronto.
Corresponding Secretary — Miss Martin, Toronto.
Home Secretary—Miss Jean Caven, Toronto.
Foreign Secretary—Mrs. Bell, Napier.
Secretary of Indian and Chinese Missions in the N. W. and B. C.—Miss Craig, Toronto.
Secretary of International Conference—Miss Thornton, Toronto.
Sec'y Treas. of "Tidings," General Literature and Life Membership Certificates—Miss Parsons, Toronto.
Treasurer—Miss George, Toronto.
Editor of "Tidings"—Mrs. I. Macgillivray, Toronto, B. A.
Miss Laird, of Vancouver, offered prayer after which a hymn was sung.

Disposal of Money.

A motion with reference to the disposal of the money was made and carried. The motion was as follows:

That the treasurer of the W. F. M. S. pay to the treasurer of the Ewart Missionary Training Home during the current year such sums as may be required for the maintenance of the Home.

The following motion was also moved and carried:

That the treasurer of the W. F. M. S. be empowered to pay to the Foreign Mission Committee such sums as the Board may direct during the year.

Mrs. Wilson, of Appleton, offered the dedication prayer.

Dr. Margaret O'Hara, of Dhir, India, gave a decidedly interesting missionary address, which was listened to with close attention by the delegation.

Mrs. Steele, of Dundas, again offered prayer, and after a hymn the closing words were given by Mrs. Bell, of Napier, and the closing prayer by Mrs. McCrae, of Westminster, B. C.

A hymn, "Saviour Again to Thy Dear Name we Raise," closed the convention.

Cracker Perfection

The finest wheat in the world grows here in Canada. The best flour is milled in the Dominion. The whole Mooney factory is brand new from top to bottom, and has every modern time-and-labor-saving improvement. The head of the bakery, and every man under him, is a master in the art of cracker-making.

This is why

Mooney's Perfection Cream Sodas

are the most inviting, most toothsome crackers in Canada.

Grocers everywhere have them.

SEPARATE SCHOOL REGULAR MEETING

Routine Business Transacted—Auditor's Report Presented.

The regular meeting of the Separate School Board was held last evening there being present Messrs. Murty, chairman; Carveth, Henry Joselin, Ball, Burns, Lane, Primeau and Hickey. The Rev. Father McColl, Superintendent was also in attendance.

The reading of the minutes was postponed.

Accounts were received from A. J. Stratton, $16.26; also some small accounts, which were referred to the Finance Committee.

The reports of attendance at the schools for April were received, being as follows:—

	Roll.	Ave.
Lake street	200	180
Murray street school ...	215	204
Convent.....	246	226
	665	610

The matter of providing the necessary supplies to the several schools was referred to the Property Committee.

The auditors, Messrs Duignan and Carveth, reported as having examined the books and vouchers of the Secretary-Treasurer, to the 31st Dec., 1904, and finding same correct.

The Board adjourned.

PATENT REPORT

Below will be found a list of Canadian Patents granted to foreigners through the agency of Messrs. Marion & Marion, Patent Attorneys, Montreal, Can., and Washington, D. C.

Information regarding any of these will be cheerfully supplied by applying to the above-named firm.

Paul Wagret, Escautpont, France, manufacture of bottles, flasks and the like.

Messrs. de Lisle & Luttrell, Gisborne, N. Z., branding composition.

Geo. Jas. Coles, Durham, Eng., automatic couplings for railway and other vehicles.

Messrs. Finn & Pike, Wellington, N. Z., egg carrier.

Mrs. Barbara J. Menat, Dunedin, N. Z., draft regulating for grates and ranges.

Hans von Dahmon, Vienna, Austria, explosives.

Jens H. Christensen, Copenhagen, Denmark, process of making matches.

Messrs. Black & Haigh, Christchurch, N. Z., combined laundry iron stand and ironing cloth gripper.

Ignazio Sant'Uppo, Caste:termini, Italy, ore roasting furnace.

Emil Schleicher, Stolberg, Germany, machine for the manufacture of headed pins and the like.

Monkey Brand Soap removes all stains, rust, dirt or tarnish—but won't wash clothes.

ADDRESS WAS OF GREAT INTEREST

Mrs. J. Kendry Spoke at Mark Street Church Yesterday.

A very interesting service was held in Mark street church last night in connection with the Women's Missionary work Rev. J. G. Lewis, presiding.

Mrs. J. Kendry gave a forceful address on the necessary elements to make mission work a success, taking as the basis of her remarks, Acts 9; 6:—"Arise, go into the city, and it shall be told thee what thou must do." If we want to be successful we shall also have to go into the city and we soon would find out what we had to do. There were three characteristics about Paul which made his work a success. First, unselfishness; second, ardent personal devotion to Christ; third, sense of Divine mission, which are very necessary elements in missionary work, and the speaker brought these truths out in a very forcible manner, giving one illustration of selfishness, which came under her own observation whilst staying in New York. At a certain fashionable hotel there, they gave a costly banquet, gold vessels only being used, and the cost per head of that banquet was $15,000, (fifteen thousand dollars,) at the same time there were 70,000, (seventy thousand) children in that very city going breakfastless to school.

Mrs. (Rev.) Lewis gave a touching recitation, "Hark the Wail of Heathen Nations."

Mrs. Payne, Miss A. Davey, Mr. J. Miller and Mr. F. Ashton, rendered two quartettes in an excellent manner.

NO MORE DANDRUFF

Newbro's Herpicide Destroys the Pestiferous Cause of Annoying Dandruff.

Does your head itch? Is your coat or dress full of white flakes after dressing your hair? That's the effect of dandruff. Is your hair thinning? Are you beginning to get bald in spots? Are you already, in fact, rapidly becoming bald? If so, that is the effect of a measly little parasite that burrows in at the root of the hair, and throws up the scalp in dandruff and eats off the hair at the root. Science's latest discovery is a destroyer of this pestiferous germ. That destroyer is contained in no other hair preparation on earth but Newbro's Herpicide. Try it, and be convinced. A delightful dressing. Sold by all druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. Ormond & Walsh, special agents.

WAS MARRIED IN TORONTO

Miss Hattie R. Junkin Becomes Bride of Mr. Jack Croft.

The following notice appears in the Toronto Star, concerning the marriage of Miss Hattie R. Junkin, daughter of Mr. Robert Junkin, an old Peterborough boy, and a graduate of the Collegiate Institute:—

At the home of the bride's parents there was celebrated this afternoon the marriage of Miss Hattie Roberta Junkin, daughter of Mr. and Mrs. Robert Junkin, assistant manager of the Manufacturers' Life Association, and Mr. Jack Croft, of the firm of Baillie Bros. The bride was dressed in white silk crepe de Chine, over white silk, with bertha of duchess lace, with veil and orange blossoms, and carried a shower bouquet of roses.

The bridesmaid, Miss Emma Junkin, sister of the bride, wore a flowered chiffon organdie and carried a bouquet of sweet peas. The two little twin sisters of the bride, Miss Jessie and Miss Freda, acted as attendants and were dressed in white batiste, trimmed with valenciennes lace. Mr. Frank Wood was best man, and the ceremony was performed by the Rev. James Rankin of the Central Presbyterian Church.

The bride's mother was gowned in black silk with garniture of black lace.

One unusual feature of the happy event was its being on the twenty-third anniversary of the marriage of the bride's parents, and there were present the bridesmaid and best man of that occasion. Mrs. M. C. Ellis and Mr. J F Junkin. The bride's going-away gown was a very handsome costume of brown broadcloth, with hat to match.

OMEMEE HOPES FOR ANOTHER RAILWAY

Also Wants Grand Trunk Station Moved Near the Heart of the Town.

(From Our Own Correspondent)

Omemee, May 3.—The weather has turned out very unseasonable. Farmers are pretty well through seeding.

Wan Chong, our Chinese laundryman, had a narrow escape from entering into the Celestial City from the upsetting of a canoe in the mill pond caused by a sudden gust of wind. As he was going down the third time Percy Parsons saved him, and the celestial was very glad, as he would be very sorry to leave Tom Black and several other of the boys. No more pushes canoes for Wan.

Mrs. Amy's sang at the hospital entertainment in aid of that worthy institution at Lindsay on Friday last.

Reports say that Reeve Beatty drove to Peterborough on his marriage tour to-day.

Efforts are being made to get the Grand Trunk to move our station back.

There is some hope of the new line of the C. P. R. from Georgian Bay touching here.

Charlie Marr, a former citizen and successful Omemee boy in Dakota for the last twenty years, reports the enterprising business men of that State flocking over to the Rainy River District, New Ontario.

There Is Quick Relief From
TORPID LIVER
in Fruit-a-tives. And they are a positive cure for constipation and all blood impurities. Those who have used these marvelous little fruit liver tablets are the ones who praise them warmest. Here is one of hundreds of testimonials from those who owe their good health to Fruit-a-tives:—

"We tried Fruit-a-tives and like them exceedingly. We happened to need such a mild and harmless liver tonic and I shall keep Fruit-a-tives by me always, now that I have used them and find they do me so much good." Miss M. L. RICHARDS, Calgary, N.W.T.

Fruit-a-tives
or Fruit Liver Tablets.
50c. a box. At druggists. Manufactured by Fruit-a-tives Limited, Ottawa.

SPRING TONIC

If you are afflicted with that tired, languid feeling, from impure blood, sluggish liver or weak kidneys,

Madill's Sarsaparilla Compound

is the remedy. No better Spring Medicine. Made and sold only by

Wm. Madill Druggist & Optician, Oak Hall Drug Store, Peterborough.

"STONY LAKE" UNDER REPAIRS

Popular Stony Lake Boat Will Have Dining Room.

Other Young's Point News—Personal Items of Interest.

(From Our Own Correspondent)

Young's Point, May 2nd.—Mr. Fred. Young, who has been in the employ of the Bertram Engine Works, of Toronto, for the past three months is home again.

Miss Josie Phelan of Lakefield, is visiting her sister, Mrs. J. E. Kearney.

Mr. George Wilson is back here once more and will be cheese-maker, for his brother, Mr. A. Wilson, for the season.

Mr. A. Anglesey has had his new house bricked and it is modern in every respect.

Mr. Jos. McPherson, of Peterborough, who did the brick work on Mr. Kearney's new store, finished the striping last week. The building is modern and is quite an improvement to the Point.

Mr. Geo. Hickey is overhauling the steamer "Stony Lake" the past week and will soon have this fine boat ready for the coming season. The owner, Mr. P. P. Young, will have a dining room on his boat this summer and it will be a great convenience to passengers.

It seems that we are not through with winter as we had a snow storm here on Monday, the 1st inst.

Mr. Edward Young, who looks after the iron bridge, had new posts put in at each entrance, also the stone work repaired.

The saw mill is under repairs at present, and the proprietor, Mr. Ed. Young, will commence sawing this week. Mr. McGrath, of Peterborough, is overseeing the work.

The school house has been painted inside and calcimined, etc. Mr. Robt. Dover doing the work.

St. Mary's Church has also been painted on the outside and looks well.

Mr. Wm. Brooks, who has been in the hotel business for a number of years is moving up to South Beach, a short distance from the Point on the other side of the river. He intends keeping summer boarders there.

When Nerves Play Out

MIND AS WELL AS BODY IS IN DANGER—HELP FOUND IN

Dr. Chases Nerve Food

Suicide, insanity, falling sickness, paralysis. These are some of the results of worn-out nerves.

The vitality of the body cannot stand the strain, and, overcome by worry, failing health, anaemia, menstrual derangements, overwork or exhausting disease, mind and body have been wrecked.

No one would neglect a disease so dreadful in its results as nervous exhaustion if the danger were only realized with the first symptoms.

The time to begin the restoration of the nerves by the use of Dr. Chase's Nerve Food is when you find yourself unable to sleep at nights, suffering from headache or neuralgic pains, indigestion or weak heart action.

Loss of flesh and weight, growing weakness and debility, a tendency to neglect the duties of the day, gloomy forebodings for the future, are other indications of depleted nerves.

You cannot liken Dr. Chase's Nerve Food to any medicine you ever used. It is a nerve vitalizer and tissue-builder of exceptional power.

Naturally and gradually it rekindles life in the nerve cells and forms new red corpuscles in the blood—the only way to thoroughly cure nervous disorders.

Dr. Chase's Nerve Food, 50 cents, at all dealers, or Edmanson, Bates & Co., Toronto. Portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every box.

BRIDEGROOM OF 95 YEARS, ELECTED

George Schmitt of Newark Aged 95 Years Weds Bride of 57.

George Schmitt, 95 years old, a retired Newark butcher, on Easter Day was united in marriage to Mrs. Allen Day Swartz, 57, at the bridegroom's summer home, Ocean Grove.

MRS. MORROW'S CHORUS CLASS

Marked Improvement Noted Every Week.

The members of Mrs. Morrow's Chorus Class assembled for their weekly practice in the T. A. S. Hall on Monday night. A few additional tenors were present, and by their services contributed greatly to the strength of the choruses. Marked improvement is noted every week, and we have, therefore, good reason to feel that there is in store for the town a real musical treat, when the members of the class appear before the footlights.

THE BOARD OF HEALTH.

Many persons are of the opinion that we have a Board of Health in the town of Peterborough, but from any particular activity exhibited by that body this would be open to doubt if the existence of the board was not a matter of record.

In the past year the board met a few times, but of late the meetings have been of the character of angels' visits. A meeting was held in December, and another on February 1 to receive the annual report of the Medical Health Officer. Since that that has been no meeting up to the present time this year.

This is the very time of year when active and extraordinary precautions should be taken to bring the town to as wholesome a sanitary condition as a thorough cleaning of lanes and private premises will bring about. Many of the lanes of the town are in a deplorably untidy and malodorous condition. Should not the Board of Health be on the alert? It is possible that the police are making some sort of an inspection. This is the usual thing, but is it thorough enough? Should not a meeting of the board be called to infuse unusual vigour into the cleaning up crusade. There seems to be need of a little more vigilance. If there were the carcase of a dog killed by a street car it would not have been allowed to remain unburied for two or three weeks upon one of the most frequented streets of the town in plain sight of coming and going travellers from the Grand Trunk station. There is, or there was last evening, the mangled remains of a dog lying in plain view on Charlotte street in front of the Machine Telephone Company's office. If such a condition can exist unnoticed by the town or health authorities is there not need for a little waking up on the part of the Board of Health? If such a state of affairs can exist in a public thoroughfare, what must be the need of supervision in the secret places of the town where filth can lurk unseen to fester and pollute the air when the hot weather comes? We talk of becoming a city and if the Mayor will kindly permit, will be a city soon. We must make an effort to live up to the name, and the first and most important matter to attend to is the cleanliness and healthfulness and tidiness of the town. If we are to have a grand inauguration demonstration this year we should be fit. We should be bright, tidy and clean—clean everywhere—not only the outside of the cup and platter should be clean but every byway and every lane.

THE MAYOR AND THE BILL.

When the news was wired to town yesterday afternoon, that the consideration of the Peterborough bill, providing, amongst other things for incorporation as a city, was postponed till next Tuesday, the worst that was feared was that some technical difficulty had cropped up. The most pessimistic was not prepared for the fact that no less an important member of the Peterborough deputation sent up to support and urge incorporation, than the Mayor himself should come out flat-footed against the incorporation clause, thus suggesting divided counsels amongst the representatives of Peterborough, making the town ridiculous and humiliated before the committee and the country.

The question of incorporation is one upon which every citizen, including Mr. Best, in his private capacity, is entitled to his opinion. But Mr. Best did not properly appear before the committee as a private citizen, but in his capacity as head of the corporation, and of a deputation sent up by the council, with his expenses paid by the town. He presided at the council when the details of the bill were agreed upon, and it is not recorded that he opposed them. He accepted the position of honorary president of the committee charged with arranging for a demonstration to celebrate the inauguration of the city in case the bill passed. Mayor Best had not a word to say when the council voted $1000 to defray the cost of the inauguration. He offered no adverse opinion when the council on Tuesday night unanimously rejected the petition against incorporation. He gave no sign, in his official capacity, of his position, till he appeared before the committee, when everything was supposed to be agreed upon in connection with the passing of the bill, and that he should bolt at the last moment, temporarily defeat the bill, and cover the Peterborough deputation, and the town, with ridicule, is simply astounding.

It is a fine point in civic polity to decide when a mayor's official character can be becomingly merged into his personal capacity. Mayor Best was sent up by the town to support the bill, including incorporation. He shook the mayor's robe from his shoulders and stood in the role of a kicking citizen. What capacity does he elect to be judged by? Will his fellow councillors and the people, namely submit to the mayor moving meekly as Dr. Jekyll in home circles, and blossoming out as the awful Mr. Hyde before the Private Bills Committee? The Board of Trade might meet and profitably discuss the subject — "When is a mayor not a mayor?" Does Mr. Best's figuring before the committee as a private citizen mean that he contemplates abdicating the mayor's chair, so that he will be free to fight the will of the people, as expressed unanimously through their aldermanic representatives? Mr. Best hadn't, according to the rule adopted, any more standing before the committee than Mr. Hatton who, as solicitor, represented, it is said, interests which would suffer in pocket through city incorporation increasing the fees for hotel licenses. And we have all along been labouring under the delusion that, as we had the best mayor in Ontario, he would live up to his name. Will Mayor Best return to town as Dr. Jeykll or Mr. Hyde? Will he persist in refusing to be mayor when we want him to carry out the wishes of the peoples representatives, or will he insist on being mayor when his services as a citizen would not be unacceptable?

SUCCESSION DUTIES.

It is stated that the succession duties on the Gooderham estate will amount to one million dollars. That is a rather tidy sum to add to the coffers of the Province, at one grand stroke, and is only another evidence of the immense power of contributing to the revenue of the Province represented by succession duties. This also throws into strong light the folly of the opposition of Hon. Mr. Matheson the present Provincial Treasurer to these duties. If he and his party had had their way these succession duties would have been if not abolished, cut in half. In that case the revenue to the province to be derived from the Goodorham estate would have been only $500,000 instead of as it will be now, being a round million. We have repeated proofs of the care and ability shown by the late Liberal Administration in administering the financial interests of Ontario in providing sources of revenue to meet the expanding wants arising from its growth and development. Mr. Treasurer Matheson is finding it quite a different thing to criticise and pick flaws from discharging the responsibilities of office. He is very glad now to grasp and utilize revenue, which in the days of Opposition he was willing to sweep away with an unconsidered and irresponsible, fault-finding resolution.

EDITORIAL NOTES

Extremes meet, or at least the consequences are similar. Russia is ground down by a terrible despotism, and we have lawlessness and bloodshed — the soldiery shooting down the people in cold blood. In the United States they have liberty to burn," so to speak, and we have here similar results — not, it is true, the soldiers shooting down the people, but the people shooting down each other in the excitement of a labour strike. It seems that at present, Chicago is in the grip of lawlessness, and that somewhat similar conditions obtain there as in Poland. Liberty and freedom are desirable things, but the liberty that degenerates into anarchy is perilously near the most odious form of tyranny.

UNDESIRABLES.

The Glasgow Herald has been quite out out with Canada because undesirable people from the Mother Country are denied admission here, where they might reform and become useful members of society. "If Canada takes the best of the British population," asks the Herald, "why should she not take some of the worst?" Canada has taken some of the worst, and finds that she does not like them. When a man who is a criminal by instinct reaches a new country, he makes a new start, but it is very likely to be a new start in crime in a country where his record is not known and where he fancies he can always escape detection.

Let us however refer the Glasgow editor to the proceedings in the British Parliament recently, when the bill to preclude undesirable aliens from the United Kingdom received its second reading without division, an amendment offered by Sir Charles Dilke being voted down by 211 to 53. Great Britain thus adopts the policy which the Glasgow paper censures Canada for enforcing. We do not exclude Britishers, however penniless they may be, so long as they are not of the criminal classes, nor incapacitated by disease. Canada has a climate all her own, but there is nothing in our bracing air that reforms habitual criminals nor works miracles on the lame or the blind. —Toronto Star.

A REPLY TO "ONE WHO KNOWS"

Mr. Croft Comments Upon the Letter of "One Who Knews".

To the Editor of the Examiner:

Sir,—I wish to take up a few lines of your valuable space, if you will kindly allow it, to correct an unfounded and seemingly malicious charge made against me in the Examiner of the 29th ulto. In that issue appears a letter signed by "One Who Knows", in which the writer attempts to draw a herring across an imaginary trail after Inspector Cochrane's scalp, by making a wholly untrue statement as to the friendly relations existing between my friend the late Mr. T. Blezard, and myself.

In his letter, the writer states that "Mr. Blezard was a guest at the Croft House until he could no longer stand the insulting language of his host, and had to leave". The letter also tries to cast a slur on the Rector, and by implication, the congregation of St. John's church; for allowing a hotel to be maintained on church property, saying 'that it almost blocked the way of worshippers. Regarding this church property charge, the people of Peterborough are well able to judge this matter for themselves, for in the years, nearly that of a generation, that I occupied the hotel, never once was a complaint against my house made by any member of St. John's or any other church. In reference to the charge that Mr. Blezard left my house because of any personal misunderstanding between us, or on account of any "insulting" or other language used by me to him or his, this is simply a plain unfounded and malicious falsehood. Mr. Blezard and myself had been personal friends until the time, that for purely political and private reasons he ceased being a regular guest at the Croft House, and friends we remained until the day of his regretted death. Mr. Blezard, in place of having ever suffered insult from me, never until the time I permanently gave up the hotel business, came into this town without calling into my hotel to see me personally, and after that has been, until his death, a constant and friendly visitor at my private house. The whole matter looks to me like any rash or venemous statement being made to try and save the heads of an army of unnecessary men, employed at the county's expense.

As far as the reasons assigned in The Examiner's letter for my license having been taken away, "One Who Knows" must consider The Examiner's readers to be children or defective in judgment. The license was renewed within one year after it had been taken away, simply because I could not be bribed or frightened into changing the politics I considered right. Is it to be thought for a moment that a man, who is charged in The Examiner's letter with using such violent and insulting language towards friends and guests, would in one year pick up a sufficient stock of politeness and courtesy to warrant a renewal of license? Has the hotel been removed from the church property? No, Mr. Editor, "One Who Knows" need not live in fear and trembling that the scalp knife of politics will remove Mr. Cochrane's hair, if he only attends to his duties and does not try to repeat his coercion of license holders for political gain. He need not try to divert attention by introducing malicious falsehoods into the controversy, which, as far as I am concerned is closed. As far as hurting the position of my friend Mr. Cochrane, as License Inspector goes, I cannot help but think that were "X.Y.Z." and "One Who Knows" really in earnest in trying to defend him, they could and would have made his position much safer by not rushing into print and stirring up a mess of political mud that is offensive to any honest man.

I am, Sir,

Yours truly,
W. CROFT.

May 3rd, 1905.

Cressman's

BIG THINGS PLANNED FOR PETERBOROUGH

Lord Aylmer, Inspector General of Canadian Militia, Believes Peterborough Should Be Made a Stores Depot and That Arms Manufacturing Should Be Established Here—Paid Official Visit to 57th Regiment Last Night—Says United States and Canada Will Yet Be Allies—Has Faith in Ability of Japanese to Defeat Russians.

Lord Aylmer the Inspector General of the Canadian Militia, who was in town last night inspecting the local regiment is rotated in town, so that his visit here, which, by the way, is the first he has ever made, was of special interest to him.

He is a cousin of Mr. J. A. Aylmer, the well known contractor on the Trent Valley Canal.

The Inspector General is a most entertaining gentleman, even outside of his military capacity, and to a representative of the Examiner, who visited him at the Oriental Hotel, just after his arrival in town, he gave a delightful interview in which he made some statements which, coming from such an authority as the Inspector General, have special interest to Peterborough.

He remarked that it was his first visit to Peterborough, and he was here in his capacity as Inspector General of the Canadian Militia. He was making his first tour since his appointment to that office upon the change which had been made in the militia management.

It will be remembered that after Lord Dundonald left Canada, Lord Aylmer filled the duties of Officer Commanding, but later, that office had been abolished, and part of the duties formerly filled by the men occupying that position were detailed to a Military Council, the head of which was Sir Frederick Borden, and the rest of the duties were given to the Inspector General.

The new policy was one of decentralization, and the control of the different districts had been largely taken out of the hands of headquarters and transferred to the district officers, the gentleman holding that position for this district being General Gordon, the successor to Col. Buchan.

When asked as to what plans had been made for Peterborough in the future, Lord Aylmer said that his idea was that it should be made a central stores depot, and that a manufactory for small arms, etc., should be established here. He considered Peterborough a most important strategetical point and it was most admirably suited to the purposes suggested. It corresponded to Stratford in the West, which he considered a better location than London. The fact that it was away from the front, and that there were two lines of railway running into it as well as the fact that the Trent Valley Canal would pass through the town, and as a consequence access by water would be easy were reasons in its favour.

Of course, he said, all talk of making preparations for war were not necessary since there would never be a war between the United States and Canada. The idea that a nation of eighty million people would go to war against one of six million was not to be entertained. In his youth Lord Aylmer said that he had been taught to hate the Yankees, but the younger generation did not hold the same opinion regarding the States. His sons had no feeling against the Yankees and in the next generation this feeling of friendship would be increased.

To-day the two people were practically one. They both speak the Anglo-Saxon tongue, and he believed that there were living to-day men who would see the United States and Canada more closely allied.

This alliance would be made necessary to protect the inroads of the yellow man. He did not look with any fear upon the inroads of the Japanese. Since there were only thirty million of them, he believed that the Chinese would be made tools of by the enterprising Japs and they would be sent into this continent in hordes, and to protect ourselves against them, the United States and Canada would have to act together.

Lord Aylmer believed that in the present war, looking at it from the standpoint of a soldier, the Japs would be successful.

They had shown themselves the better fighters and now that the crucial point in the campaign had come he believed they would be victorious. The impending naval battle would settle the matter, for, if the Russians were defeated it would mean the fall of Vladivostock, which would mean that the Russians would have to make terms. He thought that there would be no big battle on the sea as his opinion was that Togo's policy would be to keep pegging at the Russian fleet from behind, and, since the latter was away from the base of supplies, the odds were with the Japs, who were practically at home and consequently had an advantage.

The result of the war would be the opening of Manchuria to the markets of the world, and in this Russia would have an equal advantage with every other nation. The war, however, would eventually be a benefit to Russia, since it would result in its being made a constitutional monarchy in time.

Lord Aylmer is a thorough soldier and a Canadian, and believes in teaching the youth of the country to shoot.

DEATH OCCURRED IN OTONABEE

Miss Margaret C. Humphries Passes Away—Aged 51 Years.

The death occurred at five o'clock yesterday morning, in Otonabee, of Miss Margaret C. Humphries, at the residence of her brother, Robert, lot 18, concession 6.

The deceased lady, who was 51 years of age, has been a sufferer for years, but her illness took a serious turn about three weeks ago, and death ended her sufferings yesterday morning. The late Miss Humphries was born on the homestead, and resided there all her life. She leaves to mourn her loss three brtohers, Robert, on the homestead; Adam, in Asphodel township; Andrew, in Ouray, Colorado; John, of Acton, Ontario.

The deceased was a consistent adherent of the Presbyterian church, Keene.

The funeral will take place on Friday, at 2 p.m., from the residence of her brother, to the Fife cemetery, Otonabee.

DEATH OCCURRED AT ADVANCED AGE

T. W. Masson of Campbellford, Died at Nicholls Hospital Yesterday.

The death occurred at the Nicholls Hospital yesterday morning of Mr. T. W. S. Masson, of Campbellford, aged 89 years. Deceased had been ill for some time with cancer. He was born in Scotland, but had lived in Campbellford for many years.

The late Mr. Masson was married twice, and his second wife survived him. Two daughters — Mrs. V. A. Coleman of Port Hope; and Mrs. A. Donald, of Campbellford — are left to mourn his demise; as are four sons, Norman Masson, near Campbellford; Stewart Masson, of Belleville; William Masson of Owen Sound; and Dr. Masson. Miss Helen and Miss Margaret Coleman of the Nicholls Hospital, are granddaughters of the deceased.

The funeral will take place in Campbellford to-morrow to Burn Brae cemetery.

A Veteran's Story.

George Lewis, of Shannokin, Pa., writes:—"I am eighty years of age. I have been troubled with Catarrh for fifty years, and in my time have used a great many catarrh cures, but never had any relief until I used Dr. Agnew's Catarrhal Powder. One box cured me completely." Fifty cents. 25

HOW PETERBORO' BILL WAS SHELVED

Mr. H. Best "Threw Down" the Mayor, Council and Citizens.

Divided Councils in Peterborough Deputation, Postpones Consideration of Bill.

The Peterborough Bill, now in a state of suspended animation, before the Ontario Legislature, came before the Private Bills Committee yesterday morning and it is there yet, no progress if any, having been made. The chief effect of the hearing was to hold Peterborough up to ridicule, and it happened this way.

Mr. T. E. Bradburn, M. P. P., introduced the Peterborough deputation sent up to support the bill.

Mr. E. H. D. Hall, town solicitor, first addressed the committee, dealing in a clear and concise manner with the several sections. He devoted considerable time to the section providing for the incorporation of Peterborough as a city.

Mr. H. Carscallen, M. P. P., the chairman, West Hamilton, asked if there were any objection to the clause.

Mr. G. W. Hatton, who it appears was present as solicitor for certain petitioners, strongly opposed the incorporation clause of the bill, and said that their opposition was largely on sentimental grounds, and he added that two-thirds of the people were opposed to the incorporation of the town into a city at present.

The chairman naturally wanted to know what the Mayor of Peterborough had to say and when Mr. Best spoke it was a bolt from the blue. He declared that he was personally opposed to the incorporation clause and had been from the beginning. He also declared that three-fourths of the ratepayers of the town were also opposed to the incorporation clause, and the matter had not been submitted to the vote of the people.

The chairman of the committee in view of the divided councils of the Peterborough deputation upon their own bill suggested that further consideration of it be held over.

Mr. T. F. Matthews, chairman of the Peterborough Water Commissioners, was heard in lucid explanation of the water works clause of the bill.

A member of the committee asked Mr. Matthews as to his views of incorporation.

Mr. Matthews said he was in favour of incorporation as representing a company with large financial interests and certain to be affected substantially by any increase of taxation. As a business man he was in favour of incorporation as a city and he was in a position to know that the bulk of the business men of the town were also in favour of it.

A member asked Mr. Matthews how he reconciled his position with that of the Mayor of the town, and Mr. Matthews replied that the Mayor must be looking at the matter through coloured glasses and—

Mayor Best interrupting said that he would be willing to pay the whole cost of taking the vote of the people on the subject if 75 per cent. of them were not against the bylaw.

During the discussion the inconsistency of the Mayor was pointed out by some members of committee, since he objected against incorporation because the people had not been asked to vote upon it while he made no objection to ratifying two other bylaws on which there had been no popular vote.

The chairman said that evidently the people of Peterborough didn't know what they wanted and the further consideration of the bill by the committee was postponed till Tuesday next.

Plan open at Madills' Drug Store on Monday for subscribers.

JUDGMENT WAS GIVEN THIS MORNING

In the Reserved Liquor Act Case.

A fine of $40 and costs, amounting to $5.15, was imposed this morning at Police Court, in the case of John Conroy, heard a week ago. The charge against defendant, who is proprietor of the Little Windsor Hotel, was of having permitted his bar to be open during prohibited hours. A peculiar circumstance arose in connection with the case, defendant claiming, through his counsel, that the room in which it is alleged that the offense was committed was not the bar, but was partitioned off, therefore, a separate room.

This was considered by the magistrate to be a second offense as a conviction was previously registered against prisoner on June 1st last, when a similar penalty was imposed, but which was reduced later to $20 by order of the court.

The King of Ranges

Ireland never turned out a better homespun than Semi-ready "Kilalo."

Irish homespuns are supreme.

For beauty of pattern and obstinacy of wear nothing can touch them. "Kilalo" Homespun is our own particular quality, woven into our own particular patterns.

One of the oldest and best mills in Ireland produces it for us. Generations of experience are behind their knowledge of homespun making.

This mill makes a particularly high grade homespun for us under our trade name of "Kilalo." Semi-ready controls the output of that quality, and any patterns we select are exclusive to us.

We make "Kilalo" homespun into two-piece suits and summer trousers. It is stylish-looking fabric—so much so that it has entirely taken the place of flannels. Prices $15 to $20.

LATEST NEWS FROM LAKEFIELD

What Has Been Happening in the Northern Village During the Week.

Navigation and Building News—Sporting Organization Preparing.

(From Our Own Correspondent.)

Lakefield, May 3rd.—The Lakefield House, formerly owned and managed by Mr. J. Furlong has been sold to Mr. T. Eastwood, of Peterborough, who intends making several improvements around the premises. Mr. Eastwood took possession this week and is going to run a first-class hotel. The house is in a splendid locality for working up a large tourist and commercial trade which no doubt Mr. Eastweod will accomplish.

Mr. J. Thompson of the Dickson Co., launched last week a new side-wheeler for the purpose of towing the companies logs. She is a new model being driven with endless cog chains which makes a powerful tug and runs with much less noise than the ordinary alligator. The company opened their mill for the season on Monday of this week, but the mill will not be running to its full capacity till the end of the month.

Mr. Roland Johnston has purchased the residence of Mr. John Holmes on Queen street.

The Lakefield Portland Cement Co's new building is well on its way being about eight feet high all round the wall. This is good progress considering the size of the building which is 81 x 260 feet. The building is being built of cement concrete and when completed will just about double the capacity of the present works.

Mr. Fred. LaFevre and his sister, Miss Louise LaFevre arrived last week from China. Mr. LaFevre has been in China for the past couple of years engineering for a large English syndicate and was joined by his sister who took the trip for the benefit of her health about six months ago. Mr. LaFevre leaves for South America in the employ of the same firm and on similar business in the course of a month or so.

Misses Lelia and Doris Burgess, who spent their Easter vacation in Petorborough visiting friends has returned home.

R. W., Bro. A. A. Smith, D.D.G.M., District No. 20, paid an official visit to Clementi Lodge here on Tuesday night. A large number of the Brethren were present —work in the third degree was exemplified. After the meeting the Brethren repaired to the Midland House where a very elaborate banquet was held followed by speech and song.

The staff of the public school have all returned after their holiday and are at work in their usual places.

Men and teams are much needed in the village as builders find it difficulty to procure the necessary help along this line. This no doubt is inconvenient for those directly interested but is surely a sign of prosperity.

Mr. F. J. Moore's planing mill was shut down for a couple of days this week owing to the breaking of the main shaft. But the necessary repairs have been made and the mill is again going full blast.

The Lakefield preparatory school have a splendid juvenile cricket club who are making splendid progress under the able management of Mr. Riddell, who takes a keen interest in this gentlemanly game.

The Lakefield Baseball Club are starting to practise in earnest this week, in order that they shall be ready for their first match which will likely be played on May 24th.

Mrs. Covell Goes to Jail.

St. Thomas, Ont., May 3.—Mrs. Benjamin Covell, the Rodney woman, accused of complicity in the murder of Miss Mina Lowry, was brought to the County jail here Monday night. She was taken from her bed, dressed and taken to the train, in spite of protestations that she was too ill to travel. Her husband came with her and stood by her until compelled by the authorities to leave her in her cell. Her daughter, Mrs. Lusty, of Barrie, showed much distress and was sympathized with.

ATHLETIC MEET HELD AT Y. M. C. A.

Six Events Closely Contested.

Last week the boys held their indoor athletic meet in the gymnasium. A goodly number of them enthusiastically contested for the different events. There were six events run therewith. The first, the quarter mile, was won by Peter Wallace, in 1 minute, 21 seconds; standing broad jump, by Peter Wallace, 9 feet, 3 inches; running high jump, by Peter Wallace, 4 feet, 1 inch; three standing broad jumps, by Fred. Hall, 13 feet, 5 inches; spring-board high jump, by Geo. Hawley, 5 feet; fence vault, by Chas. Thornton, 4 feet, 3 inches.

BOWLING-ON-THE-GREEN.

The Lawn Bowling Club held a special meeting last night in the Ontario Bank Chambers and elected the rinks and skips for the season. There was a very large and representative gathering and an unusually good season is anticipated.

The several rinks with their skips will be found as follows:—

BASEBALL.

The Lindsay Post cannot resist the temptation to knock Peterborough, and it proceeds to do it in the following terms:—

Harvey Parker, the clever southpaw on last year's Oshawa Midland League nine seems to be of the wanderlgn Jow type. Some months ago he was reported to have gone to the States to pitch for Fort Dodge team in the Iowa State League, but was released because of lack of experience, and later it was reported he was back in Oshawa, but now the report comes out that Manager McElwan has skipped him to do the slab work for Peterborough this year. Parker is quite popular in Peterborough, having won his game against them last year in Peterborough. This new addition to the Porridge factory team won't affect Lindsay very much, as last year the locals did not have much difficulty in landing two wins from Oshawa. Peterborough now have two pitchers, Parker and Douglas.

• • • •

A meeting of the Guild League was held last night in the Y.M.C.A. The schedule was not drawn up at that meeting, however.

• • • •

There was no City League meeting last night. There will probably by one to-morrow evening in the T. A. S. Rooms.

• • • •

The Peterborough's new players Stane, Torrance, Shea, and Douglas are expected to arrive in town to-day.

• • • •

A game has been arranged with Lindsay by the Peterborough's on Wednesday in Lindsay.

• • • •

The game with the Sherbournes on Saturday should be a good exhibition. The Sherbournes rank in the same class as the Progressives.

Strong Partnership

When in need of liquid oxygen for the speedy removal of any internal germs, ask your druggist for the "solution of Ozone (the coupon kind)". With each bottle is given free a package of "Celery King" a popular tonic laxative needed to cleanse the system after the stringent effect of the concentrated Ozone. We have the sole right to manufacture "Celery King" and thus are able to include with every bottle of "Solution of Ozone" a coupon good for a free package of the famous laxative which is essential to the best results in the use of Ozone. Both products manufactured by the Public Drug Co., Bolgeburg, Ont. Sold by W. B. WARNE, Druggist 7

GUILD LEAGUE MET LAST NIGHT

Resolutions Drawn Up—All Saints' and St. Luke's to Drop Out.

At a meeting of the Guild League held last night the following resolutions were brought forward:—

That all players of the City League be barred from playing in the Guild League.

That all names of Guild players be in the hands of the Secretary by May 15th and that each Guild also hand in two names to act as umpires.

That the Garrett Ball be the official ball.

The meeting then adjourned till Wednesday next, at 8.00 p.m.

All Saint's and St. Luke's are very doubtful numbers just at present, and the other Guilds regret this very much, as with these two clubs in the schedule would be much better.

Manager McWilliams of Charlotte street, stated this morning that he would, under certain conditions, enter two teams rather than see the League pro gents injured in any way from the clubs dropping out. He said there was lot of material and they could put two very fair teams in the field.

FOOTBALL.

The Quakers will practice to-night.

FIELD HOCKEY.

A field hockey practice will be held to-night at the Central Park.

ACTION HAD A PARTIZAN BIAS

Circular Instructions Sent to Fishery Overseers.

PRISON-MADE GOODS BILL

Government Will Consider the Whole License Question During the Recess, Says Hon. Mr. Hanna, Whereupon Mr. Crawford Withdrew His Bill —Against Amendments to the Assessment Act So Soon.

Toronto, May 4.—A brief argument over a circular letter sent from the Department to fisheries overseers, in which they were in part instructed to submit applications for licenses to the Conservative member or defeated candidate of their riding, was the interesting feature of yesterday's sessions of the Legislature. Hon. Dr. Reaume's explanation was buttressed by remarks by the Premier, Hon. Col. Matheson, Hon. Mr. Hanna and Hon. Dr. Willoughby. The Premier evidently misunderstood part of the remarks of Mr. D. Reed, who raised the question, and his few words were marked by some warmth. Excellent progress was made with a number of private and public bills, some of which were read a second time and others advanced a stage in committee. During the evening session Hon. Mr. Hanna said the feeling of the Government was against changes in the assessment act in view of the great attention that act had received last session, and asking Mr. Crawford to withdraw his bill to amend the license act he said the Government had the whole question under consideration.

Prison-Made Goods.

Mr. Preston's bill to label prison-made goods was up for second reading. He explained his bill, after which the Provincial Secretary said the bill went too far in providing that prison-made goods manufactured outside the Province be labeled. This was outside the jurisdiction of the Legislature, but he assured Mr. Preston that the Government was giving the question of prison-made goods its earnest consideration. In 1904 the total value of brooms manufactured at the Central Prison was $5,732, and the cost outside of the free labor was $4,664. Under the circumstances the Province could not afford to carry on the broom contract, and he was considering how men not now employed by the binder twine industry could be employed in other forms of manual work. Mr. Hanna asked that the bill be withdrawn, as the Government was seeking a way to meet the objections to the present act.

Mr. Preston complied.

Another Bill Withdrawn.

After a short discussion, Mr. Crawford's bill to compel the dehorning of cattle in their first year was withdrawn.

On the Premier's suggestion, Mr. Donald Sutherland's anti-automobile bill was sent to the municipal committee.

Mr. Hoyle's bill providing that no joint stock company shall apply any of its shares or capital money in payment of commission on subscriptions was referred to a special committee, as was also Mr. Smellie's bill requiring stationary engineers to hold qualifying certificates.

A number of private bills were read a first time.

Evening Session.

At the evening session Mr. Downey's bill for the development of wood lots by exempting them from taxation was read a second time. He moved the second reading of his Assessment Act amendments, but Hon. Mr. Hanna, in view of last year's work, said it would be unwise to change the law without very careful consideration. Mr. Thompson's bill for the reduction of sheriff's fees was sent to the committee. Dr. Nesbitt's bill to amend the High Schools Act was read a second time, and his other bills, re. Assessment, stand for further consideration. Mr. Crawford withdrew his License Act amendments in view of the Hon. Mr. Hanna's promise that after the present session the Government would have the whole question under consideration.

A DASTARDLY OUTRAGE.

Attempt to Destroy Mine Buildings at Roche Percee, Assa.

Winnipeg, May 3.—A dynamite outrage, which was partially successful, was attempted at last Wednesday night, when some desperate individual tried to blow up the buildings of the Roche Percee Mining Co. The dynamiter was discovered before he had time to properly ignite the box in which the explosive was placed, and this saved the works from complete destruction.

About 10 o'clock William Sutherland who is manager for the company, had occasion to go outside his house and noticed a man stooping beside one of the company's storehouses, apparently lighting something. The manager approached, whereupon the man ran away. A hurried investigation disclosed the fact that he had ignited a fuse. The manager partially disconnected the fuse and ran away to a place of safety, and a few moments later a frightful explosion occurred, partially wrecking the storehouse.

Had not Sutherland discovered the man when he did, the whole works would have been blown up and several people killed, as the miners sleep near the place where the fuse was ignited.

ONE BOX OF DOAN'S KIDNEY PILLS CURED DROPSY.

Dropsy is not a disease in itself, as many people believe, but is an evidence of very severe kidney trouble. Dropsy is caused by watery particles oozing through the walls of the arteries when they are distended by unusual pressure, which can only be caused by obstructions in the kidneys. The symptoms of Dropsy are puffiness under the eyes, swelling of the feet and ankles, urine changed in character and appearance, smothering feeling from exertion or excitement. The only rational method of treating this disease is to reach the kidneys and restore them to a healthy condition.

The most successful remedy for this purpose is Doan's Kidney Pills. Read what Miss Agnes Creelman, Upper Smithville, N.S., says of them:—"I caught a cold, which settled in my kidneys, and turned to dropsy. My face, limbs, and feet became bloated, and if I pressed my finger on them it would make a white impression that would last fully a minute before the flesh regained its natural color. I was advised to try Doan's Kidney Pills, and found by their use that I was cured in a very short time. I have never had any trouble with it since.

Price 50 cents. per box, or 3 for $1.25.

THE DOAN KIDNEY PILL CO., TORONTO, ONT.

Residence—176 Harvey street, Peterborough.

IMPORTANCE OF THE FIRST STEP

Dyspeptics Should Begin Right by Using Smith's Triple Cure.

The first point in the treatment of dyspepsia is to remove the cause—to cure the catarrh which causes the dyspeptic condition. When your stomach is paralized from overwork, when you eat too much and too often, you must provide relief by removing the burden. Chronic dyspepsia or indigestion in the majority of cases is due to catarrh of the stomach. Smith's Triple Cure cures dyspepsia because it cures catarrh wherever located. Its use is the first step toward a cure. Begin right by first removing the cause. Smith's Triple Cure will always do this because it takes off the strain; it puts the stomach and digestive organs in a healthy condition. It cleans the mucous membranes and keeps them healthy, so that catarrh cannot exist or find lodgment. The mucous membranes protect the interior of the body just as the skin protects the outside. As long as the mucous membranes are healthy and clean everything works right—digestion and assimilation are normal. Now, suppose the mucous membranes become congested, ulcerated, cankered and covered with foul secretions. You know the gastric glands and functions would soon become diseased. Catarrh and dyspepsia would soon rob your system of vigor and your nerves of strength. Now use Smith's Triple Cure and note the change. The membranes soon lose their congested, angry and thickened appearance and the ulcers and canker heal. That's the first step toward curing dyspepsia and catarrh. Smith's Triple Cure will do this for a dyspeptic or catarrhal stomach, will remove the cause, make the digestion natural and healthy, enrich the blood and establish harmonious action of the digestive organs. All dealers sell Smith's Triple Cure, price 50 cents, each package a full two months' treatment, containing four separate preparations, the greatest value for the money ever offered. If your druggist won't supply you, send us 25 two-cent stamps and we will send it postpaid and guarantee safe delivery. Address W. F. Smith Co., 185 St. James St., Montreal.

STATE TROOPS ASKED FOR.

Violence Decreases in Chicago—Uniformed Police Were Effective.

Chicago, May 4.—With the employers demanding the protection of state troops to permit them to lawfully conduct their business, there was a marked decrease in the number of riots and acts of violence committed yesterday. No wagons guarded by uniformed policemen were interferred with, and the number of those protected by private detectives and negroes which were attacked were small as compared with the previous day.

Mayor Dunne is strongly opposed to the idea of bringing troops to the city and says he has not yet exhausted all his resources.

A committee from the Chicago Federation of Labor left for Springfield last night to lay the strikers' case before the Governor.

Another Victim.

A rifleman on a wagon owned by the Adams Express Co. held at bay a crowd of 1,000 persons at Jackson boulevard and the Chicago River.

T. C. Carlson, who has had charge of the auto trucks for Montgomery, Ward & Co., where the strike first started, was probably fatally injured in fasnt of the Teamsters' Union headquarters yesterday by a brick thrown from a window.

The first rifle shot fired during the teamsters' strike went whizzing through a crowded thoroughfare yesterday. The shot was fired by a guard on a wagon of the United Express Co. but no one was hit.

Left Him For Dead.

Sault Ste. Marie, May 4.—Word was received here yesterday of a robbery and attempted murder near Thessalon.

A man, who is now in Dean Lake hospital, suffering from severe wounds, was walking on the railway track from Thessalon to Blind River. He had a bottle of liquor with him. He met two other men and the three sat down beside the track and divided the liquor. After it was finished the others ordered him to give up what money he had.

When he refused they attacked him, beat him badly, stripped him of every article of clothing and left him for dead in the woods near the track.

China Ignores the Mackay Treaty.

Shanghai, May 4.—Seventy leading British merchants of this city have wired the following memorial to Lord Lansdowne, Secretary of Foreign Affairs:

"The British merchants of this city draw the attention of the Home Government to the fact that China ignores the Mackay treaty, rendering the same ineffective in its most essential features.

"China actively opposes the treaty stipulations regarding currency, mining, taxation and navigation.

"We beg the British Government to insist that the treaty be made operative immediately."

Brick Oven Bursts and Kills Two.

Montreal, May 4.—Joseph Fergus and Jos. Dufort were instantly killed and Francis Chartrand seriously injured yesterday as a result of the bursting of one of the ovens of the Laprairie Pressed Brick and Terra Cotta Co. The men were old employes of the company and lived in the village with their families. Fergus was 52 years of age and Dufort was 40. Both leave widows and families.

Found Guilty.

London, May 4.—Billy Boyd and Hugh Stevenson were convicted Tuesday and it is expected that H. M. Douglas will be arrested, charged with conspiring to defraud the president of the Millionaires' Club of St. Louis. Douglas himself was relieved of $10,000, and charged Boyd and Stevenson with conspiracy in a futile attempt to recover his money from St. Louis.

A Coxy Army in England.

London, May 4.—A miniature Coxey army is forming among the striking army boot-workers of Northamptonshire. It is proposed to march on the War Office in London and lay the men's grievances in regard to pay, etc., before the officials. A band of music has been engaged to accompany the strikers, whose march will probably start this week.

Killed By a Train.

Windsor, May 4.—Joseph Gill, twenty-five years of age, who said his home was in Hamilton, had both legs taken off by a train, which he attempted to board in the Grand Trunk yards here Tuesday night. Both legs were almost completely severed. He lived only a few minutes after the accident.

WELCOME WORDS TO WOMEN.

Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive free the advice of a physician of over forty years' experience—a skilled and successful specialist in the diseases of women. Every letter has the most careful consideration and is regarded as sacredly confidential. Many sensitively modest women write fully to Dr. Pierce what they would shrink from telling to their local physician. The local physician is pretty sure to say that he cannot do anything without "an examination." Dr. Pierce knows that these distasteful examinations are generally needless, and that no woman, except in rare cases, should submit to them.

Dr. Pierce's treatment cures in the privacy of your home. His "Favorite Prescription" has cured hundreds of thousands of bad cases. It is the only medicine of its kind that is the product of a regularly graduated physician. Some unscrupulous medicine dealers may offer you a substitute. Don't take it. Don't trifle with your health. Write to Dr. R. V. Pierce, Buffalo, N. Y.—take his advice and be well.

Mrs. R. D. Monfort, of Lebanon, Warren Co., O., writes: "I have received the 'Medical Adviser.' A crisp, new five dollar bill could not tempt me to part with it."

On receipt of 21 one-cent stamps, to pay cost of mailing only, we will send to any address a paper-bound copy of Dr. Pierce's great 1000-page book, "The Common Sense Medical Adviser." Or, for 50 stamps the same in cloth binding. Address Dr. R. V. Pierce, Buffalo, N. Y.

The Original LITTLE LIVER PILLS, first put up by old Dr. R. V. Pierce over 40 years ago. Much imitated, but never equaled. Little pill. Little dose, but give great results in a curative way in all derangements of Stomach, Liver and Bowels.

LIVERPOOL GRAIN AND PRODUCE.

Liverpool, May 3.—Wheat—Spot quiet; No. 1 Cal., 6s 8½d. Futures firm; May nominal, July 6s 7d, Sept. 6s 5½d.

Corn—Spot steady; American mixed, new, 4s 2½d; American mixed, old, 4s 10½d. Futures firm; May 4s 2½d, July 4s 2¼d.

Beef—Extra India mess strong, 57s 6d.

Hams—Short cut firm, 43s 6d.

Bacon—Clear bellies quiet, 40s.

Turpentine Spirits—Strong, 45s 6d.

NEW YORK DAIRY MARKET.

New York, May 3.—Butter—Firm, unchanged; receipts, 3501.

Cheese—Firm, unchanged; receipts, 3259.

Eggs—Firm; receipts, 19,305; state, Pennsylvania and nearby, fancy, selected, white, 20c to 21c; do., choice, 19c to 19½c; do., mixed, extra, 19c; western storage selections, 18¼c; do., firsts, 18c; southerns, 15½c to 16c.

CATTLE MARKETS.

Cables Are Easier—Hogs and Cattle Are Higher at Chicago.

London, May 3.—Cattle are quoted at 11¼c to 12¾c per lb.; refrigerator beef, 9c to 9½c per lb.; sheep, 14c to 15½c per lb.

MONTREAL LIVE STOCK.

Montreal, May 3.—(Special.)—The receipts were 800 cattle, 100 milch cows, 200 sheep and lambs, 2500 calves and 1000 hogs. A feature of the trade in cattle was the demand from exporters for choice steers at 5¾c. The wet weather had somewhat of a depressing effect upon the market, and prices show a decline of ¼c per lb. The demand for common cattle was very slow, of which the supply was fairly large. The trade in good to choice beeves was fairly active. Prime cattle sold at 5½c to 5¾c; choice, 5¼c to 5⅜c; good, 4½c to 4¾c; fair, 4c to 4¼c; common, 3½c to 3¾c; inferior, 2½c to 3¼c per lb. The demand for milch cows was slow at $20 to $55 each. The trade in calves was active, but owing to the heavy receipts new low prices had to be accepted. Good stock sold at $4 to $5, and common at $1 to $2 each. The tone of the market for sheep was firm, but lambs were easier. Sheep for export account sold at 4¾c, and local at 4c to 4¾c per lb., while lambs brought $3 to $4.50 each. The market for live hogs was easy, but, as the demand from packers was much better than on Monday, prices show little change. Selected lots sold at $7.40, and mixed lots at $7 per 100 lbs., weighed off cars.

EAST BUFFALO CATTLE MARKET.

East Buffalo, May 3.—Cattle—Receipts, 300 head; fairly active and 10c to 15c higher; prime steers, $6.15 to $6.50; shipping, $5.40 to $6; butchers', $4.75 to $5.65; heifers, $4 to $5.50; cows, $3 to $4.75; bulls, $3 to $4.85; stockers and feeders, $3.50 to $4.60; stock heifers, $2.75 to $3.00.

Veals—Receipts, 500; steady at $4 to $6.50.

Hogs—Receipts, 3600 head; active and 5c to 15c higher; heavy and mixed, $5.55 to $5.60; yorkers, $5.50 to $5.60; a few, $5.65; pigs, $5.50 to $5.55; roughs, $4.60 to $4.80; stags, $3 to $3.50.

Sheep and Lambs—Receipts, 6200 head; steady to strong; lambs, $4.50 to $6.40; yearlings, $5.25 to $5.50; wethers, $4.85 to $5; ewes, $4.25 to $4.50; sheep, mixed, $3.50 to $4.75.

NEW YORK LIVE STOCK.

New York, May 3.—Beeves—Receipts, 1538. Steers weak to a shade higher, but slow; closed firm; bulls and cows steady; steers, $4.85 to $6.35; stags, $4.40 to $4.90; bulls, $2.75 to $4.60; cows, $1.55 to $4.40. Exports, 137 cattle and 2700 quarters of beef; to-morrow, 400 cattle.

Calves—Receipts, 4687; market moderately active and 25c to 50c higher; veals, $3.50 to $6; little calves and culls, $2 to $3.

Sheep and Lambs—Receipts, 5300; sheep steady; lambs more active and 10c higher, quality considered; spring lambs firm; clipped sheep, $3 to $5; yearlings do., $5 to $6.50; clipped lambs, $5.50 to $6.40; unshorn, $7 to $7.60; Maryland spring lambs, $8.50 per head; state culls, $3.

Hogs—Receipts, 6940; market 10c to 15c higher; a tate hogs, $5.75 to $5.85.

CHICAGO LIVE STOCK.

Chicago, May 3.—Cattle—Receipts, 11,000; good to prime steers, $5.75 to $6.80; poor to medium, $4.50 to $5.50; stockers and feeders, $2.50 to $5.10.

Hogs—Receipts, 18,000; mixed and butchers, $5.20 to $5.45; good to choice, heavy, $5.25 to $5.45; rough, heavy, $4.90 to $5.20; light, $5.15 to $5.40; bulk of sales, $5.30 to $5.40.

Sheep and Lambs—Receipts, 16,000; good to choice wethers, shorn, $4.50 to $5; fair to choice, mixed, shorn, $3.50 to $4.25; native lambs, shorn, $4 to $6.25.

Press Gallery Doorkeeper Dead.

Toronto, May 3.—Capt. Moore, the doorkeeper of the press gallery of the Legislature, dropped dead on Sunday at his home near Moorefield, Wellington County. He went home to spend the Easter holidays.

He Loses Two Fingers.

Brampton, May 3.—While engaged in moving some barrels of beer at the Queen's Hotel yesterday, the porter, John Wright, had two fingers taken off, the heavy barrels falling and crushing the hand badly.

Burglars Wreck a Bank.

Onsowka, N. Y., May 3.—The private bank of E. C. Brewer, at Gilbertville, was wrecked yesterday by burglars, resulting in a loss estimated at $20,000 They have not been caught.

G.T.R. MACHINISTS,

Vote to Strike, But Will Wait For Two Days For Reply to Demands.

Toronto, May 3.—The trouble between the Grand Trunk and their machinists has reached a critical stage. Monday night meetings of the union machinists from the shops were held at Stratford, Fort Gratiot, St. Thomas, Montreal and Toronto, and by large majorities it was decided to strike if the concessions asked for in their schedule are not granted. Two days will be allowed for a reply. They ask for 26 cents an hour, but if a minimum wage of 25 cents an hour is granted the trouble will likely be over.

No Strikes in the Mines.

Victoria, B. C., May 3.—Word has been received that the threatened strike at the Crow's Nest coal fields has been averted. A new agreement has been signed by Fernie union officials, agreeing to an eight-hour day. Both sides made concessions. The agreement is important, as it insures an uninterrupted supply to the mines and smelters of the Kootenay.

Paine's Celery Compound Makes Sick People Well.

When the blood is sluggish, impure and poisoned, when the nervous system is unbalanced, when digestion is deranged, and the appetite poor and variable, be assured your condition is critical and calls for instant attention before the summer months bring additional dangers.

At this time the use of Paine's Celery Compound will do a marvellous work for every run-down, sick and diseased man and woman.

Its life-giving work first commences with the blood, which is made clean and pure; then the nerves are quickly set in order, digestive vigour is fully restored, the appetite is made natural, sleep is refreshing and the despondent heart is made light and joyous.

It is well to bear in mind that Paine's Celery Compound owes it origin to the most distinguished physician that this American continent has ever produced, and his marvellous prescription is publicly endorsed by our best and ablest physicians.

If all sufferers who have been disappointed in the past will prompt start with Paine's Celery Compound, they will be astonished and delighted with the speed with which this wonderful remedy is able to call a halt to wasting and dangerous diseases. It is now making tens of thousands well and strong, and fitting them to enjoy the summer months, which, to the well and strong are pleasurable and happy.

SEEDLESS APPLE FAKE.

New Kind of Apple Pronounced a Fraud by Experts.

London, May 3.—(C. A. P.)—The seedless apples for propagation which were sent by several nurseries in Canada have been pronounced a fraud by a crowd of experts. Recently great interest was aroused by the fact that Messrs. Shearn had purchased a pair of these apples from a Covent Garden salesman for three pounds, one also being sent to the King. They originally came from America. The sceptics challenged the Messrs. Shearn to open theirs. This was done before experts and found to contain just as many pips as and 2 larger core than most apples. Messrs. Shearn stated they would bring an action against the firm who sold the apples on account of misrepresentation.

Connected by Cable.

Tangier, Morocco, May 3.—The French cable connecting Cadiz, Spain, with Tangier, provided by the Franco-Spanish convention, has been completed. The cable belongs to the French Government and constitutes, it is considered here, another step towards the consolidation of French interests in Morocco.

Smothered in Bed.

Brantford, May 3.—James Kirvan, a day laborer, who lived on Grant street, was found lifeless in his bed yesterday morning at 3 o'clock by firemen who arrived on the scene to extinguish a fire which was in progress in the kitchen of the house. Kirvan's death was caused through suffocation.

K&K SINFUL HABITS IN YOUTH MAKE NERVOUS, WEAK, DISEASED MEN.

THE RESULT of ignorance and folly in youth, over exertion of mind and body induced by lust and exposure are constantly wrecking the lives and future happiness of thousands of promising young men. Some fade and wither at an early age, or the blossom of manhood, while others new found to drag out a weary, fruitless and melancholy existence. Others reach matrimony but find no solace or comfort there. The victims are found in all stations of life—the farm, the office, the workshop, the pulpit, the trades and the professions. Nervous Debility and Sexual Weakness are guaranteed cured by our New Method Treatment or No Pay. You run no risk—25 years in Detroit. Bank security.

CURED WHEN ALL ELSE FAILED. No names used without written consent.

"I am 33 years of age and married. When young I led a gay life. Early indiscretions and later excesses made trouble for me. I became weak and nervous. My kidneys became affected and I feared Bright's Disease. Married Life was unsatisfactory and my home unhappy. I tried everything—all failed till I took treatment from Drs. Kennedy & Kergan. Their New Method built me up mentally, physically and sexually. I feel and act like a man in every respect. They treated me six years ago. They are honest, skilful and responsible financially, so why patronize Quacks and Fakirs when you can be cured by reliable doctors."—W. A. Belton.

CURES GUARANTEED OR NO PAY. Consultation Free—Books Free—Question Blank For Home Treatment.

MISS VIOLET DOVER WINS FELLOWSHIP

Peterborough Young Lady Wins Coveted Distinction at Bryn Mawr.

University Career Has Been Series of Brilliant Successes—Has Been Demonstrator at McGill.

New York, N.Y., May 4.—Bryn Mawr, P.A. Among the honours distributed by Bryn Mawr College, is fellowship in Chemistry to Mary V. Dover, Peterborough, Ont., B.A. McGill University, 1898 and 1900.

The news of Miss Dover's splendid achievement will be learned with great pleasure by her many friends in town. This is but the latest, however, of a series of brilliant successes which she has won for herself in the highest educational circles of the continent.

Miss Dover is a graduate of the Peterborough Collegiate Institute, and was coached for her examinations at McGill by Mr. Long, the late Principal, and Prof. Lynch. She entered McGill in the year 1892, winning in succession the degrees of B. A., M. A. and M. S. P.

One thing which probably contributed materially to the securing of the Fellowship, just obtained, was the fact that she had lately been engaged upon an intricate piece of research for Dr. Walker, Professor of Chemistry, at McGill.

Miss Dover, who has been for four years Demonstrator and Assistant Lecturer in Chemistry at McGill, will continue in this position during the summer season.

—Mrs. Silas Thompson, Simcoe street, passed away about 4 o'clock this afternoon.

—Saleslady wanted at once, for Small Wares Department; must be experienced. A. W. Cresswan. 3d

—A report of last night's Dante lecture was crowded out, but will appear in tomorrow's issue.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover, 222 McDonnel street. 'Phone 199.

—Full information concerning Canada's highest grade piano, the "Nordheimer," at H. H. Edmison's pharmacy, George street.

—House painters and paper hangers wanted; none but union men need apply. Fred Cook, sign writer, 'phone 119 3d

—The Harmony Male Quartette will sing several numbers at the All Saint's Girls' Guild Concert on Friday evening. 1d

—To advertise our new premises we will give any picture framed, complete, in our window, for 65cts., regular $1.00. "The Framery," two doors west of post office.

—While shunting this morning upon the siding between Mathers grain warehouse and the Grand Trunk Freight office, a car was derailed, the truck beneath the car becoming disengaged from the car.

—The Ladies' Literary Association of St. Peter's T.A.S. will hold its closing meeting on Friday evening, May 5th. A splendid programme will be presented, and a report of the season's work will be read. 2d

—For potatoes, parsnips, carrots, beets, turnips, cabbage, hams, pea-meal bacon, eggs and butter, canned tomatoes, peas and corn, cheap; also nice mixed biscuits, call upon James R. Bell, 161 Hunter street. 'Phone 456.

—A gold locket and medal—both hanging to a key ring — were lost over a week ago. The initials of owner, "E. L." were engraved on locket. Finder will be suitably rewarded by leaving at Examiner office.

—The Rev. R. MacKnight, B.A., received a telegram last evening from Millbrook, informing him that his sister, Miss MacKnight, who has been seriously ill for several weeks, passed away yesterday morning. The funeral will take place to-morrow afternoon.

—The overcoat and hat found upon the bank of the river at the foot of Sherbrooke street was late last night claimed by a man who gave his name and address as Herbert Johnston, Hastings. After proving property he was allowed to take the dry goods.

—There have been a few changes in the Ontario Bank staff recently. Mr. J. F. Johnston, for a couple of years accountant here, has been transferred to Peterborough, Mr. Hall, of Sudbury, filling the vacancy. Mr. Johnston will be greatly missed by his fellow citizens. Two new juniors, who have recently taken positions on the bank staff are Messrs. Karl Hettgher and Stanley Pogue. —Lindsay Post.

—At the drill last night the companies marched to the park under the command of their respective captains. It was a very brilliant scene, on account of the large number of men in uniform, and so many officers giving orders.

Two Strikes and Bases Full.

May is the opening month for out door amusements. The Peterborough Bookstore is ready with supplies of spring and summer sporting goods of the best guaranteed class. Also hammocks from 65c. to $5.00; croquet 4-ball, 6-ball and 8-ball, in best equipments. We carry the finest lines of children's vehicles. A. H. Stratton & Co.

Housekeepers

have been vexed when using cream of tartar and soda to find their work uneven. If sometimes good, at others the biscuit and cake will be heavy or sour or full of lumps of soda that set the teeth on edge. Flour, eggs and butter wasted. This is because the cream of tartar is adulterated or cannot be used in the proper proportions.

Food always sweet and light can be assured only by the use of Royal Baking Powder exclusively. Royal is absolutely pure and healthful and does even work at every baking.

ROYAL BAKING POWDER CO., NEW YORK.

DEAD CANINE ON EXHIBITION

Street-cleaning by the "Dustless Method Does not Appear Very Satisfactory.

An object which has attracted an unusual amount of attention, during the past few weeks has been the remains of a dog, whose spirit passed beyond this vale of tears several weeks since, which has been lying exposed to public view upon Charlotte street near George street.

If the three hundred visiting delegates to the W. M. S. convention were not previously impressed with the beauty of our streets, and of their cleanly and sanitary conditions, surely this view would bear testimony which could scarcely fail to convince them of the alertness of our Board of Health.

The public were for some days deprived of the sight by the thoughtfulness of a citizen who kicked it under a crossing, but the swollen stream in the gutter, accompanying the heavy rain of yesterday, washed it out and left it in a more exposed position than before and where all this morning it lay in all its pristine beauty. That every dog has his day is an oft-quoted adage, but this one appears, in the eyes of the town authorities, to be worthy of immorality.

Many people say that the killing of the cur by a street-car, several weeks ago, was a "dog-gone"shame,—but the dog isn't gone.

ORGANIZE LODGE OF CANADIAN ELKS

A Promising Fraternal Order Form Branch Here.

Last night a meeting was held in the Foresters' Hall, Simcoe street, for the purpose of organizing a lodge of the Canadian Benevolent Protective Order of Elks. Mr. W. R. Colby, the organizer of the Order, who has been here for some time, formed a lodge with 38 members and after a delightful social evening had been spent, the lodge adjourned to meet on Wednesday night next, when the election of officers will take place.

LORD AYLMER VISITS LIFT-LOCK

Enjoyed Drive About Town With Mr. J. H. McLellan.

This morning Lord Aylmer, in company with his old acquaintance and friend, Mr. J. H. McClellan, Superintendent, of the T. V. Canal, visited the Lift Lock, and other points of interest throughout the town.

He expressed his great surprise at the magnitude of the work and spoke of the valuable military service which the Canal would be in case of necessity.

He was also much impressed with the position Peterborough occupies in its splendid facilities of transportation.

From the geographical position and railway and canal facilities the government, will, in the near future, he believes, take advantage of these facilities for the storage of supplies, and possibly for the manufacture of small arms.

The engineers at present engaged in making a chart of the Province for the Militia Department, will probably at an early date make a survey of the canal.

Bleeding, Protruding Piles

Mrs. Jas. Brown, Hintonburgh, Carleton Co., Ont., writes: "I suffered from nearly every form of piles for nearly twenty years, both here and in the old country, and have tried nearly every remedy. I am only doing justice to Dr. Chase's Ointment when I say that I believe it to be the best remedy obtainable for bleeding and protruding piles, of which it has cured me."

Leave in your Bicycle for cleaning and repairing before the rush and have it properly attended to.

LORD AYLMER VISITS REGIMENT

An Official Inspection of the Peterborough Rangers

Is Pleased With Smart Appearance of the Men—The Band Complimented.

Last night Lord Aylmer, Inspector-General of the Canadian Militia, paid his first official visit to Peterborough and inspected the 57th Regiment at drill.

The Inspector-General expressed his satisfaction with the appearance of the regiment and the way in which the drills were carried through.

There was a large turn-out of the regiment, particularly so in view of the fact that the weather was most unpromising, and a good drill was held.

First company drill was held, some of the companies going outside the drill hall for this purpose. Afterwards the colonel called the regiment together and it was formed in columns of companies when the Inspector-General addressed a few words to the men of the regiment. He complimented the colonel upon the smart appearance of the regiment.

He was glad of the opportunity of visiting some of the outside regiments like the 57th and to get into touch with them. He believed that the advantage would be material to the regiment and to the service, since by visiting the different regiments he would be able to find out better their requirements, and he would then be in a position to advise the members of the Military Council by which the Canadian Militia was managed. He referred to the coming visit of the 57th to Ottawa where he hoped to meet them again and expressed the belief that on that occasion when they met other regiments they would do credit to the town and to the Canadian Militia. He was impressed with the good physique of the men in the regiment and their size.

After the drill the officers met in the mess room when a social evening was spent, the band of the regiment rendering a good program of martial airs in the drill hall below. Lord Aylmer paid a high tribute to the band and said that it was one of the very best that he had heard in Canada.

As he was leaving the hall he was given three hearty cheers and a tiger in acknowledgement of which he said he hoped to be able to do the same for the 57th when they visited Ottawa on July 1st next.

The regiment went through the inspection most creditably and created a favorable impression upon the Inspector-General. It is probable that in the short time drill will be held twice a week in preparation for the trip to Ottawa.

"The Man on The Street" and all other men should hear the Lecture by Rev. E. B Lancley, in George Street School Room, Friday Evening, May 9 subject as above. Only 15c or 2 for 25c. 1d

THE THIRD FLEET PASSED SINGAPORE

Nebogatoff's Squadron Now in Waters of China Sea--Is to Join Rojestvensky--Typhoon Does Damage to Russian Warships--Some of the Lighter Vessels Said to Have Been Scattered by the Storm--Japs Deny Reports of Russian Successes in Manchuria..

Singapore, Straits Settlement, May 5.—The Russian naval division passed Singapore in semi-darkness and haze at 5.30 o'clock this morning. Six warships and four colliers were sighted.

This is evidently Vice-Admiral Nebogatoff's squadron, which was passed at 9 o'clock on the morning of May 4 by the British steamer Selangor, off Jugrah, midway between the Island of Penang and Singapore.

Did Not Expel Japanese.

London, May 5.—The correspondent of The Times at Tokio cables:—The Japanese ridicule Linevitch's report of the expulsion of the Japanese from five positions and the occupation of Tunghusiang by the Russians on April 29. The facts are that the Russians effected an entry in one quarter of the town, but quickly retired on the approach of the Japanese, who held the place in considerable force.

Transports Leaving Sevastopol.

The correspondent of The Times at St. Petersburg cables:—Apart from a wild report of Rojestvensky's reaching Vladivostock, the telegrams from Manchuria contain nothing important. The sensational report that Russia has acquired the navies of Chile and Argentina continues to meet with an official denial, but from private sources I learn of several transports leaving Sevastopol for the same destination as the mysterious vessels from Cronstadt.

Damaged By a Typhoon.

Amoy, China, May 5.—A typhoon which swept over the coast of south China this week is said to have damaged the Russian second Pacific squadron considerably. The lighter vessels are said to have scattered. Shipping men expect further delay in the execution of Admiral Rojestvensky's plans as a result of the damage sustained by the squadron.

A Press Boat With a Mission

London, May 5.— The Daily Mail's Hong Kong correspondent says that numerous steamers are constantly plying between Saigon and the Russian warships with full cargoes of provisions and cattle. He adds that it is reported that American and German newspaper correspondents at Shanghai have chartered the steamer Fuschang ostensibly to view the coming naval battle. The vessel, he reports, is flying the French flag, but it is believed she is really Russian property with a mission to locate Vice-Admiral Togo.

ANTI-SEMITIC DISORDERS.

Christians Held Regular Carnival and Plundered the Jews.

St. Petersburg, May 5.—Later news of the anti-Semitic disorders in the Crimea shows that at Melitopol the people set upon the Jews and fought a regular battle with stones and revolvers. The few police and thirty soldiers were powerless. The Christians from noon until midnight held a carnival of pillage and plunder. Every shop except two jewelry stores were sacked. The arrival of M. Trepoff, Governor of Taurida Province, on the following day, restored order.

Seven Slain at Church.

Lods, May 5.—A terrible riot occurred at the Church of the Holy Cross. When a number of Roman Catholics began singing revolutionary songs, a Cossack patrol came up at a gallop and began firing into a crowd of people huddled on the church steps.

SHERIFF TAKES COMMAND.

Swears in 400 Deputies Against the Advice of Mayor Dunne.

Chicago, May 5.—Sheriff Thomas E. Barrett, the chief peace officer of Cook County, in response to an impassioned appeal from more than three hundred leading business concerns of Chicago, has taken command of the forces that will endeavor to stop violence and disorder occasioned by the teamsters' strike. The sheriff at 2 o'clock yesterday afternoon began swearing in deputies. At 9 o'clock last night he had an added force of more than 400. The sheriff's action was taken after a conference with Mayor Dunne, and against the advice and approval of the city's chief executive.

Attempts of the strike leaders today to get the employers to agree to arbitration to settle their differences met with a flat refusal.

Rioting Continues.

There were small riots in various parts of the city during the day, and upwards of a dozen persons were hurt, but the number of casualties and the violence displayed were not as great as that of the preceding days. Shots were fired during an encounter between non-union teamsters and strikers early in the day at the Hub stables, Nineteenth and Dearborn streets, and two men were shot and painfully wounded.

In a riot last night at 18th and Dearborn streets, Thomas McCracken, a striking teamster, was stabbed in the neck and beaten over the head by a colored non-union man. Five coal wagons were attacked at Harrison and Desplaines street last night, one man was shot in the hand, and another was cut about the head. Volleys of stones were hurled, wagons and several policemen and drivers were struck.

FOR UTMOST PUBLICITY.

Telephone Committee's Records Will Be Put Into Print.

Ottawa, May 5.—The Telephone Committee decided yesterday morning to publish the voluminous evidence that has been taken before it with as much of the correspondence as is deemed necessary. When the point was under consideration Sir William Mulock took the ground that it was best to let the public have all the information obtainable on the subject. No evidence was taken yesterday.

The secretary-treasurer of the New Brunswick Telephone Co. was summoned to appear before the committee. The company is allied with the Bell. Three directors are Hon. A. G. Blair, Senator Thompson, and Senator Dandurand.

In response to a circular, recently issued by Sir William Mulock's committee, asking for members' views on the telephone question, D. W. Bole, M. P. for Winnipeg, has written a letter advocating that the Government expropriate the local systems as well as the long-distance lines, on the ground that they alike are a natural monopoly, and etc. best be regulated therefore by the national Government.

It was decided that the examination of C. M. Hays and D. McNicoll should be in the hands of Mr. Chrysler, the committee's counsel.

After that examination the members will be allowed to question the railway magnates. The same arrangement applies to the examination of Mr. Shea, on Tuesday next.

The committee will meet again on Tuesday next.

Two Drown; One Saved.

Utica, May 5.—John McLaughlin, a wealthy contractor, residing at Masena, and John Gleason of Ontario, Canada, a foreman employed by McLaughlin, were drowned near Carthage yesterday. While rowing across the stream to repair a guy wire, the boat hit a cable and was overturned, precipitating both men in the river. John Orr, who was with McLaughlin and Gleason in the boat, grabbed the guy wire and hung in the water until rescued.

THE QUESTION OF A SUBSIDY

Finances of the New Provinces Raise Another Issue.

CHANGE MAY HELP OTHERS

Whole Question of Provincial Subsidies To Be Taken Up — Mr. Fielding's Suggestion — Bill Will Be Gone On With Until Disposed of Before Budget Is Brought Down.

Ottawa, May 5.—Consideration of the financial resolutions in connection with the autonomy bill in committee yesterday led to a revival of the discussion on larger subsidies to the older Provinces, instead of the present arbitrary grant based on population, as fixed in 1861. Sir Wilfrid Laurier said the question would have to be taken up by the Government at an early date. He confessed he was unable to understand the arbitrary amount which had been fixed, and gave the impression that he was favorable to a change. Mr. Fielding suggested increasing the amount per capita, and retaining a limitation on the population to which it was applied. Some progress was made in dealing with the resolution, and it is intended to go on with the bill until disposed of before the budget is brought down. The House records of Wednesday night's vote brought a protest from Mr. McIntyre, who said that as there was no vote on the main motion he who intended opposing it, was placed in a false position. The House was thinly attended yesterday, members being glad to get away after the long strain of the recent debate.

When the Speaker took the chair yesterday afternoon the desk of the late Hon. James Sutherland bore a magnificent floral tribute, composed of lillies, asalias and spirea, a silent tribute of sorrow from his fellows.

Sir Wilfrid Laurier, replying to a question raised several days ago by George Taylor, stated he had made inquiries, and found there was no truth in the rumor that the Armours of Chicago had secured all the space for cattle on vessels sailing from Montreal this season. He gave the details of space still available.

SENATE "PUBLIC HOUSE TRUST."

Hon. Mr. Beique Brings Up Some Temperance Legislation.

Ottawa, May 5.—In the Senate yesterday Hon. Mr. Beique said he desired to draw attention to another disease, a social disease, attacking the comfort of families and preventing progress. He named it intemperance. He moved, in connection with the drink question, that in the opinion of the Senate, the British Gothenburg experiments and the establishment of public house trusts in England have materially advanced the solution of the temperance question, and of the social reform problem, and that the time has arrived, when like experiments should be made and like public house trusts should be established in Canada. After several Senators had expressed views on the subject the debate was adjourned until Wednesday next.

The bill respecting the Canada Atlantic Railway Co., from the Commons, was read the first and second times.

WINNIPEG FOR THE NEXT MEETING

Closing Session of the Women's Foreign Mission Society Convention Held Yesterday.

An Address by Dr. Margaret O'Hara, Late of Dhar, India, on the Work in That Country.

Committee on Votes of Thanks Report—Will go to Winnipeg for Next Meeting.

THE LAST SESSION.

The closing session of the Convention opened at 2 o'clock Thursday afternoon with a somewhat diminished attendance, consequent upon the preparation being made for the departure from town by the delegates. Mrs. Shortreed, the President, occupied the chair at the session. Hymn No. 116 was sung, after which the minutes of the morning meeting were read and confirmed. Another hymn was sung and Mrs. McLean, of Guelph, presented the report of the Nominating Committee giving the list of officers elected, with the members of the Standing Committees:

Executive Committee—The officers of the Society, and Mrs. Hamilton, Miss M. Reid, Miss Clark, Mrs. Donald.

Nominating Committee—Mrs. McMurrich, (Convenor) Toronto; Mrs. W. MacLaren, Toronto; Mrs. G. H. Robinson, Toronto; Miss Smellie, Toronto; Mrs. K. MacLean, Guelph; Mrs. Steele, Dundas; Mrs. MacKay, Winnipeg; Mrs. McEwan, Brandon.

Mrs. McNaughton, of Cobourg, moved a vote of thanks to the members of the Board of Managers for their work during the past year, and for the perfection of the arrangements for the annual meeting.

Mrs. McWain followed with a motion expressing the thanks of the Society to the retiring Secretary, Miss McMurchy.

Address on India.

Dr. Margaret O'Hara, a missionary returned from India, gave a most interesting address. She said that she had been away 14 years and during this time the Lord had been very good to her and it had been a joy and the pleasure to be in the work. At first when she went to India she worked in Indore, and she gave some interesting incidents in connection with the work there.

She went to Dhar, in response to a request, and on the instruction of the council. Dr. O'Hara spoke of the work during the years she had spent there. She referred to the famine and said that during 1900. She had spent £1,000 in relieving the suffering of the people, and she had not had to ask for a cent of it. Eight hundred dollars had been sent from Galt for the erection of a new church. The kindness shown her by the British officers was spoken of and she said that they were practically all missionaries as far as their practical sympathy is concerned. During the famine year a number of children were taken care of in the orphanage.

The work of the medical missionaries was described by the speaker. A leper asylum had been erected in Dhar by a gentleman in Toronto in memory of his wife, and there were at present over 200 patients ready to enter that institution.

While much had been done there was still much to do. Next year a missionary would come home on furlough, and where, she asked, would the woman come from to take her place, and the places of others who would come home the next year?

China Missions.

Mrs. McGillivary, of Shanghai, China, was the next speaker. She referred to the great need of books in China. Unless they were sent from civilized countries they would not have them. She made a plea for more good reading.

Mrs. McGillivary described a Chinese temple, which, while it looked nice in a photograph, was not at all inviting. It was cold and damp and huge images were placed around the walls. It was filled with prayer because they felt the need of something to worship. She told of the natives accepting christianity as the result of the preaching of the missionaries. The converts were not as numerous as they would like, but they were growing, and the money and prayers were not wasted. It was the fault of the Christian people that the heathen did not know of Christ because we do know and should preach it to those less favored.

The missionaries do not need pity, but they should be congratulated upon the privilege of preaching the gospel to the heathen.

Votes of Thanks.

The committee on votes of thanks presented the following report: Your committee desires to move that a hearty vote of thanks be tendered to the members of the Board for the efficient performance of their arduous duties during the past year and regret very much the necessity which caused the recording secretary to retire from her position, and they would recognize the excellent work she had done in the past and trust she may soon be restored to health again. It is resolved that a hearty vote of thanks be given to the session and managers of St. Paul's church and to the organist, soloist and choir who helped so much in our services of praise and to the enjoyment of the meeting. We would move that a hearty vote of thanks be given to McLaren, Mr. Martin, Dr. Gulick and Dr. Torrance for their interesting addresses and also to the lady missionaries for their inspiring addresses and also to thank Dr. McLaren for his kindness in auditing the treasurer's books, and also to the press for their full reports which have been of so much assistance to our delegates, and to the railway companies for their kindness. We would also mention the street car conductors for their exceedingly kind and courteous manner. It is also resolved that a hearty vote of thanks be given to the ladies of Peterborough for their cordial welcome and to the billeting committee for their kindness in meeting the delegates at the station notwithstanding the unfavourable state of the weather, and to all others who have assisted in making the meetings so successful and pleasant, not forgetting the little girls and boys who have made themselves so useful.

The report was adopted.

Mrs. Steele, of Dundas, offered a prayer and a hymn was sung, after which Mrs. Bell, of Napier, gave the closing words. The speaker said that she was sure every visitor was grateful to the ladies of Peterborough for the kind reception they had been given and for what they had done to make their stay pleasant. The convention would remain in the memory of all the delegates and would be an inspiration to them to do more and to be more.

Mrs. McCrae, of Westminster, offered the closing prayer and the meeting closed with the singing of hymn No. 608 "Saviour again to Thy dear name we raise," etc.

THE PLUMBING BYLAW AGAIN

To-night the Bylaw Making the Regulations to be Considered.

Appointment of the Inspector Will Not Be Taken Up Yet.

To-night at the meeting of the Committee of the Whole the vexed question of the plumbing bylaw will be brought up once more, and since the meeting has been called for this special purpose it is quite probable that a decision will be reached on the matter.

The bylaw to be considered to-night is not that appointing the inspector. It is simply to regulate the plumbing work done, and is intended to place all plumbing done from this time forth upon a high level as far as sanitation is concerned.

In the preparation of the bylaw Ald. Mason, in whose charge it has been in conference with Dr. Sheard, of Toronto, who is considered to be one of the best informed men on sanitary plumbing in Canada, and it is believed by Ald. Mason that he now has the bylaw in such shape that if its provisions are lived up to there will be no further complaints on improper plumbing.

The bylaw appointing the inspector will probably be re-introduced in the near future by Ald. Mason, whose first plan was to appoint the inspector first and make the regulation afterwards, but who was unable to accomplish this by the opposition of a majority of the council to this mode of procedure. It is probable that the bylaw introduced by Ald. Mason will be recommended by the Committee to the Council.

ARMY LEADERS COMING TO PETERBOROUGH

A Field Day at the Salvation Army Barracks on Sunday.

Lt.-Colonel and Mrs. Gaskins of Toronto, will conduct special meetings in the Army barracks on Saturday and Sunday next. The Colonel is the General Secretary for Canada and is one of the most able speakers in the army.

His subjects will be as follows:
Sunday, 11 a.m., Anchors.
3 p.m., The Captain's Mistake.
7 p.m., Different Characters.

Mrs. Gaskin will address the Sunday school in the afternoon. All are invited to attend these meetings.

To Discuss the Embargo.

London, May 4.—(C. A. P.)—The Glasgow Telegram says that as a result of interviews with Sir Campbell-Bannerman and the president of the Board of Agriculture, a conference will be held in London on Thursday of next week, composed of representatives of English and Scottish agricultural associations, municipal and harbor boards and chambers of commerce, at which a resolution calling for the removal of the restrictions on the importation of Canadian cattle will be presented.

Women in Our Hospitals

Appalling Increase in the Number of Operations Performed Each Year—How Women May Avoid them.

Going through the hospitals in our large cities one is surprised to find such a large proportion of the patients lying on those snow-white beds women and girls, either awaiting or recovering from serious operations.

Why should this be the case? Simply because they have neglected themselves. Ovarian and womb troubles are certainly on the increase among the women of this country—they creep upon them unawares, but every one of those patients in the hospital beds had plenty of warning in that bearing-down feeling, pain at left or right of the womb, nervous exhaustion, pain in the small of the back, leucorrhœa, dizziness, flatulency, displacements of the womb or irregularities.

When these symptoms show themselves, do not drag along until you are obliged to go to the hospital and submit to an operation—but remember that Lydia E. Pinkham's Vegetable Compound has saved thousands of women from surgical operations

When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhœa, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, bloating (or flatulency), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, they should remember there is one tried and true remedy.

Mrs. Fred Seydel, 412 N. 54th Street, West Philadelphia, Pa., writes:

Dear Mrs. Pinkham:—

"I was in a very serious condition when I wrote to you for advice. I had a serious womb and ovarian trouble and I could not carry a child to maturity, and was advised that an operation was my only hope of recovery. I could not bear to think of going to the hospital, so wrote you for advice. I did as you instructed me and took Lydia E. Pinkham's Vegetable Compound; and I am not only a well woman to-day, but have a beautiful baby girl six months old. I advise all sick and suffering women to write you for advice, as you have done so much for me."

Miss Lillian Martin, Graduate of Training School for Nurses, Brantford, Ont., writes:

Dear Mrs. Pinkham:—

"While we are taught in the training schools through the country to look down upon patent medicines, and while the doctors in the hospitals speak slightingly of them to patients, I have found that they really know different. I have frequently known Physicians to give Lydia E. Pinkham's Vegetable Compound to women suffering with the most serious complications of ovarian troubles, falling of the womb, leucorrhœa and other disorders. They would, as a rule, put it in regular medicine bottles and label it "tonic" or other names, but I knew it was your Compound and have seen them fill it in prescription bottles. Inflammation and ulceration have been relieved and cured in a few weeks by its use, and I feel it but due to you to give Lydia E. Pinkham's Vegetable Compound proper credit."

Lydia E. Pinkham's Vegetable Compound at once removes such troubles. Refuse to buy any other medicine, for you need the best.

Mrs. Pinkham invites all sick women to write her for advice. Her advice and medicine have restored thousands to health. Address, Lynn, Mass.

Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.

THE HEN VERSUS THE INCUBATOR

For The Hatching of Chickens For Profit.

Detailed Directions for Treatment of Young Chicks.

While the artificial incubation of eggs and the artificial rearing of chickens are now in common practice, by far the greater part of the poultry raised throughout the country is hatched and reared by the mother fowl, and we shall, therefore, give first as briefly as may be, a few directions for the management of clucking hens and young chicks, touching further down on artificial methods of rearing.

Sitting hens should be removed from the building or compartment in which the laying stock is kept, in order to keep them free from vermin and to secure quietness and regularity during the period of incubation. The work of moving them is not so likely to leave their new nests when moved at that time. The nest boxes should be from 15 to 18 inches square and six inches deep. Fill the bottom of the boxes with earth rounding up the corners so that the centre will be slightly hollow, and best done after dark, as the hens are cover the earth with straw or chaff. Sometimes nest boxes are lined with tansy, as this plant seems to be useful in keeping the nest free from vermin. If valuable eggs are being set, it is well to try the hen for a day or so on eggs of no special value before putting the good ones under her. Cluckers should be thoroughly dusted with insect powder at the time of setting, then about 10 days later on, and again about the 18th day of incubation. Test the eggs for fertility between the 5th and 9th days. A handy testing lamp is made by tying a piece of black cloth around a lamp or lantern chimney with a hole out through the cloth opposite the blaze. A fertile egg held opposite the hole will appear dark or cloudy, while an infertile egg will be clear.

About 24 to 36 hours after hatching the chicks should be removed from the nest and placed with the hen in a small coop. The style of coop most favored at present is triangular in shape like the letter A, two feet square at the bottom and 22 inches high at the peak, made of matched lumber so as to be waterproof, and provided with a movable board bottom for use early in the season when the ground is wet and cold. The feeding of the chicks is the next point that calls for careful attention. To the ordinary farmer there is, perhaps, no food superior to bread soaked in milk and squeezed dry enough to crumble readily, with a little fine gravel or comercial chicken grit placed within easy access. A mixture of the following grains in the proportion given will also be found a very satisfactory food: Fifteen pounds cracked wheat, 10 pounds cracked corn, 15 pounds pin-head oatmeal, and 5 pounds millett seed, and a rather expensive feed but one which forces chickens along well, is Puritan Chick Feed, an excellent preventive of bowel trouble. For a soft food, equal proportions of bran, shorts and corn meal, with half a measure of meat meal, moistened with milk or water, makes an excellent mixture. Either milk or water may be given for drink, but chickens will grow faster and do better when they can have an abundance of the former. Very young chickens should be fed five times a day, but when seven or eight weeks old the number of feeds can be reduced to three a day. Feed as much at a time as the chickens will clean up rapidly in five minutes.

In artificial incubation the one essential point is a good machine. Judging from our co-operative experiments in running incubators, it does not matter much where the machine is placed so long as there is an abundance of fresh air and no direct draughts. I would suggest that operators follow the manufacturer's directions closely, at any rate for the first two or three hatches. As regards temperature our experiments have shown that a larger proportion of healthy chicks is hatched at a temperature of 101 to 103 degrees than at higher temperatures. Chickens hatched in an incubator are reared in a brooder or with broody hens. They are taken from the incubator in from 24 to 48 hours after hatching, and if they are to be raised artificially, are placed in a brooder at 95 degrees. This temperature should be maintained for the first week and after that reduced five degrees each week. The general care so far as feed and drink is concerned is much the same as for chickens raised with their natural mothers, but some special attention must be given them for the first two or three days to teach the chickens where to go to get warm after coming outside the brooder.

One Came Out After The Other.

Suffered with Boils for Six Months.

Mr. Elie Braizeau, Meadowside Station, Ont., tells of his experience with Boils and

Burdock Blood Bitters.

He says:—"In the Spring of 1899 I was continually troubled with boils—one coming after another for about six months. I suffered terribly, and was in a very bad condition. In August I got a bottle of Burdock Blood Bitters, and began to feel better after taking it. I kept on until I had used five bottles, and can truthfully say that I was cured, and have remained so ever since. I have not had the least sign of a boil."

There is nothing like Burdock Blood Bitters for bad blood, boils, pimples, dyspepsia, indigestion, or any trouble arising from the Stomach, Liver, Bowels or Blood.

Sealed tenders addressed to the undersigned, and endorsed "Tender for Rondeau Breakwaters," will be received at this office until Monday, May 29th, 1905, inclusively, for the construction of two breakwaters at Rondeau, Kent County, Ont., according to a plan and specification to be seen at the office of H. A. Gray, Esq., Resident Engineer, Confederation Life Building, Toronto, J. G. Sing, Esq., Resident Engineer, London Ont., on application to the Postmaster at Rondeau, Ont., and at the Department of Public Works, Ottawa.

Tenders will not be considered unless made on the printed form supplied, and signed with the actual signatures of the tenderers.

An accepted cheque on a chartered bank, payable to the order of the Honourable, the Minister of Public Works, for twelve thousand dollars ($12,000.00) must accompany each tender. The cheque will be forfeited if the party tendering decline the contract or fail to complete the work contracted for, and will be returned in case of non-acceptance of the tender.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED. GELINAS,
Secretary.
Department of Public Works.
Ottawa, April 27th, 1905.

HEAVY VOTE AGAINST FIRE HALL BYLAW

Citizens Declare Against Proposal to Spend $25,000 for Improvements to Fire Department.

Majority Was 128 And Total Vote for Was Only 121—Vote of Ratepayers Was Very Light.

One of the Causes Contributing to This Defeat—Views of Ald Johnston and Fire Chief.

The ratepayers of Peterborough evidently do not want a new fire hall, nor do they want improvements to the present fire-fighting appliances possessed by the town. At any rate, they were not favourable to the bylaw submitted yesterday to provide a new hall, and equip it with a new chemical engine, new steamer, telegraph fire alarm system, ladders and new hose. This is the second time within a year that bylaws having as their object the authorization of the erection of a fire hall, and the improvement of the system, has been defeated by the ratepayers, and, since the provisions in each case were different, the conclusion must be reached that the general plan is one which does not meet with the approval of the ratepaying citizens.

The result of the vote taken yesterday, was as follows:

	For.	Agst.	Maj. Agst.
Sub. Div. 1	12	36	24
Sub. Div. 2	13	23	10
Sub. Div. 3	14	15	1
Sub. Div. 4	13	22	9
Sub. Div. 5	19	30	11
Sub. Div. 6	13	33	20
Sub. Div. 7	21	42	20
Sub. Div. 8	9	19	10
Sub. Div. 9	6	29	23
	121	249	128

It will thus be seen that while the vote polled was very small, that registered against the bylaw was more than double that in favour of it, an indication, evidently that the general trend of public opinion is pretty strongly against the bylaw. The merchants generally took little interest in the voting, and it is rather a significant fact that in no sub-division was there a majority for the bylaw.

Chief Rutherford, of the fire brigade, was seen last night in reference to the vote on the bylaw, and was very much disappointed that the people of Peterborough had not a greater interest in the town than to defeat a bylaw which was calculated to place the fire-fighting appliances of the town in the condition that they should be. The present appliances were a disgrace to the town, and he believed that it might not be long before the ratepayers would see that they had made a mistake in defeating the bylaw. The equipment of the town at the present time, as far as fire-fighting facilities are concerned, are not sufficient to guarantee safety to a village, let alone a town of nearly 15,000 population.

The engine was the first that the Silsby Company, of Seneca Falls, had turned out, and it was thirty-four years old. It could not be depended upon in a time of emergency, while the rest of the equipment was on a par with the engine.

The Chief said that it was quite within the range of probability that within a short time the town would have to establish a paid fire brigade, which would cost about $15,000 a year. It could not be expected that the volunteer brigade would continue to work, when they had nothing to work with.

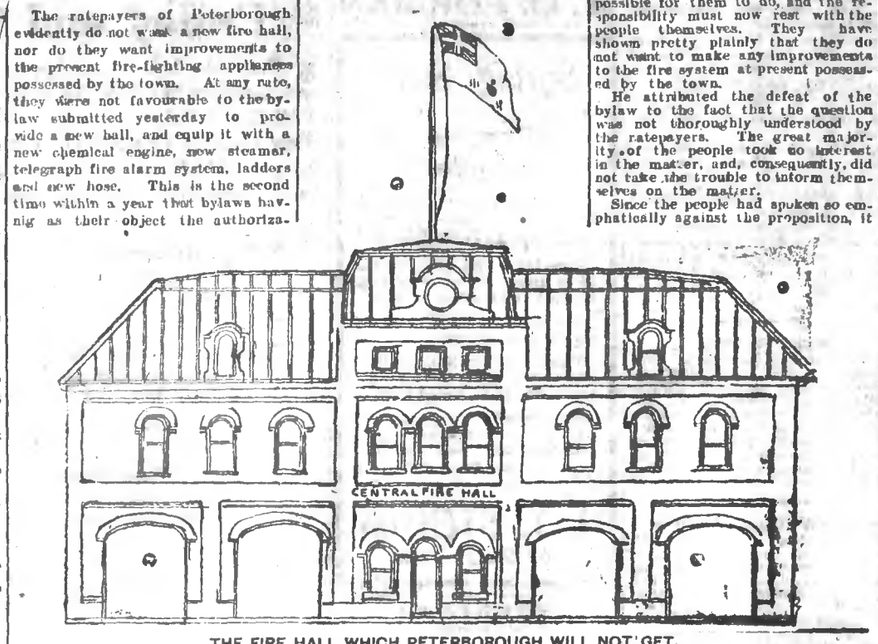
In answer to the statement that the brigade was opposed to the new fire hall proposal, the Chief said that this was not the case, as they were heartily in favour of it, and he himself had been out all day yesterday working for the passage of the bylaw. He was deeply disappointed that the ratepayers had not seen fit to vote in favour of the proposition of the council.

Ald. Johnston, chairman of the Fire, Water and Light Committee, in which capacity he introduced the plan for the improvement in the fire fighting appliances of the town, was interviewed this morning by the Examiner on the result of the voting of yesterday, and said that while the vote polled for bylaw was a disappointment to him, he felt that the council and the committee, of which he is the head, had done all that was possible for them to do, and the responsibility must now rest with the people themselves. They have shown pretty plainly that they do not want to make any improvements to the fire system at present possessed by the town.

He attributed the defeat of the bylaw to the fact that the question was not thoroughly understood by the ratepayers. The great majority of the people took no interest in the matter, and, consequently, did not take the trouble to inform themselves on the matter.

Since the people had spoken so emphatically against the proposition, it was not likely that the matter would be placed before them again for some years, and in the meantime the present fire system, which is totally inadequate, will have to suit the purpose.

Personally, he did not care particularly, but in the interests of the town he regretted that the people had not seen fit to protect themselves to the extent of spending the sum required to place the property of the ratepayers in a safe condition.



THE FIRE HALL WHICH PETERBOROUGH WILL NOT GET.

THE PENALTY OF POPULARITY

Mr. John Everret of Christie, Brown & Co. Presented With a Pipe

By His Friends in Peterborough on Eve of Holiday in Old Country.

Mr. John Everett, the popular travelling representative of Christie, Brown & Company, who has been visiting town in an official capacity for nearly twenty-five years, has made many solid friends and admirers in town especially amongst the patrons of the house he represents. In view of Mr. Everett taking a holiday jaunt to the old country, his friends in town invaded his room at the Oriental hotel last night and captured him by a surprise attack. Mr. F. J. R. Mitchell read the following address and Mr. R. A. Dutton made the accompanying presentation:

Mr. John Everett.

Dear Sir,—Your Peterborough friends, learning of the holiday journey to the Old Land that is before you, take advantage of the occasion to wish you a safe voyage and to testify in a slight manner, the high esteem in which they hold you.

In our business intercourse with you—some of us during the past quarter of a century—our business relations have been of a most agreeable and satisfactory character. You have demonstrated that it is possible at the same time to serve employers efficiently and faithfully, as you have done, and also to extend such kind and considerate treatment to patrons of the House you represent as not only to make business intercourse with you pleasant but also develop pleasant personal relations, which in our case, have ripened into the warm intimacy of friendship.

We congratulate you upon the pleasant holiday before you, which is all the more agreeable because it represents the appreciation by your firm, of your past services, and we assure you that you take with you our warmest regard and best wishes.

In order that we may have some slight share in you holiday, we ask you to accept this pipe and smoking outfit, and hope that as you use them, you will sometimes think of your friends in Peterborough, who join in wishing you and your wife, a pleasant voyage, a happy stay, and a safe return.

F. J. R. MITCHELL,
R. A. DUTTON,
T. H. HOOPER,
J. H. SAVIGNY,
W. H. HAMILTON,
P. CONNAL & SON,

May 4th, 1905.

Mr. Everett was as much surprised as delighted and gracefully expressed his appreciation of the spirit behind the address and his thanks for the gift which he would highly prize in memory of his highly esteemed friends in Peterborough. After the presentation a very pleasant hour was spent in chat and song and story.

Mr. and Mrs. Everett sail for the old country on the Tunisian on June 2nd and the former will make one more business visit to town before his voyage.

—There was no session of the police court this morning, the police having failed to take in any offenders during the night.

Palpitation of the Heart—Nervous Prostration—Cured by Milburn's Heart and Nerve Pills.

They make weak hearts strong. They make shaky nerves firm.

Mr. Ray V. Cormier had a very trying experience while at College; but, thanks to Milburn's Heart and Nerve Pills, he has been restored to health. He tells his experience in the following letter to us:—

"Wellington Station, P.E.I., Dec. 3rd, 1903.
"Messrs. The T. Milburn Co., Limited,
"Toronto, Ontario.
"Gentlemen,—I have been cured of a very troublesome disease, I find it my duty to write you a few lines. I was troubled with a very great palpitation of the heart and nervous prostration. I was attacked with it at College, and could not follow up the course of the University without being overcome with fatigue. I could not descend the stairs without resting half-way. I have left College, and am working in a general store, where I found your famous pills. I used three boxes, and am now completely cured; I cannot thank you enough. You may use this letter for the purpose of benefiting anyone who is suffering as I did. My home is in Sackville, N.B., but at present I am on Prince Edward Island.
"I remain, dear sirs, RAY V. CORMIER."

Milburn's Heart and Nerve Pills, 50 cts. per box, or 3 boxes for $1.25. All dealers, or mailed on receipt of price.

THE T. MILBURN CO., LIMITED,
TORONTO, ONTARIO.

NEW PARK WILL OPEN MAY 24TH

Mr. J. H. Ryan, the Proprietor Has Completed all Arrangements.

Vaudeville Performances Twice Daily During the Season.

Mr. J. H. Ryan, the proprietor of the new park in the south end of the town, at the end of the street car line, arrived in town yesterday, and has already largely completed the plans for the grand opening of the park on May 24th. The plans as outlined by Mr. Ryan, are extremely attractive. Peterborough pleasure seekers will, during the summer months, be able to avail themselves of this resort as a promising source of recreation and amusement.

The opening on May 24th will be of a gigantic nature. A number of high class attractions have been booked especially for this occasion. Among these will be Irwin's Troupe of Trained Dogs, one of who does a leap of 50 feet from a tower. Another will be the Beasleys, acrobatic and musical artists. A number of amusing competitions for prizes will also be presented.

Throughout the summer the park, which will be known as the Peterborough Pleasure Park, will remain constantly open, with vaudeville performances twice daily, afternoon and evening, at which the attractions will, of course, be of a varied character. An orchestra has also been provided for. These will be held in a large tent, 50 x 100 feet, with good seating accommodation. Another tent, 30 x 40 feet in size, will contain electric slot machines of various kinds, as well as candy floss machines. All legitimate amusements such as ball throwing, etc., gypsy camps and other novelties, will also be installed, space for these being now rented. A Ferris wheel and a miniature railway will also be placed in position before the season is over in all probability.

The attractions in short, Mr. Ryan claims will be as complete as those to be found at any park of the kind in America. It will be open for use free to excursions and picnic parties, though a moderate charge will of course be made to witness the performances. Prices will be announced on the posters, which will be issued in the course of a few days.

SPRING TONIC

If you are afflicted with that tired, languid feeling, from impure blood, sluggish liver or weak kidneys,

Madill's Sarsaparilla Compound

is the remedy. No better Spring Medicine. Made and sold only by

ILLNESS OF LONG DURATION

Death Came Yesterday to Mrs. Elias Thompson.

The death occurred yesterday at four o'clock, of Esther Jane Parnell, wife of the late Elias Thompson, and daughter of the late Richard Parnell, at 300 Simcoe street.

The deceased was born in Norwood, on the 13th of March, 1841, and was married in 1858. Her husband predeceased her three years ago.

There are left to mourn her loss, five children — Richard H., of Warsaw; Herbert of town; Arthur of town; Mrs. A. E. McKee of Smith; and Miss Birdie of town. One brother, Mr. Martin Parnell, and three sisters, Mrs. A. Sperry, and Mrs. Turner, of town, and Mrs. Chambers of Montreal, survive.

The late Mrs. Thompson was held in high esteem by a large circle of friends, and lived with a deep devotion by her family and intimate friends. All through her long illness she bore up with Christian fortitude.

The funeral will take place on Saturday afternoon at 3.30 o'clock to the Little Lake Cemetery.

MISS ANNIE RITCHIE DIES IN BUFFALO

Peterborough Young Lady Goes to That City on Visit.

Word has been received that Miss Annie Ritchie, eldest daughter of Mr. Geo. Ritchie McDonel street, died in Buffalo yesterday. The body was brought home yesterday on the evening C. P. R. train from Toronto. Miss Ritchie went to Buffalo two or three months ago on a visit and death overtook her there. No particulars have yet been received by the family.

The funeral arrangements are as yet, undecided but will probably be on Sunday.

THE AUTOMONY BILL..

The result of the vote in the second reading of the Northwest Autonomy Bill has been the largest majority, perhaps, ever given in the House of Commons on a matter of capital controversial importance. The vote was large though there were some absentees, and more were absent on the Liberal than on the Conservative side, so that for some Liberals pairs could not be arranged. The chief effect of the vote—though the bill may be modified in some matters of detail in its passage through committee and on its third reading—will be to provide for making permanent the system of national schools now in existence in the Northwest, in the condition into which these territories themselves have legislated them. They are, no one will deny, practically national schools, under full Government control, and provide for religious teaching only between the hours of half past three and four. Of course, there will be, as there has been, a great deal of bluster about the invasion of provincial rights and the coercion of the territories, but that cannot be regarded very seriously by the territories affected since there has come no decided protest from that quarter. Hon. Mr. Oliver, the new Minister of the Interior, was elected by acclamation and on the vote for the second reading the Dominion representatives from the Northwest voted, nearly two to one, in favour of the amended clauses of the bill, perpetuating the present system of practically national schools. The great furore of excitement raised has not had its origin, so much in a desire to maintain the great principle of Provincial rights, which, by the way, has not, in fact, been invaded, but to stir up strife with the object of making party capital. When the excitement has passed away, and the sober second thought of the people is concentrated on the bill, the legislation it provides and the real meaning and effect of it, it will be found that provincial rights have not been assailed nor an injurious school system been fixed upon the territories. Only the school system which they themselves made in substitution for the system of separate schools established by the Dominion Legislature of 1875.

FIRE HALL BYLAW.

At first blush the decisive defeat administered yesterday to what is commonly designated the fire hall bylaw is a matter of surprise, for there is no manner of doubt that the fire equipment of Peterborough is generally out of date and not of a satisfactory efficiency. But the result is no surprise when one considers some of the influences that determined the vote of many of the ratepayers, who cast an adverse ballot.

The opposition seems to have been pretty generally distributed. In no single ward of the town was there a majority in favour of the bylaw. Number One ward gave the largest majority against it, closely followed by number Five, while the business ward, number Two, the section primarily most interested, gave a majority of ten in opposition to the bylaw.

There is a variety of reasons why the bylaw was opposed apart from its merits, for the merits of the proposition, while in some cases appreciated, were not sufficient to overcome other objections. The Examiner is advised that two substantial citizens who in the morning intended to support the bylaw, when the news came from Toronto of the incident before the Public Accounts Committee matter in relation to the City Incorporation Bill, decided that in view of the attitude of the head of the corporation, the fire hall bylaw if passed might be subjected to some treatment that would neutralize its intention, they would not support the fire bylaw.

Many ratepayers who were in favour of the bill justified their vote against it on the grounds that would be thus expressing their want of confidence in the council, which "didn't seem to know its own mind" as demonstrated by their action in rescinding the plumbing bylaw and discharging the inspector at the next meeting after it was passed and be appointed. Others claim to have been influenced by the idea that getting the popular vote on a question would be a useless formality since the people voted last January for payment for walks by general tax by a large majority—161—and the council defied the people and refused to include this item in the Peterborough Bill for ratification.

Others there were who took the view, that no matter what improvements Peterborough, and other towns of its size, made in their fire equipment, no matter what cost might be incurred, the insurance people would continue to purse the alleged policy of fixing the rate, so that towns and minor cities would be made to help pay the losses from big fires in big cities.

Other ratepayers took the view that the sum wanted was insufficient to provide for two fire stations which were needed in different parts of the town, owing to its rapid expansion, and their votes went down against the bylaw.

Add to all these and many others who were influenced by different motives, the ratepayers who are on principle bound to vote against money bylaws, we have the defeat of the bylaw amply accounted for.

Quoting these reasons is not saying that they justified the course taken by the ratepayers, who, however, had a perfect right to express their opinion. It is unfortunate that the people showed so decided an inclination against the principle of providing better fire appliances. No one will deny that they are badly needed. It now remains for the aldermen to make the best of the situation and find a remedy. It's an easy matter to administer things which will almost run themselves, but civic statesmanship is shown in overcoming difficulties.

—A law suit is in progress in the United States, which illustrates the beauty of invoking the law to settle disputes which a little common sense and common judgment would easily dispose of. Fifteen years ago two neighbours went to law over a cow, worth $30. The case has dragged on ever since, and, including lawyers' fees, etc., has cost $25,000, while the unoffending cow has been dead a dozen years. The so far unsuccessful litigant says he will carry the case to the Supreme Court.

The Votes of Thanks Committee of the Presbyterian Women's Convention, in distributing their gratitude, included the conductors of the street cars for their kindness. In one sense, such an expression of thanks is superfluous, because it is the duty of all employees of a corporation, having relations to the public, to be courteous, kind and polite. But all such employees are not so distinguished, and that the ladies should have found our street car conductors worthy of praise, is a pleasant thing, and further commends the present efficiently conducted railway service to the public patronage. In all the relations of life, employees, whether in shop, office, or street or railway work, owe a duty to the patrons. They are public servants and as such owe a duty to the public. If that duty is performed pleasantly, politely and effectively these servants are doing the best service, not only to the public, but to those who employ them.

THE DEATH OF MR. SUTHERLAND

With the deepest and most sincere regret the news was received Wednesday afternoon that the Hon. James Sutherland had succumbed to the lingering illness from which he had suffered for many months.

The announcement of the passing away of the veteran Parliamentarian was made simultaneously in both Houses of Parliament, and in both the members were deeply moved.

In his own family circle the end was not unexpected, but here among his ministerial colleagues and the older members of the House the hope was indulged that the Minister of Public Works might again be in his place.

It was not to be.

The effect of the news upon the House of Commons was profound. For more than twenty years Mr. Sutherland has been a familiar figure in the chamber, and few have been more highly esteemed. Others there might be with more commanding talents, but none who possessed finer traits or more sterling qualities.

His great popularity, his genial disposition, his frank and hearty word and laugh, his sturdy self assertion and warm chivalrous nature were always obvious—always appreciated wherever he was known.

"The truest friend I ever had," was the tribute that fell from Sir Wilfrid Laurier as with faltering accents and voice that could hardly find utterance—so deep was the emotion—as he made the sad announcement.

And the steadfastness of his friendship was a quality that none who knew Mr. Sutherland would question.

To the country and to his party Mr. Sutherland rendered long and faithful service.

As Liberal whip, both in the days when the party was in opposition and in other days when it reached prosperity and power, he was unflinching in his adherence to duty and unsparing in the personal sacrifices he made.

To his executive ability Mr. Borden bore testimony in the brief, but expressive words in which he conveyed, on behalf of the Opposition, his sense of the loss that the House had sustained.

In the Senate too, which immediately adjourned as a tribute of respect to the deceased minister, fitting references were made by Mr. Scott, Sir Mackenzie Bowell and Sir Richard Cartwright—references that gave adequate expression to the general sorrow that is felt in the two Houses.—Ottawa Free Press.

FOWLER' CORNERS.

(From our own Correspondent)

Fowler's Corners, May 2nd.—Many of the farmers around here are through seeding.

The main street of the village has received a cleaning which has added greatly to its appearance.

Mr. Robt. Deyell is busy working at his new house.

Mr. Robt. Nurse has purchased a new gasoline engine, which he expects will give better satisfaction than his wind engine.

Mr. Samuel Deyell spent Sunday with his brother here.

Mr. John Lintick spent Sunday with friends in Emily.

The people around here are not sorry to learn of the departure of a band of Bulgarians, who have infested this neighborhood for the past fortnight.

Miss Maggie McCarrel has been spending a few days visiting with Miss Pearl Darling.

Mr. W. J. Irwin has purchased a new rubber-tired buggy from Mr. R. Nurse.

Mr. B. J. Tully has purchased a new windmill, which will no doubt lessen the labour in his barns.

Mr. and Mrs. John Darling spent Easter with friends at Fenelon Falls.

A new football has been seen in the village lately, and no doubt the young men are contemplating a climb up the ladder of fame.

Helpless as a Baby.

South American Rheumatic Cure strikes the root of the ailment and strikes it quick. R. W. Wright, 10 Daniel street, Brockville, Ont., for twelve years a great sufferer from rheumatism, couldn't wash himself, feed himself or dress himself. After using six bottles he was able to go to work, and says: "I think pain has left me forever." 25

An Excellent Concert Arranged.

The noted bass soloist, Mr. H. Wharlow Bull, London, Eng., sings in Fifth Ward Hall, assisted by others in instrumental music and recitations, Monday, May 15th. Tickets 25c. Comments of English papers:—"Excellent," "Sonorous" and "Powerful bass voice." "Manly voice" of "rich tone and power" and "singularly effective." He "merited the hearty and delighted applause received."

A Desirable Change

Gentlemen who are bald.—A great many think it is impossible to replace their former growth; these thoughts would be at once expelled from their minds should they see and investigate the Art Hair Coverings manufactured by Prof. Dorenwend, whose skill in this line is world-renowned. Over 30,000 wear his Art Productions. They are featherweight securely adjusted, durable, and a great protection to the head against cold, catarrh and other ailments, and give a much younger appearance.

He is at the Oriental Hotel, Peterborough, on Friday, May 19th. Don't miss seeing his goods.

Two Strikes and Bases Full.

May is the opening month for out door amusements. The Peterborough Bookstore is ready with supplies of spring and summer sporting goods of the best guaranteed class. Also hammocks from 65c. to $5.00; croquet 4-ball, 6-ball and 8-ball, in best equipments. We carry the finest lines of children's vehicles. A. H. Stratton & Co.

Cressman's

MAYOR BEST GIVES REASON FOR ACTION

Tells Why He Opposed The City Incorporation—Admits His Mistake in Not Telling Council His Position Before He Went to Toronto—Re-Affirms His Opinion That Two Thirds of People Are in Opposition to Incorporation—Offers to Pay Cost of Election if a Vote Does Not Show This—Says His Opposition Was Not What Influenced Committee in Deferring Action on The Bill.

"I admit that I may have made a mistake in not having said to the council on Tuesday night that when I went up to Toronto in connection with the town's bill, I would go an an independent citizen." In these words Mayor Best explained and justified his action in opposing the application of the town for city incorporation on Wednesday before the Private Bills committee.

He repudiated the statement that he had gone to Toronto pledged to support the bill and said that he had to swallow his own private conviction and become simply the mouthpiece of the council or give expression to the opinion held by himself, and which he did not feel that he could ignore.

The Mayor went fully into the question of the introduction of the Bill and said that he did not go to Toronto to oppose the incorporation and would not have addressed the committee in the matter at all had not Mr. Bradburn asked Mr. Morrison, of Toronto, a member of the committee, to make a motion requesting him to speak. It was up to him then to express his own opinion or to swallow himself and give the views of the council. He chose the former course and in answer to the statement that he had been sent son, of Trenton, a member of the town he said that he had paid for his railway fare out of his own pocket as he had his hotel bill and other expenses, and the town would not be asked to return it to him. When he had been asked to state his views he had given the history of the movement looking towards city incorporation. He referred to the fact that last year Ald. Morrison had introduced a motion providing that the vote of the people should be taken on the question on Jan. 1st. This was defeated in the council and early in this year it had been decided to add the clause to the Bill which was to come up in the Legislature.

He had opposed this at the time, on the ground that the people should have been allowed to express an opinion on the question. When the petition had been presented to the council on Tuesday night, it was stated by one of the aldermen that the opposition was from the hotel men. The Mayor stated all these facts to the committee, and said that he was satisfied that two-thirds of the people of the town were opposed to being made into a city at present.

Mr. Matthews, who spoke next, was asked by the chairman as to his position on the city incorporation, and he replied that he thought that the Mayor had exaggerated the number of people opposed to incorporation.

The discussion on the bill proceeded until the clauses referring to the aid to the Shovel Company and Cereal Company were reached, when the chairman stopped short, according to the Mayor, and said that these were a violation of the law, and practically constituted a bonus.

The chairman then suggested that the bill be left over until next Tuesday, when it would be considered again.

The Mayor declares that it was not his opposition to the Bill which caused this postponement but the fact that the Committee considered the two clauses referring to the companies mentioned a violation of the law.

His Worship said that he was prepared to back up his statements, and if a vote of the people were taken, and his position were not sustained, he would pay the cost of taking the vote. He believed that he had acted in the interests of the ratepayers, instead of the council, and if the people were not satisfied with his position he was prepared to step out of office.

timber, they would always be responsible to the lumbermen to afford facilities for getting the timber out. But anything done by the Dominion Government in the way of repairs, payment of salaries, and other money spent upon dams, would be just so much money saved by the Ontario Government, and if, as was provided by the papers, the Dominion Government covenanted to keep these dams in repair for all time to come, the bargain was an excellent one for the Ontario Government and should be closed at once, in order that an item might be placed in the estimates at Ottawa for preliminary work.

The claims of the lumbermen were presented in an able manner by Mr. J. O. Shook, who was warmly congratulated upon the concise manner in which he stated the case.

Mr. Rathbun of Deseronto, supported Mr. Shook and adopted his argument.

Mr. W. H. Moore, presented the views of the Peterborough Water Commissioners and pointed out that they had $300,000 invested in a power house, dam and mains, and the only means that they had of procuring water for the town both for domestic use and for fire protection was by utilizing the power derived from the river. It was therefore very essential that there should be an even flow of water. Last spring there were three feet of water flowing over the dam, and before the summer was over it was three feet below the apex, and the danger point in the sufficiency of power was almost reached. If the power should fail from any cause, the town would be without fire protection or domestic water supply, since there was no auxiliary steam plant.

Mr. William Irwin was able to answer many of the minister's questions with regard to the dams on the Gull River, with which he is familiar.

Mr. D. Hughes Charles, president of the Board of Trade, presented the views of the Board, in an argumentative speech, setting forth the claims of the manufacturers.

The Ministers made brief replies, stating that they had been much impressed by the arguments, and expressed a strong hope that the wishes of the deputation may be granted.

Bleeding, Protruding Piles

Mrs. Jas. Brown, Hintonburgh, Carleton Co., Ont., writes: "I suffered from nearly every form of piles for nearly twenty years, both here and in the old country, and have tried nearly every remedy. I am only doing justice to Dr. Chase's Ointment when I say that I believe it to be the best remedy obtainable for bleeding and protruding piles, of which it has cured me."

Clark's Dainty Morsels.

DR. REAUME PROMISES "SOMETHING WILL DROP"

Gives Favourable Answer to Deputation Asking For Transfer of Dams And Reservoirs to Dominion Government---An Influential Representation Waits on Commissioner of Public Works---Strong Reasons Why Transfer Should be Made are Presented---Belief That The Request Will be Granted.

A large deputation yesterday waited upon Hon. Dr. Reaume, Com. of Public Works, urging that the control of dams of the Trent Valley Canal be transferred to the Dominion Government. The following Peterborough bodies were represented: Town Commissioners, Water Commissioners, Town Trust Commissioners, Trent Valley Waterway Association, the Power Co. and manufacturing establishments. Gentlemen from Lakefield, Campbellford and Trenton were also present.

Amongst those on the deputation were Mayor Best, Ald. Hall, Ald. McIntyre, D. Hughes Charles, President of Board of Trade; Dr. Morrison, Wm. Irwin, R. M. Dennistoun, T. H. G. Denne, J. H. Larmouth, J. C. Shook, W. H. Moore, R. B. Rogers, A. McDonald and Mr. Rathburn, of Deseronto.

The deputation was received in the council chamber of the Legislative Assembly by Hon. Dr. Reaume and Hon. Dr. Willoughby, and were introduced by Mr. T. E. Bradburn, M. P. P.

Mr. R. M. Dennistoun was the first speaker. He pointed out to the ministers the importance to the towns in the Trent Valley of the early completion of the canal and stated that Sir Wilfrid Laurier and Hon. R. L. Borden had definitely committed their respective parties to the construction of the canal on a public platform in Peterborough on November last, so that this question was removed from the domain of party politics.

He referred also to the construction of the New Erie Canal at a cost of $101,000,000, work upon which was commenced last month and pointed out that the early completion of the Trent Valley Canal, in order to retain for Canadian waters the grain carrying trade which they now have. The speaker also touched upon the value of canals in adjusting freight rates and showed how the Trent District was discriminated against by the railways. Quaker Oats made in the Western States had been passing through Peterborough on the way to the sea board, while Canadian mills were shut down by reason of prohibitory freight rates.

The first step towards the further development of this chain of waters is to regulate the flow so that the spring freshets may be retained for use in the winter and autumn seasons. There are many dams throughout the North Country, probably fifty or sixty in number, which were built by the Ontario Government for the purpose of assisting the lumbermen in getting out their logs. Many of these dams are now out of repair and no longer of service for this purpose. The others are used by lumbermen for the purpose of flushing the logs out in the spring. They are neglected, until it is necessary to take out the logs a year later. It was now proposed that all these dams should be transferred to the Dominion Government, and placed under the control of Dominion officials, who would see to it that the stop logs were placed in the dams soon as the lumbermen had gone out in the spring, so that the water might be conserved for even distribution throughout the balance of the year.

The interests of the lumbermen, it was urged, should be careful'y proed, and it was pointed out that as the Ontario Government had sold the

MR. CARSCALLEN WAS SET RIGHT

Mr. W. H. Moore Explained the Situation on City Incorporation

Matter is now Viewed in a Different Light by the Chairman of Private Bills Committee.

Yesterday morning in the rooms of the chairman of the Private Bills Committe in Toronto the question of the Peterborough Bill was again discussed before the chairman of that committee, Mr. Carscallen.

After the deputation had waited upon Hon. Dr. Reume, on the conservation of the watsr. Mr. Bradburn took a number of the Peterborough gentlemen into Mr. Carscallen's quarters in order that he might learn more of the feeling of the town upon the bill. The member for West Peterborough opened the discussion by remarking to the chairman that he had experienced some little trouble in connection with the bill, and said that he had taken advantage of the presence in the city of the members of the deputation to present them to the chairman and have them express their views on the question.

Mr. W. H. Moore, who is a personal friend of Mr. Carscallen, was asked by him for his opinion, and he explained the circumstances, pointing out the fact that on Tuesday night the Council had met, and there was an attendance of practically the whole council, and it was decided unanimously that the position taken by the council in asking for the passing of the bill should be asked for.

Every member of the council present expressed his opinion on the question, and the decision was unanimous that since the matter had gone this far the council should not recede from its position, and in this connection the Mayor was commissioned to go to Toronto the next day and ask that the bill be passed.

It was a great surprise to Mr. Carscallen to learn that the council had declared themselves in this way, and he said that from the Mayor's remarks he had gained the impression that the council was not in favour of the bill. He questioned the Mayor, who was in the room, as to the truth of Mr. Moore's presentation of the case and the former admitted that it was right, but reaffirmed his personal opposition to the city incorporation features of the bill.

It is said that Mr. Moore's explanation of the case had a decided effect on the chairman of the Committee and it is believed that when the bill comes up next Tuesday the position taken by the chairman on Wednesday will be reversed.

It appears that there was some opposition to the clause authorizing the Water Commissioners to take the entire surplus until the sum reached $50,000, but Mr. Moore explained the position of the Commissioners on this point, stating that in the near future $80,000 to $100,000 would have to be spent in erecting a new dam, and $20,000 was being spent now in laying new mains; the latter sum being voted by the ratepayers. It was pointed out that if the whole surplus had in the past gone to the waterworks department there would have been enough to pay the cost of these new mains, without having to issue debentures.

In view of this explanation, it is not considered by those who should know, probable that there will be any opposition to this clause now.

HAIR TELLS CHARACTER.

Colour of Hair Said to Indicate a Person's Temprant.

Many people believe that blonde or light hair denotes affection and dark hair constancy. A person without hair is not devoid of character; far from it. The disposition of the average bald-headed man is to show much solicitude for the welfare of others that he neglects himself. A germ causes baldness. Prof. Sabouraud of Paris, France, inoculcated a rabbit with Dandruff germs, causing it to become totally bald in five weeks' time. To rid the scalp of these dangerous germs it is necessary to apply Newbro's Herpicide.

"Destroy the cause—you remove the effect."

Sold by leading druggists. Send 10c. in stamps for sample to the Herpicide Co., Detroit, Mich. Ormond & Walsh, special agents.

The Semi-ready frock coat is a masterpiece of sartorial art

The frock coat gives the designer more scope to show his skill and taste than any other garment.

That is why the tailor, who makes about five or six frock coats in a year and gets his ideas from a fashion plate, misses the essential points that mean style.

The lines of the Semi-ready frock coat are carefully thought out by an expert designer.

This year the Semi-ready frock coat differs but slightly from last year's model. The lapels are heavier with a slightly convex crease. The shoulders are a little broader and of natural shape, avoiding the built-up effect.

They are close-fitting at the waist, large-chested, and with considerable bell to the skirt.

A frock coat is like a dress coat—every line must be right or it is noticeably incorrect.

The Semi-ready frock coat is the essence of style—try one on and see. Prices, $20, $25, $30.

MEDICAL HEALTH OFFICER SPEAKS

Points Out That the Sanitary Condition of the Town is Satisfactory

Strangers Think We Are The Healthiest Town in Canada.

To the Editor of the Examiner:

Dear Sir—Will you kindly permit a few words of explanation in reference to an article which appeared in the Examiner yesterday reflecting on the health authorities of the town, and on the sanitary condition of the town at present. I am in a position to state that the town was never in a healthier condition and was never more free from infectious diseases than at the present time. There is not a card up in the corporation, and only a few have been needed since the first of January last. It is only fair to add that the sanitary inspector and health officer investigate and remedy if possible, every unsanitary condition brought to their notice. They could do no more if the Board should meet every day. It is well to bear in mind too that at the close of winter every year, all back yards and lanes are in an untidy condition and this state of things cannot be remedied before the early part of May, when the ice under heaps of rubbish has disappeared.

During the present week a police officer is out every day serving a paper on every householder in town with instructions to clean up and to put their premises in the very best sanitary condition without unnecessary delay.

It may be noticed that a scavenger is paid for removing dead dogs and cats found any place in the town, and that officer seldom neglects his duty. The deceased dog on Charlotte street was kicked under a crossing. The professor was unable to locate him and he might have remained there until the crack of doom, if the Examiner had not turned the X rays on him. Strangers from all parts are flocking in here every day and they can rest assured that Peterborough is the healthiest town in Canada.

Thanking you in advance, I remain,
Yours truly
J. BINGHAM
M. H. O.

TIME TABLE

Trent Valley Navigation Company Limited.

In another columns will be seen the time table of the Trent Valley Navigation Company Limited, for the steamer Manita sailing between Bobcaygeon and Sturgeon Point, until the 20th of May. The Boat calls at all intermediate landings on signal, and, although early in the season, will no doubt receive considerable freight and traffic.

Newspaper Advertising.

The Louisville Courier-Journal offered five prizes for the best suggestions for advertising the city. The theory has lately been advanced, and with a measure of acceptance, that a city needs to be advertised as much a business does. The judges decided that the most effective plan proposed was the raising of a sufficient amount of money to advertise the city's advantages in the leading newspapers published in the territory from which the city expects to draw trade and population, followed up by advertising in the leading journals of the country. All the proposals had reference to some form of newspaper advertising.

A Million Dollar Convent.

Montreal, May 5.—Plans for what will be the biggest and best equipped convent building in North America were filed yesterday morning at the City Hall by the Sisters of the Notre Dame Congregation for approval. The new building will be situated on Sherbrooke street; it will be 570 feet long by 50 deep, and will cover 57,410 square feet, and will be five storeys high. The building will cost over a million and a half, exclusive of equipment.

BASEBALL.

Everything is in shape for the game on Saturday afternoon at 2 o'clock, sharp, between the Peterboroughs and the Sherbournes, of Toronto. A fast game may be looked for. Weeks, who caught for Bowmanville last year in the Midland League, is the mainstay behind the bat for the visitors and Rattan will do the slab work. Peterborough will appear in their new uniforms following our hockey team in colour, blue and white. The following will line up for Peterborough:—J. Pilling, Sheridan, Capt. Stayne, Shea, Torrance, Wareham Connors, Simpson, Fitzpatrick, Gillespie. The game will be played on the T. A. S. grounds.

Two games will most likely be played with Lindsay next week, Peterborough playing in Lindsay on Wednesday and Lindsay here on Friday at 5 o'clock.

• • • •

Rumour has it this morning that Fred. Clarke is slated to do the slab work for St. John's this year. This gentleman is an artists in that line of recognised ability and has not only one but several dozen kinds of spit balls.

• • • •

The Auburns had their first full turn out of the season last evening. The following players were in uniform:—W. Shaw G. Weatherstone, E. Bellegham, H. Sleeg Jas. Rutherford, D. McCorry, P. Weatherstone, M. Shaw, W. Tougas, R. Weatherstone, J. Flaherty, W. Weatherstone F. Brown. Messrs. Hartley and Kaufmann directors of the club were present and expressed their opinions on the large turnout and enthusiasm of the players.

It was decided at a meeting held on the oval to have the ball-throwing contest one week from next Saturday 13th May when it is hoped there will be representatives from all the teams in the town. Ever so many names are already on the list at present. The team is trying to arrange a game with Midland for 24th May.

• • • •

There will be no practice to-night of the St. John's baseball team on account of the wet condition of the grounds. The manager, however, calls a practice for next Wednesday night for sure and requests everybody out. Practice will be held regularly now till the season opens, probably about June 1st.

St. John's Young Men's Guild baseball team will hold a concert on Friday, May 19th. Arrangements have not yet been completed but everything promises a most interesting evening. The best local talent will be engaged and the concert will be one of the events of the season.

• • • •

Charlotte street baseball team had the most successful practice last night of the season, and the management is very well pleased with the showing. About 15 players were in uniform and for an hour or so last evening gave out some pretty fast ball. Manager McWilliams stated this morning that a series of games would be played—three a week or so—to ascertain the playing qualities of the men signed, as there are 25 of them he could without difficulty pick out two nines. He also said that the batting, base-running and fielding percentage of each man would be booked and the men who would catch places in the first team would get there strictly on their merits. As it will be some time yet before the regular games start these practice games will do the fellows a lot of good.

• • • •

The line-up for the team to-morrow afternoon with the Shelburnes of Toronto, will be: Pilling 1b, Sheridan 2b, (capt.), Shea ss, Stayner 3b, Connors, Wareham, Simpson, Fitzpatrick, fielders; McCabe, Douglas, Parker, pitchers; Torrance, Gillespie, Rogers, catchers.

Strong Partnership

When in need of liquid oxygen for the speedy removal of any internal germs, ask your druggist for the "solution of Ozone (the coupon kind)". With each bottle is given free a package of "Celery King" a popular tonic laxative needed to cleanse the system after the stringent effect of the concentrated Ozone. We have the sole right to manufacture "Celery King" and thus are able to include with every bottle of "Solution of Ozone" a coupon good for a free package of the famous laxative which is essential to the best results in the use of Ozone. Both products manufactured by the Public Drug Co., Bridgeburg, Ont. Sold by W. B. WARNE, Druggist 7

BOWLING-ON-THE-GREEN.

London, May 4th. — Mr. W. Stonehewer, honorary secretary of the English Bowling Association, said in an interview with the Canadian Associated Press to-day with reference to an invitation of the Canadian Bowling Association to send an English team to Canada, that there is no British Bowling Association, but the English, Scotch, Irish and Welsh Associations all work together. If they are invited to send a team, he feels sure the proposal would be received with much enthusiasm. He does not think it would be possible, however, unless these teams are approached direct. So far as his association is concerned nothing has been heard of a Canadian invitation.

CURLING.

The handsome Kendry Cup emblematic of the local championship is now on view in the window of Mr. J. McClung Hunter street. It has been to a jeweler shop and has gone through the customary house-cleaning and looks remarkably handsome. It takes the form of a smoking set. Although mounted at the time of the championship final it might be said that Mr. Fred. Dixon was the skip in the rink that won out.

FOOTBALL.

To-morrow afternoon the Wanderers will go to Norood to play a game with the team representing that town.

• • • •

Business College and the Quakers will hold a practice to-morrow afternoon at 3 o'clock, at the Exhibition Grounds.

TO CURE A COLD IN ONE DAY
Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box, 25c.

Bought Stolen Furs.

Montreal, May 5.—Abraham Fred, who was found guilty on two charges of buying several thousand dollars' worth of stolen furs, was yesterday morning sentenced to two terms of three months' imprisonment, the sentences to run concurrently. Much surprise was evinced at the lightness of the sentence.

Death of James Harper.

Montreal, May 5.—One of the best-known figures in local newspaper circles passed away yesterday, James Harper, late city editor of The Montreal Daily Witness. Mr. Harper was in journalism for over a quarter of a century.

Montreal's New Bishop.

Montreal, May 4.—The consecration of Mgr. Racicot as coadjutor bishop of the diocese of Montreal took place in St. James' Cathedral yesterday, and was one of the most imposing religious ceremonies held here for some time. The new bishop was consecrated by Archbishop Bruchesi, and was assisted by Archbishop Langevin of St. Boniface, who is his nephew, and Bishop Emard of Valleyfield, a classmate. Mgr. Racicot is the first coadjutor bishop ever named in this diocese.

CATTLE MARKETS.

Cables Unchanged—Hogs Advance 10c Further at Chicago.

London, May 4.—Cattle are quoted at 11½c to 12¾c per lb.; refrigerator beef, 9c to 9½c per lb.; sheep, 14c to 15½c per lb.

TORONTO LIVE STOCK.

Receipts of live stock, as reported by the two railways, amounted all told since Tuesday, to 221 car loads, composed of 1788 cattle, 2882 hogs, 250 sheep and lambs, and 425 veal calves.

The quality of fat cattle was much the same as it has been for several weeks past.

Trade was about the same as on Tuesday unless it was that the common butchers'.

On account of the boats being slow to reach Montreal, many of the export dealers have a large number of cattle in the yards here awaiting shipment. This fact caused business to be a little slower for shipping cattle, but prices for the best were about the same. Prices ranged from $5.50 to $5.90, the bulk going at $5.60 to $5.70 per cwt.; export bulls $4 to $4.50 and export cows at $4 to $4.50 also.

Choice picked lots of butchers' heifers and steers, 1150 to 1250 lbs. each, and of as good quality as the best exporters, sold at $5.50 to $5.60 per cwt., loads of good at $5 to $5.25; medium, at $4.75 to $5; common stock steers and heifers $4.50 to $4.75; common mixed loads at 4.35 to 4.50; cows of fair to good quality for butchers' purposes at $3.75 to $4 per cwt.; common cows, at $3.50 to $3.75 per cwt.

For good quality feeders and stockers, prices are as firm as ever, but the common grades sell a little lower, as will be seen by the sales quoted below. Short-keep feeders of good quality sold generally at about $5 to $5.25 per cwt., but there were some lots brought more money. Feeders of lighter weights sold all the way from $4.25 to $4.75 per cwt. Stockers and stock calves from $2.75 up to $3.75, and $3.90 per cwt.

About 25 milch cows and springers sold from $30 to $55 each. Good to choice quality cows are in demand and more of this class would have sold readily.

Deliveries of veal calves or at least of the calf kind were large, more than 400 being offered. It is safe to say 50 per cent. of those should have been left on the farm, not being fit to kill and these sold at low prices. Prices were quoted at $2 to $4 each, or $3 to $5.25 per cwt. Choice veal calves would bring more money, say from $5.50 to $6.

Sheep and yearling lambs are not worth as much money as they have been, as more spring lambs and calves are coming forward to take their places. Export ewes are quoted at $4.75 to $5.25 per cwt., bucks at $3.50 to $4; yearling lambs, grain fed, sold at $6.50 to $7 per cwt., and common barn yard lambs are not wanted. Spring lambs sold at $3 to $6.50 each, and many of those offered should have been kept on the farm, as it is a shame and a waste to slaughter them.

Deliveries were large, nearly 2200 being reported since Tuesday. Mr. Harris reported prices as unchanged at $7 per cwt. for selects and $6.75 for lights and fats, all fed and watered.

EAST BUFFALO CATTLE MARKET.

East Buffalo, N.Y., May 4.—Cattle—Receipts light; market steady and unchanged.

Veals—Receipts, 100 head; steady to strong at $4 to $6.50; a few at $6.75.

Hogs—Receipts, 2600 head; active; 10c to 15c higher; heavy and mixed, $5.65 to $5.75; yorkers and pigs, $5.75; roughs, $4.90 to $5; stags, $3.25 to $3.75; dairies, $5.50 to $5.60.

Sheep and lambs—Receipts, 5000 head; lambs active, 10c to 20c higher; sheep slow; lambs, $4.50 to $6; yearlings, $5.25 to $5.50; wethers, $4.85 to $5; calves, $4.25 to $4.50; sheep, mixed, $2.50 to $4.75.

NEW YORK LIVE STOCK.

New York, May 4.—Beeves—Receipts, none and no trading in live cattle; nominally firm; exports, 400 cattle; to-morrow, 1200 quarters of beef.

Calves—Receipts, 367; steady for all grades, but not as active as yesterday; veals, $5.50 to $6.75; no strictly prime here; culls, $5; dressed calves steady; city dressed veals, 6c to 9c; country dressed, 5c to 7½c.

Sheep and lambs—Receipts, 880; sheep almost nominal, but feeling steady; lambs firm, but not higher; all early arrivals sold but one car; clipped lambs, $6.75 to $6.50; common spring lambs, $8.00 per head; few common clipped sheep, $3.75.

"My age is 74, still erect and active. About three years ago had stoppage of water, drew it for six months, then it came all right for a time. I have taken three boxes of your Smith's Buchu Lithia Pills and start today on the fourth box. They have done me a great deal of good. I take three pills before eating each meal.

Please send Free book and oblige."
F. O. MUNROE.

"Please send the two boxes of Smith's Buchu Lithia Pills and one bottle of Smith's Pineapple and Butternut Pills. I have taken three boxes of the pills and think they are good. My daughter, Mrs. Tripp, is feeling so much better and I am so pleased that you are helping her. When I come to Boston I shall call to see you."
Yours respectfully,
MRS. ETHELINDA D. STANTON.
Onset, Mass.

THE PROVINCIAL STOCKS LISTED

Important Measures Explained By Hon. Mr. Matheson.

TO LIST ONTARIO'S STOCKS

Government Railway Line Pays—Splendid Showing of Temiskaming Road—Hon. G. W. Ross Speaks on the Financial Questions Raised by the Treasurer — To Widen Sleigh Runners.

Toronto, May 5.—The feature of yesterday afternoon's session of the Legislature was Col. Matheson's explanation of the steps the Government have taken to provide for loans for the completion of the Temiskaming Railway and for other purposes. The resolution and the two bills providing the machinery for floating these loans were taken up in turn. One bill is entitled "an act respecting the Consolidated Revenue Fund, and the raising of loans authorised by the Legislature." It provides that the Government may create a permanent Provincial stock to be known as the "Ontario Government stock" and shall be personal property, and the said stock and the interest thereon shall be chargeable upon and payable out of the Consolidated Revenue Fund. The stock shall not be paid off before July 1, 1925. The Government may make regulations as to the debt and payment of interest, and may appoint one or more fiscal agents in London, England, or elsewhere, and agree with them as to the rate of compensation for negotiating loans. It is provided that loans may be raised by the issue of debentures or by the issue of Ontario Government stock, bearing interest not exceeding 4 per cent.

Sinking Fund and Annuities.
